a changed new world

By L. Ron Hubbard

When you entered Scientology you did so because you thought the world could stand a change. You thought that war, crime and insanity were needful of remedy. You hoped that Scientology could contain answers to these and that the answers would be effectively applied.

You have watched for five years or some fraction thereof the twist and turmoil of organizational unrest and you have participated in more than one significant advance in technique.

What you have watched and in what you have participated are the labor pains of something new born into a world of misunderstanding and unrest and which has sought to establish a foothold in an area of agreement in which it did not belong.

But you have watched and participated in definite and positive forward change -- definite and measureable progress -- and although our advances may be minute when compared to original dreams, they are vast compared to the most optimistic inroads made by earlier efforts.

The early days of development of Dianetics and Scientology found us with too many preparatory gestures to make in too many fields. To gain a new foothold in organizational procedure as well as research and dissemination required us to advance on too many fronts simultaneously which brought about an apparency of slow forward motion but when one considers how many fields were invaded, how much preparatory work was done, how much had to be learned, and how arduous was the early fight, one begins to appreciate that we have gained not an evanescent

and chimerical advance but have won a solid platform of know-how from which we can continue.

Having now started we are already well advanced toward our goals. The oddity is that the starting was the slow thing since it required that we create a platform from which to start.

Do not lose this technology you have gained. There is know-how contained here which was five years in the acquisition.

We are well advanced toward the goals we first envisioned. We have never deviated, we have never subordinated personal gain to their attainment and we will win just as certainly and inevitably as earth will again circle about the sun.

EDITORIAL: The Fourth Dynamic

DO YOU HAVE ANY PLANS?

We in the organizations of Scientology can perhaps profit by a review of and alignment of the various data which form the situation in which Man today is found. In our publications we talk about the fourth dynamic. We have found that when we discuss the threat to the dynamics posed by the atomic, etc. bombs, a large part of our audience dopes the subject, and some perhaps suppose that we talk about the bomb as a kind of promotion gimmick to make it all seem urgent. The Not-isness that surrounds this subject of survival vs the atomic bomb is thick and occlusive. Much of your best communication which you have originated toward the public and toward the membership in your continents has been lessened in effectiveness by the presence of this pervading apathy of Man in the face of a completely unapproachable threat, held by a very few over the heads of the whole fourth dynamic. If it is a Stable Datum to the general public that "nothing can be done about it by me", then there you have the mass of lies through

which must be thrust your communications. The fact is that something can be done about it. The fact is also, however, that many times in the history of many races something could have been done about it but it was not done. This could have happened here and now in our civilization, such as it is. The difference here is that we each of us know a few people who know how to do something and intend to do something. But what in the hell can you do? Well, any damn thing you do is better than nothing. Just anything.

With the intention of aligning the chaos presenting itself in the name of university bombs or whatever they call them. If a man were merely to buy radio time and get a national hook-up and devote fifteen minutes a week of pure silence to the subject of the bomb, introduced by "We will now tell you all that the heads of state are doing today to avert atomic war," - he would be doing something. If the highways of a whole nation were to be bill-boarded with a sign every ten miles which merely said, "What are you going to do about the atomic bomb," the mere force of that much comm-lag and the comment which followed would probably be enough to as-is right out of existence the whole threat.

By a Scientologist not only can something be done, something can be skillfully and effectively done about any situation TO THE DEGREE THAT HE CAN ALIGN THOUGHT, AND CAN TOLERATE UN-ALIGNED THOUGHT. There is your anatomy of the ability called determinism.

We do not fall into the notion that governments or groups of governments are handling or going to handle a broad and total survival problem to dynamic four. It happens to be of incomparable magnitude to the problems dealt with by government. Where, then, is the solution? Right there where the problem is. In the level of sanity of Man. It is very possible that Man would not have to be raised to a very great height of sanity to handle the bomb. Probably the impingement of a slightly greater degree of theta communication into the entheta now extant would do the thing we would like to do here. We are interested in the intact playing field.

The war and bomb scare is only a facet of the situation we are looking at in the world today, and it is not so very real to so very many people. Things are real to people when they relate to what they themselves are doing and trying to do. A war is always something that people do not compare or relate very much with what they are doing in life. It is way out of proportion. But the way for Man to keep from being et up is not to avoid and it is not to neglect the threat. The way to keep from being eaten up is to be TOO BIG A MOUTHFUL. That will state our goals for Man.

