GO CLEAR

"A Clear is a being who can be at cause knowingly and at will over mental matter, energy, space and time as regards the First Dynamic (survival for self).

For more than 2,500 years, Man has dreamed of this goal.

Being Clear gives one the freedom and potential of being. Further, it makes it possible to continue being something. It is a stable state. Also, a Scientology Clear has experience." L. Ron Hubbard

A Clear has over 135 I.Q., a vibrant personality, glowing health, good memory, amazing vitality, self-control, happiness and more.

The most valuable thing you will do for yourself, and for your family, friends and Mankind is attain the state of Clear.

You can achieve Clear – not in years but within months through the most advanced technology of the human spirit – Scientology.

THERE ARE TWO ROUTES TO CLEAR:

1. **Preclear Route:** get Expanded Lower Grades through IV at your local org or franchise, then get the new Power Processing and take the Solo Audit Course at your Saint Hill Organization and then go onto the Clearing Course at the Advanced Organization.

The Dianetics Course is no longer a prerequisite for the Preclear or Training Routes. You do not need to have Expanded Lower Grades to receive the new Power Processing. The prerequisite for Power is Grade IV Release.

2. **The Training Route:** take Academy training at your local org (and get your Expanded Grades at no extra charge from fellow students while on course), get Power Processing and take the Saint Hill Special Briefing Course at your Saint Hill Organization. Then to the Advanced Organization and onto the Clearing Course.

The training route is the preferred route to Clear as it is less costly and one is a skilled auditor when one reaches the Clearing Course, thus will have a better solo auditor on Clear and OT Courses.

A special AO service for non-Clears is the "I want to go CLEAR" Club. Club Members receive the following benefits:

1. Special weekly publications mailed to you with the latest news of service delivery to help you across the bridge.
2. Club Identification card for admission to special functions.
3. The latest Routing and Gradation Chart directing you on every step to Total Freedom.
4. Personal assistance from the Advanced Organization to help you move across the bridge with certainty.
5. Advanced Enrollment on the Clearing Course with Advance Payment to strengthen your postulate to go Clear.
6. Special Club Information Packets with information on "The Road to Clear" by L. Ron Hubbard, Founder.
7. Permanent placement in our files so you won't get lost on the way.
8. Our protection against those who may want to stop your forward progress.

Join the "I want to go CLEAR" Club by writing to the "I want to go CLEAR" Club Registrar, AOLA. Mail your letter in the Thetaccount envelope enclosed in this issue –postage is prepaid.

Prerequisite for starting the Clearing Course is Grade VI Release and Solo Audit Course or Saint Hill Special Briefing Course Graduate.

Price is $800.00. Less 5% discount for Advance payment in full, the price is $760.00.

OT AND INTELLIGENCE

by L.Ron Hubbard

Why did you arrive here in the condition you are in?

It wasn't because of anything specific that you did.

Yes, you have overts and these are combined with motivators. But even if you had committed no overts you would still have gotten the motivators. You would have dreamed up something as an overt.

The oddity here is simply that if you have been punished, then you must have been punished for some **reason**.

This doesn't happen to be true at all so you are still trying to be reasonable about it.

The **reasons** you were being punished were for being you, for being powerful and for not being quite intelligent enough.

These are the **only** reasons.

The exact crimes were to **be there** and to **communicate**.

Now, what happened?

You can look way back on the back track and find that some OT came along and decided to put together a civilization of some kind.

He figured it all out to the last notch. Had curb stones, hair-do's, the lot!

He had it perfect and some other thetan came along and started chipping away at him or started talking to him or started putting mock-ups on the other side of the planet. To get even with the thetan who was attacking his pet society, he would indoctrinate his pet society on how to trap a big thetan.

So this became the most accomplished skill that a meat body society had. How to trap a spirit.

No OT was ever so completely out of his mind as to have to depend on his men or troops to untrap him. He never indoctrinated them to do that! At the time he was doing this he never thought **he** would be caught.

I consider this is singularly unintelligent.

For instance, Franklin Roosevelt during the thirties wrote a big check. He wrote out this big three billion dollar check, handed it over and he says, "Build an Atom Bomb". And it wipes out cities. He had Congress under his thumb. It was all set and roaring to go.

