THE ANTI-SOCIAL PERSONALITY. THE ANTI-SCIENTOLOGIST.

By L. RON HUBBARD.

There are certain characteristics and mental attitudes which cause about 20% of a race to oppose violently any betterment activity or group.

Such people are known to have anti-social tendencies.

When the legal or political structure of a country becomes such as to favour such personalities in positions of trust, then all the civilizing organizations of the country become suppressed and a barbarism of criminality and economic duress ensues.

Crime and criminal acts are perpetuated by anti-social personalities. Inmates of institutions commonly trace their state back to contact with such personalities.

Thus, in the fields of government, police activities and mental health, to name a few, we see that it is important to be able to detect and isolate this personality type so as to protect society and individuals from the destructive consequences attendant upon letting such have free rein to injure others.

As they only comprise 20% of the population and as only 2½% of this 20% are truly dangerous, we see that with a very small amount of effort we could considerably better the state of society.

Well known, even stellar examples of such a personality are, of course, Napoleon and Hitler. Dillinger, Pretty Boy Floyd, Christie and other famous criminals were well known examples of the anti-social personality. But with such a cast of characters in history we neglect the less stellar examples and do not perceive that such personalities exist in current life, very common, often undetected.

When we trace the cause of a failing business, we will inevitably discover somewhere in its ranks the anti-social personality hard at work.

In families which are breaking up we commonly find one or the other of the persons involved to have such a personality.

Where life has become rough and is failing, a careful review of the area by a trained observer will detect one or more such personalities at work.

As there are 80% of us trying to get along and only 20% trying to prevent us, our lives would be much easier to live were we well informed as to the exact manifestations of such a personality. Thus we could detect it and save ourselves much failure and heartbreak.

It is important then to examine and list the attributes of the anti-social personality. Influencing as it does the daily lives of so many, it well behooves decent people to become better informed on this subject.

ATTRIBUTES

The anti-social personality has the following attributes:

1. He or she speaks only in very broad generalities. "They say . . ." "Everybody thinks . . ." "Everyone knows . . ." and such expressions are in continual use, particularly when imparting rumour. When asked "*Who* is everybody . . ." it normally turns out to be one source and from this source the anti-social person has manufactured what he or she pretends is the whole opinion of the whole society.

This is natural to them since to them all society is a large hostile generality, against the anti-social in particular.

2. Such a person deals mainly in bad news, critical or hostile remarks, invalidation and general suppression.

"Gossip" or "harbinger of evil tidings" or "rumour monger" once described such persons.

It is notable that there is no good news or complimentary remark passed on by such a person.

3. The anti-social personality alters, to worsen, communication when he or she relays a message or news. Good news is stopped and only bad news, often embellished, is passed along.

Such a person also pretends to pass on "bad news" which is in actual fact invented.

4. A characteristic, and one of the sad things about an anti-social personality, is that it does not respond to treatment or reform or psycho-therapy.

5. Surrounding such a personality we find cowed or ill associates or friends who, when not driven actually insane, are yet behaving in a crippled manner in life, failing, not succeeding.

Such people make trouble for others.

When treated or educated, the near associate of the anti-social personality has no stability of gain but promptly relapses or loses his advantages of knowledge, being under the suppressive influence of the other.

Physically treated, such associates commonly do not recover in the expected time but worsen and have poor convalescences.

It is quite useless to treat or help or train such persons so long as they remain under the influence of the anti-social connection.

The largest number of insane are insane because of such anti-social connections and do not recover easily for the same reason.

Unjustly we seldom see the anti-social personality actually in an institution. Only his "friends" and family are there.

6. The anti-social personality habitually selects the wrong target.

If a tyre is flat from driving over nails, he or she curses a companion or a non-causative source of the trouble. If the radio next door is too loud, he or she kicks the cat.

If A is the obvious cause, the anti-social personality inevitably blames B, or C or D.

7. The anti-social cannot finish a cycle of action.

Such become surrounded with incomplete projects.

8. Many anti-social persons will freely confess to the most alarming crimes when forced to do so, but will have no faintest sense of responsibility for them.

Their actions have little or nothing to do with their own volition. Things "just happened".

They have no sense of correct causation and particularly cannot feel any sense of remorse or shame therefore.

9. The anti-social personality supports only destructive groups and rages against and attacks any constructive or betterment group.

10. This type of personality approves only of destructive actions and fights against constructive or helpful actions or activities.

The artist in particular is often found as a magnet for persons with anti-social personalities who see in his art something which must be destroyed and covertly, "as a friend", proceed to try.

11. Helping others is an activity which drives the anti-social personality nearly berserk. Activities, however, which destroy in the name of help are closely supported.

12. The anti-social personality has a bad sense of property and conceives that the idea that anyone owns anything is a pretense, made up to fool people. Nothing is ever really owned.

THE BASIC REASON

The basic reason the anti-social personality behaves as he or she does lies in a hidden terror of others.

To such a person, every other being is an enemy, an enemy to be covertly or overtly destroyed.

The fixation is that survival itself depends on "keeping others down" or "keeping people ignorant".

If anyone were to promise to make others stronger or brighter, the anti-social personality suffers the utmost agony of personal danger.

They reason is that if they are in this much trouble with people around them weak or stupid, they would perish should anyone become strong or bright.

Such a person has no trust to a point of terror. This is usually masked and unrevealed.

When such a personality goes insane the world is full of Martians or the FBI and each person met is really a Martian or FBI agent.

