Issue Ability 43

DIANETICS & SCIENTOLOGY

The First American Sciences Of The Human Being

by Leigh Tucker Richmond

Dianetics and Scientology have grown together through seven of the highest-game years that this planet has seen in many millenia.

They have grown together. They enter the third dynamic together - side by side, yet separate.

They ARE separate and distinct, Dianetics and Scientology. Their distinctions, their individualities, are something that we of the field know intimately.

Yet now we must define these individualities - these differences - for the public. In launching an advertising campaign on the books of the two sciences, it becomes necessary to define each, and to define the relationship of each to the other.

Dianetics is the first American mental therapy. It is the first American science of the mind and body. It is possible, through use of the techniques of Dianetics, to remove the blocks in the human brain that prevent that brain from operating at or near its potential; to clear the body of its psycho-somatic attributes.

Scientology is the first American technology of Man. It is the science of the awareness of awareness. It is the technology of the full theta-mest universe. Through the techniques of Scientology it is possible to return the person himself towards his native abilities as a thetan - to increase his willingness to have, to be responsible for, and to demonstrate those abilities.

DIANETICS, The Evolution of a Science: and DIANETICS, The Modern Science of Mental Health are actually the first books of both Dianetics and Scientology. This is not determined on the fact that Modern Science of Mental Health was the first of the popular books printed - nor the fact that it was the first that many of us read. It hinges entirely on the fact that the material presented is capable of being understood at the average tone level. (con't page 3)

HUBBARD PROFESSIONAL COLLEGE

Richard F. Steves
Director of Training
1812 Nineteenth St., N. W.
Washington 9, D.C.
(ADams 2-6296)

New HCA and HDA courses start each Monday in the expanded and refurnished quarters of the Hubbard Professional College. The new courses are stressing the fundamentals of the sciences more than ever before, and are turning out graduates in better shape, with better understanding of the techniques they are handling.

HCA-HDA Courses:

8 weeks
$500.00

SPECIAL OFFER TO THE FIELD

The Hubbard Professional College is offering any field-trained HDA or HCA the complete course of training here for $500.00 less any amount he or she has paid for training to any other auditing school than those of the central organizations.

HASI, DISTRIBUTION CENTER, Box 242, Silver Spring, Md.

has for you

IN HI-FI EQUIPMENT: The finest hi-fi tape playing equipment at $180 - less than you would pay for the parts. It has the best components obtainable with the least "window dressing" to make it expensive. Your tapes the way they were meant to sound!

IN TAPES: The RADIATION CONGRESS tapes - $94.50 less discount Covering: Radiation and how to handle it; Insanity, its cause and cure; Awareness - the scale of Awareness, completing the tone scales of the ARC triangle; LRH group processing. Thirteen hours of tapes in all.

GET THEM BOTH TODAY!

Dianetics enters the case - the public - at a level where there's already know-how. It enters at mechanics - at effect.

Scientology, Fundamentals of Thought, enters the case at cause - a high, a very high level. It is well received both at a high tone level and at very low tone levels - at inversion levels of cause.

The techniques of Scientology are far simpler and more effective than Dianetic techniques. The reasoning of Dianetics is far simpler and easier to understand than the pre-logics of Scientology.

It's like the relationship between a T-model Ford and a turbo-jet. Any mechanic or teen-ager can understand the reasoning behind the T-model Ford, and can probably design a motor for one. It would be rather complicated to build.

The reasoning - the pre-logics - behind a turbo-jet require an understanding of the laws of inertia, of thermo-dynamics, of physical mathematics. Any reasonably good mechanic can build a turbo-jet after it's been designed, but it takes a high intelligence to properly design one, or to recognize its pre-logics.

Dianetics is easy of understanding, and it contains the materials of the first four dynamics, and of the parts of the ARC tone scales below cause. On the Affinity scale, it treats of the tone levels from mystery to think. On the Communications scale it treats of the tone levels from apathy to covert anger. On the Reality scale it treats of the tone levels from create to waste, substitute, waste.

Dianetics treats of the theta-mest combination that is the body and the mind. It treats of the theta-mest combination up to the point of cause. But a body cannot be cause, no matter now combined with theta. Bodies and minds are tools, vias - a computer and the android that contains and repairs and reproduces itself and gives perceptics and data to the computer. Mest cannot be, even partially, cause. Mest is created. Theta is cause.

Scientology requires knowingness for understanding of its pre-logics, for it deals with Man himself - the awareness of awareness. Scientological techniques are simple and they are rugged. They go far below and far above where the techniques of Dianetics can reach. They must be rugged, of necessity.