He could have written out another check for three billion dollars and given it to another group and said, "Build a defense for an Atom Bomb".

You notice he didn't do that!

You lay into a society the skill to trap a thetan. WHY DON'T YOU TEACH THEM HOW TO FREE ONE!!

Any time you get an imbalance it isn't this universe. It isn't that you have atoms. It isn't that you weren't thinking right and didn't join the OT's YMCA when you had a chance!

That is irresponsible thinking.

Let's face it, you were just knuckleheaded.

You had unlimited force, but there was not as much intelligence invested as there was force invested.

Now you say, it is a very intelligent thing to put an atom together, to be able to make matter, to be able to make almost ever burning radioactive fire for suns, to be able to erect tremendous space, to figure out the biological cell perpetuation on the second dynamic. Seeds, how do you make them? Terribly complex. VERY.

Completely knuckle-headed!

You never worked out how to **unbuild** anything!

You get the unbalanced action?

How do you pull the plug in the complicated made atom? How do you say . . . proton, negatron, nucleus . . . POOF! . . . and it is gone.

The whole thing was an insistence on enduring matter. It was to endure forever. That is not smart.

Eventually some of that stuff was made into a theta pull. That is the pull you have been on. The confounded things last forever.

I can tell you it is possible to be trapped for over thirteen and a half trillion trillion years.

That is interesting, isn't it?

All the technology of entrapment. My God, the tech of entrapment is a vast catalog! Vast amount of work

OT VII WELCOMED

One step closer to Total Power!

Ron has released it and the AO is delivering it right now.

Within 4 weeks after release, 45 OT VII's were produced at AOLA alone.

The release of OT VII has been the cause for much talk and excitement among Scientologists the world over.

The release of OT VII marks 1970 as the year of Complete Scientology. There have been outstanding advances by Ron such as Expanded Lower Grades, implementing full use of all Scientology techniques and the issue of the new C/S series on how to program cases.

The Bridge is opened now to only one step from Total Power, at which the full powers and thetan abilities are regained. The article by Ron in this issue gives you real data on what a being can do when he has all of his powers available. An OT VII is "right up there".

OT VII is an extremely powerful level. The basic and native ability of a thetan to project intention is rehabilitated and enhanced. This is an important thetan "skill" as it is a prime factor in a beings relationship with the physical and theta universes.

The level is audited in part by a highly trained Sea Org auditor and partly Solo Audited (auditing self). The sessions are usually short as the material is so powerful. A pre-OT on OT VII is often in a continual state of cognition.

Also, persons having trouble on OT III may go on and complete OT VII, disregarding the prerequisite of OT VI. This level miraculously relieves anyone of OT III difficulties, leaving a person free to complete OT III and move on up to OT VI smoothly.

When OT VII is completed the pre-OT receives a free professional Qual Consultation. The Qual Consultant can give the pre-OT sound advice on his case and the expansion of his gains. In the case where an OT III received OT VII, the Consultation is available on completion of OT III.

Each day in the Advanced Org, new shining OT VIIs emerge, are announced, congratulated and receive their certificates.

Each of you is invited and urged to move up to OT and be among the pioneers of a new civilization!!

Of OT III Ron says, "It is very true that a great catastrophe occured on this planet and in the other 75 planets which formed this Confederacy, 75 million years ago. It has since that time been a desert". (Ron's Journal '67).

OT III is the full revelation of what happened and it's resolution. At the level of OT III the barriers that obscure the ultimate truth of the universe are blown.

The Scientology Auditor by L. Ron Hubbard

Auditors have, since the first session of Scientology, been the only individuals on this planet, in this Universe, capable of freeing man.

An Auditor is one who has been trained in the technology of Scientology. An Auditor applies standard technology to Preclears.

At times, some will forget or choose to ignore the fact that the Auditor is not just another fellow or a guy who works in Scientology. An Auditor is a highly trained specialist, no matter what level of Auditor. He or she is the only one who can give man the truth that man knows.

An Auditor is to be respected. An Auditor is very important in Clearing this Planet and this Universe.

