Abilityⓡ

Scientology Books

SCIENTOLOGY is a study of the philosophy of the spirit of Man. It is as well a very practical study of how to improve the ability and beingness of individuals, groups and mankind. Scientology is a religion, a humanitarian rather than a ritualistic one; it truly makes good the dream of the ages for sufficient knowingness of the spirit of Man for all Mankind to live with one another in the dignity and creativity of the ability to help.

There are many books on the subject of Scientology and on that branch of Scientology which covers mental anatomy called Dianetics. The reading of these books will give you much information on what Scientology is about - and with the knowledge thus gained you can begin at once to bring more order into your life.

To help you decide which books to read - or which book first, a decision which may be difficult to make if you are ordering by mail and can't look through the books we have, we print here brief descriptions of the most important texts in Scientology. Except where otherwise indicated, they are all written by L. Ron Hubbard, the Founder of Scientology and Dianetics. We print them in the order WE think you might like to read them. But the choice is yours.

Good reading!

FOREWORD

By L. RON HUBBARD

For nearly a quarter of a century I have been engaged in the investigation of the fundamentals of life, the material universe and human behavior. Such an adventure leads one down many highways, through many byroads, into many back alleys of uncertainty, through many strata of life, through many personal vicissitudes, into the teeth of vested interests, across the rim of hell and into the very arms of heaven. Many before me have made their way across these tumultuous oceans of data, where every drop of water appears to be any other drop of water and yet where one must find *the* drop. Almost everything I have studied and observed has been evaluated otherwise somewhere, at some time, in relation to this or that.

What equipment must one have to venture upon these wastes? Where are the rules-books, the maps, the sign-posts? All one perceives when he peers into the darkness of the unknown are the lonely bones of those who, reaching before, have found their hands empty and their lives destroyed. Such a thing is a lonely drama; one must cheer one's own triumphs and weep to himself in his despair. The cold brutality of the scientific method fails far back, almost at the starting point. The airy spirallings and dread mysteries of India, where I drank deep, lead only into traps. The euphoria of religion, the ecstasies of worship and debauchery, become as meaningless as sand when one seeks in them the answer to the riddle of all existence. Many have roved upon this unmapped track. Some have survived to say a fraction of what they knew, some have observed one thing and said quite another, some looked knowing and said naught. One engaged upon such a quest does not even know the answer to that most important question of all: will it be good for man to loose upon him, all in a rush as an avalanche, the knowingness of eternity?

There are those who would tell you that only a fiend would set you free, and that freedom leads at best into the darkest hells, and there are those to inform you that freedom is for you but not for them, but there are also men of kind heart who know how precious is the cup and drink of wide unbounded ways. Who is to say whether man will benefit at all from this knowledge hardly won? You are the only one who can say.

Observation, application, experience and test will tell you if the trek has been made and the answer found. For this is the science of knowing how to know. It is a science which does not include within it cold and musty data, data to be thrust down the throat without examination and acceptance. This is the track of knowing how to know. Travel it and see.

Scientology Books

by L. Ron Hubbard

THE PROBLEMS OF WORK

Very few people can cope with their work as well as they would wish. This book tells how to apply many of the basic principles of Scientology to one's job and how to succeed with less fuss and exhaustion. Many of the basics of Scientology are explained with glorious simplicity. Chapter 2 on "Confusion" is in fact well worth the cost of the book alone.

71 pages Price $1.25

SCIENTOLOGY: THE FUNDAMENTALS OF THOUGHT

This book describes the basics of Scientological thought in clear and concise terms. Almost, the book is a precis of Scientology, invaluable both as a condensed introduction for newcomers to the subject and as a work of reference to long-time Scientologists.

64 pages Price $1.25

DIANETICS: THE EVOLUTION OF A SCIENCE

This little book is of especial help to everyone who wants to familiarize himself with the development and the background of DIANETICS. It tells the lay reader what Dianetics is and what to expect from it. The book describes the way in which Dianetics was discovered and evolved by the application of a thoroughly down-to-earth engineering approach to the subject of the human mind. Fluent and fascinating. Short, concise, and very easily readable. This was the first published work on Dianetics; it appeared as a magazine article in 1950.

