FOREWORD TO VOLUME III

In past days of the art of prophecy, prognostication, divination, clairvoyance and like glimpsings of future events were the province of the witch doctor, the soothsayer, the gypsy and certain somewhat disreputable, scheming, fortune hunting individuals who found out about mankind's deep and abiding interest in future self-hood and knew they could pervert this interest to serve their grasping natures.

In this modern day of scientific enlightenment we are still somewhat tied to this picture of Dark Age nefariousness. The church is somewhat to blame for this. In the church's effort to steer clear of anything pagan they condemned and closed off a branch of human endeavor that held rich promise of bringing much good to mankind.

Prophecy was a highly respected profession at one time. In the days of Samuel and David, Moses and Isaiah and as late as the Greek Oracles and the days of Jesus, the Christ, prophecy and the lessons contained in them were much sought after by the general public. Certainly there were some false prophets in those older days but with prophecy being a legitimate calling, and the public so regarding it, the prophet had to deliver the goods, so to speak. If he did not, he did not last long. And the prophets themselves safeguarded the profession by keeping track of one another. To an enlightened public there was little danger in prophecy and much to be gained in the area of responsibility and the development of man's mind.

The church then, maintaining that it was protecting man, actually brought about a condition of exposing man to the evil side of prophecy and it degenerated into fortune telling in dark alleys and dingy rooms and itinerant wagons. And when the public was taken, as it naturally was under such conditions, because prophecy was forbidden, at least outside the church, there was no place to turn, no natural regulative function, that occurs in a free society, to control and keep in line these false prophets.

So, in time, even though mankind still had and has a deep interest in self-development, the public began to look upon prophecy of any kind with suspicion and man began to try to build gadgets to serve his interest in self-development and circumvent and hide from himself that this was the self-same interest that the art of prophecy once served. The telescope, microscope, radio, telephone and television are all attempts to look into areas that prophecy once served. Some of them are even named appropriately like tele-scope, tele-vision, tele-phone.

In the interests of enlightenment and free-thinking, CSA brings you in this booklet certain prophecies, the dates they were received and the channel or oracle who did the prophesying. They are as clear as we can make them and are available for the reader to do his own checking. We have tried to select those statements that are the most definite and checkable.

Please keep in mind that we know less about direct prophecy than we once did long ago when this fact of truth study was free, or at least not looked upon with disfavor, and that no less a man than Einstein was a prophet. Using mathematics as a guide he prophesied the splitting of the atom and hydrogen bombs. His act was an act of prophecy. It differed from the prophecies of biblical days in this respect: Einstein used a highly respected, highly technical method of divination called mathematics and was gifted in the use of this method. He was called a genius. Might this be a respected and accepted term for prophet?

The prophets of the Bible were mediums and channels for truth and they related and passed on to the public facets of truth of their tomorrows, just as Einstein and others of our day have done.

So, in your checking, take into consideration that time and space have a way of being extremely elusive. Give the prophet credit to improve his art and leave condemnation and fault-finding to those who enjoy picking things apart.

Volume IV of WORLD PROPHECIES will be published in the latter part of 1963 or early part of 1964. Write to Prophecy, CSA, Lakemont, Georgia, 30552, if you would like to reserve a copy.

Above all, do not panic over any of these prophecies made. In the final analysis you must use your own judgment regarding all things.

The Publishers

WORLD PROPHECIES, GIVEN JUNE 17, 1963

"I am Peter, spokesman for a group, a conference that has met in this room, as you are now writing. These are from another planet. They are coming to certain decisions about the world. I will relay for you to take down and then give a few of my own prophecies. There are 12 here, and among them listening in is the Lord Maitreya. I want to mention a machine that is here--I am trying to draw it. It will be made known soon, put through the ether, which they are trying to do. This machine will benefit those with heart trouble; it will loosen hardened arteries through motion. There are a number of great health scientists who have passed on this and they mean business. This will be made known by an obscure doctor--French. You are being touched by it now. It is of very simple design--very fine, the precision of it. It has to be very accurate in every detail. The Lord Maitreya is now giving out orders. I

will relay what I hear and see.

"Within nine months there will be a very big tribulation on earth that will shake the whole of the earth plane. It starts and comes from under the sea and comes with a tidal wave. This will be one of the largest disasters that the earth plane has ever come in contact with. Now this committee here is trying to save the earth world. There are to be more teachings of true light and understanding of this truth from Spirit. It will be made known to many and many will admit it. You have made a new contact this morning, and eventually you will know the names of the committee. They have you down for a spiritual schedule. The new mission will be run by Spirit, by this committee. This mission is for earth and for Spirit. You people will have to obey orders, go more into the silence and into meditation. The Lord Maitreya wants to say He is satisfied with what has been done so far. Stay quiet for a few weeks more and you will be shown the way. There are more catastrophes to come, and the time must be right for your leaving. The committee is trying to convince Russia not to send off any more nuclear trials into the ether--otherwise, I want to say that the planet Mars is very near and it will upset many things on earth, and much illness will be all over the earth; people will drop in the streets as they are walking along if the rulers of earth do not stay their hand concerning this nuclear testing.

We are trying very hard in our world and in contact with other planets to combat this great evil.

