HARNESSED

S. L. Means Superet Light

This Superet Atom Aura Science Discovery is proving the Superet Light Healings of thousands of people with Its Tremendous Healing Vibration Power.

As we also realize that our bodies need the vibration and also food for the body, so we eat the minerals in vegetables vibration; also the vitamins our bodies need. Also the water vibration which is also most important for us. For God, the Creator, saw we needed all for our body life which needs the Light alive vibrations and chemicals.

Then also, the Creator saw we as His creatures, needed not only Light for our bodies, but also Light for spirit and soul. So He gave us His Light Laws through His Son that we would learn and follow Him in obedience—which you will learn in the Superet Light Atom Aura Science to clean the Human sick Atoms, and empty them out of sickness, darkness, sin and poison, and to refill them with the substance of Light with the Superet Light Treatment of "Heal Thyself With S.L." Not only in body, but in spirit and soul to become a light bearer for God, Who has the Dynamo, Superet Light, That gives us—if we are ready—the healing Light for soul, spirit and body.

This Atom Age proves now with the nature Light Atoms harnessed—the Atom Bomb. Why not our own Human Atoms harnessed for the God's Superet Light Atom Bomb to heal us, to love God, and all mankind? For all countries alike belong to God, and all humanity;

and this planet is His creation—and it only can be kept up with God's Dynamo, Superet Light.

The first Superet book of 1925 with the Charter of the U.S.A., and the following twenty-five books—also chartered—are necessary to be used in colleges, schools and for all religions, cults and teachings.

Your life needs this Superet Light Atom Aura Science—not just the hot and cold light, but the highest Light, Superet.

Now in nature, we see the cold light in a glowworm and fireflies, and other little insects for mating—just like in people also they have Auras. The chemicals and light colors only differ in vibrations.

The world scientists have discovered, if the insects' organs would be ground into powder, then from that powder, cold light would be produced—as the A.T.P. chemical is required for muscles and nerves of human as well as all other animals.

As there are different types of fireflies, some females accept the male's greenish signals; but others want orange signals before they mate. This Aura they show from their cold light.

There are also many plants, vegetables, trees, that show light. The Aura Light Scientist saw in the 10,000 year old redwood trees, cold light vapors at night coming through the bark which could be plainly seen.

So this proves all have different chemicals combined in them, and are very much united with the human cold and hot light. In this Atomic make up of the different lights, the world begins to study.

The beginning of the cold light we have in neon lamps and television, etc. The Light Aura Scientist was teach-

ing this years ago; but no one accepted it. Now the world scientists are proving it with their machines.

How the Founder of the Superet Light Science Method proves with the healing of the thousands of people, which is neither hot or cold light, or just alone of the material nature; but with the Superet Light Science Method, how Atoms are changing into Light Atoms with Aura colors proving; for even the insects know and see the Auras of other insects.

Superet Light Method is not only for the grown ups and parents, but also for their children—as they can use It; for It is so simple. It helped children even deformed or bad, of uncontrollable tempers, and of all diseases have been healed; also many having undeveloped spirits that controlled them. Some were helped from prison, from degeneration; crimes were prevented.

No child, old or young people can commit crimes using this Superet Light Method's Laws. You will see the change in yourself, and in your children which all your talking could not help—like this Treatment that each one can help themselves with even in accidents, for mothers bearing children—a great help mothers will have. God bless all mothers.

Introduction

In the year of 1938, the first magazine predicted the Aura of the world. You will find the things have come to pass. And now has come a new Discovery from the Light Aura Scientist, Dr. Trust, who not only sees the Aura of humanity, but also the Aura of planets' Atoms Aura life which shows here and hereafter.

The Aura proves how this great study had to be scientifically studied of the nature light Aura first. The law of the nature light is omnipotent; and your belief makes no difference to the course of refining you must undergo to learn to earn Light to become perfect. You and I cannot undergo this refining apart from our own volition. And, no matter what the belief is, it comes by the inexorable law of nature. We can do nothing to prevent it, but to learn this Law.

The Light Scientist says, that after years of study and learning of the nature light laws, and the higher Light Laws of Heaven, its planet, the Discovery of a new Planet was found, and to be true by Its Light of the greatest immense Purple Light Stream which was something like the radium is to the naked eye.

The learning of light measurement and the Substance of brilliancy which this Purple great Light held was unbelievable on this earth. But, now as It was and is accepted by some scientists, this Truth must not be hidden any longer; but is for all to know and learn to see the Aura Light from this new Planet which sends new Power Light to all. We believe It is and has come now for a purpose. At times It is very dim; then

again very bright, which looks like It works with a Light code to us and planets.

"This great Wonder in Heaven will give us help," the Author says. "The Planet's Aura is so wonderful for this time of need."

Learn the Human Aura Wisdom and help your whole family and all. Also the Atoms of the earth-colors in which you will find many hidden Auras' secrets.

The scientists of the materialistic world cannot agree what the primary cause of the Aurora Borealis is, but it has and is only a visible emanation of a tremendous magnetism of the planet. This Aura can only be seen once in a year.

As all things partake of the chemical nature of the earth, so must all things be magnetic according to their degree. Even though we have and also use the universal magnetic fluid of power for all purposes, it is only in a mechanical sense that we consider it. This is considered by that—the limit of electrical power can be attained by mechanical means.

Now we only think, and our minds dwell and are occupied with only matters of self interest of a material foundation that we do not have the desire to probe into the question of the material magnetic formation as a personality, which could be discerned by the Aura of a spiritual higher magnetic personality within, of a light shining within the soul. We are only seeking a pretty face or nice personality's soothing word of the deceivers or flatterers.

There are many formulated theories that often differ from their contemporaries. The Aura is just as much

a part of the personality, materially and spiritually, as the face is. Even more—the Aura proves facts!

Let us study more the “within.” The Aura will tell you not only your future in this life, but hereafter where you will belong—light or darkness.

Learn to know that where there is a storage of magnetism there must be also an Aura emanating from it. The Aura of the world in 1938 had a dull grey with flashes of scarlet grey green streaks, darkening to a deep bronze. This Aura proved much mental indecision and fear; and it came to a climax before 1942.

Today, the Aura of the world is darker in red, mingled with black streaks or lines that run from the bottom upwards in crooked lines, showing a smoky condition, which, if not dissolved, will bring disaster to many cities.

Now comes this great Discovery by the Light Aura Scientist of many years study of Auras of cities, and also of humanity here and through Europe, in which were found many secrets that will help, but cannot be told here; but they will be given out by the Lecturer at the Aura Auditorium which was built as a college for study only of the Atoms’ Auras, life and wisdom of the Human sick Atoms, of How they can be changed to health, happiness and no longer disaster or fear of the criminal destruction of obsessed human beings who are often partly insane. And the world does not know, but believes them according to riches, or also their nation’s power, etc., or money schemes in wars.

How many parents have brought their children to the Light Scientist for help. Small as they were, already some had committed crimes, stealing and wanting to

kill, etc. Now all the words of the parents did not change them; but the Aura was found with those dark sick Atoms filled with darkness that had to be changed. The same with sickness. Even if you are operated on, those dark Atoms are holding that substance that has to be overcome; for even the operation cannot remove it—only the Science of the Superet Light Laws. For Superet is the highest Light.

Prayers alone cannot earn this just as you cannot have bread without labor, money. You must earn both substances. The same with your Human Atoms which must be earned with two substances to dissolve the darkness. Then a new Atom of Light must be built. You cannot put new wine into old bottles or into old poisonous dark Atoms. The Light Aura proves facts.

Learn to Heal Thyself With S. L.

A secret means, concealed, unseen, something unknown or hidden, which means all this; for It is the Superet Atom Aura Science Teachings. The secret is facts. You feel the healing and help coming with the first treatment when you follow the Laws as given here in this booklet of Superet Light Method.

Realize, you are bound to feel better—as this is the Light Science scientifically explained of many years study. Not just of the nature light Atoms, but of the Human Light Atoms. For there are Human sick Atoms that bring sickness for humans.

Now in this Atom Age, you will believe more as you see the facts of the nature Atoms, when harnessed, changed. What can be accomplished with them, good or bad, or destructions, the same within each one of us takes place. Learn of how this Science Laws must be applied to the Human Atoms' life—which also holds the substance, good or bad, or destruction, but of a different Aura color—proving not only the body nature Atoms, but also the spirit Atoms.

The first, greatest Super Scientist, the Lord, said to the sick man with the sick body Atoms, "Come out of this man, thou foul and unclean spirit." With this He proved to all His Science, that this man's spirit had sick or dark substance of unclean Atoms; otherwise, that spirit or spirits could not have remained or come to him if he had Light Atoms. For Light Atoms, like the sun vibration, helps, heals, or destroys and kills, which is proven when you do not know the sun's laws of nature.

Now, the Superet Atom Aura Science, or for short, is S.A.A.S. The Superet Light Atom Aura Scientist, Dr. Trust, Founder, is also called affectionately by the students, Mother Trust, because of the many thousands of healings that are proving with facts as you will learn in this booklet.

As Light has many different vibrations and colors, by degrees, the Founder said of the years study, that the highest Light was found by Its Purple color above all most brilliant Lights. Superet Light was the greatest.

Learn Superet Atom Aura Science Rules First

How the great discovery in this Precious little booklet will open the way for you. As you know what the nature Atoms can accomplish—the facts have proven it—how much more the purified Human Atoms when connected with Light can accomplish for your happiness too and the world!

You can heal the sick Atoms yourself by cleaning out the darkness; but even so, some of the mind-fear returns—also in some of the organs or senses. Many times it is for a greater development for Light, to earn it with patience. This is the real healing—to earn patience, and to earn light.

How few only know what it means to earn a Light Atom within you. When you do not know the Law, seek, “So shall you find.” Here you have the truth. Use It, dear one.

God loves Light. For He could not live otherwise but in His Own Light. His Aura proves in the Halo Light maybe in or of the new Star or Planet that has come now to help us with Its Light Stream, which we cannot always see; as the darkness, like clouds, wars from humanity, obstructs It at times. But with the Laws and prayers many now can see It.

Now you will know that in Superet Light Laws, you only can earn this Superet Light Healing. With no other Light power can sick Atoms be broken!

To "heal thyself" with an explanation of that Method is given to you; for everything in life is given to us from the Light Creator of life. Naturally He will not forsake His Creatures whom He gave life to. We have the higher everlasting life above all animals, and even above planets and stars; because we must develop the Light spark, or soul, that He has given us. So He made us after His Light Image, which is Light, male and female alike, with His Light spark for our souls equally.

As each one must develop this Light spark in soul, the Creator sent His Son to earn the Light through His Human Atoms, through a man's body and its desires and temptations—proving it also with poverty and insults.

He said, "I am not good; only God is good. I can do nothing. Only God does the work Who is within me. I am the light of the world (with the Superet Light Connection)."

Now, on those Words, the Light Aura Scientist, Dr. Trust, worked—How could the Lord get the Light, and what Laws, religion or Light did He use? He certainly must have had separate and higher laws that He did not

give to the mob. He was called Master by the Apostles—not with personality or earthly riches, or by His Miracles. But He was proving it with His Light Riches which He earned first to give out His Teaching of Light with the Light Laws; not only to the Apostles, but also to the Holy Mary. And She repeated Them to the women that were ready to follow with Her, the Light of the world.

“This started my heart love for the Light, to find it,” says the Light Aura Scientist, Dr. Trust, Who also says She had to study first the nature light Aura, and the Human Light Aura to find the Atoms’ substance or Ingredients that were hidden as a material or spiritual substance; as all is matter and goes into a higher matter of Light. For science can only be scientifically explained and proven with the chemicals’ life within us.

My finding was in studying and seeing the Auras of humanity, of all different nations, religions, colors. And with traveling, I became a lecturer and world traveler to find the difference of Human cities’ Auras, and who had the most Light Aura’s vibration.

Fifteen years ago, in my dream when I was in Jerusalem, I heard a voice through a Light stream saying, “You did what I told you to do in starting the Superet Prince of Peace Movement here. For those vibrations of prayer in Auras remain here, when the city is taken, with blessings to help; as both religion and nation Auras can only then and only then unite in Light with their Auras prayers. No other way could they for 2,000 years be at peace. God’s Light is and gives Love to all and the Ruler. Return now and start the new Jerusalem Light City with the new Purple Light Planet

Star that you saw in the Heavens. It's helping Light to bring peace on earth, starting with the city, Los Angeles.

On my return, all things changed for me. The new Aura Auditorium was built. Now on the other side of the Superet Light Church which I started years ago, that lot was also sold to us and we started the Superet Light Prayer Garden. And the next lot with the house is now the Church Rectory. Then opposite is a big mansion which was started for our Superetist ministers and students; also a truck for the buildings' use. This came all suddenly; for I did not pray or ask for it. Neither dreamed of it, as I was satisfied with the little wooden Church, and also not to be known. I wanted to work silently with Auras for people to bring God's Light; and in explaining Jesus' Teaching of the Aura Light to students of and for all religions so to grow more in Light.

The Science was accepted by many religions in Europe and here—as all religions want the highest Light which comes from God's Heart, Whose new Name of Revelation was found and is called, Superet, in the Light Language, which the Author found after years only by the Vibration Light Language study from the Bible.

Now you want to know how I got the money. From the people only that were healed. Not charity; but giving their love offerings to God in gratitude. Many suffering incurables were all saved and earned Light.

You now wonder how my dream came true, and that I had no idea or asked for it. God works silently with His Will. For it is Light. Now through the years of suffering, my will died slowly. I prayed often to pass on, but wanted to earn more light, and to help people to earn Light and to be healed and happy. My wish

came through, (for only with God's Light we can help others) even as a young girl in the New York Water Mission when I was serving, seeing the people suffering and poor; for I was also poor and suffering. But I was healed by God's Superet Light through the Lord's Teaching.

Now the greatest miracle is in getting those twenty-six books finished—all explaining Jesus' Light Science leads to God's Superet Light Vibration, His Method of the healing with light for the soul, spirit and bodies. Not in any other way does this Light come—but only in the Lord's Light Way. For each one needs help.

We have five hundred Christian religions of different vibrations which we need; but the time has now come to give to the world this Superet Light Science of Healing, of the "Heal Thyself" Teaching that the Lord used in His Healing. After the discovery I found It worked wonders for me and others.

Would you now like to learn and study scientifically the Superet Light Healing Method? Maybe you do not get what you wish at once. First try even a little to surrender your will like the Lord did; also I had to learn to surrender before I could find those Superet Light Laws that I'm now giving to you with all my heart for you to be benefitted as I was.

To "heal thyself" means: Start with the Aura facts to know thyself first within. Not just for your sickness; but what makes it, as it will vanish if you follow. Learn to make the Aura Chart. It will help you also to read some of those twenty years of study scientific Superet books or magazines that are sold in the stands, small

and large stores in Los Angeles. We also send books through the U.S.A., and Europe.

All those Aura books will help you as you know this is not a money scheme. For we could not get all that help from God's Light in a money scheme; because that would create a darkness in our Auras—which are not just words, but with facts of light in the Auras that you will see.

There are many teachers now also in different light science teachings helping in Christian Philosophy, also in Light Science, with Light steps, for this is also needed; as all leads to learn of the different light vibrations' steps of light. But this Superet Light Science naturally is the highest. For It is God's Heart Light, Superet, that we want; and It is what the Lord Christ taught to the Apostles, and revealed the new Name, Superet, in Revelation—for that, the new Name would not be lost.

Christ's Teaching was in Light steps for all people to learn in religions and cults first of Light-use; for all must come and rise homewards to Heaven, God's Superet Heart Light. But first through Christ's Heart we must earn His Light. And as He has risen to God's Superet Heart Light, so must we rise to follow Him with all our hearts.

