CLINICAL COURSE ADVANCED!

Since October 1, 1953, the Advanced Clinical Course Units taught by L. Ron Hubbard first in Camden and then in Phoenix, have been accumulating information about the training of auditors. Everything that has been learned has been put into full-blast usage in the new Clinical Course Units which started January 24, 1955, and which will enroll again February 14, 1955.

TV cameras, coaxial cables, staff auditor conferences, hospital visitations, public speaking instruction, preclear procurement, teaching basic courses, identification as three different professions, a brand new home of its own, were all greeted with great enthusiasm by the fifteen Clinical Course students now enrolled for this Unit, and came as a complete surprise to them. "This is the way to train auditors!" was the standard reaction.

The change could come about because the many previous Advanced Clinical Courses to the degree of B. Scn. had produced sufficient training information and had sufficiently standardized the materials of Dianetics and Scientology so as to make it possible for Hubbard Professional College to teach a Certification Course to the degree of HDA, and another course to the degree of B. Scn. which brings the auditor up into a clear understanding of definitions and essentials, and gives him sufficient auditing practice, and brings his case into a high enough level to contemplate the broader problems of auditing. Only now have graduates from the H.P.C. begun to be available to the ACC. Only now have auditors in the field, practicing the curriculum of the H.P.C. on their students, begun to produce enough well-trained candidates for the ACC to make this present course possible. Naturally, even now a student who is found to be shaky on his basics and fundamentals of auditing can expect, if he enrolls in the Advanced Clinical Course, to be "retreaded" by the ACC instructor, LRH, Jr. But the bulk of the students enrolling are sound in their fundamentals and are ready to go into the actual business of auditing, and running a business of teaching courses, of visiting hospitals, of taking their role in the society as the owners and controllers of education and mental healing.

It is the aim and goal of the current Advanced Clinical Course and those which will follow it to indoctrinate an auditor into the phases of action which will meet him on his release from training. The auditor must be able to walk into hospitals and insane asylums without a qualm and do the maximum amount of good in a minimum amount of time. He must be able to face school boards and take classes on the subject of adult and child education. He must be able to speak publicly, and first and foremost he must be able to get the maximum result on cases in the minimum amount of time.

Considerable work and expense has been involved in formulating the current Advanced Clinical Course Unit. Directly under the control and supervision of Ron, the Advanced Clinical Courses have never been without great gain for the auditor, but now that gain is to be many times multiplied. The Advanced Clinical Course student will now work with Ron on research projects, on various operational projects in the area, and take an active part in the conduct of the organization of Dianetics and Scientology. Prior to this time the individual training of auditors has been insufficient to permit this latitude, and a great deal of time has been spent in Advanced Clinical Course Units in teaching auditors fundamentals. Thus it has not been possible to advance them immediately into the actual work of auditing.

A few days ago everyone in Arizona who is interested in Dianetics or Scientology was

mailed a card inviting him to come in for five hours of free processing. Ads were placed in local papers inviting arthritics, polio sufferers, and other psychosomatically ill persons to participate in a research program. From here come the people the Advanced Clinical Course Unit will work upon. The bulk of the incoming cases will be new, presenting always new problems. The Advanced Clinical Course student will have morning and evening sessions to audit these people, and in Staff Auditors Conference at five o-clock every day in Ron's office will personally detail the results which he did or did not obtain and will have any coaching he needs to obtain better results next time. Those who have already been part of these Staff Auditors Conferences know how valuable quick and close participation on Ron's part can be on a case and in training.

Some time during the course the Advanced Clinical Course student will conduct a basic course for the public, consisting of one week of evenings. He will do it on his own, but under supervision from the Staff. It will be expected at the end of that week that the public he addresses will be well informed on the subjects of Dianetics and Scientology.

Every afternoon at three o-clock the ACC student will have the benefit of witnessing personally a demonstration by LRH on a preclear new and strange for the most part to Dianetics and Scientology. This, in itself is a considerable small miracle--to make these demonstrations available. In the first place, it is highly doubtful if anyone other than the preclear (and he is too involved with *his* own case to do much observing) has ever witnessed Ron actually auditing. The question of how he obtains the swift results upon cases has often been asked. Demonstration auditing before a large audience is hardly auditing at all. The preclear is highly conscious of the audience and is intensely aware of his own role in giving a show, and so tends to give a show instead of being a preclear. Thus demonstration auditing and watching an auditor demonstrate auditing is no observation at all, but this has now been solved. It has been solved by modern electronics.