5,000 really good auditors could do, along with all our other programs, enough -- and fast enough, to get Man over the war ridge into something more workable, such as for instance, COMMUNICATION.

IMPORTANT EXCLUSIVE INFORMATION BEING RELEASED NEXT ISSUE ON THIS TOPIC.

ASSIGNMENT: EARTH

Scientology holds Man's fate in this mid-chaos of the 20th century with the ONLY hand of knowledge and responsibility capable of DOING SOMETHING about that

fate.

The professional auditor has a duty and responsibility, by himself chosen, and by himself enlivened, to give ALL of Scientology to Man and to work and to work and to work, teaching and processing, and causing to be processed and to be taught, the greatest number of the most able and the nearest at hand of his fellow man.

You do not wait for a future. A future is not bought at the dime store. A future is not the result of adjusting one's self to a circumstance. A FUTURE IS CREATED, yours by you and no other, Man's by Man and no other.

Your private practice is not a total answer. Your bank account is no answer at all. YOUR DYNAMICS and YOUR DOINGNESS is the answer. You must teach, and teach hard; you must audit and audit well; you must communicate and do this widely, generously and well.

LOOK at the fact that the very worst possible thing you could do today is to do NOTHING. To the degree that we DO, Man survives. To the degree that we do NOT, Man succumbs.

EVERY PROFESSIONAL AUDITOR IN THE WORLD should today be engaged in broad, intensive and thorough action along all dynamics to the effort that is the effort of Scientology to give to Man the increase of his power of choice, his dignity, his potential rightness in his own world that will mean the attainment of a civilization and sanity commensurate with the best dreams of Man - the greatest and best dreamer in the universe. Because Man has been ceasing rapidly to create his adventure Earth today is threatened with destruction.

Every auditor must TEACH; he must not only audit; he must not only speculate upon auditing; he must not let rot his talent and his technology; he must audit and he must teach and he must talk.

Start your course now, teach the people at hand, and begin with basics. Then procede with the basics and stay with the basics and teach these basics until they are known by your students. Teach them to do some auditing and keep it simple and effective. Teach them to conduct a two-way communication anywhere at any time with anyone. You can dig this material out of the books and manuals of Dianetics and Scientology. You can dig this out of the tapes of L. Ron Hubbard's lectures. You can make DATA CLEARS by teaching alone. You can create co-auditing teams out of your Basic Teachings Courses, when your students have the basics soundly and utterly thoroughly. You can group audit great numbers of such students, and you will. But you can teach great numbers, also, and you must.

In ABILITY Magazine there will be important material for you in your post as instructor. In the Ability Books, published every month, there is and will be such material. In CERTAINTY Magazine there will be material for you.

Start your courses with what you now have. Don't wait for what is to come.

To be on the phone and in the mails within the hour with your course announcement would not be a bad plan.

It is said by Communicator Bob Nichols that if an auditor doesn't have a group he doesn't know any people. And if he doesn't have a large group he doesn't know enough people.

In the job you have carved out for yourself by discovering the information of Scientology you have the backing not only of every member and every auditor in Dianetics and Scientology - you have the backing of every human being on this planet. Put this to test with COMMUNICATION - it checks.

For more communication regarding the teaching of Scientology to everyone and anyone, everywhere and anywhere you are invited to write to any of us in Washington and Silver Spring, anyone on the staff of the HASUK in Lond n, the HASI,A in Melbourne, the HASI,NZ in Auckland. Every one of us in these organizations is interested in what you are doing about teaching your subject of Scientology.

Let's hear from you. JS

western congress announced

This is an advance notice to the leading Scientologists of the West announcing the First Western Congress of Scientologists which has been arranged for March 8, 9, 10, and 11, 1956 at the Leamington Hotel, Oakland, California. "SCIENTOLOGY AND LIVING" is the theme of your Congress. Rev. L. Ron Hubbard, Jr. (Nibs) is principal speaker at the Congress.

