THE WHEEL

DISCIPLINES OF

Riding into a snowing mountain pass in Tibet at the beginning of this century, Swedish explorer Sven Hedin came upon a small stone hut, with neither doors nor windows. His guides told him that a single *lama* (priest) was walled up inside — not as punishment, but *voluntarily*. He had been there for three years, and would remain there for the rest of his life, sitting in darkness, meditating, with only the most meager food pushed through a crack in the wall, wearing only a loincloth in the biting cold. One of his predecessors had remained in the hut for *forty years!*

At the monastery of *Tashi-Gembe*, Hedin saw an old *lama* sitting in a prayer hall, turning a ten-foot cylinder, a prayer wheel. He turned the cylinder every day from dawn to midnight, endlessly shouting prayers and incantations.

Rene von Nebesky-Wojkowitz, the Austrian anthropologist, describes a strange "mystic marathon," held every 12 years. Mysterious runners were said to run for days on end without pause, in a kind of ecstasy. In preparation for this marathon, an accomplished yogi and his two best pupils would be walled up in separate cells for *eleven years*. During these years of solitude, they undertook a study of occult writings as well as carrying out rigorous yoga disciplines.

Many other tales have filtered through to the West — tales of the incredibly rigorous exercises of the Tibetan monks trying to get themselves in shape — such as the arduous training exercises of *Pranayama* or breath control, and the exacting procedures of *Dharana*, concentration or "one-pointedness," in which a monk would fix his attention on a single object, such as a dot on a wall, for long periods — even years!

Why did these monks go to such fantastic lengths in the quest of their spiritual goals? What were they trying to achieve? Did they ever achieve it?

Let's take a trip to the "Forbidden Land" and find out something about these dedicated monks.

THE HERMIT PEOPLE

The people of Tibet have been called "the hermit people," living a life of isolation in a country long sealed off from the outside world. They are a people intensely devoted to their religion and their religious practices.

Life in Tibet, for many years, centered around their religion. Their religious leaders, the *Dalai Lama* and the *Pantshen Lama* were also, for centuries, the political leaders. The center of both spiritual and political life in Tibet has traditionally been its monasteries, from the huge, ornate *Potala*, seat of the *Dalai Lama* in the Tibetan capital of Lhasa, to the smallest of its over 2,700 monasteries.

What was this religion, that inspired so many thousands to devote long years to almost impossible disciplines?

LAMAISM

Some western observers, appalled at what appeared to them to be "a monstrous growth of priestcraft," somewhat derogatorily named the religion "Lamaism" ("priest-ism"). The misnomer has stuck.

Actually, the religion of Tibet, Ron has pointed out, is a further extension of Buddhism "... an effort to produce a methodology to reach the basis of the mind and permit an individual to be spiritually free."

Tibetan Buddhism is, in fact, one of the most radical doctrines of Buddhism; a heady mixture of classical Buddhism, occult Buddhism and Yoga disciplines, steeped in a long native tradition of "medicine men" and magic.

Buddhism initially came to Tibet from the great Buddhist universities of northern India who were largely

followers of *Mahayana* Buddhism ("Great Vehicle"), which held that the path to enlightenment was open to all, not just the select few. The *Mahayana* ideal was not just enlightenment, it was to become a *Bodhisattva*, a being who, having attained enlightenment, turns his back on *Nirvana* and is voluntarily reborn in order to help mankind. The *Dalai Lama*, for instance, is considered to be a *Bodhisattva*, returning life after life. When a *Dalai Lama* dies, a search is made for a male child born just after his death, and this child is named as the new *Dalai Lama!*

The Tibetan monks were taught to suppress the vasanas: the thoughts, memories and key-ins that would occur during meditation.

Their enthusiasm even infected the academic community, and many a sober monk gave up his studies to follow some half-clad, crazy *Tantric* guru (teacher).

But all was grist to the great mill of *Mahayana* Buddhism. Out of this mixture came a religion that was uniquely Tibetan: an ordered system of meditation, heavily overlaid with the mysticism and symbology of *Tantric* Buddhism and the arduous techniques of *Yoga.*

The resultant training discipline became one of the most lengthy, complex and rigorous ever devised on this planet!

The first Tibetan monastic universities, founded by the converted kings of Tibet, were modeled after the great Indian universities. They stressed a highly organized system of philosophy and logic, a broad-minded view towards differences in doctrine, a complex liturgy, and a classic, standard structure of meditation — an ordered program proceeding carefully from level to level.

Into this scene came another influence — the mad, long-haired, wandering monks of *Tantric* Buddhism. They traveled throughout the country, mocking the established ideas and challenging one and all with their mystic songs and riddles.

Tantric Buddhism, one of the most "far out" developments of Buddhism, was an occult discipline which combined the ideas of Buddhism with the techniques of *Yoga.* They introduced visionary and spontaneous techniques — magic, alchemy, astrology and the whole panorama of mystic arts — by which they sought to become "magical masters of the universe."

The Tibetan monks hoped to be reborn into a male body so they could become a monk again and continue their quest for enlightenment.

FREEDOM FROM ILLUSION

The goal was *Nirvana*, or "enlightenment," an awakening from the "illusions" of the physical universe (*Sangsara*). The means to this end were the seemingly endless techniques of meditation.

Having no way to terminatedly handle the reactive mind — and in fact having no clue of its existence — the Tibetan monks were taught to *suppress* the thoughts and memories and key-ins that would occur during meditation. These were called *vasanas*, the "habit energy" of memories which would rise up during meditation. The "unruly mind" was like a wild horse, they said. It had to be caught, tied with the rope of concentration or "one-pointedness," then tamed and observed.

Only by complete suppression of the *vasanas*, it was thought, could one understand the basis of the *sangsaric* (physical universe) mind, and transcend its influence, gaining spiritual freedom.

This goal had to be pursued, it was said,

"exhaustively" and "with unlimited patience." That was certainly an understatement!

THE DISCIPLINES

Here are some of the things a Tibetan monk would be expected to know and use:

- *One-pointedness*, or *Dharana*, a yogaic practice of concentration. The idea was to stare fixedly at a single object, such as a spot drawn on a wall, for days, weeks, even years! Eventually, it was claimed, the unruly *vasanas* would be tamed.
- Use of *mantras*, magical words and sounds, in meditation. Certain sounds, such as "OM," were supposed to set up vibrations when uttered correctly, creating various effects. These required many hours, days or years of chanting and perfecting.
- Use of *mandalas*, mystical diagrams which were objects of meditation or contemplation. These were loaded with the esoteric symbolism of *Tantric* Buddhism, and were "maps of the transcendent world." The many semi-divine *Buddhas* and *Bodhisattvas* of Tibetan Buddhism were arranged about a circular diagram.
- *Pranayama*, or "breath control." Monks learned to control and closely observe their own breathing. As in many other religions, "breath" (*prana*) was closely associated with the life force. Control of the breath was considered a very accomplished occult skill.

There were many other things to learn and drill: the *mudras*, or sacred hand and finger gestures, the *asanas* (yoga body positions), "food discrimination" (a strict and minimal vegetarian diet), a continual study of the many, many religious texts and commentaries — a seemingly *endless* catalog of disciplines, taking many, many years to master.

The goal of nirvana had to be pursued, it was said, "exhaustively" and "with unlimited patience."

THE WHEEL OF LIFE

What were they trying to achieve with these lengthy, arduous, sometimes bizarre practices? Why would they spend 20 years of their lives staring at a wall, or 40 years entombed in a dark room? What did they hope to achieve?

Ron says:

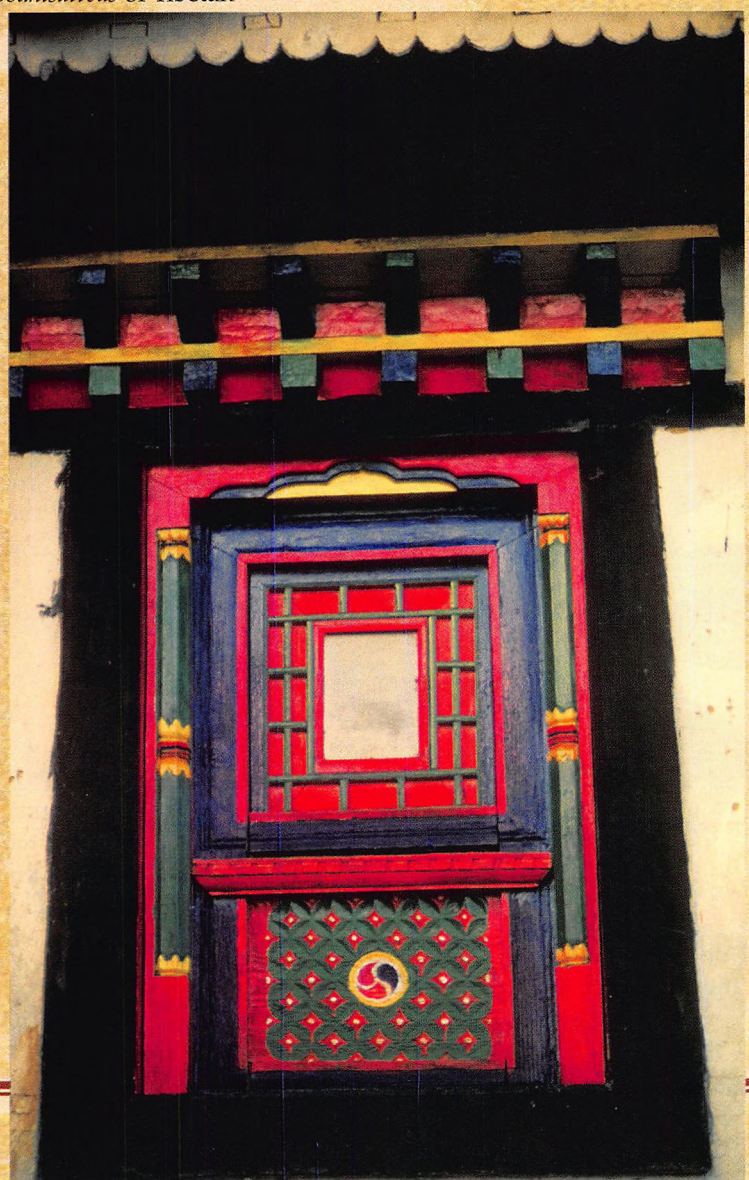

"For thousands of years men have sought the state of complete spiritual freedom from the endless cycle of birth and death and have sought personal immortality containing full awareness, memory and ability as a spirit independent of the flesh.

"The dream of this in Buddha's time was called 'Bodhi.'"

This was what the Tibetan monks sought: freedom from the birth–death cycle, the "Wheel of Life" as it was called. In this, they followed directly in the steps of Gautama Buddha. They sought a workable technology by which they could attain spiritual freedom. One of their most famous texts, in fact, is an attempt to end, or at least control, the birth–death cycle by giving continuous instructions to the person for 49 days after his death. This was the *Bardo Thödol*, the "Tibetan Book of the Dead."

The person was supposed to be guided through the *Bardo*, or "between-lives area" to either enlightenment or, if he was not ready, at least to a male body so he could become a monk again and continue his quest.

But the *Bardo Thödol* was more than just a manual of death. It was also a guide to the living, to

prepare them for eventual liberation. The adept was supposed to learn the art of *pho-wa* (the art of going out of the body) while still alive, so that he would be more causative when he left the body at death.

