Issue 32

CONGRESS LABOR DAY WEEKEND, SHOREHAM SECURED!!!

The Eighth Congress of Scientologists. Full story inside. See page 2.

L. RON HUBBARD'S PAB 88 COMPLETES SCIENTOLOGY: TRANSLATOR'S EDITION!!!

The first complete book of Scientology for the newcomer, the Basic Course Instructor and student, and for everyone in every land. See page 3.

NEW CURRICULUM HAILED IN LONDON AND WASHINGTON!!!

Training of the professional Scientologist standardized for key world centers at highest level ever attained in world education. See page 4.

INFINITY-PLUS-STABILITY KEYNOTE OF HGC PROCESSING

The Hubbard Guidance Center and the London Clinic staffed by star professionals with a technology that leaves out guess-work in ALL cases. Page 5.

SPECIAL MEMBERSHIP STOCK GOES UP: PRICE AS YET UNCHANGED

With the spectacular rise in value of the higher bracket HASI, HDRF membership caused by PABs every week from L. Ron Hubbard, more General Members are now renewing into the Special Membership than in the General Member bracket. See page 9.

ASSOCIATE MEMBERSHIP GROWING FAST!!!

Keep your eye on the Associate Membership - it's really going places. That Scientology pin and membership card is getting around!! See page 7 for the story on your own part in all this.

PERSONNEL EFFICIENCY COURSES FOR NEW YORK!!!

Originated and perfected by L. Ron in Dublin and a small corps of field auditors in the U.S. and Great Britain, the Personnel Efficiency Courses go to Gotham under Stein. See page 8.

CONGRESS DATES SET,

PLACE SECURED!!!

It's The Shoreham again, but the much larger and more ornate West Ballroom this time for the Eighth Congress of Scientologists.

The date is set to include the whole of Labor Day weekend: August 31st, September 1st, 2nd and 3rd.

This will be the largest gathering of Scientologists to date, and the reservations are already coming in.

One feature of interest, I am sure, to a lot of us is that the special summer rates of The Shoreham will be in effect, so that during your Congress trip you can stay at Washington's leading hotel for five dollars a day (singles) and ten dollars a day (doubles). Small children can stay with their parents at no extra charge, and the hotel will provide cots where needed. Baby sitting service is available also at the Shoreham and you can have a very smooth and convenient stay while at the Congress. This is good news, because the Congress keeps you very, very busy throughout the four days of the Congress and on into the morning after the final evening, when the traditional Congress Party is thrown.

The Congress will feature lectures by L. Ron Hubbard. Group processing of the famous Congress kind, giving the Congress the benefit of personal experience with the best processes, seminars led by top staff instructors and auditors of the Academy and the Hubbard Guidance Center will of course again be held.

Among the important events of the Congress will be the release of new advances in Scientology and the presentation of the new "SCIENTOLOGY: TRANSLATOR'S EDITION" by L. Ron Hubbard, as well as other new books that we cannot mention at this time but which will be mentioned very soon.

The Shoreham's West Ballroom is air condition-

ed, as is the whole establishment, but we expect anyway the traditional perfect weather of a Scientology Congress. The West Ballroom was chosen partly for its good acoustics, where the speaker can be heard directly and not only through a beautifully engineered hi-fi system.

Let Congress Manager Richard F. Steves hear from you immediately about your Congress plans. He will reserve a room or suite for you at the Shoreham, or do whatever is necessary to making your plans complete for the Congress.

Ron and Susie and all of us look forward to seeing you here August 31st.

Of all the great Congresses we have had, this Eighth Congress promises to be the greatest!

P.A.B. 88 COMPLETES

SCIENTOLOGY: TRANSLATOR'S EDITION

Here's congratulations to L. Ron Hubbard for another great book. The Translator's Edition, which has run serially in the Professional Auditor's Bulletins (every week to Professional and Special Members, from London), is concluded fittingly enough in P.A.B. 88. As soon as a few revisions are made by Ron and a tightening up of the text, which was typed fast from tape dictation and contains a few errors, the printed edition of the new book will go into immediate production right there in England under supervision of Jack Parkhouse.