It's a big job and the Auditor will do it.

All Auditors are appreciated.

Special designations and insignia are to be developed to distinguish the Auditor from others and signalize his class.

L. Ron Hubbard

Levels of Classification

Auditor training begins at your local org with the HSDC (Hubbard Standard Dianetics Course) and Academy Courses Level 0 - IV. The HSDC covers Dianetics and the mind and how to audit it

Training in Scientology

with standard results. The Academy Levels cover the theory and application of the Expanded Lower Grades through IV.

From Academy Levels one moves up to the Saint Hill Special Briefing Course at the Saint Hill level org. A Briefing Course grad (Class VI auditor) is a superb auditor with full philosophic and technical command of all materials to Level VI. (On Level VI of the Briefing Course one studies basic materials on the reactive mind, learns to solo audit and audits self to Grade VI Release.)

After graduating the Briefing Course one goes to the Advanced Org for Clear, OT I, OT II and OT III. Then on to the Class VIII Course.

The Class VIII Course

The Class VIII Course is the top Auditor training course in Scientology.

This is Ron's Course! At this level the auditor grasps the simplicity and exactness of tech necessary to produce 100% Standard results in auditing.

A Class VIII learns to handle OT section auditing such as on OT IV and learns OT repair techniques. On Class VIII, an auditor is trained up to be able to audit any case expertly.

Much of the data on the course is found only within the confines of the VIII course room as it is highly confidential. On tape lectures given by Ron to the first VIII course on the Flagship, Ron talks casually about the structure of the mind, the exact nature of a thetan, who we are and who Ron is, what our role is on this planet and why people of this particular planet respond to certain things as they do. A Class VIII student studies LRH C/Sed folders chosen by Ron himself for the course.

To be able to handle any case, to know exactly what to do in any session, to be able to audit standardly and without effort, to watch a being cognite and expand in front of you – these are every auditor's desires. And at Class VIII it becomes real for **every** auditor!

The course is supervised by a top Sea Org Class VIII Supervisor. The hours are 9:00 A.M. to 10:30 P.M., seven days a week. Course length is 4 to 6 weeks.

If you are a Class VI, HDG, doing well on OT III, start the Class VIII Course immediately. If you don't meet the prerequisites yet, move up the line fast to the Class VIII Course!

Price of the Course is $1,500.00. If you pay well in advance the 5% discount price is $1,425.00.

The Class VIII Internship (HSST)

On completion of the Class VIII Course graduates usually go right onto the Class VIII C/S Internship.

A Class VIII Auditor is an expert, effortless auditor. A Hubbard Scientist of Standard Tech (as graduates are called) is an expert Case Supervisor for all levels of Scientology, from new preclears to OT.

On the C/S Course one studies all of the reasons "why" on all cases and how to handle every case. He studies thoroughly the basic data on the mind and on the thetan.

Students C/S many folders on the practical section of the course under the expert eye of AOLA's Chief Tech Case Supervisor.

An HSST can direct an auditing action and it will be the exact correct action, because he knows the total "why" of every case. An HSST is, in viewpoint, above the action between the auditor and the preclear or pre-OT. He sees the case as a whole.

An HSST can and does crack all cases he supervises.

The course takes about 5 weeks. You can start any time of the week.

Prerequisites are Class VIII, HDG. You can start immediately if you meet the prerequisites.

Price is $500.00. $475.00 with 5% discount for advance payment.

Enroll Now

Enroll now on the Class VIII Course and the Class VIII C/S Course.

There are no prerequisites for advance enrollment and advance payment. You should enroll – no matter what your training and processing level.

Write to the Letter Registrar of your AO and let her know when you plan to arrive. (Addresses of AOs on the back cover).

SUCCESS BEYOND MAN'S WILDEST DREAMS!

I walked my body down the street.

There was a tree. I could have that tree, I was within it, I was the tree, each cell and all the cells. And we were growing, reaching and loving.

I was each plant and each thing as I walked my body by.

How much neater can being be!

Robert Blatter
OT II

How grand it is to be a free being!

There is the feeling of striding among the stars and a realization of being able to be responsible for times and spaces.