To be more enlightened and not to suffer any more, you now will earn to "heal thyself." Not as a beggar, but as a light bearer, earning it with your Atoms' Light—proving with your Aura. Only facts count with God—not words!

Those thousands of Superet Light Method healings were often done silently and without touching the people, without affirmation of self-will. But, only in sur-

render to God's Will, holding Light Vibrations which you have earned as students and instructors to help others with this Superet Light Method, and giving credit to God, Superet, in Jesus' Name only. Also watch that no other name but the Founder, Mother Trust's name be used, Who unearthed It, and is the Founder. Often say, "God bless you Mother Trust." This will help Her and you together. Love each other.

Realize Superetist instructors that nothing fails in this Superet Truth if you work humbly without gain. But if a love-offering is offered to you, accept it. Let not any vanity or money scheme enter you; for then you might, or will lose the Light Vibration which is the most precious treasure in your soul you've earned.

The tempter might tempt you, but as you follow the Laws, nothing can have power over you—which I found out when being in Nazareth, Jerusalem, among bandits, traveling with them most of the time in busses.

Remember, be fearless and give all the glory to God. Teach those also that will be your patients or students to help to do the same. Even through my many years of seeking, studying, finding and then using this Superet Light Method, it was for humanity, and for the glory of God.

The Origin of the Human Race

As we read in the Bible, "God made man after His (Light) Image," this means with a Light Atom, spirit—for male and female bodies alike to have life within, which is the Spirit. As God is Spirit, the Creator of all life, so we all have the spirit light spark or Atom within us.

We are free to use the spirit and body with our will. This freedom God gave us only to find out how we would follow His Laws from His Spirit Life for Light, to develop, to obey His Light Laws.

As God also gave a spirit for life to planets, stars, sun, all must work with Light Vibrations; for God demands to follow in that Law. As each obeys, so much light they earn. The birth of the soul begins only through the Light.

Now you see there are some soul-less people that are criminals, having only animal or undeveloped souls of darkness.

The atmosphere of this planet differs in Atoms from the planets, Mars, Venus, etc. All have different Atoms, for the color vibration shows in their Auras. The same with humanity, animals, etc.

How the world scientists found that not only was there proof of the literal blood relationship between man and apes, but they agree in relationship of the different groups of apes! The fact also was established that the blood serum of a rabbit which previously had human blood injected into it, formed precipitate with human blood.

This all proves that all flesh is connected with chemicals of different kinds, of which we in our bodies must develop out of. For we must have consciousness of God's Atom Spirit in us dwelling.

There are mental powers of man and animals. The difference is enormous—but not that any fundamental difference between the two can be found.

After observations of thousands of people, studying the Auras, the Light Aura Scientist says that all are ruled by their Human Atoms' substance—sick or healthy Atoms of the body and spirit. And both have to change in chemicals with a new substance which prayers or religion alone cannot do without labor of physical and spiritual labor. Those are two different Atoms' chemicals that need a different substance which the Aura showed of the many different humans of different countries that also have different atmospheres and different nature Atoms—and the same with people.

Look at the decorative colors of birds and the beauty of all nature that God created. But humans have a greater beauty—a religion, a belief in God; and much more now since the Saviour came and proved that His God is Light; so we must all learn to become light bearers.

Even in the oldest of nations and religions, all believed in the creative principle. This for instance proves in the Chinese symbol, given in the Atom the outline of Yang and Yin, that is in the symbol of the egg or Atom form. It encloses the product of the first cause in themselves denoting male and female—the positive and negative elements of two Atoms possessing qualities

suited to specific duties for which they were best both qualified.

The Chinese are ranking in mythology; also ranking in creating with an assignment to bring universal order out of chaos. The old race knew of Human Atoms already, but did not know how to change them. Only after the Saviour gave us this Superet Light Atom Aura Science, which Dr. Trust found, and the Light Laws which the Saviour used on Himself to earn Light in His Human Atoms instead of darkness. He proved it with His Aura Light.

This Superet Light Atom Aura Science is the same as He used, His Laws, which we use also, earning and proving light with our Aura. No one can dispute this because facts prove in our Auras.

There is a wonderful development awaiting us if the sexual character, after mating, would be transferred upwards to the solar plexus, and that creative energy used for the soul to earn this energy for Light Atoms development. The spirit and soul would quicker earn the light; otherwise if this is misused, it forms darkness. Because it is called "adultery" in the Bible. Humanity must awaken. But this will only take place in loving God more than loving the organs of human male or female bodies.

How Aura Gravitation Attracts

Gravitation is the species of attraction which all bodies or particles tend towards each other. It is the power and law of attraction between the center and gravitating force in certain laws of matter like tears that have their globular of the same law of attraction.

Now tears mingle with each other in chemicals; so do the suns and planets like in mutual revolution at a distance of millions of miles. This is a sublime simplicity, and is all a mathematical basis of chemicals.

There is also the discovered activity of the earth just as in the sun. Dr. Trust spoke through the radio in answer to a scientist speaking of gravitation. He said that "There are places where there is no atmosphere or life." Answering through the radio, Dr. Trust said, "You are misinformed. If there would be places without life, light and no vibration Aura but darkness, it would be stagnant like the water without vibration. This poisons the water with germs; drinking it, people die. So the planet would be infested with a poison. But God's Creation is perfect, all with Light and life. Only what we create with Atoms we put into us and in the atmosphere, the darkness, sins, or obedience and light."

Now the oric atmosphere of the sun holds the Aura in the ring of the earth and pulls together by its electric and magnetic force. So the planets, at times, throw a mass of the earth which is a burning substance. This all is a proof that it was in a fluid state at a time, united with a substance that was electro-magnetic that had to burst into ashes. We would say, "Now becoming sur-

rendered to Light," which we are learning through the Superet Science, Jesus' Light Doctrine, and thus entering into the new spiritual gravitation of a new life in soul. The Master said, "Ye shall be born again." He meant in Light.

As our will and mind are also electric-magnetic, corresponding with the earth magnetism, and connected with the sun rays in body, this is all made of chemical-lives for self only. We say, "self-will selfish purpose of self-love," which is only flesh love. As God is a Spirit, all have to obey and change into a spiritual form to Light, to come forth like the seed bringing out a tree bursting through the earth. So the soul must come and burst out of darkness—to come forth naturally—but only when the earth or body flesh has surrendered its will.

Now this hidden Truth of Superet Light Science will bear gifts from the spirit with Light. The Master brought it to us to bring out the Glory of God, which is His Superet Light.

We cannot remain any longer lukewarm; for God will not ask us on the Judgement Day, what nation or religion were we in, but what light Aura have we developed. No longer can we remain only lukewarm or fanatics, but a free soul with Light. We all seek freedom naturally—not by force or fear.

Success can only come in a greater effort from the Light connection. Superet Light demands a higher light consciousness to become connected with the highest Light—not any longer for self-righteousness, but to do God's Will. And we must learn what His Will means. If we learn that His Will is Light, we must learn His Light—of course.

God's Will is the color of Purple; where our will shows in the Aura a dark red, black grey, or all darkness.

The Author, studying colors of many Auras of humanity, saw very little light of humans surrender to God's Will.

You can see now why the Purple Light from this new Planet is coming in a Purple color to warn us for us to do His Will.

Realize also, the Master's Words always were saying, "Father thy Will be done," holding the gravitation of attraction to God's Will all the time, giving entirely up His Will, His Ego.

How Planets and Nature and Human Atoms Aura Differ

In this great Atom Age, we are ready to learn, and are curious of the different Atoms that cannot be seen with the naked eye, but by their Aura. We know what substance they hold. We know of the past mass of human beings in planets, individuals, families, races, religions that tend to raise themselves above the common level. Painfully they climb the stony and rugged heights. Sometimes they attain the summits of power of wealth of intelligence, talent; and then, no sooner are they there than they topple down and disappear in gulfs of mental and physical degeneracy. Why?

Now throughout the whole scientific world, there is

rising a new life—an eager endeavor to get to this Superet Light Science to penetrate more deeply into the origin of Light life.

Religious consideration and old prejudices to accept light is proving soul-less; as no soul can live without Light. This should be the greatest study, How Light starts within us—like a baby in a mother.

What has been the fate of the Saviour's Light Doctrine since His great achievement of His Light Laws He gave to those that had to die by the hands of those of darkness, living only for the outside life?

We have now at our command, an incomparably greater wealth of material and spiritual Knowledge than they had at their disposal to meet the uneducated and narrow people at that time.

We know now the transition forms that help to fill up the gap that is still great between the lowest human race and the highest apes. We are of a greater race by being intermingled with all different races of humanity and vibrations in America in the study of light and darkness. But not just of the material worldly Light wisdom, but entering now the spiritual Wisdom with facts proving by our Auras of the "inner" man's life and color of light or darkness, which is no longer make believe or man-made creeds, but God-made Laws of Light.

As we have to climb from one Light of a lesser to a higher by degrees, we can at last, through the Saviour's Light and His Study through His Finding the connection with His Heart Light to God, Whose new Name, Superet, He gave in Revelation to the Light for the "Light" seeker, which Dr. Trust found through His

Light Language after years of Light Bible study, seeking the Light. This uncovering of the Name, Superet, brought a Purple Light Ray which She saw in the Name, and to this planet again, Whose Fire, even in a small vibration, can be seen by many. But, to uphold this little Superet Precious Flame that is coming to this planet, to save It, and us, we must keep it up with our love and its Laws as given by the Founder of this Superet Purple Ray, which the Lord has been connected with, and is drawn to us humanity now.

You all can see how powerful it is that darkness and men killed all those that believed in It, Jesus' Laws. Even today, how many even want to believe in It or accept It on account of their prejudices and narrowness of accepting Light—which is God's Light from His Heart and Jesus, coming to our hearts.

This little booklet holds the last call from the Saviour Who died for the Light to overcome darkness for Light. Not just talking of just Light, but of God's Superet Light Science. Now do not wait if you love God before you pass on.

This is the scientific Science of Light, which chemically must be proven, and must show with facts that we humans are His followers with the Light within us. Not just talking alone, or personalities, creeds, but by our Aura which has to rise above our ancestors and forefathers in Light—as It was not then found or revealed to them as It is now through the Founder-Light Scientist of today, chosen by God.

We have the magazine, "Light of the World."

Stages of Light Development

You must learn to feel the different Light differences. There are many differences in different Lights. Even the Anti-Christ and evil have light that you can see plainly if your eye begins to see. You would not know whose or what kind of light it is—as they might shine in a bright color.

So it's important for you to learn the difference to understand with whom you're dealing.

There are criminals who have magnetic light, born with gifts and personalities. You know there are lightning bugs and lightning eel, fish, etc.; and we know, because of their color's Auras. But, as you do see the light, you must learn to know the difference—not to be misused by any.

Remember, everything that disturbs you is only a lesson. Accept to learn the daily development for granted. To learn patience, concentrate on God's Will that is Superet Light, from Which you want to earn the healing. This great lesson will be a wonderful help to you as you begin to feel the different lights vibrations when you hear the different Light lecturers. You will begin to feel the difference of warmth before you can feel the Christ Light in one or more in your senses.

This is very important to be conscious of. You must feel it for yourself. Then inform us in what sense you feel it first. This concentration is like that of hearing a voice clearer when you are in the Movies. You draw closer and listen. But in this Light Treatment the volume of the singer's voice counts. And that can only be

developed by the higher Vibration of Light—as everything in life needs vibration.

Every organ vibrates differently: the heart and the lungs vibrate differently than the kidneys. But all must vibrate in order to a law—each one, like the fish in the water, the birds. The eagle, king of the birds has a higher greater vibration in Atoms, and flies the highest.

Now the stars, when you study and watch, each has a different light also. Why do you feel the sun's light vibration burning you and you want to go away from it to find a shade? So it is for you in the development of the higher Light of which you will learn by the Light degrees—which I am teaching you here—as this is very important. You might stay in some lower or undeveloped degree of Light and pass on without reaching to the higher Light, to Christ's Light first.

Many Ancients and religions all were seeking for a Light teaching and only talking of Christ Light, but did not know of Light Laws, and remained unconscious.

Now do not just listen to “people of talk” that do not know about light Laws but only see Light. My study as a child, seeing the Aura, was seeing also light of the people, churches, countries. My life study for years was to seek for Laws of the brighter, higher Light, until I found the difference of Christ Light, and of other lights. The greater discovery came of seeing the Superet Light after years of study with the Light Planet or Star that appeared.

You will be delighted with this study of the Light differences, and to know the step to take for further, a higher step in Light when you come and study with us The Aura Light as given in the lectures and classes

by the Light Aura Scientist Who is acknowledged as one of the greatest in authority of teaching and helping you to develop in Light. For this is the most important in life to earn here and hereafter! You will be convinced when you learn to see and feel in our classes.

The Light Aura Auditorium is only twelve minutes from the heart of the city of Los Angeles, and is so easy to find, every Tuesday evening at 8. And, also the Rose Garden for your meditation will give you rest and peace that seems to be "away from the world." Many have declared of peace, the healing from the Superet Light which you become more conscious of.

All this, the Founder, Dr. Trust, has given to humanity to learn about the different Lights, to come to learn and to earn the highest Wondrous God's Healing Superet Light, that is free to all, with love to all. It will give help to all alike, sinners and angels alike. This only is the whole Truth.

This Superet Truth heals because It is God's Superet Love Light. It never failed the Author and those that followed the Superet Light Laws. By the thousands they were healed.

Remember also, when you read the magazine, "The Star of the Future Heralds Future," this tells you also what you need in this life, vitamins or elements, and minerals needed for our bodies—but we must have a different substance for our souls. We need the Light Mineral or vitamins.

Now we must know the names in wanting the mineral by name. The name holds and means a substance not organic, an existing one or in the earth impregnated with the minerals' substance or vitamin. All those min-

erals have light of a different color. Every vitamin you take has a light for your different organs; because every organ needs a different light—according to what your Aura shows, of what kind of light it needs. So the same with your spirit and soul.

Watch and see how your character changes. You will begin to feel and long for a higher vibration of Light. That's why many go from one country to another. The same in religions and people always seeking. But here, at last, you find what you were longing for and did not know. God's Superet Light that heals, gives a new life to you.

All is good; for the different Light in all helps by steps of Light in religions, spirits, angels, human beings. All can help with Light. But only God heals through Superet Light—not just the body, but soul—not only now, but hereafter. The Superet Light will remain in you, and other Lights will leave you.

There are many Light healers and healings, but this healing discovery comes from God's Superet Healing Light; so we must earn it with love and purity for God. All angels, spirits and we must live a Light life. But all can do nothing without this Superet Light. Angels and spirits know it; and It will help people to inspire all to come to God's Light—as they all must have it; otherwise they cannot come to God's Heaven which someday must be your Home as a reward—to go Home to God, to rejoice forever in God's Superet Light!

Important for you to know, the many that will read this booklet, you as many others, also teachers or scientists of light, different religions, Christian, Philosophy or Theosophy, cults, etc., that will use this Teaching:

they all are welcome; but they must use it with Dr. Trust, or Mother Trust's Name, Superet Light Science, the Founder of Revelation new Name, Superet, through the Superet Light Laws. For She also reported of the coming of the Purple Planet's Light She saw years ago, which now, after years, can be seen more plainly.

The Name, Superet, was copyrighted in 1926 with the Charter granted as "The Superet Light Doctrine and Science by Dr. Trust." When you hear anyone teaching or lecturing, also in books of "Heal Thyself," find out if it is by Dr. Trust, Who is the Superet Light Aura Scientist. Only follow this Teaching. And please report to the Author the name of anyone that is or has used It for a money scheme, or with misrepresentation. The Author's booklet only pays the printer and is not a money scheme. The Founder wants humanity to be benefitted with this which is a Spiritual Law of Electricity which the Founder learned after years of the danger of misusing It—as She has the Laws of the different Vibrations of Light and gives It out in Her twenty-five Light Vibration books of this Superet Light Atom Aura Science. But Dr. Trust has never given out this "Heal Thyself" Secret in a magazine before of how to S.A.A.S. "Heal Thyself." This, Dr. Trust received in a Light and a Voice in a Dream to bring this out which you now can learn to do yourself. This was Dr. Trust's Method and science after years of thousands of healings which She used on Herself and on others, and It never failed, and never can fail.