The Translator's Edition is a book like there has never been before, and which has been needed for a long time. Very elementary, assuming in the reader no familiarity whatever with any part of Dianetics or Scientology or any kind of study of the mind, religion, philosophy or science, the Translator's Edition is the exact text that will be used for basic course instruction and for introducing the subject as a completeness to anyone who has not been trained. It is written in the simplest possible style and it creates Scientology as well as the whole field of the study of life independent of any other material. It has as its special feature and purpose the ease of translation from its original English to any language, and includes many aids to this task. Ron gives, for instance, wherever a term could lack a corresponding word in another language, two or three similar English words in parenthesis after the term. One of the synonyms or near synonyms will usually serve for any language attempted.

The Translator's Edition is going into a great many languages, and may very well be the only textbook for many years in some languages. Ron says that this is very probably the case with one translation that is now in progress which is going to a country of several hundred million people who, of course, could afford the few pennies necessary for the booklet, but who will probably be left without any further information of any kind. This is one of the reasons why Ron is revising the text somewhat. He wants to include into it some additional auditing information, although it is a real triumph that he has gotten the entirety of processing into two installments, PABs 87 and 88.

You'll have this book in hand quite soon. It may be at the printers at this moment.

NEW CURRICULUM HAILED IN LONDON AND WASHINGTON

The recent change and reorganization of training in London and in Washington at the HASI and the Academy was a large one, bringing to the training of professional Scientologists the culmination of all the years of experience in training since Elizabeth, New Jersey, and all the development that has taken place in the taking of Goals A, B and C as outlined in Dianetics, the Modern Science of Mental Health, on page 401 in 1950 by L. Ron Hubbard.

Duplicating each other very exactly as to both curriculum and even the day-to-day scheduling of classes and subject, HASI London and Academy Washington are having every day a field day of training. Since the fall of 1954 and the codifying of the Six Basic Processes, training has of course centered about the old Six Basics both in London and in the United States, as well as on all other continents doing training. But never has there been this complete duplication. If you walk in on Parkhouse and Dennis Stephens at the Centre in England and sign up for professional training you will get the same professional Scientologist training you will get if you walk in on Registrar Don Crandell and Director Steves at the Academy. Few subjects could probably tolerate this amount of as-ising and standardization, but it is not only tolerated by the two major Scientology terminals of Earth, it's creating enthusiasm and fast delivery of material.

Professional Scientologist training covers now completely the whole scope of DIANETICS AND SCIENTOLOGY, right straight through from the Original Thesis to the new HCA MANUAL and the latest PAB. The new HCA Manual, by the way, is brand new, and not yet even in a form ready for the printers, but is in the hands of London and Washington's Stephens and Steves direct from Ron's typewriter and hand-written "New Cuffs". The professional Scientologist and auditor is expected to be thoroughly skilled in handling the engram (yes, even birth) whether he is an old-time HDA or not. He has to know Whole Track, Route One and Black and White, as well as Six Levels of Processing and the Terrible Trio.

He has to be a teacher as well as an auditor. He has to be able to lecture, to handle crowds, and he has to understand even management and administration. He has to be able to give a course and a processing program for industrial or business personnel such as several auditors are now doing, usually called a Personnel Efficiency course. He doesn't have to think of it that way, but another thing he has to be able to do is to take over in an emergency or disaster and pull his town or country through a crisis such as an atom bombing.

Plus!! Something shockingly new has been added to the Academy curriculum. American auditor training has always been known for its stiff schedule. No extra time for anything. Now, in this day of surprises, there has been added in upon the Academy schedule a completely strange and foreign factor called LEISURE. The student, having now a tougher program of study and application, therefore gets tne necessary amount of non-sked time in which to sort himself out and get things fully understood for himself.

