THE ILLUSTRIOUS WAY

Greetings from the Divine Mother! Yogananda speaks. Today I would remind you that your recorded history mentions but a few of the illustrious souls who have lived on Earth expressly to bring inner illumination to the ever-seeking race of homo sapiens. From China, India, Egypt, Greece, and numerous civilizations now buried in the distant past, sprang those whose aim it was to contribute ageless wisdom to mankind.

Each short cycle of Earth's colourful history occasions a soul whose capacity is that of a Master Teacher to come forth to point the way toward the ultimate destination of those traversing the 3rd dimensional illusionary cycle and to revolutionize the thoughts and consequently the habits and actions of the current race of mankind. These souls come not to **preach** the way, but to **activate** the Word of God.

When Man elected to come to Earth it was expected that he would acquire materialistic philosophies which knowledge pertains to Earth's particular dimension, but he would acquire these in relation to, and in conscious conjunction with, spiritual philosophies buried deep within his innermost Self and thus learn to assess and balance one with the other.

It was intended that Man would experience the temptations and errors of another dimension, but if he were wise he would resolve not to make the same misstep again. But Man found himself fast in the hypnotic state of materialism and continued to indulge in error and often in heinous crime all of which are a dereliction of the Word, a perversion of the Christ principle.

Therefore, it has been necessary to bring forth systematically a succession of teachers whose devotion to the higher concept of Life would leave a lasting impression upon the comparatively new-dimensional race of mortals.

He, that Beloved One, known to you as the Master Jesus was accorded the honour of reviving the Word. It was His specific task to re-establish the truth that the Christ in an individual is the personification of God in that individual,

and try as he might mortal man cannot discard that which is inherently his. Such a man as He will ever have followers, some devoted, others albeit unwilling — but followers nevertheless. Such a man leaves a silent signature upon one's thoughts, thus demonstrating the enormous bounty of spirit which pours from Him. Jesus the Christ laboured at the titanic transformation of his contemporaries; He faced all the shallowness, inconsistencies, thoughtlessness and pernicious habits still prevalent in your world, yet, unflinchingly, He endured the numberless obstructions in order to show that the Way could be freed from worldly imperatives.

His soul was insoluble against the material attractions of the world, a manifold blessing to all those of His time and those who followed Him. He displayed implicit faith in the loving leniency of His Omnipresent Father toward wayward children.

Jesus possessed the sublime inner view which all Yogis seek; He possessed the capacity to rise beyond and above to observe the eternal and infinite pattern spread out by the Divine Father for each created Spirit. Because He was able to extend His Mind He crested the waves of illusion which broke constantly about Him as He walked His dramatic earthly road. Often His meditational pilgrimages left Him exalted in Mind yet sad in heart, for He was well aware of His end long before its advent. Knowledge of a final crucifixion would surely pulverize the heart and spirit of the ordinary mortal, yet calmly did Jesus prepare to this end. No false pride disfigured this man and had it been God's way he surely would have worn the ochre robe with divine distinction!

Man ever portrays himself as a creature of flesh and blood, when in reality this is of secondary consideration. Important to the current lessons, assuredly, but not an eternal consideration.

As the Eastertide approaches lift your minds as though to the distant hills and commune with Your Most Gracious Father; make your supplications for the Peace of the World to Him that Most Illustrious Master who belongs to all men and to all races.

O, Divine Master, be Thou the Captain of my soul
So that each day may I hear a whisper from Eternity.

YOGANANDA.

POPE JOHN XXIII PRAYS

30.9.64.

"O Thou Holy One—Thou standest before me! I observe Thee, and I know that Thou art with me for, O Divine Leader, Thou art the Light of the World; Thou hast given to mankind the joy of existence and hope and love.

We, Thy Children, worship Thee, for we know that Thou comest from the All Highest to give mankind hope and joy. Many evil things has man done in Thy Name, but in Thy love Thou wilt give him greater knowledge to go forth upon that duty which is so desirable.

O, Son of God, help us; give us erudition so that we will know Thee and acknowledge Thee continually. I, Thy servant, taught the little ones much, but yet in shame I see that I put much ceremony into things which required humility.

O, Jesus, Son of God, help us in our darkness and distress for we know the world goes forward to a stage of great chaos and unrest. Teach us always to follow the Most High and so in humility, in love or loneliness we shall find Perfection. We find it not in pride and arrogance and pompous ceremonial, for did not Our Lord go forth in His humility, loving all, forgiving all for the many sins of the flesh?

O, God, we pray unto Thee asking for Thy perfection and Thy blessing.

In the Name of the Father, Son and Holy Ghost.

Amen."

DRAW IN THE COSMIC FORCES AND SO RENEW YOURSELF AND EARTH ITSELF

13.11.63.

Become that which you were born to be, my children of Earth, I call to you, **Awaken!** BECOME THAT WHICH YOU WERE BORN TO BE,—my avenues of communication, my connecting wires to God The Father of the Universe—my antennae, to receive energy-power and recuperative-power from the Universe. Thru YOU I receive cosmic rays, transformed and re-arranged, for strength and power.

Stand on the Earth (not pavement), bare earth or grass, lift your eyes and hands upward to heaven. With palms

upward, pray to the Father to guide the cosmic forces thru the Crown chakra of your head, and thru your feet, into the Earth. Think, "Love and Blessings to the Earth and every living thing on it and in it." Repeat each night or early morning, especially during the four-day period of the FULL MOON, and watch the improvement, the world over and especially in your own health and emotional levels.

Here, also is a blessing to give to plants and trees, to improve their strength and growth; especially those which do not get much sunlight. Stand with your feet near the stem, your feet over the roots, raise your eyes and palms upward and ask that the Father to guide the cosmic rays of energy and growth, thru your crown chakra, to be re-arranged, rythmically, thru your body and out the feet into the Earth to nourish the life in the roots of the tree or plant.

MESSAGE TO INSTRUMENT J.

"I especially wish to thank this beloved medium, the one here whom you call Jenny, for her work on our behalf on the earth plane. She is indeed a Lighted Soul and her passage onward and upward will be in the Lighted Ship of Spiritual Love of the Almighty Father. God's Blessing, My Child. May His Spirit be with you now and forever more."

MY FRIEND FROM VENUS

A True Experience

Strange as it may seem it is none the less true that I have encountered a Being who claims to live on Venus. At the conclusion of my narrative I hope that many readers of this article will be as convinced as I am that my friend is an interplanetary visitor come to earth as a Messenger sent by the Heavenly Father with but one objective in view, i.e. to help to save the inhabitants of this planet earth from self annihilation.

Had not the forecasts given by my friend since 1955 been fulfilled to the present day this account of my experiences would not be in print.

But the trend of world events proves to me that the Messenger is sincere and well intentioned in his efforts to obey the will of God by constantly giving forth the knowledge and instruction of ways to World Peace and Brotherhood which will be the inevitable result of the nations practising the Divine Law of Love as taught and exemplified by the Master Jesus the Christ.

Let me suggest that you who read set aside (for the time being) all preconceived ideas with regard to the impossibility of intercommunication between Beings of other realms and planets and mortals of earth.

To give full consideration to the New Age knowledge now being transmitted telepathically the open mind is essential and to judge whether the information given by my friend from Venus is true or untrue it is advisable to measure it by the faculty of reason combined with an accepted code of ethics that has its foundation set on an approved way of righteous living. For this reason I have taken the Christian way of life as the standard with which to compare the knowledge given by the Venusian visitor and the laws and commands given by Jesus the Christ.

Let it be understood that the Venusian does not appear in visible form. His body is of Etheric Light Substance and is described by those who have the gift of "Seership" to be of great luminosity, scintillating with colours beautiful beyond words. The same can be said for the influence of love divine that is felt by all who are privileged to be present when he draws nigh. In this Etheric form the Messenger travels faster than the speed of light.

This Messenger from Venus is Gabriel. However, in his present New Age assignment as a space messenger engaged in the vast army of earthly and heavenly emancipators of humanity, he works under the name of "Ashtar".

It requires knowledge of the correct function and control of the atoms of the physical body to fully understand that they who have forms composed of atoms of higher frequency than the physical atoms can occupy the human body of another conditioned for such high spiritual purpose.

Those who are qualified to work in this way, i.e. by lending their bodies in trance for the Angelic Messengers to speak through, are rare. Through them the knowledge is given that souls aspiring to spiritual heights may learn the way to prepare to enter a higher dimension. Thus greater recognition is given to the psychic and spiritual faculties than here-to-fore. They are being brought into practical use for the advancement of physical existence into

the more brilliant light that prevails in the fourth dimension and in the higher realms.

According to Gabriel the progress of humanity can become more effective only through the process of spiritualization. New ways must give place to the old. The Creator has sent forth His Angels to gather the elect from the four corners of the earth. To those who are ready and willing to surrender their wills to the Will of the Father and consciously co-operate with the heavenly ones, the power from on high is given to hasten the establishment of the Kingdom on earth.

It is now a fact beyond all argument that in many groups in diverse places human channels of reception are the means used by God's Messengers to impart the Divine knowledge that will eventually lift the race out of the morass created by man's inhumanity to man into ways of pleasantness and Eternal Peace.

I am the mere organiser of one of these groups. The "lighted landing field" observed by Gabriel located in space, happened to be my home. (Refer to Footnote, Chapter 5, "In days to come", Folder 1.)

NOTE: At the present time there need be no special effort made to communicate with us except by our special request. We will choose the time, place and person we desire to contact. However, it will be of immense assistance if you will maintain a feeling of friendly interest and confidence in us and, in your mind, hold a thought of welcome. . . .

