FORWARD

In past days the art of prophecy, prognostication, divination, clairvoyance and like glimpsings of future events were the province of the witch doctor, the soothsayer, the gypsy and certain somewhat disreputable, scheming, fortune-hunting individuals who found out about mankind's deep and abiding interest in future self-hood and knew they could pervert this interest to serve their grasping natures.

In this modern day of scientific enlightenment we are still somewhat tied to this picture of Dark Age nefariousness. The church is somewhat to blame for this. In the church's effort to steer clear of anything pagan they condemned and closed off a branch of human endeavor that held rich promise of bringing much good to mankind.

Prophecy was a highly respected profession at one time. In the days of Samuel and David, Moses and Isaiah and as late as the Greek Oracles and the days of Jesus, the Christ, prophecy and the lessons contained in them were much sought after by the general public. Certainly there were some false prophets in those older days but with prophecy being a legitimate calling, and the public so regarding it, the prophet had to deliver the goods, so to speak. If he did not, he did not last long. And the prophets themselves safeguarded the profession by keeping track of one another. To an enlightened public there was little danger in prophecy and much to be gained in the area of responsibility and the development of man's mind.

The church then, maintaining that it was protecting man, actually brought about a condition of exposing man to the evil side of prophecy and it degenerated into fortune telling in dark alleys and dingy rooms and itinerant wagons. And when the public was taken, as it naturally was under such conditions, because prophecy was forbidden, at least outside the church, there was no place to turn, no natural regulative function, that occurs in a free society, to control and keep in line these false prophets.

So, in time, even though mankind still had and has a deep interest in self-development, the public began to look upon prophecy of any kind with suspicion, and man began to try to build gadgets to serve his interest in self-development and circumvent and hide from himself that this was the self-same interest that the art of prophecy once served. The telescope, microscope, radio, telephone and television are all attempts to look into areas that prophecy once served. Some of them are even named appropriately like tele-scope, tele-vision, tele-phone.

In the interests of enlightenment and free -thinking, CSA brings you in this booklet certain prophecies, the dates they were received and the channel or oracle who did the prophsyng. They are as clear as we can make them and are available for the reader to do his own checking. We have tried to select those statements that are the most definite and checkable.

Please keep in mind that we know less about direct prophecy than we once did long ago when this fact of truth study was free, or at least not looked upon with disfavor, and that no less a man than Einstein was a prophet. Using mathematics as a guide he prophesied the splitting of the atom and hydrogen bombs. His act was an act of prophecy. It differed from the prophecies of biblical days in this respect: Einstein used a highly respected, highly technical method of divination called mathematics and was gifted in the use of this method. He was called a genius. Might this be a respected and accepted term for prophet ?

The prophets of the bible were mediums and channels for truth and they related and passed on to the public facets of truth of their tomorrows, just as Einstein and others of our day have done.

So, in your checking, take into consideration that time and space have a way of being extremely elusive. Give the prophet credit to improve his art and leave condemnation and fault-finding to those who enjoy picking things apart.

You will find prophecies in this booklet by different people. Some made recently and some made as far back as 1948.

Toward the end of 1963 we will publish another booklet of prophecy to cover 1964. Write to Prophecy, CSA, Lakemont, Georgia if you would like to reserve a copy.

Above all do not panic over any of these prophecies made. In the final analysis you must use your own judgement regarding all things.

The Publishers.

INTRODUCTION

World News Predicted by Spirit

A Note of Explanation

Every week or so since the beginning of 1963, and also during the latter part of 1962, prophecies have been given to the transcriber for the world. Sometimes they come through her friends, Nostradamus, Einstein, Saint Theresa Neumann, her own White Brother, Doctor Elon, and others, who all work together in this purging of the world at this time and know what has to occur.

Nostradamus, has explained that, whereas, he scarcely, if ever, missed a date in times past, dates are often delayed or changed at present, on account of the "messed up conditions of the world, the upsetting of the planets and the etheric and magnetic belts, they being involved in the reckoning of the time of coming events."

I might mention that I do not see papers, television nor radio, just to keep my mind clear. What is predicted has to occur some time, if not exactly when predicted.

Enid S. Smith, Ph. D.

WORLD PROPHECIES GIVEN FEBRUARY 11, 1963

This morning, at 10:30 February 11, 1963, when I was about to ask questions concerning my writings, a discarnate man came with a very urgent message, which I took down as follows:

"This is a very important prophecy that can take place in 24 hours. That is why I come now. It concerns an assassination of a leader and dictator, and great trouble for Jerusalem and war over there this year. They are preparing now, the Arabic tribes. Maybe it can happen, as it looks now, the assassination of a leader of the Arabic nations, within 24 hours. Here is more. The spirits of the Pharaohs are walking in their land now, and they are going to put pressure upon the people, even as they had centuries ago in days of slavery, and there will be revolt. That is why there is going to be great trouble over there in the Middle East. All of Europe will be involved, and for lack of oil. The oil pipes will be blown up. They will be devoid of oil. Those in charge of the land will come to an end. Eventually, Egypt will be no more. Blown up. There will now, however, be guerilla warfare. The Pharaohs the leaders, are starting to cause the great debt owed Egypt to be paid."

Egypt has not progressed and has to be cleansed. Europe has been allowed to commercialize and take money from the oil. This oil will be blown up, and the assassination can be within 24 hours. Eventually, Africa will take Europe. Algeria will take France first. It will take many years for some of this to be fulfilled, but the beginning is now. The tribes in Africa will come to blows, blood will flow. They are not yet ready to be an independent nation. Eventually they will unite and again be a great continent. The Dark Forces have control of some of their leaders, and the Pharaohs are walking again in their land and cleansing it. But Egypt was before Atlantis and far greater than America now is; they had electricity, steam-heating and far greater airplanes than we have. "A British diplomat that had good thoughts for Egypt is going to pass very quickly. He is in the Foreign Office. It is NOT Churchill, who will pass almost any time. Let me tell you for a moment about the souls that live in the 'Valley of Kings' and are walking now over the land and getting ready for a great destruction, because they are angry with what has happened with the dictatorship of Nasser, also, because of the doing away with their teachings and initiations of their temples. I want to mention also that there is no color in all the world, like the blue that is in the Egyptian Temples. They made it themselves, and the old ones took it as their secret to the grave. Another matter, a great priest in Egypt will soon enter the body of an adult, will obsess the body and will come down through Gaza. Americans will have to leave Egypt. They had better be careful in Egypt and in Ethiopia where they are so disliked and where they would burn the American flag. Watch also Ethiopia and the House of Judah. There are to be uprisings and battle with each other before any peace can come--great slayings. And with what is left they will make peace.

