Ability

NIBS INTRODUCES "NEW TRAINING" IN WASHINGTON!!

With Dave Murray unexpectedly relieved from duties at the Academy in Washington due to private plans and with the large 4th London A.C.C. completed by Ron in Britain, training at the Academy of Religious Arts and Sciences, Washington, D.C. became the first site of the new training and processing impetus now going into effect on all continents. On hand to pilot the new Washington training program is L. Ron Hubbard, Jr., famous to the field and to professional auditors everywhere as the most experienced and most completely informed instructor in Scientology. L.R.H., Jr., ("Nibs") has just arrived from London with a complete new program for the H.C.A. and H.A.A. Academy courses. His info, straight from Ron and the 4th London A.C.C., is the summation to date of How To Audit and What To Audit and contains the data for not only training the H.C.A. and H.A.A., but the best news for students personally that students have ever had - the answers to getting the student into the kind of excellent shape that makes earlier competance in processing and in human relations.

Long considered a major problem in training has been the "case level" of the student. From London where the 4th A.C.C. handled its student cases with extreme success, Nibs brings to the H.C.A. - H.A.A. level the data and know-how of this success.

As the veteran instructor under Ron of twelve A.C.C. units from their beginning in Camden through the last Phoenix unit, it may be a surprise to some that Nibs has also taught extensively at the H.C.A. - H.A.A. level. In the past eight months in England, Nibs has trained several classes all the way thru the B.Scn, and has also worked with many classes of H.C.A. (called in England H.P.A.) students. Of B.Scn.s he has trained nearly sixty.

Assisting L. Ron Hubbard, Jr. on Academy instruction are D.Scn. Ken Barrett and B.Scn. Nadia Binhak. Ken is, of course, extremely well known to the field and to many classes of the earliest H.C.A. courses at Hubbard Professional College in Phoenix. One of the ablest, Ken is high on enthusiasm especially about the latest processes and advances in theory. His vitality and extremely fine knowledge of the whole field of Scientology from its earliest beginnings in Dianetics are becoming abundantly apparent to the present generation of H.C.A. students at the Academy. Your editor has looked in on a few of these classes in the New

Training at the Academy. There is a lot of "live" performance going on there both in classes and in student auditing sessions. Students are finding, in the new codification of processes by Ron and in the new instruction by Nibs and Ken, a practicality and sureness of auditing. These instructors have the kind of experience it takes to teach Scientology, not "authority", "personalities" or any other such mistakenness. That is the total art of teaching a subject - to teach the subject, not the teacher.

There's excitement in Washington about the new Academy program - there's a new pace - more happening, more "cogniting" going on there than ever before.

Assisting Nibs and Ken as Indoctrination Week Instructor is London trained B.Scn. Nadia Binhak, one of the nicest people we know, who has contributed her services to the Academy for several weeks now and who we can't pay because she's on a visitor's visa. We hope to change that soon, but Nadia won't let visas stand in the way of the job she loves and is doing so wonderfully. Scientologist Nadia knows that the only pay is communication, but the Academy still hopes to be able to give her some of the particle, money, soon.

The whole student co-auditing program has been streamlined and re-vamped by Nibs and Ken for the best and most thorough handling of all cases.

One feature of this essential part of all training is the assurance that when a student is auditing another student he is not pulled away from the job he is doing until he finishes up on the process or group of processes being done. This gives both students as auditors and students as preclears an immediate experience with the closest possible thing to auditing as and by a pro.

Students are finding the courses, which always kept them very busy, now are keeping them very, very, very busy! Nibs and Ken, in close touch with Ron, are setting a goal of competance and well-being for Academy graduates that is higher than ever before - this is today's progress in Scientology in action.

4th LONDON A.C.C. TAPES
USED IN H.C.A. AND H.A.A. TRAINING!

For the first time, H.C.A. and H.A.A. Courses are receiving hot off the Ampex the latest A.C.C. lectures, comprising the new Professional Instruction Standard. These tapes were released by Ron for H.C.A. - H.A.A. use because they represent a standard of processing, theory and technique, in the new S.L.P. (Six Levels of Processing) which are the full codification of many, many months of successful research by Ron and his personally trained staff and Guidance Center auditors.