It was he who inspired the "instrument" of his choice (often quoted in New Age scripts as "J") to participate in the harmony group established by me for the purpose of attracting the space beings who watch for the lighted souls whom they know can be used for their high purpose. It was not by chance that the Messenger landed where the conditions were suitable. Instrument J was selected because of her holy devotion to the Master Jesus and her knowledge of the Bible. She is an adherent of the Presbyterian Church. Her spiritual gifts are seership and deep trance mediumship. Lest any readers disapprove of the use of these natural functions in the service of the Holy Spirit (common to the few admittedly), I refer them to the Bible which reveals endless accounts of incidents where Angels of the Lord talked with human beings. The greatest and best known example of communication was the announcement to Mary by the Angel Gabriel that she was to be the Mother of the Saviour. Mary had the gift of seership and when her eyes were opened to his presence she became fearful, but he

calmed her fears with the words, "Be not afraid." Is it unreasonable to assume that the same Angel of the Annunciation is sounding his words today? He is trying to make his voice heard above the din of blasting bombs, saying —

"Watch for signs in the sky,"

"We come in love to help you,"

"Be not afraid."

All over the world Gabriel is heralding the good news to the nations that Jesus the Christ is to re-appear on earth before the end of the century and that every eye shall see Him. Gabriel and Jesus have been companions in the Celestial realms for eons of time. Now they are both functioning in and from the 4th dimension having proceeded from the throne of the Heavenly Father according to Divine Promise to fulfil His Will. With these spiritual leaders in the unseen are the hosts of the heavens, millions of them awaiting the command to descend with Power to alleviate the sufferings of those in travail.

Do the scientists of earth know of the superior powers directed from the source of Divine Power and Radiant Energy? It is appropriated and used by the vast hosts in the heavens that form the army of Christ.

The apostles, disciples, and ascended Masters, even now move invisibly among the nations doing their utmost to inspire the leaders with thoughts of love, brotherhood, understanding and peace eternal. Silently, patiently, these watchers in the skies disperse the beneficial rays that have the power to nullify the damaging effects of poisonous radiations emitted by nuclear explosions.

If these bomb blasts continue the forces of nature will be further disturbed and floods, eruptions, typhoons, earthquakes, etc., will disrupt the earth's surface to a much greater extent.

Astronauts are exploring space. According to the information given by Gabriel, spacemen from earth will not be permitted to land on Venus until they have learned to love their fellowmen and the whole of God's creation. There, wars are not tolerated, nor are hospitals or prisons required, as the inhabitants live in harmony with one another and all strive to obey the laws of the Creator in thought, word and deed. Eons ago Venus was in a state of upheaval and confusion comparable to earth conditions today. The Venusians were guarded and eventually delivered from the negative forces then rampant by advanced beings from other planets who were sent in love

to help them. Now in turn they serve as once they were served.

These beings of high purpose are considered by the majority to be mythical, but how can they be when they are perceived by seers and commune with those who have attuned themselves spiritually to receive them?

Moreover, the instruction given is in confirmation of the Gospel teachings. Much that is recorded of Jesus' words is reiterated again and again by Gabriel. Subjects such as healing by the power of the Holy Spirit, the continuity of life, progress in the heavenly realms, the laws of reincarnation, "as ye sow so shall ye reap", have been explained at great length in his weekly sessions.

The Spirit of Luke, the physician, accompanies Gabriel when a service is arranged for the healing of the sick. By drawing upon the power of the Holy Spirit, St. Luke joins with the group in sending forth healing rays in absent treatment. On occasions there have been instantaneous cures. Both Gabriel and Luke urge all who will to pray unceasingly for the healing of the nations.

To this day Gabriel has been faithful to his tryst. At the appointed time he notes the shaft of Light that rises from the "landing field" where his arrival is expected. How much longer he intends to inform his listeners of New Age knowledge he desires to be given forth is not known. He brings "good news" of the future and the emancipation of humanity.

My friend from Venus is an impersonal being. He is your friend as well as mine. His message is universal. He has instructed me to give it world publicity. It is sounded forth from other "lighted landing fields" in distant places. When the day of illumination dawns the hosts of the Heavens in Command of Jesus the Christ, Gabriel, and the Archangels, will appear in the sky and if you, dear reader, have taken to heart this true account remember the words of Ashtar Gabriel,

"Watch for signs in the sky,"

"We come in love to help you,"

"Be not afraid."

Long separated nation, class, and caste,

FUTURE INVENTION: DIAL-A-TONE TO HEALTH

The field of sonic device in relation to the human body has yet to be seriously investigated by the people who have it in their power to produce new methods of human healing.

Noise is a sinister cause of much inner disruption within the subtle bodies. Noise, as many of you are aware, can destroy, just as sound when applied correctly can act as a conductor of harmonious and healing vibrations. What is noise? Here again we return to this word vibration, or frequency, both key words in your world and becoming more vital as each century rolls by.

One of the present scourges, Cancer, will eventually be brought under control by sound application. The very nature of Cancer may be described as cells experiencing heightened frequency, cells on the rampage, cells working feverishly, frantically reproducing and multiplying so fast that their vibration the human body cannot withstand.

Each sound, be it a noise nuisance or a soothing sound, translates into pattern. Each pattern can be the key either to one particular aspect of subtle discomfort or disease or may well become an aspect of preventive medicine. In your present era the medical profession is well aware that people become victims of pressure which attends life in mass communities. Heightened vibration can be unconsciously passed from one individual to another, one group to another, until all are living in a frequency too fast for the human body

to withstand. The result is a rash of diseases for which it is difficult to find a cure.

Obviously, heightened vibration does not always come from the tempo of a huge metropolis, yet whenever Cancer is found it is caused by heightened vibration of some kind or another whether it springs from outward noise, or internal strife causing the nervous system to work overtime, as it were, throwing the body toward imbalance. There are times when the highly evolved accept Cancer as the cleansing agent which will pay karmic debts and remove them from the earth scene. So often those striving toward higher spiritual education inadvertently overstrain their nervous systems.

The physical form is a delicate sounding board for a myriad of frequencies, and already it is evident and acknowledged that many ills emerge from an over-dose of 20th century noise. Many a nervous complaint springs from such a cause but it has not yet been recognised that many more diseases can and will be tracked, tabulated, and equated by another frequency.

The human body reacts to both audible and inaudible sounds. The heart "tunes" to sound unconsciously when a rhythm is set up and when a rapid tune, or sound, persists the body will follow the "beat" and quickly become exhausted. In a similar way the body may be "slowed" by sound, a quite painless way of easing tension. However, this, too, could be dangerous since it is possible to actually stop the heart's beat by slowing the tempo until the heart ceases.

The body is really a field of atomic particles constantly in motion, and since all motion emits sound (whether it is heard by the human ear or any of the present earthly instruments or not) the day will surely come when it will be realized that disease can be reduced to a mathematical formula.

Of course much research will precede the final attesting when an operator highly skilled in electronics as well as anatomy will be able to tune in as to a radio station (the body is just that) and listen to the sound emitted by a disease. Each disease transmits its own peculiar frequency and when its nature is determined equation will be applied by frequency, or sound waves, which will disperse the inharmonious condition. This principle is, of course, given in the Bible with the mention of the Wall of Jericho, and is now understood to be a scientific fact that sound can indeed disintegrate. The answer lies in the finding of the

correct pitch, or frequency, which will disperse the accumulated atoms, or the "solids" as you know them. In the case of disease a formula for each disease will be worked out with mathematical precision, its wave length determined, after which it will be a matter of turning a knob to tune in with the correct meterband. It is going to be just as possible to track a disease as to track a satellite.

At some future time such a compact machine will appear as a household appliance to be used with the same ease as your transistor radios are now used. Once a disease is diagnosed by an expert the wave length can be prescribed and the patient use that frequency on a household machine.

A Dial-a-Tone to health is envisaged by the Brothers on this Side.

THE SANCTUARY OF THE SOUL

When it seems the search is ended, and man reflects upon the pros and cons of the long journey taken in search of the "Pearl of great price", there is only a maze of confused ideas in the mind, for at each pause upon this compelling journey, the goal had not been attained. In each brief respite, it seemed the summit of spiritual desire had been reached. Through this ceaseless driving urge of spirit, the search goes on—from one system to another, until disillusion creates a temporary resistance to seek further. One thing not taken into consideration, having once placed the feet upon the Path, there is no turning back, unless one retreats from life. This is not possible unless the aspirant ceases to respond to the insistent voice within. The mind, being the reservoir of events tabulated for further reference, is alert, and under the dominion of the soul-self, whose light of spirit remains undimmed; then comes the slowly awakening consciousness and looking within the depths of Being leads to victory, whereas all outer attempts had failed.

Rising out of the slough of despondency, the aspirant strives to gain new aspects of the inner life which before had lain dormant, hidden beneath layers of mental sheaths. Even though as yet there is but a faint glimmering of truth and no knowledge of what to expect, there is a surge of eager expectancy and a sense of direction not before felt in the heart. All the senses are quickened and receptive to impressions which seem to come from other sources than

hitherto experienced. It seems as though a directing influence within could speak without words. Meditating upon this, there is an interior quietude and the outer search has ended. The aspirant sees clearly that he had sought for himself outside of himself and realised the cause of failure. He felt like a stranger, entering the portals of further disappointment. But the eternal light within was full of promise—the urge was inward and upward—no longer outward, and thus man relinquishes his false concepts in this dawning discovery of self. It leads to surrender to the Divinity within and thence to Illumination after many days.