"God will remove those that are destructive.

THE SUEZ CANAL WILL BE BLOWN UP AGAIN. This is the beginning of serious trouble. Everything can be blown up, even the banks of the Suez Canal. Any day the uprising can come, after the assassination -- watch ! Things seen by a prophet have to come to pass. (This after I asked a question about group prayers averting disaster.)

* * * * *

I checked this morning with my Doctor in Spirit on some of the recent prophecies -- trying to divide them into this year and next, if possible. Here are a few, with more later.

Earthquakes, major ones, in Iran, Russia, Ecuador, one near China, also in San Francisco and Los Angeles. There will be lesser earthquakes in many of our states, even North Carolina. Also, in Alaska. There will be a great landslide in Los Angeles any time now that will change the Pacific coastline with its debris. Also a great fire and tidal wave after the landslide. It is a very wicked place, Spirit reminds me. I lived some 14 years there, so know it well. Russia is testing bombs under the sea, and cracking the surface of the earth. One of their bombs will explode in the wrong direction and harm Europe. The heat of the bombs reaches the icecap of polar regions and melts the ice, which descends in floods. One state of Europe will almost be submerged we are told. Holland and Denmark dikes will be interfered with. If enough testing of bombs is done, the heat rising will cause enough water to fall to earth to submerge the whole world.

There will be a tidal wave around Persia this year, about June or July.

TV will pass out with the next war as the fumes of the bombs will make the atmosphere impossible for it to be used. It is doomed anyway, being a destructive polluting youth with undesirable murder stories, taking them from their studies, etc.

The President's father is expected to pass on this year,. Also, Churchill, and one of our former government people (Herbert Hoover?) The President will need to watch his health this year--also we are told that there have been three attempts to assassinate him--not published--and if he survives this year it will be wonderful. He is to give a world-rocking address on peace and brotherhood inspired by spirit. Abraham Lincoln overshadows him, and feels that if he stands for the right, he will die as he, himself, did--and that is the best.

There will be several exposés of the government, with Robert Kennedy involved, but it will not harm his good work. It will be found that our Government is honey-combed with Communism--and in many of the most unexpected industries and places. Kennedy's speech likely will consider the next war as interplanetary, as there is a new planet to be announced this year and the invention to annihilate the bomb is going on there, and Einstein is helping on many of the planets with his electronics as best he can.

If earth does not stop harming the advanced planets, it can be annihilated. Scientists now know a type of Bomb Poison Gas that would take all the people off the earth suddenly.

If the war is delayed from next July-August, it will come in 1964 with a bomb from Russia through Alaska to level the skyscrapers of New York, it is predicted, and Arizona is the only safe place, and better in the desert.

This year there will be new inventions announced, but not necessarily on the market. One drug, to help cancer, another to restore memory, and to make wise people out of dullards. Also, a new fabric like wool through ultrasonics, surgical instruments, etc.

The Rocket has been slowed down by Venus. Scientists don't know that it will not help people much, not what is released. We know the space people and ships, anyway.

There will be a great liner wrecked on account of the bomb of Russia's testing under the sea, and floods resulting.

There will be a great fire in New York City this year.

Climates everywhere will be changed, and one will not know summer from winter. All the birds will change their migratory methods.

Russia is again going to blow up part of herself. She did this in 1955, but did not let the world know of it. She blew down mountains.

Russia is going to let off something that will frighten all nations and could delay or stay the war -- and this year. We will hear of it. Spirit people are trying their best to stop all of this foolish destruction of man. This explosion to come will harm Russia, blow up the mountains in the sea bed and will shake the crust of the earth. All this will influence climate more than ever, and the North will be South, and the South North, and the East West, and the West will be East. Man is allowed to destroy himself, if he so wills, but those who do the work of God, and serve him faithfully will ever be taken care of. There is a great religious leader coming out of America this year who will be spared to carry on, we are told -- Armageddon is in 1999 and the Kingdom of God -- and no other war but the pending one, until this last spiritual war of good and evil.

WORLD PROPHECIES, GIVEN FEBRUARY 20, 1963

A Dr. Roland Johnson, a former missionary in the Amazon district of South America, now discarnate, came to talk to Dr. Enid Smith about world prophecies, but he wanted, first to say there would soon be discovered a very interesting group of people in the Amazon jungles, a small community where the people are in continual communication with the spirit world. And they know more about Christ and Christianity than any of the rest of us. He says that South America is going to grow, stand on its own feet, and become more united. It needs many people like some of us to go there and start colonies for mission work, and some of us plan to do this. There will be a great White Star Mission there, with many branches. "Soon there will be a big earthquake in Hawaii, also one in Ethiopia. There is another assassination expected, in the East, in Egypt. There will be an attempt to kill Nasser. The Canadian Ambassador was withdrawn from the U. S. because the Canadians felt that America wanted to use them and their land adversely for its own interests. De Gaulle will be assassinated. He will not die a natural death. He will be killed by an Algerian. About March, there will be an assassination in Europe."

"Our President has to be careful. Israel is going to be in great trouble. Wars will start with Russians coming through to take Persia (Iran), and Turkey. If the war delays this summer, it surely must be in 1964, and start with a bomb coming through Alaska to demolish, at least New York City.

The Pope will pass on about Easter time. The Queen is ill and will be for this winter. Canada will be the seat of the British Empire. Another thing in the near future, Don I, King of Spain, will return to Spain to rule, and Spain then would be a crown country again. The Church of England is growing to be very strong, and is to take over places where the Catholics have lost out. It will do more healing and counseling in love to those that are needy and will receive all denominations in its work. England will be asked to help India against the forces of Communism and it will do so. It looks as if Communism would take the world. The other countries now are trying to disengage themselves from America, for they believe she is communistic, and would involve them. Germany will be one country after awhile. They will cast out the French, Americans, and others. Communism has to come to let people know the goats from the sheep.