When dealing with theta, you are dealing with the tone scale from top to bottom, for cause is senior to and responsible for effect. When dealing with theta you are dealing from cause point. You deal with effect point, but from cause point. Scientology deals with the tone levels below cause point, but it deals with them from the points of the ARC tone scales above cause point. On the Affinity scale it deals from the tones between effort and

know, even though it reaches down to mystery. On the Communications scale it deals from the tones between overt anger and enthusiasm. On the Reality scale it deals from the tone levels between have and create, even though it reaches down to created.

Thus we have two sciences - the first American sciences of the human being; Dianetics, the science of the human mind and body; and Scientology, the science of Man - the maker and player of games.

LONDON

HASI, London, received 1,000 copies of PROBLEMS OF WORK and had sold 500 of them by the end of the day they arrived! They report a policy of putting newly-trained students on the auditing staff at headquarters, and declare that staff morale is way up as a result. Ads are now in the British editions of FATE and HERE'S HEALTH...

SOUTH AFRICA

U. Keith Gerry, Johannesburg, writes: "The potential (here) is terrific. South Africa is a live young country with a pioneering spirit still aflame...There are a total of 62 trained auditors in the Union and Rhodesias, 49 of whom are active. Fifteen are training, and more are awaiting training..."

John Cranstoun-Day, Cape Town, writes: "Cape Town is jumping from four to twelve (auditors) next month...Getting Cape Town ready to take 30. Then, guess what!..."

Margaret Scholtz, Johannesburg (you'll remember the Road Show!) writes, "I've just been down to Port Elizabeth finishing off a full time course for Jack (Horner) who sailed on the 22nd, much to all our sorrow. Fine bunch of students - ten new and two retreads..."

IRELAND

The Professional Auditors Chapter (PAC) of Eire, which was formed following the first Irish Professional Course in mid-August last year, is keeping auditors of Ireland in good communication. Most recent meeting, January 26th, heard the latest processing methods brought back from London by Christopher Morris, PhD, D.Scn. Lectures and live demonstrations were followed by a party. PAC says: If you are in Ireland, North or South - CONTACT PAC - you'll get a good welcome!

NEW ZEALAND

Frank Turnbull writes: "Yours of the 23rd (the outline of the bookstore program) arrived today...and is already being put into effect. We have already sold over ₤ 100 worth of the cheaper books ourselves, and another ₤ 100 are on the way from England..." That's fast work...

AUSTRALIA

Headquarters, HASI, has set up an administrative unit modelled on the Organizational Tapes, and is going to town in confronting the public. A book store program well under way; PE courses; an Associate Membership drive, and lots of field communications.

Margaret Barker, public relations director, writes: "I have a mock-up to write to as many Scientologists world-wide as I can. Must get Australia onto the planet. We know it's on the planet, but I'm sure it's as unreal to some people as a weekend trip to Mars in a space suit!" Anyone volunteering for some reach-and-withdraw on Australia write 157 Spring St., Melbourne, Victoria C1, Australia.

PUERTO RICO

Message to Pedro Gotay; Ron would appreciate a personal report on printing and publishing facilities there...

HONOLULU

Lonnie McMurry writes: "Everyone seems to have heard of Scientology and Dianetics here..."

HASI MEMBERSHIPS

The new, overall, unclassified HASI Membership is just..

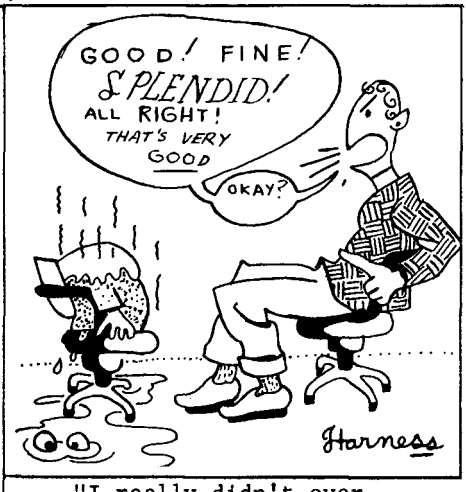

$15.00

The family of HASI is a unit. We work and act together. We are dispersed across this planet, but our survival dynamic is strong and we're united towards sanity. Keep your HASI Membership in good standing!

Write:

HASI, Box 242
Silver Spring, Maryland

Associate Membership, the cousin of the family, still $1.00 and good for this entire life!

"I really didn't over-acknowledge the preclear, honest!"

THE AMERICAN FIELD

Ron Arnold, Seattle, writes: "If you will provide us with a D.Scn. there is some chance of getting a course taught at the University of Washington..." D.Scn.s - Alert!!