Here, spiritual man takes stock of himself, and searches into the hidden recesses of the higher nature and begins to feel the impact of Divine Wisdom entering through the portals of the mind. Revelation takes the place of blind faith in the opinions of others however exalted they be. He walks the lonely road of personal unfoldment, untrod by others and herein feels at peace—at one—with the Divine Teacher revealing the way of life in the silence of the soul.

There is no experience akin to this discovery; many imitations of it, but none to equal its reality and certainly none to excel its influence upon the outer personality which is visibly changed to ordinary observation. When the student of life ceases chasing the shadow of things and sees the substance which builds the structure of everlasting good, he is humbled to perceive the majesty of the operation of the Law of Transmutation.

This change which creates out of human clay the perfection of God-in-man, comes to those who travel the broad highway of spiritual wisdom, and does not intrude itself upon the outer consciousness. Within all beings, through the light of unfoldment is the everlasting Ray of attunement—the point of contact with Divinity. There never has been, nor could be, permanent separation from the life power which throbs in the heart, and is active in every cell of the body—the union of soul with its Creator. This alone is the answer to the search for Truth; it is the need of man to be united with the source of his being, and the only reason for the search at all. It is a craving as real as life itself. This God-call is universal, but the search comes only when man is spiritually conscious of his own lack. He seeks it in far places and thinks it resides in places of worship, when all the while its Holy Light burns at the Altar within his own being and awaits the hour of deliverance.

The sanctuary of the Soul is a holy place, untouched by the outer activities of life, as man is unaware of the light he carries in the soul, and it ever remains a sanctuary,

because it is protected against external intrusion and is ever the Centre of the Everlasting Light. When transition comes, it is withdrawn into the higher vehicles of spirit in its pristine beauty and perfection. All souls carry this radiance within them, but it only reflects itself in the spiritually awakened. It peeps out in moments of spiritual ecstasy like a flash of sudden illumination, and, where love dwells in the heart, it glows with the beauty of Itself because love is the beginning and the seeming end of all existence. It is the reason for the search for spiritual reality; the reason for life itself. It is the God-within, and is life.

These thoughts are silent Messengers of love to earth; to all its people and in their endeavours to search for self. We are Messengers of so-called outer space. We attend the needs of our younger brethren, but live in the enclosures of worlds inhabited by the resurrected who have cast the mortal body. We are members of the Light worlds, but sojourn on other planets at certain intervals, but are not of the Assembly visiting earth in mortal form. We use earth words to form our message, and thought is the language of the spirit.

NOTE: The Law of Transmutation springing into operation from the knowledge of the Presence of God within, was one of the secrets of the Albigenses of Southern France in the 12th century and led to the achievement of the gift of "contagious love". A further gift which they possessed was the "consolamentum", which enabled them to see the Heavens open at the moment of transition, as in the case of Stephen. — Sub-Ed.

THE RAISING OF HUMANITY

The joyous underlying truth is that Christ actually raised the life of humanity from the moment of His conquest in the Garden and on the Cross, and it is still rising for all peoples and all individuals, not only Christians, so that it must draw ever nearer to the "perfect moment" when He can manifest without danger to the physical make-up of man.

THE MASTER YOGUNDA and GLO-RIA

Speak through Zelrun Karsleigh

Portland, Oregon, 29.8.64.

(Heralds of the New Age are indebted to Zelrun Karsleigh for these excerpts taken from a tape sent by him to Verity at Glo-ria's request. Zelrun, a trance channel, lies upon an Indian prayer rug when transmitting spiritual messages. This rug was apported in a marvellous manner for this purpose.)

MILLIONS OF PEOPLE TO HEAR SPIRIT: Glory be to the Father of Light. . . . I, Master Yogunda, come this night to my beloved disciples of Light that I may enfold you not only in my love but in the love of the Great Cosmos that surrounds you, that permeates your divine consciousness and all things within the Cosmos. I am happy to have been privileged to penetrate the auras of a large group composed of those Children of Light whose auras I see as a glorified emblem of the coming Light which shall envelope Earth in its fullness. . . . I look forward to the time when I shall address an assembly of millions of people. I cannot now go into the methods — but perhaps you can guess: Television, and, later on, what you may term celestial television which is in the offing and will be a common method of communication in the years immediately **after** the period of cleansing has penetrated the Earth Plane and removed the dross from the Being known as Earth and its inhabitants.

SPIRIT NAME: I want to clarify one thing before giving this evening's message: I will forever verify that I am **not** Paramhansa Yogananda — but the Master Yogunda. I wish to be known as the Master Yogunda so that no repercussions may be used against either you or me. Although this is not the exact spiritual name by which I am known on the 5th plane (where I now reside) I give this name so that you can pronounce it without conflict or confusion, and if you analyse it by any method whether it be numerology or astrology or the Tarot you will find that it contains the vibrations necessary for the co-ordination between myself and our beloved channel.

CHANNEL VERITY OF N.Z.—and A GERMAN CHANNEL

Then, you will immediately ask the question which I have anticipated: If I am now Master Yogunda how does it come that there are other channeled messages through **two** other beloved channels of Light in the world who have channeled my messages as Paramhansa Yogananda? Well, there is no conflict here. I have given them the name of Paramhansa Yogananda because they are far removed from

the auras of darkness wherein any repercussions could be maintained or developed. Therefore, I have channeled messages thru our beloved channel **Verity of Auckland N.Z.** and another beloved channel in Germany.

SEVEN CENTRES TO BE ESTABLISHED: My influence and my words will expand in the very near future and there will be established 7 centres from which I shall divulge the cosmic wisdom, from the Akashic Records of the Solar system. One of these centres is already established in your city of Portland and I shall continue to channel as long as our instrument desires and submits his consciousness unto the words which I shall speak thru him. Also I will be able to come with greater frequency to our beloved channel in N.Z. and you will hear more of my messages from there in the future. There will be established a centre in England, in Germany, India and Japan (7th centre not nominated).

WORLD REALIZATION: Now you will say: but already you have established centres of Self Realization in all these countries, and more. That, my beloved chelas, is true, but they are centres of S. R. The day of Self Realization is passed! Not that we do not need to realize ourselves — but now is the time for **World Realization**. No longer can the Self be centred in the Ego; we shall become one together with the world, one together with the Universe, and those of you who have developed Self (whether it be in S. R. or one of the hundreds of other places and groups where you can find this information, inspiration and instruction) have received a diploma. What are you going to do with it? Are you going to hang it on the wall and when your neighbours come in say: "Here is my diploma from the Cosmic World. It is a nice looking thing, isn't it? — but it hangs on the wall."

It represents many hours of contemplation and meditation. You may sit down and look and think how nice it is. Is that your function now — to sit and look? No, my beloved, the hour has come for **action**. You shall now lay aside your S. R. and you shall come into the world thru the Cosmic Consciousness which you know thru that diploma. The diploma is no good at all unless you apply its meaning. There are already thousands of you who read my message or hear my voice who have graduated from this Cosmic school and are now teaching in the college of Cosmic wisdom. Many present are such teachers. . . .

COSMIC SCHOOLS: There are two planes upon which these schools operate. The 5th plane where my colleagues and I now have classes. There are classes in all the planes except the one below the 5th (my H.Q. and upwards 100,000 students). These students are from every walk of life (I am

speaking now about the Cosmic Plane—not the Earth Plane) and I, and my beloved brothers and sisters, have students as low as the 2nd Astral Plane. As I have told you before I have designated the two lower planes in the atmospherian Heaven as Astral Planes. The term, of course, has been misconstrued and misused so that I clarify this for you and use the 1st and 2nd planes as the Astral Planes and those above as the Etheric Planes.

We have classes for the 2nd Astral Plane but we do not go to this plane (this is the plane of confusion. The souls here have come from various spheres of activity upon Earth and many have no desire to learn higher teachings—yet they grasp for something they cannot find). We take those who have the inclination to reach higher and form a class. They are brought up under guard and eventually returned to their own plane. There are graduating classes almost every day (as you would call a day). We, on this Side, are very busy. We do not walk up and down the golden streets, or look at pictures or admire the scenery—although it is very beautiful here on all the planes, even from the 2nd upward—for we have work to do. Every individual who comes to any plane higher than the 2nd has a specific mission to perform. Some do not perform as efficiently as we would like, but we can do nothing about that for they are developing their own Ego, developing their own souls, and they have a choice as to whether they shall go on to a High Plane or whether they will return to either the Earth Plane or another planet in the solar system to complete the cosmic education they started many, many lifetimes ago.

One more point I would mention before I bring this discourse to a close—and that is the Cosmic Schools established upon the Earth Plane and those that I have mentioned will be the primary ones. These schools will be conducted in Sun Temples, or Universal Temples, and eventually there will be established one in every country of the globe—but **after the purging** of the planet Earth from its confusion and darkness. There will be attempts to establish these wisdom schools before the purging but most will fail until a solid foundation can be laid (I am not talking about a material foundation, but a spiritual foundation) which is founded upon the Cosmic Light of the Universe and that, of course, is the reason that they will be called Sun Temples.

BOOK REVIEW ON "THE GOING & THE GLORY"

New Age Interpreter, Theodore Heline, Editor. This journal says: . . . Not alone for the lessons to be learned

from her amazing disclosures, but also because we have received numerous requests for works by Gloria Lee, we are more than glad to present this document . . . it includes a tribute to her by Swami Yogananda and an epilogue by "J. W. of Jupiter".

