THE OPERATING AUDITOR

We have today a circumstance that is new in the history of Man. We have at hand the solution to the increase of livingness, and the reversal of the dimming of Man's hopes and alertness to the game in which he is involved. Life is not new or old, but there can be created by Life new Affinity, new Reality, and new Communication. We have, in the Dianeticists and Scientologists of today, a group of people numbering in the thousands, who can look, who have alertness and imagination and who know what life is all about. Many of these have undertaken without special instruction the responsible task of increasing their own and others" abilities, and they have made life better around them sometimes with the help only of one or two books, or an occasional lecture. The books and lectures of L. Ron Hubbard have been used extremely well by people all over the world.

The one question that comes first with Dianeticists and Scientologists is always, "How can we do more, and do it faster?" There is an atmosphere of urgency which is different from the urgency brought about by the existence of increasingly dangerous weapons in the hands of irresponsible men. It is an urgency of people who have good news for their fellow men. It is the urgency of freedom. This is the atmosphere of training here in Phoenix. The Why of this training is very simple. People should come get trained because they are people.

It is said that there are two and a half billion human beings on Earth at this time. And it is rumored that they need processing. That's the job, and that's the game. It takes experts in human affairs, and it takes a lot of training to make an expert, one who can operate, who can produce the answers fast. and really knows where he's going.

The job doesn't have to be done, and nobody is asking Mankind whether Mankind wants it done. If we could ask every man, woman and child on the planet whether they would like to have a sane world and if we got an answer from each one we would then be processing the whole world, and the change in Man would be so great that we would almost have done the job before we started.

We have now in Phoenix an advanced course that cannot be had by any but the already well-trained auditor. The Advanced Clinical Course is at this time twelve pure gold, experienced, successful auditors. They are this when they begin the course. It's the kind of group that is in no way a problem itself. The problem is out there, and the ACC students go out Problem-slaying daily, and dragons start looking an awful pale green when one of these people turns a baleful eye on the vicinity.

We are not remotely trying to say that every Scientologist and Dianeticist should join this new ACC now. The requirements for admission are high and the student is thrown into immediate and intimate contact with the problems of an operating auditor.

Ron and Nibs (the only two who have been in all ten Clinical Units) have announced the following requirements for ACC.

1. Full knowledge and understanding of the Six Basic Processes.
2. Know the Fifty Axioms by rote, and know what they way.
3. Code of a Dianeticist and Scientologist, The Auditor's Code (1954). These must be learned as well as practiced.
4. The student must be a "Route One" auditor who can audit a preclear through Route One (in Intensive Procedure and The Creation of Human Ability) with sureness and correctness, and "without book".
5. Full understanding and ability to use the Chart of Human Evaluation. (Science of Survival).
6. Must hold a valid certificate from a recognized course to the level of HCA, HDA, or HPA.

Any who apply and who meet most of the requirements but are found to be a bit shaky at one point or another, are given a brief go in the HCA course at Hubbard Professional College, which is giving all basic training at this time.

only scientology could furnish the miracle

Recently in Phoenix, in protest against the claims of an out-of-town evangelist, the combined Churches of Christ hugely advertised a $1,000 reward for any actual evidence of miracle-working power by anyone and stated that they were committed to the proposition that all miracles ceased with the death of the last Apostle and that no miracles had occurred for eighteen centuries. This strange disavowal of any value in faith or prayer was carried, third of a page size, for almost a week.

As miracle means "wonderful" in Latin and English and as the terms of the offer were embrasive of Scientology cases, the HA SI claimed the reward on the basis in general of the hundreds of authentic miracles in its files and pointed successfully to a four year old Mexican boy in Phoenix whose arm, very withered, had been restored to size and use by five hours of processing.

Apprised of this, the Churches of Christ instantly changed their terms and conditions and demanded now a new miracle. Bored, Ron informed them he hadn't thought they would pay and forgot about it.

However, with this strange example of the ordinary phenomena of a loser taking the opposite belief, with the Churches of Christ of Phoenix publicly confessing that faith healing has no regular foundation in fact and with no other "takers" but the HASI Churches, we are left to face an interesting fact.

The only "miracle-working" agency that can prove it is the HA SI.

But quietly now -- have we just seen the beginning of the end of Christian faith? Embarked upon the dangerous proposition that only God or those through whom God works can better man, and lacking now, it confesses, evidence of any Divine intervention for eighteen centureis, Christianity, torn by many clamoring factions is opposed by an older and a newer "worship", the "worship" of wisdom, as in science, and by a new faith, the faith in self rather than a supernatural agency. Christianity has just stated and proved its lack of foundation.

But those who think religion dies because a temple falls should know that "religion", then millenia before Christ, was the worship of wisdom, not superstition. All enduring religions have been named "wisdom". And so it is again.

EAST COAST REVIVED

The First New York Congress brought life to the East. Now alive, the East is running under the competent leadership of its Advisory Board composed of D. Scn. William Young, 1826 R St. N.W., Washington 9, D.C.; D. Scn. Al Kozak, 507 Market St., Camden, 2, N.J.; D. Scn. Sylvan Stein, 429 S. Queen St., Lancaster, Penna.; D. Scn. Len Hamilton, 59 Bartlett St., North Wilbraham, Mass.; D. Scn. Richard Halpern, Roxbury Road, Stamford, Conn.; B. Scn. Lyle Sudrow, 390 First Avenue, New York, N. Y.