Scientology, Las Vegas, expects shortly to be a Church.

Maida Johnston, Sharp Park, Calif. (her lovely home on a cliff with the ocean beating against its base) reports good results from using the September Congress processing tapes.

Sp/3 Bill Casey, Fort Sam Houston, Tex., writes enthusiastically about the bookstore program and the CAP there...

Val Adams, the Church of Scientology, Riverside, Calif., writes briefly: "Things are going great..."

Dick Fojut, Chicago, Teaching an advanced course, writes of the use of art work in slide projections for illustrating lectures. He enclosed excellent sketches illustrating the cycle of action. How's for putting out a bunch of lisdes, Dick? The field could mebbe use them. Advertise them in Ability...

Maxine Savant Farnum, Tucson, Arizona, writes that Toni Savant, our youngest certified auditor, may be in Washington this summer. That's good news!

THE PROCESSING CENTER IN SAN DIEGO

Under the direction of
John McCormick, D.D., D.Scn.
Auditors:
Dr. John McCormick and Ruth L. Knudsen, H.A.A.
Write:
The Church of Scientology of San Diego
116 W. Washington Street
San Diego, California
CYpress 6-0880

Dr. J. Harold Thibodeau, Scientologist and Chiropractor of Myrtle Beach, S.C., sent us the names of the Chiropractic mags that fairly well cover that field...Orion Magazine (704 Jackson Ave., Charlotte, N.C. 50¢) carries an editorial on Dianetics in its February issue...Magazine suggestions are coming in from all over - Dick Ferg, Camden, N.J., E.N. Campbell, Miami, Florida, Duane Nelson, Espanola, N.M., Tommy Carnahan, Eldorado, Ill., Carl and LaVerne Jardine, Sherman Oaks, Calif. - among others. We need the small magazines, the kind you read from cover to cover.

Eleanor Wechter, Sandy Hook, Conn. sent in some beautiful sketches of staff personnel. We're collecting sketches of Scientologists and will have them out for you. Got any more, anybody? Especially we need a simple line-sketch of Ron. Not a portrait sketch - a line sketch that characterizes him without portraying him...

Linc Burstein and Roy Justin, Philadelphia, Penna. write: "We're happy to know how closely Washington is working with us." just because we followed up their need fast...so now we'd best confess our sins. We've been moving into the building next door - outgrew just one building - and in the move some letters seem to have gotten lost. If you've not been answered, write again!

The Church of Scientology of Glendale, California has been established and is in the process of being chartered. The Rev. J. Burton Farber, D.Scn., D.D., is pastor, with the Rev. F.W. Winters, D.Scn., associate minister and Mary Potter as secretary. A PE Course of 20 students just finished there, and an HPS Course now going on.

Wayne Wright is now Group Leader, Jewell Wright communicator of the Scientology Group of Portland, Oregon.

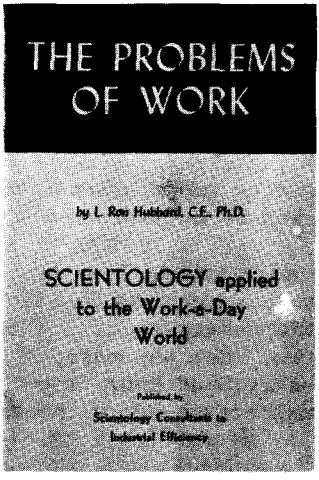

HEADQUARTERS

The big news here is the announcement of the engagement of Alma Gillespie and Richard F. Steves, D.D., D.Scn.

Alma is a fairly recent Scientologist - interested since '55 but only active since the last Congress. She's taking an HCA course currently.

Dick is a "first book" member - and was awarded the honorary degree of Fellow of Scientology for developing the procedure "Acknowledge the preclear" - the most basic of the procedures. He has been on headquarters staff since '52, and is now Director of Training. Ron characterized HASI's Steves best in '54 when awarding him a degree. "I have never," said Ron, "awarded a degree with a lighter heart."

Russia, Germany and Austria gave us most of the ideas we have concerning the human mind, and sought to teach us that man is a slave or an animal. This has enormously influenced our concepts of work, since they were based on the supposition that slaves do slavery.

In Scientology, the first American science of the human being, America returns to Europe a new philosophy - that human I.Q.s can and are being raised - that man is a free, responsible being - that work is the right of a man to participate in his society.

SCIENTOLOGY: The Problems of Work applies the techniques of a free mind to the drudgery known as work - and makes it into a stimulating activity.

In Germany, in Austria, in Russia, they say it's impossible. In America it doesn't even take very long!

THE HUBBARD GUIDANCE CENTER