Ron holds material back only as long as it is not ready, and when it is ready he shoots. There was a serious question for some time as to the possibility of releasing some of the new material which turned up and on which Ron has been working since Phoenix. We weren't sure it could be communicated to a student. The material is hot! Ron does not say there is not more information to be turned up in the future in these researches into life. He says merely that we are for-

tunate that what we now have can be communicated at all! It isn't the kind of stuff that you would serve up to a Ladies Auxiliary (not the first lecture) or the Elk's Club either. It's not for the general public until the general public gets the gradient scale of material that characterizes good dissemination of material and is the method used at the Academy and in any successful training. Indoctrination Week is a standard operating procedure for training, and a good tip for groups in the field on introducing new people to Scientology.

Bob Nichols' group program is a place where information and tips on this echelon is excellently available.

The 4th London A.C.C. tapes cannot for the above reasons be released for use in the field. They must be used in conjunction with the very best in instruction and coaching. One of the finest things an auditor anywhere can do is to conduct a Basic Teachings of Scientology course for the people in his area. This is the very best kind of communication that can be delivered to people regardless of previous training. It is working better for the H.C.A., B.Scn., H.A.A., D.Scn. now conducting such a program than anything ever used in the field. It is a MUST for the auditor building a congregation and running the "communication" ad in his local newspaper. People come to him in numbers, and people, where they get into contact with Scientology want more and they want to do something with the material they gain. Basic principle of freedom: "Let the other guy play, too."

C O - A U D I T O R ' S M A N U A L
BASIS FOR NEW PROGRAM

Now in its last stages of printing, the Co-Auditor's Manual of Scientology, a large little gold mine of basic auditing tips, processes, theory, and practicality, forms the basis for the new study programs which intersect with Communicator Bob Nichols service program and the Basic Teachings Courses given by auditors building congregations via the ad and the policy of giving Scientology away to the guy in the street.

We have a growing world community of Scientologists, and it's growing awful fast. Into this possible confusion is injected the battery of programs which are the Stable Data found in Axiom 53, and which align action. We have now people at least in the hundreds who, when you ask them as Ron did in ISSUE 16 "What are you going to do about the atom bomb", don't go into an "eternal comm-lag". They tell you what they are doing about it. One thing they are doing is making some people able.

Dianetics: The Modern Science of Mental Health was written into a world where atomic fission was yet in its early stages. Dianetics, 1955! was written in a world where bombs exist of such fury that a continent could be laid waste. S.L.P. Issue 5, now the basis of training on all continents and the Co-Auditor's Manual are released into a world whose "leaders" are discussing the mere final niceties of where to place the bombs. That we have a job to do is not greatly in question. That it should be done is not questioned by us, but surprisingly is questioned by many in "authority". That your personal use on all Dynamics of the material now

present in Scientology should weigh greatly in the direction of world sanity and the physical security of the planet around which we live is for you to question or not to question as you will. But we can state with complete confidence that the wrong thing to do in this situation is to do nothing. Whatever opinion there might be now extant about the desirability of the continuance of Earth as our playing-field, the opinion extant among Scientologists is that it is to be continued, and not only continued, but raised to a level of civilization which will take the sneer off the word culture, and a level where Man can say of his culture that it is real.

We have an advantage over the "man behind the bomb" the guy who would tell the guy who tells the guy to tell the guy behind the button to push it. We have the advantage of Man's actual intention, which is to live.

BOB NICHOLS' SERVICE PROGRAM GROWING

The immediate and prompt interest caused by the "Reverend Bob's" program for churches and congregations has started us off with a bigger mock-up on "service to services". Bob found he had such a lot of good material coming in from auditors and ministers in several continents that a publication of some sort would have to be mocked up to handle the volume of usable communication at hand. Something on the order of a Church Bulletin. Some of the material is planned to be stolen and is already stolen by Sanborn for ABILITY, but much of it is specific to congregations and for the use of ministers in the field and should go out as such.

In combination with the "Start That Practice" ad (which is "Start That Congregation" also) as given in Ron's article, Bob's program for church activities is doubly potent, and any auditor who has not written to Bob about the program is urged to do so.

