WHAT WE EXPECT OF A SCIENTOLOGIST

BY L. RON HUBBARD

We inherited, when we began, a great many hidden errors in the society, so deeply laid they seemed right. "Everybody knows that..." is a tombstone of progress for it contains uninspected lies that bring the wittiest of us to grief. "Everybody knows that Man is Evil" was only one of the many things we found wrong, exposed and dropped from our own knowledge.

However, in the field of what is expected of a Scientologist, we have for ten years carried along an inherited error. It is this: "Everybody knows that a specialist in a science hangs out a shingle and, if a professional, becomes a private practitioner."

Now, listen. Psycho-analysis was developed in 1894 by Sigmund Freud. Everybody who studied it was expected to hang out a shingle and start practising. It took half a century for psycho-analysis to become generally known by the people. Yet how could it miss? It's tenet was that if you were sexually uninhibited you would be happy.

The psycho-analyst took his cue from the medico of his day. If you could heal you were a healer with a shingle.

Well, I'm afraid a lot of us have bought this too. If we were trained in Scientology as a professional we should hang out our shingle as a practitioner. With all due respect to the Scientologists in professional practice (where they have every right to be) this is not a true idea. It is a borrowed idea. It's as old as the witch doctor.

A Scientologist is the being three feet behind society's head. And society runs on eight dynamics, not in a sick-room. Some of us, of course, would become professional practitioners. But a professional Scientologist is one who expertly uses Scientology on any area or level of the society.

A housewife who does not have professional level skill in Scientology could not expect to run a wholly successful family or keep order in her neighborhood and keep her family well. A factory foreman could not possibly handle his crews with full effectiveness without professional Scientology skill. The personal assistant to a corporation executive could not do a fully effective job without being a professional Scientologist. A corporation president without a certificate will someday fail. And the head of a country would go to pieces if he didn't know Scientology from a pro angle.

How can these people handle life if they have no expert knowledge of how to handle life?

Now we don't expect everyone in the world to become a trained auditor. But we expect the people who are making the world to have a knowledge of how to make it go.

A trained Scientologist is not a doctor. He is someone with special knowledge in the handling of life.

We have many, many personal success stories in Scientology. They begin with a book acquaintance and bloom when prefessional skill enters the background. These people, small people, big people, drove a wedge for themselves into companies, societies, with Scientology and then took over control of the area. They succeeded where they never would have dreamed they could. And every time one of us drives in such a wedge, we all win because the world is brought nearer to a sane and decent world.

The factories, the marts of trade, the homes, the neighborhoods, these are the places we want trained Scientologists. In that way alone we're on the busy, still healthy communication lines of the world.

Some of us need to run Centers and schools just to give the rest of us service when required. Training at a pro level must continue and must be kept good. And service and communication must be given. Hence, we have Central Organizations on every continent and HCOs. But if we avoid the throbbing comm lines of the world and act like doctors, we will not win soon enough as a group.

Any trained Scientologist can win to success in society. Heightened I.Q., a knowledge of life, a forthright attitude - with these things it is easy for him or her to improve a social or business position, to get higher pay, to exert wider personal influence. This we know we can do, we have done it so often, so let's improve the ability.

Process people week-ends, run a co-audit some evenings of the week at home, but get on the active lines of the world and make your presence felt.

It takes full training to do it. It's been done from our books alone but not always well. It takes tough Academy training to make a Scientologist, so don't go at it half armed.

And stop feeling apologetic because you are not a "full time auditor". We are the auditors to the world, not to a handfull of the sick.

We are not doctors. We are the world's trouble shooters. When we make a company win, the whole world wins; when we make a neighborhood win, we all win.

A full time Scientologist makes life better wherever he is. And that is enough pro activity for anyone.

What do we expect of you? To become the best Scientologist that can be and to get on the comm lines of the world and bring a big win where it counts. We don't expect you to hang up a shingle as a doctor and have a private practice. We'll respect you if you do. But we'll respect you just as much and even more if you get

trained as a pro and go out and up in the world of action and of life.