Developed in the laboratories of the Atomic Energy Commission, a TV camera which does not broadcast to more than two or three sets has been developed. It was used by the Atomic Energy Commission to witness processes which could not be faced close up by human operators. The camera, picking up in enormous and minute detail, fission reactions permitted the image to be carried by coaxial cable to a safe distance where it could be viewed on a television screen. One of these cameras has finally been obtained by the HASI. It is out of sight in Ron's office but trained upon the preclear and Ron. High-fidelity hidden microphones pick up the sound and the picture and its sound are carried by coaxial cable telephone line to the new Advanced Clinical Course Unit quarters at 815 North Second Street where they are viewed on new Packard Bell 24 inch TV sets.

An instructor at 815 North Second Street points out the various processes which are being engaged upon, the probable goal of the auditing, and the minute points and innuendoes which the new observer might miss. The class can make as much noise as it cares to, can be closed before the session ends if the period is over, and can relax without disturbing the preclear. Thus we are on the way to one of the mysteries of auditing's solution. Just what does Ron do with a case that produces the results he produces?

Hospital visitations as ministers, school visitations as educators, and the plumbing of the seamier side of life in jails and reform schools, as well as missions, continue the student's training.

As the student must be part of the watch kept and the reception setup at 815 North Second Street, and as all candidates for free auditing must apply there, he will be indoctrinated in the handling and signing up of people for auditing and the scheduling of auditors.

It has been pointed out that the number of projects on which this Unit will be engaged is so great that some confusion cannot but result. In reply to this Ron said, "If you think for one moment that the delivery of sanity to a highly aberrated society is not a confusing operation, then you have no point of evaluation of what happens in Dianetics and Scientology organizations. We must learn to live with confusion. We must learn to make order out of confusion because we are dealing with a confused people. Wherever you employ man in the solution of the problems of man, to expect an orderly operation to immediately materialize is idiocy. It is part of the process of being duplicatable to solve the problems of the mind in a society which has not solved them. Probably when the Advanced Clinical student gets out of here, when he gets away

from intimate contact with the wild-eyed public which will be battering on the door of 815, when he has survived the day and night watch taking care of emergency preclears, he won't jump quite so suddenly and sharply just because a letter didn't get into the right box. It is hoped he will get on with his job of clearing this society.

"In the pursuit of financial gain, in the wooing of fame, and in the effort to be approved of, we often lose track of what we are trying to do. We are trying to raise the cultural level of a society to the point where it is not subject to the stampede of war, plague, and disaster. We are trying to clear a planet. Maybe that is too big a goal for some of us to see, but somebody, somewhere, has to start it. We are starting it right this moment in the Advanced Clinical Course Unit in Phoenix, Arizona."

RON OFFERS YOU...

If you want personal processing by Ron, and if you don't mind your session being recorded, you can have it for fifty dollars an hour. Ron's auditing fees heretofore have been $500.00 an hour, and worth it. Because he will need preclears in the training of the Advanced Clinical Course Units, he will sell at the rate of no more than one hour per day and no more than five hours to any preclear, auditing at the rate of $50.00 per hour.

An intensive by Ron is five hours. This makes an intensive worth $250.00.

There has not been a highly resistive case around the organizations of Dianetics and Scientology which Ron did not or could not break if he so desired.

Many people have written in inquiring about the availability of Ron's auditing. They have, in the past, been told a fee which would keep Ron from being snowed under with appointments. The barriers on this are now dropped. If you have been confused in the past, then you may get auditing from Ron, in Phoenix, at $50.00 per hour, by writing Director of Processing, 616 North Third Street, Phoenix, Arizona.

This fee is fantastically low in view of the fact that most Park Avenue psychiatrists get $50.00 an hour, and Ron in five hours quite normally clears or makes an operating thetan out of a preclear.

JUST FOR THE ASKING

Processing by certified auditors, for five hours without charge is yours, in Phoenix. Because we need preclears for the Advanced Clinical Course Unit, and because we wish to clear as many people as possible, the ACC at 815 North Second Street, Phoenix, Arizona is offering to anyone, anywhere, so long as the auditing is done in Phoenix, five hours, or two sessions of processing without charge of any kind.

