THIS CONGRESS CONCERNS YOU

THE "GAMES CONGRESS" AND A CELEBRATION

The Congress coming up in just a couple of weeks in Washington, DC is going to be something very very special. The news is terrific. Those of us who have been right in there with Dianetics and Scientology from the start in '50 are especially eager for the opening gun of the GAMES CONGRESS on August 31st. Those of us who came in a bit later will appreciate this eagerness because what Ron has ready to unleash at that time is a total wrap-up of Dianetics, its goals and techniques and handling of Man and Man's handling of life and aberration and entheta and enmest and the Reactive Mind. The unfinished page of DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH is now finished - page 401. On that page Ron stated the goals and programs of Dianetics from 1950 forward to the winning of the first four Dynamics for Man.

Today Ron has announced the win. Dianetics is actually filled in at all the points where Ron stated that Dianetics was going to have to be filled in. It is a very great victory. It's a victory over all kinds of adversaries, some of them people but most of them adversaries that Man had not tackled at all before Book One. The Reactive Mind and its tooth and claw blindness; the stimulus-response plight of human beings who suspected a wider role than that which they had, but had no tricks and had no code for the way out - that is the enemy, if it could be called such, that had to be confronted with impunity before there was any out. It was discovered that THE WAY OUT IS THROUGH.

Here, then is one of the things that L. Ron Hubbard has in readiness for this coming great Congress. At this Congress we can celebrate the completion of DIANETICS.

GAMES

The other thing is GAMES. That life can best be considered a game and that when it is considered a game it can be put right and made into something like what life should be, that is not

the whole of the thing. The fact is that Life IS a game.

That is a very different thing from saying that it works very well to operate AS IF life were a game. That is merely therapeutic. It is merely rehabilitative of the pleasure of living. It merely widens and enhances the scope of life.

The sure and exact knowledge that Life IS a game is basic knowingness, the essence of understanding. This is the level of understanding that reaches under the very cauldrons of Universe Center, plucks out the harsh coal of Mystery and bluntly exposes it to view - to the view of living beings. The secret of the MEST universe? The greatest secret of all MEST is - that there is no secret.

At a contemporary human level of operation and ability the record of research and of the precise understanding of life is all but intolerable. Earth, for instance, is a community of humans so overwhelmed by such universes or valences as the MEST universe that it is sheer torture to some to be brought to conceive of the Static of Life, THETA. It is not expected that one would begin a study or familiarity with Scientology by studying the Axioms. The Axioms, finally codified by L. Ron Hubbard in 1954 after thirty years of investigation and test, define and bring one to conceive of the Static. Probably only fifty percent of the civilized world could today actually tolerate and understand life better by their study.

With a Basic Course in Scientology, such as auditors are teaching today on many continents, perhaps as many as another thirty-five percent would begin a good upward curve in ability and knowingness upon then studying the Axioms. You, of course, who have followed the events and done something practical with the material of Dianetics and Scientology, including both processing and third dynamic class or group study, would be among those who would profit most.

The material of Scientology reaches today such heights as to present no small challenge to any who would scale those heights. The datum that LIFE IS A GAME though a not very threatening and an even innocent, simple statement at first glance, can be seen at further inspection to be something more than a mere philosophical observation. With a short study of the factors of games including players, playing field (M.E.S.T.), and the maker of games and including further the spirit of play one can begin to suspect that here is the very essence of existence. With a more vigorous organization of material and observation, such as that which has been carried forward by L. Ron Hubbard in recent years, and such as that which the auditors of the HASI and HDRF all over the world have themselves carried forward, it becomes actually axiomatic and a self-evident truth that life is most basically a game and that whether a man conceived himself to be engaged in a game or not that he is so engaged either as a maker,

player or piece of game.

There has, then, been very much material concerning games which has had to be developed and mastered for the sights of Man to be raised. In the enterprise of Scientology and Scientologists to give back to man his assumption of beingness, the beingness as a spirit which can do what the spirit can do, the best measure, even better than the measure of SURVIVAL, has been the Spirit of Play.

A being is as well as he possesses the SPIRIT OF PLAY.

Though it was not stated in the exact words of Scientology, the Dianetic CLEAR is signalized even more by the spirit of game than by survival. You find today that it was right there in Book One.

The spirit of play embraces among many factors one which is well known to Dianeticists and Scientologists as BEING IN PRESENT TIME. The experience or state of being in present time is discovered every hour of every day by some new person being processed or being trained in Scientology to be the actual state of ADVENTURE. Life experienced and created in present time, capable of the future and commanding fully the past, is sane. Life which is not sane is seen to be not in present time, not in the future and finally discovered to be IN THE PAST. Being in present time - this is a big factor in the game.

So here comes the GAMES CONGRESS and the announcement of the results of the most important single line of research ever attempted by man.

With the completion of Dianetics is reached the present all-time high in research by Man.

With the completion of the factors and the understanding of GAMES a higher yet surge of understanding is present in Man.

There is a job then to be done which is greater in scope even than the job of Dianetics, the modern science of sanity. It's a job that you want done for Man, and which you have an enormous part in doing for him.

In order to give the best material that is available to man you actually have to bring men up to a level of understanding and responsibility which surpasses any level commonly supposed to be possible by the people of Earth. You can do this.