THE UNKNOWN PRESENCE

Did the Tibetan monks ever achieve what they sought?

Unfortunately, as we know today, spiritual freedom cannot be attained by ignoring or trying to suppress the reactive mind.

Ron has pointed out that,

> *"...due to the unknown presence of the reactive mind and its effect upon the spirit as well as the body, such periods of freedom were difficult to attain and were, as we have found, temporary.*
>
> *"Further, few could attain even this temporary state and those who did acquired it at the cost of decades of self-denial and personal discipline."*

The long years of unimaginably rigorous training and discipline, unfortunately, fell short of the goal. The anatomy of the reactive mind and the true nature of the traps of the physical universe, remained undisclosed.

1950

In 1950, the religion of Tibet was dealt its death blow. Grown to massive proportions, endlessly complicated with elaborate symbolism, rituals and costumes, parasitic on an already impoverished land, the religious structure of Tibet was ripe for a fall. With the arrival of Chinese troops, their dream of spiritual freedom was scattered, to be replaced with the mundane, MEST universe dreams of a Communist state.

"...due to the unknown presence of the reactive mind and its effect upon the spirit as well as the body, such periods of freedom were difficult to attain and were, as we have found, temporary."

Ironically, in the same year, a book was published which, at last, isolated and solved the barrier which had kept the Tibetan monks from attaining their goal for countless centuries: *Dianetics: The Modern Science of Mental Health* by L. Ron Hubbard. For the first time in history, the existence of the reactive mind, its exact anatomy, and how to conquer it, were revealed.

Today in Scientology, we have the answers which the *lamas* of Tibet sought with such dedication. The final secrets of the reactive mind, and the true nature of the traps of this universe, are at last unveiled on the Advanced Courses.

No longer does man have to toil endlessly over the convoluted paths and dead-ends of yesterday's spiritual disciplines, looking longingly at the stars. Today, with the dawning of the new Golden Age of Tech, it's a fast and direct rocket ride to the stars!

And the preparation for this journey doesn't require years of staring at walls. All the skills you need can be quickly mastered on the new Solo Auditor Course. In just a matter of weeks, you learn and drill *to perfection* all of the simple basics you need to audit yourself to OT.

The *lamas* of old would welcome with open arms this new, fast, effective road to achieving states of awareness and causativeness far beyond their dreams. And they would rejoice that the road to enlightenment is now truly open to *all* mankind, on the Advanced Courses!

THE STABLE DATA MAN HAS SEARCHED FOR THROUGHOUT THE AGES ARE CONTAINED IN THESE BOOKS.

The basic truths about the state of OT have been missing from all of man's writings down through history.

Now we *have* these truths. The stable data man has always been searching for are contained in these four books by L. Ron Hubbard — the OT Book Package.

SCIENTOLOGY 8-8008

Containing high-level, advanced data about life, the spirit and one's relationship to the physical universe, *Scientology 8-8008* deals with getting rid of the negative effects of living in the physical universe, and achieving a state of cause over it. This book could be called the OT operator's manual, covering the operation of universes, including the MEST universe.

With this work, Ron made it possible to reverse the degenerating effects of the universe and the people in it. Here are the techniques for restoring a being's capability to operate causatively in the physical universe.

SCIENTOLOGY 8-80

Scientology 8-80 provides fascinating data on the subject of the thetan and electronics — including major contributions to the fields of electrical engineering and nuclear physics, which remedy some omissions in fundamental electrical theory.

In this book, Ron shows how the life static plays against motion to produce live energy, and describes in detail how this relates to the production of facsimiles in the mind. He describes and shows the characteristics of motion: wavelengths, flows, dispersals, ridges. He also shows simple flows, explosions, implosions, retractor waves and how these are used by a thetan. This is vital knowledge for anyone traveling the road to full OT.

SCIENTOLOGY: A HISTORY OF MAN

"This is a cold-blooded and factual account of your last sixty trillion years." So begins *Scientology: A History of Man*, a major milestone in the works of L. Ron Hubbard. This is the culmination of Ron's extensive whole track research of late 1951 and early 1952, and contains the most incredible data about the true history of every thetan — a history never recorded in any Earth history book.