One of the things that will come of Bob's program, in addition to the creation of strong activity by the Scientology ministry in the community is the completion of the plans (see ABILITY Issue 15) for "Ability Clubs", which are strictly for the kids, and are a very, very important part of any church program, though not religious but rather recreational in appearance. Of course, as in Scientology religion is not a department separate from but a department of, fun, there wouldn't be any great discrepancy there. We suggest, however, that any Scientology congreation make plans immediately for some sort of Christmas party for the kids, as have D.Scn.s, Rev. Maydole and McNown at their Church of Scientology in Hollywood. This will perhaps be found a good time to take a look at the situation in your area for the forming of an Ability Club.

We don't want to give the kids something that isn't smoothly and well organized for them, and the Ability Club idea is being mocked up with some care, with assistance and ideas welcome from anyone with special interest or success in this field. We don't know of anyone who has had a failure with children's groups. We do want the best for them, however. They are dynamic on all dynamics. The idea isn't particularly that all kids are clear, it's just that kids have a slighter degree of general restimulation, and are very, very fast, therefore, because they

travel light.

DIANETICS, SCIENTOLOGY FREE INFO PACKAGES

Something we have been finding very successful for new people is the free Information Package, which has been given to people who drop in or write us asking for information. These are usually people who have just heard of Dianetics or Scientology for the first time. Dianetics: The Modern Science of Mental Health is still selling very well all over the country, and almost every day we get one of the cards that someone has filled out asking for more info on Dianetics. The cards are addressed to the old Elizabeth, N.J. address and forwarded to us. One day recently we got six of these cards, and we seldom get less than fifteen info requests in any week.

The Dianetic Info Package has been used for a long time, with a very high average of continued interest from the people who receive them. Many of them become members, many of them go all the way in Dianetics and then Scientology.

When a member sends us the name of some new person we send them the free package. Auditors and groups tell us that this has helped. Often new people get us to send these to their friends and relatives.

Of course, there is a more or less limited supply of some of the things included in the packages, and we recently had to have a lot of the things re-printed, but you are very welcome to send us the names and addresses of people who are completely new but interested in Dianetics and Scientology. We will send off to them one of these packages. Write to Marilynn Routsong, % Scientology, Box 242, Silver Spring, Maryland.

Please let Marilynn know whether the new person is interested in Dianetics or Scientology, and if you are a minister sending in your congregation, let her know that, too, as some of the contents of the packages may be different according to these needs.

.....

AXIOM 8. THE APPARENCY OF TIME IS THE CHANGE OF POSITION OF PARTICLES IN SPACE.

.....

AXIOM 9. CHANGE IS THE PRIMARY MANIFESTATION OF TIME.

!!!!ONLY TWENTY-FIVE MORE PROCESSING DAYS 'TIL CHRISTMAS!!!!

How about getting a pre-Christmas Intensive at the Hubbard Guidance Center. Director Julia says this is one time of the year when families take a look at how they are with each other - how they get along, how they can help each other the most, how to get the greatest of A-R-C into the home. "So, why not do the most for your family morale," says Julia, "Come in and get an intensive from the Ron-trained staff at the Center - go home ready to make the kind of A-R-C that Christmas is all about!" Sometimes a whole family decides to get processing at the Center all at once. Sometimes they take turns. Either way means at this time of year a Merry Christmas and a Happy New Year!

Processes today are more and more directed to making people happy and more "sociable" to people. With all the more technical, exact terms in our Scientology, plain English can still be just as accurate, and thats why most Scientology terms are plain English or American - English words "A guy is as sane as he's sociable." Here's the goal of processing in Scientology - a goal that's being made true for people every day at the Hubbard Guidance Center.

We hope you'll write as well in advance as possible to Dr. Julia Lewis, Director, Hubbard Guidance Center, 2315 15th Street, N.W., Washington, D.C. - and if you and your family all want to come in at the same time write Julia, and she'll arrange it.

TESTS STILL AT COMPOSITOR'S

The tests we were sure would be ready for announcement in this issue are still in the hands of the compositor down town. England is waiting for the tests, auditors in the field are waiting, Julia has lots of orders for them. They are good tests, and they will be available to the field.