48 pages Price $1.25

DIANETICS:
The Modern Science of Mental Health

This is the most important book in the reader's lifetime; the bridge between mental ignorance and mental literacy. This was the first published book on Dianetics and a best-seller from the beginning. Its principal use to the reader is in giving him an understanding of the factors in the mind - hitherto not appreciated - which influence human behavior. Comprehensively covered in this book are: the Goal of Man, The Anatomy of the Mind, and Dianetic Processing. The book is an education in itself and a gateway to the understanding of oneself and one's fellow man.

Hard cover, 452 pages Price $4.00

SCIENCE OF SURVIVAL

This work is a detailed exposition of the Science of Human Behavior. Written around the Hubbard Chart of Human Evaluation (which is included as a supplement), this volume will enable the reader to predict the behavior of marital partners, future employees, colleagues -- indeed of all people in his environment. This helps him toward a greater control of these persons, and of his environment, with a consequent rise in efficiency and happiness.

Hard cover, 328 pages, plus Chart Price $7.50

ADVANCED PROCEDURE AND AXIOMS

This is where the Scientology auditor who "really knows his stuff" got it from! Some of Dr. Hubbard's most brilliant and penetrating essays are published here under such headings as Justice, The Role of the Auditor, Thought, Emotion, Effort, Evaluation, The Emotional Curve, Self-Determinism, Responsibility, Cause and Effect. It also contains Definitions, Logics, and the Axioms of Dianetics. This volume is essential to the auditor.

46 pages Price $2.50

DIANETICS 1955

This book bridges well from DIANETICS as a specialized study of mental anatomy into the broader field of SCIENTOLOGY which spans the whole range of knowledge, ability and the human spirit. It deals especially with the problems and fundamental principles of communication between man and man and his environment and indicates how this may be improved; and it also covers the basic principles of Scientology in the simplest of terms. Like "Advanced Procedure and Axioms", as well as being required reading for the professional auditor, "Dianetics 1955" is of great help to the untrained auditor.

Hard cover, 144 pages Price $3.00

SCIENTOLOGY: 8 - 80

Subtitled "The Discovery and Increase of Life Energy", this book may be said to deal with the "physics" of Scientology. It is very important reading for anyone who is studying the technology of the science, and contains also a glossary of Scientology terms.

86 pages Price $1.25

SCIENTOLOGY: 8 - 8008

This basic text of Scientology gives the reader a balanced and clearly outlined account of the concepts upon which the techniques of Scientology are based, together with a description of some processing techniques. The reader of this book can see theory and practice working together in the development of Scientology.

Hard cover, 152 pages Price $3.50

THE CREATION OF HUMAN ABILITY

This handbook for Scientologists is a comprehensive volume of reference dealing with the Codes and Axioms of Scientology and with Clearing techniques and processes toward Operating Thetan. Full and highly informative theory is given with each technical passage. Essays on the derivation and background of Scientology are included. This is an essential reference book for the professional auditor.

Hard cover, 292 pages Price $5.00

A HISTORY OF MAN

This is the concise history of where you have been, what you have done, and how you've done it over the past sixty trillion years. If you are startled or even rather frightened by this gripping book, we can only repeat that this is the cold-blooded truth and that YOU DID IT. Read it and decide for yourself.

Hard cover, 82 pages Price $3.00

ACC MANUAL

Prepared by Advanced Clinical Course Instructors.

This is an essential book for all students attending Advanced Clinical Courses, and is of great help to all Scientologists. Subjects covered include ACC rules and regulations, definitions of Scientology terms, a chapter entitled "Obnosis and the Tone Scale" ('obnosis' means 'observing the obvious') which can make a great difference in your ability to use the Hubbard Chart of Human Evaluation in your life, and perhaps the most informative essay on Assists yet written.