"Einstein is sitting with the committee, also the great scientist, Edison, and Sir Arthur Conan Doyle--yes, a scientist now. They are endeavoring to stay deadly rays from the nuclear testing that is upsetting the whole of the magnetic belts. There will be a strange rain that will come and continue, and millions of tiny rays from, it will seem, the stars, but it is from other spheres and can kill earth people, and that will be like lighted candles dropping, because of the meddling of man in earth affairs--the bombing program. The rain will be red; this is in the making and can come any time if man does not turn to God and quit his evil, destructive ways and strive to save the earth. When you get away you will find our light and guidance, and this will be given to certain others in abundance.

"Now my committee says to watch August--be rather careful of many things. It will be difficult but you will be taken care of. After some other things come to pass there will be an earthquake that will shake the world. The delay in things now is that more may turn to God. Time is running out and the evil forces fill the atmosphere of your Dark Planet. I want to say, may our Spirit thoughts react on you for often we have great difficulty, we Spirit people, to keep tapping heads and hearts and driving the devils away. We have to keep the channels

clean. It has to be Truth that we give and only Truth. Some of the earth people think they are good, but the evil spirits are waiting to jump into you. You cannot give everything. Keep something for yourself. Strive to be filled with the Holy Spirit. Only through prayer, faith and love can He come, and when He comes He will never leave you. It is better when people meet together--we will have our evenings of prayer.

"There are questions you are asking. I will relay to you that the second Pope will not last long--yes, perhaps a year or two. There is going to be a great scandal among the Catholic body in Rome, and watch South America. Through Catholicism and poverty, all this happening in South America, the Communists and the Nazi movement. As for the mission, each will have his own work and will need much courage and truth. None can be saved unless they have the inner Light--they must be prepared by Spirit else they will go down with the lost souls and the great dragon of which the Bible tells. Some will be burned as chaff. We too in Spirit and in other worlds are being cleansed. Many know not where they are going. All must go into meditation.

"All civilization will go down and there will be a new age, but have no fear. You will be guided in the right direction, with all who keep close to God. I will leave now."

"Good morning. Burning Sand--yes, John the Baptist. When I begin to teach the complete Truth, each week you will take it

down for a book that all may understand. Even a child can understand it, and the shepherds will hold the book in one hand and read as they watch the sheep. I will teach first that all be aware of the Truth. The Truth is the way to live, not to waste time in gossip, jealousies, insincerities but to be kind, open-minded, unselfish, tolerant. Think of a wardrobe. All the Bible is parables, Old and New Testaments, and this garment I am speaking of must be complete and is absolutely necessary. In the New Testament we read of putting on the best garment to meet the Bridegroom. Yes, Burning Sand has been in the inner classes of the Master and knew the Master to be by his side. I have incarnated many times, as the Master has--all the great ones are thus incarnated. We have to be good shepherds of the flock. Earthlings are little good for they have made the world a shambles of slaughter and destruction, of debauchery, murder, and all sorts of perversions for mankind. They definitely will be destroyed. All will be changed.

"I want to tell you that the North will be South and the South North, and the West East and the East West--all climates changed. New lands will be found in the Arctic; the extreme poles will change. The Arctic has great secrets she has kept for thousands of years. There will be found good lands there. There is much Arctic land where man has never trod; it is warm and it will be made warmer, and that is where the melting of

the ice and the seas will cause the great floods; the radio-activity is warming the icebergs.

"There are now floods in the North. I will make you a great prophecy. An immense iceberg, like a huge continent or mass of land, will be floating in the Atlantic Ocean soon and will come through the North Sea; it will make tidal waves and cause great destruction--never anything like it before. It can happen in one to two years. It is a destiny. Take heed. The time is a little nearer than Nostradamus predicts. We will have in our teachings 12 steps by which we can reach heaven. We will call the Bible course the Twelve Steps To The Truth--put it in the leaflet soon to be prepared. Connect the 12 steps with the 12 prophets. One must start from the bottom and become perfect. If the Holy Spirit is working in each one, then no other Spirit can come in. Nothing can come through as to our activities except by the Holy Spirit. The medium allows none to enter except by this Spirit. Through the Holy Spirit one can have contact with other worlds.

"I want to tell you a little about space. 'In my Father's house are many mansions.' The planets are the many mansions, but you cannot enter except by the Holy Spirit. Many imagine the contrary and put so much in books that is untrue. Yes, Venus is one of the mansions. Those who send up rockets can find out nothing for their trouble. They only help to upset

nature and to make dark the earth--the stars will fall. Man cannot live in a world of darkness where he has upset God's laws. Man is not looking after the things he should do, only breaking laws. The earth plane is full of demented devils, earth-bound spirits. God is astounding man to bring him to his knees. There is war now in heaven; our purging is going on. The evil spirits are being driven to earth and are entering into the bodies of earthlings. The bad can become good and the good become bad. The testing time is now. The earth has to be cleansed, else how can any good souls reincarnate? We have to have a place that is fit to come back to. The earth and the Spirit World are dependent upon each other; that is why there is much tribulation upon earth now. The evil ones are going into dead bodies that are walking the earth whose souls have left them. Also, they are entering wherever there is a chance for them, where the psychic door is left open. Some of these who were once good people can be retrieved. Others cannot be retrieved but will go down with the Dragon to the Pit. But after Armageddon there will be 2,000 years of peace in Spirit and on earth, each working with the other and going back and forth. Our colored people will never be completely supreme. There will be a few white people; God will not destroy His colors in His garden. Each will keep his own color, and the colors will assimilate into one Universal Mind. In the Kingdom

of God there will be no wild animals, nothing poisonous or harmful, and you will come and go to other realms, and we will walk by your side. The Holy Spirit rules our world and yours; all are one, one power of the universal Consciousness. We are as troubled in our world with the filth that comes over to us from you as you are troubled and amazed in your world with such. We are sending back those that do not qualify; they will die as weeds and never rise again.