The only hitch in this is that any candidate for free auditing is no longer eligible for free auditing after the five hours have been delivered. A further limitation is that the five hours must be delivered in two auditing sessions at the most. The sessions are from two and a half to three hours apiece.

To avail yourself of this processing, all you have to do is see the auditor in charge at 815 North Second Street, Phoenix. You will be audited by certified auditors who have already graduated from the Hubbard Professional College certification courses, or who have been auditors for a very long time and have recently finished refresher courses. This is easily the best auditing available in the United States, and it is yours. Remember, however, that after you have had your five hours of free auditing, HASI and HDRF rates will obtain, and processing will have to be arranged through the regular Staff of the HASI or HDRF, 616 North Third Street, Phoenix.

We could call this Project This-Stuff-Works. There are many people who have been interested in Dianetics and Scientology for a long time who have no slightest idea of how thoroughly and comprehensively these Sciences work today. People audited in 1950, or even in 1953, have no slightest inkling of what can be done for a case in the hands of a competent auditor in 1955.

ABILITY, the new magazine of Dianetics and Scientology, combines the HDRF Bulletins and the HASI Journal. This magazine is being produced to handle the job of communication necessary for the swiftest attaining of the goals of Dianetics and Scientology as they are being acceleratively swiftly approached by the Dianeticists and Scientologists of today who, knowing the communication formula well are going awfully fast, and who when they demand information, demand it upon the instant.

THE CREATION OF EXPERTS

The old Advanced Clinical Course that was taught by Ron in its general format and formula, but much improved, is now being taught as the Certification Course of Dianetics and Scientology. We have moved up a bracket in training to a point where the Hubbard Professional Auditor, the Hubbard Certified Auditor, or the Hubbard Dianetic Auditor is better trained today than earlier Advanced Clinical Course students. This course has a curriculum peculiar to Phoenix, and is not necessarily the same course being taught by D. Scn.s with the right to train. At eight in the morning a specific process is taught, thoroughly, and then for the remainder of the day that process is exercised and applied. The six basic processes are thoroughly instructed, as well as Route I, as contained in The Auditor's Handbook. The auditor is made thoroughly proficient in definitions, Axioms, and the handling of processes on preclears. This is an eight weeks course but many people require thirteen weeks to complete their training through a satisfactory examination. Attendance at this course or having a degree as Hubbard Dianetic Auditor, or Hubbard Certified Auditor is essential for enrollment in the ACC. Some recent Hubbard Professional College graduates were so good that Ron put them directly on Staff where they proved to be of great benefit as auditors.

BOOK TWO!!!

The book DIANETICS, 1955! continues to sell in an avalanche, so much so that we are getting out now its First Edition. Almost all of the Limited Edition has gone. The First Edition is now pouring off the press. It is in paper covers, it is type set, it is 8 1/2 x 11 in size, and it contains all of the original text. There has been no change in price, and the First Edition, being valuable in itself as such, costs $5.00 per copy. All discounts apply.

THE BARGAIN RATE FOR ability is $8.50 per year! This brings 24 big issues!

COMMUNICATION UNDER STUDY

Under L. Ron Hubbard, the Department of Research of both the Foundation and the Association are seriously attacking the various problems of communication in a field so esoteric that most people wandering in listening to a discussion are not sure of whether they are listening to Yoga or Electronics. Mystics have for many years known peculiarities existed in non-MEST communication, but their efforts to attain these were so irregular and their results were so sporadic that no slightest attempt is being made by the Department of Research to find out what has been known on the subject. As a matter of fact, the Department of Research has two people connected with it who are fairly expert in mysticism, spiritualism, yoga, etc., ad nauseam, but who have long since abandoned these practices. Although results of peculiar nature were obtained by many races in many places on the subject of non-MEST communication, no clear-cut understanding of this has existed to the degree that certain principles can be applied with invariable results.

The motto and by-word of Dianetics and Scientology, since their earliest days, has been "invariable results". Certainly activities such as telepathy, clairvoyance, tec., etc., have not come within the framework of "invariable result", and those people who have been unfortunate enough to have dabbled and practiced in these fields have, sooner or later, so far as our records disclose, always come to disaster as a result thereof, personally.