Everyone must use This in years to come, because, this is the Truth of Light Healing—only in Superet Light Laws.

Please protect this name, Superet Light, by Dr. J. C. Trust, S.A.A.S.

What Superet Light Method Produces

This produces a light chemicalization through the start of properties or chemicals not only for your body, but spirit also. You will feel using this Method when a new sensation of peace and a soothing restfulness takes place at once in you.

As the Human sick Atoms are closely interlocked in us, sometimes they must first be unblocked through the new chemical that you must create. With your longing and prayer for light, this feeling travels in the blood and gathers other good chemicals which unite like birds of the same feather.

As the heart is the life center, you must build this chemical first with your heart-feeling; then you become conscious, thinking in your mind with a sensation of disgust of unclean thoughts; all of which will be dissolved through the Light Atoms. But first, you must create the substance chemical that produces this chemical.

You take chemicals for the body vitamins—all differ. So the Atoms. You must take time for this "inner" man; for this is most necessary. Why? Because it makes the "outer" man respond to health and freedom from self that produced those sick Atoms.

Have a definite time each day to use this Superet

Law for healing. This treatment relaxes you more because you are building the chemical for relaxation. And peace starts—a personal peace that stays in your chemicals through which you can control better your emotions. For emotions' vibration takes your energy. With repentance, that starts those new kind of chemicals which you may have started already.

Now you see that we live by vibration. We must know how to uncreate this scientifically; so you not only have your protection for Human Atoms, but they are turned to Light. God protects a builder for Light. This Light Power overcomes the darkness or sin. Just talking alone doesn't help. It goes with the wind; not mind, but light chemicals remain forever in the heart.

Why be discouraged? When all is lost, often success starts—only as your Aura changes. To how many I have told this story when they have come to me discouraged and have given up hope. The changing of Aura color-facts will prove with Light.

To operate your own radio within yourself, make your Aura Chart, and you will see that greater success comes than you had ever before.

This experience has come to the Author who never dreamed of such great success, which has come to Her after years of sickness, tribulation and homeless. All success came in finding this Lord's Wonder Teaching with the new Name, Superet, and Its Light, and the Light Laws.

The success is unbelievable when you follow the Laws precisely, faithfully, which are so simple and easy that any small child can learn and use Them. Even the children that followed It learned quicker and stayed

healthy. No child was sick a long time, but stayed healed by God's Superet Love Healing Light Laws—healed also to be good girls and boys, and obeyed their parents, and are grown up and have big jobs today. They are men and women that will testify of this truth to anyone, and have begun to see the light in their Auras.

Open up your mind. Respond to the Superet Light; because you cannot affirm light in you, but earn it. Facts—not just by thinking of it; but by following the Superet Method Laws—earning the Superet Light Love Laws of feeling for God. And that feeling develops the substance in your Atoms. No other way—but proving facts with light!

Heart love has a great meaning; for there are hundreds of different colors and vibrations—feeling-love-vibrations. But there is only one white Superet Love Vibration. The real love for God is with the Superet Light Laws—proving your love with your Aura.

Superet Light Science Healed Thousands

This little booklet is precious as you apply this Superet Light Method. Do not be surprised if you become instantaneously healed—even of undeveloped forces, voices, dreams, any kind of disease, and even if physicians give no hope—if you follow consciously the Law as given here. But, do not doubt, or question, but believe!

Have no fear, as this won't interfere in your religion, creed, cult, nation—for Christian or Jew alike.

Realize, your duty is first to yourself to get rid of Atoms' darkness.

The proof here is of people twenty-seven years ago that were healed of cancer, bone tuberculosis, lungs, kidneys, etc., that stayed healed those twenty-seven years. Write to us and we will give you the proofs.

Dr. Trust does not ask for anything but to help you, dear ones, and others to try It out for yourself. Then when you get the healing, help others. Give the purity to God, and gratitude. Write to the Author in keeping up the Light Laws.

You're asking for healing: You want to go to the bottom of your sickness to find the cause of the matter to become healed. God is the Healer here; and you have to be truthful in Light.

No matter in what religion you belong, this Superet Light Science will help you and will not interfere. This is the Science of Light, and you use the light by a Sci-

entific Method. God is Light, and His Light heals through the Master—His Son's Light Method—which the Light Scientist-Discoverer, Dr. Trust, found after years of nature light and Bible Study.

This is not just a mind or faith cure; but a Light Science—God's Light Cure if you obey—as God only heals through His Superet Light, and proved it through His Son with facts of 2,000 years ago, "I am the light of the world." He healed in the same, the Light Superet Science **only**.

This is a natural Scientific Chemistry given after years' findings of Light Chemicals which you read in this magazine. You will feel the joy that something is taking place in you for the better—a love for God you did not have before.

This great Secret is freely given to everyone—as the Light Scientist gives It to all people, religions, Christians and Jews alike, only to help humanity as she was helped and helped others.

Why is this a scientific Method versed in Science? Because It never failed or fails in the Superet Light Science Laws the Light Scientist of the thousands of healings, of facts of thousands of people of all kind of diseases. Dr. Trust will now reveal to you Her found Healing Secret and Method, that as you faithfully use the Law, do not be surprised if an instantaneous healing occurs. This is the new chemicalization Light progress in the chemistry of Superet Light.

Many witnesses will testify that were all given up by physicians that were healed twenty-seven years ago and stayed healed all this time.

Follow carefully the Superet Method—as It will not

interfere in your religion but help you to live in it, Christian or Jew alike; because It is a science—scientific—Jesus' Light start of Christianity. Accept It. Facts will prove in God's Superet Light. Facts will prove to your own self at once when you read this booklet carefully and use those Superet Laws.

This well known Light Scientist, after thirty years of healing all kind of diseases, is giving to you this with no money scheme, but only for the booklet expense and printing. For you must know of the many suffering in agony, sick, heart-broken people She met. This will also give you a new life which no money can pay for—as It comes from the Lord, the greatest Jesus' Light Scientist's Love, in helping suffering humanity.

This Secret, after years, is found that not only proves that It heals sickness, but helps positively to stop war and bring peace—not only to you personally, and to your home, but the whole world will be benefitted. And all those that you will give this booklet to will bless you forever.

You start to feel it as you read this booklet. Do not doubt; the healing will come unaware when you keep in those vibrations that are in those words, Light chemically imbedded. You might not see the Light, but you will feel It! For you must earn the vibration of harmony first. A happiness is kept up with harmony—a light vibration—not affirmation or denials alone, which is all made of self-will for self, and to hold sick Atoms filled with darkness.

Every ill must be rightly met first physically and spiritually to become superior to darkness and sin. The security for the harmonies and an everlasting being

is found only in the Superet Light Atom Aura Science; so when you learn the Laws how to earn the Light in your within, and your Aura shows light on the outside, you and others will see the facts. Then you no longer will just believe, but will know the truth with facts that you have become a light bearer.

The start is made with the heart to be willing; and the feeling travels to the mind and builds an Atom with that feeling. And the mind begins to unite and opens a way to the will, eyes, ears, nose, mouth, and the senses' center, to those feelings' energy with light vibrations. Willingness starts.

You begin to feel happiness—looking and hearing, sensing and talking of happiness with your five physical senses' light. And, as you hold them in harmony united all in your mind, five light vibrations have started. Then the rest.

It would be very simple to say, "I hold my mind for harmony," but soon it is broken. You have not earned nor have the substance or energy to hold it—as each has a different color, dark or light. And they won't mingle, but have to be first cleaned out by the Superet Light Science Laws.

There is a body law for cleaning. You cannot say, "My house is clean" when only one room is clean and eleven rooms are dirty and filled even with vermin. Now to have a satisfied mind alone and not to have the rest of the eleven senses developed. But to have a contrite spirit to be in loving the good, which is the light in you, shows God's Light first—His Presence in you. This only can give you happiness and harmony—only

by degrees of that purity. Not just a man-made suggestions of mind alone.

Progress is the law and demand of God for us to become a spiritual and a scientific being with light. Not of delusion or man-made theories; but the Lord's light earned—showing with your Aura vibration; also the same in music.

You can discern the face of the sky and see the Aura of the rainbow of the sun, but not your own! Come and learn to know yourself first. Your spirit, soul only matters if you have light—not words but facts of light in you. What is a healthy body without light?

You know sickness is the result of inharmony which is of dark colors' substance in your Human Atoms; for your photo shows it with the color dark spots. And by those, the doctor operates or gives you medicine. By the light of your X-ray facts—not your talking or ideas, neither by your suggestions does he accept; but by the X-ray proof the darkness shows the place of your sickness.

The Aura Light Scientist once had a mother bringing her son who was suffering on a deformed spine, for help. Their physician did not give much hope, but the boy was healed through this Method. Today he is a judge. Dr. Trust, in looking at the boy's Aura, said to the mother, "Take him at once to the dentist." The mother was disappointed, saying, "Why only a few days ago the dentist finished his teeth." Dr. Trust said, "Do what I tell you." After a couple of hours, the mother returned with her boy, saying, "How could you tell this? The dentist put the X-ray and found the point of the instrument needle which he found afterwards

was broken off and was left in the tooth that had traveled to the right eye; and in three or four hours it would have pierced the eye." Today the boy is a judge and healthy, and his spine has grown straight.

Now you can see what help you will be to others when you study and learn of the Aura Science. For you can do likewise to help others.

Greatest Light Power Has Superet Light

Of 2,000 years ago, only now is the Greatest Light Moving Power Vibration in Aura seen and discovered!

To feel the moving Light Power in the unlimited vistas! It is true to life in the soul of each to catch the glory of that Wondrous Healing Light which comes from God's Own Love Light—the Glory Love from God's Heart Center, His Superet Light—which even only in a very small Ray can be seen to penetrate through this planet which is so earth-bound, and clouded in darkness.

The Lord gave His Life for the Light (His Blood was Light) so It would not vanish from this earth. So it remained to help us in His Name.

This Wondrous Purple Light years ago was already discovered and seen by the Light Aura Scientist in studying Light Vibrations. She first saw Its Aura of Purple, then the colors came more vivid, and the Fire of the inside of the small Ray which was so small and tiny and hardly visible. It seemed that almost any

moment It would vanish. The Scientist started prayers, and the wonder, a miracle—It became stronger. The Scientist started prayers, praying all the time and asking It not to leave us. Praying, fasting unceasingly, watching Its progress, It became more and more visible. And with that the thousands of healings started and came when She prayed for the sick one. Thus, daily prayers, and to draw God's Heart Superet Light closer in Jesus' Name to her heart, to love and worship It. But, only the vapor, like fine golden smoke, would come. After a year It then started in a fine hair-like, seemingly in vibration closer to the Scientist's eyes, blinding the eyes that She could hardly see It. But the Healing Light gave out more Power when She started the Superet Light Teaching. And all those students that were healed started to use the Superet Laws which the Light Scientist found in the Bible of Jesus' Words' Light by Vibrations of His Aura Light Language.

The healing kept up—but only as all patients then began to use the Superet Light Laws, and so helping others by reporting and telling in amazement of the help their families received.

Even one woman in the hospital received the first Superet book who was not believing, but to show her friends she would read it, put it under her pillow. After awhile, she felt the desire to find out what it was all about as she felt better and so peaceful. As she started to read the first Superet book, she got out of bed, not realizing that she was paralyzed on one side, and walked. Realizing what had happened, she cried, "I am healed." And she went home, east, thanking us.

Many wonders have happened that might seem un-

believable, but it is true. And many witnesses will verify under oath here in Los Angeles.

Realize, God's Wonders never cease. He can scale the heights and plunge the depths of the soul.

Some of you that have been hurt by the stab of sorrow, sought to get away with suicide, have been helped. Others that were insane were taken out of the insane asylum and were healed.

The Light Scientist, Dr. Trust, says of the wonders She saw, "Whoever worked in the Superet Laws was saved from accident, train fire and automobile, and reported, as they were calling for help in the Name of Superet Light, 'Oh God, Superet, help me,' instantaneous help came. Even children reported, not understanding the meaning. Those are not just fairy tales, but facts that are proving right here in Los Angeles, ten minutes only away from the city. Now you cannot doubt. Try it yourself with the Healing Prayer."

This is for all religions—as you can see it is scientific. It is not a religion or mind science, or Spiritualism, Rosicrucian or Theosophy, but the true planets Heavenly Light coming from Heaven like the sun. You cannot deny it, as you see it. So the Scientist saw the Aura first of the coming Planet.

Remember the greatest Super Scientist of Light said, "Ye have eyes to see but ye see not." He meant the Light which you must develop.

The "inner eye" means purity in your mind to believe Him Who was all Light; so His Father, the Creator, Who gave us life through His Light only. We could not live otherwise.

When we only work with the mind and not feel with

the heart, we never can feel or do God's Will; because His Will is Light. So that's why so many people only believe in the mind science and self-will demonstrations.

Dr. Trust as a child could see the Aura on people, but did not know what it meant. But in her parents' religion She was not allowed to speak of it because they said "It was sin and evil that was doing all this." So as a child, the fear crept in that all, even Light was or is evil at that time.

After years studying the Light of the universe and lecturing at the University and Carnegie Hall about the Aura and Light Atom in the nature, and proving with the Charter of the United States of America that She was granted in 1925, that She had found the Aura showing in vibration the Human Atoms' color of the outer and inner man, and by it we could discern the darkness and Light colors within us not only of body sickness but soul and character sickness, and that only by the Light of God we can become healed, this Truth started with God advertising the Truth with many instantaneous healings that surprised the people. But in their religion's fear, they could not accept Jesus' God, Superet. Jesus said, "My God and your God (Jehovah)." Jesus' God's Name is Superet, the Name for God's Heart Light. This Truth was proven with miraculous healings. You will find it out for yourself when you repeat, "God's Heart, Superet, in Jesus' Name I love you and pray for help and Light of Superet Planet."

Now this will not hurt your religion, but will bless your religion—as God loves all religions and all people. We must rise to a higher consciousness. The time has come in this Atom Age; and you can see the predica-

ment we are in. The darkness is fighting the Light; so we must appeal to God's Heart Light, Superet. Only That can save us. The Lord gave this to all.

Now dear reader, you will begin to think, "If we have an Aura, then certainly God must have an Aura more in Light than we have." The Bible says that the glory of Light was seen as an Aura or halo on the Lord's Face and Garment. This proves He was a Light Bearer; and His Words were true that He was the Son of God of Light. We must follow Him in Light. Do you believe it? Now then, we must have His Law of Light.

The religion of Jews said it was against their religion. Many Christians of different denominations have told the same to Dr. Trust—that they were not allowed according to their religion even to listen to it. But they came for the healing just the same, because, after years of praying theirs could not give them healing.

Now when you realize that this is all scientific and not just a religion, but the true Light of Jesus' Father, and His God, could you doubt it? Even those that were healed when Dr. Trust was in Jerusalem fifteen years ago, joined in the God's Superet Light, and gave up their old belief in God, Jehovah. Many Jews followed—more than Christians. Now the Jerusalem Christians have lost.

Remember, there were many Gods Whom the Supreme God, Superet, selected, which is theirs of the different Spirits of different consciousness, and gave them the name, God Power, to be over those spirits and humans that were of the same consciousness and had the same Aura and light vibration of Atoms' substance.

