A Prophesy From California!

Predictions For California

It could be said that in 1950 Dianetics hit California and California responded enthusiastically - which would be the understatement of this century. The response was better described as hysterical.

Ron once said something to the effect that a Thetan is like someone who has been locked up in a cell for trillions and trillions of years. He has given up all hope of ever getting out. He has passed below despondency on it, and is sitting in a total apathy about it. Then one day, someone comes along and rattles the key to the cell door. The Thetan's hopes, which had long been dead, revive and resurge. The key did rattle, and there is again hope. At this point you will find there, one frantic Thetan, frantic for the key to rattle again, for the door to be opened.

Well, the key rattled in California in 1950, and the response was frantic, but tremendous. Groups formed all over, each one containing hundreds of people. The Shrine Auditorium filled to overflow when Ron talked there. Over 200 people took the first Course given in Los Angeles. People came in demanding processing for any price. But trained auditors were few, organization was unstable and undermined, and chaos was rampant California staggered under the onslaught of an avalanche.

In spite of this, the key had been rattled, and has continued to rattle since then, and Californians have continued to respond with verve and high hope, and a determination to get the door opened.

Today finds California with more trained auditors in it by far than any other state in the Union.

4 A PROPHESY

When the Saint Hill Special Briefing Course started in 1961, Californians, recognizing its tremendous value, trekked to the green hills of Sussex, to Saint Hill. Today California is in the fortuitous position of having more Saint Hill graduates than any other state in the Union.

In 1957 a Central Organization was formed in California headed by Julia and Ken Salmen. So California is the first state to have its own Central Org., as a matter of fact it has a long head start over any other state. California now has additionally one City Office - San Diego.

With Ron's recent discovery of Implanted Goals, and the exactness of how to run them out, the key is, at this writing TURNING IN THE LOCK!

So what do I predict for California? I think that California learned a hard lesson in 1950, when there was a lot of hope and not enough auditors. I think that California learned that the answer to the future was getting people trained to audit. If you want to get clear, if you want that door to be opened, and there is no one to audit you, obviously the answer is to get someone trained to audit so they can audit you, and you trained to audit so you can audit someone else. So I predict that more and more Californians will get training, that more and more Californians will pour into and out

For 2500 years man has sought the state of "CLEAR". This state is now attainable for the first time in Man's history. The goal of Mystics and Occult Science has been attained. It can be done for you.

To Canadian Scientologists

Do you feel bad when you look at the list of Scientology organizations around the world? I do. Some time ago I wrote to Dr. L. Ron Hubbard and told him how badly I felt.

"Why can't Canada have a H.A.S.I.?", I asked.

His answer was: "You are a Canadian, why can't it?"

Last December I made a trip to Washington where I discussed this with Rev. John Fudge and some of my fellow Canadians who were in Washington at the time. They were all in favor!

Since then things have been stirring. We have plans! Rev. John Farrell and his lovely wife Tuc visited Toronto in April and were interviewed on some of the local radio shows.

I strongly feel it is past time that we Canadian Scientologists stood up to be counted!

If you are willing to help spread Scientology in Canada and to form a H.A.S.I. here, please write me, telling me a little about yourself and in what way you would be willing to help. I will get in touch with you and keep you informed as to what is going on and how you can help.

A PROPHESY

of Saint Hill, that with the ever increasing quantities of auditors, and ever improving quality of auditing, that Californians will be clearing in ever greater numbers, - probably first of all the Saint Hill graduates, who can exchange high quality auditing with each other, and then under their supervision, the staffs of the organizations and centers, auditors who work under Saint Hill graduates' supervision, then the people who continue in the co-audits under Saint Hill graduates' supervision, and of course, and in some cases first of all, the individual pre-clears who take intensive processing.

To implement this I predict that California will have more City Offices come into being, more centers open up, and the demand for auditors will grow and California will respond by getting more people trained.

A PROPHESY

The key rattled hard in California in 1950 and since then, and I think Californians have a determination to get that door opened. I predict that we will! And that clearing will be as widespread as hysteria and chaos was in 1950. No, more widespread-some people in this state didn't get into Dianetics in 1950.

The Confessional Aid

by
L. RON HUBBARD

All religions seek truth. Freedom of the spirit is only to be found on the road to Truth. Sin is composed, according to Scientology, of Lies and hidden actions and is therefore Untruth.

The Electrometer is used to disclose truth to the individual who is being processed and thus free him spiritually. Only in this way can Man's spiritual self be regained.

A religious confessional fails only when not guided by a modern instrument such as the Electrometer. Religion in the 1960's use modern aids. The Electrometer is a valid religious instrument used in Confessionals...

