Issue 62

Ability

WE BEGIN A CAMPAIGN

by

L. Ron Hubbard

In actual fact we have been building up to Operation Clear for seven years.

For seven years we have been gaining experience, assembling data, streamlining an organization which could effect it.

What is Operation Clear?

It is Clear You, then Clear your environment, then clear the country.

Ambitious? Not as ambitious as it sounds. It can be done now. It will probably take a year or two to clear Scientologists and Dianeticists.

What do we have with which to do this?

(1) An organization.

(2) A plan.

(3) The necessary processes which can be run by the auditors.

(4) The means of schooling auditors.

(5) The publications.

It will take much longer to clear the U. S.

(cont'd. on p. 3)

Are your pictures lacking 3-d color?

can you handle your bank account?

have you had your valences lifted lately???

are your engrams too tight?

THIS MAY BE CORNY, BUT WE CAN SHUCK IT FOR YOU IN A HURRY

at the

HUBBARD GUIDANCE CENTER

L A R G E	INTENSIVE	(3 weeks)
MEDIUM	INTENSIVE	(2 weeks)
small	INTENSIVE	(1 week)

We're being light-hearted here because we're enthused! We're getting such good results with our processes it can't be held back!

Don't you dare come to the HGC for processing unless you really want to "put a future" in your future!

WE'VE GOT THE PROCESSES .....

(Special note: anyone coming in for processing may, at their option, get a free week in the Comm Course. Any newcomer to Scientology is strongly advised to take advantage of this offer.)

When you're ready, write

THE REGISTRAR

P. O. Box 57, Brooke Virginia

What do we have with which to do this?

(1) The nucleus organization.

(2) The Ability plan.

(3) The necessary group processes.

(4) The means of schooling group leaders.

What do we mean by Clear?

Here is the Book One Definition (page 8, Chap. II, Dianetics: The Modern Science of Mental Health). "A clear can be tested for any and all psychoses, neuroses, compulsions and repressions (all aberrations) and can be examined for any autogenic (self-generated) diseases referred to as psycho-somatic ills. These tests confirm the clear to be entirely without such ills or aberrations. Additional tests of his intelligence indicate to it to be high above the current norm. Observation of his activity demonstrates that he pursues existence with vigor and satisfaction."

Now we have already achieved this, even exceeded it as soon as we got into Scientology. In HGC Clear Procedure (HCO Bulletin Nov. 31, 1957 and HCO Bulletin of Dec. 3, 1957) just one of eight steps is devoted to making a clear. The other steps are actually Operating Thetan steps.

All this certainly seems ambitious -- in past times it would be put down as just another piece of madness. A few years ago some would have claimed it was just my cursed optimism. But if you've been around a while you'll know my "cursed optimism" has a habit of delivering. Only the comm lag between what I could do and what field auditors could do discredited my optimism. That lag is seven or eight years. All right, we've now cut it down.

To clear you it is only necessary to get you from 75 to 150 hours of good auditing. We have a plan here to accomplish this. You can come in, get trained and co-audit under supervision up to the point of clear. Or you can get the HGC to do it. That's as far as we can keep the promise just now. Or you and a friend can come in and get trained up to HCA and go home and co-audit up to clear. Or you, as an HCA can come in with another HCA, get briefed in five weeks of the old B.Scn. course and go home and do it.

All right, that's the first stage for you. Get clear.

(Cont'd. on p. 4)

Clearing the U. S. only requires that we clear the already functional people. For that we have a wide spreading activity of Ability Clubs and a new method of Communicating Scientology. I will tell you all about that at the Congress. (So be there.)

Now why is it so important to enter upon Project Clear just now?

Well, all I can tell you is what my crystal ball says -- the one that's been so right so long.

The U. S. faces three possible fates. These are as fol - lows:

(1) Atomic war emerging into a mauled Earth, set back to a stone age.

(2) A super technical space opera type government, all the scientists drafted, the citizens in slavery to and utterly drained by a merciless scientific machine (See 1984 and increas- ing government emphasis on "science" Hitler style).

(3) A society which retains its technical advances but where Man runs the machines.

The first would demand of you abilities of survival which a non-clear (aberree) doesn't have.

The second would demand of you escape and control abili - ties beyond the scientific economic rat-race that always results from aberrees planning everyone's life.

The third is a long shot that depends only upon us. Nobody else has any technical or social answer vaguely comparable to a Scientology U.S. So it's a faint chance. So what? It's a chance. If you're drowning you don't ask for a stress analysis of the log that drifts your way.

Now some characters with bovine optimism of "it's all in good hands" will just drift and hope. That's optimism gone mad. Russia has 122 divisions to our 18. A dozen aircraft to our one. She's already a super-technical slavery culture. If we try to catch up we'll also, it seems, catch up to her somewhat arduous politics. I don't look good in a slave hat and damned if I'll wear a Commissar's.

The only way "it can all get better" is for the U. S. to com- pletely reform its administration of science.

It won't. It will run the World War II engram of drafting

(Cont'd. on p. 6)

scientists and getting by on mass economic slavery which we're already tasting. The U. S. government is too apathetic, too lethargic, too unwieldy to suddenly smarten up. PCs don't suddenly recover with no auditing. Well, neither will a government.

So in all cases, the future demands that we get clear ourselves and at least try hard to clear a country. If we fail to clear the country, we Scientologists will at least be an intact group. For I don't think a group of clears would be eaten up by either atomic war or scientific slavery.

So here's what we have to do to carry on.

Individually we have to get clear. Collectively we have to stay in communication. Generally we have to clear as much of our environment as we can.

So I hope you're at the Congress so we can really go into this.

Best,

The H.A.S.I. is buying a national Scientology refuge area near Brooke, Virginia. We can use your book checks and anything you owe us, now.