People have misused their power, and evil has come upon them and will be in sway until Armageddon. In time money, the root of evil, will go out, and we will become more like the advanced planets that do not have money at all, or any of our vices, or bad habits, or wars, or economic problems, or disease.

A torch is being carried around into all the countries at present and war can break out any time. We are asked to pray for peace, for good will, and brotherhood."

WORLD PROPHECIES, GIVEN MARCH 4, 1963

This is what came this morning, March 4, 1963, concerning many places.

"There will be an earthquake in the Hawaiian Islands. Also an earthquake in Los Angeles and a great disaster from the nuclear bomb testing upsetting the depths of the ocean. It will ram California, break up the crust of Los Angeles, and split Los Angeles in the middle. The earthquake with the landslide will change the Pacific Coast line, and will alter geography. That can be near, though we know that the messed up condition of the earth has upset the planets and the etheric and magnetic belts, as far as reckoning time is concerned, so it is difficult now-a-days to get the exact time. There will be an assassination in America of a political figure. (Recently they tell me there was a colored politician slain in Chicago--but this is another--I never read the newspapers. E.S.S.) Rockefeller should be warned, also President Kennedy should be careful, both are treading on dangerous ground. There will be another assassination in the East soon, in the Arabic States, and a dreadful plague in the East.

"A very strange thing is going to happen in the ocean. It looks like the Atlantic Ocean. Something is coming up from the ocean bed, a revelation of a complete city or town, the ruins of it. It will astound people and it comes from the nuclear bombing upsetting the depths of the ocean. A strange ship will be seen on the ocean, probably on the North Sea. It seems like it will make people think of "The Signs of the Times". There will be tiny people on the ship, and there will be strange machinery on the ship, and there will be rays all around the ship. It will remain for some time. (I asked if a phantom ship. E. S. S.). Another odd thing affecting navies -- it will not be an invention from this America nor from Russia, but there will be a ship that will throw rays all over the ocean, and no other ships will be able to move. This is an invention of a super scientist. Ships all around will be paralyzed. This can come from Europe, and the scientist is working psychically and from higher realms is being given these materials and told how to use them. The engines and the ships will be inactive. The angels are the leaders in this. THIS WILL COME TO PASS, not necessarily immediately, but this year or next, as determined as best can be reckoned. It will amaze many people. This ship throwing the rays will go on top of the water and can destroy whole fleets, just burn them up with rays.

"They are starting almost now to kill the Jewish people in the Arab States. There will be a great slaughter of the Jews who have held the money of the world so long--not the Christian Jews--and it will spread to other countries in the world. There are many signs now of the times already predicted, signs that show the beginning of the end will now continue for the next 36 years, until Armageddon in 1999. The strange and unusual changes in the weather everywhere are some of the signs of the last days."

"People will keep on destroying one another. Most of them are only dead bones. Their souls have left them. They could not stay with them because they have been so wicked. So, only a fourth will be left after the purging, a fourth of the population. They have killed their souls, those that perish. They are like automatons.

"The Dark Forces are very strong now. They are making people eat denatured foods that take away their strength and make them weak, and easy to influence and manage. American food lacks many of the life-giving elements, since it is much poisoned by insecticides, and is also denatured, and is wasting the vital parts of many foods. In later years there will be famines in America, covering most of the usable land.

"Arizona is the safe place now, when the bombing starts. The war will be a racial war with Russia and Red China and it will certainly start next year. The colored people will gain their equality and freedom. Many of the countries are disentangling themselves from America, fearing to be involved in communism. In the exposés coming, great surprises will be revealed, as many of the great interests and institutions and the workings of the Government are communistic. New York is having many deaths as predicted, from a plague or so-called Oriental Flu -- it is going into other states and the doctors do not understand the illness, -and it is serious. There will be the death of a well known artist, an actor, soon. These are the days of purging, of removing groups of people from the earth, of upset climate, and conditions, and are far from pleasant, but the Kingdom of God is in the making."

WORLD PROPHECIES, GIVEN MARCH 13, 1963

"Regarding the Rocket sent out into space by America, it did not come near enough to Venus to get its temperature, but it did come near another little planet that registers something like 800 degrees Farenheit, temperature. Venus has a normal temperature, sometimes reported to be 100 to 106 degrees, not as hot as some of our states in the summer, or other continents. A man-made satellite or rocket is not trustworthy or dependable, God will frustrate such things that travel in His unseen universe.

"The discarnate astronomer Karl Nesbit found that some of the planets, such as Venus and Mars and others, were inhabited, and had normal temperatures.

"In making these rockets, man is doing it for his own gain, and information will continue to be incorrect. The purpose of the rocket is to help the rich people to get a safe place to hide while the bombing is going on. They want to make wars for profit and leave the broken and poor to suffer, while they find a place of safety during the atomic warfare. This is also the idea in the space-ships they are now making -- the secret ones to get away in."

"They have the same secret in Russia as here, and they want to send the space ships out to avoid the atomic war and the radiation from it, but the people will all be killed in space. God is no respecter of persons, of color, creed, or condition, wealth, or otherwise. They will all face judgement. God will take care of those of His own. The Martians are good and the Venusians too, but some of the space people are not good. Many of our people have been disappearing. Some of the earthlings are used for experimental purposes, and then thrown out into the space. Many are vanishing, disappearing, and many will be picked up before the bombing.

"God has His space ships, angel ships, run by angel power that come from the 3rd realm or sphere, and they also go to the 2nd and the 1st spheres. The space ships do not like to come down from the 4th sphere to earth. The third sphere color is blue, the 4th sphere color is pale pink, the 5th is pale orange, and the 6th is clear white, and the 7th is very bright light. We have to watch Cuba for the next month, April especially. People should get out of the way, if possible by April. Florida is not safe. The Chinese are moving into Cuba. Beware! Watch the middle of April. The Carolinas are not safe either. And California is the worst place to go. There will be a short, sharp war involving China, Russia, and the colored people. 'Great forces are with the colored people and there are underground armories and some will be discovered. But the white men have been foolish, while the colored are making preparation like the fifth column. The war can be this year. The colored will fight the white.