How the Supreme God saw it in His great Love for all of us to be helped little by little in light steps to come to His Superet Heart Light which the Lord first found and lived in all alone until the Apostles joined Him.

He even said, "I pray not for them (Jews) but for you that follow my Father (God, Superet)." Only the Apostles were allowed to use this Secret Name so the mob would not misuse It; so It went to sleep.

Now the Lord could not have become connected by His Mind alone with seeing or connecting with God's Heart Light Superet, nor could imagine It was purple; but by learning of the different Lights He could discern the difference of Light color and substance, and Light brilliancy.

After years of searching, Dr. Trust found the same Vibration in the Light Aura of the nature Light Atom Aura of how it differs from the Human Atoms' Aura Light development which She explains in Her twenty-four books, that are all intellectual for all, which everybody can read no matter what religion, creed, or cult.

Remember that God is Spirit, and spirit must have proof of Light—not just talking. Spirits that are angels only are called so because of their Light. Spirits are known by their Aura, which Dr. Trust sees; and the Aura's light can not deceive Her after forty years' study.

Even the Anti-Christ's Aura has Light, but the color of darkness is behind; where the real Christ has a brilliant Light.

Now many spirits and humans have a glow or a radiance that shows they are willing to learn; but their

black Atoms keep their development slower because their minds are not free but bound in fear.

There are many spirits from different realms touching the people of their same religion and they think it is the finished old religion—but it is not Jesus' Light. But when you begin to see Auras, you will know where they belong—of what color, dark green, red or light, danger or security-substance Atoms' Aura.

Dr. Trust is not a spiritualist, but loves and sees spirits and has helped many that come crying for help like people. As God created spirits after His Spirit Image, which is the Light Atom, He gave each a spirit; but many of us, and the spirits beyond, have misused it for darkness. That's why evil was born through our sins. But God never created anything but Light, good, which cannot mingle with darkness. You feel the atmosphere even though you don't see the Aura when you study this Superet Light.

Go into a room where they are fighting in hatred even with words, and you will feel nervous and will run as fast as you can. Even in your families, children leave their homes because they can not stand the atmosphere or Aura of their parents.

Try to go to different churches if you want to develop the Aura, and find out for yourself the different atmosphere or Aura that is there. Then come to the Superet Church Aura and study that atmosphere without any prejudice but scientific statement facts. See the Aura colors of Light in many—not just imagining, but seeing facts. Then you can no longer remain narrow, set, stubborn, but will become a light scientist yourself that knows light from the darkness.

The great secret is that a self-will or self-love, or self-glory person cannot feel or see it. But a child can see and feel it—as many children could see my Aura but not my parents, and so their parents would not allow their children to see the truth or return to this Teaching.

Come and find it out for yourself. You will see the Aura of your children and will know if they have any criminal instincts. And the Light Aura Scientist will teach you the colors and how to see the Aura. This is so vital—not only your children will be saved, but will respect you more.

There can be no more wars, because only criminal darkness instincts of the people with the Bible's—"of the mark of the beast"—, will now be dissolved, and a new light mark started on your forehead!

*Superet Aura Chart Prepared
Mechanism of 12 Senses
Draws Superet Light*

"Let your light shine as a candle," means with the beginning to learn in each different sense—the vibration of beginning light.

"And they will shine as stars forever" as they have followed the Superet Scientist, the Master of Light, His Teaching step by step in light.

As you know, the secret of life is the power of the spirit; and the body is a temporary dwelling place for

the spirit on this plane. Now temptations not only come to the flesh, but also to the spirit. Watch the thief—the tempter—to steal your goods—light vibrations in each sense.

Learn how to build an atmosphere of light. The Aura around us is to protect us from the alluring desires of the body so they fade into oblivion—into dust. But the spiritual light atmosphere that you have built will live forever. This can only start by that Law, which is to make your Aura Chart of the twelve senses—which are the mind, will, eyes, ears, smell, mouth, heart, spirit, soul, soul-heart, ego, sex. Those are your instruments in your “workshop” of the body which must all be clean and in order.

You start by finding out if they all work for good—light—or darkness—sin, which you must find since childhood years, of remembering the faults, sins, habits, desires, motives, ambitions, thoughts, acts, love for body self-glory, etc. As you have written them down, you will find your life that you have lived that stands written like a “blue print” which only your Aura Chart can show in making it. That substance that has filled your Human Atoms whose poison is now creating the sickness which you have created or developed; you created darkness of the colors, like dark green, jealousy, or dark red, passion, adultery, or light yellow, sincerity, and white is purity light vibrations. These all show in colors.

The Creation of God is shown all in color; so is your creation.

You ask how to overcome it, to wipe it away. First, you must be ready or familiar with each sin’s vibration.

As you read them, then you will feel ashamed and will start to feel your past life. This is then the repentance of the lost years, that you have not much light in any of your senses. You feel the loss of good.

Now find the sense that sinned the most. How often this has produced suffering, or a disease which the physicians call incurable. But in the Superet Light Science, all is so easy to overcome, which Dr. Trust says when this sick darkness' substance has come out of the sick Atoms that you can see with any disease, germ, or also other force spirits that hover around this darkness—like you see flies or germs on a wound of dirt there.

How easy it is to overcome it—this is shown of the thousands of healings. There were a hundred healings which the physicians had given up—and the Author with this Superet Light Method proved, which is given you here in this booklet of this secret. Many rose out of their bed that the physicians said were dying. They were healed suddenly by the Superet Light Science and Doctrine just by accepting It even though not having the Knowledge. But they were willing and loving to accept It to learn, and to try.

Now you can see how you can do it likewise. It is so easy if you follow in that Law. Realize you have the electric light by following only that law to have the material light. Likewise you can learn how to earn the spiritual Law for Light. This Science of Light is used for Light hereafter.

Now this proves to you that just affirmation or thought-words cannot produce the substance of light alone. You must produce the substance or feeling of

sorrow-repentance first—the cleaning process. The Superet Laws create that substance of light.

Remember as Mary Magdalene did of years sinning, of not just words, not just affirming or thinking, but with repentance substance, shame of the sins. The Master said, “Thy sins are forgiven thee.” How? He saw the process she went through from her heart even not being conscious of His Teaching of the Superet Light Laws. He started her with the Light Vibration before He ascended—rewarding her through His Aura Vibration of Light. We all need Jesus’ Connection first.

This will be likewise when you become a laborer like she was. You will develop light in your Aura then. You will also help others with your vibration of light. Think of the joy of helping others. This is the real charity.

Now you realize that no one can heal—but only God through His Light; as He is the Creator of your body, spirit, soul and twelve senses which He trusted you to keep clean. But through your ignorance or lukewarmness, or willfulness, your unconsciousness can no longer be excused because we have the Bible. Now the Bible is explained with Light Laws.

Start, dear one. You shall be born again through this Superet Light Science into health, happiness—a new life—which all students can testify of that have witnessed the facts through the Teachings from the Super Scientist, the Lord of Light, Which He, as the Son of God, had to use the Laws on Himself to prove His Light with the Aura in the twelve senses in Light to God—and you to follow Him.

Dear one, do you realize that your mechanism is prepared to labor for the substance of Light which is now

beginning to be manufactured by your spirit, body and soul in unison, in order and in rhythm, when you follow this Method?

Look at the bee. To make their honey, to make a substance, they all have to work by a law which God gave to the bees' intellect. Now look at the cow. God gave her the intellect to follow also a law through her seven stomachs to make a substance until all the food is grounded to milk. And all the colors she's eaten turn to white milk; for she obeyed that certain law.

Now you see why it takes a law to manufacture something. How much more for you and me to manufacture light which we as a child of God must prove and produce in a light substance for the soul Atom.

Now if the bee and cow would only talk or think of the law by affirming, could they produce the substance without laboring through their mechanism of their senses? Answer please.

You must admit this is the truth; and true facts follow this truth—not imaginations. Make believe does nothing!

How our mothers had to suffer to bear us—ready to give up their lives for the child. It was not affirmation or thinking, and talking only—but hard labor for nine months. And only by the love of the coming babe was the pain stilled and accepted in the law of the childbirth.

Now look up to the Superet Master Scientist, the Son of the Creator. Why did He have to hang on the cross and not die a natural death, or killed without so much torment and humiliation from humanity? What caused it? Think!

The answer is, for our sins which proves through the

Human Atoms' dark substance facts of sinful lives that had so grown that the darkness had its law also to strike at the One Who had Light; that it had the right, for humanity did not want the Light or purity of the Lord. For they all wanted to stay in their religion and their nation, to keep on living and pretending good, not sincere, or honest because they did not want to labor in the Law of Jesus' Light! He was the Light—the only Light Bearer—the only Instrument through which God could work and help to create Light for souls that were willing to accept Light.

The cross shows the four points of four senses—the mind, heart, spirit, sex that create most. Proof: He said, "Thou foul and unclean spirit, come out of the man," that lived with an unclean mind, heart and sex; and all the rest of his senses which were infested with the substance of darkness. That's why evil could enter the spirit and body. We all are also spirits.

Realize that no matter if you are operated on and healed with medicine and prayers, and you do not live or seek to know how to learn and obey that Law which created this Light substance, all the talk and knowledge will not create it; neither with excuses do you know that Law. But now you know it will help you. Start now for the future life. Don't you want to learn now to save yourself from so much suffering?

Open up your mind and think; and open up your heart to feel it that this is the truth and the only truth.

As a Light Scientist, I studied for years all the diseases of many people that were sick, heart-broken, insane, dying, children born cripple, etc. How do you think I found this Truth of healing, and the Wonder

Name, Superet, which holds God's Heart Light, and would have the nerve to bring this out to the world if this was not the Truth? The darkness would have taken me, or killed me if I had lived in darkness or sins only and had not earned the Light!

Now you realize that I had to work, labor in the Law of Light after finding It to earn the Light Vibrations without ceasing; otherwise, I would have been lost. Yes, suffering I had to go through with people belittling this Truth, of all different beliefs for the mind only, but not of God's Superet Light which gives life—not only for the planets, but souls.

Come dear one, drink of the Fountain of the "living water light" and be healed from all your misery. God does not give any suffering, sickness, or wars—only happiness, joy, health. By His Light He loves us.

Now do you realize why the Lord wanted me to find It and to bring out His Superet Light Doctrine? Because I was born to see Light and Auras on people, animals, trees, planets; so God annointed me with the task—trusting me, and my name is Trust. Not only for me to rejoice in it, but also for you to have the help and healing. So we must share our joys and sorrows together. Why? Because, we all belong to one God, Superet, the Creator of all spirits and Gods, and planets and humanity; as we all are His children, and He loves us all and wants us to help each other with love no matter what religion, color, nation. We must also love our enemies, for they have no light. The Lord's Command—"Bless and Love your enemies." Do we do it?

Superet Light Treatment Healing Method and Laws

This great Secret after years is found and used by the Light Scientist Who has healed thousands of people with this scientific Superet Light Method, which only God performs scientifically with His Own Light Science.

You will understand this statement when you begin to feel it, and know that it is the only earned Truth of healing. For this is not just a "faith cure," or done by hypnotic or magnetic influences, or just with prayers alone, or affirmations, or denials with mind science, or any cult, or of different light sciences. We love all religions, the Bible Teachings, angels, spirits and humanity, and only pray for help with God's Light.

Those Superet Laws are scientific. All religions and nations will need It. For we must love and bless all, united with God's Light Laws—the Lord's Own Science and Method. So It is not a new religion, but the Superet Light Science, leading to the highest Light, Superet Light, belonging to God's Heart.

Please understand how the nature electricity was found by the scientist, and his laws used with electricity application. Now the Lord brought 2,000 years ago, Spiritual Electricity—the Superet Light. But only now this Scientist, Dr. Trust, the acknowledged Discoverer of the Jesus' Superet Light Doctrine Science, found It and received the Charter of the U.S.A. in 1925; and is giving now this Sacred Superet Light Healing Method out after years of searching scientifically all light meth-

ods of healing of Light Power with the Bible Study—searching and studying the nature and Human Atoms' Aura, also planets and stars' Auras, also the discovery of a great Purple Star or Planet that showed a dim purple—a faint Light Stream or Vibration coming from It. Dr. Trust started studying and watching for years and found that It gave out a Light of not only material, but Spiritual Electricity that gave out Purple Vibrations.

Now God is sending us help also in healing facts of Superet Light. Facts are proving Dr. Trust's thousands of S. L. healings here and in Europe.

Yes, I've often seen the tumors breaking, which was seen in the X-Ray, but more in the Auras dark vibrations; and as they slowly dissolved, then the new light energy entered and built the new Atoms. So the same in every part of the body that is diseased only by sick Atoms, sin and darkness, which is a disease that goes together, which the Human Atoms hold until the substance becomes dissolved and scientifically the impurity overcome—which must chemically prove with the Aura color of light. For God is the Only Light Healer.

Realize, you must wash your body outside, also inside. You know, even the fish, birds prove their cleaning and Aura and chemicals; but it is not the same, or spiritual, but of a different color and chemicals.

Now we must vibrate towards God's Spiritual Light. This is the Law for us. If you only knew what this Superet Light Science will do for you! It means to you not only happiness here, but hereafter. Yes, you would willingly give up all you possess to know this Superet Method. This Truth is the Everlasting Healing Light Truth which now is given you free with love from the

Founder after years in discovering this Lord's Secret.

This Precious Superet Light is so positive—so wonderful. It will heal you positively when you keep on repeating, with faith, in God's Love-Light.

Realize, this was my secret of finding the Law of healing thousands and thousands of people—most given up by doctors—not just with affirmation or any other method or suggestion, but only by the Superet Light Atom Aura Method for Human Atoms to become purified.

Always remember, only God's Superet Light heals the soul, then the body. Give credit to Superet Light. Give the glory all to God. And thank Him for His Superet Light healing you. After you're healed, you can be used to help others in preparing them for and with the Superet Law of Healing with the Light Connection.

Write to Dr. Trust as the Founder of the Superet Light Healing Method for advice.

Often use the Prayer, "I repent, and I pray to God's Heart, Superet. Forgive me my sins; for I repent. Help me with the Superet Light, the Mighty Mother God's Love, which is Her Love-Light, Superet. We love Thee forever."

Be not afraid of voices, undeveloped ignorant spirits, or elementals, or of seeing them or things inharmonious. Close your eyes and make the Superet Cross by joining both hands together in holding the vibration even for a little while.

Say, "God bless you," to all; also to people fighting you, bless them. You will feel the warmth of the love to God in your body, mind and heart, and will also lose

fear. You forgive everyone with feeling it. That is the start of love for God's Healing Light, Superet. Then you feel the healing—maybe slowly or quickly. It depends on you—how you follow those Laws sincerely.

It never failed me in treatments. It won't fail you. Even insane people molested with undeveloped spirits had to depart out of many insane people. Many will testify of years being helpless and were healed.

When the Superet Light Laws are obeyed, you earn the healing positively in God's Time. All churches and religions will be blessed using It. All angels of Light and spirits must earn the Superet Healing Light. And spirits, also angels are proclaiming the need of Superet Light. You will begin to learn to see It more and more. But all must follow this Superet Light Healing Method Laws first to be attuned too—important—in the body's twelve senses' love to God's Superet as Jesus had to His Father's Heart Light.

Realize that your senses are your instruments to become clean and to hold the Light Vibrations in order—in a rhythm of Light. It is easy if you know how. It's no miracle—it is natural—only understanding and willingness to learn and to use It no matter what belief of any religion, Christian or Jew alike. For all must use It—this God's Law of Light. For this is His Commandment. God's Love Religion is His Superet Light.

Please remember in the Treatment, never take away or add. Be very careful to repeat word for word. If you wish healing, follow It. For if you leave anything out or add to It, you break the Spiritual Electricity's Vibrations. Because, those are Light Vibration Laws and Light Words that create the Spiritual Electricity in you,

to earn and to hold to receive the substance and the connection of this Wonder Superet Healing Light, which, when used with the study also of the Superet book Laws, will help you out of suffering, heart-aches and disappointments.