THE CREATION OF HUMAN ABILITY

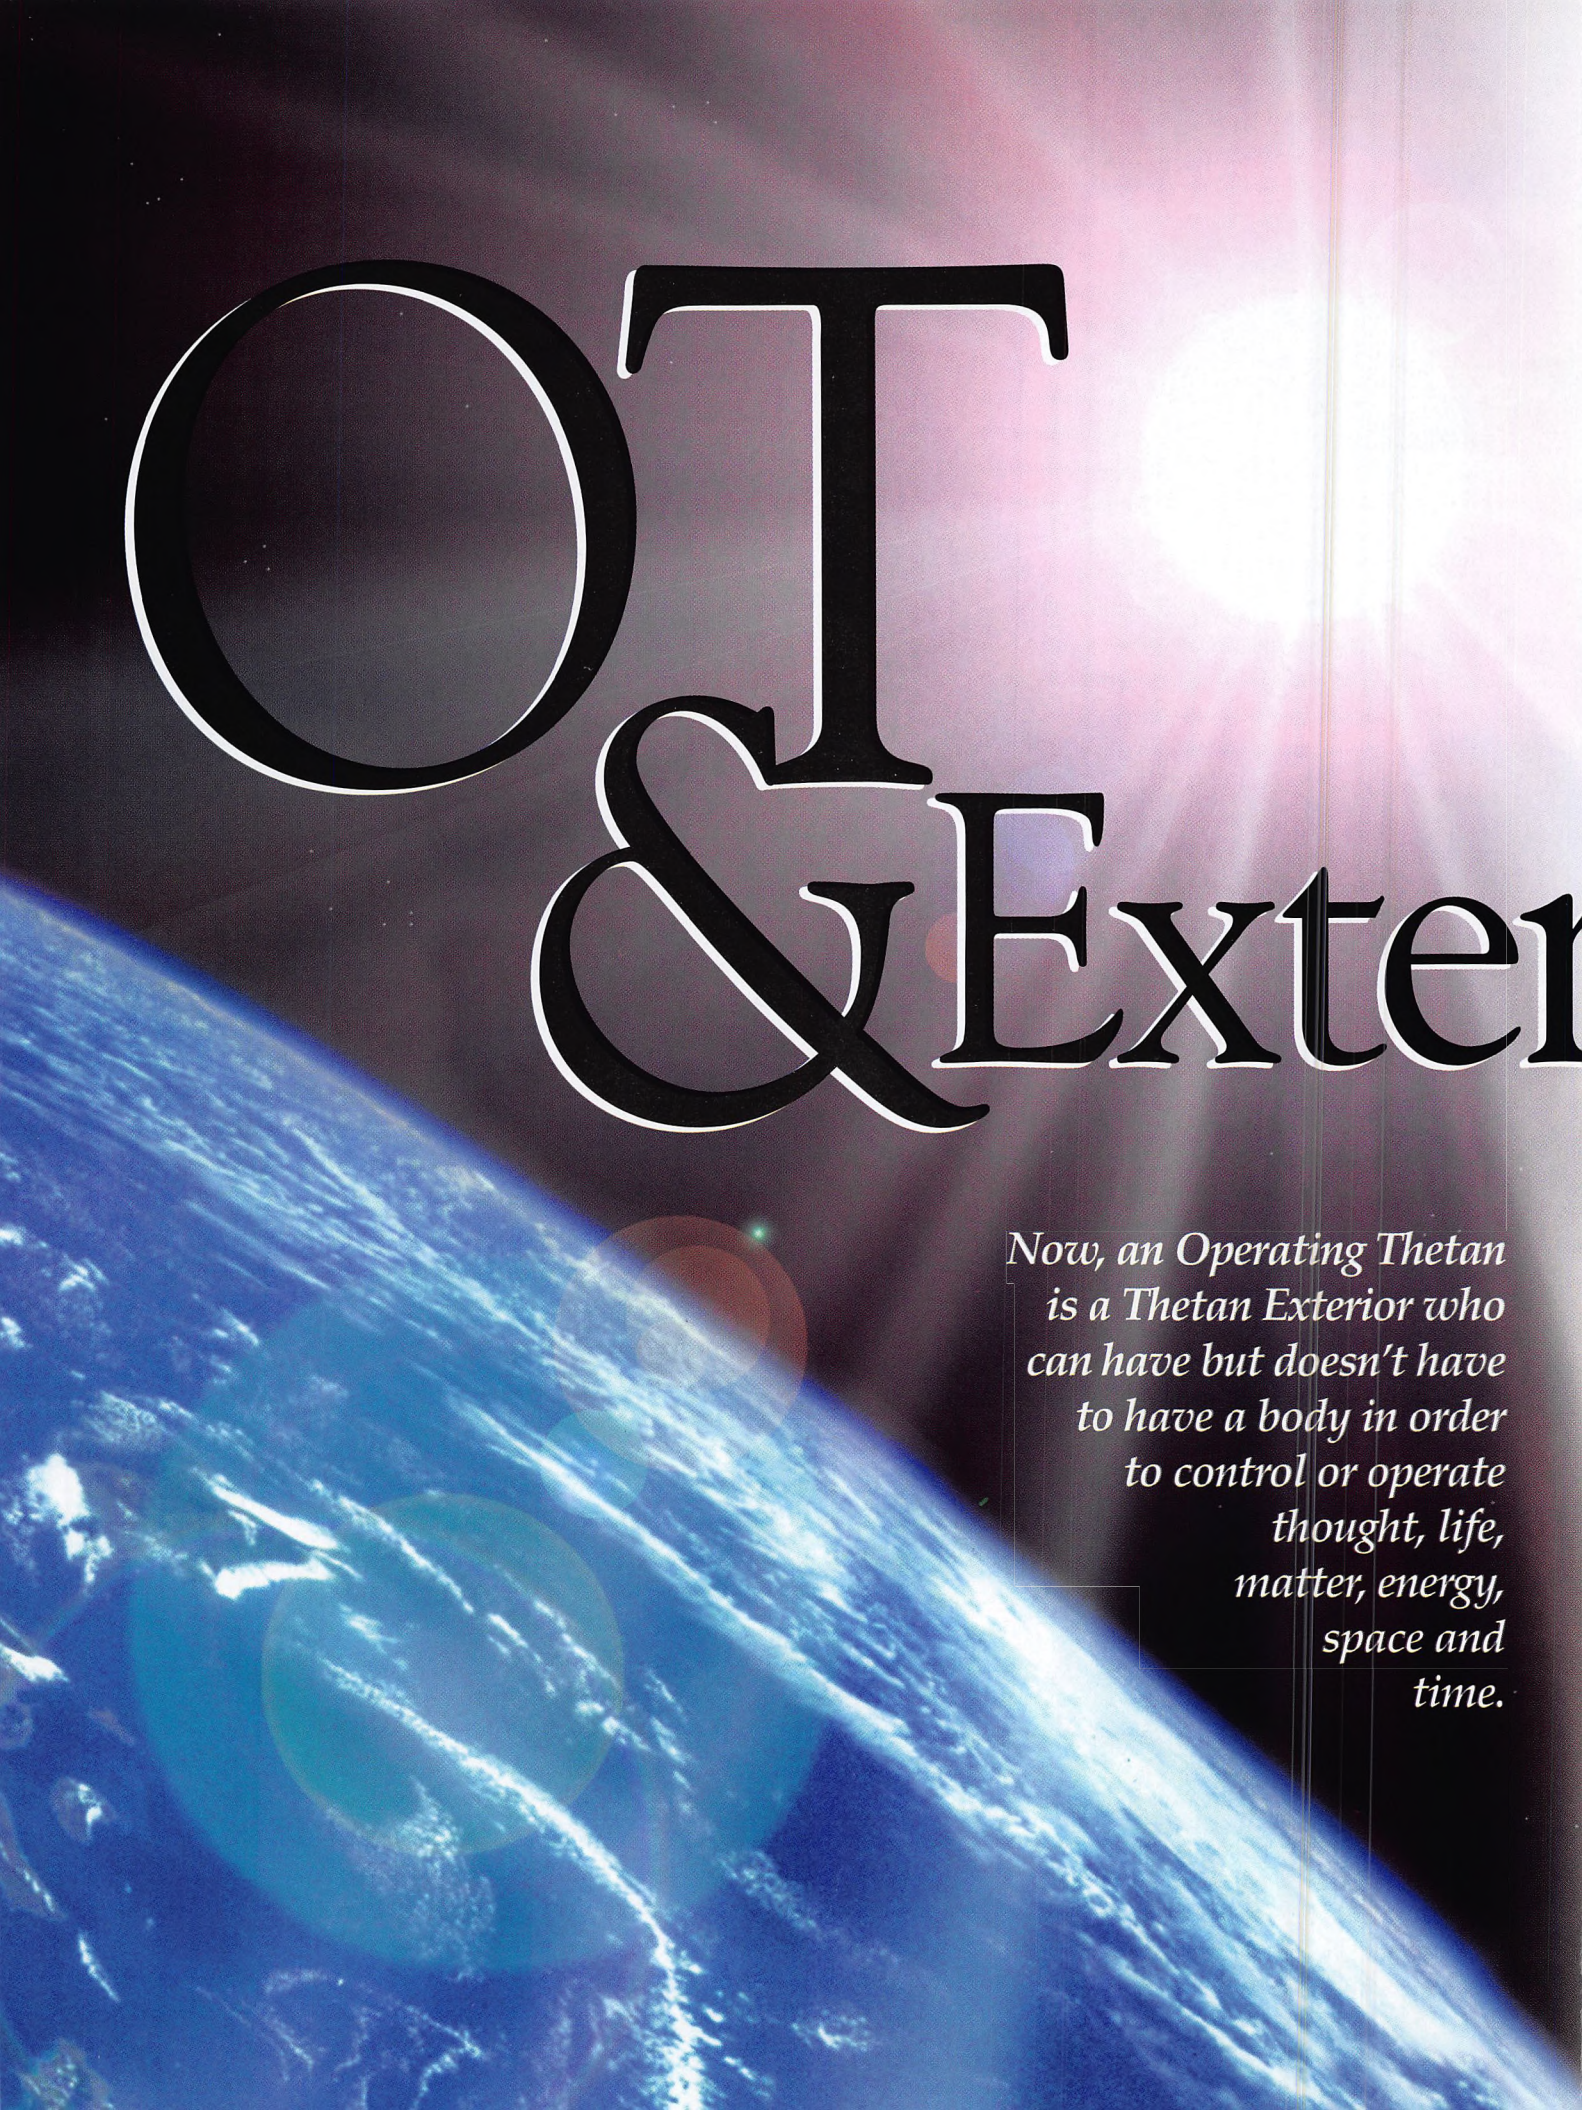

The nature and abilities of man have been a mystery throughout the ages. In *The Creation of Human Ability,* Ron explores man's true potential, and clearly lays out the tested and proven processes that can help an individual operate more causatively in the physical universe. He reveals how a person can become enslaved to the barriers of the physical universe, and maps the road to regain abilities which were considered unattainable.

OT & Exter

Now, an Operating Thetan is a Thetan Exterior who can have but doesn't have to have a body in order to control or operate thought, life, matter, energy, space and time.

iorization

By L. Ron Hubbard

When you put somebody back to the level of Operating Thetan, you're putting somebody back there who is different than any being who has ever been on the track. Because he's operating with experience.

There has never been, in the history of the universe, anything more than a *released* OT. So we must get the difference between a Clear OT and a released OT. There are two different types of OT.

Now, a fellow who's a released OT is just temporarily up and feeling high and great, but he can fall on his head. A Clear OT, particularly because of experience and so forth, it would be very, very difficult indeed — if at all possible — to make him fall on his head. So the way we use OT is we really mean Clear OT. That's what we really mean when we say, "We're going for OT." We mean Clear OT. And so, therefore, you must always be careful to use the word *release* ahead of an OT who is simply an exterior.

Somebody jumps out of a Level III session or something where they've all of a sudden gone and found themselves as tall as the Empire State Building and are walking around with their feet in the Atlantic being lord of all they survey and so forth. This person is *not* an OT; this person is a released OT. The funny part of it is, he may stay that way for centuries; he may stay that way for five minutes. But do not send to find for whom the bell tolls; the rest of his bank, sooner or later, is going to catch up with him.

Therefore, when you make a person who is exterior and conceives himself to be powerful on the lower levels — which you very often will do — you are making a released OT. And the definition is of course, somebody who is exterior; he is temporarily exterior.

Now, there is a whole line which parallels the line of clearing, so there are two lines involved here. There's the line of how much less bank does a fellow have — it's less and less bank; the person is going clearer and clearer — and how much is he out of his bank? So you can release a person out of his bank. The bank still exists, you see, and that is a Release; but the individual, actually, with less and less bank eventually becomes Clear, which is no bank and no compulsion to make a bank. And that is a Clear.

Thetan Exterior

The whole subject of exterior is another line. You know, you can take almost any human being with some techniques that we had back in 1952, you can bang almost anybody out of his head. And he at that moment will exhibit the characteristics of a Thetan Exterior — a being not influenced by a body. So when we say "a Thetan Exterior," we simply mean a being who is not influenced by a body; that's all we mean. He's out of his body.

It's an interesting side commentary on some past mental studies, that they considered this an insane condition. I've conducted research across this line. As a matter of fact, by taking an insane person and exteriorizing him you instantly have a sane person. So that a real exteriorization is quite phenomenal. The only trouble is, it's very temporary. Some of them last three days, some of them last three months, you know, some of them last three hundred years, as I've got some evidence. But the point I'm making here is that it's simply an exterior being, you know. The change of state is the lack of influence of the body. That is what brings about the change of state.

Now, a body can influence a person so much that an individual exhibiting neurotic circumstances or characteristics in a body will not exhibit them out of a body. But at the same time, he occasionally, because they are *his* aberrations, not the aberrations of the body, you exteriorize somebody and he will still have his aberrations. He'll still have some aberrations when he gets outside. He'll be able to handle them better, but he still has some aberrations, particularly physical ones.

You say, "What is he doing outside with a physical aberration?" It's hilarious when you try to cure somebody's cough by curing his body ailments, that when you exteriorize him, you find out that it is the thetan who's coughing! He'll be out there twelve feet back of his head going "Cough!

Cough! Cough! Cough!" He'll be the first one that recognizes it. He'll say, "Oh, I always thought it was the body coughing. It's me! Ho-ho!"

But it would have been very, very, very careless observation, if not criminal misreporting, to say that exteriorization only exists amongst the insane. You recognize that as a suppressive statement to prevent people from exteriorizing. That they knew about it and didn't investigate it any better than that is also a very bad commentary. But of course they had no technology by which it could be done.

Buddhism

Now, actually, Gautama Siddhartha in 523 B.C. was exteriorizing people and he was banging them out of their head left and right. And they were making a state called bodhi, from which you get the word *buddha*. Now, anybody who exteriorizes is a buddha. In Scientology we can make a buddha in thirty seconds. See, our technology on this is better, which is quite startling in itself. The lamas, a further extension of Buddhism, tried to develop practices which assisted exteriorization. And those developments did exist and they did assist exteriorization, and that is the basic goal of the lama also.

Now, when he doesn't make it and can't get out of his head, then he talks about "benign conduct." Do you understand? He wasn't able, in actual fact, to attain bodhi, which is exteriorization, so he redefines the word *bodhi* as somebody who is calm and benign and serene. I'm not now talking out of a knowledge of the current texts of Buddhism. I'm telling you the hot dope.

It's very, very difficult to exteriorize some people — so difficult to exteriorize them that they think they are a body. Now, some people who don't think they are a body are also difficult to exteriorize because of the mental masses and so forth which pin them into the body. This is a very uncertain procedure — exteriorizing somebody. But Buddha worked on it a long while, and it's uncertain and difficult to do. Some people can't do it at all, and so on.

Well, what prevents a person from exteriorizing is the mental mass called a mind. And this is the composite of his own pictures and aberrations. And these pin him to the body. Do you see? So, some people have more in restimulation than others, and so they're much harder to exteriorize than others; and because they're still able to develop this and it can still come in contact with the body, they snap back in with the greatest of ease and they can't operate outside. You get this difference? They can't operate outside. They need a body to drive a car.

Operating Thetan

Now, an Operating Thetan is a Thetan Exterior who can have but doesn't have to have a body in order to control or operate thought, life, matter, energy, space and time. So it's okay for him to be exterior.

In the past, the state of Release made this very complex. So that somebody would bang out of his head suddenly — you know, somebody would knock the body off or something like that — and he'd be out of his head, *bang*, you see? There he'd be. See, "out of his head" also in English, you know, is a suppressive definition of a cliché, means somebody who is crazy. Not accidental. That was knowing suppression.

So this fellow finds himself outside, see? And he can't do a thing. He can just about, you know, reactively go around and find the maternity ward of another hospital. Terrible. He can barely get from the accident ward to the maternity ward. Total state of unknowingness, no power of choice. He chooses any child at random, doesn't do a Security Check on the parents. All he can do is crawl down the hall and get to the maternity ward.

Now, through some change or experience or some factor in life, why, a few hundred years later he's out of his body. And he "brings his fist" (he hasn't got one now, you know) down on the nearest table and says, "Damn it! That was a mistake." His fist doesn't go through the table.

And all of a sudden with great mysteriousness he finds out that he has somehow or other regained, through some way he doesn't quite know how. He gets quite excited about it, by the way. The only operating textbook that he has had has been ghost stories, so he quite commonly goes and haunts a castle. That's what he thinks he's supposed to do now, or something like that. He hasn't had any games manual, you see? It's a fact.

He's an Operating Thetan, just like that! You know, he could pick up an automobile and pack it down the street. Well, this happens very rarely indeed! It's every few trillennia. But it's happened. Sometimes it scares him so thoroughly that he promptly drops the ability before he hurts himself, you see? But he does this.

And he knows he's like this. And maybe he'll go along for several hundred years in this kind of a state of operation. He gets into a duel. Somebody kills the body and he gets outside the body and he picks up the sword and just cuts the other fellow into small mincemeat. And you have these periods when witchcraft and that sort of thing are so well advertised. Then Roman Catholic Churches, not to name any organizations, rise up in order to put it down. Funny things happen. Funny things.

Well, these are sufficiently rare and far apart and the people who observe them are usually so frightened that nobody credits them, and so on because that is a very rare state. You get the idea?

There are even two states of being more or less aware of yourself exterior. A fellow can be very aware of himself; he can go running around and try talking to his friends and to hang around for two or three years and admire things, and so forth. Whereas he actually, in actual fact, can't move anything and can't talk to anybody.