"We of the Spirit World say that Kennedy cannot be a true President with his religious and political connections. There will be no second term for Kennedy."

"He wanted the honor and power, but is not the man for the place. Spirit says America is not the place for Communism. In England they are founding a college that all mediums will have to attend. A rich person has just died, leaving the money for the college. English mediums will now be especially educated, though they have special training at the present time, better that is than in other places. They will be known by their fruits as all are known.

"In South America, in Brazil or thereabouts, there will be an uprising, all boiled up through Cuba. Also, There will be a big earthquake in America, a terrible catastrophe, and a great tidal wave, on the South West Coast, which will be a great trial to people. There can also be an unforeseen tidal wave around Miami, Fla., soon, any time now. There is an earthquake for the Virgin Islands, also an earthquake in India, and one in Tehran, Persia. In the latter place it will be a kind of an earthquake and tidal wave -- a peculiar way of Nature's action, and not known before.

"When the word comes to go, go ! Cuba, it seems at the moment would touch Florida and all be bombed. Nothing will be safe. This is the way things look now. Go hence and do not look back. The bridges can be down. Spirit is trying to work to prevent many of these disasters, but these are days when the Dark Forces are loosed and very powerful, as it is their last chance for a long time."

WORLD PROPHECIES, GIVEN MARCH 18, 1963

"This is Abraham Lincoln. I cannot go too far away from my beloved people. I have bands of angels at my command, ~~endeavoring~~ endeavoring to help my country. I love my country. Americans look up, wake up and know that the Spirit World is helping. I am in a high and beautiful land. What a beautiful world you, too, could have, if you would live with your neighbors as brothers and sisters, and follow the Unseen Power and the Spirit World. Then we could see America as I thought it would be in my day. America, wake up, or you are doomed.

"You people are too complacent, thinking you are safe. Wake up America ! You think war will not come, and it is right around the corner. Some of your rich men are preparing palaces floating under the sea and some are making space ships to go to other planets for safety, caring nothing about the common man, poor, broken, left in the streets to perish. They will all perish, but one or two. Only know the Divine Power, America, my countrymen. Nothing is hid from Him. God will frustrate all the preparations of the rich, who think only of themselves and greed and money.

"It is the ordinary man and woman of the streets that will save your nation. What have the people with lust and power that have let you down, done for America ?

"They have only used you for their greed. I freed the slaves. I passed on too soon, but I am still with you, and if America will only understand! But Americans are so forgetful of all that has been given them, and behold ! it will all be taken away from them. I freed the slaves, but your nation has given more slavery to the whites and to Americans than the colored had. Wake up America !

"Wake up to the alcoholism, to the drug addicts, to the thirst for lust and sex, and to your children who will be old before they are young. Think of the generation that is growing up in lust, in incest, and the evils of the day ! If I can come down from the high realm where I am, a little closer to my people to talk plainly with them, from the stairway of heaven, I will make this statement. Look at your homes, at your vice, your greed, your love of money, your licentiousness, which is the ruination of your country. For these things, great tribulation will come upon you, certainly, if you do not lift up your heads and your eyes to the heavens and feel the Unseen Power that can work within you and lift your country out of the mire and mud and Pit of Evil.

"I am asking you to look into your home life in America, into your broken homes, with the divorce and delinquency and lack of respect for each other. The children have no respect for father or mother. No respect for any. I ask you where are your Arts -- the great beauty you should be having ? Where are your great poets and poetry of the past, your music that is worthy of America ? You are a lazy people. You care only for yourselves, your physical selves. Where are you going ? You have two ways to go, and you are at the turnpike. You can either destroy your land and yourselves, or you can make your land a country of light and beauty. What have you been doing since I passed on ? Nothing good or worthy, and I had hopes of your great country and its growth."

" Before I leave you, I ask you to look into your leadership. You have the wrong leaders in America. Look into your political life, and also look into your church leadership, into everything that you do, and do not be led like sheep into bondage. I want to release you from all this bondage. Just think, we Americans are considered to be the land of peace, plenty, prosperity, the greatest nation in the world, but instead, we are greatest cesspool on earth. "You know the other nations have looked to us, but now they are leaving us America will have no friends in these coming days. Oh, wake up America ! I love my country, -- it could be a light for all, if it had been true to the Spirit of God, as we started. But the Golden Calf and vice and commercialism, materialism, have ruled her. She has forgotten God.

"The colored people are God's people. I want to say to you that we know what is going on. You will have much trouble with the colored race if you do not accept them as true Americans. They did not ask to come to this country. The wheels of time are hitting back at you people for your wrongs of a century ago."

"You will have to rise higher and right the wrongs. No one should have to serve another. I want to make another statement: The colored are not different from the rest of you. They have their families, their problems, the same as the rest of you, good and bad. We can't turn our backs on them now. There is no distinction in this world, no one has any special place -- one is judged by his heart -- the good and the bad, the burglar, the sinner. It is their heart that counts. You cannot win the war, --the colored must have their equality. Your great Statue of Liberty has become in recent years the Statue of Slavery, to both the white and the colored and will be blown up, shattered, crumbled to dust. It was not so in my day. But look at what you've done to

your world ! But, after all, your man in the street must have his liberty, equality, his chance with others. We are near war, my sister, and my country will not be spared. Great tribulation will come because of its filth and degeneration. The white race could be annihilated. The going down of the people will be like that of the Israelites, in their time of tribulation. Let us not forget we have taken the plan of Hollywood for our American life, which is atrocious. Let me warn you there will be much sickness and many deaths. You will not be able to drink the water, as the lakes will be poisoned. My country is almost set for the great catastrophe. People will die on the streets. Their cars will be left running, their radios, their TV, until they run out. Oh, that America would stretch out all hands to God and serve the Almighty, instead of the Golden Calf !

"I am in the White House so much, trying to inspire and instruct, to warn the President. The whites will not be spared, they could be exterminated. I live in a fabulous country in the Spirit World, but I do not forget my country. I have great bands of angels ready for help, if people would only listen, and they could be saved. Tell them to live near to the Divine Power and the Unseen. Tell America to wake up, or else the tribulations will be unbearable.