"It is almost unbelievable," says Dr. Trust. "As I used It for years, I hardly ever lost a case when the person was absolutely truthful, obedient and sincere. You cannot have a doubtful, narrow mind, but believing Jesus' Superet Light Science no matter what your belief is, or your forefathers and parents were; even, no matter what sins you have committed, or what religion you are in now. It does not matter—as this Science is from God—His Superet Light—so we must be proving with and through the Superet Light Power from God, Who said, "Let there be light." Earn the light connection.

This Superet Light Stream of Vibration all religions and nations need; for this Light gives new life. This is the only Light Science: for It is of God's Superet Light. As God's Heart lives in Superet Light, This is His Science.

There are many different Light Sciences—but no one can use the Holy Name, Superet; for this has the highest Light, and no one can infringe on this Superet Name. For It is well protected.

This is all from the Bible different Lights, and the nature light and human's light development—all of different degrees—to come to God's Superet Light.

We learn from the Bible of the two marks. Remember, the Bible speaks of "The mark of the beast 666 on the forehead." That is the black Atom in darkness.

Now you see how important this Superet Light Method is for everyone to have a Light Atom on their foreheads.

“Heal Thyself” Treatment With Superet Light

After you have made your Aura Chart carefully, you call the names of the sick organs and senses with the sick Atoms.

Start now to fold your both hands together and make the Superet Cross on that diseased or sick part. But, be sure that your hands are very clean first!

Then speak in a whisper this Wonder Prayer: “We bless you in the Name of Superet Light. We bless you in the Name of the Father, and of the Mother, and the Superet Heart of God. Again, we bless you in the Name of the Mother, and of the Father, and the Superet Heart of God. Again we bless you in the Name of the Father, and of the Mother, and the Superet Heart of God. Amen.”

Then say the Lord’s Prayer, ending, “I thank Thee in the Name of Jesus Christ. Amen.”

Remember, when you make the Superet Cross and say those words, hold hands over the part, blessing it. Like for instance, you bless your eyes—each one separate. Mention right or left eye. All twelve senses—each one—must be separately blessed. Also your whole body. Bless often your blood stream, nerves, bones, spine. Bless each one separately—call by name—with those

three Crosses and prayer. This seems simple, but is immensely powerful!

This gives you the most wonderful feeling of love to God. Keep up when pain returns, and you will see how quickly it will disappear. The Superet Light has never failed—and will not fail you if you are sincere!

This was my only Help through all the years. No matter how tired I was, or sick, I would sit down and often kneel, and would suddenly feel the warmth over me, and would see the Light when I was blessing my body or the sick part.

Now dear one, realize you now also must know that this calls for preparation for you to know more about yourself—if you mean it sincerely. Are you willing to help others, and are you qualified? Do you wish to know about your sick Atoms with darkness that speaks in the language of giving you pain? Are you willing to study and learn to see your Aura Chart and feel your mistakes without excusing yourself? All those things you must discover about yourself.

Realize, your body must become a temple for God's Light to enter through your heart-door. Are you willing to learn more about and be prepared in the Superet Atom Aura Science in our School to become like a rock so strong that nothing can change you—but only wanting God's Superet Light?

This God's Superet Light is so precious that you have to worship and love It; then you love God all the time. Do not take It lightly—as this is powerful Spiritual Electricity and cannot be misused. I am giving you this Light scientific study of years and at last finding It—this Secret of Superet Light Which the Lord used

and healed with—the Superet Atom Aura Science. God bless you, loved one. Keep up.

For now your whole life will change to joy and happiness as you earn the Light connection. You must feel the harmony which you've never had before, because you are earning now the Light vibration and substance.

My experience through my years of giving this Superet Light Treatment to myself, and to others, was often held back on account of giving in to myself in sympathy or self-pity, or sympathy to others in pain which we humans all have naturally. But I found out that in my treatments, when I had so much sympathy for others in pain, that I had their pains and suffered and could not help them much. But many times they were healed and I went to bed with their pains.

Now I can teach How to protect yourself—as I had to learn it first before giving it to you.

When you feel the sympathy in you, turn the flesh sympathy to the soul sympathy; for their soul Atom's darkness suffers more than the body's ailment.

This lesson will help you when you want to help others as teachers of the Superet Light Science.

I also have found in people's Auras—as I have made many Aura-scopes to study Human Auras—that their sickness sometimes was showing in their Aura vibration to teach them patience, or forgiveness—not to complain, but to be more grateful to God.

I have heard for years of many complaints and sick people's excuses for their sins. That's why I beg you to make carefully, your Aura Chart. Often I have been sick—also when writing the Superet books, giving them the healing vibration, touching the darkness of people

and undeveloped spirits—suffering until I had finished writing; then I felt better. The Lord in my dream said that it had to be to pierce through the darkness of Atoms' Auras' vibrations.

Those Teachings which I have revealed, come all from God through Jesus to me. He said He had to suffer to break through with His Light, the darkness. His Words must now be Light understood. He said, "If your eye is single, your whole body shall be full of light." Also, "If your eye sins, take it out; or cut off your arm. It is better for a man to go to heaven with a maimed body than go with a whole body to hell."

Those and many other Words of the Saviour will prove to you the facts—How we must learn of the Superet Atom Aura Science to become connected through Jesus with His Superet Light Doctrine which holds the Superet Light Science.

Now dear one, when you earn this Superet Healing, let us know, and we will send you more explanations of How to help others; and you will become an instructor for others with a diploma—which has been chartered in the U.S.A. since 1925.

Instructors, in your treatments, you can accept a love-offering as we also do in accepting a love-offering, which goes for leaflets and books, and advertising.

Realize, this is God's Healing coming to us. This is the Superet Light Science, given by the Lord Jesus scientifically by His Light Laws which He used Himself to earn Light Substance in His Atoms—then proving with His Aura which the Apostles saw.

Now others will also see your Light Aura. Then thank God, who is sending you help and Light.

Who Touched Earth With Light Vibration Beauty?

The Almighty Mother God, Superet Light touched with flowers of all colors—with love to all Her children alike. Give thanks—a word of acknowledgment in seeing the visible beauties of Mother God's Love.

The Aura twilight fades away; so do our earthly bodies. But the Aura of sunrise of soul starts the Light beauty that lived in the dawn of Light, going through the passing parade of years of the purification to develop the Light of Ages.

Superet is the Name of God's Heart Light. No longer is the Lord Jesus suffering, or crucified, but risen in the Glory of His Light that He earned by suffering to bring Light, and the love to God, Superet Light, and to all humanity to help through the Light.

In the acknowledgment of the past, you and I have walked through the valley of the shadows of death, darkness, where we could not see ahead. We knew we must keep ahead; for there was a trail that we could not see; neither the Light of God calling us, "Have no fear." Now we see our Aura Light.

Look at the ten thousand year old redwood trees. Notice, that after the fire had burned the old forest, the aspen trees were the first to come back. When they had grown enough to afford shade, the pine and fir seedlings could grow and sprout.

Now those evergreen trees need the shade of the aspens to get started. Once begun, the development is

much more rapid than that of the aspen. In time the evergreens tower over the aspens and smother them out of existence. This is a story of a vicious cruelty and ingratitude of the forest; but it has a powerful lesson to teach us.

Now the Light in life is needed—not for a minute, but all day, even though invisible.

Dr. Trust says, "One day I was called to a sick bed. The man was dying and was cursing. When I entered in the room, he said, 'Get out. I don't want your light. I see it. Who are you? Do you want to burn me? Do not touch me.' The wife came and said, 'He lived that kind of life, cursing me and all that he saw.' I told her we must help him, as he is going over there alone. I went to him and put my Christ Picture on him, saying, 'He loves you'; and he cursed himself; not me, any longer. The battle was won. He said that he was a wicked man. He died that night, saved. The wife would not believe that he could change like that. God can do everything through Light when there is someone ready like the forest trees—as all differ. But one can get the connection; maybe you, if you are willing."

We all believe in one God; but He has servants that are also called Gods. Now many Ancient Gods are not mentioned here. Only those of today.

The Names of the different Gods in their language of country are: Lord, Jhvh, Deus, Dieu, Adat, Godt, Gott, Godh, Goth, Soru, Allah, Rama, Deva, Dios, Adin, Teos, Teus, Thor, Amir, Amon, Acla, Baal, Kami, Ilah, Nebo, Bram, Boog and Budha; also many more. All have a different light color in their Name's Auras.

The Supreme and only God is the Superet God. His

Name is over all planets and spirits, known of Purple Light. This has only been found through the Bible when the Master speaks of His God and Father. The Name, Superet, stands out in Purple. No other God's Name has that color or Aura. Facts only speak in Heaven and on earth.

This Truth only now has been unearthed. The proof is in this Light Atoms Age where the purification started of this planet through the Atoms whose vibration the Aura shows in color. Nothing can be hidden in the Aura.

This Light Scientist's Study of the Human Atoms' Aura led to the Bible Words of the Master that showed the Light in each letter—proving His Vibration vibrates in His Words—as the Spiritual Electricity never dies. But the material and nature electricity will die because it does not have the same chemicals nor life substance of Light everlasting, which only the Supreme God, Superet, can give. No other God, or His servants. This now has been discovered in the Bible of the different God's Light.

When you find the different countries, of where the Gods' names belong, you will also know the Aura color by their language sound of what sense is used mostly.

For instance, the French is more through the nose. The German is way down in the throat. Latin is in the roof of the mouth. Arabic has the sound like goats and differs in dialect language, as there are many different consciousness.

Now do you realize that all sound vibrates different colors of vibration? Even the ocean's demanding language differs from the brook—it only murmurs. All

have laws and their rules of vibration and different Auras—proving it with colors and sound names. Some are healthy; others are poisonous. All those waters that do not move in light or labor with vibrations of light, are known that the water is not healthy.

Years ago the Light Scientist advised by seeing the Aura of the city water having streaks of a dark cloud on certain places, and told them where it must be cleaned at once. A bone disease would have started in Los Angeles, which was found to be true. All the water was closed for five hours while it was cleaned; but the secret only now can be given out.

Now you will realize what the Aura reveals. You can only know when you start to learn to see the Aura. Then great vistas of hidden things will open unto you. And help comes to each one using the Superet Light Laws.

This great Study is free to all by the Founder, Dr. Trust, Light Scientist, Who gives lectures and classes of the Aura on the screen as a world traveler making the Aura of countries and people. Dr. Trust, the Light Scientist, traveled not only through the United States, but also in Europe to keep on in studying countries, humans, languages and their Auras, which She made with the mathematical Light Findings with the measurement of the substances—as Light is a matter that can be seen. Even though invisible, you feel it.

Even Madam Curie who discovered radium could not see the light at once, but was burned all over the body. A proof not only with the Aura, but with suffering. If she could have seen the Aura of the radium, of what it

would do to her, she would have protected herself and not had cancer.

The same with you. It will not only help you, but warn you of coming sickness, of how to avoid it.

Parents, you can save your children from sickness and crimes.

Let us study our beautiful flag. It is an Aura reflection of the Love of God, which it holds. It could only have been made by a woman, Betsy Ross, who also could see the Aura, and designed it by a dream she had. God bless her. We all bow to our flag, the star spangled banner, and bless the woman who found it and made it.

The color which this New Star has, the Light Aura in the Planet, was never seen before—a Purple Light.

Never was there such a star within a Planet Light. Now all over, we are not alone anymore; God is sending Help. But, we must keep on praying. We must draw this Heavenly Light Star to keep coming closer to our planet bodies and hearts.

And believe, for you shall be healed like the thousands of people were the past year. But, we were not allowed to give it to the world in heralding it, as the time was not ready.

Let us join hearts together now so It will stay with us and not disappear again. We must feel It, and draw It closer to our hearts to feel Its Wonder Power of this Light Planet, called, Superet.

You feel a warmth when you mention the Name, Superet. For It means God's Purple Heart Light. And you will believe when you read the prophecy which is explained from the Bible in Revelation with the Vibra-

tion Language in the last magazine, called "Atoms Aura Revelation Reveals the Truth." You will find the vibrations of light and darkness explained, and what stands before us when we do not give heed to the Revelation prophecies that will now come to pass.

The Superet Light is bringing the Saviour to us closer to hold Him with God's Light protected from all darkness. Let us not be lukewarm, but start now that this Light can prove Its evidence with facts in your hearts, homes and country—that It shines now for all—not just for one church, religion, nation, but for all humanity alike, this God-sent Sign.

As you look at the Handiwork of God's Light, the poetry of His Love speaks in the help that is coming, and of His Language in colors of the sun rainbow, stars, also light. He is our God, Father, and Mother God, sending His Planet, Superet. Our Parent loves us, Who said, "Let there be light" for us, and in us to become His Light children. Father is Justice, and Mother God is Love. Both help us.

We now have started this Superet Light Brotherhood where all can unite to come and be under the Protection of the great new tremendous Powerful Love-Light of the Mother God, over all. Her Superet Light shines like a star that throws out that Love-Light, a Purple Vibration of a stream of Light to be believing, faithful to Light of which the Saviour said once, "I am the light of the world." He also reprimands, "Oh faithless generation. Men rather loved darkness (sin) than light (good)." Let your heart light now shine.

The Bible says, "Thou canst not see my face, for there shall no one see me and live." But He sends us the

Comforter, the Holy Ghost, the Mother God, Superet Love-Light, to love us and to help us before God says the time is up and the Father Judgement starts of justice.

Let us hold on to this Love—just on this straight railroad line of Light. “Let not your heart be troubled, for I am with you always” in Light only.

Remember that all science is divine. The greater the science is of Light, the higher the consciousness rises, the more light we earn, feel and understand.

Dr. Trust says, “It took since my childhood to learn. Even though I could see Light, but I could not understand it, of what it all meant. Now I realize more; and I learn to understand more and more.”

Remember, dear one, we cannot serve two masters—good and sin—for Light does not mingle with darkness. Moses heard the Voice of God saying, “It shall come to pass if they will not believe thee; neither harken to the voice of the first sign that they will believe the voice of the latter sign which brought to them suffering.”

We have now this great sign from Heaven; and if we do not accept it—which is proven on the Heavens from God—then we will believe when the sign of suffering and torments start; as we have chosen it and did not accept the Light, Superet, from Heaven.

When you read the Author’s twenty-four Superet Light books, then you will know that She must have been inspired and saw this tremendous Light in different vibrations to help you. Because, there was no glory for Her, but only humiliation, accusation, poverty for years, and ridicule; as all could not see it. But even feeling the healing they would not accept the Light. Also there was no money in it from the books; only

what they cost for printing and advertisement. So She used to often go hungry to sleep; but had a strong faith that this Truth someday would be accepted. Now at last It is. Come and see the Superet City of surrender for the glory of Superet Light.

Light Scientist's Discovery of New Planet

The Light Scientist's Discovery did not come from only a material light wisdom; but the study of all forces of Light Wisdom. Not just alone planets, but the Bible Light also reveals this planet. The Super Light Scientist's Words of Light are now accepted.

Dr. Trust as a child could see Light and vibrations which were Auras, but could not understand what it all meant—only after years in studying the Light alone, scientifically, mathematically the value of Light substance, which is also a Light Matter that we need for the higher soul development. For God created in matter, man, soul and spirit; and we cannot deny anything but learn the meaning of God's Creation.

Dr. Trust was and is for all religions, but is a Light Scientist. And everything She studied was and had to be scientifically proven in Light vibrations; and only the Super Light Scientist's Words of Light counted—which was by the Aura revealed. This was Her start. Her mind was free of any narrowness, or prejudice, but for the truth of the scientific Light Science, which led to the Superet Light.