The GAMES CONGRESS is your meeting with L. Ron Hubbard and your fellow Dianeticists and Scientologists for the purpose of commanding this material and technology which now extremely well tested, proves to get this job done well and swiftly. - So let's get together here in Washington on the 31st of August and

with the world's best auditors and Dianeticists and Scientologists, increase the empire which is the only empire of any account in the universe - the empire of understanding, beingness doingness and havingness - the Empire of the Game of Living.

Here's to a boom Congress. Book One Complete. Scientology results soaring the highest ever. A new look in SCIENCE. Even the first signs of a new look in GOVERNMENT! The codification of GAMES. The first really important news that Man has had for many long thousands of years.

Ron wants everyone on deck. BE there. It's important and you are what makes it SO VERY IMPORTANT!!!!

REPOSSESSION OF BOOK ONE!!!

At this time exactly six years ago DIANETICS: The Modern Science of Mental Health by L. Ron Hubbard was booming up there at the top of the Times and Tribune bestseller lists week after week. It wasn't advertised or pushed in any way by the publishers, but there it sailed right up on top.

The book and the subject never slacked off in public demand and interest. Various politically but not politically American vested interests and saboteurs failed to stop Dianetics at great expense to themselves. The subject was not only too good, it was too good to be stoppable by elder obsolescences such as "psychiatry".

Don't think they didn't try.

Finally Book One passed from the hands of the original publishers and when it was just recently found at a new address it was quickly acquired by L. Ron, plates and all, and is now in a position to be made available to the public at large in quantity.

This comes at a very good time. There is further news on Book One, such that a new, revised edition is in order. With Dianetic theory and technology completed the new edition will contain the highest echelon of research ever achieved by Man. In other words the goal of Dianetics is ours. It took six years of investigation, test and retest and now it's here! And at the same time, the book itself returns to its rightful owner!

CRACKING CASES AT HGC

L. Ron ("Nibs") Hubbard, Jr. is one of the world's more famous auditors, but it seems that fame was not his goal, but EFFICIENCY.

Taking the processes and auditing straight at the goals of the processes, at the Hubbard Guidance Center in Washington, Nibs has been doing and accomplishing at a rate and level of achievement that made Ron Senior sit up and take notice. Nibs has been taking cases who have classed themselves amongst the toughest. They have called themselves No-Change cases and so have been for some reason No-Change cases. They have been the kind of preclears that everyone notices change in, but who never notice any change themselves. One with a thousand hours of auditing some of which was by top auditors. No gosh-darned change. Dag blast it, I can't seem to get any place. Nope I don't notice any difference. Etc., Etc.

Another with hundreds of hours, almost identical comments. No blarsted change at-all.

So what does Nibs the young-old expert do? He goes in there and with his knowledge of the whole scope of Scientology, and way back through Dianetics, and polished finger-snap, and he takes the case through the adventure of GOING THROUGH and coming out at the other end knowing at last what it feels like to be in on the game of life.

The no-change case is really just a guy who has got out of touch or out of phase, you might say, with the participating of living. But, like a golfer with a wicked slice, you never will see greater stubborness than some of the boys can muster when faced with some actual auditing. But, on the other hand you never saw an orneriness and sticktuivity like Nibs can, when he goes in there after the reactive bank of a preclear, create, sustain and overwhelm. The preclear comes out on top. He overwhelms for a change his Reactive Mind and thus reverses the curve of his present existence.

You'd goggle at the Before-After test results of some of these cases Nibs has taken on.

Here's the calibre of auditing that is highest adventure and top game. Making a very able but not very happy guy much, much more able and really happy for the first time since perhaps his third year of this life. Here's modern auditing. Congrats to Nibs and HGC.

TO COACH SEMINAR LEADERS

Ron is coming early to get a chance to coach the Congress Seminar Leaders, Nibs, Julia, Steves and Ken Barrett, on the material they will be handling on GAMES. "It isn't complex," says Ron, but meanwhile hinting that it takes quite a lot of beating on the head to make this very advanced material sink all the way in. "Most everyone at the Congress will cognite all the way on it about a week after the Congress."

END-OF-CONGRESS PARTY NOT TO BE "OLD CLOTHES"

We have the big Shoreham Ballroom for the Congress and party, so it isn't going to be a "Hard Times" party after all. So ladies and gentlemen, come as you would have come if we didn't say it was "Hard Times". Official word from Congressman Steves is: party is Informal.

Starting at 9 P.M. on the final evening of the Congress, everyone gets together for a celebration to top off the four days of fast-paced activity. Congress parties are always great fun and this one is planned big, with a good dance band, plenty of refreshments and your light-hearted ease.

Everyone looks forward to seeing you there, as well as throughout the four Congress days.

PABS EVERY TWO WEEKS

The Professional Auditor's Bulletins are going for the time being back to the every-two-weeks schedule. London, with greatly expanded student and preclear traffic and seeking larger quarters in the midst of London's real estate shortage, can get the same important material to you every two weeks. With Ron's present terrific writing schedule and new books coming up in fast sequence and with the great importance of these, Pro and Special Members will find that their own special comm-line from Ron continues to be the most valuable data-line that can be had on Earth.

EARLY PABS IN BOOK FORM

Now available from the Distribution Center are the first forty-five Professional Auditor's Bulletins in three bound volumes. Each volume $2.00 (but $1 only to ABILITY subscribers). Send $3.00 and get all three volumes. The material has become even more valuable in the light of recent Scientology developments. Order from : SCIENTOLOGY, Box 242, Silver Spring, Md.
