NATIONAL ACADEMY OF AMERICAN PSYCHOLOGY
1812 19th Street, Northwest
Washington 9, D. C.

Dear American Psychologist:

American Psychology is today becoming even more important in our way of life. To understand and to help one's fellow man is an inspired goal. That goal must not be destroyed by the incapabilities, disloyalties or ambitions of a few.

American psychology has long since surpassed European and Russian schools in many phases but the latter are often ambitious to assist in a subversion of nations.

Today these European and Russian schools, tainted by their assistance in mass enslavement and their development and use of Brainwashing have brought criticism to the entire field of psychology.

Even in America in small areas and a few universities, these dictator philosophies have gained ground.

To prevent an anxious government from bringing in question the entire field of psychology because of the shortcomings of a few, this Loyalty Oath of Mental Practice is being widely subscribed to by reputable psychologists to separate the loyal from the disloyal and so preserve American Psychology in the main against harsh criticism merited by a few.

As we all know, in the past we were not so careful of our sources or degrees. So many degrees have been issued in psychology by "diploma mills" and even universities of the better sort who were unfortunately blind to their psychology departments, that a new system of validation is now proposed whereby an official board in Washington, D. C., will issue validations based entirely upon (1) The signing of and swearing to this Oath, and (2) Actual competence in practice regardless of "degrees".

In this program the entire purpose of the National Academy of American Psychology is to cleanse the field of U. S. mental practice and place it beyond criticism on the grounds of subversion, brutality and ineffectiveness. The accomplishment of this goal has the character of emergency at this time. We must present clean faces to the public and the government alike while we still have faces to present.

THE BOARD OF EXAMINERS

LOYALTY OATH OF MENTAL PRACTICE

I hereby subscribe to the following Code of Ethics and Practice and swear to abide by it at all times. I do solemnly swear:

(1) To support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to same.

(2) To refuse to practice "Brainwashing" upon American citizens.

(3) To actively prevent the teaching of only foreign psychology in public schools and universities.

(4) To engage in no conspiracy to commit or "treat" persons for purely self-interested or political reasons.

(5) To refuse to protect criminals by supporting questionable pleas of insanity at trials.

(6) To discourage all violence against the mentally ill.

(7) To refuse to use, advocate or experiment with physical methods of "therapy" upon patients which might bring about incapacitating physical injury to the patient's brain tissue or body.

(8) To use only methods of mental practice or techniques of therapy upon patients which I would willingly experience myself to the same extent or duration that I apply them or advocate that they be applied.

(9) To refuse to contribute money, dues or my services to organizations which knowingly impede American scientific research programs or which work to discredit American psychologists to the public.

(10) To refute propaganda to the effect that the study of psychology is hopeless, that I.Q. cannot be improved and that personality cannot be changed.

(11) To refuse to accept for counseling or psychological assistance and to refuse to accept money from any patient or group I feel I cannot honestly help and to offer no solution or cure I cannot accomplish.

(12) To refuse to advertise beyond the display of my professional card and the supported claims of my school of mental practice.

(13) To render good treatment, sound training and good discipline to those students or people entrusted to my care.

(14) To engage in no unseemly disputes with the uninformed on the subject of my profession.

(15) To refuse to interfere with the lives of my patients beyond actual treatment.

(16) To refer to competent medical treatment ills which demand medical attention.

(17) To hold in confidence the secrets of my patients.

(18) To accept as fellow psychologists only psychologists adhering to this code and to speak no word of criticism in public of them.

I take this obligation freely, without any mental reservations, or purpose of evasion: So help me God.