Research and investigation into Non-MEST communication is an adventure as wild, according to Ron, as the development of Dianetics itself in its earliest days.

The Department of Research is working directly toward the attainment of predictable results in the field of communication by achieving certain processes which, intelligently and skillfully used, will always produce the result of communication.

We are told that in the ancient days each and every island in the Pacific which was inhabited had its communicator. This person would walk up to the top of a mountain at a certain hour every day and would "commune" with other communicators on other islands. In this wise the news of uprisings, tidal waves, famines, were current long before a MEST
MEST traffic could have communicated them. Whether this activity was true or not it certainly had its limitations and would seem to

lack a certain positiveness of result, which made it undesirable. If non-MEST communication were invariable, then we would not have cables and radio. Cables, radio, and other mechanical aids are efforts to put certainty into communication.

It is the direct project of the Department of Research under Ron today to put certainty into non-MEST communication.

This project was enthusiastically embarked upon the moment it was found possible to strip a thetan-exterior of his use of facsimiles while viewing, and it was found that a thetan-exterior most commonly uses facsimiles to see things. He does not look at actual walls, he looks at pictures of walls. As soon as Ron developed a process by which this insidious activity could be cured, positive viewing became a reality for the thetan-exterior, and so we have moved another step forward. But with this we get all of the phenomena of non-Mest communication.

It is an exciting world, or should we say an exciting Theta, today in Phoenix.

clearing: all hands!!!

The project of clearing the Staff of the HDRF and the HASI has been started with a will, and is under the direction and control of Julia Lewis, D. Scn., D.D., one of the oldest HDA's in Dianetics and Scientology.

For five hours a day, on an individual basis, Julia is working over the staff of the organizations.

Many of those in the field who have been dismayed by some of the actions engaged upon by these organizations will be very happy to learn this. If they are happy to learn this, then the HASI and HDRF staffs would like to join in hoping that this clearing activity can also be undertaken in various other areas of the United States.

We are not, today, offering bounties to clear certain auditors, but we would like very very much to encourage everyone to follow the example of the HASI and HDRF. It is not a very far route, today, to clear. It is somewhat farther to operating thetan, but these are obtainable goals. It is our belief that the quicker we obtain these goals of everybody in the organization as well as everybody on the Staff cleared, that nothing under the sun can stop us from achieving our objectives.

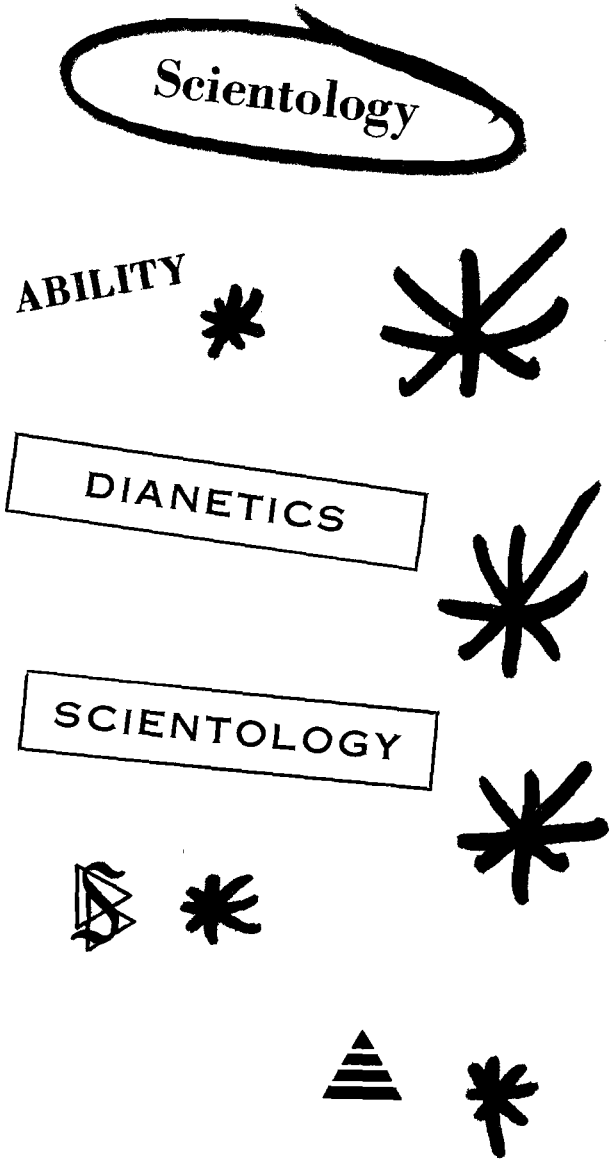

accent on ability!!!