GLO-RIA CONFIRMS THE BOOK — AND REQUESTS THAT THE TAPE BE SENT TO VERITY

(Here Yogunda made the remark that one of his most efficient pupils was forcibly reminding him of his promise to allow her time to come thru. He then stood aside and Glo-ria took over.)

"Hello, everybody, hello! I am Glo-ria. I am not Gloria Lee for the same reason that the Master Yogunda is not Paramhansa Yogananda. . . . I am very happy that I can stand before you again to give a message as I did in this room on May 30th 1961. I was here then and I am here now. Some of you who are clairvoyant may be able to see us together as my beloved teacher is not over-shadowing our channel as he usually does but is standing to the left as the Cosmic Beings who are arranging this transmission are beaming their Cosmic Light to all of us. . . . I love you all and as a pupil of the Great Yogunda will strive with all my being to fulfill the hopes he has for me.

First I want to verify the fact that the book I channeled thru our beloved Verity is word for word the way I gave it to her, and also I was assisted in that transmission not only by my former and present teacher J.W., but also by the Master Yogunda. I would like to make a request this evening and that is that you send a tape of this transmission to my channel Verity in Auckland, N.Z. Send it Airmail — I'll pay the postage. . . .

As I look upon you I hold the microphone as I did when I was here with you and it brings back old memories to me. You know I still communicate with June of Venus who gave me a message for you at that time. Now I must go . . . but I would like to talk to you about a lot of things perhaps not contained in Verity's book called *The Going & the Glory*. I would like to tell you one thing, however. You are almost thru with the **Going** and almost emerging into the **Glory**, so that the **Going & the Glory** are now merging one with the other and soon you will come out of the **Going** and into the **Glory**. Read my book and you will find what was meant

by the Going & the Glory. This is Glo-ria wishing you a blessed and loving goodnight, and God bless.

COMPASSION

All must live the realisation that their fellowman is in constant need of love and sympathy which it is the duty of all to bestow. You know not what troubles beset another — therefore always act with compassion toward them lest you make their burden heavier.

HAPPINESS

Happiness is a gift which multiplies upon itself; give it to others and your own increases. How foolish then to withhold happiness from others.

THE NEXT WORLD

This is a far more pleasant state than yours, providing you have followed the Universal Law of Love. There are gently flowing rivers beside which children play and receive instruction.

Q.: Do we proceed there after the "Judgment"?

A.: If you are fitted for it. Love one another. Speak no harsh word.

Q.: Are there animals?

A.: If you want them.

There is music in the air and any can listen to their own choice; it is not like your music, but blending with the individual's personality. Some may wish to travel. Others may work with the "Lofty Ones" who come from your plane in their sleep time.

Q.: Who are the "Lofty Ones"?

A.: You have on your plane many fine souls, either teach-

ing with word or example. These are already sufficiently advanced to feel at ease here.

MENTAL REACTION TO THE PREMATURE UNFOLDMENT OF PSYCHIC FACULTIES

The psychic faculties resulting from the opening of certain centres must keep pace with the understanding and the ability to interpret correctly what is seen or heard. Abnormal development of psychic powers usually brings about a loss of control and at once places undue strain upon the physical body. Better **not to acquire** psychic powers if one is in danger of producing an involuntary reaction, that is: one not able to be controlled by the recipient of such powers. Involuntary psychic gifts can culminate in the destruction of the person or the nation. Think upon this well.

DO NOT FOLLOW A WILL O' THE WISP: Many a seer suffers from much nervous reaction; some suffer from brain afflictions to a point when they might well be rendered incapable of coping with the demands of the every day world. It cannot be stressed firmly enough that you live in the 3rd dimensional world and must therefore abide by its Laws. But a seer may escape into the fantasy of the Astral Realms which loom large in the pictures and messages constantly bombarding the psychic. When this happens the Astral Plane is apt to become reality as it stands revealed in its heightened colour and magic when the earth plane appears to be of little importance. The psychic is convinced that the voices and visions are the Reality and accordingly is led along through much erroneous instruction often culminating in ridicule and even in disaster.

ASSERT THE MIND PRINCIPLE: Let all who read understand and remember that the pursuit of the Aryan race is seeking to assert The Mind Principle which success will express itself in the mature and considered expression in the earthly scene. Psychic power must be relegated to the point where it is completely understood for what it is: The ability to see into the dimension directly beyond earth's, but it is **not the power** to pierce the truly Infinite realms. Each Plane has its astral counterpart, just as an earth body has its astral, or emotional body (see Folder 27)

and the Astral world is truly a reflection of the physical world, interesting as a study in fantasy but without the true Mind substance which distinguishes the Upper Realms of Creation.

LIFT YOUR ENERGIES: This is why aspirants are urged to "lift" the energies to the points above the diaphragm, gradually assuming control of the Mind Stuff which is ever accessible to Man. Man evolves through three stages of development: Psychic, Mental and Soul. The solar plexus is the centre of the psychic development, the point where the forces converge to produce astral consciousness. The Pituitary (centre between eyebrows) is recognised as the centre where personality is controlled and the aspirant begins to use the energies in a more **impersonal manner** as the mentality strengthens. While the Pineal (or head centre) is the seat of the spiritual man and when the energies are converged here in a balanced and integrated manner it is clear that the soul now controls the physical body. Polarity has been established. Perfect balance is evident.

WHY DO ASCENDED MASTERS OCCASIONALLY USE THESE PSYCHIC CENTRES?

Now the question will occur that if the psychic centres are the lower ones why do the Ascended Masters use them on occasions? The answer is this: **Once complete control** of the faculties has been established such power may be used with impunity since no longer has that faculty the power to control the person. That one now operates through the head centre and has a complete understanding of the powers and can bend them to his or her will. Please note the difference: The untrained psychic operates at solar plexus level and is in constant danger of being controlled by the energies unwillingly evoked, while the trained psychic knows exactly the action and re-action of certain powers and therefore may use each centre profitably at will.

DIFFICULT PERIOD — CESSATION OF PSYCHIC POWERS: When an aspirant makes a determined effort to put aside psychic things the usual result is a cessation of those powers, a submergence, as it were, while the higher faculties are developed. It is a time of disenchantment — a difficult time for any student — but one which must be endured if celestial vision is to result. Many are not prepared deliberately to cast aside the enchantment and power which accompanies psychic gifts. Such gifts should be looked upon as minor ones, like perhaps a child's toy, which must be cast aside as the mental activity strengthens and deepens. The aspirant feels somewhat adrift on a path with-

out signposts. Yet always remember that any time of transition is difficult and it must be understood that each type of psychic gift has its spiritual counterpart and the goal of the student should be to raise the faculty into its higher expression.

CLAIRAUDIENCE — MENTAL TELEPATHY: For instance: Clairaudience can be raised to mental telepathy which will culminate in spiritual knowledge received in an effortless manner, while clairvoyance may lead on to a truly spiritual vision and finally to spiritual interpretation or identification. This, against the purely emotional interpretation which is occasioned by the solar plexus energies. When the energies are raised to the head centres, psychometry is elevated to spiritual aspiration or spiritual impression, in lieu of astral and emotional expression. Now, let us examine the implications:

CLOSE THE SOLAR PLEXUS SENSITIVITY: If a medium truly desires to attain spiritual awareness he or she must make a definite attempt to close the solar plexus sensitivity. How to do this: By stimulating mental processes through instruction (written or oral) in spiritual truths (even though they astound and hurt) which practice will eventually lead to the abandoning of psychic expression until such time as it can be used discreetly and in full consciousness. Man must expedite his head powers in order to bring forth a constant train of energy which stems from deep thought. Also remember that it is the power of thought itself which puts man above animal. It is his priceless heritage — yet he squanders his life at emotional level.

LETHARGY: The average psychic is a rather lethargic person and seldom excels in mental perception. He or she finds any pursuance of the higher teachings arduous and does not bestir in order to learn. Therefore, almost without exception, such people remain in the lower octave of consciousness.

APPLY INTELLIGENCE TO ALL MESSAGES: To all psychics we say: Constantly apply intelligence to all messages received; be not totally ruled by some "guide" purporting to know best in any situation when common sense indicates otherwise. Just because a message comes from the 4th dimension does not automatically charge it with Truth. No matter what the nomenclature used, dissect the message and ask yourself if such a person would give an educated or uneducated dissertation. Let the message, not the name, speak for itself. It stands to reason that no educated man or woman would suddenly become illiterate when making

spiritual contact. Use your mental powers to judge the quality of the work.

MENTAL ILLNESS: As has been previously stated much of the mental derangement in your world springs from excessive action of the solar plexus region — the emotions control, exhausting the body. Nothing could be more erroneous than treating such cases as “mental” since the **real cause** is in fact **directly opposed to this diagnosis**. It is the **lack of mental stimulant** which causes this type of derangement. It is the fact that the solar plexus energies have been over-stimulated at the expense of the thinking apparatus which brings forth this so-called mental condition! There are many ironies in your world and this is one of them. These mental cases should be classed as **emotional exhaustion** brought about by excessive use of the solar plexus energies.

THE PURPOSE OF EARTH LIFE: The purpose of earth life is for man to control all incoming energies and when he has accomplished this he stands on the threshold of the higher realms. He has mastered the earthly vibration to the point when he can control all faculties, physical, psychical, mental and spiritual.

FREE TO USE GIFTS AS HE WILL: He is then free to use all or any of these gifts as he wills. Thus we return to our former truth: Man learns to understand, control and then transcend earthly vibration.

“THE LORDS OF FLAME”

Flames of various kinds. There is a blue flame that is cool and doesn't burn anything. Also, a white flame that is similar. Fire is closest to the Solar rays, as it is what Solar rays turn into when they have enough to feed on in the atmosphere. Otherwise, the Solar rays just heat up the atmosphere by friction against the air molecules.