"I want my countrymen to know that I am as much alive as I ever was before, when on earth, and more, that when I left your country, my transition was not too bad. I want to say to my people that I gave them only the truth. I have only gone, as it were, to the other side of the fence. I am always near. I can say that God is now giving the American people a little more leeway, you may call it, but if they do not follow what is given, they will go to the bottomless pit ! "

"Make no bones about writing what I am telling you. I knew all along such things. And when I was on earth, I loved all the little children and all people. But, where are the young people going now ? 'Never will they make fine pioneers, as we had before in America . They are now the kind that fiddle while Rome burns. They can't do much, and with the war inevitable, though it may be delayed, with all we are trying in spirit to do to bring peace. We are trying to prevent it, at least while we are gathering our people together but unfortunately, the war must come. Do my work; warn my people. God bless you and the medium. I come straight down my stairway from about the 5th plane. Many will doubt, but this is my message. I am with you because of your love for your fellow men and women. I must leave you now. God bless America. Abraham Lincoln."

WORLD PROPHECIES, GIVEN MARCH 27, 1963

Geographical English Medium, prophetess, Rev. Elizabeth Fraser, S.N.U., travels in person to these different places, sees, obtains information on what is happening and about to happen:

"Now I am going up higher and higher -- my spirit, ever higher, I see a great fire in London. Yes, and even bloodshed in London, soon. There could even be a revolution between the parties, for they are on the brink of it, now. If men in power will not listen, there can be fire and arms. Those that will win will be the ordinary man of the streets who will fight for himself -- revolution, famines, and no money, great lessons to the whole world. This will happen now, and this summer. The parties must get together. The Government can be overpowered by the people, since no money or work. This is now the beginning of the realization of what power and greed and what the churches can do to men - and all in Europe. But Britain will start to be a lamp to the world, in her suffering. She will wake America. They will start a community of what will take place. There will be more unemployment, more disease, more famines. The people will rise and fight each other in a revolution. There may result a coalition government that is not legal, but it may be the only thing that will save England. If they do not waken to the ordinary man and woman and their needs, they will have to fight as they did on "D" Day."

"Now I must go on, and to Germany. There is a great upheaval coming when Chancellor Adenaur passes on. He will never see the Third World War, coming but the new chancellor will see it. But in this war, the Germans will be freed from all nations and never will be brought again under any of them. They have suffered a great deal and will have to come to God and know themselves.

"Russia will be a lame bear, a lame animal. I am now in Moscow. There is a great upheaval in Moscow. There can be a kind of revolution there. Not so sure, yet. It will be a fight for religion. The people want to come to God, and Russia will be no more. Parts of Russia will be isolated, and will be different on the geographical maps. They will never be powerful again, like they have been. They will die in the Third World War, will die next year. The dogs of war are now barking. They are at bay.

"England is now in the red light -- it will not wait any nine months. And now I am going into a higher place, to a new world, not in contact, not in contact ever with anybody before. It is a new world. It is a World that man will be taken into in the third world war, and he will be taken around in it, and shown peace. I am now there. It is light, and beautiful, pure. I see white people, white marble buildings. People are there also of different colors. All nations have gotten together. All nations are brother and sister. Now I am going higher and higher up. I am by the water, and the rivers, which are crystal clear. All is clean and free from pollution. The air is clean, and there is no illness or disease.

"Now I am going to the Arab States. Watch Saudi Arabia, a powder keg, it seems. I have to leave to go to Egypt. There is soon an earthquake there that would shake a pyramid."

"I am taken to the Valley of the Kings. A great catastrophe. I have to go on. There is going to be a leader born, and it can be even near Greece, a woman and a great prophetess. She is coming from a small place, but will be a great leader for the people. The angels are working. They will make clear what is going now to happen. There is a great mountain, and in regard to this, much will be found of truth, when all comes to pass.

"Watch America and South America. South America will not be against North America. There will be fighting in both places. North America will have a start by itself, and a more spiritual one. There will be different border lines, new ones. The geography will change. South America will not be attached to North America -- a new geographical point there. Canada will suffer so much. It looks as if little England were almost finished, unless a great mighty person can lead her. Little England looks as if she were almost finished. Her greatness is failing, but out of the ashes she will inspire another nation -- she has been cut up by the Dark Forces. There is so much trouble in Britain that people will demand to leave Britain, if they do not change. There will be no more kings and queens. They will take all their knowledge from England and go to another country and make it great.

"Now I am in China. The Dragon is showing it's teeth. Hordes of Chinese are entering Cuba. Cuba will go down, and Castro also. Castro has been a puppet, for destiny is playing him. About Florida -- if they get hungry they will come up farther than Miami and devastate. The angels have a map they are showing me for our White Star World - Wide Missions and personal considerations. As soon as your group gets them, there will be given for the world great new teachings in Old Hebrew."

"You will have to get a translator. These you will give to the people.

"Watch Cuba, also Europe -- there can be another start of war there. Russia and all Europe are in trouble. I am being taken to Africa now. There will be new lands found there and new buildings will be erected, and a great soul leader will arise. In all its turmoil and bloodshed, the Christ light is over the land, but Africa must watch the Russians and the Chinese, -- they are two nations throwing poison into the Africans, because Russia and China fear the colored race. The poverty in Africa is terrible among those who are starving and fighting, and who don't know their fathers and mothers. THE WHITE MAN MUST HELP AFRICA. If the whites could only understand. Britain will bring help to Africa. Ghana will be an outstanding place, a place of destiny.

"There will be another assassination of an African leader. So many of the Africans are children of the Dark Forces. There can come help, strange as it seems, from the Arab nations. The white man must help the Africans, or else they will fall into the hands of the Russians and the Chinese. There is a great leader coming this year who is a prophet for Africa. 'Africa is for the Africans, and they must unite, pray, spiritualize and prepare. Ghana can be a light to the Africans, and Africa a light to the world again. One tribe is more spiritual than the others -- let all unite and win the victory. I must come down again, down, down. Socrates and Plato and Abraham Lincoln want to speak, but it must be another time. 'God bless you and your work for ever."