"Your world will become dark and the stars dark when man starts destroying himself. The moon will be blood-red and shed blood as the stars become dark. The sun and the stars belong to the Holy Spirit. God made the world and did not expect man to rearrange it. He expected him to listen to the inner voice, to learn and to be happy, not to fear death. The disobeying of laws is the cause of the great revolution. Your scientists say that this is not the end of the world, and these silly people say they can go to the moon. But they can only reach the moon in dreams or through the astral. It is all in yourself and not in those little boxes you earthlings send up. Again, don't rely on the planets but on your own divinity, then you will be taken care of. Be still and know that it is God talking to you. With Him all things are possible--all are for us who live with the Holy Spirit. There will be always many colors in spirit and on earth. The auras of each are being

cleansed. We work by auras. When we get started with the teachings I will give, there will be a spot where the initiates will be and you will take down the work. You all will follow the true guidance and many books will be written, such as "Life in the Seen and the Unseen" and "The Twelve Steps to Heaven," all written so a child could understand. The simple folk will read as they go about their work. Remember the Holy Spirit is within you; He also stands by your side and is a real personality. May the truth and the healing within your own body heal and bless you. And may the medium also be blessed and healed."

WORLD PROPHECIES, GIVEN JUNE 19, 1963

(Note: Before Dr. Albert Einstein began his predictions, Dr. Smith's White Brotherhood Doctor told her there would be the death any moment of an important person in Washington, in the cabinet. We understand it is not Herbert Hoover. Also, that a great catastrophe of nature will come soon, a tidal wave, very great, that will kill large numbers. Nothing of this nature has happened as great as this since in the 1700's when something similar occurred near India. Ocean beds will belch up all sorts of things that have sunk during the centuries. This is due to the atomic testing.)

"Yes, I am Dr. Einstein, dear friend of White Star, and have a few moments through the medium to talk with you. We are very much disturbed as to how the nuclear weapons are being handled by many. Also, there will be a great scandal concerning a great person in our American Government and a great uprising this year, and if not, it cannot be later than next year for sure, and that

is of the colored people. The Government knows of this and might proclaim war to cover up their misrepresentation of the colored race in this country. We are working hard to prevent this catastrophe but can't do anything to stay it, but we are trying. Before your people are brought to their knees they must suffer more. You Americans have to be very careful about everything. Watch Miami. It is a red match that can set everything off and get other countries and Communism, coming through the Catholics, into trouble. The latter have not been clever in the gathering of their money and sitting on thrones of ease, but they will lose these things and the coming war will be a great religious war, as any other--a battle of faiths. God does not want bloodshed. It is man who makes these wars by breaking the Creator's laws. The shepherd and the sheep relationship is what He wants. The shepherd bends himself down to the sheep, gives them water and good pasture--this is a parable. If the pasture is no good, dried up, then the sheep are scattered and wonder why the shepherd does not help them. This represents the wrong handling of our ministers and ecclesiastic bodies. They have let the bees and the wasps sting the backs of the sheep. They are those who have lived off their brothers, broken their backs, made slaves of them.

"Watch Castro. He has power and is one to be watched; he wants war. God loves the souls of all, but their bodies He has no time for now and they will be burned. The soul has a second

chance. Let me warn you of Asia. There will be a great color uprising all over the world. The whites will not be completely obliterated. There is still a great leadership under the Christ of the white Indians. They will live and get to be very wise, then will reincarnate in the new world of the North. Watch the poles--shifting, changing--it is the North that has to be watched, not the South. The South will take its destiny--no need now of the South. Watch the North. There will be a rising of colored people, mostly now among the Jews--dark race. The Jews have broken their backs, and their karma in all nations will be very hard. These are the Satanic Jews who have held the money of the nations and held the people in bondage.

"A new pattern had to come. Just watch; there will be a lot of trouble from the Arabic nations that are dead set against the Satanic Jews. There will be great surprises in Isreal. Oh, dear! I am not sure, but watch New Mexico state--it is clamoring for religious truth. There could be a large mission there. Old Mexico will go communistic. It would be good to get into Mexico now before communism forbids Christian workers. The events of the world change every second, and our minds have to change to keep pace. I am at present in communication with a young man who I expect to bring into the Mission. I am helping him with a nuclear device to assist people in their homes against radioactivity. This will prevent them from being poisoned and will save their lives. It is God, whose divinity is great, who

helps us to do these things.

"There is another dimension, the 5th, that will soon be known. Yes, I worked in the 4th dimension when on earth. Everything comes from Spirit guidance and missionaries in the spirit. We are true spirits and draw the best into our band and into our Father's pasture. We are a heavenly body working for the right person, making God happy when He finds one or two on earth who are working for Him. I have been on Venus many times and doing things to make people safer. I am doing more good now than when on earth. I can do much more. I can't come down to the earth too often as I am very busy with much work. On account of the interference with God's laws by atomic testing, all the planets are coming nearer to earth, with the magnetic belts being broken. The earth is hurting and harming everything. You folks are only puppets for a little while and then free will comes back and spoils everything. Free will is the cause of most of your troubles. Only believe God. Get through yourself the spirit and the high ones.