The spirits controlling fire are seen clairvoyantly as two kinds — the tiny Salamanders (like fairy lizards twisting in small fires) and the huge godlike figures of majesty from the Sun in the Solar rays. The myth of Prometheus is symbolic of when creatures reached the stage where they came on land and evolved to the point where the Lords of Flame could warm up their blood. Then, they were on their evolutionary way to human elevation. Prometheus, a god,

stole the fire from Heaven for Humanity — meaning the Sons of God, who “left their first estate (planet) and came to earth to accelerate the highest earthly creature’s evolution which happened to be along the primate simian lines, instead of the plant, insect or bird lines”. Prometheus was punished by being chained to a rock (held down on earth inside humanity) with an eagle to eat his liver that was perpetually renewed (meaning death and reincarnations).

Fire is Solar rays stepped down in frequency. Man’s thoughts and emotions (in the aggregate) affect the elements’ elementals, who respond accordingly in Nature’s phenomena.

THE CRY OF CHRIST

“Time is fast slipping past. Long have I delayed My coming in all Glory to you. It is you, My people, who have been My delay and My sorrow. How long need I wait for My coming to you, Children of Earth, whom I love so dearly? How long in your ignorance will you wander the face of the earth in your deep superstition? How long before you know the true state of your Being?

Do you know that you are potential Gods, and can come into Statehood of Christ if you will it so and work diligently for this State of Being? Do you realise that you can bring Me within your hearts as swiftly as a bird flies South in the winter? These have the instincts of survival. Once you knew that to seek Christhood is survival.

I am the open door to your true Glory. **Follow Me.** The road of Life lies within each child of earth. The way you come to Christhood is by Thought. The Source of Life, even the Father of Thought, left a path which you can follow. Call to Me, thy Lord, and I will lead you out of the dangers of earth into the Glory. The path leads from lower to Higher thought. All is wrought by your **Thinking**. You can **think** your way to the wide open door of Truth and Love.

You have telepathic powers within you. There are **no** separations between you and your Maker. You are one with Him — your Good. There need be no illness on earth. I come to give you Life; accept Me. Take Me to your heart of hearts. Seek to know Me. Unfold Me petal by petal, for **I Am the Rose of Life**. Long ago the Creator planted Me within each child of Creation. I stifle in this cocoon of life without space to grow My natural wings. I long to fly.

Let Me out. Call to your Maker; seek Him. He will teach you how to give Me wings. Call to your highest Good. Seek Truth and Love and you give wings to the Christ within.

I Am Prince of Thought. I Am the Prince of Peace.

By thought alone you allow the Christ Child to grow.

The greatest error in the life of man today is in **not** taking time to seek his Source.

Call this the "Science of Thought", for upon this science am I brought into Being to give you small children the way to Me. Remember the seeking is done **daily** and on the seventh day you rest from this seeking, and see the progress you have made, for I attend this **seeing**. This seeing is a milestone on your "Journey into thought". The Source of your Being is Love. Love is of your Creator. It is the essence of which man came.

Earth belongs to the Christ, the Son of God. He inherited this Earth. Why delay the Prince of Peace His place to reign? Oh, foolish children, how long will you wander the face of the Earth in despair when I am holding out these hands to you? You can reach Me by thought. Use these God-given powers and call to Me. I will change the Earth into Paradise if you will listen and hear My returning thought to you. Ask, Oh children of men. Ask and you will hear; seek and you will find. The Journey into Thought is a wonderful path to follow. I walk with you every step of the way. At first you do not recognise Me, but little by little your discernment grows, and you are born again into the heart of **Life itself**.

Thought is the source from which you came. Keep thinking on these things and you will bring Christ to Earth, and the Red Roses of Love will bloom everywhere. O man, listen well within yourself. This is the Voice of the Divine. Hear ye Him."

**ASHTAR STATES THAT HE WAS WITH THE MASTER
AT THE BEGINNING OF TIME**

31.10.57. N.Z.

I heard you discuss a question for Me to answer. As you know, many have been discredited although I am here and I can be seen by yourselves; I know not that individual of

whom you speak. He was not with Me, He did not come to My particular vessel, and of course He would not know of Me for I am in the Spirit and not in the Flesh. (Upon this journey that I have come to your world Shan I am not visible to a human soul who is still in the flesh but I am leading the Squadrons to the earth and I have been in existence for many eons of time. My Name has changed at times and I was with The Master in the beginning of time.) How many have been discredited, even The Master Himself, and can I who am not so High consider myself immune from these many discrepancies?

I, who am Ashtar of Venus, give you my word that I exist and I would not have you at any time disclaim that fact, for there have been many things spoken and many things written that are not of the utmost Truth. It is left to you, My Friend, to believe or not just as you desire.

I am here leading the Squadrons and the Angels of The Lord who are coming to you. My name of old was different — you know it as **Gabriel**, and I would ask that you know that I am. I declare that those who say I am not do not inform you truly.

We, of Venus, have lived for many eons although not always have we functioned in the flesh, and I am in the Spirit at present.

All will be well with you. Believe not these words that discredit me and that which I stand for. The Lord God has you in His keeping and He has sent me forth to help the people of Shan. He has directed my way and I will lead you on the right path with the help of that One, The Master Lord Jesus Christ. We are with Him and we follow His directions.

Farewell, but know, Dear Children, I will continue to return as long as you believe that I Am.

THE MASTER JESUS MAINTAINS CONSTANT CONTACT WITH THE EARTH PLANE

A. A. B.

Many of us over Here in group formation (souls gathered together on the same ray) wish to contribute to the enlightenment of mankind. Here I would say, that not a single

one of us (while on Earth) could have said positively what our reactions would be when we finally arrived Here, or what revelations awaited us when we entered a 4th dimensional Ashram; nor yet in what light we would regard our recently terminated earth work, or in what avenue our future work lay. Nevertheless, one fact emerges clearly: Those who have worked to serve their brothers do not lose the urge to continue in that work.

There have been times when I've found my mortal name something of a drawback to this spiritual enterprise of communicating with earth souls. Let me elucidate: It is well known that the human Alice was averse to all things psychic, or illusory, and in over-stressing this aspect of falsity it would seem that in some quarters an unfortunate impression has grown up which suggests that all communication with the discarnate is not acceptable and is referred to as illusory. Strongly I refute this. There is in fact a wealth of communication pouring in from the unseen which does not come from illusionary astral worlds. The Law of Telepathy operates at all levels (in most it supersedes sound) and it is by this Law that the Beloved Master Jesus maintains contact between the 3rd and 4th dimensions. He communicates with mortals in all walks of life. Now since this is Truth, is it not then instantly conceivable that the less evolved A. A. B. may also wish to maintain a connection between worlds through telepathy?

OUR LIGHT AND OUR SHADOWS LIVE LONG AFTER US:

This statement applies especially to those who teach. Such a gravely responsible task! To all such persons I say: Do keep an open mind, do not cry that this or that is truth absolute, thus blocking the spiritual ear and the mind intunement for further refreshing ideas. Truth is limitless. Furthermore, a new generation constantly arises, each one often more thoughtful than the last and whose minds are even more probing than those of their fathers, when it becomes increasingly clear that a new approach is needed, a contemporary presentation of truth both old and new. This is the task of the teacher.

My reapproachment to Earth through the telepathic laws was difficult indeed. It was as though I were an electrician trying to force a power cable through a solid mass of earth-resistant material built up over the years by thoughtforms. These forms showed the trend to be this: A. A. B. had gone, risen to a higher frequency (correct), and so had passed from Earth never to be heard from again (incorrect). It is illusory to imagine that those on this plane have gotten so

far away from Earth as to envince no further interest. Mortals are souls who are progressing toward perfection and so most of us who have worked for Light when on Earth maintain more than a passing interest in the Aura of Earth and Her Peoples.

As above so below. Those who work for their brothers attain perfection in this telepathic field far quicker than those who work for Self. This is a law. No one can separate himself, or herself, from the whole. The world moves onward and upward in the universal evolvment as an Entity — those whose school she is move with her as a **group**. The world **serves** a group of souls. Well, the field of service Here in another dimension adheres to the same principle. Give service to a group or a nation. Here, as on Earth, one finds one's own rapport to merge with telepathic interplay and share the truths of one's particular grading.

For some years I tried to make Earth contact. I failed on two counts: (1) because no Instrument was sufficiently impartial to public opinion to record my work; (2) because the seeds we sow in a mortal world grow to forest-like proportions blocking out further sunlight. The Mind becomes static, obsessed by the written word which becomes Law. The work of one soul, at one level of its evolution, stands as a criterion, becomes a text book to be adhered to with alarming tenacity. Verily, our light and our shadows live long after us.

MEETING ANGELS UNAWARES

The humility of God as shown to us by Christ! It comes to us in little things and pleads with us for attention, for humility is the root of Love. The veil between our worlds is giving way in places, and in our time we shall see His Will being done here as it is in Heaven.

In the village in the hills; in various places in the country we shall see the effect of this. The woman who comes to our door; the rough man who mends the holes in our roof; the man who cuts us to the quick with his outspoken words; how do we know that they are flesh and blood? I knew a man once who sat in a garden and played his harp to me, but in the photographs taken of him only the outline of his harp remained. And I had talked with him and remember the title of the piece he played, with the liquid notes still rippling in my ears.