But we can't announce them until we get them. When you get this copy of ABILITY we should be just about mailing the next issue to you, and the next one should have the information on the American Personality Analysis, the test devised by Julia Lewis, D.Scn., Director of Processing at Hubbard Guidance Center in Washington, D.C. for use by professional auditors.

"START THAT PRACTICE" ARTICLE BY L. RON HUBBARD GETS FIELD IN ACTION

Here are a couple of quotes from auditors in the field about how the "ad idea" is working in the field. Any auditor who missed or overlooked or occluded Ron's article in Issue 14 called "Start That Practice" should dig it out and re-read it and then go to work on it. Auditors are finding IT WORKS!!!!

> I have been able to get a congregation going and it is gradually growing. The Church serves a city of about 75,000. The area from which I draw people is 250,000, so I have room for much activity. The ad in the paper which Ron suggested works. I have in one week added members to the congregation (and obtained two pc's). The main advantage of the Ad is, it enables the auditor to talk in person with the public. I have not had any person who called not go through with their problem with me. Also, the people make up people they say they "want me to talk to" for them just so they have some excuse to come and talk with someone who would make such an offer!
>
> I am, in California, operating under and with the Church of Scientology of California. This has worked out very well and we are in very good and proper order in California. I highly recommend this state church system where possible. We now have 4 churches, 1 group center and 1 guidance center with the State Church. We have 7 ministers and 9 practitioners working together in the church.
>
> Do send at once the Standard Church Service. I have been using Locational Processes on groups with amazing results.
>
> I wish very much to come to Washington, but I shall not be coming until next spring some time. Glad to hear everything is going so well with you people.
>
> H. Charles Berner
> Highgrove, Calif.

.....

> As in Washington, we are making much progress as a functioning church - services Sundays, Tuesdays and Thursdays with an attendance at each that varies from 15 to 25, and occasionally 30. Under the auspices of the church, I am offering, via considerable newspaper and radio advertising, the service of "talking to anyone, etc." Communications of course have quadrupled. Bernie McNown and I conduct class for ten students Saturday and Sunday from eleven in the morning till five in the afternoon. Every one is making exceptional, knowledgeable, gratifying progress. They are all very happy and satisfied with what they get.
>
> Reverend Chester W. Maydole
> Hollywood, California

.....

AXIOM 10. THE HIGHEST PURPOSE IN THE UNIVERSE IS THE CREATION OF AN EFFECT.

SCIENTOLOGY MINISTERS!!!

Keep in mind the now-in-production official insignia, the pure-silver "Sunburst Cross" available soon at $16.50 (including tax). It costs more than the lowest original estimate for a silver plated cross, less (by $10.50) than the original estimate we inexpertly estimated for a pure silver version. There is to be one version only, for the price announced in Ability 16. We are going to stick to the $16.50 price although the small margin "over cost" that we first set has just disappeared with a phone call from the jewellers, who discovered they made a five dollar mistake in their estimate. Completely wiped out our mark up.

Every Scientology Minister will want one of these wonderful insignias. So keep that price in mind so that you can get one of the first. A few may be ready before Christmas. Most will be ready shortly after the first of the year, '56.

-----WHERE THEY ARE-----

Nibs brought to Washington high enthusiasm about British Scientologists and Britain, and reports that the large, forty-student 4th London A.C.C. has put Scientology on a firm basis of information and practice in England. Cases are up and the auditors there are doing a wonderful job for preclears and groups all over the United Kingdom. Ron is unusually busy, if that's possible for anyone as busy as he is as a usual thing. A lot of writing is getting written, new researches and new data being developed, auditors are being continually trained by Ron whether there is a course going or between courses or after hours. Every week the New Lindsay Theatre is packed and overflowing for Ron's lecture to the public. Ron's correspondence from every part of the world is as always huge and growing. Mary Sue Hubbard, the second hardest working Scientologist in the world, is there to help Ron keep the work-load down to a fairly reasonable 28 hour a day schedule.