WORLD PROPHECY, APRIL 4, 1963

"This is Jules Verne. I've tried hard to contact you for a long time. Yes, you've talked to me before. I want now to tell you about life under the sea. Man is making shelters for himself for the war. He is going into certain types of submarines in the beds of oceans, and thinks he will be safe. This is by means of a new apparatus that the government knows about. This new type of submarine will allow people to stay alive longer, in the sea bed. This invention will come through Russia, and soon. But these people who will live in the sea during the war -- will come to the surface when the war is over to see the devastation they have wrought on earth. They will not be able to live on the surface of the earth after their sea experiences. Many of them will drown. The government bodies are preparing to save themselves, not caring for others or what they do to the earth. They will be destroyed. I want to tell you more, about a new instrument in the submarine. A scientist will be able to make this instrument, which will be a new machine that will light up the whole ocean floor. People will be able to live for perhaps a year under the water. However, they will die when they come up to the surface to live."

"Still another invention is one that will divert or neutralize the bomb. This can be heard of any time, and you have recorded before the prediction of it. Likewise the invention of a ray that can burn to cinders all the fleets on the water. But there need to be no fear for those who are serving God. They are well known to the Angel World and will be protected and brought to places of safety.

"For Los Angeles and vicinity, the day draws near for the great catastrophe, an earthquake that will start it. It has been delayed, but Los Angeles is very wicked. They do not want God. They have forgotten him. The earthquake comes, the landslide, and the change of the Coast Line from the debris.

"Now the medium is traveling to Africa, over Ghana. You folks will help still more over there. In Nigeria there will be some strife, but they will get over their difficulties this year. There will be a settlement, and eventually they will unite. There will also be strife in Ghana. The whites will need to leave both Ghana and Nigeria. In South Africa, the colored have not been treated right, by England and America, especially in the Diamond Mines, and elsewhere, and now the karma will pay off. Write your missions and tell them not to fear, for, as they live right, the Spirit will take care of them. The people can and will be healed and be happy. For a long time I have been standing by. There are so many waiting to come to talk with you. Yes, I am the one who transcribed the material from Jupiter in the book WHY WE ARE HERE. We know each other. You wanted me to tell you especially about my experience of passing out, and then any predictions I might have. You know dying is very easy -- no pain, and I stayed three days and nights asleep as others do. It was peaceful, comfortable. I was not completely unconscious."

"When I fully awoke and looked around me, I could feel the lights of some of my loved ones, and I wanted to go higher & higher & higher to the halls of learning and to go on to work. As I looked around, there were those who did not want to ascend, but wanted to stay near the earth and the planes of lust and physical pleasure. So they were clinging to the earth and finding earthlings that they could obsess and so carry on their vices to their own satisfaction.

"I felt there was a great catastrophe and tribulation coming to the earth, much trouble coming to earth. People should wake up and understand. And, oh, if the orthodox churches would wake up and prepare the people with truth, and if the preachers would only help and tell the people facts about the Spirit World ! It is certainly true that there is a judgement, and that one has only what he has earned. One goes to the place he is attracted to by his living on earth. If he is attracted to the lower earth plane, then there is where he will be earthbound, and harming and obsessing others to get his desires fulfilled.

"If a person wants to leave the earth plane -- and the universe has millions upon millions of miles of space, then he goes higher for progression. He is judged by his last incarnation, as that has the karma of the past in it. So when one desires the higher he goes to the realms dearest to his heart. Yes, I am on the 4th plane, merging into the 5th.

"Yes, I have been already to Jupiter since I passed. I found rather a good climate and it is restful there, good people, good spiritual missionary work being done by them on earth. If I were to stay, I would be required to do some spiritual work. On earth I worked diligently. Now for a little foreshadowing.

"You know already that Pope John will likely pass on to Spirit around Easter time.

"Italy is in bad shape. There could be a revolution there and in the whole of Europe some day."

" A strange thing is going to happen. The Catholic lands are going to give back to the poor the money they have acquired by questionable methods. They will open their coffers to them to save face. When they do this, you will know it is the time for the beginning of the great revolution in Europe.

"There is a great earthquake for Italy, and part will fall into the sea. For those Catholic peoples who have caused so much suffering on the earth because of their great power, wealth, and greed, there will be a nemesis, a reckoning, a judgement of justice. I'm in the Hall of Learning, which has no door, I am in contact with many Catholic peoples. Their time, they know, is near at hand when they will throw away their beads. It might happen this year. The people in high places see the false creeds, dogmas taught to the people. There must be a reckoning. Watch around Europe.

"Cuba is firing up to create trouble and try to bring war. America has given them a lot of money. All are turning away from America. Soon there will be the big scandals of America and England is involved. There will be a great surprise. They are blaming things on Communism and making a 'stooge' out of the name, and are thus getting away with many things. This will be discovered. They are blaming Communism when they really want Communistic law to be in power. Their word can't be depended upon. They say one thing and do another. They want what they say they do not want. The Catholic people will find out they have been duped and the priests will seem to be turning into a spiritual way of thought. They are trying to do things under cover to remain powerful. Cuba will do away with all religion and Communism - the Chinese will conquer simply by killing. Many are getting hungry in Miami, and they can travel elsewhere, and the war could start in Florida."

"Glorida, in concluding, said, to me, "I give you the cross, the white rose, and the circle of light. I am going now."

"I am an ancient Greek philosopher who desires very much to speak with you again. Yes, Socrates. I have waited a long time and have come here before. I want to say that in my time and world, like you, I have had many hardships and persecutions for Truth, all of my life. Death is a glorious release, not hard, no pain, a sleep, not to know where or what, just a rest. When I awoke, there were many old friends and students present. Sometime later I will tell you about a new method of teaching I have created over here, but now people are hungry, students and all, and they must be fed. I see troubles everywhere, many natural catastrophes, as well as internal political and other troubles for the world. There is going to be an earthquake in the center of South America that will astound everybody. It can come anytime now, with much loss of life. "There will be a United States of South America, but not until after the war, then it will be. Socrates then for some time lamented that there was no time in modern lives for discussions of weighty problems of high things. People do not spend their lives in ways to contact the higher worlds. I enjoy being here with you very much. I want to say that my beloved Greece is lacking in real religion. It must have more than material or physical beauty. It must have the beauty of soul. That is what counts most. They tried to get rid of me, but I am more alive today than ever." In the pause, I asked him about his wife Xanthippe, who was rather a scolder. He said that she was with him and that she was getting along all right. I inquired about his Spirit guide and he answered, "He was a great help to me and was always with me when I was on earth."