Regardless of any earlier uses of psychogalvanometers in .. early Scientology publications when research was in progress, the Electrometer in Scientology today has no other use than as directed above.

L. Ron Hubbard

From HCO Policy Letter of Oct. 29, 1962, Edited by A. James

Clears Must Be Trained

It is standard knowledge that a one-goal Clear is a very capable person.

A two-goal Clear is a human dynamo.

It should also be recognized that though they have these capabilities they are not, unless trained as an HPA/HCA trained, educated and are therefore incapable of utilising this released action and ability to the greatest good of the greatest number of dynamics.

An untrained Clear can, through non-education, become a severe embarrassment not through bad intention but solely because he wants to get something done. He wants to help but doesn't know how.

It therefore becomes mandatory that as soon as the first goal has gone to a free needle and been checked out fully by a Class IV Auditor as a lst-goal Clear, the individual must receive and complete training of HPA/HCA level BEFORE proceeding any further with auditing on his own case.

8 THE ACADEMY OF SCIETOLOGY TODAY

The Academy today has one major purpose ;

TO TRAIN THE BEST AUDITORS IN THE WORLD.

It is accomplishing that purpose. When a student has graduated he or she can audit well. Here at the Founding Church, we are proud to have them on staff.

The process of training an HCA is not easy. It is even less easy for the student. It is a road strewn with pitfalls, heartbreaks, losses, confusions, rages and much stupidity. Were one to see only these things, all to obvious to the student at the time, one might well ask: "What for?"

There is another side to the coin. That is the joy and poise that comes to the student when he or she FINALLY has a complete certainty of ability to audit a pre-clear, to audit with comfort and to give the pre-clear a real win per unit of auditing time. This is an achievement in which to take pride.

Auditing is a new skill in the Universe. There are no precedents of consequence. The student is conscious of this in training. He or she knows very well that this training cannot be synthesized, gotten out of books, faked or dubbed-in. Also, the student knows there are no historical examples to draw from nor venerable traditions on which to fall back. The student is in a somewhat similiar position to the astronauts of our day: these adventure into realms unknown, each one truly a pioneer in his own right. So it is with the student auditor, but with a difference - the technology of training is a near-perfect thing, nailed down and programmed with great precision. So the student of Scientology is not called on to figure out the "how" of training or to trouble-shoot the technology, unlike our astronauts. In this the student is fortunate. That work has been done for the student by L. Ron Hubbard and his staff.

To be an auditor is a brave and courageous thing. The savage brutality and senselessness of the Reactive Mind is something Man as a whole has shyed away from in the past. This is also true of Man today. One need only examine the "communication" of one's fellows to see this. Rarely if ever does one person pry into another's consciousness deeper than trivia, accepted routine,

pat answers and what we call, in Scientology, social circuitry. It is said to be "impolite" to do so. This is just another way of saying "there must be an excuse to justify cowardice in the face of the dreadful things that lie underneath the surface." Perhaps there is such an excuse justifiable in ordinary social interchange. Perhaps. But maybe social circuitry got there in the first place due to tacit consent ("don't you look into my mind and I won't look into yours"). Maybe Man has been held back from being little more than an intelligent chimpanzee by this very fear of the Reactive Mind.

Yet how savage and brutal IS the Reactive Mind? Or is it really a weak thing, putting on a show and pretending to be much more than it is?

The Truth is that in the absence of understanding of the mechanics of the Reactive Mind, it is certainly a formidable opponent and a thing not to be tampered with lightly. What did it take to achieve that understanding? Courage, patience, endless patience and the intelligence and honesty to say what was observed is what was observed. That is how it was done, that is how it could have been done. Had the great geniuses of the past spent as much time and courage seeking the answers to the Mind and the Spirit as they spent on the development of dynamite, gunpowder and other non-survival products, it is possible and indeed probable that Man would long since have been set FREE.

One Man, at least, had the right qualities and the inclination to exercise them. That has been our own and much beloved Ron. We know he had the guts, to put it bluntly, to search where others cut and run. So the job has been done, late and hurriedly, but undeniably and incontrovertibly DONE.

An auditor must have courage. Flying in the teeth of social convention, bed-time stories in childhood, the general cowardice that surrounds him or her, the auditor must have the courage to confront and handle this dreadful thing, the REACTIVE MIND.

The Academy gives the student the needed tools with which to perfect his or her skill as an auditor. This is the technology of training. That technology is excellent, the communication of it by the instructors first-class.

But it is the student who must add the needed ingredient of Courage. Without it the student will get noplace and indeed, should never embark on training at all. Better to go to the HGC and get audited to a higher confront level, first.

The Academy is no rest-cure, nor a vacation. It is hard, tough and often unpleasant.