About his stay in London Nibs says he almost starved the first days there, and it took him a few more days to get English traffic over to the right side of the road, but then everything was fine. He liked the English everywhere he went. The British driver, says Nibs, is the most considerate you'll find anywhere, and the "Bobbies" are completely amazing. They are a police force which actually considers their job one of serving the public and its interest. Nibs highly recommends Pan-American Airways, English bacon, American cigarettes, the Grand Hotel in Vevey, Switzerland, and the friendliness and love of freedom of the people of Britain. "They really care about their freedom there," he says. "They don't take it for granted, and anyone who moves to take it away is likely to end up in trouble." It's good to have Nibs with us again, and the first thing he told us when he got off the plane in Washington was, "Boy you start to notice a lot of little things about home when you go away for a while!"...Up in New York D.Scn., D.D., Reverend Richard F. Steves is doing wonderfully with the new branch of the Founding Church - The Church of Scientology of New York - reports the Ad is alone putting him in touch with every walk of life, and New York is finding out about Scientology fast. ...H.A.A. Bill Lenardson, recent Academy grad., is tied up for the moment with a new hit play, "The Lark", which he assisted in the directing of - he has also a

part. It's the most suddenly publicized play to hit Broadway in a long time, with "Time" Magazine, a popular weekly, featuring the wonderful star of "The Lark", Julie Harris on its cover...Hollywood D.D., D.Scn. Chester Maydole is using a nice idea for ministers - have cards made up which people can carry which advise that "In case of accident or death please call Rev. Maydole, Church of Scientology, etc." Maydole and McNown are including all kinds of church activities - rummage sales, card parties, theatre parties, and "The East Side Wrestling Arena is donating a benefit for us"!!!...H.C.A. Gerald Slater, up in Detroit, just sent in a flock of renewal memberships from his groups, lots of them for 2 years, and renewed his own Professional Membership for TEN years - paid up 'till 1966!!!...D.Scn. Rick Walker not having heard about H.C.A. Gerry Slater, renewed his pro membership for FIVE years, which gets him through the fifties...D.Scn. Russ Goodwin is announcing shortly the official opening of the Church of Scientology in San Francisco with much already accomplished by Russ in group activities in the area...

THE TAPE RENTAL LIBRARY

o Low Cost

o Maximum coverage of Basics and Advanced Scientology information and processing by L. Ron Hubbard

o Rental List kept up to date for Scientology information

o Own any tape you choose, or keep exchanging.

o Excellent recording

o Hear them several times before exchanging

o Three new London Lectures by L.R.H. included:

o 5510C08 - A: Introductory Lecture with Historical Comment by L. Ron Hubbard
5510C08 - B: "The Intentions of Man"

o 5510C15 - A: "How Good You Can Get"
5510C15 - B: "The Dynamics"

o 5510C22 - A: "The Goodness of Man"
5510C22 - B: "The Soul, Good or Evil"

o Numbers one, two and three of the PUBLIC PROCESSING SERIES as listed in ABILITY Major 5 (Jefferson Memorial on cover), which have been removed from the tape rental list, will be available as a package for $50.00 (list price) in view of the sustained general interest in these tapes

o For a complete list of Rental Tapes see ABILITY Issue 16, page 7

contact your local

BASIC TEACHINGS OF SCIENTOLOGY COURSE

o For the "book auditor" or complete new comer

o Leads to certificate of Scientology Basic Auditor and Spiritual Counselor

o Part time, usually evenings and/or weekends

o Conducted by an Academy trained Auditor (H.C.A. or H.A.A.) or D.Scn.

o Lectures, question-periods, group auditing, friendly social contacts with people of high goals

o Coached Group Auditing experience

o Professionally superivsed individual co-auditing programs based on the new CO-AUDITOR'S MANUAL

o Accent on Ability in daily living

o Understanding of LIFE

o How to do the Scientology "assist" (spiritual first aid)

o Understanding of the Dynamics of Life

o How to improve family relations

o Humor relations

o Stability in the "Age of the Atom"

o Community service and Leadership

o Understanding of the Creed of the Church of Scientology

o The Code of Honor

o The Auditor's Code and Code of a Scientologist

o The NEW "Rudiments of Auditing"

o If there is not already a Basic Teachings Course in your area we will attempt to set one up. For information regarding BASIC TEACHINGS courses already in your area write:

Bob Nichols, Communicator
℅ Scientology
Box 242
Silver Spring, Maryland

NEW BARRETT CREATED

D.Scn. Ken Barrett, veteran staff H.A.S.I. auditor and instructor, is a new guy these days, and if you want to hear from someone whether the new processes work, Ken is the boy who can tell you. Audited by Hubbard Guidance Center auditor Fernando Estrada, Ken has the kind of results that make the difference between moderate and superb gains.