The belief of her parents who were half protestant and Catholic, were good religious people; but they could not understand the gift She had, seeing Light. So She was not allowed to speak of it. Years did bring it out—of the hidden sanctuary to discover this great Wonder Superet Light, and to uncover the greatest and new Name of the Bible by the Aura, of holding the Purple Light Vibrations in the Name, Superet. No other name or any Bible Word had it. Not even the Lord's Name had it, but only a golden and white Light Aura.

This was a proof to the Light Scientist—as She does not just believe in words alone; but only through the Aura facts She believes and works in Aura proof to people, spirits, religions and nations, and knows the difference of Christ and the Anti-Christ by the Light Aura, which is not on the Aura outside discerned, but the inside, the quality of the Light substance.

Just like your blood is known by the study of its substance quality, and in what class it belongs; so we all differ in our Auras like our faces differ of the same family, flesh and blood that differ in looks, character, spirit, body and soul.

Think of all the billions and billions of people and spirits! Do you doubt? Do you know they all have different Auras and religions?

After, through and by the great discovery of the new Name, Superet, of Revelation, wonders started when Dr. Trust began to see very little in the beginning of a Purple Light—very small—but it had a fire burning inside. And as She explained of how She learned to speak and pray to It, It became larger in brilliancy, and was coming closer to see better. The Light Love Romance

started. Dr. Trust did not realize that It was from the Sacred Heart of God's Light; neither could you if you saw It for the first time, or even now when you see It. But the feeling had to be developed, which only could come when you live a clean life out of body adultery and darkness and sins' love to come out of darkness into Light development and consciousness, step by step with patience.

Dr. Trust says, "No man, minister, scientist, great learned men could explain" to Her what She told them, and asked advice. This proves it is not from man's learnings or wisdom, but from the Lord's Light. And the thousands of healings are facts and proofs. For She lived in Light!

Dr. Trust, is affectionately now called by Her students, Mother Trust.

Many have been healed twenty-seven years ago and stayed healed, and remained with Her. This little story of Her life might benefit you who are sick, poor and alone, and praying for help, that when you dream of help, believe and do not lose hope. For Dr. Trust says, "I was in that hopeless condition and not believing. Hopeless for being sick unto death and no one to cheer. Without money. Then God sent help. The same for you.

Please believe me, this little booklet is to cheer all that go through that experience. This proves to all how God tries to cheer and help you when you think it is too late or hopeless. Lift up your eyes to Heaven and send a prayer asking for help; and your Heavenly Parent will not forsake you.

Believe me: no matter what religion, nation, angels,

criminals, sinners, all alike, belong to God. And we must help and love each other. All religions are good; but realize that sometimes we have to go through that experience to see how much love and real trust in God we have—and to have a living faith.

Do not cry or be sad any more when you read this. And believe. Watch how help will come to you. For this Superet Light Planet has come, dear one. You will feel God's love in those words, God Bless You,—the start of Blessings of fifteen years ago. Almost four million of those God Bless You leaflets have gone around the United States and through Europe. So this leaflet is reprinted for you that helped many sick and suicide hearts, which letters will prove.

Did you read the secret book of Revelation which no one could explain those 2,000 years ago that John the Revelator in dreams and symbols saw in the Aura of the future which is coming now, little by little—proving his dreams came true even after 2,000 years? God gave us the chance to study about the Aura and Light Atom and vibration. At last the opportunity has come through Dr. Trust's Light Method and Light Laws of How to earn it. For each one has a different Aura.

Dr. Trust never could have explained Revelation book if She had not studied Light Vibrations for years and the Aura of the Bible, and of humanity. Dr. Trust explained the whole Revelation book only by vibration—every word. Not guess work, but scientifically and mathematically for years proving each word with the Aura.

Read the twenty-four books in which Dr. Trust tells you of the stepping stones of Light Vibrations. This is the Romance of Jesus' Light-Love to God, Superet Light.

Realize that God is Light, and was not just for the old time, sending His Son years ago for the people to give them Light and help then. But, also He is today doing the same to those that can be found that are willing and have the gift developed of a child-like-belief without doubting this Truth—as It has come only through Light Vibrations which this Aura Scientist discovered in the Saviour's Words.

Why only now has the Light Scientist's new Discovery of the greatest Light Planet been revealed that was studied for a long time? Because, the Super Ethics soul light measurement differs from other light measurements of nature planets, spirits and humanity.

Now as you, reader, read this little book, you will feel a change taking place in you that will produce a physical and spiritual light chemicalization. For truth will dissolve with light, the darkness—but will not destroy man's body but will help. For the Spirit of God did not create suffering, sickness, but you. The body must be controlled by the Spirit. God's Spirit never created sickness.

As you realize that our spirit is made of Light, find the darkness or sin by making your Aura Chart. You will then see and repent the mistakes; and the darkness sickness is thrown out by God—His Superet Light Laws—as Light burns away darkness. This will be proven with facts.

Realize that your spirit is a Light Atom holding the Light or oil; and the mind holds the belief or consciousness of it. It must produce the faith vibration of the twelve senses that feed the spirit and leads it to the "engine room" or the heart. Then the repentance starts

and the love to God is created, and the Spirit of God feeds you with the Laws of the Superet Light.

Speak this truth to every form of your creation of sickness. No matter what name, it will vanish if you follow the Superet Light Laws. You will conquer all fears, Superetist. Truth does; also you will help your patient who is a truth seeker and must become a truth doer. Not just believing, but living in God's Healing through the Superet Light Laws—as only Truth, Light, can destroy disease darkness.

There must be no doubts; for spirit governs man's body and senses. Without the spirit, there is no life. No matter what you think, your mind and heart action will stop without the spirit giving it life.

Make it known to self, and to the sick—that as you use those Laws, you can meet any sickness fearlessly; for it will vanish. God's Superet Light will feed your spirit with the Love-Light if you learn to love God. So obey those Superet Love Laws of Light faithfully.

This Superet Light Law produces new life action. The healing begins sometimes at once, or slower. It depends on how much obedience you give to God's Laws. It must reach to every part of the twelve senses—as Jesus said, "Seek and ye shall find" the love for God that must be the love of an absolute supremacy over body and sex; then you use it as a business only for mating and not just body flesh love any longer to be your God.

Now realize that nothing of the body can destroy you and your spirit and soul. This Superet Light Law is the only Truth; for It becomes connected with God's Superet Light. You will feel it, and a new life for God,

Light, starts in you. You will feel this Light Truth, and It will make you free of sin and darkness. Nothing else can.

The Author, after years of finding and using those Superet Laws, helped thousands—many of hopeless diseases and body crimes that can never be committed again, as the Light Atom's power controls with the spiritual chemicals. Students of twenty-seven years ago were healed and stayed healed all those years, and the spirit advancement started. Naturally you become a spiritual being, clean—where the body becomes your servant and obeys the spirit Laws.

Have faith in all the Sayings of the Master, Jesus; for He lived the spiritual life. His Body carried the Light Aura which the Spirit produced, of sacrifice of all body desires and of heart and mind. The Bible proves it.

Now the brain mind differs. It is material. Jesus said, "As the man thinketh in his heart so is he." And "The light of the body is the eye. If your eye is single your whole body shall be full of light." Think, feel in the heart.

Your will, if single to do God's Will, is to want Light and nothing else. You need the heart-mind and the heart-will. God does not give sickness, sin or wars. God, the only Supreme God Superet, will only give happiness, joy, health, love and peace.

Superet Light is the Will of God; but to do His Will, we must labor for it, and to see Light in our Aura. Facts will prove only—if you have it.

Planetary Forces Auras Changing

Dark and material forces can have no influence or power over you when you have become chemically, spiritually and scientifically light conscious under the control of God's Superet Purple Light; as you have the power in learning to draw darkness or Light to you according to the substance of your Human Atoms of color, light or darkness. And you have the power to keep it out or keep the connection with it—according to your desires for light or darkness.

You cannot live in darkness; for it will kill the body and soul.

Now you realize of the many different diseases, wars, and so many different sufferings in consciousness, characters, crimes, five hundred Christian religions, and the old Ancient religions were always fighting and living only for wars for themselves. The difference of the Lord's Own Doctrine, or Light Laws, leads to God's Light. There can be no fighting but love to all cults, churches, all people's religions to help them—loving all united to climb to the Light as they wish, and helping and comforting all. This is the freedom for all for development.

That's why the Creator sent His Healing Superet Purple Light from Heaven, which you can see is there to help everybody of any religion—Jew, unbelievers, criminals, killers, all to be helped by the One Love to all, which is Superet Light Love—that loves enemies, humanity and all religions. And you stay in your beliefs, but only to raise your consciousness to the high-

est Light, which only can connect us with our God—as He is all Light, and cannot be reached any other way. No matter what belief, or no matter how small your own light is, He hears you. But how much more He can use you if your light is showing the connection with His Son's Light.

Think: This means a study—a feeling; not just only a belief, but the Light Force of your soul. Analyze yourself.

Even the egotistical mind development of the self-satisfying theories that are based upon the mythical legends of the Ancient pagans had a very decided consciousness of immortality and creative Light. But we now, through the Teaching of Light, should be more conscious, enlightened. For, to believe is not to be just conscious; but to labor in it to earn the Aura of Light.

“Thy kingdom come” is Superet Light coming now in the time of need.

As we know of the old different Gods that all had different names and a different light, they did not pray, “Thy kingdom come,” but felt they made it themselves of sin and of riches, of old beliefs—as they could not see or feel their dark Auras, but only believed in a material God which they could only worship in words—not deeds.

Jehovah said, “An eye for an eye.” So each God had a different teaching of its consciousness to give to people of that consciousness which they were in their past incarnation and believed until they would seek for a higher Light development.

Realize all belief is for a higher light development.

This proves all is good—as it is the development for soul-rising.

What is energy or strength? It is a force of expression. We know we must have physical energy to be chemicalized in health. How much more we must in soul. That's why all our senses must harmonize in harmony, in and with Light; as God's twelve Senses give us the Light when we are in need of His Help. Not just that He is Mind. He is the Light Dynamo Superet Light for all souls, minds, spirits and bodies.

Bible Prophecies of Light

Read Revelation 22:5—Prophecies Started on Our Planet with a new Planet. Now this Phenomena of the New Light Superet Facts we must learn of in the Light Language to start the life with Light.

Proof that God's Light for souls shows in a Light vibration: This Wonder Purple Light, Superet, you can see on the Heavens when you have your eyes attuned with a more "Light vibration" mind and vision to love all humanity.

The Founder of this great new Light, which is the highest and oldest Light, says It is coming back again to earth. It holds a big meaning for the world now for you to heed It. The fact proves to help and protect this planet and humanity.

This fact also proves to help all religions, cults, nations as one in God's planet for humanity, to shine His Light on them for all to be united, and to help them,

naturally. Nothing but prayers with Light bring peace.

We see how the sun shines on all; even if it is hidden in the clouds, it is there for you and me and all that do not see it at once. But we believe in its appearance soon.

In the olden times, there were the Light worshippers of the sun. Now we of today know that God created it for this planet. For that humanity's life atmosphere of the sun nature was needed.

Now this Wonder Light, Superet, differs. It is coming to help. It becomes also more visible in the time of need—as the Light Scientist explains how God will not forsake us if we pray; and so long as we love and help each other and love all religions that must be needed for Light development. They are all striving for Light; even our enemies, but they do not know it.

Now, as this Science is purely Light-scientific with Heavenly facts for all, we cannot deny It. For It is for all people and religions to accept It. It will help, not only healing the bodies, but also the soul with its Wondrous Light Presence in us at all times.

This Superet Light is a great Heavenly Sign that will bring humanity and religions closer together united. Remember that only now this Wonder Light from God has been accepted—that even when accepting, even one person receives a healing. How much more many persons and religions will receive more help and strength. And those that were weak or lukewarm will seek for Light that is the Truth. And what could be more true than Light coming from Heaven, proving with facts? No longer will there be misunderstanding.

The Scientist says that the Light is so great It seems at times in its brilliancy and Power that the Vibration

draws those that are seeking for help and for Truth closer together—seeming to find them, to reach, so to understand each other no matter what nation, color or religion. They're in it. Believing, it seems to start happiness, cheer and an understanding arising in all when speaking of this Holy Wonder Light, Superet Planet life of Light.

The facts prove also that It disappeared with the Lord's Ascension; and now again It appears to help us all alike. For the Lord proved He suffered for all of us alike—Jews and Christians—to come to the Superet Light of which He was connected—as He saw It on the Heavens as we see It now. He said for all to "Follow me."

Why did He say, "My doctrine is not of this world"? So His Light Doctrine was not just of nature light, but coming from God's Heart. That's why He knew the Name, Superet; and It could only be found by the Light Vibration Language which He only could know.

All those Words of Jesus are alive again today in Light. God proves with facts that speak the truth. You have naturally to believe Light.

Realize dear one, your personal opinions will never affect facts. You will reap what you sow—light or darkness. So realize, if you sow and are wanting light, you must first learn about it before you can reap the light. Those are facts of Light which your Aura will prove to you—no longer just believing. But only facts speak Light to you in this little magazine.

Now the Superet Light is a true Heavenly fact which many are beginning to see. This new Wonder Purple Light Stream or Vibration was not seen since the Lord

Ascended—as though It ascended with Him. This Holy great Wonder Light has returned in this Atom Age. And with the finding or uncovering of the new Name, Superet, It has become more vivid. This great Wonder Light only comes in a Purple Color, and is so fine a vapor that you can hardly see It unless your eyes have a pure vision of love to God, and no hatred or fear. “To love everyone, friend and enemy alike,” were the Saviour’s Words. Then we do not need canons or killing—as repentance and love are the strongest weapon in Heaven and on earth. It penetrates, heals all wounds, which this new Light, Superet, will do for all on this planet when we follow God’s two Commandments with Light.

Let us all start now—and watch how quick peace will come over night.

Read the 222 Superet Symbols’ Vibrations made in color and forms of Vibration. This will help your eyes by looking at their Vibration color. You know how green is soothing for your eyes also.

To “Heal Thyself” with S.A.A.S. will also settle inner fears and worries of the patients, and emotional disturbances, or physical injury, with the security of the healing basis for inner conflicts.

The sub-conscious Atoms need in the center brain the cleaning and refilling with Light Vibrations that never can go insane. The “peace of mind” is the chief goal. But, this can only be earned with the Atoms’ substance with the S.A.A.S., which is the Spiritual Light Physiology—the Science of the “living beings” inside—not just outside but with the twelve senses’ development in Light!

Spirits and Angels of Different Auras

Naturally by Light Auras they are drawing others out of darkness like the sun is seen in the ray of light that goes out from it. This newly discovered Planet, the Superet Light Star, forms, but with the Aura of a sun that is sending also a Ray of Light that reflects more in an invisible Power of Light. At times It is seen clearer like the moon.

We know that there are angels, but we cannot see them; and then at times we see them—maybe in a dream.

The Aura Scientist has seen them even as a child—and in light—describing some with silvery wings and a golden white, or like rainbow wings that are always covered with a light substance that flows in a stream from each wing separately—one upwards and one downwards.

Now it is hard for some to believe when you have not seen them; but the Bible proves with the Lord and the evolution of time, that you realize now that there has been going a purification of souls all the time through the millions of years in the evolution of humans and spirits alike to earn the Light Aura.

I have seen often some sad crippled or insane people, also spirits, that had broken the Laws, who when awakened out of their darkness sins, could not think of Light—only when they saw Light—and angels helped them. How quickly they were helped and

healed with Light. Naturally we humans will be helped also.

The Spiritual Light is greater than the sun and a thousand suns from some of the Celestial Beings, angels. There are Terrestrial Beings of greater statues and Light. Some have one eye on their foreheads—the “inner eye.”