Socrates then continued, as he told me he was walking with the medium, who is a traveling, or a geographical medium.

" I am in Greece, now. I see that Greece is going to suffer and that. there can be a great loss of food, through a fly or pest. It will happen this summer. All produce will practically be destroyed, yet I see the people will be fed. America and Europe will help. I see, now, that there is great unrest in Athens, more than people know. There can be a kind of government disturbance where parties and people could rise against one another. It can be through religion, or through another religion than that of the Greek Church. There is coming an astounding awakening to my Grecians, to realize more of their own strength. There will soon be an earthquake in one of the Greek islands. Also there will be an earthquake in South America. But. South America is going to come out all right with her revolutionary problems."

WORLD PROPHECIES, APRIL 10, 1963

"I am Nostradamus and come down from the high planes through this instrument. No mistake, I am here and very strong. I have talked to you many times. You like to put these prophecies to help people. I am pleased with what you do.

"I am first going over to my own country of France. I am in contact with many great prophets of long before I was upon the earth and they are with me now. As I glance at the people of Europe, France will have a new premier. De Gaulle is not quite in tune for my country. Before I go on with the Government, I want to make a prophecy regarding electronics. There will be a great scientist, an unknown Frenchman, who will revolutionize the whole system of electronics. This will be used in great telegraph systems and commerce, part of it under the sea. There will be a great build up of submarines under the sea, a whole colony of them. This Frenchman has not perfected his invention, yet. He is a great physicist, but I am not to give you his name now, but say he was born in Marseille. He is the one who will revolutionize the electronic system."

"Now back to De Gaulle. The new Government Official will do much better. De Gaulle tried to be too much like Napoleon, using force instead of the inward power. He will not be for very long, now. Watch my country. It has gone down in history. We had the great prophetess, Joan of Arc among others. I want to say there will be a great disturbance - already - a revolution in the streets of France, before peace comes. Another dictator will do good for France. But the people of France are going to cry out for food soon. My beloved France ! This year, yes, the latter part.

"Again, there will be an electronic ray that will overcome all and everything in nuclear warfare. It will be most powerful, and we are helping the scientists to develop this. France is going to be the leader in all this electronic revolution. Still again, I want to say that we are working in my world on a new engine that will revolutionize all railways everywhere. This will be very important -- not yet given out. In your world the scientists are sitting and working on this behind closed doors. It could come any time now." I asked if the engine would be using solar energy and Nostradamus said, "Yes, it will be run by solar energy. Also, I want to make a statement regarding space. The space ships are all around your planet, but America is not so advanced about these things as is Russian and other nations. Soon a space ship will have the ability, through electronic rays, to look down upon your earth and know all about what is going on, and when the revolution or wars start, they will be able to quell them. This great invention comes from many scientists working together -- Russian, German, British, and others behind closed doors, and could quell a war started tomorrow. But it will be delayed until 1964. It will be the scientists' endeavor to put things out that will go into motion to disrupt all nuclear sites."

"The Russians know this. The Russians do not want anything of America, just to disrupt it. It will despoil America. All this is in Revelation and in the Bible. I am now going to say there will be great difficulties in America, a big scandal that could topple the Kennedy government and show that most all of those who are ruling America are Communists or Satanic Jews. And it is these who have caused the Catholic organizations to reach their pinnacle.

"Watch the sickle. It can strike any minute. There will be a great disturbance at the end of April in Cuba which will look like war, but the time for war is not now, but in 1964.

"Pope John will not live long, he is not well. It will take some little time, but both Catholics and Protestants will go down, and there will be no more creeds and denominations. You will have a true religion, Truth, the worship of God, even as we have, in our beautiful Halls of Learning. We don't have any churches. The Spiritualists also have much to learn. There is nothing new in Spiritualism. The great fault with Spiritualists is their falsifying of messages and their commercializing of the gifts of the Spirit.

"I want to say a word about South America having great difficulties with Spain now. Do not worry about Spain. Things will plan out right for South America. Cuba is worrying them, and the Catholics are losing ground, and the Communists and the Satanic Jews are gaining all over Cuba. Much revolution in South America. America will be a little kinder to them, and they will unite -- they will have a United States of South America in another 18 months, it could happen.

"If you read the Bible, you can see that the United States of America has played a great part in the world -- just because they became the United States and set a pattern."

"America could have become a great light, a beacon of light, but has lost it's opportunity -- yet it will shine, eventually, after great tribulations this coming year. It is the wickedest nation in the world.

"We will have the United States of South America; The United States of Europe; The United States of the Arabic nations; The United States of Africa. This is the beginning sign of the new world -- the unions. We will remember that the United States of America started it long ago.

" A word about England that is not far from my country. De Gaulle hurt things for England, but she will come out of it, as she has a way of doing. Now the government will change. The British government is going to dissolve, as it is, and it can be a Labor Government. Then later, they may have a coalition government. They can merge. This will not involve kings and queens, that are only "figure heads". Prince Charles may never be king. It is possible that the Royal family may remove themselves from England, and when they do, we will know that something has happened. No Britain, then, only a little island. They will go either to Australia or to Canada. It looks more like Canada. That will be the seat of the British Government. Watch 1964. But this present year is vital for Britain. It brings changes to all the British, and especially to England. They are not asleep. They have one scientist very clever. The British people everywhere will always be British people and make a life together. I want to say the European scientists, especially German and Russian scientists that are helping Egypt should know that eventually, the Nile will dry up, and there will be no more Nile, and that Egypt will have no food and will gradually be dispersed. Some will go away, but many will die. "Egypt will not be big, though they are making a unity of states."

" It does not mean anything. It is still the beginning of the downfall of Egypt. People are going to be so thirsty and so hungry ! People will die -- that's God's plan. God blinds people's eyes for the destiny of nations to come to pass.

