DO IT YOURSELF THERAPY

by

L. Ron Hubbard

At last we have a successful way for the untrained person or the financially embarrassed Scientologist to make it all the way to release and prepare himself for theta clear at low cost.

1.) Processes that undercut most reality levels, and
2.) Muzzled auditing.

For as little as $10.00 a week, one can have the major benefits of Scientology by giving a little and getting a lot.

HAS Co-Auditing courses are run by all major Central Organizations and are being started in HCO enfranchised centers.

The applicant enrolls in the P.E. course and receives a week of theory. He graduates to a Comm. Course lasting two weeks of three nights each and costing $10.00 per week. He receives his HAS certificate and graduates to co-auditing for three nights a week for $10.00 per week and continues on until he reaches the state of release. This may take many months but he gains all the way in health, on his job, in his environment.

The co-auditing is done "muzzled" and under the heavy supervision of a trained professional who knows how to do it.

It is only successful if so done.

These new processes and muzzled auditing can be the beginning of a new civilization. For, cases are cracking on these units with such frequency and speed that even the old timers

instructing them are getting an eager new look.

A release is a person whose case "won't get any worse." He begins to gain by living rather than lose.

Release is a way point toward theta-clear. A good release can be theta-cleared by a professional running engrams in from 50 to 125 hours.

This is the new look. If you want to know more about it, write Hubbard Communications Office World Wide in London, or your nearest central organization (in United States, write Washington, D.C.)

We can put hundreds of thousands upstairs rapidly if we follow this well-blazed trail.

We are still winning.

Notice

Those Hubbard Guidance Center preclears who pay for their auditing in full will receive their rooming quarters free of charge.

The HGC here in Washington has new quarters right next to 1812 with many more rooms available than before. We can take on any and all comers.

AN INSANITY QUESTIONNAIRE

The World Health Organization has issued the following questionnaire to determine whether or not a person is insane, and infers that if one answers "yes" to any of the following, he is insane and needs help.

"Are you always worrying?"
"Are you unable to concentrate because of unrecognized reasons?"
"Are you continually unhappy without justified cause?"
"Do you lose your temper easily and often?"
"Are you troubled by regular insomnia?"
"Do you have wide fluctuations in your moods, from depressions to elation, back to depression, which incapacitate you?"
"Do you continually dislike to be with people?"
"Are you upset if the routine of your life is disturbed?"
"Do your children consistently get on your nerves?"
"Are you 'browned off' (burned up) and constantly bitter?"
"Are you afraid without real cause?"
"Are you always right and the other person always wrong?"
"Do you have numerous aches and pains for which no doctor can find a physical cause?"

Scientology organizations as the leaders in the field of mental ability are doing the only successful work in correcting such disabilities.

The first sweeping, low cost attack on mental disability fs now under way in Scientology organizations with HAS Co-Auditing courses, now beginning on all continents.

WhOM TO WrITE To ABouT WhAT

By this time many of you are probably wondering a great deal about the Central Organization and its internal communication lines and just how we operate. Many of you have sent in a letter asking one person about something and have been answered by somebody else in the organization - this tends to leave a person rather bewildered at times, to say the least.

We have at the time of this writing 125 "hats" listed covering various functions the organization does and there are 30 terminals handling it all. When there is a change in personnel it is possible for a whole department to change its function as the hat distribution will change.

So, I'm going to list here the hats which are pertinent to the field's communication. When you have something to write about concerning business then address your letter to the hat. If you happen to know the current terminal handling it, then it's O.K. to address your letter to them, also. But be sure to address it to the hat first.

If your letter contains many pieces, such as memberships, books and training, then list each separately on a separate piece of paper so that when it reaches the organization your letter can be distributed and expedited. If your letter is concerning many things at once all jumbled together then your communication may not be answered for a few days as it has to go - the whole thing - around the route to have all parts answered.

Of course, this doesn't mean that you can't write personal letters to people here in the organization. We always welcome your letters with open arms - we like to hear from everybody anything they've got to say. But, if you've got business to conduct wherein you may need a rush answer or may need information then its a good idea to address it to the hat which handles it. This will expedite your communications.

Address your letter to:	If it concerns:
Distribution Center Administrator	Ordering books and records. Books which have not yet arrived at their destination. Books which have been missent, extra ABILITY's, PABs, etc.

(cont'd. next page)

Membership Department	Purchasing memberships. Lost ABILITY's and PABs. Expirations. Address changes, etc. Anything to do with memberships.

THE GOD I SING OF

I do not sing of a God to whom one goes in supplication.

I sing of a God who is benign.

I do not sing of a God from whom one flees in terror.

I sing of a God who listens to what people say.

I do not sing of a God who merely punishes the wicked.

I sing of a God who provides a way for them to be changed.

I do not sing of a God who will aid me against my enemies.

I sing of a God who will help my enemies also, if they become aware.

I do not sing of a God who is merely finer than gold.

I sing of a God who is finer than men have dreamed.

I do not sing of a God who is remote and difficult to know.

I sing of a God who everyone could be.