Now, you get an incident of this character: A fellow is swarming up a scaling ladder in an attack on a castle, see? Now, according to his reality he gets up to the top of the ladder, he dodges a bunch of Greek fire that hits him in the teeth, see. And he throws that aside and he goes on up the ladder and he gets to the top of the ladder and he gets onto

the battlement and he's got his broadsword and he's just hewing about him left and right, till all of a sudden he realizes that this thing he sees as a broadsword is going through everybody, but they're not paying any attention to it. And he looks over the battlement and he looks down into the moat, and there is his recent body.

He's been dead for several minutes. But in the enthusiasm of carrying on, he hasn't noticed. Now, most anybody sooner or later has had an experience of that sort. It's terribly embarrassing! One feels very silly. You know, it's like the girl doesn't know her slip is showing; he hasn't noticed he's lost his body. So, that would be a Thetan Exterior. And this fellow might stay exterior for some time in a very knowing state. But this is only a knowing state, and he can't operate and he can't move anything, and this makes him very upset indeed. So he gets upset after a while with the state of being exterior and goes and finds another body.

Now, Buddha was interested in curing the death – birth cycle. Why did you keep having to come back and pick up a body? What was all this about?

The Death–Birth Cycle

Now, Buddha was interested in curing the death–birth cycle. Why did you keep having to come back and pick up a body? What was all this about? And he was trying to knock that out and some other people added the idea of nirvana and you became nothing afterwards. But it was just to knock off this thing of having to pick up another body and another identity all the time and mess it up like that. That was the aim and goal of Buddhism. It didn't have the aim and goal that the fellow ought to be able to operate. To that degree we have enormously exceeded any limits ever put in this direction before.

Now, Suleiman is one of the characters of Arab fame — you read about him in the *Arabian Nights.* And he put all the jinns in bottles with brass stoppers and threw them in the ocean. Well, I don't know what he did — probably ran an implant station — but he and the Catholic church have had, actually, periods of being extremely active in knocking out any possibility that any thetan would ever come uphill far enough to be an Operating Thetan. People become terrified of these beings. Your biggest forward menace in Scientology is that the world becomes too terrified of an Operating Thetan.

Exterior from the Universe

So you see, in actual fact, exteriorization could probably be practiced that you could probably exteriorize a Clear Exterior — you know, a person who is Clear and who slides out of his skull — and you could probably fix him up so that he could exteriorize from the universe. And you probably even could get an auditing command that would probably do it. And I probably can tell you what the auditing command is. As a matter of fact, I see no reason not to tell you, since nobody is interested in it or would use it, and so forth. And it's not part of the OT Course, see?

It would be just like 1952, the command that puts people exterior. Bang! It would be the same command exactly, which would be: "Try not to be outside the physical universe." So you could probably move somebody out of the physical universe as an exterior; you could probably take a Clear Exterior and you could probably exteriorize him from the universe, too. But again, this would be a situation where you were just merely making an exterior, and it would undoubtedly be completely unstable. Because in actual fact, this person is not at cause over life, thought, matter, energy, space and time. He's not at cause over this stuff. He is still very much the effect of this stuff. And as long as he is thoroughly the effect of this stuff all the way up the line, why, of course he cannot exteriorize from the stuff.

There's a lot to know about this. It's very complex. It sounds awfully, awfully simple when I tell it to you this straight, and actually would *seem to* be very simple, and *seem* to be straightforward. But it's something like saying to somebody, "You can come back in the universe now."

An individual who is cause over something, or can be cause over something, is not necessarily total and absolute effect of it. Don't you see? That doesn't mean he doesn't have to have anything to do with it. Just because you can fix a car is no reason why you can't enjoy a car. Do you follow?

Technology

As far as the technology is concerned though, you say to this fellow (he's a knight; he's going out in the jousting and there's the big lists down there), and you say, "Now, Sir Joe, all you've got to do is go down there and just take that stick and just shove the champion of Europe out of his saddle, and you'll be champion of Europe. Now, you go do that, Joe."

You see, that's apparently a very simple action. There's apparently nothing much to this. And it'd only be a damn fool, though, who would do just that, because he might accomplish it once but the next time he would probably get the other fellow's stick through him. There's a lot to know about jousting. Terrific amount to know about it. It's a very complex subject indeed.

And whereas all you have to do is hit the other fellow with your spear so as to knock him out of the saddle and you win. See? Well, all right. But now your trouble begins. He's been trained not to be hit; he is also trying to hit you.

And between these two factors, the action of trying to do

something to him can become very, very dicey indeed. And if any of you have ever seen a gout of dust going up on either side of your ears, seen through small slits with occasionally the columnous leg of a horse acting as a bar across your field of vision, you will know what I mean.

Now, man, in his previous philosophic studies, simply said — it wasn't that he didn't know that you could be exterior — but he simply said, "Well, I'm going into a state of total serenity and benignity and withdraw up to the top of the mountain and abandon the body, and so forth, and meditate. "There's nothing to this." Then he sees that dust coming up on either side of his head! He says, "My God! What happened?"

Well, the adversary in this case is all of the complexity of wisdom of the ages, carefully suppressed and combined to keep somebody from doing it.

Truth of the matter is, it's absolutely impossible to make a Clear, it's absolutely impossible to make an OT. We've now made a hundred and forty Clears and we're well on the way to making a tremendous number of OTs. But there's a lot of blood, sweat and tears goes into it, see? It's not a mild operation as the Clearing Course Supervisors can tell you.

There are probably people lying out right now, watching that dust curl up into the air around, and thinking, "My God! I will never make it." Because life is quite an adversary; and the bank is quite an adversary, and you shouldn't ever underevaluate these things. And therefore, you can't really overvalue the state of Clear. It has never been achieved before.

And you got hit in the skull by lightning and you suddenly found it didn't hurt. And you said, 'I didn't like that.' So you threw an equally large shaft of lightning back at the lightning. You say, 'I did that? What am I doing? Goodness, I can do that.'

From Clear to OT

Now, the individual starts walking uphill, and he takes this by gradients, and there's probably a greater distance between Clear and OT than there actually is between wog and Clear. There's probably a greater distance. It isn't necessarily that the distance is huge or enormous or anything like that. I say there's a great distance in it. Because what he's doing is walking upstairs and he's integrating all of his experience against this thing.

We're getting this strange being who isn't just suddenly all-powerful or something of the sort. We're getting this being who is all-powerful and still can fix the kid's electric train, do you see? And he knows all about life, you know? He knows this whole pattern out here of the causes and effects of various things and how they're interwoven and what happens and what doesn't happen — he knows all these things by experience. Without suffering from the experience, he yet has the experience.

So he experiences everything that he wants to experience and doesn't have to experience things that he doesn't want to have experience. He's in actual fact a walking miracle who is himself comprehending all the miracles.

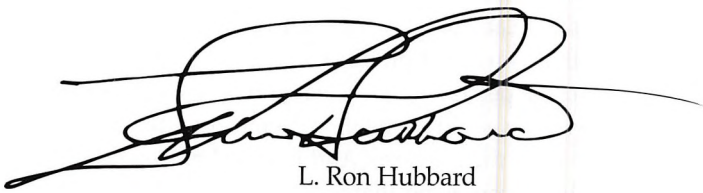

So, it's quite remarkable. And these states have existed, so therefore it's very possible for you to read someplace or another about somebody who's been an exterior and so forth, and say, "Oh, well, yes, Scientology existed before." No, no. You yourself have been exterior.

I'd say in the not-too-distant future, at some time or another, you will know by the count and number, the number of times you've been released. You just lost a body and you were on a mountainside and thunder and lightning opened up and you hadn't had time to pick another body. And you got hit in the skull by lightning and you suddenly found it didn't hurt. And you said, "I didn't like that." So you threw an equally large shaft of lightning back at the lightning. You say, "I did that? What am I doing? Goodness, I can do that."

And like a prizefighter that knows not his own strength, goes out and starts knocking out every man that comes along. And then with that equal speed, one day one is getting the lightning coming down from the sky and in a fit he throws back the lightning and nothing happens. You see, something that came on unknowingly went off unknowingly.

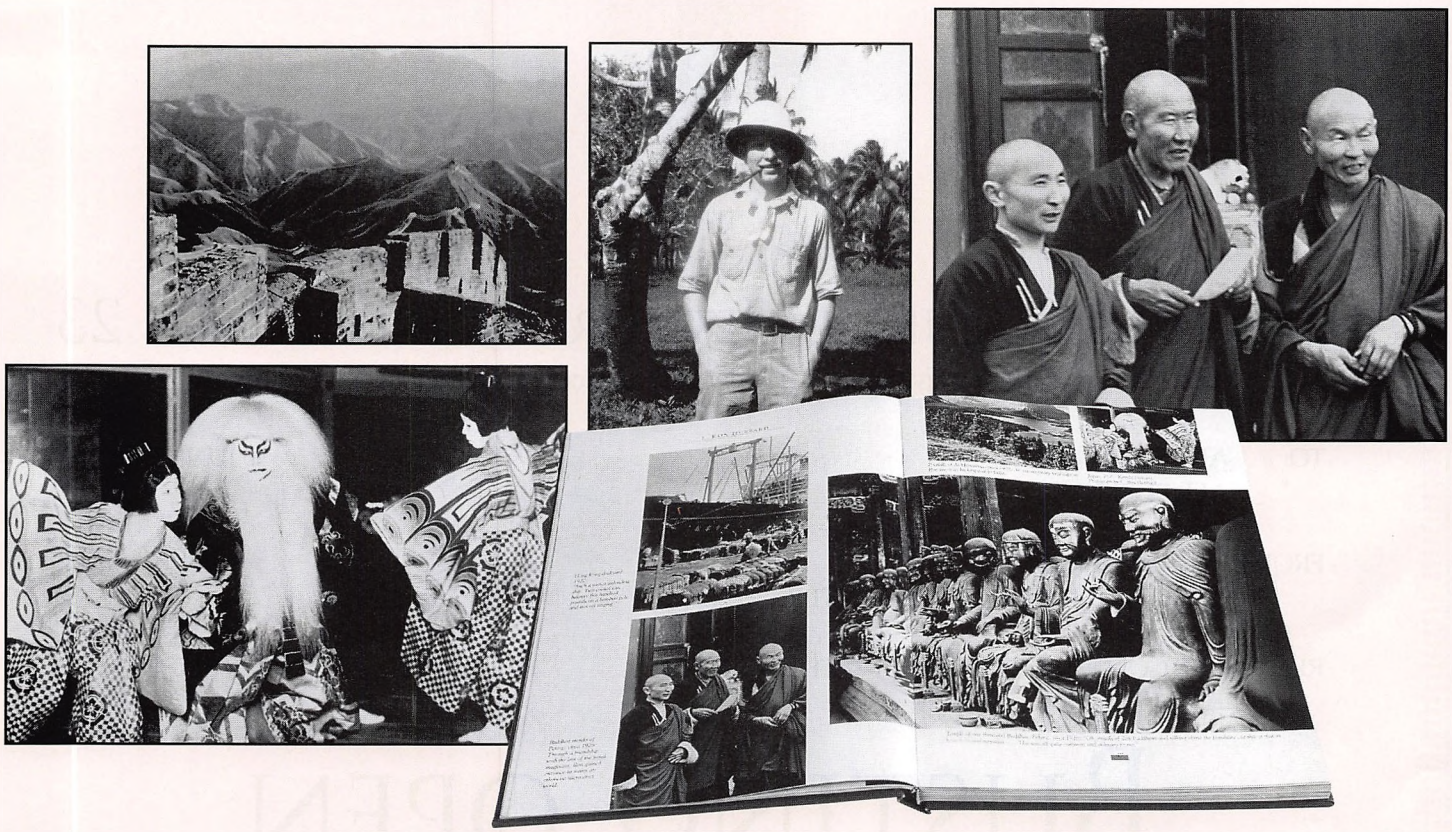

So knowing and willing cause is part of the definition of OT, and total absence of bank is the definition of Clear. So as you move from Clear to OT why, all additional automaticities and miraculous changes of state and that sort of thing, these come under your control and position, one right after the other. And you gradually get to a point where you could turn these things on and off, you see?