I can now understand the magnitude of the task that lies ahead.

I will help make the way wider and bring reality to Ron's dream of a Cleared Universe!

Glenn Sisson
OT III

My experiences as an OT VII in the last few weeks have been incredible!

I cognite almost continuously and laugh often.

I have grown an inch and have found the body is adjusting toward an optimum level.

I see the Life in people and they seem to become more aware of it just being near me and in my space. This is fantastic to watch.

My ability to intend has been rehabilitated and is growing and expanding by leaps and bounds!! I can project my intention and cause an effect – and that's the highest purpose in the universe!

Charlie Groff
OT VII

The knowingness, power and intention of a being at OT VII is tremendous.

For example, a practical use of OT abilities was experienced the other night.

It was 2 A.M. The body was alseep. I was exterior and very much aware.

I received the intention of someone praying for help. I went there and saw a murder about to be committed.

As a thetan exterior, with **intention**, I stopped the murder. Then, with the body, had someone call the police.

The victims "prayers" had been answered.

With more and more OTs, more and more sanity and order and survival is occuring on this planet.

Kay Romeo
OT VII

The Earth is now a small dot diminishing where the end of the horizon passes away with the eons behind me.

I hold the Universe in my Theta hand. It falls away to dust and I am thrust up into infinity.

OT AND INTELLIGENCE

(continued from page 3)

put in on this subject.

AND NO WORK AT ALL ON HOW DO YOU FREE ONE!

Total technology of freeing one is you reach over on the trap, pull the guy off and throw him out in space to cool off.

That requires a what? That requires an OT.

What if there aren't any? That is an interesting question, isn't it.

So here you have the A-bomb with no defense for the A-bomb. This was continuous matter and a continuous tech of entrapment on and on and on endlessly.

More matter made, more endurance to that matter, more lasting qualities to the matter.

Some space opera societies make any metal on this planet look pale. The society has even worked on the refinement of elements to a point where . . . well, trying to dent a space ship that had an almost paper thin looking hull . . . the stuff sheds asteriods, little meteorites and space dust . . . just sheds them.

A space wagon travels in terms of trillions of light years in a day. All of Einstein's nonsense – just some more of the ignorance by which you get trapped. "You can't go faster than the speed of light!" I don't know. I am never in contest with a photon myself.

Teleportation is a pipe dream, too. Then may you mock something up here, then make it disappear, then move it over there, then say, "See I teleported it from there to here without going through the air and it is marvelous".

Clever! Except it never happened!

The reassembly of atoms of something in some distant place – that is an OT skill. It can be done rather easily. But it is not the same atoms.

Aside from vanishments of that particular character to carry out a stunt of teleportation and baffle everybody, the skill of making matter disappear is grievously neglected.

The technology of how do you free a thetan has been grievously neglected.

These are all neglected technologies.

The failure to teach a society equally to be able to free or to trap, that is not intelligent, it is stupid.

It leaves out half the equation.

You keep running outflow, outflow, outflow. Eventually it will get into a jam. It won't run any further. You have got to run some inflow for a while. You have got to balance up these flows.

Now that is quite important to you.

It says where you sit both as a being at this exact moment and WHY you are interested in this technology which is before you and why, strangely enough, this technology is appearing really for the first time in this universe.

"It is impossible", everybody will tell you, "the technology is impossible".

It is not impossible. Just totally neglected.

They think it is impossible because they have outflowed the reverse technology.

At this point in the line we are shifting gears of the whole game of the universe.

It is an adventurous thing to do and the only way we are doing it is by putting some intelligence along with force.

We have got the know how and the technology necessary to handle the problem which has never before been handled.

The story of the Advanced Organization

In 1965 Ron started producing CLEARS at Saint Hill with an exacting, carefully administered course conducted under his control and direction. The materials on the course are the culmination of an unbelievable amount of research, refined down to the essential data needed by any and all to completely erase the Reactive Mind. The release of the Clearing Course material was an unprecedented milestone on the road toward the ultimate survival of Mankind.