Well known as a very able guy, Ken is a wonderful example of Scientology making the able more able.

We don't ordinarily write about preclears in ABILITY Magazine, or at any rate give the names, but we're so pleased with Ken and auditor Fernando we felt like just mentioning it at least.

Here's a case that could audit, could do instruction with the best, yet who claimed his "own case" just wouldn't move along. No jack-hammer, no H-Bomb would move Ken's case, said Ken, until he came East and got hit with the new S.L.P. in the hands of an expert.

What Fernando did there, says Ron, was actually make an instructor of the level of performance required of modern Scientology curriculum. Students at the Academy are having a wonderful time with the "new" Barrett as H.C.A. instructor. They are cogniting all over the place about this thing called Scientology. They are getting in there and doing a job under Ken's leadership.

With people like these we go forward that much faster. We'd have to work pretty hard at losing, to lose, the way things are going in Scientology on all continents today!!

.....

AXIOM 11. THE CONSIDERATIONS RESULTING IN CONDITIONS OF EXISTENCE ARE FOUR-FOLD:

a. AS-IS-NESS is the condition of immediate creation without persistence, and is the condition of existence which exists at the moment of creation and the moment of destruction, and is different from other considerations in that it does not contain survival.

b. ALTER-IS-NESS is the consideration which introduces change, and therefore time and persistence into an AS-IS-NESS to obtain persistency.

c. IS-NESS is an apparency of existence brought about by the continuous alteration of an AS-IS-NESS. This is called, when agreed upon, Reality.

d. NOT-IS-NESS is the effort to handle IS-NESS by reducing its condition through the use of force. It is an apparency and cannot entirely vanquish an IS-NESS.

Processing at the
HUBBARD GUIDANCE CENTER
2315 15th Street, N.W.
Washington 9, D.C.

- o Staff Auditors personally trained by L. Ron Hubbard
- o Full expert psychometric and Scientometric testing before and after intensives
- o One week and three-week intensives by the finest auditors
- o L. Ron Hubbard, Consultant to the Center
- o Most advanced processes - direct from L.R.H.
- o All processing Director-supervised in daily staff auditor conferences
- o For information about processing by a Staff Auditor at The Center, write Dr. Julia Lewis, Director of Processing

ACADEMY OF RELIGIOUS ARTS AND SCIENCES

- o The world center of Scientology training to the level of H.C.A. and H.A.A.
- o All courses include the famous "Indoctrination Week"

Scientology 8-8008..... 2.50	Science of Survival..... 5.00

ABILITY BULLETIN

CONGRESS

Nov. 28, 1955 London
Bill
MATERIAL READY. GO AHEAD WITH
CONGRESS PLANS. WISH I COULD
BE THERE. BEST,

RON

With instructions to Congress Manager Bill Young to organize on schedule a Congress of Scientologists for December 28, 29, 30, 31 and the announcement that the new advanced material is ready for Congress release, Scientology Washington is busting with the excitement of a big job to be done for the dissemination of Scientology information. Information of tremendous importance to Scientology and Scientologists everywhere. Excitement that the new material to be released is ready for release at Congress time, and especially important, the new set of Group Processes recently perfected in England by Ron, using the advances in theory recently completed at the 4th A.C.C. London.

These processes are ready for your Congress. The tapes are made and being made for this event. Ron hopes very, very much that you will not take his absense from this Congress as a cue to miss it, because he'd be here if the projects in Britain were not of such importance that he cannot return in time. He wants you to have the news and the new material, and to get for your own use the advances in technique and theory that are doing wonders in England and at the Academy in Washington. He wants this material to get to you as fast as possible.

Reduced rates at this congress are expected to make it a bit easier for people to get here and get all the latest from Ron. $35.00, not $50.00, is the rate. The price breaks down as follows: non-members $35.00, $60.00 for a non-member married couple. General Members (H.A.S.I.-H.D.R.F.), $30.00, $50.00 for a married couple. Professional and Special Members $20.00, $35.00 for Professional or Special Member and wife or husband. Children under 18, $10.00.