You could be the storm or the sunset, you know? You would know what you were doing.

INSPECTOR GENERAL NETWORK BULLETIN NO. 23

from Religious Technology Center — Holder of the Dianetics and Scientology Trademarks

TO: ALL STAFF
ALL PUBLIC

30 JUNE 1996

FROM: CHAIRMAN OF THE BOARD
RELIGIOUS TECHNOLOGY CENTER

RE: THE GOLDEN AGE OF TECH — THE NEXT STEP

BUSTING OPEN THE TOP OF THE BRIDGE

How you and all your friends *will* make it to full OT — and faster than you ever dreamed possible.

Since the launch of the Golden Age of Tech at May 9th celebrations world over, Scientologists on every continent are employing the new training tools and drills for an unprecedented era of flawless technical application. Reported results are literally ten times anything previously known, and that long-postulated army of perfect auditors is truly becoming a reality.

Now, however, I am happy to bring you news of another technical advance of equal magnitude, and that is the subject of this issue:

The Golden Age of Tech has reached into the realm of full OT!

In brief, we are speaking of new training tools directly applicable to the attainment of Operating Thetan, and what that means to each and every Scientologist is this: Your route to full OT has just become more certain, more direct and, in all truth, faster than ever before.

In Ron's Journal 35, FROM CLEAR TO ETERNITY, LRH writes:

"...the AMOUNT of gain available to one person is never really conceived, in an aberrated state, to potentially exist above him.

"It is a never-ending source of wonder to people,

released at the May 9th Event, are now making the dream of OT a reality for everyone. The following Inspector General Network Bulletin from the Chairman of the Board Religious Technology Center describes these breakthroughs in full — and what they mean to your eternity.

going truly on this route, that there could be such QUANTITY of gain available to one being." LRH

Yet, as LRH also points out, while the quantity of gains is increasingly greater as one progresses up the Grade Chart, the actual time spent auditing and required level of auditing skill is similarly greater. And with that greater emphasis on Solo auditing comes an absolutely crucial fact: Providing one's lower levels are fully in, the only significant stumbling block to OT is an inability to audit.

And therein lies the key datum behind the Golden Age of Tech as applied to the OT band. To explain: Just as LRH compares the skills of an Academy auditor to those of a concert pianist, so, too, does the analogy hold for the Solo auditor. That is, just as the pianist must master the basics of musical scales, musical literacy and finger dexterity, so, too, must the Solo auditor master the basics of TRs, metering and general auditing skills. Moreover, the Solo auditor must master a full 89 separate auditing skills if he is to swiftly and easily progress through the OT levels. And it is in the name of mastering those 89 skills we have created the new Golden Age of Tech Drills for the Solo auditor.

Nothing changes as regards the Solo auditor training lineup; there are no new prerequisites. But with the implementation of the new Standard Solo Auditor Drills, we suddenly have the means to make Solo auditors of the same flawless caliber now trained in Academies under the new Golden Age of Tech banner. In other words, we have the means to turn out Solo auditors possessing the same degree of technical proficiency LRH himself speaks of when describing the ideal Solo auditor — the auditor who will ultimately take you to full OT.

So, that's Step 1 of the new Golden Age of Tech drills as applied to the Solo levels, and thus the making of a Solo auditor who has mastered every auditing skill necessary to ensure his route through the OT band.

Yet when discussing advanced level auditing skills, we are also discussing the actual auditing of the advanced processes themselves.... And therein lies the second realm of application where the new Standard Solo Auditor Drills are about to make a world of difference.

To once again return to our analogy of the concert pianist: When that pianist has mastered all his basics, he must then — and only then — master the song itself. In auditing, that song is, of course, the auditing process – whether Grades 0 through IV in lower level auditing or R6EW through the OT levels along the upper band of The Bridge. But in either case, mastering the song is essential, and so we come to the second series of drills as applied to Solo auditing:

Drills that teach the Advanced Course student how to perfectly apply the exact auditing procedures that will take him to OT.

To begin with, and precisely as the lower level student drills in the theory of study tech, Advanced Course students will drill in the theory of advanced levels. In other words, each Advanced Course — from R6EW through New OT VIII — now incorporates the breakthrough of drilling to ensure students gain an unshakable grasp of all theory relating to the actual auditing of those upper levels. That, when speaking of such theory, we are speaking of the fundamental secrets of all eternity goes without saying. But the primary point is this: We now have the drills to provide students with an understanding and mastery of advanced Scientology data that will see them through the whole of the OT band.

With the theory firmly under one's belt, the Advanced Course student next begins those drills related to the actual advanced auditing processes. What those drills mean in terms of certainty, proficiency and speed of passage through the OT levels is, frankly, impossible to appreciate without the experience. But suffice it to say, from this point forward when you start a Solo session as a Solo auditor you'll be starting with the best — bar none.

THE NEW LINEUP THAT WILL MAKE YOU A PERFECT SOLO AUDITOR

Here is how these new breakthroughs in OT application have been incorporated into the Grade Chart services you will be doing enroute to full OT:

The New Hubbard Solo Auditor Course: Solo auditor training is everyone's first step to the realm of OT, and it must be a certain one. The New Hubbard Solo Auditor Course provides just such certainty — the unshakable knowledge you will become the perfect Solo auditor. This course is precisely the course LRH had always intended for the training of Solo auditors — a serious course providing all basic skills for the making of an OT.

"TODAY, WITH THESE NEW ADVANCES, THE WINS HAVE NEVER BEEN SO NEAR AT HAND. YOU SIMPLY NEED TO AVAIL YOURSELF OF THEM — MAKE THE TIME AND DO IT."

Foremost among the skills gained is an absolutely professional command of the E-Meter. Indeed, the New Hubbard Solo Auditor Course employs the same training elements as found on the now-famous Flag Metering Course, and to the same famously perfect results.

Because the Solo auditor must employ many of the same auditing skills as the Academy auditor — rudiments, listing and nulling and the handling of prepared lists — the New Hubbard Solo Auditor Course likewise utilizes the same Standard Tech Procedure Drills employed with such phenomenal success on the Academy levels.

In short, the New Hubbard Solo Auditor Course lays in the full body of Solo auditing tech with a certainty and flawless application that can only be achieved with the training tools from the new Golden Age of Tech.

Solo Auditor Certainty Course: Providing the previously trained Solo auditor with the revolutionary benefits of the new auditing drills is what the new Solo Auditor Certainty Course is all about. This course is designed for any Solo auditor, regardless of how uncertain he may be of his Solo auditing skills. Indeed replacing long-standing doubts with well-deserved confidence is the hallmark of this course — and all in about 2–3 weeks (or even less at Flag)!

Advanced Courses — R6EW to OT III: At the heart of each advanced level is a specific auditing procedure LRH developed for the vanquishing of barriers to full OT. In all, these procedures provide us with the single most glorious endeavor imaginable, the return to native state.

What the new Advanced Course Drills provide, then, is the means to make that route swifter and more accessible than ever. For here is nothing less than a step-by-step progression — as easy as connecting the dots — from the threshold of Clear through the Wall of Fire.

New Training Lineup for Solo NOTs: As LRH has repeatedly stated, Solo NED for OTs is a long and very critical level. To be sure, one's entire future as a being from now until forever, ultimately depends upon the skill and thoroughness with which he confronts the Second Wall of Fire.

Although by no means a complex level, Solo NOTs nonetheless requires an unprecedented degree of skill. Indeed, the ideal Solo NOTs auditor must master a full 79 separate auditing skills/procedures, each unique to Solo NOTs. For only with those skills, honed to perfection, will the Solo NOTs auditor be assured of a certain and direct route to Cause over Life.

Unwavering skill towards a sure and thorough passage through that Second Wall of Fire is the whole point of the new Solo NOTs auditor training lineup. That lineup consists of 3 parts: a review of Solo auditing basics, the theory of Solo NOTs auditing and, finally, the actual Solo NOTs procedures.

Although each part of that lineup makes use of the new Golden Age of Tech drills, it is the final step — learning the application of Solo NOTs procedures — where those drills come into full play. For here, the Solo NOTs auditor gradiently masters each and every one of those vital 79 Solo NOTs skills... until, at last, he is effectively auditing with the same array of tools LRH himself used to pave his way through this last crucial step to the threshold of native state.

Solo NOTs Auditor Certainty Course: Many pre-OTs reading this may already be in the Solo NOTs band and may be wondering how they take advantage of these new advances. Well, if this applies to you, know this: your speed through this level has just increased by a factor of 10! And no, you do not have to redo anything you have already done in your training.

The Solo NOTs Auditor Certainty Course has been designed just for you. While carrying on with your Solo NOTs auditing, you can do every one of the new drills for Solo NOTs and so attain every auditing skill under the direction of the Flag Advanced Org and your Solo NOTs Case Supervisor.

In the simplest terms, the results will be like adding a turbocharger to your progress through the level.

WHAT TO DO NOW

You may now be rightfully asking yourself the all-important question: "What do I do next?"

As a first step, and no matter where you stand currently on the Grade Chart, you should go to your local org and

"WE ARE TALKING
BUT A SPECK OF TIME,
ONE-TRILLIONTH THE SPAN IT TOOK YOU
TO GO DOWN SCALE."

view the video-taped release of The Golden Age of Tech for OT given aboard the *Freewinds* on the 8th Anniversary Maiden Voyage. This video supplies vital details well beyond what is contained in this issue.

Moreover, International Management has issued programs and directives to your local org, providing them with all details necessary to help you determine your exact steps to OT.

As a general word on the subject of your progress, however, let me add this: If you are currently on the lower grades, then continue moving up The Bridge with all possible speed. The gains ahead are even greater than the best of your best wins of today — and I mean that very literally.

If you are presently stalled on The Bridge casewise and these new releases don't immediately break the logjam on your progress, you need the False Purpose Rundown. With the recently announced refinements of FPRD and its spectacularly expanded results, this rundown will make short work of all stops and leave you in better shape than ever to enter the OT realm.

If you are a Dianetics Clear or if you are a NED Completion that didn't go Clear, get right onto the Solo course in your local org.

If you are in the no-interference zone (between R6EW and OT III) and have not recently audited, then you should sign up for the Solo Auditor Certainty Course at the Advanced Org. Once you have completed that course and the New Hubbard Solo Auditor Course Part Two (where your skills get polished in session), you may route right onto your next OT level.

If you can't at once make it to your AO, then sign up for the new Solo Auditor Certainty Course at your local Class V org. This way you can get through all the new drills and when you DO arrive at the AO, you'll have just a short stint on the New Hubbard Solo Auditor Course Part Two, and then right onto your next OT level.