Of no small importance also is the big new AIR CONDITIONING system of the

Academy. We get some cool days. But we get some very hot ones too, though not to be compared with the atomic furnace of Arizona summer. It took NINE large refrigeration units to do the job, but we now have a cool Academy including offices, auditorium and auditing rooms.

Capt. Dick Steves with an excellent crew, is running a very happy and efficient Scientology ship. If you want some action and adventure and the Grand Tour, then sign aboard for the full cruise.

* * * * * *

HGC AUDITORS AN ALL-STAR TEAM

We have been looking at some of the test results and at the way things are going at the Hubbard Guidance Center. There has been not too long ago a reorganization of auditing procedure and technology, as you know if you get the Professional Auditor's Bulletins from Ron every week (all you have to do to get these great weekly PABs is to keep your Professional or Special Membership in force, or get one if you don't have one yet). Along with this stabilization and streamlining of auditing in every organizational center in the world has come an increase of interest in the kinds of changes auditors and preclears are getting now, compared with the changes we have been able to predict at various periods in the past six and one-half years.

Here's what we are finding. The new polishing and perfecting of auditing procedure and processes, carried out by Ron during his stay in England, has boosted the results of processing way up and straight across the charts and across the "case". Well known in the field the HGC All-Stars (they are: L. Ron Hubbard, Jr., Kent Maurer, Tom Reid, Bob Nichols, Elaine Nichols, J.M. (Smokey) Brand, John Fudge, Larry Michel, Ron Sheridan, and chief auditor and Director, Dr. Julia Lewis) are zooming high on the "Happiness" column themselves, because the boost has been a general one, where <u>every</u> preclear now processed and every auditor now auditing is showing strong in the changes and results they are gaining. With the superb tools now perfected in their hands, every auditor and every preclear can be sure of making very great and stable gains. Preclears coming out of the Hubbard Guidance Center are not just facing life better, they are creating and directing life, and they are very stable and efficient people.

During the past year at the centers in Washington and London a factor was being looked for by Ron. In carefully going over all the weekly reports from the two centers, including the total test results and the total resume of exactly what had been done by the auditor with each case, it was apparent to L. Ron that whereas every auditor was getting good results, some were getting consistently better results than others. And, these auditors who were getting the consistently best results were getting often the superb results that showed the latest processes to be the hottest thing we had ever had our hands on. But there was still a factor to be sought. Why did the results of a group of excellent auditors using apparently the same processes vary from auditor to auditor rather than from preclear to preclear? The factor was HAVINGNESS. That's its technical name. L. Ron discovered suddenly that his own preclears and

those generally who got there fastest had been run on havingness wherever indicated, and this of course meant that the auditor knew what the indications were of what is called a "drop in havingness". Thus they would move in and do something about it. If you have been seeing the Translator's Edition as it has come out in the PABs (meaning, if you are a Pro or Special Member) you know something about just how important this factor of havingness has been. It has revolutionized processing and even auditor procedure itself and the rudiments. It has led Ron who is never one to do things half way to go all the way through on the subject and come out with what will be seen as almost a new science as a result of this observation and study of auditor reports. (Hope you didn't think Ron ignored those Field Case Histories you sent in - he studied 'em!) In other words, Ron has gone much further than handling the factor of Havingness, and that becomes the story of research and the advance of Scientology technology. You'll be getting more on all of that in the books Ron is now writing, in SCIENTOLOGY: Translator's Edition, which he has completed, in the PABs, which go to Professional and Special Members (write Box 242, Silver Spring, Md. for membership info, and see also the ads in this issue.)

