What Problems of Work says about Confusion:

As one looks at the many factors which might derange his life and undermine his security, the impression is, confusion seems well founded and it can be said with truth that all difficulties are fundamentally confusions. Given enough menace, enough unknown, a man ducks his head and tries to swing through it blindly. He has been overcome by confusions.

A confusion can be defined as any set of factors or circumstances which do not seem to have any immediate solution. More broadly, a confusion in this universe is RANDOM MOTION.

We have in Scientology, a certain doctrine about confusion. It is called the Doctrine of the Stable Datum.

If you saw a great many pieces of paper whirling about a room, they would look confused until you picked out one piece of paper to be the piece of paper by which everything else was in motion. In other words, a confusing motion can be understood by conceiving one thing to be motionless.

The switchboard operator receiving ten calls at once solves the confusion by labelling, correctly or incorrectly, one call as the first call to receive her attention. The confusion of ten calls all at once becomes less confusing the moment she singles out one call to be answered. The shop foreman confronted by three emergencies and an accident needs only to elect his FIRST target of attention to start the cycle of bringing about order again.

Until one selects ONE datum, ONE factor, ONE particular in a confusion of particles, the confusion continues. The ONE thing selected and used becomes the STABLE DATUM for the remainder.

SCIENTOLOGY TRAINING

Most people need or desire changes in their life. Scientology is the technology of how to change conditions. Thus, when a student is trained in Scientology he learns how to change things about himself and his environment.

The first step in Scientology training is to take the HUBBARD APPRENTICE SCIENTOLOGIST COURSE. In this course the student learns both theoretically and practically how to communicate better. He learns the need and importance of communication in Life and furthermore by way of practical drills his own communication will improve. Added to that, there is a simple homework assignment which will greatly increase his knowledge of the mind.

The whole emphasis on this course is for the student to learn how to use Scientology effectively in his or her daily life.

ALL SCIENTOLOGY SERVICES ARE AVAILABLE IN THE EVENINGS.

COME TO OUR NEXT CONGRESS!

The following pictures were taken at our very successful RELEASE CONGRESS held at the Washington Hilton on October 16th and 17th, 1965. At this Congress the Delegates heard Lectures by L. Ron Hubbard on the different types of Releases, took part in Seminars, had checks to see if they were former Releases. (A Release is a person who has been released from all those things in his past which troubled him.)

At this Congress Members learnt that it is now possible to rehabilitate a Former Release by grade (the level of process he was running at the time of Release!)

This is an entrance to the WASHINGTON HILTON where we hold our Congresses. The HILTON is very close to the D.C. Org. (app. 200 yds).

Congresses are FUN! Here are Janet Guilford and Natalie Fisher (HCO Area Secretary DC) sharing a joke. ("HCO" is the Hubbard Communications Office - the part of the organization that handles Ron's communications.)

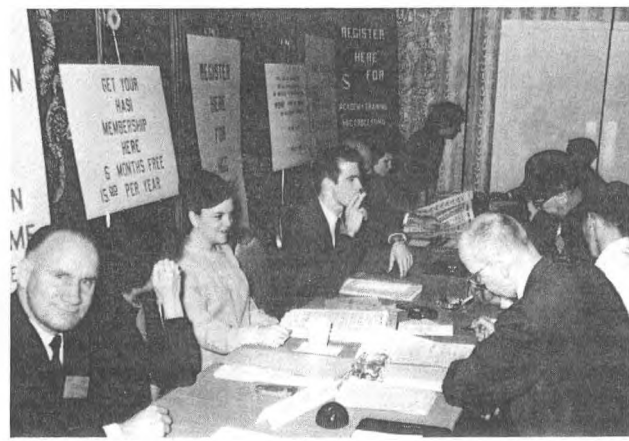

This is a SEMINAR. A Seminar clears up any word or term that was not understood in the Lectures.

At the Release Congress 33 people checked out as Former Release. Here are Frank Gardner and Jon Batson having their checks. The auditors are Esther Mangold Cl. Vll p. and David Aldrich, Cl. Vl.

Here is a picture taken on a Break. In the right foreground is Frank again, signing up for Release Rehabilitation. We will be pleased to help you with YOUR training or processing plans at the next Congress!

What Problems of Work says about Exhaustion:

Now here is a process known as "Take a Walk". This process is very easy to perform. When one feels tired on finishing his work, no matter if the thought of doing so is almost all that he can tolerate without falling through the floor, he should go out and walk around the block until he feels rested. In short he should walk around the block and look at things until he sees the things he is walking near. It does not matter how many times he walked around the block, he should walk around the block until he feels better.

In doing this it will be found that one will become a little brighter at first and then will become very much more tired. He will become sufficiently tired that he knows now that he should go to bed and have a good night's sleep. This is not the time to stop walking since he is walking through exhaustion. He is walking out his exhaustion. He is not handling the exhaustion by physical exercise. The physical exercise has always appeared to be the more important factor to people, but the exercise is relatively unimportant. The factor that is important is the unfixing of his attention from his work to the material world in which he is living.

The Hubbard Guidance Center

People have continual problems, disturbances and worries.
Is a change possible? Yes. Scientology can change you.
In the Hubbard Guidance Center one is released or freed from personal problems and disturbances.

And suddenly, this person, now a Release, feels good, has better health, higher awareness and intelligence for a better job, and more energy to live a fuller life.

Your upsets and irritations don't help you - Scientology does.

You can be Released.