Dr. G. Richard Halpern is its acting Secretary. This Board was set up to facilitate communication and avoid such mishaps as the Congress advertising arriving the day the Congress started.

The attendance at the New York Congress was small but the results ran higher than ever. Sixty-seven in all turned up from eleven states, the District of Columbia, and the Union of South Africa. The Congress was held in Steinway Hall, a well established firm.

During the Congress communication amongst the Delegates rose to such a high point of enthusiasm that the local people sat up and actually took notice. More than once did local people get so curious as to come in in bunches to see what was going on. Many stayed and are now members of the local groups. One local student of psychology, about to graduate, wanted to hear "one half hour" of a lecture, which he did. The next day he brought his mother and took in the rest of the Congress. He was glad to find something that actually worked.

The Hi-Fi tapes with Ron's group processing broke case after case, The majority of those who attended are now stably exterior.

The lectures being on Communication brought the whole Congress to the startling realization that the worst thing they individually could do is "not communicate".

statistics

Scientology is now three years in Phoenix. Dianetics and Scientology now occupy eight buildings in the Phoenix area, with a regular staff of twenty-two persons. There are thirty students currently in the HPC course and twelve in the Advanced Clinical Course. There are eighteen separate HASI churches in the United States. There are 2,300 auditors in practice in the U. S. 450 in Great Britain.

scientology

"Doctor of Divinity" and "Doctor of Scientology" actually mean, from their word roots the same thing. "To Divine" means to know. "Scio" means "to know in its fullest sense". The best difference would be that Scientology is a more positive knowing. Veda, Tao, Dharma, and other such words mean the same thing as and are the forerunners of "Scientology" -- all these words mean, simply, "to know" or "knowingness". Ron points all this our in "The Creation of Human Ability" a book you had better order now that we can deliver at least the British edition. $5.00 from the HASI, 616 North 3rd Street, Phoenix, Arizona.

HERE COMES THE BOOK!!!

We took pity on those who sent in early orders for "The Creation of Human Ability" and had the London office ship them the British edition, a lovely little book. It has all the American text but is different in type and appearance. Early orderers will be getting their British copies right away.

BRING ALONG THE KIDS

(THE CHILDREN RECEIVE PROCESSING DAILY FROM 12:00 to 1:00 BY INDIVIDUAL ASSIGNED PROFESSIONALS AT NO EXTRA COST.)

Now in full swing, in a pleasant large house with a big yard which is fast being equipped with all the necessities, such as see-saws, slides, sand boxes, swings, is the Hubbard International School for Children. There's going to be a big, not-too-deep wading pool, too.

How big do you want this school for the kids to be? We in Phoenix want to see it grow into something very big. From the interest already shown from all over, we expect it to be a pretty impressive wing of the University! Here's where we really do start where we should start.

HCA, B. Scn. James Kile, Minister of the Church of Scientology, is with the kids all day, and he's having a wonderful time with them. The kids love him. Max, Jim's three year old, is right in there pitching.

Directors Marcia and Fernando Estrada, of the HASI, tell us they will accept up to $5000 in contributions toward the school at this time.

FOX PASS

In the first issue we said ABILITY combined the HDRF Bulletins and the Journal and Certainty. This was not entirely an error. It was a mistake.

"Certainty", beloved of the United Kingdom auditor yet lives on in its own ivy colored covers and will be issued once a month by the HASI, 163 Holland Park Avenue, London W. 11, for years and years. It did not pass away with a slip of our Editorial pen. It can be subscribed to for 13/6 a year, or bought for 1/ an issue. U.S.A. and Canada, $2.50 per year.

Certainty contains much valuable information from Ron's notes and experiences of many U.K. auditors. It is a masterly little volume. Scholarly. It's the thing to show people who find this paper's writings too rough.

One time we intimated that Certainty was going to be discontinued and we almost had a call from the Royal Guards and here we almost did it again.

We trust you'll let this faux pas go.

We don't include the PABs either. We don't include the Saturday Evening Post or the AMA Journal -- but give us time, give us time!

THEY WANT MORE

They want to know more about Dianetics and Scientology.

Here we've been trying to sell Dianetics and Scientology by "introducing" it for years. This isn't so good. Assume whoever you address wants to know more about it and you've done it.

Expectancy level on the part of the Dianeticist and Scientologist easily monitors what his hearer wants. Just expect that he wants to know more about it. Simple, eh?

going to process the kids ?

The HASI has tapes specially for children. Four fifteen minute sessions by Toni Savant. Be real good for fast adults, too. Toni's really a hot little auditor. She designed these sessions for ages five to twelve. We're getting good reports on these from the field. They say it really helps, and they use them over and over. Four sessions $10.00.

TOO REAL FOR HOLLYWOOD

Say, we've really got some tapes for you! And they're all ready to be shipped.