And at the earliest moment you can arrange your affairs around the time, make fastest time to the Hubbard Guidance Center, Washington, D.C. or in England to the HASI Clinic, London, and get the intensive you should have been promising yourself. And in the meantime, write, wire, phone or call on personally, Dr. Julia Lewis, Director, Hubbard Guidance Center, 2315 15th Street, NW, Washington, D.C., (phone ADams 4-8475). Get your name and approximate plans for processing to Julia now, so that she can plan the whole thing smoothly. The auditing centers are busy places. The HGC All-Stars are doing a wonderful job. Infinity (meaning unlimited gain) plus stability (power of choice) is the keynote feature of this modern processing.

PROFESSIONAL TRAINING

THE ACADEMY OF RELIGIOUS ARTS AND SCIENCES

Certification as Professional Scientologist to levels of:

Hubbard Certified Auditor.....Tuition $500.00

Hubbard Advanced Auditor. Prerequisite is good professional standing.....Tuition $285.00
Apply to Dr. Richard F. Steves, Director of Training
1812 19th Street, N.W., Washington, D.C.

PROCESSING AT HGC

Intensives by staff auditors supervised by L. Ron Hubbard and coached daily by Director Julia Lewis

Seventy-five hour Intensive. (Three weeks).....$1250.00
Twenty-five hour Intensive. (One week).....$ 500.00
Write to Director Julia Lewis, HUBBARD GUIDANCE CENTER
2315 15th Street, N.W., Washington, D.C.

ASSOCIATE MEMBERSHIP

GROWING FAST

People like Scientology. The only time you ever get any resistence to your telling someone about Scientology is when they have doubts that what you are telling them is the real thing. People don't borrow your Scientology books to find out whether they agree with Scientology or to argue with it. They don't argue with you because of not being sure they like or agree with Scientology. Know what they are doing?

They are trying to find out whether what you are calling Scientology is Scientology! So you do not have to sell Scientology. Not even to a relative. Not even to the girl friend. All you have to do is do a good job of telling.

Incidentally, the better you know your stuff, and the more you are willing to let go of it and have other people have it too, the better you will succeed not only in Scientology, but in LIFE.

Life is the stuff that Scientology is made of. Livingness. People like to live. They want to live. They intended to live, even when they look like they are trying to succumb. That is why, when a Scientologist gives a brief, simple course in Scientology even to a group of people who may not ever have heard the word Dianetics before (and there are very few of these), their before-after test results look like sheer, unadulterated magic to any testing bureau. It isn't magic, however, it's just miracles.

The Associate Membership was designed by L. Ron Hubbard in recognition of the fact that a great many people who come into some contact with Scientology and who wish to see it progress in its goals for mankind also wish that there was some small way in which they could associate themselves with this group and with these goals. Though in time they may decide to go into action with Scientology all the way, there is that period at first when they would simply like to have a small symbol of this liking for Scientology. That is the Associate Membership, the membership card and the handsome little double triangle and "S" pin.

The Associate Membership is distributed through the General, Special and Professional Members. Anyone can become an Associate Member, even if he holds one of the other memberships. But they are obviously for you to distribute to those whom you bring into contact with Scientology primarily.

Write to Silver Spring or London for full information on the distribution of Associate Memberships. Or, just send $12.50 to Box 242, Silver Spring, Md., and we will ship you 25 Scientology Pin and Application card combinations for you to distribute to new people for $1.00 apiece. Do it now!

24¢ IN STAMPS WILL GET YOU OR A FRIEND OF YOURS A FIVE-PIECE INFORMATION PACKAGE. SEND NAME, ADDRESS AND STAMPS TO:
Scientology, Box 242, Silver Spring, Maryland

§

PERSONNEL EFFICIENCY COURSES

FOR NEW YORK

New York City, with a personnel of around 12,000,000, although perhaps only eight million the last time you looked, and with her own share of inefficiency though a pretty fast moving town, now gets a Scientology Personnel Efficiency Course. Well-known and long-time D.Scn. Sylvan Stein is over in New York right now setting things up. He is assisted by Lois Stein, his charming and able wife. The exact schedule of the courses is to be announced soon. Meanwhile a card to Sylvan at Studio 847, Carnegie Hall, 154 West 57th Street will get you the information the day it is available.