This Western Congress will provide a fine opportunity for the establishment of personal communication lines in the great expanse of our Western United States. A personal meeting of this sort will do wonders in unifying the spirit of progress in Scientology. In addition, we shall have the latest auditing material available from L. Ron Hubbard in England which he is preparing for presentation for a London Congress in March, 1956.

The Congress Committee is composed of J. Burton Farber, Chairman, John McCormick, H. Charles Berner, Thomas C. Lovejoy, and Alfred W. Kozak, all D.Scn.s associated with the Church of Scientology of California. We are hoping that every Auditor West of the Mississippi will be present to learn of the latest concepts and ideas in auditing.

You can be of great assistance to this unification of Western Scientologists by announcing the place and dates to your organized groups and interested persons. If there is anyone that you would like to receive a personal mailing about the Congress, please send us their name and address so we may keep them notified of the latest Congress developments. Do this very shortly so that we may get the mailings out.

We will greatly appreciate any cooperation you are willing to give toward the success of this Congress, and, by the way, we have asked L. Ron Hubbard to give the opening address by transatlantic telephone from his London office. More about this later as arrangements progress. For information regarding Congress,

an organizational principle

By L. Ron Hubbard

It would seem unnecessary to point out that one in managing a business, an army or an industry, must keep in mind a certain obvious principle. In Scientology organizations, for instance, one finds fault with those persons or divisions which are not doing their job, which are not disseminating Scientology or producing income. One emphatically does not find fault with those persons, divisions or departments which are producing results, disseminating Scientology or producing the income necessary to continued progress.

It seems impossible that it is necessary to remind anyone of this principle. However, this is one of the biggest problems in any business. Some people are so anxious to make nothing of things that they take only those things which are producing and try to make nothing of them.

This principle is very overlooked in military forces for instance. Anyone during a war who tries to fight the enemy is liable to be castigated. Only those officers who do absolutely nothing are promoted. This is also pertinent to many governments and is certainly to be traced in history.

Man is rather sold on this idea of ruining all production units. We find in studying the history of governments that those rulers who had been good for a country and who brought it into levels of prosperity have lasted the shortest periods of time. The longest reigns we discover are accomplished by those who ruin everything and anybody. This is one of the reasons man is in the state he is in. He follows the idea that he should ruin all producing units and should neglect all worthless or useless or non-active things.

This is the essence of reactive action. A Thetan unwilling to or actually unable to duplicate a somethingness tries to make nothing of everything as he counts upon the environment to fix his attention and himself does not fix it by choice; when he is in a very bad state a Thetan then sees only those things which have mass and are in action and neglects those things which do not have mass and are not in action.

NEWSSTAND ABILITY

ABILITY Magazine will in the nearer future become a mass distribution medium, and we now have a book producer in the Manney Company which is coming through for us on publications. Manney is now set up to do large volume book production and can be expected to come through on ABILITY Magazines by the ton which are written well in advance, and written for the general public. ABILITY will then also be able to improve its service to the membership in addition to the broad public editions.

With Dr. William H. Young managing two operations, and with both operations growing this fast, the Founding Church, and Bill Young's own Church of Scientology of Washington, D.C., getting big in itself to handle, and with L. Ron Hubbard, Jr., having just completed three weeks of processing by top auditor Dick Morley of the Hubbard Guidance Center - one of the most fabulously successful intensives ever given - the two operations have now been expanded to meet the rate of progress we now have. Bill Young, D.D., D.Scn., Dean Scn., is now operating full time his own church. He is handling a large and successful church congregation, a professional training course - the only part time HCA training available in the area, and a full auditing program.

Moving up to this full-scale Washington activity with Bill is HCA Earl Wood, who was one of the stars of the Congress, and who has been doing a very good job at the Academy these past months. Bill and Earl have some big plans for the Washington scene.

Appointed Executive Administrator of the Founding Church of Scientology, Dr. L. Ron Hubbard, Jr. is now riding herd on the best organizational team to date in Scientology. In spite of his youth and familial connections Nibs is probably the best informed Scientologist on the continent at this time, with the Terrible Trio, Dick Steves, Ken Barrett and John Sanborn running, each one a close second in information, experience and auditing ability. Nibs is, by the hand of HGC's Dick Morley, distinguished as having one of the highest profiles on his psychometric tests to come out of anywhere. Further, he has conducted more classes in the higher levels than any other Scientologist in the world. With the above team in training, and with Dr. Julia Lewis heading a superb staff of auditors at the Hubbard Guidance Center, and with the Distribution Center going great guns in Silver Spring under D.Scn. Don Breeding's managership, there is plenty of action in Scientology, U.S.A.

