ACADEMY DISCOUNT LETTER EXPIRES

Over a year ago, we issued Academy of Scientology discount letters to all graduates of the Academy. A letter allowing $175.00 off on the cost of an H.C.A. Course for recommended students.

We're very glad so many of you could put these to good use. We know it made a lot of difference to many students. There are still some letters outstanding.

So, if any of you have a letter and know someone who is planning to use it, have him get in touch with us immediately.

By June 1, 1959 we must know that he definitely plans to take the course within the next year and he must pay a deposit of at least $200.00 to guarantee a place for him here at the Academy.

If he is enrolled in the Extension Course or intends to enroll, a deposit of $10.00 will save his place for him. After June 1, 1959 all outstanding discount letters will expire.

ATTENTION: CERTIFIED AUDITORS

Did you know that there are more PCs in the U.S. than can be handled by the number of validated auditors? We need good auditors, trained in the latest methods. There is much to be done, if we intend to clear Earth.

Here is the beginning of a brand new cycle. This is an exciting new project to turn promising Scientologists in the field into fully trained auditors. It is becoming increasingly apparent that there are many talented and interested people in groups throughout the country who would love to come to the Academy for HCA training, but cannot, for financial reasons. We want to give these people a chance.

Every Certified Auditor in the field can help in this project and please himself in the bargain. You will have the satisfaction of helping your outstanding group members and of contributing to a much larger movement.

What each of you is to do is to nominate two people from your area whom you think have particular ability. Send us their names by APRIL 15th, 1959. Later there will be voting and the two students with the most votes for each area will get the HCA Course on a special helpful arrangement. A list of the areas in groups of states is given here.

We want to bring into the Academy people who have those special qualifications that it takes to make a good auditor. No one knows better than you, Auditors, just how much it does take. Here is where we want you to exercise judgement. Choose a person who is willing to take responsibility for bringing changes to his community, a person that you also know to be able to create high ARC with many different types of people. One of the best ways of judging is by watching his confronting. If he confronts well, he communicates well and can handle situations and individuals.

So, choose your two candidates and send in their names by APRIL 15th, 1959.

FOOD FOR THOUGHT

"Theta beings associate socially with theta beings and have a high sense of justice."

"...Possibly a handful of thetans will someday become alarmed at the worries and efforts of homo sapiens and try to throw the remaining race into a super-controlled slavery. All that is speculation but it is not a speculation that life will become much more interesting on this planet.

"It is doubtful if the thetans will pull off the ultimate trick - simply knocking out the atmosphere of the planet - that "clears" everybody after a fashion. There is nothing as wild in the books of Man as will probably happen here on Earth.

"And it will happen and be allowed to happen simply because all this is so incredible that nobody will even think of stopping it until it is far, far too late. Its incredibility is its best safeguard, so ycu needn't bother to convince anybody who doesn't want to believe it.

"It took the medical profession two and a half years to catch on to prenatals. People getting cleared of bodies don't need any such time lag.

"And so, may I make this simple request - don't get spectacular until a few of the boys make it. You don't want to be lonesome - and you'll need reinforcements if a war gets declared on thetans here. The preclear may think he can do it alone if he gets cleared of a body - he'll need more help and company than he thinks.

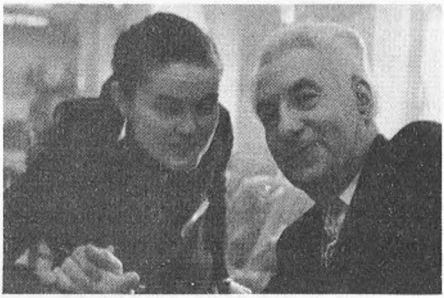

"So, again, as a final note on this chapter, let's not go upsetting governments and putting on a show to "prove" anything to homo sapiens for a while; it's a horrible temptation to knock off hats at fifty yards and read books a couple of countries away and get into the rotogravure section and the Hearst Weeklies - but you'll just make it tough on somebody else who is trying to get across this bridge. Let sleeping sapiens snore in the bulk for yet awhile. Then meet some place and decide what to do about him and his twopenny wars, his insane and his prisons. Tell people who want to invalidate all this, "Your criticism is very just. It's only fantasy." Cure up the lame and halt and incompetent with whatever display of technique you need. Protect theta clearing until there are a few more."

THE FOUNDING CHURCH OF SCIENTOLOGY ANNOUNCES:

Something YOU Have Demanded

It makes no difference how you look at life
It makes no difference what rumors you've heard
It makes no difference who says "you can't"
We're here to say "YOU CAN"!!!

Here in Washington, D.C. from the Shoreham Hotel on January 3 & 4, Ron sent out the call for Leaders. Are you one? If so, get a group together and we will guide you.

A REPORT ON THE

21st AMERICAN A.C.C.

Well, at last I have enough students to confront, 108 of them. That is a lot of students, especially when they are all running engrams. This will be the most successful ACC to date because we have Training Drills designed to teach the student what he needs to know in order to do a good job running engrams.

These TRs extend past the regular TR 0 to TR 9. These new Trs have been very effective in achieving the goals set out for them.

The 21st American ACC is divided into four groups. Group One is run by Dale Kathary. Group Two by Dick Halpern. Group Three is handled by John Fudge and Group Four by Jan Halpern.

Ron is spending most of his course time "on the floor" checking sessions and supervising the auditing closely, in order to insure the maximum results.

The groups are set up so that each student can get the gradient scale he needs in training and processing to reach clear.

The ACC is a busy place with the tight scheduling, lectures, conferences, auditing and once in a while giving the students a coffee break so they can breath. The course starts just about sunrise here - 7:55 a.m. and goes to 8:00 p.m. They eat dinner after 8:00. Since they are kept so busy we let them off Saturdays. Its the first time we have done it in an American ACC.

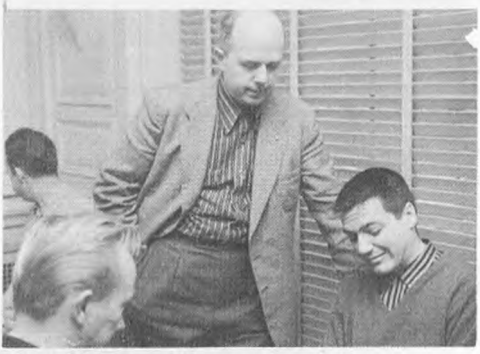

The students are enthusiastic about the data and processing. They feel that they can really reach their goals in the course.

So far, we are ahead of schedule as to training and processing results. We will be finishing the course with a very high percentage of wins.