If we seek true humility, how happy we can be in blessing those who "despitefully use us", for often they are angels unawares, who have come at great sacrifice to themselves to shock us into shape. If we are surrounded by angels disguised as our friends, then no doubt "the Kingdom has come upon us". The power is quietly at work, but as yet the glory is veiled. . . . Someday soon the glory will be seen, but the forces are not yet fully mustered. They need our help.

A FACE WILL APPEAR IN THE SKY

31.8.59.

Dear friends of Shan, I would not put fear within your hearts, but there will appear in the sky a great and wonderful vision of a face which will look down upon you all. Then will many be in utmost fear. These things are coming unto you and the shakings and the tremblings of your earth will be great. There will come, too, considerable changes in the physical attributes of those who dwell upon Shan. These mutations will result from those radiations which you are sending forth into your atmosphere.

Question: For better or for worse, please Ashtar?

At first it may appear that it will be for the worse but as time goes on and life is enabled to face these radiations then there will arise many forms of being in the physical which will be of greater and finer forces. So all these things that appear to you to come as disasters will come to you as enlightenment and advancement.

Question: Can you tell us about that face that will appear in the sky, please Ashtar? Whom will it represent?

This face will be that all powerful Being who will look upon you all and know each one — your individual thoughts and feelings. Let me tell you that the Master will come and that face will appear all over the world. Even now, my children, you are advancing and that form of vision which you call television will develop to so great an extent that it will be to you not merely as a small film but as reality. It will be as if these visions are real beside you. Each one within his own home will be able to sit and hear the voice of the Divine, the voice that will sound throughout the whole world. The face and the future that will appear to you of

the Great One will be seen in these visions upon your world. All these things will be; always they have been prophesied.

THE HERALD IN THE SKY

At Universal Link Headquarters (England), date February 8th 1964 — Some Messages telepathically received — tape recorded — transmitted from the Spiritual Hierarchy in the heavens were to be withheld from circulation for a time in accordance with Divine instruction.

On May 22nd, 64 — from the same source — by Divine Command the following information is given world-wide publicity.

1. The Herald in the sky is none other than the superimposed picture relayed from space. We shall let down enough Substance to give a complete picture. Every human being will be attached by his particular vibration and everyone will simultaneously receive a **shock of Power**. In this way everyone will receive **My Substance**. It is not any catastrophe. They will all receive a full charge of this Power which is already operating in a degree on earth and on THE DAY there will be a moment when **the whole earth will stop because of this Power**.

2. The Herald will appear not very high above the earth. Four or five miles. It will appear solid and will be photographed. There will be music from it and MY VOICE shall be heard speaking to My people and all shall hear but not everyone shall understand.

3. It will split through space.

4. This time it will not be "the word was made flesh" — it will be that flesh will hear the word — the SOUND OF LOVE — for it will have its full attributes — sound — colour — form — density — substance — life —

UNIVERSAL ENERGY.

5. I see the Herald like a canopy over the earth. It is like an Angel in the sky, but lying spread out — of enormous dimension — not covering the whole sky and it is not the sky or clouds. By lying flat it will prove to people that it is no cloud formation and it will appear solid.

6. You need have no doubt whatsoever that this message is true.

7. And it may go forth to uplift—to re-direct—strengthen—a waiting humanity that **needs** this preparation so that they may understand—as far as possible—what otherwise would be objects in the sky. Therefore this Proclamation must be now delivered so that the mind can no longer put aside or interpret on an entirely different level from the one that **we** wish—in the understanding of those who **can** understand.

8. Therefore once again in the name of Divine direction we say **SEND IT FORTH.**

9. I have set **MY SEAL** upon all that has been given to you. This may be circulated and will have repercussions undreamed of.

NOSTRADAMUS PREDICTIONS

Given to P. D. Pelley in 1956

1. It is only fair to announce that within the life of the generation to which you belong the great scientific feat of bridging the planes of Consciousness is going to be achieved. The most ordinary folks are going to see their “dead” in living motion again, and talk with them audibly as an accepted fact of existence.

2. The next stupendous revelation that is to change society’s psychology is the **positive proofs of reincarnation**—that the basis of earth society is serial rebirth into the mortal self.

3. Literally, I tell you the meaning of the phrase, “the cloud no bigger than a man’s hand”. **The first celestial television screens making it all reality may be no bigger than a man’s hand.** There will be no more dead.

4. There is a good reason why the population of China has become enormous, such numbers do not reincarnate within a race unless some outstanding reason motivates them. Such reasons may be projected from Life’s higher levels or they may arise from recognitions within the Race Soul.

“The Oriental shall leave his seat and shall see France;

He will pass through the sky, the waters and snow
And will strike everyone with his stick (guns);

Driven back, he shall subdue Scythia (Russia).

5. "When races as masses do their transportings by aerial freeways

The planet shall diminish to the country of the present;
Behold it shall be Transportation that marrieth the
Nationals,

Travelings shall assure the Peace by abolishing
horizons."

6. Atom bombs are not going to be allowed to destroy civilization. There are too many great wits in Cosmos capable of negating all forms of nuclear-fission activity by neutralizing them in ways that humanity has not dreamed about at present. **Atomic fall-out shall be controlled.** Nuclear-fission as beneficial energy and nuclear fission as destructive power are two separate and distinct factors. The earth is going into a phase of life at a faster clip—I mean its very vibrations—all aimed at intensifying the mental processes of the individuals now alive on its surface.

7. The 20th century was known to the prophets of old as the **Century of Turmoil**, vital, iconoclastic turmoil, when all the earlier ideals of Popery, scholasticism and juvenile religious concepts were due to be cast down and broken. **But the breaking is not yet over.**

ESOTERIC DIAGNOSTICIANS — THE NEW TYPE DOCTOR

Dec. 63.

Presently, only dedicated humanity will be accepted into this highest of callings. Those with finer sensibilities involving a strongly developed 6th sense will be considered the most suitable applicants for this profession. The uninitiated can be skilful in the matter of book learning and technical know-how but cannot grasp the significance of being able to reach beyond the 3rd dimensional consciousness and thus bring down to earth level the subtler truths. Failure to do this will eliminate them from the ranks of future healers. The first requirement of the prospective medical student will be the built-in compassion which springs from love-wisdom, a powerful force which heightens intuition.

It will be found that man's stethoscope is already contained within himself: The esoteric, or spiritual, ear capable of hearing beyond the physical vibration because it can pick up the tones given off by the subtler bodies. The physical

ear is tuned to listen only to the sounds of substance and cannot reach the murmur of the illumined points.

Man's X-ray is also built-in. That undeveloped third eye which has the power to pierce the third dimensional body and thus see the workings of the immense traffic lanes of energy which make the network between the illumined points which in turn activate the endocrine glands. We in no wise wish to detract from the marvellous scientific discoveries which man, in the cause of healing, has brought forth. Electrical energies, rays, radionics, chemistry, mechanics, have been used in a continuous attempt to diagnose more accurately. The biggest fault in individual diagnosis is due largely to man's being dependent upon his five senses and in disregarding his latent possibilities which would enable him to diagnose by esoteric sight and sound. The new age doctor will assuredly do this.

Of course the process will be slow. But a gradual broadening of the medical curriculum will enable the profession to take advantage of this sixth sense and thus eliminate much costly and time-consuming apparatus.

But the time is not yet. First science must **admit to** the subtle bodies of man. It will eventually do so (if a little reluctantly) with an invention of an instrument emulating the third eye. A piece of electrical, or electronic, equipment which will pick up blockages and trouble spots within the illumined areas. However in the early stages an enigma will present itself. It will be found that although a blockage is registered it cannot be found in the physical body! This will puzzle the many since few will realize that such a blockage or disease invariably shows up in the etheric twin before it is transferred to the physical body. The instrument will photograph, or register, the blockage which is not operable by material standards! This peculiar situation will cause much suspicion, controversy and possibly bewilderment, but will be followed by heightened research in a determined effort to find out how such a thing could be. The instrument mentioned here will bring forth a photograph or an outline, or even a shadow or star of the illumined points. Its advent will cause much excitement in both the medical and esoteric circles — but perhaps at first some misgivings in the world of theology.

After much close research and even more soul-searching, the incredible fact will emerge that man has at least two bodies. Incredible to science, perhaps, but confirming most accurately the esoteric findings given down the centuries. It will be an historic moment, a great stride forward for those in human form!

Thus it will come about that the future doctor will be required to understand not only psychics but electrons, the technical aspect of nature, mass and energy. He will indeed be considered a super-man, and with some justification. He may be called a psychiatrist, or something pertaining to that, since he will have an understanding of the Laws of Harmonies which pertains to the vibration of the atomic structures as they affect the individual in the different planes of frequency. Psychiatry, in its highest form, must also involve clairvoyance or paranormal sight, giving the ability to see beyond so-called solids in an attempt to trace the previous lifetimes of an individual from whence so many of the current disharmonies spring. So much incurred in a previous life accounts for the disharmony in a current life. Such ability on the part of the psychiatrist could deny or confirm the source of disharmony.

Each dimension experiences the Law of Harmony in a different manner, yet fundamentally the Law never changes; only the concept of the Law changes when viewed from the multifarious levels of consciousness. Disease will be eradicated, or greatly reduced, when both man and his doctor come to accept that both the physical body and its subtle counterparts must be incorporated in any treatment. The bodies have to be re-aligned, they must "sing" in harmony with each other, otherwise healing procedures are apt to become a mere patching up process. The Effects of disharmony or disease; the Cause is the mal-adjustment of the five bodies of man. But when earth doctors acquire the third eye and the spiritual ear enabling them to practise at all times under the guidance of the higher consciousness, advancement of the harmonies of the human body will be rapid. At last the divine quality of man will be evident to science, and to man himself.