"A good place to bring out the Truth is in the mountains and desert. The desert will blossom like the rose, and you can be as flowers also blooming in the desert. I will give you all details later. When you leave Florida you will never return. There are troubles now in Europe, and Germany can be very troublesome within the next three or four months. Again, Argentina could go communistic if it is not careful. However, if they

would get together and amalgamate, they could abolish all communism down that way. Watch these states. They have suffered so much poverty, disease and misery through their religion. Kennedy should watch his own back door. He is watching other nations. His back door is too much open. His journey to other lands will bring no fruit whatever. He will make many more enemies than friends. How can your country send out a Catholic to these people when it has been the Catholic body that has wrecked them, ruined them, in their disease, poverty and misery? Rome now knows, and the Pope who just died knows, and Catholicism knows it is going down in the third World War that is coming. This will not be a war of the cross this time but a war of the sword. There are many tribulations coming, and we can't do anything about them. Floods will be most everywhere, fantastic storms, with everything upset because man has meddled with the laws of Nature.

"There will soon be a great train wreck up North. People care only for themselves these days and care not for the lives of others, or bother about repairing the rails. This wreck will be because of defective rails. Floods are coming to Europe--all will have many mountain floods due to melting of the iceberg. It is not safe for any to live in the mountains. We are working with an atheistic nation as well as with a communistic one and a Catholic. They are very cunning. Russia is all ready for the war. She knows just what places in our country she will

bomb. She plans also to bomb Britain and annihilate her. She makes fun of the lion. But Britain will be made stronger, has a great destiny for the world, and has gone through great tribulation. Russia, though all ready to obliterate her, will not be able to do so. New York, no doubt, will be the first bombed. Britain has a psychic belt of protection put around her, though the Russians have a secret method to obliterate her. There is also to be a catastrophe in regard to space, someone who will not fulfill the journey. Many great men now and with money realize it is ridiculous to keep going up into space. It really has no worthwhile meaning, only to save a few of America's great peoples' necks, and the same with the submarines. Those with submarines will go away before the first bomb goes off. Our land, a great part of it, will burn up, and a great part of it will be bombed. Those will be safe who are to be spared to carry on the new world.

"I am traveling now a bit with the medium, am in China with Confucius. He is grieved about China--it is not as great as it used to be. The money lords have kept his nation poor. Lu Sing will be the coming new man in China where communism will triumph; the government is going communistic. When China grows more hungry, they will strike at America or new lands. America must have back and side doors all closed, also windows, but now they are all open--a mistake. America will be in such a terrible muddle she will not know where she is going. This can happen any time now."

WORLD PROPHECIES, GIVEN JUNE 24, 1963

"Good morning. Mahatma Gandhi. It has taken a great deal of energy to get into this physical case (body). This is the first time through this instrument. I come as a great ball of light through the power of the Holy Spirit. I am happy to come to you and have talked with you many times before through other incasements. I have my Indian peoples at heart, many 'untouchables' that are all over the world. But the great Divine Spirit has no 'untouchables.' Your Government will learn and much has to go before the new laws can be made and a new Government. Until this takes place my country can have no sound footing with the rest of the world. We are working for brotherhood and for world governments that have a deeper and greater outlook and that know that the 'untouchables' have to live also. Governments that have power without light are bound to die.

"There is a great vicious hand that has got over America.

We people in spirit have time to meditate and in times past, earth people like Socrates and Plato had time to talk over problems. Part of your predicted downfall comes from not having or taking time to gather together, to relax, and to talk over your difficulties. There will be arsenals now, and the great black hand is going around. Part of your seeming downfall is due to many of the dark races that dwell now on the threshold and are from the land of the elementals and from those who have been unjustly treated and persecuted. Where you will have a thousand natives against you, you really will have 4,000 of the unseen against you because of your atrocities to these entities of the past. They dwell on the threshold of your world. The Unseen World has to be first cleansed before the Seen World. The Unseen inspires the evil, the strife, the debauchery, the murders, the wars. Hitler did his work through the Unseen warlords. You will have a dictatorship in your country. Watch September of this year as a great pointer to many things. A great tidal wave touches India and Greece and is part of the tidal wave and landslide of California and the Pacific Coast. It comes from atomic testing, man's nuclear weapons disturbing the foundation of the floor of the seven seas, the breaking up of the ocean beds. The tidal wave can flood the countries. Watch from week to week the great catastrophes. Each man now has to bear his own cross. The explosions under the sea are worse than those on land, and unless

the nuclear weapons can be disbanded there will be little left of earth. Read the last chapter of the last book in the Old Testament, Malachi.

"Also there will be great famines everywhere. How will the whites feel when America has its coming famines? When a people are in a land of peace and plenty and their insides are filled, they do not think of their brothers in other countries. God knows and sees what goes on. Even my country, India, has disobeyed so much. The Government instructions have been for themselves. But the people will rise and organize and throw off their chains. Watch India. Nehru has not learned. He is not long for this world either. He is ruled by Government orders. He did not follow out my plans. Don't forget that Gandhi has many followers even today in India and I have great armies here of angels, and I am sending angels into the bodies of my people so they can fight. They will have to fight now or perish. They need a chance to find the light.