New and novel are the Staff Auditor's Conference tapes with Ron coaching the auditing staff on their auditing. The staff auditor reports and Ron gives him pointers. Frankly, we've made higher fidelity tapes because some of these auditors mumble. But Ron doesn't as you may have noticed. There's a coach-to-the-team between halves atmosphere on these tapes that's realler than real. Human lives are changing with these staccato reports and directions. The amount of drama here is a lot too real for Hollywood ever to duplicate. We'll send you three reels, six hours, of the hottest processing tips you ever got for $55.00, less discounts.

Then there are the new Group Processing tapes. These are the processes Ron runs on Wednesday nights at the Auditorium. They'd clear a stone image. Your group can use them. Six hours, again, for $55.00. Don't compare these with earlier Group Processing tapes.

ATTENTION ENGLAND!!!

There do exist and are advertised in various places activities represented as Dianetics and/or Scientology which are not. One such is a correspondence "school" in England which advertises and cannot deliver correspondence training in these sciences. What they can deliver is misrepresentation and all too often actual harm to those who mistakenly wander into their penpal company.

The HASI and the HDRF are actually the only organizations competent to license training in Dianetics and Scientology. The services of these organizations are available to any and all who are interested in the betterment of life on Earth.

Prompt as it is, the legal action which is taken against the misuse of these sciences sometimes does not reach immediately every wildcat outfit that springs out of the woods.

The address of the HASI in London is 163 Holland Park Avenue, London, W. 11.

NEWS FLASH!!! Hubbard Professional College has selected the most advanced of the students out for a stepped-up training program toward B.Scn. Those in the HCA, HDA course can now look forward to joining the faster group whenever they get up to the speed of that group. They will simply cross over into the whiz class, which means more advanced training, and with the faster company, quicker readying for independent practice as auditors, and for Advanced Advanced Training at ACC. With approximately 1.75 billion Route One preclears at present aboard Sol Three, we are going to need plenty of Route One auditors. (See THE CREATION OF HUMAN ABILITY for full info on what goes on with Route One.)

PROCESSING IN PHOENIX

If there's something you want to do about your case, if it's hanging fire, or if you just want to speed things up, then here's your opportunity! Come on to Phoenix -- put your foul weather gear in the closet and come on to Phoenix. The auditing done here by the best trained auditors in the world is getting the fastest and surest results ever achieved. The Phoenix Staff Clinic is daily and closely coached by L. Ron Hubbard in the five o'clock Auditor's Conference in Ron's office at "806". The conferences are supposed to last one hour -- we haven't had one that short yet -- usually they run double that time, because Ron is giving so much attention to each case, and so much is accomplished daily with this processing that it makes for big interest and much pow-wow. There's never been anything like it ever before. The HASI guarantees that this processing is what you've been looking for and that when you come here you get what you were looking for, or money back.

Don't WRITE for details. Pick up the phone and call Alpine 2-4420, Phoenix, Arizona, and talk it over with us by voice. We'll be glad to hear from you.

Your abilities are needed in this world NOW.

were your tapes late ?

We had to fire two people to get them to you. One of them twice! Truth was, we have just two electronics engineers and Ron had them all tied up running wires and TV cables and intercoms for the new ACC unit and the Operating Committee had trouble getting action. Also, we had a Congress and had to get out the Hi-Fi tapes for four more Congresses in various parts of the world.

But the Op. Comm. finally got the Electronics Department by the antennae and got your tapes to you at last. Now there's a tighter schedule so it won't happen again. Sorry.

OUT OF RON'S MAIL BAG

Croydon, Surrey, England:
"At present our group processing is entirely based on your communication processes and we are extremely pleased at the terrific results obtained."

Dayton, Ohio:
"We are on a level of activity that astonishes us whenever we find time to look at it.....Since we returned from the June Congress we have had tremendous improvement in our total state of being."

New York, N.Y.:
"Love that game of yours!"

London, England:
"I find that running the recent techniques really works excellently on the auditor and there's nothing like doing them to keep oneself in good shape in regard to doing, living and ability."

Queens, N.Y.:
"A simple 'hello' the key to the universe lying there all the time. I'm not too proud to use it. Seems the biggest joke to me now how long it's been under my nose."

Stamford, Conn.:
"Conference was howling success -- have never seen such change in cases in a comparable period."

Linden, Michigan:
"Although our present group is small, the interest of the members is large -- and the changes taking place in all of us are thrilling to watch and experience."

RISING SCALE PROCESSING!

Remember old (1953) Rising Scale Processing? This is the technique that was so hot in the hands of a few auditors, and for some reason not so good in the hands of some.

This process is above the level of processes which handle energy, force, pictures -- its just about tops as a process, and now we know, with the new knowledge of Communication that has been gained in the last few months, the way to use Rising Scale and to make every auditor able to run it successfully.

The study of Communication has paid off all along the line.

Get out your copy of "8-8008" by L. Ron Hubbard, and bone up on this process. If you don't have one, the HASI does, for $2.00.

The next issue of ABILITY will give you the latest on how to audit Rising Scale -- this is a ten-star process.