A WORLD-WIDE CALL BY THE ASHTAR COMMAND

We come to you! We call you constructively to **direct** your energies. We call you consciously to re-direct, re-name, and absolve discord. Wherever you are, we ask you to attune with your Divine Source and re-charge the structure you move through (ethers), with ideas of **peace**, a radiating heart of **Love**, and, when necessary, the Spoken Command.

We ask you to search for principles of right action. Whatever your human religion, you can expand it into fuller

Light. In your homes, in your places of business, on your city streets, anywhere, anytime, you can and **must** be conscious of the Divine Life; of the Creative Power **in you**. When you do this, you condition the atmosphere; you plant seeds of Truth. You radiate a constant energy field of Truth. Without barn-storming with words you influence everything you contact. You will feel a great Power, for we will fortify you. We will use you as a **Focus** to stabilize and harmonize, even in the lowliest of places; even the animals of your earth plane. All will be raised and quickened by your "Presence", even in your silence.

But beware—for as this takes place, if there is one vestige of ego-intellect, you can be swept away by your self-importance. Know you are an individual expression of the One Supreme God; become one with That, and do not seek to become It, for It is ever beyond to strive through, as long as Eternity exists. The more you give, the more you receive, and the more you receive, the more you become. As you seek to share what you know with others, more will be added, but seek not to give more than you **receive**, or you are allowing ego to rule. If you discover a pattern given to you, build along those lines, forever silent as to your **own** powers. Forever silent as to the attainments of your **own** soul records. Those who are, shall be recognized by their labours.

As a constructive program has been given to assist you by your Planetary and Solar Hierarchy, we now take steps to further those instructions by placing them in wider circulation before the intellect of man.

Recent emotional conditions of your Planet have accelerated the need for greater psychic balance, as violent hates in opposing factions are existing all over the Earth. All governments of magnitude are undergoing upheavals that are fed and flamed by the emotions of their people. A great dark cloud ascends from the Planet, enveloping her in deep chaos.

The necessity for your conscious efforts to maintain stability and knowing **contact** with the Source of Life, is now even a greater challenge, and a greater need. We fully expect **you** to stand in the Light of your Divinity. Call it forth into manifestation, wherever you are!

We stand with you for Right with the Might of the Central Sun.

THE CHRYSALIS

If it is our fervent desire that we wish to attain perfection, we ourselves are permitted to do so and are given the opportunities, the same as you are given opportunities of tests, trials and so on. 'Tis most important that you yourselves keep illumined. Do not allow melancholy, or depression, to weigh you down. When you feel this forcing itself upon you, have the strength and the power to call, "Away with you and leave me to arise and go to my Father." And so you lift your Spirit into the etheric and you speak awhile with your Creator. You become enriched, enlivened; renewed both in the Spirit and in the flesh. There has been a complete change all round the world — an awakening, as a chrysalis presents its bud, and so you are going forward into the Light.

Note: Before "chrysalis" was mentioned, Seer G. twice saw the birth cycle of a butterfly.

OUT OF THE HOUSE OF BONDAGE

This is Moses, who led the Children of Israel out of bondage. Now am I occupied in helping to lead the children of earth out of a bondage even more severe.

Most of humanity are living in fear; fear of impending war or fear of losing their means of livelihood. Always it is fear of one thing or another. Fear is a lack of trust in God, Who is all powerful to govern every condition in life, and change chaos into peace and joy.

Dear ones, I have no fear that you will be backsliders as the Children of Israel were. What a trial they were to me! How my heart ached with disappointment when they worshipped the golden calf, forgetting the true God Who had led them out of their cruel bondage to the Egyptian task masters.

God your Father is never a cruel task master. Man is his own task master through his ignorance of the Law of Life, which is the Law of Love. Love is the Law of Life and Love is God. God is Love.

This is so simple and so apparent; if lived by, the Earth would be Heaven. But one thing is required: Love thy neighbour as thyself. Treat thy neighbour as if he were thyself, for in reality he and you are one. Humanity lives one life, composed of many parts, just as the human body

is one whole composed of many organs and those in turn composed of many cells. All life is One Life. This is so easy to see, but it is not so easy to live it.

In order to live a happy life, one must subordinate the little personal self to the good of the whole. Be unselfish. The baby (usually) comes into the world with a vision which does not see beyond his own little being. His own sensations are all that he knows. Gradually he finds that there are others who are acting independently of him. As these infants grow older their dispositions begin to develop and some are found to be loving and thoughtful of those about them, while others think only of themselves and their own desires. As the bough bends, so the tree inclines.

HE IS WITH US. LIGHT YOUR LAMPS.

Edward speaks: When the seas were wild and the wind was strong in the long ago, the Master quelled them with one word, at the behest of His Disciples. Today when His children of earth who are working as His Disciples now, call upon Him when the way is rough, He has still the same Power, and He still at their asking, can work the same miracle, and the seas become calm and the wind becomes but a gentle breeze.

In all things look unto Him, and He shows you how to use the Power of God, even against the elements. But mostly does He want you to use the Power against the evil influences at work in the world; against trouble, sickness, hatred and war, against greed and selfishness.

All these things make the way of the earth children rough and stony. He can, when you ask Him, make the way smooth and straight. You learn these lessons, my children, and then endeavour to pass them on. And He will help you even here. By guiding to you those who will listen, those who would be healed, and those who have the inner urge to learn more of the truth of the Spirit.

You see, as each one learns, they feel they **must** pass on their findings. They cannot keep them to themselves. And thus does the work continue to increase. More Lights are shining, and still more are flickering into being. It is well. The Light shall overcome the darkness, and there shall be no more evil upon the earth plane.

BLESSED ETERNITY

Immortal is man's Entity;
His birth and death both stages be
Of his earthly life
With its storms and strife,
Meant to perfect his Variety.

No longer now can man dread death,
For this was never the end.

'Tis the open door
To life evermore
And it never parts friend from friend!

And when are we judged and how do we fare,
When we from this clay have flown?

Our estate we have earned,
For from Nature we've learned:
We reap what we have sown!

One noble service awaits you there,
A task you may choose by right:

To care for all those
In-coming, dark souls,
Who never knew that dreams come true
In that radiant World of Light.

WALK WITH GOD AND HIS MESSENGERS

We want men of Shan to learn our way of life and methods of communication. It is most important for us to teach you to praise God and live with Him in your daily tasks. Ask only for God's guidance and take His wonderful messages into your hearts. Do not seek to gain in material life. It is more important to gain in your spiritual life, then, when the time comes, you can join us in the higher realms where beauty and love exist. You are a child of Shan. Rich or poor, it matters not; you are just one more soul who is in need of our help. Therefore, listen to our messages, and why not go into action and be as one of us? Work and trust in God's guidance. It is only a matter of taking two steps. The first is: Go about your daily life as usual, receive and

take all God's wonders to your benefit. The second step is: Walk with God and His Messengers. Give of your valuable time so that others can learn how to walk with God. Will you, my friends of Shan, put aside a small amount of your leisure time in order to quieten your mind and heart and meditate and try to feel within yourselves God's power and Love? Then, I am sure, you will have gained from our messages, and we can teach you more while you sleep, if you wish. Breathe in His Love and teaching. Breathe in the great vibration which comes from God.

TELL THE TRUTH OF CREATION

Pope John XXIII

May, 64.

Dearly beloved brothers, it is again my privilege to speak to you, and I would say unto you that orthodox religion has declined mainly because the Keepers of the Truth, the Priests of the Earth, have failed to explore fully the Truths within the Holy Book. For centuries they have relied not upon their own spiritual intuition but upon parable and cliché and age-old ritual in order to procure Man's interest. There has been a lamentable tendency toward dictatorship in lieu of leadership.

But Man is now ready for change in Eucharist teachings, and both inspiration and humility will be needed if The Church is to stand against the bombardment of questions which assuredly will be hurled at her door when the Heavens themselves reveal Life. There are those who will be shocked at the Cosmic revelations to come—but they must be prepared and the truth must be told.

ESOTERIC RELIGION: Religion which teaches that Man goes to Paradise, there to reside until the day of some kind of mammoth resurrection, is no longer practical or acceptable to the probing 20th century mind. The esoteric belief (and the true concept of Life) has begun to nudge the minds of millions who hitherto seemed lethargic to change. The dawn breaks! Many are drawn towards its truth and beauty which teaches that Life is a constant process of evolution; it is becoming increasingly clear that there is no static paradise where a soul would surely fall into a state of celestial lethargy no more commendable than disinterest at earth level. The true Paradise, or the Absolute Wonder of Creation, is in fact that Life is ever-widening in knowledge and wisdom which a Soul draws from all levels of Creation.

The fulfilment of the Soul, far from being completed on the Earth Plane, is a gradual realization that it is eternal—regardless of its current consciousness. It is imperative that this truth be widely taught now.

REFUGEES OF THE SPIRIT: If anything less than Truth is taught millions will be committed to a foreign land and will be no more comforted by transition than the thousands of refugees on Earth who are driven against their wills into foreign territories, bewildered and without shelter. It is a shocking plight to find yourself in no-man's-land. When the great exodus begins, these bewildered ones will be cast into a state of shock (a similar state to the sensory shock which follows a severe accident at earth level) and their arrival in the Astral worlds will cause much congestion and difficulties for the myriad of workers who stand by alerted to help. Expecting Paradise, these ignorant souls will be thrust into a world much like your own but know frustration since they will not recognise it as a changed dimension and be puzzled why their Earth family and friends can no longer see or understand them, and thus appear to ignore them. What could be more painful?