Featured at the Congress will be special tapes from Ron - new, important, the greatest advances of Scientology yet attained. Group processing by Staff D.Scn.s, both from The Academy and The Hubbard Guidance Center. Lectures by L. Ron Hubbard, Jr., fresh from London and the 4th A.C.C; Dick Steves, who has opened the most successful Scientology field operation yet and done it in the world's toughest city, New York; D.Scn. Ken Barrett, the new Ken who is sparking the H.C.A. Course at The Academy as it has never been done before; D.Scn. Julia Lewis, Director of Processing at the Hubbard Guidance Center, who will conduct not only a before-and-after testing program for all who are interested, but also a special seminar for professional Scientologists in the administering and assessment of Aptitude tests, Scientometrics and the new American Personality Analysis, the professional test for use by auditors in the field. The Rev. Bob Nichols, Communicator for church programming and congregation building, will be on hand to talk to Scientology Ministers about their various projects.

On hand also will be all of the well-known Scientologists from all areas, so you can get together with lots and lots of people you've been wanting to see. You'll see D.Scn. Ann Sharpe of Houston, Ted and Tam Otteson of New York City, Wing and Smokey Angell of San Francisco, Dick and Jan Halpern, and Sylvan and Lois Stein all of Stamford, Connecticut, Rick Maurer, Ival Mainard, Roman and Adele Mazurek and Jerry Knowlton of Chicago, John McCormick and/or Carl and Laverne Jardine of San Diego, Evans Farber of Los Angeles, Chester Maydole and Bernie McNown of the Hollywood Church of Scientology, Jerry Slater of Detroit, Lyle Sudrow of New York, Len Hamilton of N. Wilbraham, Dale and Vonne Kathary of Newark, Ohio, Charles Berner, J. Burton Farber, Al Koazk of California, Bobby and Freddie Sutton of Dallas and Phoenix, Glenn Sisson of Colorado, and lots and lots more, people new and old in Dianetics and Scientology. Mary Adams and Nile Adams, from Kay See, Bud Eubank, etc.

CONGRESS FREE FOR ACADEMY STUDENTS

Any H.C.A. or H.A.A. Student at the Academy of Religious Arts and Sciences in Washington attends the Congress at no charge. Anyone enrolling in the Academy BEFORE Midnight of December 27, 1955 will get into the congress at no extra charge, which does <u>not</u> apply to auditors in <u>retraining</u> at the Academy.

Don't be surprised if the Academy has moved into a bigger and very handsome nearby building when you arrive in Washington. Manager Bill Young and Director of Training Nibs have got their eye on a beauty! The expanding Academy might need this new space soon! The word is getting around about the new high-level data from Ron that is the greatest yet, and our mail tells us to expect an early avalanche of students to the Academy and of people who want this new processing from Ron's hand trained D.Scn.s at the Center!

Write IMMEDIATELY your plans for coming to the Academy for training or to the Hubbard Guidance Center for professional processing by the all-D.Scn. HGC Staff Auditors. People planning intensives between now and Christmas, or immediately following the Congress will want to be <u>sure</u> of their reservation!

JULIA COACHES PRO'S FOR PROFESSIONAL PRECLEAR ASSESSMENT

For a long time now we have been wanting to arrange something whereby pro's in the field could get from Julia Lewis, Director of Processing at The Center and one of the top psychometrists in the business as well as a top auditor, a short course in the handling of all phases of psychometric and Scientometric personality assessment. Such tests are of special value to the professional auditor as they give him excellent measure of his achievement with his preclears they give him the best kind of record of progress for his case files, they give him a measure which is found to correlate valuably with his own assessment of a before and an after preclear, and occasionally the preclear desires some test evidence of his rate of improvement in conjunction with his own evaluation.

At the Congress this year we are fortunate and we are pleased to be able to offer the expertness of Julia in all these matters, and to have Julia introduce personally to auditors the brand-new American Personality Analysis. With Guidance Center D.Scn.s helping out on the tests, Dr. Lewis will also give tests worth $50.00 to all congress-goers for $10.00. We thought you might like to get these tests while in Washington and for ten dollars we will give you the tests before and after the Congress! The standard price for this service anywhere would be $50.00 or over. We thought you might get a kick out of seeing just how much, and just what kind, of change resulted from these four Congress days of data, processing and social contact with your fellow Scientologists.