"You have no idea how beautiful it is where I am. Nothing hurts me now. The wound is healing, and I am intensely happy, working very hard on earth. When the instrument is ready I want to give a few paragraphs for your book.

"The light is going out, but the collision of the two planets you mention will not be yet--that will come later. I work close to the Universal Mind. This will come near the end of Armageddon.

There have been and will be dark times for the earth. Every explosion upsets the ether. I am in contact with the Masters and with all our planets. Atomic explosions upset gravity, and if man does not stop there, you will not have humans walking around but monstrosities. The radioactivity is dulling brains and causing people to lose their reason; they are making for more crime, murders, sexual perverts--the results of nuclear testing. They are losing their souls. The souls do not wish to be in the magnetic belts drawing nearer to the earth with the planets, due to letting down of the belts that hold them up, so these soulless monstrosities, ready for any obsession, are walking around. This has to do with the drawing of the magnetic rays of the other worlds that are drawing near to your earth because of the atomic tests. There can be a great catastrophe over night from one of the other planets. They are all sensing something.

"Here is something that works both ways. Those in etheric realms know that I am able to come down to you through the medium. They see now that they also can come down and learn what is going on in the earth. You know I was a scientist, among other things, when on earth. If man knew anything, he would live rightly on the earth, for there is no escape. The earth is a good planet, and if man did not use nuclear warfare and followed God's laws, he need not be afraid of anything on earth or when he comes over to the other world.

"Russia is letting off more bombs in the deep seas. This is much worse than on the surface. This was the cause of Lemuria and Atlantis falling into the sea. When the ocean rocks there will be billowing waves hundreds of feet high, caused by man, that will swallow up whole cities at a time and all. Man should stay his hand. Governments are living in the dark to permit such. They are not taking care of the people. They are spending money to make monstrosities of their bodies that God made. There will also be great famines in many countries and in America. Rivers will dry up. Radioactivity will make the land barren. Man has upset the Solar System and the cosmic rays, the laws of Nature which cannot work properly now. Put "LAW" in big print. Watch submarine warfare. They have ideas, as for your plane warfare, but the submarine is more dangerous and will cause more catastrophes. When once the mighty ocean rebels and is upset by the breaking of Nature's laws, TAKE HEED.

"I see that nuclear warfare is a burning warfare. It will burn the skins off mortals, skins that will hang from the bones, and only the bones will be left as the bodies walk around with their flesh dropping from them! What are your Governments doing? I want you to get this out. Tell the people of the retribution because of the lust for power of their Governments and authorities, lust for murder and debauchery, and through the organizations of such brutes. But they take no heed of others. Light

your candles and keep close to God. Light lamps within your hearts and pray every moment. Tell the Instrument to start a campaign of peace alone. I will come, and through her, when she gets going. I will cry through her as well as speak through her. Tell her God loves all 'untouchables', the simple folk-- not the Governments, the powerful, the greedy, the murderers and makers of war. My whole heart cries out to your world. I am still leading. Do not think that the great ones who have passed on are not leading still. God knew that I could do no more on your Dark Planet when He took me to His plane. Once the 'untouchables' know the light and beauty, we can have such a lovely world of brotherhood among all; but they then did not have the faith or the thought. Now the radioactivity is leveling all minds and the Dark Forces, rampant in your world, are manifesting and taking over. Know that those who heed and trust God will be lifted up like Elijah was and taken to safety.

"I have a good thought for Britain. She will come out of her great trouble, out of the filth and degradation of it all. The filth has to go before the right can come. She will have the power to go through the purging of the Government. There is one that can come from among the obscure that will be a leader in Britain. Through this leader, this man, Britain will be taken out of much distress and destruction coming through the War Minister who has almost overthrown the British Government; but

they will get on their feet again. It is good really that this happened, terrible as it was, to let the people know more of what is going on.

"France at present is good, is going to battle with her difficulties. She has to be on the defensive because of Germany. Kennedy is in Germany today (June 24, 1963). He will not do much good--it is a tie-up regarding war, to see how much they are prepared to start war. A big problem now, and I want it printed, is the waking eyes. Be alive and alert to what is around you. I have been in contact with Abraham Lincoln. Be especially alert when entering into the colored trouble. If this is not handled with great diplomacy, justice, fairness, squareness, perfect honesty and gone to the roots of, with no side-stepping or shooting off from the truth, you can know what to expect. There are arsenals ready that will be supplied the colored race. They have India, the whole of Africa, and China with them. If the Government gets frightened regarding internal difficulties and can't stay them, there is a cunning way to get over them. The cunning way I see as I look into Government may not happen, and yet it may next year. I heard Abraham Lincoln say, 'To stay one war they will settle for another.' The Governments that are preparing that are in charge of the nations and regarding nuclear weapons--to stay one war they will start another. Great strife in your country. They know in their hearts there are only two great nations, America and Russia, that can start

war; the colored cannot start wars. If there is great difficulty, war can be started, perhaps with a small nation. With Spirit to direct, I want to save America as it is still a beacon light, but a tinder box--there will be great strife in your country, if not handled right. This can overwhelm the American Government officials. This comes because they have not done right, not been just to the colored race. They sit conferring with the Government as to how to combat American troubles--some later will be killed by the colored and by nuclear warfare. How to stay it? Something can happen concerning Cuba or Asia; then Americans can declare war on who declares it on them. This can dissipate the colored trouble. This is something like my situation with the work for the 'untouchables.' We rose very high. I am working very hard to bring truth and help to your people. Oh, you people--know that Wisdom is Infinite. Just watch and know! Keep close to the heart of the Spirit. It is the Spirit that counts--and the palms and the lotus, they will even blossom in foreign lands eventually. There will be many changes and many people will be transplanted to their good. I am with you to help your Mission. I will come again. The lotus flower will not die--it is for the people.