The June 1954 Congress was offered a book free of charge which they, by attending the Congress, had financed. This book was THE CREATION OF HUMAN ABILITY. Some small segment of the book has already been released as "The Auditor's Handbook". In a few weeks "The Creation of Human Ability" will be available in hard cover. Its price is $5.00. It is actually an auditing manual containing 77 vital and valuable processes. It is printed on thin paper, it has black leather covers with a gold stamping, the edges of the paper are all in gold, and it has a yellow silk bookmark. It is a beautiful book that has taken, or will take, almost seven months to complete. It will be ready for distribution in a very few weeks. All those who have placed orders for "The Creation of Human Ability" will be pleased that they waited, for by waiting they have permitted to be included in this volume the very latest processes of Dianetics and Scientology.

PHOENIX CLINIC INTENSIVES

INTENSIVES IN PHOENIX. You can arrange for an intensive by the Phoenix Clinic Auditors, and results are guaranteed. Auditors are assigned by L. Ron Hubbard, and all processing is supervised by Ron, personally, through the daily Staff Auditor's Conference. An intensive of 25 hours is $500.00. The guarantee goes both ways, in that you must be satisfied and the auditor's conference must be satisfied with the results. If the auditors are not satisfied, they cannot accept the $500.00. Here is a great opportunity!

ABILITY, THE OFFICIAL PUBLICATION OF THE HUBBARD DIANETIC RESEARCH FOUNDATION, AND THE HUBBARD ASSOCIATION OF SCIENTOLOGISTS, INTERNATIONAL, 616 NORTH THIRD STREET, PHOENIX, ARIZONA, COMBINING THE HDRF BULLETIN, THE JOURNAL OF SCIENTOLOGY, CERTAINTY, AND THE PROFESSIONAL AUDITOR'S BULLETIN, PUBLISHED THE FIRST OF EACH MONTH (ABILITY MAJOR) AND THE 15TH OF EACH MONTH (ABILITY MINOR), AT THE PRICE OF 75¢ PER MAJOR AND 35¢ PER MINOR, AND $8.50 PER YEAR FOR BOTH, ITS POLICY BEING, THE CREATION OF HUMAN ABILITY. COPYRIGHT 1955

COPYRIGHTS, TRADEMARKS, EXCLUSIVE, HANDS OFF, DON'T PLAY WITH THIS PARTICULAR KIND OF FIRE, just use Dianetics and Scientology to make people able and to make able people more able, and don't waste a stray worry on what able people might do when they get extremely more able. The things clears do when they get clear and do things are more fun to have happening in this 'ole universe than any other product.

The above printed words and emblems are being now put under fully enforceable, rigorous and strict trademark law by the organization for one very simple and reasonable reason. Dianeticists and Scientologists have the very good fortune of continuing to work toward well understood and very great goals under the active guidance of the founder and goal maker of these sciences, L. Ron Hubbard. As you well know, Ron's modus operandus is not one of hoping to succeed, its one of succeeding.

We're succeeding now in the creation of greater ability in Man. Our communication lines are going to stay open, unspecialized, un-squirreled, and along these lines goes the information that surely and readily continues in this direction of ability and freedom. Dianetics and Scientology are not even remotely in a position of being stoppable. Its not a question of a fight, or a danger from misusers. We simply help more people faster by keeping the lines open and straight. One way of insuring this is to keep our labels cleanly off of all other products.

THE LATEST FROM H.P.C.

By special arrangement, students 21 or younger can now take the HCA course for $350.00. The College wants more young auditors in the field. This is in the interests of upping the velocity of human behaviour around the Solar System sooner and faster. This is the kind of training alert youngsters can really eat up. The HCA course is the intensive 8 week Professional Course. It's the training that turns out crack auditors, and it's not hit or miss. It's hit, and it's guaranteed. Auditors in that course are really arriving these days, able and ready to get in there and holler the world into some kind of acceptably good shape. They have the full backing as professionals by the Hubbard Association of Scientologists, International.

