HOW TO LIVE THOUGH AN EXECUTIVE $2.00
by L. Ron Hubbard

Communications Manual - specifically directed toward business or organizational communications system. "Communications could be said to be the study and practice of interchanging ideas, individual to individual, individual to group, group to individual, and group to group. It has not been clearly understood in the past that the failure of a group to communicate ideas within itself results in the failure of the group, that the failure of communication between the group and its leaders results in the failure of leadership. Uniformly throughout industry and commerce, breakdowns which are blamed on poor leadership, insubordination, or general ineptness may be attributed correctly to failures of communication." (from the book)

ACC PREPARATORY MANUAL $1.25
by ACC Instructors

Good info for students planning to take an advanced course - but also -- for anybody to benefit from reading -- a valuably informative chapter on "Assists" and a very useful chapter on "Obnosis" (observing the obvious)

SCIENTOLOGY 8-80 $1.25
by L. Ron Hubbard

The Discovery and Increase of Life Energy. "Technique 8-80 is a specialized form of Scientology. It is, specifically, the electronics of human thought and beingness. It is basic in answering the riddles of life and its goals in the MEST universe.

"The goal is survival. The means to survival for life is the handling and use of energy.

"The "8-8" stands for "infinity-infinity" upright, the "0" represents the static, theta." (from the book)

To know more about the mainfestations of energy as applied to Life, read SCIENTOLOGY 8-80 by L. Ron Hubbard.

NEWS NEWS NEWS

by L. RON HUBBARD

We are suddenly ahead of all known Mest Universe weapons!

I have discovered the common denominator of all cases from "able to talk Intelligibly" to Release. This was our most difficult case band. They can now be processed rapidly.

I can now define and you can test RELEASE exactly.

Twenty-four hours before the first course of briefing started at Saint Hill I received the test case results demonstrating that the above facts are true. This is on the 11th Anniversary of the first copy printed of Book One.

This breakthrough ranks with SOP Goals, which it does not change. It means however that you make every one you audit a Release before you begin SOP Goals.

Get your house in order and get your own part of this job on the way.

We can resolve any and all problems of Earth or this universe without any liability to ourselves.

Every promise ever made for Dianetics and Scientology is about to come true.

Thank you for staying on the team.

CCHs and Routine 1

by L. RON HUBBARD

The criteria on Routine 1 is as follows:

All cases that have had no significant or rapid change over long periods of auditing shall be run on Routine 1, HCO Bulletin of June 5, 1961, regardless of graph, Meter behavior or objections.

This applies to over half the Scientologists in the world.

So get over the idea the CCHs are for nuts. And get over diffidence in having them run or being run on them.

Routine 1, Routine 2 and Routine 3, HCO Bulletin of June 5, 1961, each one will make Releases. Routines 1, 2, and 3 are choices made for speed. One is faster than another for different pcs. Some pcs Release faster on Routine 1 than 2 or 3.

Any case could be run on any one of these routines, from any level, and still make it. The question is "How fast?" One chooses the routine in the interest of greatest effectiveness in the least time.

Having attained release, a person then goes to Routine 3 inevitably.

Time economy is our criteria. Not necessarily case level.

So keep your "pride" or be run on Routines 2 or 3 to Release at ten times the auditing time - or attain release via Routine 1, if it's for you, in one tenth the time.

The D of P may refuse to further audit any pc who:

1. Refuses to be run on the process ordered, or:

2. Refuses to take a Joburg, or:

3. Who refuses to abide by the regulations of HGCs regarding alcohol, eating, sleeping, etc.

I don't want any super-defensive valence getting in people's road in clearing. CCHs, the degradation of being audited on, compares to the little boy refusing food because it might make him live.

HCO INFORMATION LETTER OF JUNE 7, 1961

MORE NEWS OF CLEAR KENNEDY

The following personal letter form my friend Paul Van Niekirk in Johannesburg is not authorised for my publication by him, but you have been asking so many questions about how Clears operate that I feel that I should pass along this excerpt about Jean Kennedy who was cleared by Joy Ollemans on the 3rd South African ACC run by Mary Sue and Peter Williams. The John mentioned is her husband John Kennedy who himself made the first clear in Southern Rhodesia.

"We went to the Airport to meet Jean Kennedy from Bulawayo yesterday. What a wonderful success story she has to tell. I tried to read between the lines and find out what the reasons for their tremendous success are. Here is how they work - John runs a rip snorting P.E. He is as overt as Hell and won't have any nonsense from anybody. If people want auditing they must first do a month on co-audit. He won't have people on co-audit for less than a month. During this month they have to read Dianetics and do a sort of oral extension course. John and Jean have question evenings when they give coffee and cookies and answer any questions about Scientology. These are only open to P.C.s and co-audit teams. After a month of this their "raw meat" isn't so raw any more and can now have straight auditing. This is all very straightforward and simple - anybody could do it, well almost anybody. What I did pick up that Jean just mentioned in passing is the way they handle your bulletins when they get them.

"As soon as a bulletin arrives they both study it carefully - discuss it at length and then sit down and T.R. each other on it. Their success shows that they are following instructions to the letter. Example - when they got your bulletin mentioning Hartrampff's Vocabulary, they went out and got a copy at once.

"They check each others assessments on every P.C. lengthily and don't run anything until they agree that the assessment is correct. They both know which side of the E-Meter is up, they respect you, they are Scientologists, they have goals - so they are making £1200 per month, they sold £100 worth of books last week, they add up to one Helluva big win.

Paul"

ACT 1. SCENE 1:
ENTER AN AUDITOR, CARRYING AN E METER

I would like to descend with my E meter into literature
And find the right confront process for Lady Chatterley
And run Macbeth on overt/withold on Banquo.

I would like to descend with my E meter into history
And run Brutus on:
How could you help Caesar?
How could Caesar help you?

I would like to descend with my E meter into music
And run Schoenberg on:
What have you done to a note?
What have you witheld from a note?

E meter in hand I would like to descend into painting
And discover whether the Mona Lisa was covertly hostile.

But most of all I would like to descend with my E meter into
The real world of now
And clear some of these able people with rough cases.

The Problems of Work

by L. Ron Hubbard

"Here is a book that does what you don't expect a book to do. It tells you HOW. It tells you the basis of things, and the most basic of things is life itself. This, then is a book about life.

WORK is a very important part of LIVING. It is practical and it is necessary. It is not just something that happens automatically whether people do something or don't do something.

We have here SCIENTOLOGY. Broadly, Scientology is the science, the understanding and know-how of LIFE. The word Scientology means KNOWING HOW TO KNOW. It means knowing how to know answers."