"Remember that after all the tribulations and difficulties, troubles and trials, there will be great joy ahead--no more sickness, no pains from illness, no dissipation, no lies, no murders.

People have to awake. No hand can harm the lotus bloom or the great brotherhood. The great Masters who passed will come down and will be reincarnated, and there will be in the future a race of great ones, of Masters.

"Concerning the white race, it will not be entirely exterminated; a remnant will be left. They cannot all pass on--nothing dies; but they will form a brotherhood, live isolated, and will leave other nations alone and take no notice of what goes on around them. The colored race also will go wild for a time, but will have to learn their lessons as did the whites. Meanwhile, there can be a great white brotherhood that will live in peace and love and understanding with the Holy Spirit. Many of the colored nations will take the sword and even enjoy bloodshed and their savagery--but they cannot touch the white brotherhood or will they seek it.

"As I enter into space and go round your Universe, I tell you Mars is the planet nearest you. All are drawing nearer from the nuclear warfare. The time is running out now. The Masters are walking the earth sorting out those to be spared. The requirements are to keep peace in the heart, to forget self, to give the spoken word of truth to others--gather yourselves together, keep prayerful, close to God, following the Inner Light. Security is among the silence and quietness, doing the work of Spirit."

WORLD PROPHECIES, GIVEN JUNE 26, 1963

"I come a long way to talk to you, and it is difficult to get through this box (body) for the first time. I am from another planet. You know me as Ashtar, Servant of God. I wish to say one or two things regarding earth. We are watching you closely from our planet, Venus. The atmosphere is changing on more than one planet. Earthlings are changing the plans of the Creator of the Universe, and you are not obeying His laws in your world. Therefore, your whole planet is changing its axis and it can fall. It is changing our worlds, too. The whole balance of our Solar System is changing. That was the cause of the destruction of the great Atlantis. Continents fall because of nuclear weapons and because of their evil thoughts and deeds. You earthlings are disobeying psychic laws and they are uncontrollable in your hands. You will be overwhelmed and we cannot help, nor are we able to put power into rebalancing the world because of what

you have done to the seas and with radioactivity rampant, upsetting the magnetic belts. Our planets also are moving and nearer the earth--we are all together in God's Solar System. The whole thing will be imbalanced. Nature's changes will be great; especially will be changed the geographical shorelines in all worlds. Therefore, the greatest catastrophe is coming. Not even the coming atomic war is as great as will be the imbalancing of the planets and beyond man's control to rectify. That is the meaning of Armageddon--it has come to this place of the disobeying of the laws of the psychic and the spiritual, the upsetting of the terrestrial and the celestial planes and everything. We are having as much difficulty on our planet as you are having. We have been trying to inspire your people, but they are not able to understand this. Your governments are at fault in all that is happening, in changing all proper balance, in causing coast lines and shorelines to change to the destruction of many. Many of your scientists are now frightened in their heads. They should know about it. They are at high tension with all this imbalance. There will be the catastrophe to earth and to our worlds also; there is no escaping. We are trying to do all things possible for you silly people on your silly earth as you have made it, trying to waylay the great band of blackness. The whole earth will belch up so much dirt you will be overwhelmed, you destined people, and the spiritual world

will be changed also. There will be two worlds in conflict.

"I am watching the Governments very closely. We do not want war--want to stay it, your war for greed--foolish people. You will make worse imbalance with your war that will take thousands of years to put the worlds right again. If they would but understand our laws it would be best for all. You forget about other worlds and the life beyond your present physical life, about the celestial, and immortality. When you were put in that silly old box (the body), you thought that was all and the end of you, the physical. Your preachers, your ministers, do not preach the Truth, the values in life and the things to come. Rather they talk of a heaven sitting on clouds with harps, and golden streets and a useless existence in the celestial. Put this down. People should know, for people should know more of our world, and also of the terrestrial and the celestial worlds. First of all one enters in at the lower steps, at the threshold, and then climbs to the higher realms, then reaching the higher, into the celestial planes. There is a tremendous dark force in your terrestrial world now, those who have been murdered, slain in wars, those whose backs you have broken in slavery of one type or another, those you have wronged, cheated, debased, treated unjustly. Their only thought is to get revenge as they return now and seek bodies through which to work. Down the years they have waited for this time of revenge to enter, if

possible, into every body on earth. All your nations and lands have had evil forces with them, and there are enough of these revengers to enter every body there is on earth. Imagine the strength of these evil forces--see the picture and how it can come about! The strife is not only man-made but is from the circumstances back in the 1960's of the present, going back to the 1500's and earlier to those who have been killed unjustly and are not satisfied with their revenge yet. They can come and destroy all they once thought was good, the lands and the people, and we have a double battle. People on earth ought to know the fundamentals of the etheric planes, then they could take care of the strife and the destruction much better. We too are battling with the Unseen Forces, with trouble somewhat the same as earth. We can also see the Dark Forces, and they can come through psychics as this woman here. I want you to put down this picture and tell people about these things; also, how the world axis can be changed by the Unseen as by the Seen, both wicked. The great Architect does not want His world changed nor the world destroyed. It will be changed, however, but not all destroyed. There will be many people drafted into a colony, those who will understand the Great White Brotherhood. I have some difficulty in using this box (body) for the first time, but I want to emphasize that we are as disturbed on our planet, Venus, as you are on yours. All planets are disturbed, Saturn,