If you're through the no-interference zone, you should immediately begin on audited NED for OTs, New OT V at one of our Advanced Organizations or at Flag.

Finally, if you have started the NED for OTs band, but have not made it to New OT VI and VII — Solo NED for OTs — Flag awaits you and, frankly, wins beyond all imagination.

Any further questions you might have will be answered by the new Solo Drills video presentation or by your local org's technical staff.

SUMMARY

These are very exciting times in Scientology. Technical lines have never been buzzing more than they are right now, and the only thing that will top these new Solo and Advanced Course drills and materials is the boom that will occur for all of Earth civilization when thousands move up the OT levels and begin to experience all the gains these levels offer.

And from that point forward, the planet will never be the same.

So there you have it.

I hope you feel briefed.

I would, however, like to leave you with one final datum: nothing is more important than getting up the OT levels. There is nothing to compare with the abilities they restore.

Today, with these new advances, the wins have never been so near at hand. You simply need to avail yourself of them — make the time and do it.

We are talking but a speck of time, one-trillionth the span it took you to go down scale.

So I tell you this with absolute certainty — just start!

After one period of one day on course, you'll know.

In fact, you'll be thanking yourself 4 quadrillion years from today.

Because it will be the pivotal turning point of not only making it through the first Wall of Fire, not only making it through the Second Wall of Fire, but it will be the moment you *guaranteed* your eternity!

Capt. David Miscavige
Chairman of the Board
Religious Technology Center

Throughout the ages, wise men have tried to see into the world of spiritual phenomena, to find their way to total freedom.

They had no idea what they were up against.

And, lacking a meter, they had no way to find their path through the well-laid traps of this universe.

Today, we have that path.

And we have that meter. The Quantum E-Meter.

Today's Quantum E-Meter represents the greatest single advance in the history of metering. Why?

Simply this:

On all previous meters, the size of meter reads changes as the Tone Arm changes. For example, as the Tone Arm goes down, the reads get bigger. And as the Tone Arm goes up, they get smaller.

In fact, they can get very small.

And even disappear.

That means you can miss them. And if you miss reads, you get bypassed charge — mental mass which has been keyed in but remains unknown and can therefore affect you adversely — in session and in life.

LRH envisioned the solution — an ideal meter with automatically-adjusting variable sensitivity — a breakthrough so advanced that it was beyond the primitive state of Earth electronics at the time.

Now, science has at last caught up with LRH's vision of a perfect meter. And that meter is here.

The Mark Super VII Quantum E-Meter.

Like a powerful electron microscope, it magnifies those tiny or invisible reads so they are *big, clear* and *unmistakable.* So you find that charge.

And blow it away forever.

And in auditing, that means *everything.*

The Quantum E-Meter gives you the ability to look down the whole track and peg incidents trillions of years old, with reads so large they're impossible to miss. That's almost like an OT perception.

The Quantum gives you precise, consistent, visible reads — no matter where the TA is. And that's why we say that if you took

Arrive at AOLA now, and you could be OT III by Christmas! With the new Golden Age of Tech for OTs, your route up the OT Levels is now more certain and faster than ever before! Our full time students are beating their checksheet time.

It all starts with learning how to Solo audit–this is the most vital skill one must master in order to reach OT. After all, LRH points out in the article, *"From Clear to Eternity"*, the time one will spend Solo auditing will be many times that spent at lower levels being audited by another.

THE RISK FACTOR

LRH says:

"Anyone who is Clear but not on OT III had better be pushed up to OT III fast because otherwise he is at risk."

HCO™ PL 23 Dec 71RB, The No-Interference Area Clarified and Re-enforced

What do you think is meant by "at risk"? In a recent survey of Clears who have not moved onto and through the OT Levels, we found they knew they could and should be doing better in life, but just weren't. Sound familiar? *You need to get onto and through OT III now.*

THE GOLDEN AGE OF TECH FOR OTs HAS ARRIVED AT AOLA

Our veteran Solo Case Supervisor had this to say:

"I've been C/Sing the Solo Course at AOLA for over 20 years. These new Solo auditors are *perfect*. I look for technical errors. I look for administrative errors. I don't find them–*they are really perfect*. The Golden Age of Tech for OTs has arrived at AOLA!"

FEAR OF FLYING?

Perfection is a pretty high goal, but you must be perfect in order to obtain the full gains available to you on the Advanced Courses. It's perfection with a definite purpose–to make you an Operating Thetan and restore your true abilities. With the new Golden Age of Tech Solo checksheets, we can turn anyone into a perfect Solo auditor.

MAKING IT TO OT

The Solo Courses, Part I and Part II, exist for one reason only–so you can make it to OT.

All earlier meters QUANTUM

On all previous meters, the size of meter reads changes as the Tone Arm changes. As the Tone Arm rises reads get smaller.

The Quantum automatically adjusts its sensitivity to give you big, clear reads at any Tone Arm position.

every advance in metering since the earliest meter and combined them all into one, you still wouldn't have a fraction of the penetrating insight into the pc's or pre-OT's case that the new Quantum E-Meter gives you.

And that equates to a quantum leap in results — from ARC Straightwire all the way to New OT VIII.

If you haven't seen the Quantum demonstrated, go into your local org and ask them to show you what it's all about. Ask to see the video which explains the Quantum breakthrough.

But whatever you do, *get* your own Quantum meter now. Or upgrade your Mark Super VII to a Quantum. It's the tool that will guide you to your own eternity.

The Quantum Upgrade

If you own a Mark Super VII E-Meter, you can get it transformed into a Quantum. This is not just an "add-on," it's a complete transformation. Your meter becomes a Quantum meter, inside and out. There are over 230 actions taken to turn your meter into a Quantum. In fact, the time spent on fine-tuning and calibrating your E-Meter is comparable to that spent fine-tuning and calibrating an advanced jet engine!

NEW SOLO AUDITOR DRILLS CREATE A GOLDEN AGE OF TECH AT AOLA

YOUR DIRECT, HIGH-SPEED ROUTE TO TOTAL FREEDOM

All right, now, look at the length of time you and other fellows around have been stumbling around on this planet. There's a number of thousands of years. And the number of thousands of years you've been in the Marcab Confederacy are quite numerous. They probably run up to two or three hundred thousand years that you've been inside this system. And let me call to your attention, never during that time could you put your foot on the first step of the road which led back to a better life and some happiness and freedom, see? You couldn't get a foot on that road at all.

"All right. Right now you have technology. You have a map." - LRH

Throughout the ages, man has endlessly searched for the means to achieve total spiritual freedom. But lacking any technology that would actually lead him there, man has never been able to achieve this goal.

You have been engaged in this search for eons.

Today, something new has arrived on this planet and to this universe — the Advanced Courses of Scientology.

And with the new Solo Auditor Drills, we have truly entered a Golden Age of Tech for OT — where the flight to the highest levels of spiritual freedom has become a certain, direct and high-speed route that *anyone* can travel.

THE NEW SOLO DRILLS ARE HERE!

Solo training has always been a rocket ride. But today, with the advent

Once the news was out that the Solo Drills were here at AOLA, our Solo courseroom quickly filled up with Clears and pre-OTs eager to become perfect Solo auditors.

of a Golden Age of Tech for OT, it's even faster and more direct. The new Solo Auditor Drills done on the New Hubbard Solo Auditor Course, make anyone into a *perfect* Solo auditor — one who is so certain of his tech, he doesn't even have to think about it.

Students on the new Solo courses at AOLA have been experiencing for themselves the miraculous results of these drills. Those Clears who had not yet done a Solo course are now starting their Solo Part One, and are rocketing through their drills, gaining a total certainty on their Solo auditing skills.

And many of the pre-OTs on this course had already started their Solo Course earlier, but have now found that the new Solo Auditor Drills *accelerate* their progress in a way they never would have believed possible.

"I had been slogging away on my Solo Course," said one student. "When I heard about the new Solo Drills, I came to AOLA right away to do this course. I had been through my Meter Drills four times on the earlier course, but it had taken me MONTHS to get that far. In the two weeks since I have been here doing the new Solo Drills, I have FLOWN on my checksheet! Soon I'll be auditing on my OT levels, and it's all due to these drills!"

THE FOUNDATION OF PERFECT SOLO AUDITING: PERFECT METERING

For the first time on the whole track, space age instrumentation exists that enables you to perceive spiritual phenomena, and unravel the whole track mysteries and traps that have been laid in over countless trillennia: the E-Meter.

Even if you've never operated an E-Meter before, the new Solo Auditor Course gives you all the expertise you need in order to audit yourself all the way to the highest OT levels.

With these E-Meter Drills, our students are gaining a whole new level of metering expertise.

"After doing my Levels 0–IV and auditing for several hundred hours, I thought that I *knew* the E-Meter," said one student. "But after doing the drill in *E-Meter Essentials* and now drilling the E-Meter Drills again, I'm finding that I didn't really know much about *anything*. I'm really winning on doing the drills for the first time without confusion. This is *so* much better!"

EIGHTY-NINE SEPARATE DRILLS MEAN TOTAL CERTAINTY ON ALL SOLO AUDITING SKILLS

Once you've mastered your metering basics, you're ready to move onto your next level of training: the Standard Tech Drills. Through the use of each type of drill — Patter Drills, Standard Tech Procedure Drills and Session Drills — the commands and various laws of auditing are learned *cold.* This includes such subjects as rudiments, use of buttons, dating and locating, rehabilitating release states and how to handle soaring TA, just to name a few. By the time you are through these drills, you will have learned these skills to *perfection.*

"For years I've had considerations about my ability to audit myself, let alone others," said one student after doing these drills. "Specifically, I've had considerations about my ability to pull the data together and *think* with it. While doing a Standard Tech Procedure Drill on missed withholds, my *entire universe* changed. I've never been this blown out on course before. I don't even know how to put into words how calm I feel and how certain I feel that when I'm done with this course I will be *competent."*

Additionally, there are Standard Tech Drills for *every Solo auditing action,* including ruds going out in a Solo session, Solo auditing basics, Solo auditor rights, Solo button drills, handling ruds Solo as prepared lists, and more.

And while it does require rigorous discipline to learn these drills, from the metering drills through to the Solo Drills, the end result is *definite:* a total mastery of all the skills you will need to take yourself all the way to full OT.

"The Solo One Course is totally amazing!" said one student. "I am a completely different auditor now. I *know* that I will be a perfect Solo auditor. I have audited for years and I have *never* been so certain of my auditing ability as I am now. I am standard! 100% standard. My KSW is fully in."

And once Solo auditors start auditing on their OT levels after doing these drills, their certainty becomes evident. "I am Solo auditing now!" said one student. "It's so exciting having done these drills, I feel I've really gotten my basics in. I have tripled my case gain per hour since doing these drills, and that means everything."

THE FASTEST WAY TO DO YOUR SOLO TRAINING AT AOLA: FULL TIME

When you come to AOLA, be prepared for a warp-speed rocket ride on the Solo courses, straight through to your Solo flight on New OT I, OT II, OT III and beyond.

And to make your flight even faster and smoother, the best way to move through these courses is to do them *FULL TIME*. At AOLA, we're prepared to get you through these courses fast and standardly, and our full-time students are not only moving at lightning speed, their daily wins are flooding into our Success Officer.