But for those who have courage - the rewards are great indeed. Pride of achievement, the happiness that comes of genuinely aiding a fellow Spirit, the confidence and certainty of being able to handle Life with skill - nobody can beat these.

The graduate HCA is a SCIENTOLOGIST. A Scientologist is one who has the key to Infinity in his hip-pocket.

That is really worth everything demanded of the HCA student and then some.

Care to join up?

No barriers of race, creed, color, nationality, age, sex or whatever stand in the way.

Just one thing is needed: COURAGE TO KEEP ON THROUGH NO MATTER WHAT.

You have got that. Oh, yes.

Senior Organization Secretary, U.S.

PREFACE TO THE GOLDEN DAWN - (an invitation to freedom)

The Church of Scientology was founded in Phoenix, Arizona in 1954. One of the first actions of the Church of Scientology was to issue an invitation to freedom to all of the citizens of the city of Phoenix. A new presentation of this article and invitation is reprinted on the following pages because this invitation is in reality a 'standing invitation' and not at all altered in intent or reach.

The Founding Church Of Scientology in Washington, D.C. is the Mother Church of Scientology and so is rightfully entitled, The Founding Church Of Scientology, World Wide. The 'invitation to freedom' is extended by The Founding Church Of Scientology, World Wide, in comprehension of this, and so should be taken to be in fact, an invitation by any of the branches of the Mother Church in the United States, Canada, or elsewhere as represented by the Hubbard Association Of Scientologists, International.

The Golden Dawn

AN INVITATION TO FREEDOM

For countless ages a goal of religion has been the salvage of the human soul.

Man has tried by many practices to find the pathway to salvation.

He has held the imperishable hope that someday in some way he would be free.

Man has spoken of the second coming of Christ and of the Judgement day.

America has kept wide the doorway for this salvation by retaining religious freedom.

And here, after these ages of grief and suffering, through terrible wars and catastrophe, the hope still lives - and with that hope, accomplishment.

Man can save his soul. Like the bright cool dawn after a night of prison and of thunder, Man can taste that freedom sought so long. There are those who will say that only after a lifetime of sacrifice and good doing can the soul be free - that God demands conditions in the freedom and that some have the power of making Mankind slaves.

But these things too have answers. And all we tell you now is that we can be free.

Many can be free in a few days. The souls of some can be saved in hours. Those deeply steeped in materialism can be salvaged in months or years.

As Christ said, the innocent can first be saved. In a little time, in minutes, the child can be saved. But the rich and the mighty, the enslaver and destroyer would lag behind for years - but they too can be saved.

If the Christian in Rome had been given this news, that his salvation was imminent, he would have believed and rejoiced. But this is not Rome and Christ is two thousand years crucified - a long time - a time to forget, to disbelieve. Today perhaps a church or "Man of God" might spit upon Christ himself if he came to call.

What you read here is factual, literally true. The salvation hoped for these past two thousand years is here. You are being told that in this paragraph. And it is true.

It has not come with blares of trumpets or the flare and flash of flame. It has come quietly into your letter box and you aren't at all sure you should believe it.

And the salvation itself is not done by sudden drama or a walk on a gleaming cloud - it is done quietly, in a chair as part of people like yourself.

And you don't have to go to Heaven or to Hell if you don't want to. You can be entirely free to go anywhere. And you can be immortal and yet have your body, your family, your friends.

We are extending to you the precious gift of freedom and immortality - factually, honestly.

You are a spirit. You are your own soul. You are not mortal. You can be free.

The arms of God are open to you. To be well, to be happy, to be free, you have only to come to one or several of our group meetings. It may be you have lived with such an appetite that you will require much more time; however that may be, freedom is yours.

You will have to pay for your freedom, but only as much as you wish, for with that sum in this material world we can make another free.

It may be you will wish to linger and help others to be free. That will require that you study and work.

We embrace all denominations, faiths and colors. We work with the believer and the unbeliever alike. Part of your freedom is your right to belong to any church. Not only do we hold your right to worship to be sacred, we may also insist you do not change your faith or leave the congregation to which you belong.

Scientology is the science of knowing how to know. The mysteries of existance lie, in Scientology, before men's eyes. The doctors of divinity trained in Scientology know how to know and they know, too, how to set you free from pain, from grief, from suffering, from the endless dispair of this veil of tears.

We will not mislead you. We have as part of the Code of the Scientologist, "3.:To refuse to accept for processing and to refuse to accept money from any person or group I feel I cannot honestly help." Scientology can free the human soul and deliver the body from pain.

Man can save his soul. We know how. If Man does not want to be saved that is a decision Man must make, each one for himself. You have been invited. You will be accepted. If you do not care to be accepted, that too is your freedom.

Heaven waits.

At least we have shut for some, the yawning jaws of Hell.