Why do you believe when you hear of life in planets? Because the Aura of that planet shows their characters, their life. But the planet's Aura all around it shows outside, which only proves God created the world with a Light Aura. But, through all the Ages, people were not enlightened, but only believed that there is a higher Being. So they made a God of the sun, and worshipped the sun. Others worshipped thunder, or the God Lightning. Others worshipped animals, snakes, elephants, etc. This we know when we read of the many Gods of old Ancients-lore. But they did not know the real God of Superet Light.

Now we realize how fortunate we are that the Saviour came to us to bring us His God with the Superet Light, Who is now accepted through Him when He said, “My God and your God.” There is the difference of Light—which is just as we show the difference in Auras or in our gown coverings.

The Inner and the outer Aura covering is in a ring even from some of the stars. As you study, look at the shining star with its rays. Some are small; some more brilliant.

The star Venus is a large planet; and it always stays near the moon. Now the moon is also a planet, but it never shows the figure of a star. Why?

There are wonderful things on the Heaven which we do not see. Only sometimes we see on the Heaven that there occurs something unusual of planets. Many stars are often seen coming suddenly, flying, shooting down.

All the atmosphere you know is filled with wonders, that if you develop your "inner eye" you could believe it more, and see. "But blessed are those which do not see but believe."

Now you begin to think of the greatness of Jesus' God, Superet, Whose Name was and is Superet forever. He is the Creator of all those Wonders.

Now we can become angels within in our human form—holding those created new Light Atoms protected, proving with the Aura. And that needs care and a Law which we must use to produce it. It will work in us also; but we must apply this God, Superet, Healing Light Law if we want His Light Healing Help. The same if we want electricity in our home or a candle Light laws. We apply that law only. Nothing else.

This illustrates to you the Light of the "inner" man. We are now going through the purification. That's why the wars are there. Those that have Light within will have no fear—will be calm. Because, they live inside with God's Light Love and Protection that nothing can hurt them. They become connected with Light.

God wants no personalities but souls. Some are rich, others poor. Our personality often differs when we are young and when we get older. I have seen Auras of babies, children, where they had dark streams coming from their Auras; and some old people had great Light

streams in their Auras. This proves the evolution of spirits, and the reincarnation of souls.

We read all this in the Bible. This is all the Bible, scientifically explained.

We that are ready in this Atom Age must begin to study our Human Atoms that hold our life substance, of which we must learn to see through the Aura vibration. And it is so easy to change and to earn Light Atoms, filled with a new life. "You shall be born again" with new Light—spiritual, not just nature light.

Come to our Rose Garden and see our Grotto. You will see the Purple Star symbol, and also feel an Aura of Light that even narrow, or stubborn as can be, you will have to acknowledge that you feel it which you've never felt before!

We have started the Garden for the public so that each one can come with a freedom in of any religion, nation and color, to meditate; and you will feel the peace in this beautiful Garden, where angels can come to us and bring the Peace Atmosphere for us all—to all humanity to unite in Light as one to be helped, lovingly united no matter what religion, rich or poor, any color—all mingled for God's Peace, and prayers.

This Garden has been built by all that have been healed through and of the God's Superet Light Method. This great Wonder Light was revealed first to the Author in a dream—that this Star of Purple Light would come, and It would come from the Mother God, Superet, Who wants to help us in Her great Love and Pity for us with Her Love-Light, Superet Ray, to shine upon us to help us.

Peace will come when we all united, pray and seek Her Love. But the brotherly love is needed.

This dream has come true now after fifteen years. When I was in Jerusalem and saw the Garden of Gethsemany, I wished for a Rose Garden for Jesus to give to Mother God, in all humanity's name, for Jesus to never suffer again.

Not thorns, but hearts will now be roses in His Garden. And see how we follow Him. Come all. Remember everyone is welcome. We do not speak but pray, meditate in silence and looking at the rainbow and the star over the Grotto. You all will feel the Heaven has opened up to send us help and peace.

Come, loved dear, you chosen ones, and feel the Peace of God with His Light for us. There is not a Garden like this in the U.S.A., or in the whole world.

Remember the Superet Light Prayer Garden opens prayers from twelve to one; and opens again from seven to eight evenings. Every day you and all are welcome.

Instructors will be there also to help you, and to advise you in this God's Superet Light method if you desire help; as you will see them all that have been healed.

We are not asking you to give up your religion; but use it in your religion as you wish. This is for all humanity—this Love Healing from God—not just for one religion or cult, but for all alike; as we all belong to God.

Write to the Founder, Dr. Trust. She says, "Send me your God bless you as I send mine. After years of suffering I could only give it to you, this great Finding of the Lord."

Remember the address if you want to write privately to: Rev. Dr. J. Trust, 2516 West Third Street, Los Angeles 5, California. Telephone Dunkirk 8-8145.

Also, if you are out of town, write us. We will send you leaflets and literature—something that you will need for your development from our twenty-five books that have been developed of long study by Dr. Trust to bring out that Vibration for the connection with this tremendous Light. For It cannot be misused; as Jesus removed evil spirits with Light.

Often when Dr. Trust spoke to evil or undeveloped spirits to leave that person, they began to cry, "Don't burn me with that light." They also then were helped like the persons they had obsessed for years.

That's why the twenty-five Superet books are needed the most in the world—to save you and yourself, your life, health, and your future here and hereafter—as you leave the world with your soul's Aura covering you—nothing else; neither money, name, all the teachings. Without the Superet Light Teaching you cannot produce that light in your Aura. For it is natural—not just a miracle or make believe—but Light facts; as Atoms give life here and hereafter!

On the Judgement Day, God only looks at your Aura—if you have the Light Connection united with Jesus' White Light of Purity in leading to God's Purple Superet Light.

Learn Your Aura Garment Color

Men and women alike, of what color for you to wear to help your Aura, to bring out the vibration that will help you, wear a light color.

Do you realize that you have to nourish your Aura just as you have to for your body health and protection? As the Aura is a garment, only to show what treasure you have within you, but it is to protect you also outside.

You will find it in the colors of the flowers or fruit, and vegetables you like by their colors you prefer which also will be the colors in your Auras. You do not see any darkness in flowers.

Now to be helped and strengthened in your Aura, a white ribbon or scarf around your neck, or a plain scarf of silk, or of a pure white chiffon will help immensely to protect your glands. Forget style.

I have found it out when I was very sick once. In my dream I saw a beautiful angel woman coming towards me with a white scarf around her neck and chest. And on it was her white Aura like jewelry, diamonds of purity, a beautiful white scarf, looking like snowflakes pearls on it. From that time, I always wore a white scarf. And many saw my Aura on it. It helped my throat. Also this made me stronger and healthier than the low neck dresses of before—as the glands need the Aura of the white vibration color near it; not exposure that even the physicians do not realize. The Aura Light Vibration gives life on the glands which is so vital. Not just nature light, but spiritual Light.

As you know, men always wear the white collar and prove their strength; and they wear their neckties according to their feeling of color—their Aura color—when they like it. This is good for the family to buy them that color of necktie that the men like.

Men and women's Auras do not mingle as much as childrens. The Aura is very sensitive; and you will learn to see it when you come to our classes and lectures where the Light Scientist personally will instruct you. How happy you will be to see yourself shining in light. Learn the Laws first.

Many students will testify of seeing the Aura and the Superet Light Healings even from other towns and here in Los Angeles, of how they were helped through their garments' colors. So many wear black which does not show light.

Have absolute faith—as this Truth speaks with facts! Every Tuesday at 8 p.m., lectures are given. In the Rose Garden you will see an emblem of the Superet Light Star with the Rainbow of Peace which travels together in Heaven, coming to you and to me to help us all forever. The rainbow colors have no black, but all are in light. Why?

All Heavenly colors and symbols are in light colors—as the Father and Mother God, Superet, create together and work together to create us in body, spirit and soul with Light. They gave us the earthly parents who have the machinery built in them to bear children. So when you misuse it with adultery, sex, the machinery for pure baby birth, you not only hurt your soul and spirit, but also your body. For the energy is drawn from your brain, and then elements can enter. For the

mark of the beast is started, seen on your Aura sex love. Only evil lives in it, and your Aura proves it and you cannot deny it.

How To Develop Your Gift

You that are a singer, painter, artist, actor, inventor, musician—how you would like to become a genius! This is very easy if you know the secret of it.

Do you realize that even animals know their gift. That's why dogs have highly developed hearing, why cats have highly developed sight which the dog has not.

You often do not realize your senses' gift is yours also from God; but you are more highly attuned with the spiritual Light. Flowers are seen more of an undeveloped class of life. They produce short rays. Only the rose has the longer rays. But the animals have little longer rays. Mankind has the longest of all; but many have very short rays—according to their characters and life.

Now, if we can only produce short rays, we can attract only those with short rays; and we are less useful. We are like radio sets. Now the sets of high power are sending out long currents, and can receive long contacts from far off from other strong radios, and can be of greater service to the world. And, why our voltage must be stronger, and much more in strength, is, if we desire to be used for the higher Light.

Do you also realize that we are like flowers that attract to us people, who like insects, feel more com-

fortable in our rays. This is absolutely scientific—this, like attracting like.

This Superet Light was more a spiritual scientific Finding of a new Purple Star. But It was not just higher or just a planet; but was in the Heavens hidden. And the “inner” brilliance of the Purple Light was filled with diamonds’ brilliancy, tremendously more than any other color star or planet ever had or has.

I pondered on it, I was afraid but was impressed with Its Wonder Aura to study Its Vibration. I began feeling the Healing Power, and so many that accepted by the thousands of humanity of all kind of diseases were healed, and stayed healed.

Why do unnatural things come of forced growth? But this Superet Light growth, if scientifically understood like the natural rays of the sun, comes as you learn of Its Laws. You must also—so much more learn to operate your radio within by your Aura—if it is in the right degree of light. And you will find the Law how to use it. Now by the same study, the Author found the Law, which, when used, works wonders for you. The truth is, it has a greater chemical spiritual Power than the sun or suns; because we will feel within something happening—good or bad—of a change of life—a feeling to do better. Have you felt the sun burns and suffered?

Now the Laws, when applied to love and help every religion, never condemn anyone because they have made mistakes, or that they do not believe as we believe, that they would not go to Heaven—all are bound Heaven-wards. No one can be lost. Even evil, if it will repent, will change into an angel. We all must apply

that Law of repentance not to commit those old mistakes.

We call those that fight us our enemies; but they are really our brothers—because all are covered with the same spirit of God, but do not have the chemicals of Light developed like you have. So when we lead them lovingly to see the Superet Light, and how they will be healed and helped, sometimes the so-called enemies will become our greatest friends.

The time has come for us to follow this Light—as It must be a Sign from God to awaken; and you will see how quick the war will end as it must through this Wonder Healing Light.

The Author has seen “light” ignorant spirits and angels kneeling together when that Purple Light was visible to them. So It will not make any difference of religion, color, likewise our enemies’ nation. God calls all His children to come to His Heart Love-Light, Superet.

As you use your gift like the Author Who says, “I have used mine even when many scoffed and did not believe me, even after they were healed and saw the Gift of truth; but blessing and loving them just the same because they were helped by this Superet Light. There was the proof of how God loves us all alike, because we are all one humanity, one with God and Christ.”

The Author says, “The greatest help comes when we see our mistakes and repent every time we find it out, and thank everyone that helps us to find our mistakes. That is our real friend.”

Come, dear ones, no matter what you and we all

have done, may our sins' Auras be dark, this Light will burn them away which Christ speaks of: "Follow me. I am the Light of the world." He was and became connected with the Superet Light. Let us follow Him with our light love to see and to come closer to God's Love, Superet Light, so that It will never depart from us and our Superet Planet. We must feed It with a pure love—as It only comes by a pure heart love from us. So we must try to overcome and have the strength to rule our bodies to become temples of this God's Superet Light to enter in to feel the benefits for the body, spirit and soul. And all will be well.

It is so easy and costs no money. Like the water we drink. It is full of Light, but it does not touch the soul; for it is of a different light substance and the chemicals differ.

You can become a genius light bearer by applying those Laws as given here; for many who applied those Laws have been blessed by seeing the Superet Light Aura, that even no matter how faint It was, became healed, helped and even saved from accidents.

The angels and the spirit world are coming closer to help humanity. Let's call them as our brothers to help and to pray for us. And we pray for them—as they also need our prayers to only worship God, Superet, as the Lord did. No other but God's Spirit Light!

Start of S. L. Brotherhood

*"All Love Each Other" Brotherhood
in Superet Light*

This Brotherhood, Superetist or Light Bearer, invites you all. Have you received our blessed leaflets? Write and we will send you some, and to help others. This is not alone "soul saving," but it will help, heal, comfort, cheer and make you happy and free of all sorrow and wars. For this Brotherhood has to prove Light with the Aura Light!

Mother Trust speaks to your heart. "Open up your heart to God. Speak to Him like I did, and help will come. But you must know your self, how you look inside. Not just outside, not with words, but with facts. That's in the Bible that the Saviour's Aura came out of His Body, "And His Face shone as the sun, and His soiled Garment became as fullers' earth so white." Facts—not just believing, but seeing. We want a Light Aura.

Come and learn about it. It is free. Poor and rich—all religions—as you stay in it unite; for It is God's Light Science that will prove to you in my twelve dream-facts which you will see for yourself—the Aura or "blue print" of God, of His Creation. And if you do not believe in the Aura, you will see the facts—as God works through the Aura of Peace in the rainbow which we, the Superetist or Light Bearers' Brotherhood, have over our Grotto—this Symbol from God's Heaven before us, to remember we are not forgotten when we follow the Saviour, the Prince of Peace. Also the Heavenly Symbol of God's Healing Purple Star Light

Method which is for all humanity. And the whole world must have it.

Why is this loving God's Light Star coming now to earth closer with Its Light? Because we are praying to come closer. We draw It with our love.

You know we can draw people, animals, everything with love; but it must be for all. So this love is for all humanity and religions; as you stay in your religion and only learn to see the star's Aura of Light. Then you will know God has sent help to all to come to His Light for help.

Do not be afraid, because It will give you more strength to belong to your religion and help more. You that have gone to college of all religions know this is also a Light Aura college to study and to graduate with a Light, and to see it for yourself with your own Aura and other Auras.

Are you realizing what It will do for you and your children? Never can they become criminals; for this "alive" Light Law, once It enters in you, works like magic to keep you good. In Light nothing can live that is bad.

So this Superetist Brotherhood has also a S. L. Aura Club to learn and to enjoy in more development for Light—not only to help others, but first you must come to have the Light Aura. Then everybody of all religions will feel it, and want it too—also all religions will need more Light.

We need more churches, more love, more happiness which this S. L. Aura Club tries to give everyone.

Come to our Garden and also to our entertainments.

We have started this S. L. Aura Club for learning

the Aura, and have entertainments, Aura vibration singing, games, music—all to learn vibrations to build an Aura of Light. You'll love it.

RULES:

Not allowed to bring or speak of politics, nation, religion, old teachings, beliefs, only the development for your Aura in Light, Superet Science.

All are welcome. This is all a Light Love-offering to God's Light in our Auras.

Now this S. L. Aura Club will help you to build your Aura, positively, surely. You will see it when you have the gift developed, or feel it.

This S. L. Club consists of all that want to learn about their Auras with free lessons with membership. Only a love-offering if you wish.

The Aura Light Scientist will teach personally and help your Aura building.

How I Started the Peace Movement on Christmas

The Superet Prince of Peace was started 1939 on my last trip to the Holy Land. I went on Christmas Morn to Bethlehem. They told me I could not get there on account of the bandits from Nazareth were in Jerusalem, and it would be dangerous for me to go. But the Lord was with me. I arrived 5 o'clock Christmas Morn in Bethlehem. A few tourists were there. Some had slept all night in the mountains.