"I can't even *conceive* of being on course part time," said one student. "I am blown away at the wins, and am very happy I made it go right to be on course full time. I will be Solo auditing within *days*, and I just started on course three weeks ago! I am very excited about going into session and I feel totally ready to handle my case. If you want to go OT, get on Solo One full time and you will skyrocket to Solo!"

And another student, determined to make it through her course and get onto her OT levels *now*, stated, "I am on course *more* than full time. The value in doing this is unbelievable. I was letting the MEST universe get in my way, when finally I said, 'That's it!' and got here to AOLA and went full time — plus!

"This really allows me to move on my checksheet. Plus, working this much with the tech, it all comes together — it's not piecemeal. The wins and gains from this course are *awesome* for everyone, and if *you* do it full time, you will make your road to OT *much* faster and with many more gains!"

There is no substitute for full-time training on your Solo Auditor Course. Frankly, there's NOTHING more important you could do on your whole track. LRH put it best:

"You have all kinds of pressures in your environment and an awful lot of people making you believe that it is absolutely necessary that you don't do this because you haven't enough time and that sort of thing.

"Well, you just better realize that you're engaged in an activity which is far more important than any other activity you have ever engaged in; and that it takes priority."

Our Flag-trained Supervisors will ensure you get the Solo auditing skills you need to make it all the way to full OT.

Make it your priority to go OT. Do whatever it takes to get set up for your Solo auditor training. And contact the Letter Registrar at AOLA, at the address on the inside front cover page of this magazine. We'll make sure you get on course and will have you flying.

And we will make sure you have all the skills you need to achieve a state that man, in all the endless trillennia, has never before been able to even conceive of: Full Operating Thetan.

NEW FALSE PURPOSE RUNDOWN EXPANDED

CREATING MIRACLES AT AOLA

Have you ever wondered why you're not moving on The Bridge faster?

And how many times have you decided, "I'm going OT!" but then somehow something got in the way?

Why?

Instead of continually wondering why these things occur, you need to DO something about it. And you can — just read on.

There are many reasons why a person's path to greater spiritual awareness can be blocked. All down the track, man has encountered blocks and barriers that he couldn't even *see*, much less figure out.

Scientology technology has solved these riddles for the first time on the whole track. And now, with the Golden Age of Tech breakthroughs, there are absolutely *no stops* to anyone making it to full OT, faster and easier than ever.

We have all the tools to train you to be a perfect Solo auditor. And our HGC auditors are trained to perfection and auditing with the most revolutionary E-Meter ever, the Quantum.

So if you're not moving, you need to know *why*.

There is only one thing that can prevent a person from moving up to OT, no matter how much he *wants* to go OT, no matter how many tools are

available for him to get there: His own false purposes and contra-survival intentions.

This may not be real to you right now, but this is absolutely the case. Researching this in 1984, LRH wrote, "In dealing with this subject we are, in reality, dealing with a whole spectrum of what are actually postulates: considerations, intentions, purposes, service facsimiles and computations. These are all postulates.

"Such false purposes, false considerations, quasi-evil purposes and the like can sit squarely in the road of attempts to hat or train or get case gain on a person."

LRH discovered that a being who is basically good can stop himself from action due to his own false and contra-survival purposes. And a being burdened by false purposes is not likely to let himself go OT — or if he manages to start moving towards OT, he's going to have a real fight getting there!

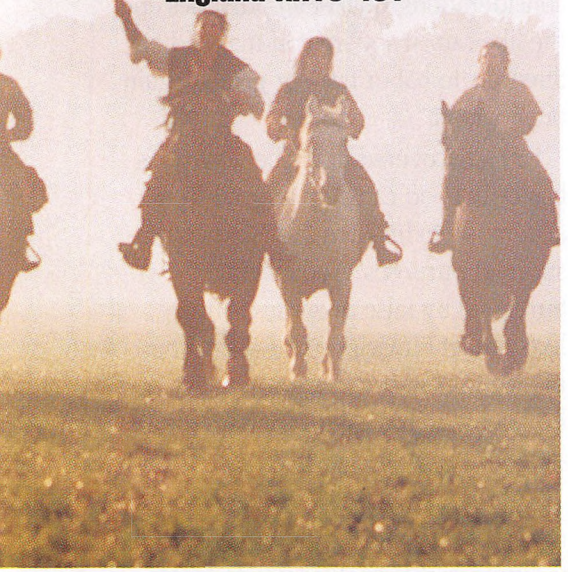

To fully handle this, LRH developed the False Purpose Rundown. This *is* the technology that enables you to locate these false purposes that are preventing your case gain, and BLOW THEM AWAY forever. And with this, comes a total resurgence of ability, reach and attainment of goals.

Thousands of preclears and pre-OTs have already experienced the miraculous gains to be had from this rundown. But amazingly, there has recently been a breakthrough that makes this rundown even *more* powerful! In researching all the Golden Age of Tech breakthroughs, LRH data was discovered on the application of the False Purpose Rundown that has now made this rundown faster, more direct and more intensive.

"This auditing handles more than you have ever possibly been aware of," said one pre-OT doing her FPRD

Expanded at AOLA. "These evil purposes affect every area of a person's life — they stop people all the time.

"I've had FPRD before, and it was great. But this new procedure is a lot faster and a lot more thorough. And by the time you're done, you know you've *totally* handled that area, and there isn't anything else, period."

Pcs and pre-OTs are routinely reporting gains that are far beyond anything they've ever experienced before. "The cognitions I have sometimes go on for thirty or forty minutes after session," said a pre-OT. "Over the years, you accumulate a lot of overts. You can do O/W write ups, but that doesn't fully handle it; you have a thousand missed withholds that you don't even know you've got! Eons back down the track! Then you get into some situations in life, commit a few overts, and all that stuff gets restimulated — and things come to a grinding halt. But with the FPRD Expanded, it blows this apart — the restraint is gone, and I feel like I have a completely new life!"

And in terms of Bridge progress, the FPRD Expanded is a key to handling anyone who's not moving, as with this pre-OT:

"This was a very broad, embrasive action spanning across my dynamics. I handled some major, major areas of life, including discovering a very strong and basic purpose and ability that had been quite suppressed and submerged.

"I feel permanently 'unstalled' on The Bridge, and unreasonable about demanding that I progress on The Bridge. This is one of the biggest wins of all, because it opens the door to all future gains. In order to get through this rundown I've had to handle some situations which have definitely put my case gain, especially on the first dynamic and third dynamic, to the test. I've come through these situations with more insight, knowledge and power.

AOLA has a team of auditors now delivering the False Purpose Rundown, to astonishing results.

"I feel this is the rundown I most needed to be able to make it to full OT. Now I'm back on The Bridge, moving well, and know I'll make it all the way!"

WE'RE READY TO DELIVER THESE MIRACLES TO YOU

At AOLA, we have a team of auditors trained to deliver the False Purpose Rundown Expanded. And with this technology, we are achieving miraculous results on a daily basis.

If your personal progress up The Bridge has been slow, or if you haven't been moving at all towards your goal of OT, you know what to do now — come to AOLA for the False Purpose Rundown Expanded.

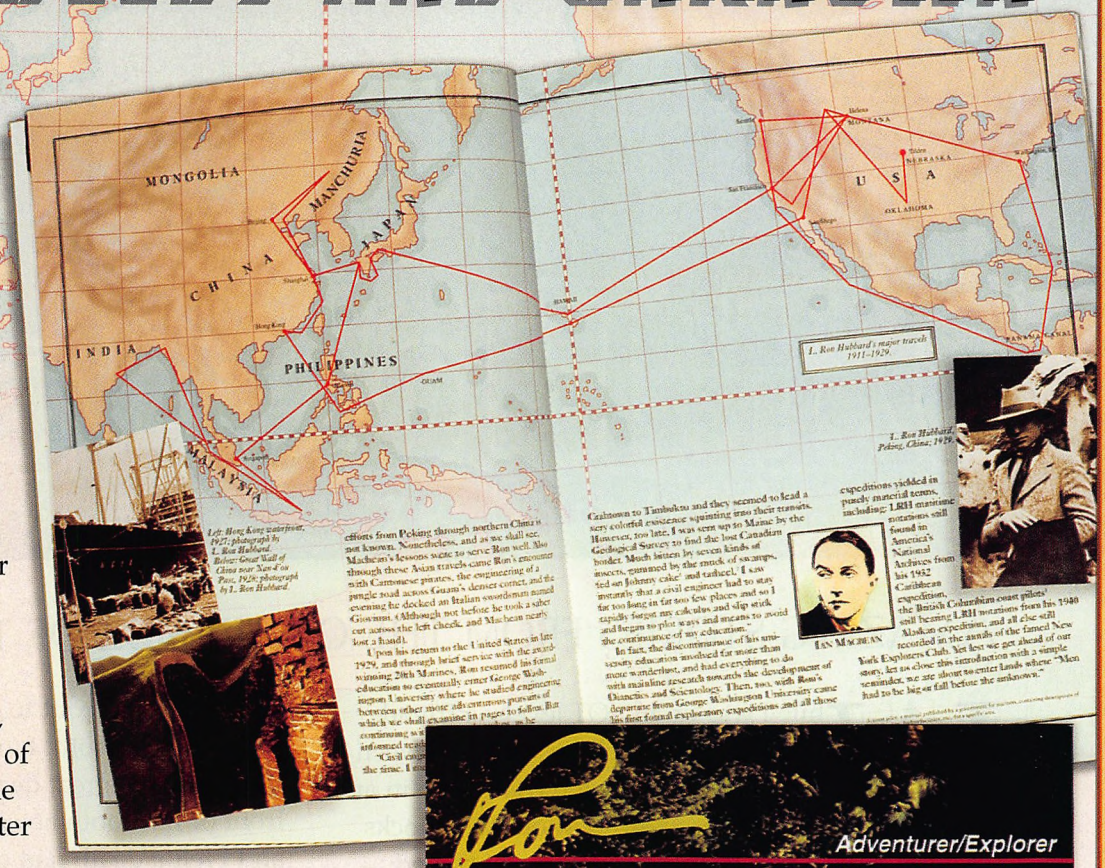

As LRH said in HCOB 5 June 1984R, FALSE PURPOSE RUNDOWN, **"Barriers to enjoyment of life and attainment of goals that before seemed solid and formidable can be whisked away like a puff of smoke before a fresh gust of wind."**

There is *nothing* more important than to move up The Bridge to full OT, and the False Purpose Rundown will blast away all stops to your attaining that goal.

So call the AOLA Registrar today to get started on your FPRD Expanded. It is, without doubt, the most important thing you could possibly do for your eternity.

OT Phenomen

Amazing stories from the other side of the OT levels

While I was on my OT levels, a friend and I would take long walks between sessions. One day, we were deep in an intense discussion. About two blocks from the hotel where we were staying, he turned around and said, "Well, come on." I turned to see who he was talking to, and I was startled to see my body some thirty feet behind us! I had never been more than a few inches from my friend's head and had been communicating with him, with full perception. The only thing I neglected was to continue running my body! - L.A.