But the bulk of such people exhibit no outward signs of insanity. They appear quite rational. They can be *very* convincing.

However, the list given above consists of things which such a personality cannot detect in himself or herself. This is so true that if you thought you found yourself in one of the above, you most certainly are not anti-social. Self-criticism is a luxury the anti-social cannot afford. They must be RIGHT because they are in continual danger in their own estimation. If you proved one WRONG, you might even send him or her into a severe illness.

Only the sane, well-balanced person tries to correct his conduct.

RELIEF

If you were to weed out of your past by proper search and discovery those anti-social persons you have known and if you then disconnected, you might experience great relief.

Similarly, if society were to recognize this personality type as a sick being as they now isolate people with smallpox, both social and economic recoveries could occur.

Things are not likely to get much better so long as 20% of the population is permitted to dominate and injure the lives and enterprise of the remaining 80%.

As majority rule is the political manner of the day, so should majority sanity express itself in our daily lives without the interference and destruction of the socially unwell.

The pity of it is, they will not permit themselves to be helped and would not respond to treatment if help were attempted.

An understanding and ability to recognize such personalities could bring a major change in society and our lives.

DIANETICS – THE MODERN SCIENCE OF MENTAL HEALTH

By L. RON HUBBARD

The Academy then Saint Hill

1. HPA (Hubbard Professional Auditor) Classification is now required for entrance to the Saint Hill Special Briefing Course. Old HCAs are still eligible for the SHSBC. HPA Class III Academy graduates have shown by their course progress statistics that with the skills learned at III they are better Briefing Course students than those with the lesser requirement.

Get your Academy training up to Class III in Washington and arrive in England ready!

2. The non-professional route to CLEAR has now as a prerequisite the Academy Dianetic Auditor's Course. Fabulous experience for any Scientology auditor, it is basic and essential for the person who goes the "Solo Route" which means: Academy Dianetic Course, HGC grades 0-IV Release, (these both in Washington) then St. Hill and V and V-A Release (Power) and into the Solo Auditing Course to learn how, and to Solo Audit to Grade VI (whole track) Release, then to the Clearing Course, and shortly there is you, CLEAR.

If you're going the non-professional route, be quick about getting here for your Dianetic Auditor's Course.

3. A Dianetic Course Scholarship can be had by anyone with an HCA, old or new. Ask about the scholarship and push this one. If you don't have your HCA yet, you still may make yourself eligible for the scholarship by enrolling for the Academy training through HCA at the same time you enroll for your Dianetic Course.

4. The Dianetic Auditor's Course tuition is $500.00 for the six week course. The scholarship gets you the course for $250.00.

5. Dianetics is the breakthrough for a person that makes auditors!

Milestone items

1. BOB MUSACK when he went to Saint Hill to check out as Clear 138 also was thoroughly trained to check out Clears. He has been appointed to Continental Clear Checker for the Eastern United States. Bob has already checked out several Clears and Clearing Course students can come to Washington for their completion of the Course. That's a big step for Scientology expansion in the United States.

2. One of Ron's successes that has not been publicized much before is the EXECUTIVE Course. Originally only used to make top Scientology Executives, the course has been opened up to the general public with tremendous success in England. British Execs taking the course have been extremely enthusiastic. They had no Scientology background previously.

The same course has now been authorized for the Washington Scientology Org. The price is $75.00. It is a beautiful course and has all of Ron's new organizational methodology in it. Just the method of study alone is worth a fortune and the organizational knowhow in this course is comparable to the technology of Scientology itself.

A field Auditor or an automobile manufacturer can have this course and should, for fast-rise success in life and business expansion. CONTACT the REGISTRAR here.

1. Rehabs and Grades.

Rehabs are the rehabilitation of success points of past auditing which have been overrun-which is to say the process or level was continued past the point where release had occurred. It is a characteristic of a person whose past auditing was overrun, not to appreciate well the fact that the release points are as good as they are, and that they are still there. Getting your grades rehabbed is a fabulous experience and you have everything then brighter and-everything possible for you.

This is the first order of business for the old timers, especially. The old timer who can be so new and shiney. Tell the REGISTRAR. Don't wait—the answer is Rehabs!

2. In April Ron reintroduced Dianetics into the training lineup, because it is the basic of all auditor knowhow. But at the same time he streamlined Dianetic procedure to the original LRH, pre-1950 style of auditing that made releases fast and made ill and aberrated humans become able and successful people. Dianetics 1966 has proven such a success that HGC has been authorized to offer Dianetic auditing. This auditing gets the sub-zero levels all free and the preclear goes then up the swift grades of Scientology Releasing like a being should.

If you're intrigued by what life would be like with engrams gone, tell the REGISTRAR, you can be scheduled by HGC NOW!

Expansion!

1. Scientology Canada is now part of the Continental Eastern US Organization. Washington is pleased and proud. HSO Toronto is now run by Clear, Fred Hare, assigned direct from Saint Hill where he had successful experience as an Executive.

2. HSO Minneapolis is expanding to new, bigger, better quarters. Address is: 3007 Nicollet Ave. Minneopolis, Minn. 55408.

3. Miami Scientology's fine Exec, Eliz Williams is now Clear. She accomplished it very quickly. She is a very experienced, successful auditor. Great things ahead for the Southeastern US.

4. The Hubbard Scientology Organization in New York City now has staff member Clears in abundance, including Execs, Bob Thomas and Eunice Ford, Page Thomas.

HSO Detroit's Beth Fordyce is Clear.