Marcia and HCA Estrada are now expanding the NURSERY SCHOOL PROGRAM (for kids a bit too young for the HCA course) and you ought to see the model they have for the future buildings! The Nursery School and the Grade School. All the kids are getting professional auditing daily.

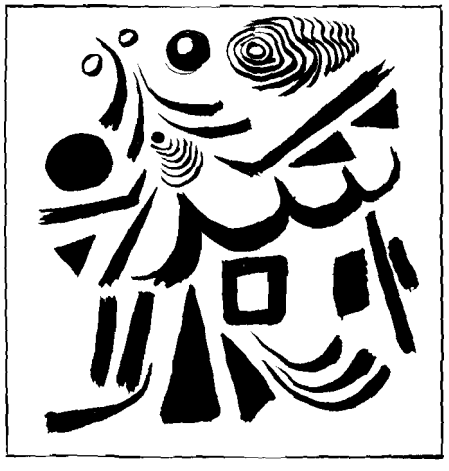

Everyone is getting auditing these days. We all get our sessions from Julia Lewis, who was imported specifically to audit the Staff--the whole gang. And what Julia says goes! Julia very calmly and coolly goes right ahead and gets results, every time.

EVERYONE'S TALKING NOW ABOUT PLANS FOR THE UNIVERSITY

We're working on that. We're working on expanding the College Training program. And Ron finally has the kind of Advanced Clinical Course he always wanted and intended to have. ANYONE LISTENING IN to the reports today at the joint Staff-ACC auditor's conference in Ron's big office could easily have made a mistake. He could easily get the idea that this was a report culled from years of work. Highlights of a year's auditing. It was not. Actually the reports covered the activities of this one eight-to-five day. Didn't even cover the evening's work, which was ahead. These guys and gals are good! We've really got an able and expert assembly in Phoenix this day!

A WORD EDGEWISE from Dick Steves: "If you have any difficulties concerning lost or unreceived certificates please write to me at 616 N. 3rd St., Phoenix, Arizona, and I will be glad to handle your problem personally and straighten the matter out."
Richard Steves, D. Scn.

Here's a big HELLO! and a huge O.K. for the New York Congress! We in Phoenix wish you a wonderful four days, and may you have a very busy future, making men able and well and wise!

THIS PUBLICATION JUST DOESN'T HAVE ANYTHING MEDIOCRE TO WRITE ABOUT, just good and great news busting out all over the place. Weather's wonderful.

letter from ann arbor

Dear Ron:

Just finished "Dianetics, 1955!'. I think it's tremendous. Thank you.

We had a successful Florida trip -- lots of fun in perfect weather. Since then I've been swamped with auditing. The results are certainly splendid and much more quickly apparent than ever before. Since your able assistance a while ago, I've had no more uncertainties about com. lag and sticking with a process. I no longer mind using the same precise patter every time (discovered I had minded, when all of a sudden I no longer did!) and I know it is far more effective for the p.c. now than when I would "try to keep up interest" by phrasing the same thing just a bit differently. True 2-way communication takes care of the interest and precise patter simplifies things for the p.c.

We're thoroughly enjoying the Professional Course Lectures, too, and still look forward to coming to Phoenix. .....

Martha

PHOENIX AUDITOR

One of the crack auditors who is working with Ron is Fernando Estrada, 27, ex-sailor, ex-soldier of fortune for the United States Army, and an early graduate of Hubbard Professional College in Phoenix, holding the certificate of HCA. Fernando has been an auditor since early California, but his training with H.P.C. in Phoenix has made the biggest spurt of professionalism of his career. He very calmly states that he can crack and clear any case you want to throw at him.

About the research that he is doing on Ron's new Investigation and Research staff Fernando says, "We're exploring into the unknown, where lots of earlier philosophies went half way in and got hung by the neck. They found out that you had to think the right thoughts, but they didn't find out what the right thoughts were. Just HELLO and OKAY. Get the idea?"

"The outlook for mankind is good," says Fernando. "We're in charge of it because we know how to know and we know how to communicate. It doesn't have to be done, but we're going to make man able and healthy whether he likes it or not."