Through the following years Ron has discovered and developed the even more amazing materials contained on the levels of Operating Thetan which assist the freed being to regain the tremendous powers he once had. Here also the data contained on these courses had to be carefully and exactly administered by a highly trained and extremely trustworthy team.

This became one of the duties of the Sea Organization, Ron's crack management team. Highly dedicated Scientologists, after rigorous training, were formed into a specialized organization to administer and deliver the Clearing and OT Courses, called Advanced Courses. These organizations are the Advanced Organizations.

There is nothing like them on the planet today. An AO is different from any other Scientology organization. The many Churches of Scientology and Field Organizations prepare the student with lower level training and processing. From there he or she progresses to a Saint Hill Organization for the intermediate levels, where one learns the **techniques** used in the Advanced Courses on the Solo Audit Course or Class VI Course.

It is not until the student arrives at the Advanced Organization that he actually comes in contact with the highly confidential, incredible data contained on the Advanced Courses.

The Advanced Organizations are famous around the world for their effective smooth service delivery and their exact application of the special technology that Ron has entrusted in their care.

An AO will correct and complete any missing pieces in a student's earlier training and prepare him or her to tackle the material that goes right to the core of the Reactive Mind and eliminates those factors which have entrapped the true beingness of Man over the trillenia.

The staff of the Advanced Org are the Guardians and guides over the final half of Ron's bridge to Total Freedom and Total Power. They are exceptional persons themselves who hold ready for you, your future as an immortal, totally free and ultimately powerful being.

The Factors

BY L. RON HUBBARD

(Summation of the considerations and examinations of the human spirit and the material universe completed between A.D. 1923 and 1953.)

1. Before the beginning was a Cause and the entire purpose of the Cause was the creation of effect.
2. In the beginning and forever is the decision and the decision is TO BE.
3. The first action of beingness is to assume a viewpoint.
4. The second action of beingness is to extend from the viewpoint, points to view, which are dimension points.
5. Thus there is space created, for the definition of space is: viewpoint of dimension. And the purpose of a dimension point is space and a point to view.
6. The action of a dimension point is reaching and withdrawing.
7. And from the viewpoint to the dimension points there are connection and interchange. Thus new dimension points are made. Thus there is communication.
8. And thus there is light.
9. And thus there is energy.
10. And thus there is life.
11. But there are other viewpoints and these viewpoints outthrust points to view. And there comes about an interchange amongst viewpoints; but the interchange is never otherwise than in terms of exchanging dimension points.
12. The dimension point can be moved by the viewpoint, for the viewpoint, in addition to creative ability and consideration, possesses volition and potential independence of action; and the viewpoint, viewing dimension points, can change in relation to its own or other dimension points or viewpoints. Thus comes about all the fundamentals there are to motion.
13. The dimension points are each and every one, whether large or small, solid. And they are solid solely because the viewpoints say they are solid.
14. Many dimension points combine into larger gases, fluids or solids. Thus there is matter. But the most valued point is admiration, and admiration is so strong its absence alone permits persistence.
15. The dimension point can be different from other dimension points and thus can possess an individual quality. And many dimension points can possess a similar quality, and others can possess a similar quality into themselves. Thus comes about the quality of classes of matter.
16. The viewpoint can combine dimension points into forms and the forms can be simple or complex and can be at different distances from the viewpoints and so there can be combinations of form. And the forms are capable of motion and the viewpoints are capable of motion and so there can be motion of forms.
17. And the opinion of the viewpoint regulates the consideration of the forms, their stillness or their motion, and these considerations consist of assignment of beauty or ugliness to the forms and these considerations alone are art.
18. It is the opinion of the viewpoints that some of these forms should endure. Thus there is survival.
19. And the viewpoint can never perish; but the form can perish.
20. And the many viewpoints, interacting, become dependent upon one another's forms and do not choose to distinquish completely the ownership of dimension points and so comes about a dependency upon the dimension points and upon the other viewpoints.
21. From this comes a consistency of viewpoint of the interaction of dimension points and this, regulated, is TIME.
22. And there are universes.
23. The universes, then are three in number; the universe created by one viewpoint, the universe created by every other viewpoint, the universe created by the mutual action of viewpoints which is agreed to be upheld – the physical universe.
24. And the viewpoints are never seen. And the viewpoints consider more and more that the dimension points are valuable. And the viewpoints try to become the anchor points and forget that they can create more points and space and forms. Thus comes about scarcity. And the dimension points can perish and so the viewpoints assume that they, too, can perish.
25. Thus comes about death.
26. The manifestations of pleasure and pain, of thought, emotion and effort, of thinking, of sensation, of affinity, reality, communication, of behavior and being are thus derived and the riddles of our universe are apparently contained and answered herein.
27. There is beingness, but Man believes there is only becomingness.
28. The resolution of any problem posed hereby is the establishment of viewpoints and dimension points, the betterment of condition and concourse amongst dimension points, and thereby, viewpoints, and the remedy of abundance or scarcity in all things, pleasant or ugly, by the rehabilitation of the ability of the viewpoint to assume points of view, and create and uncreate, neglect, start, change and stop dimension points of any kind at the determinism of the viewpoint. Certainty in all three universes must be regained, for certainty, not data, is knowledge.
29. In the opinion of the viewpoint, any beingness, anything, is better than no thing, any effect is better than no effect, any universe better than no universe, any particle better than no particle, but the particle of admiration is best of all.
30. And above these things there might be speculation only. And below these things there is the playing of the game. But these things which are written here Man can experience and know. And some may care to teach these things and some may care to use them to employ them to make individuals and organizations more able and so give to Earth a culture of which we can be proud.

