Issue Ability 46

A NEW SCIENTOLOGY U.S.

Since his return to the U.S. on October 15, 1956, Ron has been hard at work reorganizing Scientology in the United States.

With the goals of positive, invariable results and superlative service he has made enormous headway in achieving gains.

In October, 1956, the Washington organizations were deficient in book stocks, quarters, personnel and up-to-date administration. Almost all major items were scarce. No new books had been written or released in two years.

In view of the heroic size of technical and business problems this reorganization has been no light task, as anyone in the Washington organization can tell you. Not even tax reports had been kept up!

These months of work have now achieved the following visible successes:

(1) Books are now being shipped the same day the order is received with very few items remaining scarce. (The Distribution Center has been moved downtown where Ron can keep his eye on it. It's now in the basements of 1810 and 1812, which basements have been completely modernized and rebuilt.)

(2) Problems of Work, written by Ron right after the August Congress to help P.E. Courses, is moving up to best-seller sale. It's been printed in a U.S. Edition, as it's selling too fast in England for them to spare any. It's a real leader for new people. Auditors placing them in drug stores are reaping. This is an opening door on all we've wanted. This simple, acceptable book is a real achievement. It talks! And Scientology: Fundamentals of Thought is coming right up with it. Tens of thousands of copies are pouring into American hands, telling them of the first American science of life and giving them a better life to live.

(3) The Indoctrination Course Ron has organized is a howling even screaming, success. Taught now by Dr. Barrett, it gives the

New and the old auditor poise he has never had before. There are now four levels above dummy auditing!

(4) The HCA Course reorganized by Ron is now taught by Dr. Steves. It's turning out professional type auditors that really glow. It's the best course with the best results we've ever had. We'd be willing to use these people anywhere.

(5) The HGC has been put on its mettle by daily coaching and now Nibs himself is in charge of it. This unit has raised its processing sights to where it has lately successfully audited five famous "failed" cases of years duration with entire success. Professional to the core, it gives the best auditing in America.

(6) An HCO has been fully organized to help the comm lines to Ron.

(7) A new building, 1810 19th Street, N.W., has been procured and remodeled under Ron's constant pounding and now houses students as well as the Public Relations, Business, and other units of the organization.

(8) Good tape players and fine tapes have been made available. Ron has made several brilliant new tape series.

(9) The administration, and filing and tax returns of the organization are up to scratch, due to Ron's constant attention and the hard work of Mary Sue.

There are a dozen other gains, all of them bright and shining and all of them meaning a new extended future for Scientology, U.S.

With a hand-picked, survived-the-fire staff of 32, the Washington organization looks different, feels different, acts more like a Scientology organization should than ever before.

Ron has laid down the precept that we must have the best organization, the best-trained auditors, the clearest people on Earth, that we must give service second to no other group, that we must realize the full benefit of Scientology in every case we process and thing we do. And we're doing it.

ANENT RENDERING UNTO CAESAR

What income tax deductions are you entitled to as a Minister?

A church normally provides living quarters - a rectory - for its Minister and his family. Where the church does not own a rectory, the Minister may refrain from declaring rent and utilities. He can also use his professional status (on form 1040-C) and thus deduct office supplies, use of his car for ministerial functions, etc. Suggest you see an income tax book for full particulars - available at most stores at around one dollar.

In order to claim income tax deductions as a duly ordained Minister of the Churches of Scientology, your Ministerial Ordination must be in force for that year.

THE TENS OF THOUSANDS

"What happened to the Tens of Thousands" is being asked by a pretended "dianeticist" in, where else? California.

Aside from the fact that the Post Office Department has received a complaint of fraud on his "IDS", a few have written in to say -

"What happened to the Tens of Thousands? Why the better ones are in Scientology, of course, and the very few remaining have formed an I Hate People Club in Los Angeles. Didn't know any Tens of Thousands were missing. I look around, and seems like they're all here!"

POLICY MESSAGE TO THE FIELD

We are going to substitute in our speech and writing, for the word "psychology" the word "mental" - by which we will some day oust out the common phrase "psychology".

SCIENTOLOGY IN THE OLYMPICS

(From page 2 of the official report of the Team Manager of the 1956 British Olympic Modern Pentathlon Team.)

MENTAL TRAINING

A criticism of British Pentathlon Representatives in recent World Championships had been that they lacked the mental stamina and robustness to stand up to the strain of international competition. The final team selected was one which, though technically better performers than any other possible selection, might well fail to reproduce their form under the kind of strain they were likely to encounter at Melbourne. In order to overcome this weakness the Team Manager decided to spend a considerable amount of time training the minds of the team as well as their bodies. A Scientologist, Dr. Raymond Kemp, was called in and set to work on the team in conjunction with other coaches. The result of Dr. Kemp's work may best be judged from the fact that at no time in Melbourne did any member of the team crack up mentally as had been the case in previous World Championships. Indeed faced as the team was throughout the first three events with an increasingly overwhelming tale of tragedy, all three members proved themselves mentally robust enough to retain their fighting spirit until they had finished the last event.

This question of the mind training of the Pentathlete is something which requires further study. This study is increasingly important now that future teams are likely to consist largely of other Ranks who may not be expected always to have the same degree of mental robustness and initiative as a team of officers. The part that Scientology can play in this training is not by any means fully explored. The Committee cannot, however, but be most grateful to the Hubbard Association of Scientologists for putting the services of Dr. Kemp at our disposal without any charge to this Association and for its continued interest in our activities.