"Your wicked America, so wicked, will have it's geographical shoreline changed -- California, Florida, near the Great Lakes, and many places. Even parts of Mississippi, also can be submerged, and fall into the sea with other parts of America. This can happen anytime. Look over to Florida, with the freeze that despoiled it. That is the beginning of many signs of the last days. Later there will be the sign of the Christ in the skies and of a great interplanetary being." I inquired about the Space People picking us up in the days of the catastrophes and taking those who are to help start a new world to a safe place. He said, "There are innumerable Space Ships surrounding your planet. Some of you will be taken up into the heavens as was Elijah. Keep close to God and to complete truth and you will be guided. Your work is essential to us. Regarding the Space People, some one soon will try to give you the complete truth. Your Rockets sent up do not do anything. God Bless you. I must leave now."

WORLD PROPHECIES, APRIL 17, 1963

"Good morning. This is Professor Einstein. I will tell you what is happening in the world. There is going to be great strides taken by Britain in submarines, with electronics. We are working more now on the waters. Before the year is out, there will be great strides and new ideas for submarines to stay longer under the water for more than a year, and when the people return to the surface again, they will die. I want to tell you that, as I look down on the earth, I see that the true facts about fall-out are not being given to those on the earth plane, or what is being done or the new chemicals and new ideas, that are being tried out. There will be a very bad plague caused by the testing program, from the fall-out, and will be in Europe and in America. They are still testing and bringing new chemicals dangerous to life. There will be new strides in air travel this year, and we will be able to lead in this in America. Also, watch Germany. There is a very great scientist that I am in contact with there. There will be something found to counteract cancer this year. It will be found in Germany. It is something found from a vegetable or a fruit, an essence abstracted. Also, the scientist will be able to cure paralysis."

" We are working on that, and there will be many miracles, so that people will know more of spiritual thought. Arthritis has to do with the water and also the bones, from birth. There will be something given to young people to prevent arthritis later, probably from a vegetable or fruit. Do not lament about some of those who will not publish our prophecies now. A little later on they will clamor for them. Then, also, we will have our own magazine and each month we will have the prophecies printed, in connection with our White Star World-Wide Mission.

"The scientists are also trying something for hearts, arteries, valves, and the blood stream. German doctors are working also on that. There are two young German doctors who will be world famed later. Watch Germany, could be a war, set off by revolts, everywhere. We are trying to avert this, but there will be a world war next year. The Cubans are trying to incite America to help them fight. Cuba is a hotbed of political intrigue. At any moment it can go to war. This month it will look like war, but it will be averted. All governments are concerned in a little world where everybody is in contact with everybody else. One trying incident can set the world alight, ablaze. We in Spirit are trying to avert the war but there will have to be a clean-up. But, though Cuba is trying to incite America, it cannot, for America knows that if it makes war it will have to fight the Chinese and the Russians. It grieves me much to see the earth so disturbed. It is time for revolution everywhere. New forces and ideas are everywhere, though not so much in Canada and Australia as elsewhere. But in England there can be revolution, with new ideas seeping into England and France and other places. The clock is set for revolution. People will revolt, and against our man in power in America that has not done anything for them."

"The great scandal mentioned before can be out, maybe in the beginning of May. Also, there can be a big shakedown in the British Government, and Germany has to be watched as mighty Nazis are in power. Also, a great Nazi in South America and one in America. If Hitler should appear, he would be followed by thousands. Many say that Hitler never died. He is not in South America. Until just recently he was where no white man has ever been discovered, near the Amazon. He was lost to the world, was a great Astrologer and Mystic. He started in all right, at first, but then became ruled by the Deros, the Dark Forces. The Fuehrer went into the unknown land, but has died recently, within the last two years.

"The extermination of the Satanic Jews will start next year, with the war. All Communists are with them. They are the very Dark Forces, in contact with the Deros all the time. If you could see the spiritual forces trying to stay the war, you would see why it does not come yet. We are watching to see who will lead. All will be judged by their fruits. Those with good fruits will be saved, and those with bad fruits will be destroyed. Evil has been for a very long time, of longstanding. It will be a terrible war. There will be no war declared. It will come like a thief in the night. One will be taken and one will be left, here and there, as the Bible says. I am happy to say I am very much pleased about your Mission. You may have to travel back into the mountains for safety, for a time, and then come back, and will be guarded by the high angels of heaven. The people will be destroyed. The land will be devastated. The curtain will come down and close in on the West, where the country is to be devastated. But have no fear."

"America is going to launch a new kind of satellite. It will be successful this time. There will be remarkable and valuable information about space. It will not do what they think. It will go off the track, and will bring back information difficult to believe, but very valuable, especially about two planets. We are working into space. I want to say, before I leave you, I am happy if you go into space. We have a colony of our machines in space. We scientists are in contact with scientists everywhere, and some that lived long before Christ. Here is something not known in your world. Before the war starts, we are assigned to certain states and conditions with orders to carry out, that we may be able to save a certain amount of the people through our rays. When the madness is let loose, we who are being assigned are in space ships against which you have nothing to equal us. I travel billions of miles away. Angels congregate in great numbers and might disperse the evil forces at certain places. In our Spirit World, I am connected with many great scientists and meet great beings. You people on earth are bungling many things. But we will be able to counteract for the worthy some of the things of this madness when it starts. We are ready in our places. All scientists with us are working to help the universal good. But your earth is so dark and dingy! Notwithstanding that, we have a machine that will baffle many and will confuse man. In Germany is a scientist, an inventor who could save the world, but the great men in power everywhere are all together in their evil and have muzzled him, as it were, and he is not allowed out of Germany, nor will they accept what he has. He would like to go to other countries. It is an invention to counteract radio-activity, the poisons and all nuclear warfare. He has new guns, new machnies, new instruments, but they have him under control and

will not let him go.

There are lots of flowers and roses where I am. I always loved the plants and nature. I am giving them to you. Have no fear. You and the medium will have a great amount of success in your work because of your contact with us. She will travel up to where I am, tell her, and see the land and the inventions. You will be guarded. There is an angel each side of you, both of you. God bless her and you."