Mars, Venus, Jupiter and the rest. Mars is the nearest to the earth. It does not want to come down but earth is drawing it, with the breaking up of the etheric belts. I want to say all this can cause imbalance in the heavens and that we can turn rays on your planet that are stronger than anything you have. Our atmosphere and all the planets and especially Saturn is now anxious; the Instrument is now near Saturn and I have to ask help from them. They are a finely evolved people, very strong, and have wonderful rays to shine--will come to earth to consider your troubles; but whatever your planet contacts and whatever catastrophes you have, remember you have earned them. None of you understand brotherhood or the truth. You must not have known the truth, you are so stubborn. Your minds are not flexible. You should pray more and think more of entering into right living. Tell the people to pray for peace, else there will be a great clash with the Unseen worlds; we do not want this to lead to the destruction of the world.

"There are worlds beyond our dreaming. You can walk in these worlds; they are solid. When you reach into new spheres after you die and after the rest of three days and three nights, if you have lived right lives, the angels will come down and release you and bring you up--but we do the same work in spiritual worlds. When we find we are closing our work, we can enter into the celestial worlds and the terrestrial and will see what

we can see, and it will be very surprising. Many great inventors have tried to come but do not come as we stop them. Our Christian attitude should be discussed in our book, "In Days to Come." The Christ knows all peoples and all circumstances. He has been crucified on several planets, not only on the earth. You people are not aware of the Dark Forces. We have outposts and those keeping watch to drive the Dark Celestials away and those who want help against them can get it. Yes, as you mention, we have static electricity for the purpose it was formerly used on your earth, to drive out the evil ones. Their great power we have learned through the ages. We have the Creative power and have never misused it as your earth has. Your foolish earth has had it and what have they done with it?

"I see into the earth plane now. Watch all places for the next few months. Leaders of governments are visiting each other. All are trying to see what can be done in case of war. Pray very hard to keep peace. We can try and maybe there will not be war this year. They are making great preparations for war. Watch the governments. There will be more scandals in America and in England, and there has been one in Russia but not allowed to be reported in print. Be ever watchful of China. I feel sorry for India. They are now standing on the shorelines of our world. The axis of the earth is moving slowly and involving their country. They are the first to have their shorelines

changed. Then finally the change goes around to America. It is possible the coast lines will be changed before the war. The war can be delayed. Pray, oh pray to keep everything at bay, because it is real bad what will become of the earth. The Dragon also is sowing his fire. Beware of the Dragon. The Lion will live. It will stay triumphant awhile. The Lion lives. The Eagle, America, can have its wings clipped and can drop in mid ocean. The Eagle is taking too big a chance, coming too low--your materialism is fated. The Bear will be very much wounded, but not until it has clawed--it will destroy parts of America. That will come in all due course.

"I am going to help very much with your Mission. We will have certain courses on each planet. Now the Instrument does not know it, but she is near us right now, Venus. She will be helped in every way to give her talks on other planets. But the preachers and the ministers in the churches, if they would give a little now it would be better--help with the Truth. They should tell the people about the planets. Yes, the children now are getting indoctrinated in certain classes in school as you say. Yes, in time I will be known by another name than Ashtar, Servant of God. One of my incarnations was once on earth. Yes, you are seen on Venus nights and will see me.

"I want to say that Greece as well as India and America will suffer much from the tidal wave--poor Greece, and this can

come any time. Yes, this is part of the tidal wave and land slide due in California and the Pacific coastline, predicted for some time. Know that the land can sink into the sea.

"I am here today to give you a little uplift and to help you in your work. Stand firm and fight your way without any fear, because we have fought many battles while in this house (body) and will be with you over the river to a larger house, and know it can be done. The Instrument is many miles away and will be able to help. On Venus everything is glass, all the houses. Everything we do can be seen. Yes, like the former house you had, the part you lived in, you always said everybody could see all that you did. I am putting curtains of color all around the medium and you also--your aura is of clean colors. I am trying to bring through a being to talk with you from Saturn. So will give up now."

"Yes, Jenuto by name. You know of the Saturn Tribunal for your Solar System. I am of that from Saturn. We have to go to all the planets in the astral, all of us. We have to go round all the Solar System in power. I am a great friend of Ashtar's. Our people and from all planets are trying to look for your people who are lost and don't know where they are going. Some of our people are dying off from work and sacrifice to your earth nations. We have to do it--we are part of them. They have to see how 'dumb and dull' they are as you say. We don't want

bodies. We have souls to guide on the earth plane that we are in contact with all the time--they know the space people and the many worlds unseen.