ACADEMY TECHNICAL BULLETIN #3
A NEW HANDLING OF THE PROBLEM OF UNIVERSES (Part 3)

By: L. Ron Hubbard, Jr., D.Scn., D.D.
Kenneth D. Barrett, D.Scn., D.D.
Instructors at the Academy of
Religious Arts and Sciences
Washington, D.C.

In this third Technical Bulletin, we are handling only two subjects so that their importance may be properly emphasized. If you have been running this process as given in the first two Technical Bulletins, exactly as it was given, you will have found either that you have completely separated a preclear from a particular universe, or that at least you have had partial separation with many cognitions concerning the effect of this universe upon the preclear.

The first of these two items we want to handle here is the matter of invention. When you started a preclear on a most-collapsed universe, you probably found that the preclear started off with problems whereby he was being made to do certain things, or where he should act in certain ways, and similar problems where he was complete effect of the "winning valence". Occasionally you will find a preclear where the universe is so collapsed that his problems would be those of protecting the winning valence such as, "If he went out in the rain, I would be afraid that he would catch cold", or, "If she were driving along a winding road in the mountains at night, I would be terribly anxious about her safety". As the handling of this particular universe progressed, the preclear would hand you problems where he was less and less effect, and more self-determined. The preclear would be nearing the end of the process when he could be full cause in relation to the collapsed universe and at the same time, would be willing to be effect, and he would get problems that he could "let" this universe be to him.

Thus it is clear that the process could be speeded up if you use the command, "Invent a problem ------ could be to you". In fact this is the command we are now going to use, for it conveys to the preclear the goal of the process immediately. And, as he progresses with the process, and he keeps looking at the goal of the process, you are getting a double effect here with your processing, and his progress speeds up. The superior command for separating universes is now, "Invent a problem that ------ could be to you".

In giving this process to the preclear we are assuming of course, that you are at all times observing the rudiments, Communication Bridge; bringing the preclear back into session each time he drifts, maintaining

good two-way communication with A-R-C, repairing the breaks in the Auditor's Code that the preclear may have felt happened, and the other essentials of good processing as outlined in the CO-AUDITOR'S MANUAL. Be definite on the point of INVENT. The command is not merely, "Give me".

The second subject for this Bulletin is Havingness. We have apparently not given Havingness its full importance in preceding bulletins. We have held back just a little on this. Now we are going to unload. At all times, run "REPAIR AND/OR REMEDY OF HAVINGNESS" AT LEAST TWICE AS MUCH AS YOU RUN THE PROCESS. This is easy to demonstrate in that you can sit a preclear down, ask him the command for this process - two, ten, or twelve times, and then repair havingness until he's cheerful, ask him the command again once or twice, and he will get a cognition. This is more predictable than day and night.

Now, it is essential that you get the preclear quickly to the state where he can first repair, and then remedy his havingness with mockups. You will get the preclear to the point where he can remedy havingness on a specific item - when he can mock them up in sufficient quantity and eventually throw one of them away EASILY - and he gradually gets a certainty about his ability to create energy for his own use...at which time, of course, he is free from the "Scarcity problems" of the MEST universe.

Now, it is quite simple to get a preclear to "mock up a mass", "Now, shove that into yourself". It is only necessary to observe the gradient scale starting with whatever the preclear can get, whether it's black masses, or invisible masses, and through your skill as an auditor, and patience, arriving at the point where the preclear has certainty on his ability to create masses, in that his mock ups take on weight of their own. One can easily of course, at any time "repair" the havingness of the preclear either with mockups, or by having him put up something, and get the idea that it's dangerous for his body, and then that it's good for his body, and then that it's dangerous for his body, and it will snap in, or at least having him get the idea that the room is full of valuables, which will help to get him started.