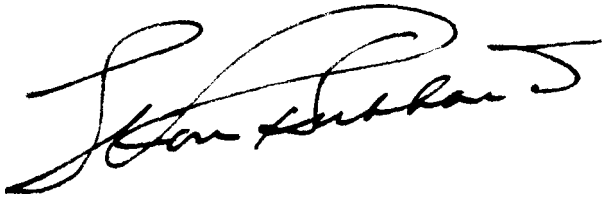

Hit for the key spots by whatever means, the head of the woman's club, the personnel director of a company, the leader of a good orchestra, the president's secretary, the advisor of a trade union - any key spot. Make a good sound living at it, drive a good car, but get your job done, handle and better the people you meet and bring about a better earth.

And stop feeling hangdog because you "aren't auditing full time". Nobody expects you to.

We'll keep Centers going to service your needs, some of us, we'll provide ammunition and books. And the rest of us had better invade every activity there is on a high level of success and make our influence felt on the comm lines of the world.

Scientology is the only game on Earth where everybody wins.

So let's help the world win.

RELIGIOUS PHILOSOPHY AND RELIGIOUS PRACTICE

Religious practice implies ritual, faith-in, doctrine based on a catechism and a creed.

Religious philosophy implies study of spiritual manifestations; research on the nature of the spirit and study on the relationship of the spirit to the body; exercises devoted to the rehabilitation of abilities in a spirit.

Scientology is ever a philosophical religion, it is not a practice save in the most limited sense (the Church of Scientology conducts basic services of a ritual nature, such as Christenings, Weddings and Funerals.)

Scientology does not conflict with religious practices, it clarifies them and brings understanding.

Scientology numbers amongst its people members of all religious faiths, including many priests, bishops and other ordained communicants of the major faiths.

Scientology's closest spiritual ties with any religious practice are with Orthodox (Hinayana) Buddhism, but even here the relationship is based on friendship rather than any organizational ties.

The ACADEMY OF SCIENTOLOGY is the training ground for those who, already able, wish to increase their abilities and expand their sphere of influence.

In the Academy you can train to become a professional Scientologist via the Hubbard Certified Auditor's Course. You will learn about people and life and how to handle both. You will gain tremendous confidence in yourself and can become a leader. It is easier to be one of the herd and an Auditor carries great responsibility. This training is not for the faint hearted but it is a challenge to all who are able and all who will to do something about the many and varied undesirable aspects of life.

If you wish to be more able to understand and handle people and life without becoming a professional Scientologist, the course for you is the Hubbard Practical Scientologist's Course. You can use your training in your ordinary living without being a professional auditor.

The HPS Course is an eight-week course; the HCA course requires three or four or more months of exacting work for the individual student to gain sufficient proficiency for course completion and certification.

The Consultants and Registrars and the Director of Training are interested in you and are ready to answer your questions and help you with your problems. Write, phone or come in to see them. This help is freely available to you - we want you to use it.

OLOGY ARE TRAINING AND PROCESSING.

Time is short, and in the brief span of our present lifetime there is much to do. Why delay? Why put off getting the most you can out of life till another day, when there may not be another day in which to do it?

In Scientology you can find your way back to the original YOU. You can regain lost abilities and improve those you already have. All the dreams and hopes and wishes you have ever had can be made real. You can do it. Nothing is hopeless, you are a potentially good and powerful being. Why be content with less? We can Clear you and you can create your own Utopia. There is a glorious future for every member of the human race, but you have to make it, by your actions from day to day. Do not wait any longer, make plans and get started on your processing now - seek for yourselves for time is short.

The HUBBARD GUIDANCE CENTER is your fastest and most direct route to Clear. See the Registrars and put into operation your future plans for yourself. If you have troubles and problems the HGC is the place to bring them. A solution to every one of your difficulties lies within yourself. Let us help you to really find your potential abilities and put them to use.

You do not have to be less than you are - but the decision is yours.

Scientology and Scientologists are not revolutionaries They are evolutionaries. They do not stand for overthrow. They stand for the improvement of what we have.

Scientology is not political. When the fires of ideology threaten to consume us all, it is time to forget politics and seek reason.

The mission of Scientology is not conquest - it is civilization. It is a war upon stupidity, the stupidity that leads us toward the last war of all.

Change no man's religion, change no man's politics, interrupt the sovereignty of no nation. Instead teach man to use what he has and what he knows to the factual creation, within any political reference, a civilization on Earth for the first time.
