SCIENTOLOGY

BOOKS AND TAPES

A NOTE ABOUT THE "ANATOMY OF THE HUMAN MIND CONGRESS" TAPES BY L. RON HUBBARD - HIGH FIDELITY TAPE RECORDINGS:

This set of lectues is the basic course in non professional knowledge and skills which may be used by Scientology Ministers and Franchised Auditors to teach fundamentals of Scientology to new people. It is offered generally to the public at this time. These lectures outline how to spread the knowledge of Scientology and it's fundamental truths. If you live in an isolated part of the world where you want to help your friends find out about Scientology and gain assistance where none is available (such as the iron curtain countries or isolated outposts in the world today - of which there are many and some closer to civilization that one would suspect) these lectures could make the difference between slavery and freedom for yourself and your friends. Classically simple in design, these lectures are a tool for the exacting student of Scientology, with with he may create an island of freedom of the Human Spirit in the heart of an area headed for salvery. With this set of lectures the layman may acquaint his friends with the fundamentals of Life and reverse the cycle of action where this is happening. Not all prisons have walls or slaves have chains. For many years, new systems have been discovered, taught and forwarded that lead only to these conditions. Now, you have the opportunity to set this straight, surely and simply, showing your groups that actually there does exist, a body of data which explains simply the anatomy of the spirit of man. Beginning Texts and Publications: This collection, as above, is a basic library that will serve to acquaint you with DIANETICS AND SCIENTOLOGY. The first title listed; THIS IS LIFE - is truly a beginners book. This one by Reg Sharpe is a favorite of Ron and will introduce Scientology to you or your friends easily. It is non-technical yet it explains how a technology can exist in the field of the Human Spirit and how it is, as a matter of fact, essential to a spiritual science. In an age of technological achievement such as ours, religions succumb without it. As an introduction to a new technology may be painful and sweep away many misconceptions which have been the basis of a painful life or fallicies which have been the basis of one man's ill gotten fortune, an easy book on this is a blessing and a kindness - possibly the difference between slavery and freedom in this life. We thank Reg Sharpe for this book and think that you will too!

DIANETICS, The Modern Science of Mental Health is a beginning book too. It is probably your choice for a 'second book' along with PROBLEMS OF WORK by L. RON HUBBARD. Dianetics, MSMH, as it has come to be called, has survived every attack upon Scientology and Dianetics. Millions of words have been written about it! Millions of dollars have been spent; first to commercially promote it then in an effort to destroy it! It attacks the foundations of those who would enslave man. It grinds to dust with words

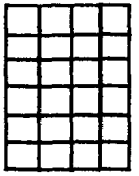

alone - the foundations of a slave state and postulates a new bridge to freedom for Man. It is the early bulwark protecting religious freedom and itself among the historical foundations as one of the basic building blocks of a space age religion. It's concern is with not 'mental health' that section of the title having been spawned in the whimsical indifference of a commercial publisher who accepted the original text from Ron; it is instead, concerned with the freedom of man and the first invitation of Ron to his fellow man to COME AND HELP TO BUILD A BETTER BRIDGE!

Do you want a better life? A future for your children? Here is the working text that will tell you how to achieve this. Probably you will not sit down and run an engram after reading it. But you will know that engrams exist. And then it will be time to look further to later researches and faster results. DIANETICS, MSMH is called "Book One" by Scientologists. It is a large (450 pages) hard cover book in a new sturdier binding. It is the first text to be discussed and studied for the EXTENSION COURSE in the ACADEMY OF SCIENTOLOGY in Washington, D.C. It is a book to change your life and give you hope. (10th American Printing)