64 pages Price $1.25

CHILD DIANETICS

Dr. Hubbard, in his introduction to the book, writes "The main problem with children is not so much how to process them into sanity as it is to live with them. The adult is the problem in child raising, not the child." Commencing with a descriptive chapter on basic Dianetic principles, the book goes on to outline procedure and case histories and to place Dianetics within the broad sphere of the whole community. The book is of great value and interest to parents, teachers and all who want to be able to help children more.

92 pages Price $2.75

CREATIVE LEARNING

By V. Silcox and L. J. Maynard

Subtitled "A Scientological Experiment in Schools", this book deals with the application of Scientology in the classroom. It is written by two teachers in a manner which appeals especially to readers who are interested in education and aware to some degree of the problems involved in teaching children and the conventional attempts to solve these difficulties. A most interesting book for those who want to know: "Does it work and, if so, how?"

Hard cover, 222 pages Price $3.00

CEREMONIES OF THE FOUNDING CHURCH OF SCIENTOLOGY

A handbook needed by every Scientology Minister. Contains ceremonies for Weddings, Christenings and Funerals as well as information on how to conduct a Scientology Church Service.

HAVE YOU LIVED BEFORE THIS LIFE?

This book contains many reports of past life incidents recalled by people through Scientology processing, entirely without drugs or hypnotism or any form of suggestion. Seventy people were tested in an experiment to discover the validity of past life experiences; SEVENTY O UT OF SEVENTY had evidence that they had lived before. Have YOU lived before?

Hard cover, British Edition, 183 pages Price $3.75

HANDBOOK FOR PRECLEARS

This is a "self-help" volume which can be used alone, or with the aid of an auditor. It has produced remarkable and lasting gains for many readers, and is recommended for people who are having, or plan to have, Scientology processing.

91 pages Price $2.50

SELF ANALYSIS IN SCIENTOLOGY

This is a justly renowned and comprehensive book for people who wish to help themselves without the aid of a trained auditor. It can be used alone or with the help of a friend. It contains a very helpful introduction to Scientology in which is discussed, among other subjects, the dwindling of a person's abilities with age and how this may be reversed. The main body of the book is taken up by mental exercises to be done by the reader, together with tests and the Hubbard Chart of Human Evaluation.

Hard cover, 146 pages Price $3.00

THE CO-AUDITORS MANUAL

This book is a mine of information about co-auditing procedure, and is of great help and interest, not only to a co-auditing team, but to all Scientologists.

96 pages Price $1.25

HOW TO LIVE THOUGH AN EXECUTIVE

This is a manual of business organization, planning and management with particular reference to the development of a clearly described and practical organization and communications system based on Scientology methods. This system has achieved tremendous success wherever it has been applied and enables an organization to handle more work much faster and with less effort and confusion.

123 pages Price $2.00

SCIENTOLOGY: ITS CONTRIBUTION TO KNOWLEDGE

Compiled from the works of L. Ron Hubbard by U.K. Gerry

This excellent outline of the development and philosophy of Scientology is a most readable book which deals with the subject in general terms rather than with its technology.

67 pages Price $2.50

SUMMARY OF SCIENTOLOGY

From the works of L. Ron Hubbard by J. Horner

Not quite so concise and comprehensive in form as "The Fundamentals of Thought", this book is a simpler and very readable introduction to the subject. It is subtitled "A new Understanding of Life" and explains basic ideas such as the Tone Scale, the Know to Mystery Scale and the Communication Cycle. It also includes the Axioms of Scientology.

92 pages Price $1.25

THE HUBBARD ELECTROMETER

By John Sanborn

Based on research and development by L. Ron Hubbard, this book summarizes everything known about E-meter practice up to late 1959. In fact, if you have bought an E-meter and have not yet bought this book, you are not getting full value for your training or your money.

74 pages Price $2.50

FORTRESS IN THE SKY

This is the first article written in English (date 1947) on the military aspects of the moon in an atomic age. Read it - and be better informed than politicians who are scarcely even yet beginning to take it seriously.