Sylvan has just completed the first Basic Courses in Stamford with the Doctors Halpern, with great success. His full before-after test results are the first that have come in from the many Basic Courses now being taught. Consisting of six evenings of instruction and some group processing to people who had never before even heard of Scientology Sylvan's Basic Course got really beautiful personality and aptitude (ability) profile changes. All the students signed immediately to go into the Advanced Course, taught by Jan Halpern, D.Scn., F.Scn., and also brought in new people for the Basic Course they had just finished.

The Personnel Efficiency Courses are actually the same kind of course as the Basic Course, though giving special attention to the ability to handle the business world, including the employees of the student, his superiors and the general level of working efficiency. This of course effects employability and advancement very greatly, and the success of this aspect of Personnel Efficiency has proven out everywhere personnel and basic courses are being given.

Sylvan's course-test results have already been reprinted in the PABs, and given rather top honors, as they appeared in PAB 88, the PAB in which Ron concluded the new book SCIENTOLOGY: Translator's Edition.

People's jobs, their careers, are important to them. A professional Scientologist can do something for people and for their ability to handle the day-to-day challenges of existence. A Scientologist is willing to get in there and work very hard for people in the basics of living and surviving, and give them the things they can USE to live better and survive better, and auditors are finding plenty of people. New People. People who can and are willing to work and to do. These are the people who are valuable for Scientology and who can be given to man as leaders.

We haven't printed much about the Personnel Efficiency Course. A relatively small number of auditors all over the world have been spearheading the project and getting the courses organized and ready. They have been testing out and preparing. Now the program is completely ready and workable. The auditor who started the project and tested it in the field was L. Ron Hubbard: the field was Dublin.

Along with the Personnel Efficiency courses, Dr. Sylvan Stein is now also

New York Administrator for the Founding Church of Washington, D.C. With Lois' help and the help of all the active Scientologists in the area, Sylvan is responsible for the whole New York operation. The Stamford, Connecticut Center is left by the Steins in the extremely good hands of Dick and Jan Halpern.

SPECIAL MEMBERSHIP STOCK GOES UP

The Professional Auditor Bulletins by L. Ron Hubbard every week. That's the reason why General Members are shifting over into the Special Membership these days instead of just renewing their regular memberships.

The word got around, starting with the auditors and the Special members, that something was really up these days in the PABs. And it was L. Ron who was up to it. And it is pretty well known that when LRH gets going on an especially hot line of research and development it isn't going to stop at the end of the first little piece of data that turns up. It means, rather than just some more data, a new echelon, a new magnitude of understanding, and the doubling and redoubling of efficiency (practicality) in Scientology. It always brings new techniques and procedure, but that is not all there is to Scientology development. Ron has just completed the Translator's Edition in the P.A.Bs. It is going to be published far and wide in many tongues and studied and taught and used in many lands rich and poor, free and enslaved. It is a complete book of Scientology, one which will suffice for a long time to come in many countries. Yet, with the Translator's Edition just completed, you get the feeling that Ron is just getting started on something big that means, perhaps in the fairly distant future, perhaps very suddenly, a bigger advance than has been seen ever before. Some of the hints at what is to come are enough to make that a certainty and not just a feeling. The resolution to the problem of the healing of radiation burns and the predisposition to its effects is just one of the points known to be under attack by L. Ron in research and investigation.

The Special Membership is open to you. It will give you solutions to many things, but it will give you many more problems than you may have suspected you could handle at once. You can. That doesn't mean they are easy. It doesn't mean your fellow man thinks they can be solved. One problem you don't have is the $25 yearly fee for a Special Membership. That is not a problem. The $25 fee is the $25 dollar fee. Don't delay. Be indestructible. And get on the team. We'll be seeing your application shortly, and you, in a very few weeks, at the Congress. We are glad you are there.