As I looked down from the mountains into the valley, the sun was just starting, when beautiful voices of the shepherds were heard down in the valley singing. They were holding up their staffs, leading their sheep. For

there must have been a couple of hundred. It was so beautiful that we all sang with them, Holy Night.

Before going to the church, I met the governor's wife who saw my Miracle Picture and invited me to sit in her husband's seat, the governor of Bethlehem, as he had to officiate with the Bishop at the altar at that time.

After the church, I told the Bethlehem people that America sends them all love-greetings for a happy Christmas. This was my time to talk to them, to start the Superet Prince of Peace Movement in Bethlehem. It started with two hundred—but it had grown to seven hundred in a short time.

I told them, the Aura of Bethlehem did not show danger as the Aura in Jerusalem and Nazareth did. My words came true, but many did not believe in the Aura.

You know, in my study of the Aura, I discovered how true it is, that I do not care what people tell me. I only look at their Aura. This tells me more and everything.

As I have made a new Aura scope of the U.S.A., how would you like to have one—if you are interested in the Aura? To me, there is nothing like the truth that the Aura tells—as I see the Inner Aura of people and cities which I made in my world travels from different cities, of people and their languages. The same—I see the Aura of religions, cults, and how much light they have.

Many children have been benefitted, helped, and their parents brought together. The Aura gives happiness to all, and warnings.

The first start of the Superet Light Center Club and Brotherhood was in Los Angeles. The second in the Holy Land, where the Superet Prince of Peace Movement started.

The Creator of Light is God. The Founder of the Superet Light was seeking in finding the spheres of Light of many different light colors to find God's Light.

Dr. Trust Who predicts that peace will soon come, says, "I believed and saw all people good and well, and so wanted to make that vision come true in light with facts to myself and others. The start was to listen to everyone's problem of all humanity, and of all religions, loving all and their religion, knowing that they are the stepping stones to Light.

According to our consciousness, we belong to that vibration of light development. For we must all travel upwards through regions and spheres in becoming conscious of it.

After years studying Light, I was led to the Human Atoms' Aura mechanism of light and of darkness, and how much more we can become conscious when we study ourselves, also through our mechanism of our twelve senses for the soul development. The Light Aura must prove it with facts—not just enticing words and self-satisfaction, make believe.

This was my start as a Light Scientist, a young girl in New York, called the "Wonder Girl" on account of the healings and lectures—which was at that time a new teaching to many—never heard before.

Realize, the only study was my Bible. That's all I studied after seeing Light, to find the Saviour's Light in His Words.

As you now begin to study the spheres of Light and its vibration, and your Aura—as “There are many mansions (Auras, light spheres) in my Father’s House (in Superet Light)” —so you will know in what sphere you will go when you pass on to find yourself connected with Jesus’ Brotherhood of Light.

God bless you, dear one. Remember, you are never alone or forsaken; for if your Aura shines in Light, you draw all good to you when united in the Superet Light Brotherhood.

This Wonderful Truth is hardly believable; but God is with us—and Jesus proves that this was His Light Doctrine with Dr., or Mother Trust’s twenty Miracle Pictures, which, on each photograph shows the Christ Face or Light, or Star on Her heart. The Light Atoms’ Aura you can see plainly. The Light Mark is on Her forehead. All those photos were taken by strangers and developed by those who could not see anything on the photo when they took it. But It came out all by itself.

The Miracle Pictures are very holy to Her, and are acknowledged by experienced photographers. For if anyone doubted This as a phenomena, they described It.

Dr. Trust will show those Pictures to some students, for they are not for sale—but only for blessing you.

The great Power of the Superet Light Science. Many dying people became conscious when I gave to them the Superet Light Science Treatment. They opened their eyes as they were dying. Others awakened and suddenly became healed. You never know what God will do for you and others if you are obediently following this Superet Light Method.

Remember, the Superet Truth Light never fails. It never failed me nor will for you.

Write and send for lessons for instructor's diploma after your answers are given correct.

1. *First question: Why do you wish to learn the Superet Light Method?*

2. *What affinity chemicals are needed?*

3. *Where in Bible do you find the new Name, Superet; and where is the Superet Light revealed?*

4. *What was the Saviour's Religion or Doctrine?*

Only in the Lord's Words you will find the answers.

Keep Thyself Healthy With S. L.

Starting with the human body Atoms, you have now found and helped in healing the sick Atoms with the Aura Chart. Keep the healing vibration by repeating often the Aura Chart for the body, spirit and soul Atoms with repentance. This is your life here and hereafter in Light Atoms' life.

First for the body Atoms, you need the nature Atoms with inhaling plenty air, to drink the water Atoms, to eat the chemicals' Atoms in the vegetables, and also in the mineral Atoms. And once a month make your Aura Chart positively to find any sick Atoms left for the body examination through which you become your own doctor.

Second for the spirit, you need the spiritual Atoms. Watch your temper, acts, motives, thought-Atoms, and the twelve senses' Atoms that are needing a cleaning

out of different low and dark vibration Atoms which your Aura will show you with your Aura Chart—the sick spiritual Atoms.

Third, as your character Atoms have been examined and found that you are overcoming all, or some of the unclean body habits and sick spiritual dark Atoms, you are now beginning to feed your soul with a new light vibration; and for the first time you're beginning to build the Light Atom in soul. You will prove with prayer Atoms of loving to pray for the Superet Light to come with gratitude to God, with love, patience, and forgiveness to all enemies.

Keep up in being thankful for the Superet Light—Jesus' God's Name, Superet, for His Superet Light to heal your sick Atoms. Because, you can only live by Atoms.

Realize, you will at some time need the dentist or physician, or medicine to help you also in your past ignorance and neglect of the body sick Atoms and Light nourishment; also the sick spiritual Atoms' purity nourishment—just like a mother feeds her baby with milk Atoms.

Parents, this will not only for you create healthy but Light Atoms' spiritual children. You will be happy to have them love and obey you more. When you shall meet the Great Light Parent, Father and Mother God, Superet, you will not be afraid. For you'll be decorated with your earned Light Atoms with Auras proving you and your children's Light everlasting Happiness which only the Superet Light can give you.

My prayer for you—with "God Bless You"—and for

everyone you help through this Superet Atom Aura Science with this "Heal Thyself With S.L." magazine, is to feel the healing result, and my love.

Your Mother Trust.

The Superet Atom Aura Science Laws

This, the greatest Wisdom in the world, is to bring out the Aura of the Human Atoms in Light—which is not just a belief or make believe, but with facts.

The time for truth seekers has come. Ignorance of God's Light is not any longer accepted by only a belief; but by facts which labor must prove of the scientific facts that help all how to travel step by step in Light Vibrations towards the Lord's White Light. And He leads us to the Superet Light—the transmutation of creative energy of our twelve senses when we start in the cleaning out of the poison-darkness-sin of the sick Atoms, and begin new Atoms by the chemicalization of Light.

Read the Superet Light Doctrine Book of How the Aura remains after death—page 896 in the Superet Doctrine book, and, you cannot die, page 901. 704—you will never fear death. 705—how to love each other.

"Let there be light." Start with the greatest Super Scientist, Who gave us only scientific lessons of the creative energy, of How the Laws of transmutation

change our Human senses and all desires into higher pure desires; even sex after the finish of child birth. The Atoms of sex energy start to earn a Light Atom. And not only do you gain in strength for greater body health, but also for soul. Your Human Atoms' feeling substance will change to a greater purer character and love to the spiritual and higher love.

The Lord said, "Thou shalt not commit adultery (misuse your sex)." With this Atom Aura Science Teachings you will have the strength—and to learn before you pass on—for Light Atoms that you must have of a Light substance in soul. So you need the Light Law and how to use It. The ignorance is of you not having it but only talk. The Light Vibrations which the Superet Books vibrate will help you in all religions.

Remember, to Heal Thyself With S.L., might seem easy to you, but you must know the Law and live in the Superet Light Law. For you need the Atoms prepared, and also your twelve senses, which this Science only teaches.

No other science can give you this, or religion; neither can the material electricity give you this with ideas or prayers—but with the scientific Light Laws and facts proving with the Light Aura preparation with the Superet books, to earn the Light Laws which will help you. Remember only to give credit to the Superet Light—not to yourself any glory. Only that you obeyed the Superet Light Law!

Atom Tears Hold Different Substance

1. Jesus' Tears
2. Repentance tears
3. Baby's tears
4. Death tears
5. Joy tears
6. Gratitude

Your repentance tears.

After you have made your Aura Chart, and as you burn the paper, hold the thought: "I repent all my sins of the past; and now I ask for forgiveness in the Name of Jesus." This is between you and God, and Jesus, Who will help you.

How to Make Your Aura Chart

Take a large sheet of paper and write down as follows: "In starting to analyze my sins, habits, and weaknesses from my tenth year until now." Then write down the deeds, acts, facts committed through the twelve faculties. Start with:

1. Mind sense—what kind of thoughts—if they were leading to good, bad, etc.
2. Will sense—positive, wanting always self-will, etc.
3. Eye sense—misusing for flattery, enticing others to sin, etc.

4. Ears sense—listening to unclean stories, lies, etc.
5. Nose sense—sensing for sinful sensations, etc.
6. Mouth sense—speaking lies, lustful kisses to entice others, etc.
7. Heart sense—self-love power, vanity, etc.
8. Spirit sense—living only for self, family, money-love, etc.
9. Soul sense—impatient, resentful, dissatisfied, etc.
10. Soul-heart consciousness sense—forced to pray, pretending, not feeling love to God, etc.
11. Ego sense—(made of emotions of body, spirit) unholy emotions, antagonistic to other religions or people, self-righteous, etc.
12. Sex organ sense—loving sex life to satisfy your body desires. Married or single you build the same Atoms.

Facts: The truth proves by its colors which the Aura shows; no matter what your religion is, its what vibration you have lived in.

Religious Comfort

There is no other stable foundation for solid comfort but the Christian religion—not barely acknowledged as a truth from the conviction of an external evidence (important as it is). But embracing God's Superet Light as a Principle of hope, joy and peace, and from feeling its necessities for our nature as well as its Power to alleviate and that even our sorrows must vanish, only then God's Superet Heart Light can save us and give us peace.

A New Era is Opening in Science

We ask if there will be interplanetary messages established? This has already come; for often the Aura Light Scientist could see different Light Vibrations or a Light Code—some think—which looked like shorthand, but also like the Ancient Writings which the Aura Light Scientist studied at the Museum in New York.

In the study of Light Vibrations as a mathematician, Dr. Trust suggested that such teachings of Light Writings were sent before also by other worlds.

Let us look and study today the start of the Atom Age. On January 10, 1946, there was a contact with the moon by radar. Today we may be on the threshold of a new adventure in space.

Now in the atomic energy there is a fuel powerful and concentrated enough to carry men to new worlds. Dr. Trust says that those are all in symbols of the greater forces coming—and through Jesus, starting in the air of a new passage through the Superet Atom Aura Science, which Dr. Trust discovered—that this tremendous Superet Light pours out fine vibrations or vapors of Purple Light. This brings healing for souls and bodies. For now the dark sick Human Atoms must change before this God's Light can send Its Healing Substance into your Atoms. For this is the life of your body, spirit and soul. Only the Atom can hold the substance like the tear Atom holds water.

Also realize now that the radar signals to the moon had reflected back to the earth on January 10. It was

the first time that man definitely knew that he had established contact with another planet through Atoms.

This proves how we can learn of a greater contact with God, Who is present everywhere—as God gives life and no one else can give life.

Dr. Trust, for years in the Light study, found many secrets which She gives out in Her twenty-six Superet books, that in the future, all those predictions will come to pass as it has come to pass with the thousands of healings that Dr. Trust lovingly gives out freely to all the world in the Discovery, "Heal Thyself With S.L.", or Superet Light.

The Epiphany

The Superet Star

The Star above

Glow's sweetly on the gathering night

Below the Superet Star of Love.

Legions of angels soaring to this Star

With awful worship and love.

Only Mother God's Superet Light Star shines

With a glowing stream for all alike.

Yet She,

The Creator from Eternity

Can only transfigure the far world,

Lovingly wipes our tears and sorrow to give us peace;

For only Her Mother's Love can forgive and help us
all alike.

Cheering us with the Rainbow and the Superet Star,

In the Garden of Roses, Her gleams of Light with Love,
shines the Superet Light.

Superet Prayer Garden

The open Church for all is free, to love Jesus' God with a clean mind and an open heart. It is for all religions and humanity.

When you look at those beautiful Emblems of the Symbol of the Heavenly Rainbow and Star, which only God could create in the Heaven with the sun shining, you rejoice in the Prayer Garden of Roses.

Let us pray:

I love You in the morning when the sun begins to glow.
I love You in the evening when the sun grows cold.
I love You at night when the stars and moon come out;
For I love You always, always my God in Halo Light of Superet."

The Halo is the Aura of God, which blesses all humanity. This Rose Garden of Prayers with birds and angels singing, is united with your singing and prayers.

Dr. Trust, born with the gift of seeing Auras, studying thousands of different Human Auras and religions, nations, with the basic research for light or dark substances of sick Atoms, seeing Auras with vibrations proving Her Discovery of the Superet Light Law, when using them, many were healed.

The Founder of Superet Light Healing Method is giving the greatest Discovery to all humanity through Superet Light Atom Aura Science Laws every Tuesday lectures.

Superet Books and Library

As this has not been a money scheme,—nor ever can be but to help humanity, and to explain to you—for many have asked why we have the twenty-six Superet Light Books, and why are they needed, for the Bible is only one book, the answer is: The Bible Old Testament shows the “Light seeking” vibrations for the higher Light.

Now the Discovery of the God’s Superet Light in the New Testament, shows in Jesus’ Light Words, His God Superet Light Vibration with the explanation to the higher Light in symbols, facts, acts and motives of the twelve senses, which was Jesus’ start of the Human Atoms Aura Science with Light Vibration that no one knew or found before. Why? Because, that new Light consciousness of humanity’s Atoms’ substance had to be developed, and to be prepared first for 2,000 years through the five hundred Christian religions with the different light vibrations, and with Light steps leading gradually to the higher Light Vibration which came from Jesus’ God, Superet—His Superet Light.

Facts of this Jesus’ Light Wisdom was and is today tremendous in earning It with His Light Laws. For It had to clean out darkness and develop certain lights leading higher to the highest Light Vibration with the Superet Books of many different higher Light Vibrations. For this Superet Light Vibration is alive with Fire of a Spiritual Electricity, and cannot be mixed with other vibrations.

Just like the keys of the piano must separately be

used. They all have a different tone; and each one must separately give out to get the harmony vibration of that music—the pure sound that holds for that vibration only.

Please remember, when you use this Wondrous Name, Superet, mention the Founder, Dr. Trust, so it will keep in that vibration protected, and never be misused: for It is so very holy. Thank you.

Why all religions must study the Lord's Wisdom of Light, Superet—for, as those precious Superet Books have healed and helped thousands with facts, so the Superet Books are priceless; and are given through the Lord's Light Words, with the Light Language-discovery translated.

All have a definite lifting in your vibration for higher Light which you feel in heart, soul, mind and spirit—as Superet Books appeal to all people in all walks of life, with a concrete proof of a point, that there is no stationary period in life but the change of Atoms.

Either one progresses or retrogresses as the Atoms' dark substances change through Spiritual Electricity which the Superet Light Laws produce when used obediently—just like the material electricity produces higher light than candles.

Even prayers spoken in your own language which you know best by heart have established more feeling-vibration than in other languages often. But now we pray in Jesus' Light Language the Superet Prayer, which will vibrate more feeling of vibration—because a higher stream from your soul-heart will uphold your body-heart for God's, His Holy Will, which will save you from suffering. For God, Superet, loves your light of white purity.