19 pages Price 50 cents

ALL ABOUT RADIATION

This book, which could scarcely have more topical importance, is written in two parts. Part One, "The facts about the Bomb", and Part Two, "Man's Inhumanity to Man". The book is a Scientology answer to the threat of atomic warfare.

Hard cover, 109 pages Price $3.00

BRAIN-WASHING (anonymous)

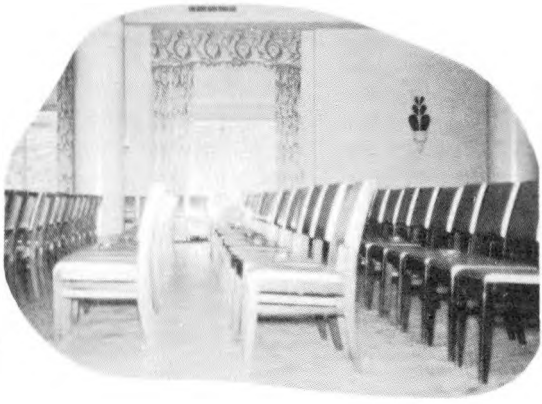

This important and thoroughly unpleasant book is an exposure of Russian methods of "psychopolitics", that is, the use of so-called mental "healing" techniques to further the aims of world politics. The techniques described in this book, it need hardly be said, are those Scientology opposes, not those it uses; and this book should be read by adults only and is not recommended for those of delicate sensibility.

THE HUBBARD GUIDANCE CENTER

The Hubbard Guidance Center exists to help the individual to gain for himself greater ability and happiness through Scientology processing. Individual intensive processing is given over various lengths of time. These are usually divided up into units of twenty-five hours of work taken over one week, but shorter intensives are also available for people who have a difficult problem to face or who require help on some specific subject. Case assessments are given free of charge and completely confidentially, on application; and should you decide to have processing, you will be tested before the intensive and at the end of each week of processing to gauge your progress in the intensive.

The following letter was written to us by a Medical Doctor one year after he had received 25 hours of processing at the Hubbard Guidance Center and had returned home to resume his practice: "As for myself, I feel tops, my endurance seems unlimited, I am able to be on the ball 12 to 15 hours each and every day; I have not had a sick moment during the past year. And, so far as I can evaluate my physical and mental condition has continued at a high peak since my auditing last November. The auditing was the greatest experience of my life, and, I regret that I did not stay long enuf to be Cleared."

THE ACADEMY OF SCIENTOLOGY

"Just left the J. Dorsey band after doing an 8 week tour with them. That's the same band I left 2 years ago to come to Washington to study Scientology. What a difference after Scientology!! This time I played lead instead of third chair. The drummer whom I roomed with two years ago completely flipped when he saw me this time. The change he saw in me completely sold him on Scientology."

This letter from Ray Winslow is just one illustration from the many letters we receive from graduates of the Academy of Scientology on how Scientology training has been a help in this business of living.

Academy training is designed to train auditors. It does, and trains them well, but it also, quite incidentally, puts them into possession of a far greater ability to LIVE.

The first professional course is called the Hubbard Certified Auditor (HCA) Course. This course requires ten weeks of intensive training, plus Extension Course work. The Hubbard Clearing Scientologist (HCS) Course provides advanced training in six weeks of class work.

FOR ALL INQUIRIES about Training and Processing, and about the other courses and lectures held by the Founding Church of Scientology, please write to the Registrar, 1812 19th Street, N.W. Washington 9, D.C. Telephone ADams 2-6296

Or, you can take an Extension course for your own interest, even if you do not plan to obtain professional training in Scientology.

The Extension Courses are carefully conducted studies of some of the basic texts of Scientology and Dianetics. You send in each lesson after completion and it is returned to you with the instructor's comments to assist your understanding of the data covered in that lesson.

The HCA Extension Course is to be taken first. The texts of this course are: (A) Dianetics: The Modern Science of Mental Health, (B) Science of Survival, (C) Advanced Procedure and Axioms, (D) Scientology: The Fundamentals of Thought.