"You ask how you can help in the work. Prayer helps and the knowing of the Creator, God, the Father, and being one with Him. I want to say something to you before I leave. Watch Russia for the next few weeks. You will find that they have a great spy ring in every country. They know about your country. Watch them. The President is not doing much good. I must soon leave, but I want to say there will be more scandals in governments and America especially, and also they are poking fun at the Lion. But more scandals in your country make it hard to hold prestige, cannot stand it.

"It has given me pleasure to come. The first thing I want to impress on you is that we are watching surely every world as the Creator does. Remember that wherever you lift a soul up you are serving. Our world is doing our part for you. We are taking care of the Mission. It is going to be very great. The delay is good. It is a very large project. Yes, I know you gave the 'World-Wide' part of the title to it. Take care of yourselves for the project. We will help you from our worlds. Don't worry. Your Mission will prosper. Listen to know everything we will tell you. We have an army with us. I do not want to overtax the medium, so I am going. God bless you. I will come again-- Jemuto from Saturn."

WORLD PROPHECIES, GIVEN JULY 1, 1963

"Love and greetings to both of you. Though really not a prophet I, Burning Sand, can tell of a few coming events. Armageddon is being speeded up and will come sooner than is expected, not 1999 but rather 1988. Many on earth are as puppets. They are not attached to the Great Power, God, but are like a flower without a stem and will perish. They have left God and their souls have left them. There is war in heaven now; our world also has to be purged. The evil are thrust out to the earth. The preachers are sick to death because nobody will listen to them. The flock is too busy eating, drinking and pleasure hunting; and if they did give the flock the Truth, there would be no money and no flock for people do not want the Truth. So Armageddon and the War of Spirits will be speeded up. We are sending lights around searching for the flock.

"It has taken God millions of years to build a world. It

began to decline in the 1700's through lack of knowledge, a change of science, the polluting of the people. And now in a few years there will be no King James' Bible. Religion will be completely changed. Bibles and Scripture lessons will be abolished. The Complete Truth will be the only religion. The earth will have bigger cheats, rogues, unrighteous ones making new laws, and all are little byways of religion. 'Religion' is a very bad word that covers up all sorts of sins on all the world. Religion is politics now--it has crept into so-called 'God's teaching'. Everybody has a misconception of Divine Power. But this all will be changed. The human element has entered into everything.

"Armageddon can be speeded up by the atomic testing that is causing imbalance in the Solar System. Russia is testing underground and in the air and upsetting the elements and the vibrations of the earth. There can be between July and August a very great earthquake--one in India, and a great disaster in the Hawaiian Islands. For the coming few weeks be careful of travel. There will be a number of accidents on land, sea and in the air, through July and August, that will occur. About the middle of July there will be a great plane crash, and some one will pass that holds a high official position. Be especially careful for the next six weeks.

"There will be trouble with Russia and China this year

but not war completely. Also there will be a great scandal, much espionage and sabotage. And watch America for a great ring of espionage and sabotage. We are looking into South America, which needs to be watched very closely for the next few weeks.

"Changes in weather also, hurricanes, during August and September--strange hurricanes. The change in the geography, especially of the coastline of the West, is the definite beginning of the change that will lead to what happened to Atlantis, and for us this year. This is the beginning and the final change of the earth world. The people will flee from their homes and from the great disasters. Tell the medium who is to leave soon to have faith. The rest of you had better not travel in July unless we can give you a special schedule--too many storms. All must go without fail in August--not later--or end of July for medium. Colored trouble before the year is out. Much trouble here this month.

"In Africa there will be rioting with white and colored and political uprisings in Nigeria. The Mission there may have to move its headquarters. Not safe at all until after July and the first two weeks in August.

"The Spirit of God is walking up and down the earth to see who are serving Him. This is the Age of Reason, and of science that has brought destruction upon the earth and is speeding up

Armageddon. The heart is gone in these times of materialism. God made man in His own image, and all should keep close to God. There are many great ones among the people. Mahatma Gandhi was the greatest spiritual man of your age. Each is judged according to his work. The evil ones will be burned as chaff. 'By their fruits ye shall know them.' In the Kingdom of God after the cleansing there will be no sin.

"For those who would prepare for the coming Kingdom, I say the nearest way is to keep close to God and to prayer. Love your brothers and sisters, and take care of God's creation. Be truthful, honest, live as clean a life as you know how to live. If you love as you should, your life will be clean, your thoughts clean and true with no evil in them. Be true to your convictions, be happy and contented, be humble, tolerant--use intellect rightly. Prepare yourselves. People do not understand in a materialistic world. Many do not have faith to know there is an Infinite Unseen Force that can take them and is all powerful, unless they have the victory--victory that is life everlasting that comes through Divine love. None can go wrong with their auras attached to the great Power. God is good, but because of man's misuse of power Armageddon is speeded up. I now take my leave."

As the medium was coming out of trance she saw a great ship in the Atlantic in trouble. The waves were great and

dashing over the ship.

Then came an important few words from Joseph McCarthy who said: "Going to the office, I see plans stolen, Government plans. Tell Americans to wake up as to what is around them. They are on the brink of a great decision. There can be a speedy call up of men--for enlisting.

"Watch Korea, China and Formosa. There can be another 'Pearl Harbor' if the Government sleeps. You need also to watch Egypt, but especially I want to say, 'Wake up, America'-- I am the McCarthy who lost a son and who loves America."