LIFE MEANS CONSCIOUSNESS: Tell the Truth of Creation! That Life is Life anywhere in the universe. There is no pause in Life, it is continuous activity punctuated by the state you know as sleep. Yet sleep itself is not death. You may sleep but Life goes on within and around you. In these realms you may sleep without interrupting your divine consciousness. There is no cessation of Life at any time from the moment when the spark of divinity—which is you—was created. This Truth must be told. It is the urgent task which confronts all Priesthood. Life is life, it is continuous and does not depend upon the whims or sins of another.

Teach these truths before the great exodus begins! So it is commanded by Him.

Eternal blessings,

POPE JOHN XXIII

GOD CREATED MAN FROM DUST

Gen. 2:7—"And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of Life; and man became a living soul on Earth."

(Before giving a talk upon the subtle bodies of man, Verity (as is the custom of Herald's speakers) sought to find an appropriate text. At first she could not recall any thing in the Book which would pertain to those subtle bodies

then, in a flash, she saw that the above text told of the startling multiplicity of Man's body.

So God created Man's body from **dust**; how do we define dust? Dust is the name given to the properties contained within the soil of the good Earth, thus making Man a true representative of this Planet, original and unique among the many Universal Intelligences.

The basis of all soil is rock or mineral particles which result from the pulverising or weathering of rocks by the elements, rain (Water), sun (Fire), wind (Air). The body of Man, then, is created by all these things. Mineral and water is he, activated by air. And just as Earth must be purified by sunlight, water and air before she can bring forth a rich harvest, so must Man be purified both physically and spiritually by these elements before he can become whole and in tune with Nature, or the Universal Intelligence.

The Earth (dust) itself relates to the physical bodies of Man, both the dense physical and the etheric (its counterpart).

Water relates to the Emotional body of Man, linking with the Moon (which controls the tides) and suggests that this Emotional body is a link between Solar and physical, forging a circle like the spilling of the rain over Earth before the Sun retrieves it when it will eventually be poured forth once more. The eternal cycle.

Fire represents the Mental body of Man, as fire is required to burn all the dross before Man can reach into the spiritual sphere which is represented by Air.

So when God created Man from the Dust of the Earth, God gave us a blueprint of the very nature of Man, indicating the subtleties of man's makeup.

DUST	WATER	FIRE	AIR
Physical & Etheric	Emotional	Mental	Spiritual

Of such magical properties is Man embued.

**THE MESSAGE WHICH CONTINUES TO ENCIRCLE
THE WORLD 24 YEARS AFTER IT WAS RECEIVED
IN N.Z.**

'A Message to My People' received by the Organizer in 1940 continues to be in demand in many countries. It has been reprinted literally tens of thousands of times.

Recently a Nigerian Minister of Unity Center had this to say:

"Amongst the most inspiring and aspiring leaflets ever written in metaphysical teachings one has earned the highest reputation and is greatly needed by many and I am applying for many copies of the leaflet: 'My Message to My People' as I consider it to be soul-inspiring and manna from heaven. We need this message as a babe needs its mother's breast. . . ."

SCIENCE GETS NEAR CHEMICAL BASIS OF LIVING MATTER

N.Z. Herald, 13th Oct. 64.

"If a single human cell was blown up to the size of a man's fist the genetic material it contains, which carries all the information governing a person's growth and development, would stretch for six miles."

Perhaps the new microscope reported in the New York Times, 23rd Sept. 64, will make such a feat possible: Here is an excerpt from an article sent from U.S.A.:

"Microscope with T.V. magnifies objects by 2,000,000 times! This electronic microscope has opened the scientist's eye to things never seen before. Under the television magnification a one-inch paper clip would be 32 miles long; a man's foot 400 miles long!

The system was developed by Radio Corp. of America."

(N.B. Star Light Fellowship, N.T. City, sent us a photograph of this news clipping and suggested that the principle could be adapted to telescopic photography. If this is done

what wonders of the 4th dimension may be revealed? Will man at last be able to see beyond the dense atmosphere?)

TRIBUTE TO INA STEDMAN

A student of Light for well nigh 40 years, Ina Stedman passed over less than 36 hours after attending our Xmas Party. On the very evening of her passing (approximately 4 a.m. Thursday) she returned to Instrument J. and the message given was that the influence of the Angel Azrael was still with her. Next evening she visited Verity to say that the Xmas Party proved to be her farewell to the Earth Plane and that she would now have the best Xmas ever being re-united with her loved ones.

At the regular Monday evening meeting she came thru Instrument J. happy and delighted to be with her old friends and thanked May Harvey for all her help given during the trying times of Ina's earthly illness and mentioned it was wonderful to participate in the circle without having to make physical effort.

Two seers attending Ina's memorial service saw her (and they were in different parts of the chapel). She came close to Verity to say she never liked funerals and was immediately observed being escorted away from the scene by her beloved husband.

Thus, once more, Spirit demonstrates its everlasting qualities. We know Ina to be happier now she has disposed of her worn-out earthly body and goes ever onward toward the Godhead.

AT HOME AND ABROAD

SIGNS IN THE SKY: Palmerston North — A gentleman in this town who is not at all fanciful saw one night the remarkable spectacle of a flaming sword in the sky. It appeared distinctly three times.

AUSTRALIA: Kilburn, S.A. — Fred Stone, Editor of Panorama, the Aust. Saucer Record, visited N.Z. in the spring to give a series of lectures. Heralds members heard his interesting address spiced with a variety of topics before he journeyed down the Island to meet other groups interested in U.F.O. affairs. On his return journey before embarkation, Fred and Violet Beazley kindly played host on Heralds' behalf. Those wishing to contact Mr Stone, write to: 22 Northcote St., Kilburn, S.A.

ENGLAND: Anthony Borgia writes us in thanks for G. & G. and Folders. "What a grand message from Pope

John, inspiring, hopeful and encouraging. Looking back over my many years of psychic activity — I'm just on 70 — there have been some strides in the right direction, and at least we are tolerated and even listened to today — Benedictions!" (Anthony B. himself received several books. His "Life in the Unseen World" is in our library.)

PORT ELIZABETH: Appreciation of our work comes from S. A. Hart, who also mentions The Organizer's article in The Voice which was "thought-provoking and enlightening". Gloria's work "which radiates light" is being passed around to interested folks. "Through Heralds teachings one becomes more aware of the inner qualities of people and animals, flowers, plants. All are akin to the flow of love. . . ." Thank you, Solveig, for your inspiring letter.

DURBAN: Mrs R. R. says she is deeply grateful for all the literature sent and we in turn give out grateful thanks for her generous donation. Blessings from us in N.Z.

AMERICA: Lake Tahoe — "I am elated with the two books (G. & G.) you sent, they are really wonderful. I want three more, one to give to the spiritual adviser at the Indian Reservation. Also 'Nothing Else Matters' is most revealing and I can think of nothing more wonderful than the experiences of Mr Grave. . ." We reciprocate your blessings.

PHILADELPHIA: William M. tells us that The Master Truth has appeared as a beggar in a restaurant in Mt. Shasta, Cali., then changed into the role of Glory whilst being observed. William is sending some literature. Many thanks and blessings.

CLAREMONT: Our thanks and prayers go out to Freda. Pope John XXIII continues to work for the good of mankind, and has come thru Instrument J. with some lovely prayers.

MT. HOREB: What great spiritual associations has this famous name, originally referred to as the Mountain of God in Moses' day. These dear friends ask us to "keep them on our love line and we'll continue to send our goodwill thoughts and serve Spirit daily wherever we are! Our good wishes and love continue to flow out to you all.

LA CRESCENTA: Ora Lee sends thanks for the continued inspiration and immeasurable help our literature has furnished over the last three years. We are more than happy that it has filled a need. God bless you!

TEXAS: Mary Betts is 84 years young although now living in a home for elderly people. We send very special greetings and love to this student and hope she enjoyed Gloria's work.

OREGON: Mrs E. G. A. tells us that our material is on loan to others. She knew Gloria Lee and say they surely do

miss her. "May God richly bless you and your Gospel work for the New Age period of time." Thank you, Oregon friends, and we send our love to all New Agers in your territory.

SUNLAND: Martha Sadler is keen for us to get G. & G. into U.S. bookstores. Martha will be pleased to know about four stores are now handling this book and it is still in constant demand. She is excited about the A. A. B. messages and those of Yogananda. Martha is a channel herself and has sent us some interesting material for publication. Blessings from us!

MARYLAND: We quote from a doctor's letter: "I was particularly interested in the article received from A. A. B. thru Verity, entitled Endocrine Glands. This is most informative as coming from a spiritual source. . . ." (This letter echoes the sentiments of a dozen others received in praise of this particular series). We had had but one dissension about A. A. B.'s contacting our channel when it was suggested that an astral shell or thought form was responsible for the work. It will be found that A. A. B. herself (elsewhere in this publication) answers this query.

GERMANY: Baden Baden — A Londoner living in Germany tells of her delight at the news of St. Annes-on-Sea where the Master Truth manifests to Richard Grave. This place is well known to our student. She is filled with wonder at Gloria's narrative so clear and concise and so soon after her passing. A verbal translation is now being prepared by this student and she intends to explain the J. F. K. message, Pope John's contributions to Light and Yogananda's talks to an interested group of German friends. So does the Light continue to spread. God bless you and best wishes from N.Z.

TORONTO: John Shore requests our Folders, having received some from a friend in Morongo Valley, Cali. Thank you for the love offering, John, and we hope that you will have received your parcel.