On the bottom rung you have Havingness, above that Problems, and above that Games. Even though you are having him invent problems in relation to a specific universe on this process, it is necessary that you run straight "Invent a problem" to bring the preclear up to a free operating level in relation to life. On Invent a Problem, it is only necessary of course, that you get a certainty on the part of the preclear that he is first inventing a problem, and secondly that what he hands you is a problem, or could

CHILDREN

By Fernando Estrada, H.A.A.
Hubbard Guidance Center

My consideration in the past was: "The only way to handle a child is to process him."

Today it is: "When a parent or any adult has to use auditing to get along with his child or children, he is using a system or via in the place of direct communication. There is nothing wrong with children that plain old fashioned attention and understanding won't cure. Children are people."

If you want to process a child, crack open your book and start processing. If you know how to process people you can process children: their anatomies are quite similar. But if you want me to level with you, I'll tell you the real solution to child problems: that is to unstick yourself from the consideration that life is scarce, and start living with children and allowing them to live around you.

If you are convinced that this can't be done, you get some processing. If after this you are still of the opinion that you can't create life, then start processing them fromthe regular S.O.P. Manuals. They're better PCs than adults and you'll get results.

The person who is insisting that a problem exists, is the one who has the problem. Nine times out of ten, the adult saying "Johnny is a problem to me" is telling you that he (the adult) is in need of processing. If you go ask Johnny about it, he'll say "What problem?"

So come on fellows, let's get on the ball and get ourselves in shape. We have been blaming the kids long enough.

Largely as a result of having Rev. D.Scn. They are now supplied with the books, so that they can either read up on it themselves or lend the books out and then ask their customers about it. Six of the most basic books last week went out to each of the thirty leading libraries up in New York from the Distribution Center.

IMPORTANT

You are finding that people are sometimes very mollases slow about participating and among these you will find that people do not have the idea very SOLIDLY THAT THEY ARE BEING INVITED TO PARTICIPATE IN THE Scientology action. There is where your HASI MEMBERSHIPS come in. Make sure that people know what the goals and intentions of Scientology and its organizations are, and make sure they do not get an introvert but that they can extrovert on the subject to the extent that they are not being the only one, and that they do not imagine even vaguely that the promotion of Scientology is directed at them. Make sure they know that they are being invited to join in a world-wide, outward and decisive mission of sanity, comprising Man's total bid for a true civilization. GIVE THEM THE STABLE DATUM THAT SOMETHING CAN BE DONE ABOUT IT. Operating on the Stable Datum that nothing can be done about it has, because it is a morrass of lies, created a persistence and down dwindling spiral. Be sure that they become members. We do not need people, we have two and one half billion people. We do need well-informed and actively communicating people capable of aligning action and goals.

CONGRATULATIONS TO Hubbard Professional Auditor DOUGLAS H. MOON of the Melbourne, Australia HASI for a fine and continuing auditor performance in his post as Staff Scientologist to a College (High School in American Terms) there. Processing the whole school both in groups and individual sessions, Doug has, by our reports from the Principal herself, in a very short time raised the tone level to a "more laughter, less grumbling, happier singing, less fault-finding, more venturesome" way of life. Already a very fine co-educational school with an excellent staff, the school is very prompt in appreciation of what fine auditing can do for a lively little community.

It's a big Congress for California and the Western States, says our mail. People are not just planning to go, they are taking five, ten, twenty people along with them, and one auditor writes, I'm getting everyone in my area to the Congress. Big interest.

Founding his new APOSTOLIC CHURCH OF THEOLOGICAL SCIENTOLOGISTS with the first church in Hollywood and branches elsewhere (see page 16), Rev. CHESTER MAYDOLE, D.D., D.Scn. has some interesting plans, and some interesting projects already under way. A nearby wrestling arena devotes one night to the A.C.T.S. building fund. A revival is planned. Stan Kenton & Co. are interested in seeing the thing go and are lined up to do a benefit concert for the A.C.T.S. Concerts by others of the top name variety in the non-jazz field are also planned.

D.D., D.Scn. REFA POSTEL has secured the Right to Train, and will now be able to do even more for the Detroit area. We expect some fine HCA's from this direction.