DAVE MURRAY RELIEVED FROM ACADEMY POST

Dave Murray is no longer with the Academy in Washington. Surprising to many, the fact was that a conflict of interests (Dave had other personal plans) and an inefficiency as to administration and communication made necessary this change in Academy personnel. The new training standards, arising from Scientology advances in both theory and processing, were not being met with success by Academy instruction under Murray. It is well understood that the present advances codified by Ron are major, and highly demanding upon any instructor. Yet it is not thinkable that Academy instruction should await the co-operation and/or A-R-C of one individual. We intend that students at the Academy receive the best material that can be offered, and promptly and fully.

With a conflict of interests it may have been difficult for Dave to continue to advance along with the advances of the science itself. It is well known in Scientology that where one dynamic is operated to the exclusion of another all dynamics suffer. The New Training at the Academy requires eight and must have eight dynamics in operation. Thus, with changes, the Academy operates.

!!!!!!!!Very LATE FLASH EXTRA!!!!!!!!

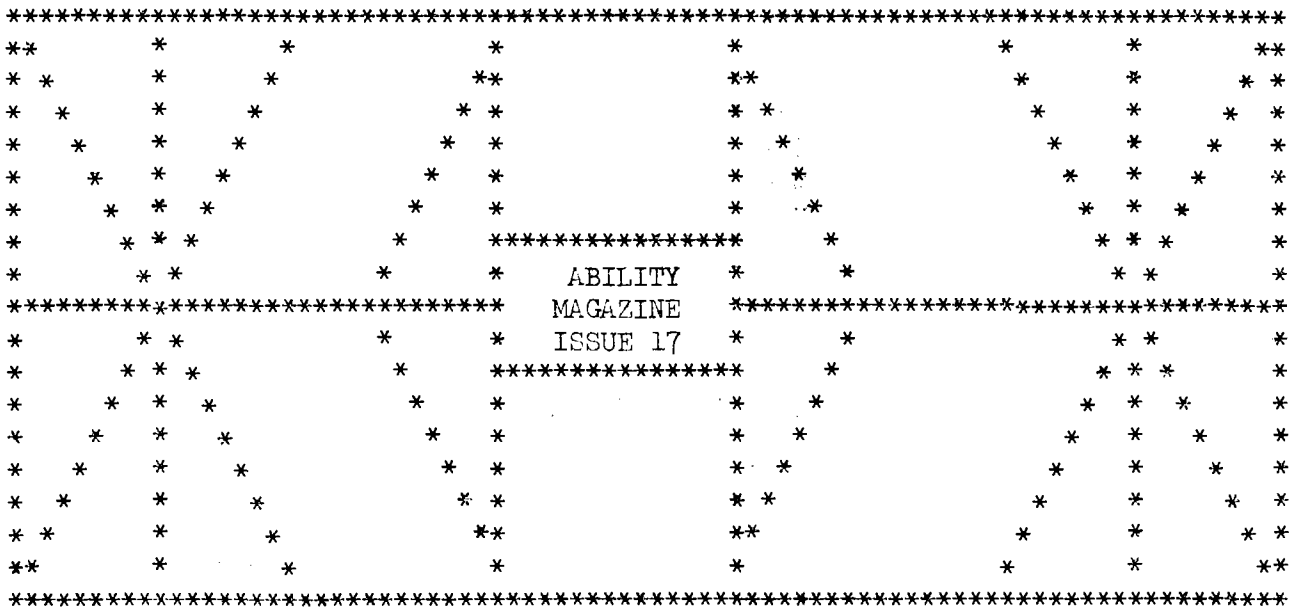

Forgot to mention the PARTY NEW YEARS EVE!!!

AND!!! Congress Manager, Bill Young, is right now negotiating for the successful Shoreham Hotel location. This is a terrific place for a Congress as anyone who attended the last one knows.

All the gang in Washington and Silver Spring are looking forward to seeing you at this important Congress!!!!!!!!

See you at the Congress AND the New Years Eve Party!!!!!!!!