TWO WAYS TO WORK AT AOLA

JOIN THE SEA ORG

The Sea Org was formed as a superiorly disciplined, elite group working directly under Ron to aid the creation of a new civilization, starting on this planet.

The Sea Org has been incredibly successful as has been repeatedly shown by statistics since Ron called the first Sea Org members together in Spring of 1967.

From that heroic band it has grown. These persons, single-handedly are running the Sea Org land bases (AO's and Saint Hills), ships and vital mission activities throughout the world.

These are Scientologists who have reached the higher levels of awareness no matter what their training or processing levels may be. They have reached high levels of responsibility and, without thought of personal gain, take part in the direct task of Clearing Earth.

You might be such a person with the qualities of high awareness and duty.

When you are on the job as a Sea Org officer, missionaire, or staff member, you find that personal gain is not lacking in the least. The true road to personal gain and happiness that you deserve is through maximum contribution and duty in the Sea Org.

Your choice of action today actually determines the future of Earth. Each era of Man has been determined by your actions. This time you have the chance to apply Ethics, Tech and Admin necessary to lead Mankind to the pinnacle of his aspirations and purposes.

This time, for the first time, we have the tools. The way to do this with the greatest speed and effectiveness is by being a Sea Org member and doing the duties of a Sea Org member.

You have increased your abilities and awareness. Now you can use these to the fullest.

Contact the Personnel Officer of your AO for information and your Sea Org application.

JOIN THE COMPLETE YOUR CASE TEAM

The Complete Your Case Team has been called "an Auditor's dream" by auditors.

You are being offered a chance to be part of this new, urgent Complete Your Case Team. You will be hand grooved in on a special Project course (worked out by Ron), under top trained Sea Org personnel. You will work in the AO area as part of a special team that factually completes cases, grade by grade.

The duration of the project is one year.

In the Project Orders, Ron said this of the project, "With this unit actually repairing cases and completing grades a standard will be set for other auditing elsewhere which will force flubless production and high level training to occur. This team is setting an example and showing what can be done."

Auditors are thrilled with the possibility of auditing in a totally safe environment with 100% standard results. They get good guaranteed pay with lots of excellent training. Team members co-audit with each other to ensure their own cases are completed. This, along with top training and delivering hours of standard auditing results in high personal gain.

HDC's will be accepted. Class IV's, VI's and VIII's are prefered. You do not need to be Clear. The best auditors only need apply. But if you have had good results on pcs in the past but have lost confidence along the way, we will train you up to top delivery.

It is not mandatory that you sign a Sea Org contract to be on the Complete Your Case Team. You can sign a One Year or Five Year Auditor contract or the Billion Year Sea Org contract.