New students at the Academy Dr. PAUL WYNN of Los Vegas, FRED NASH of Hollywood and JOHN HAWKS of Washington, D.C. have completed Indoctrination Week, are now right in there with the less new and the old-timers.

Some of the old-timers now refreshering at the Academy are D.D., D.Scn. MAURICE RADELL, D.D., D.Scn. LAURA WEBSTER, B.Scn. INEZ GRAF, D.D., D.Scn. ALICIA LORRAINE, VIDA DAVIS, HCA, and the most recent arrival is PHIL BENNETT, B.Scn.

Graduate of D.D., D.Scn. IVAL MAINARD'S HCA Course and fine auditor DICK FOJUT, Chicago cartoonist and designer, is to join the staff of the Distribution Center of Dianetics and Scientology, in Silver Spring, as an all-around production man: a triple-threat talent, Dick is a fine writer, artist and auditor.

CRYSTAL GULLEDGE is starting her new congregation affiliated with the Founding Church of Scientology of Washington, in Houston. Also in Houston is ANN SHARPE, whose Training, Processing and CHURCH OF SCIENTOLOGY activities are known throughout the Scientology world as being tops. Ann and Crystal between them spell good news for Houston. Ann is also giving group intensives in Dal-

las now and then. That's in Texas, which we have done some research on, and sensationally Texas did sign on as a United State. Keeping this very quiet, Texans persist in calling themselves a republic.

From Long Beach, Calif- ornia, CORINNE ELLSWORTH, B.Scn. is reporting in on terrific results on the pro- cesses which came out with The Washington Congress, and about which more will be there to be had at the West- ern Congress of Scientolo gists.

B.Scn. NADJA BINHAK, whose home is Munich, Germ- any and who, trained in London did such a nice job with helping out at the Academy on Indoctrination Week, is making good her Congress announcement - is going visiting. With CA- ROL BRYANS, D.D., D.Scn. as traveling companion, the trip leads down through Flo- rida, then through the South, the West, and back East by the northern route, with every Scientologist she can meet as her anchor points for the trip. INTENSIVES BY STAFF AUDITORS

THE THREE-WEEK INTENSIVE: Seventy - five hours of the best professional auditing, auditors coached daily by the best Director of Processing Scientology has ever had, in the HGC Staff Auditor Conference, with L. Ron Hubbard, Founder of the Center in close touch with the auditors as technical consultant. Complete before-and-after psychometric and scientometric testing. The HGC, with its own modern building in the heart of Washington, is well equipped to serve you.

THE ONE-WEEK INTENSIVE: Twenty-five hours. The one-week intensive, costing $500, is well worth much more than its price. The three week intensive at much less per week than standard rate, is worth much more than $1500, but costs only $1250.

PROFESSIONAL AUDITORS in good standing are invited to come to the Center for one week at half price ($250) or for three weeks at less than half price ($750). In response to this offer, and because of the reports of auditors who have previously taken advantage of this auditor priviledge, it is an interesting item that this week EVERY preclear in processing at the Center is a professional auditor, and it happens also that every one of these is a fine auditor. The professional auditor knows better than anyone how valuable this modern processing really is. Write for Reservations to:

HERE'S SOME GOOD NEWS FROM THE DISTRIBUTION CENTER ABOUT:

TAPES

The lectures that wowed the Washington Congress on EACH of the SIX LEVELS OF PROCESSING are going into the general distribution line, and you and your group can buy not only the Congress lectures, but an extra half hour of L. Ron Hubbard on each of the Six Levels. This makes a package of THREE TWO HOUR REELS for $50.00. Every Professional Auditor should know the material on these tapes cold, hot, and lucid. Here are elucidated the Stable Data of Scientology by L. Ron Hubbard in the material he considers the most important for auditors that has yet come to view. Out of this is being built the standard of auditing for the years to come. Recorded at the Highest Fidelity on Ampex Professional equipment. (AND don't forget the good old Rental Library which is keeping groups and individual auditors in the field all over the world well informed.) FOR THIS IMPORTANT TAPE PACKAGE: "SIX LEVELS OF MODERN AUDITING: BASIC SERIES" WRITE TO THE DISTRIBUTION CENTER ENCLOSING $50.00 (USUAL DISCOUNTS APPLY).