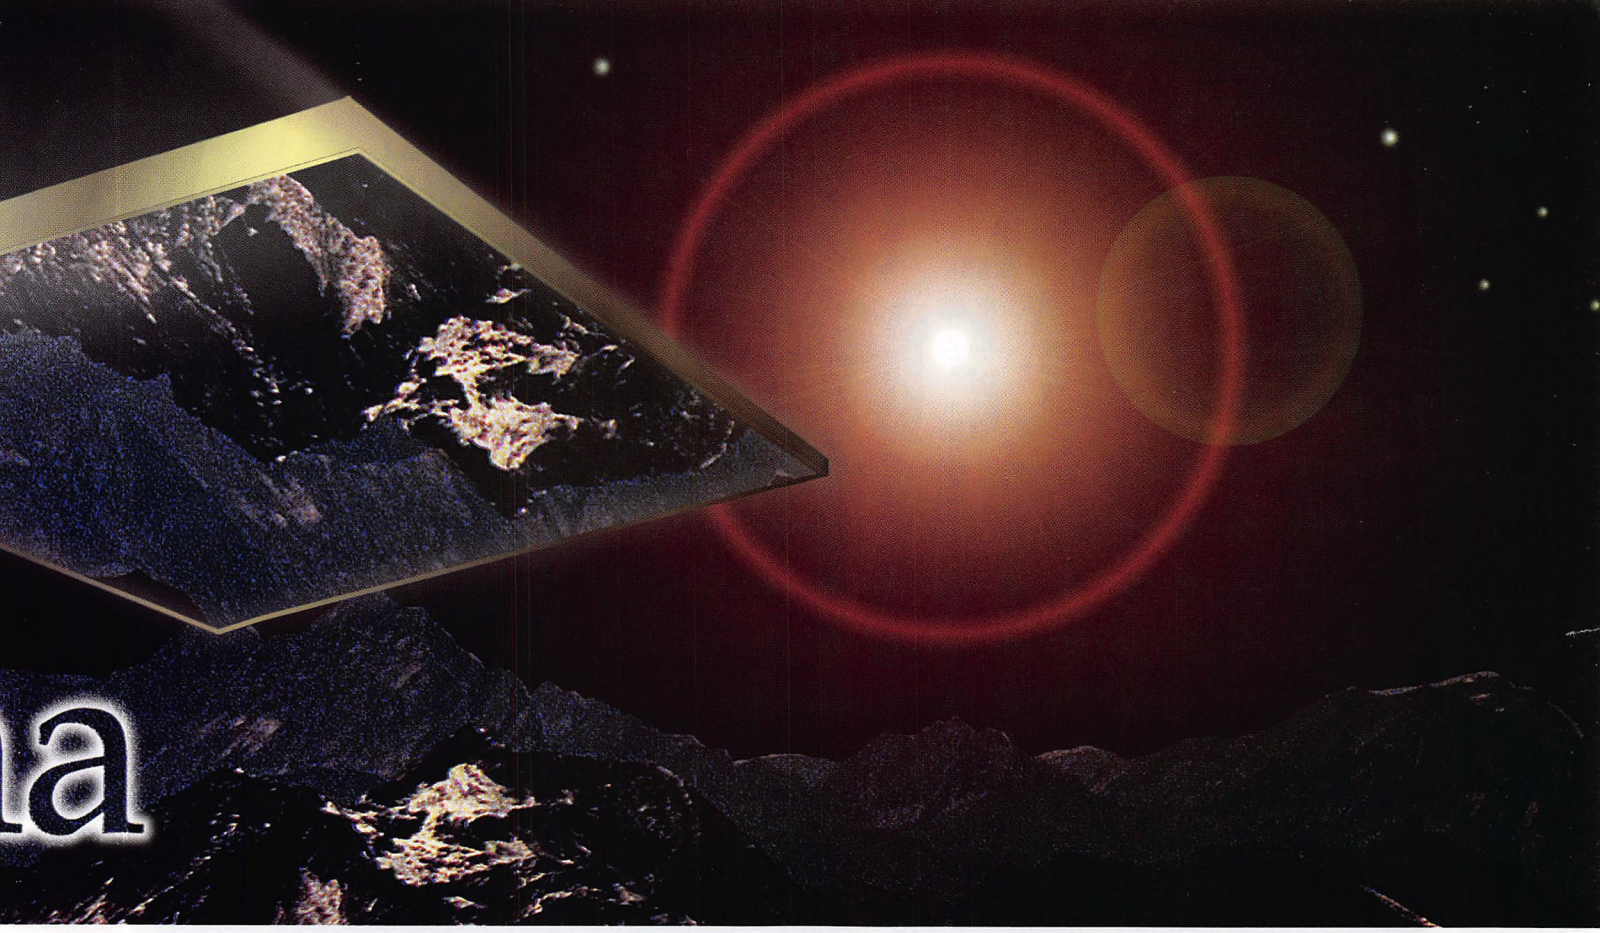

While auditing on OT III I found several abilities that were rather astounding to me. I had gone to visit at the house of a friend and was receiving a tour of the house. I looked at the paintings and could feel the impressions of pictures from them. I pointed one out and said that someone with grey hair had owned it and that they had liked it very much. She replied, "Yes, that was my grandmother's favorite painting."

Further on in the house I saw a wood-carved piece of furniture that I did not quite understand. Looking at it I felt a lot of grief and remorse. Looking closer, it turned out to be an old hand-carved Spanish confessional booth. I told my host, "you know, there seems to be a great deal of grief just out here to the front of the booth about three feet." I kept perceiving and I felt a death had occurred at that very location. I told her and she was amazed. "You're right," she said. "My grandfather had a heart attack and died on that very spot."

I have been able to pick up pictures from objects and can often perceive objects before I see them. Coming around the bend in a road or over a hill I'll find just what I perceived before I see it with my physical eyes. - H.J.

Several months ago a friend called me up and asked me to take a look and see if anything could be done to help a baby who was in intensive care. He just wasn't making it. I asked her to describe the infant and his location to aid my exterior perception. A few words from her and I was describing the room and the baby to *her*. I got the right one. He was hooked up to all kinds of hospital machinery and failing — as well as terrified and exhausted.

So I scanned the body, gave him some physical

energy and located a pinhead-sized hole in his heart which was too small for the doctors to locate and instructed the body to grow the hole closed. It did almost immediately.

Then I turned my attention to the thetan. He was overwhelmed by his environment, desperately wanting to keep the body and sitting on a chain of incidents and ARC breaks. So I rolled up my thetan sleeves, dug in and cleaned him all up.

I finished my phone conversation and hung up. My friend went back to the hospital later that afternoon and called me to tell me when she got back the infant I had handled had — in the nurse's words — made a "miraculous recovery." He was out of intensive care and coming up fast in the regular ward. This was all in an *hour* or so. I knew the recovery was no "heaven sent" miracle! - D.C.

A few years ago, my husband and I were house hunting and found a house that we were interested in, that was available. However, the word around town was that this house was haunted — that people would move in, and in no time flat, would literally grab their things and *run* out the door!

We decided to find out what the problem was, and sure enough, discovered the ghost that was causing all the trouble. It was *not* a very nice ghost. My husband got in comm with this ghost, and sorted out where he was on the track. He then 8Ced him out of the house, Tone 40, and directed him to the area of orgs in LA so that he could get things straightened out.

We then moved in, and shortly after the whole house filled up. Now it's full of people! - D.V.

I am 27 years old. Upon completing OT III I started getting "aches" in my upper legs. As I was feeling great, I went to a medical doctor to find out what was going on. I found out it was growing pains! At this point I measured 5 foot 2 inches, and I grew to 5 foot 4 inches. Of course, the doctor was amazed. I was not. The stops were off my lines and my postulates to be taller freed up on OT III. - T.D.

THE BIGGEST PROBLEMS CONTAIN THE BIGGEST LIES

For centuries man has attempted to reach higher states of spiritual awareness by subjecting himself to the most rigorous possible discipline. But as he never had any real tech to improve his condition, this deprivation didn't achieve his hoped-for result.

And in the Western World, the spiritual aspect of man was soon pushed aside as he was told he was human and subject to the laws of the physical universe. He was told that body problems are caused by physical things only, and all sorts of lies.

And way, way back on the track, he was told far worse things. Lies which are the root of the dwindling spiral for all beings. Lies which trap you as a thetan.

Today, we have a problem. We're human.

New Era Dianetics for OTs shatters these lies and misconceptions with 26 separate steps, each one an OT breakthrough in itself. The disabilities composing the "human condition" fall away forever, resulting in total freedom from case!

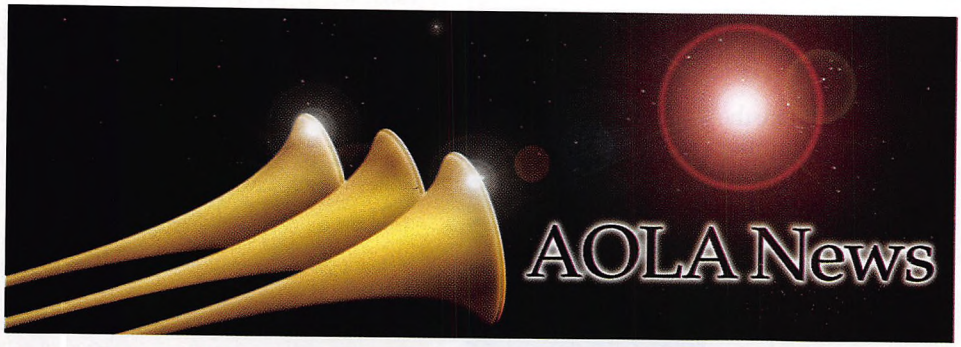

You will never look at life on this planet in the same way again, because you'll know the most basic secrets of this universe. More importantly, you'll know *exactly* how to deal with them.

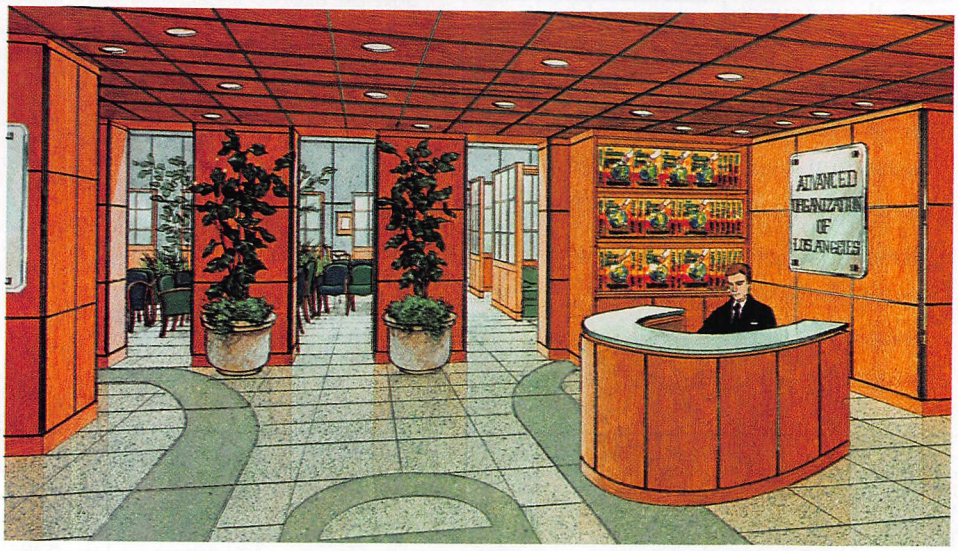

Avail yourself of this incredible level at AOLA. Your eternity is at stake.

SHATTER THE LIES.

AOLA'S RENOVATIONS NOW UNDERWAY TO CREATE THE IDEAL HOME OF OT

If you've walked by AOLA recently, then you've noticed the scaffolding that's been put up all around the building — yes, our renovations are underway! The plans are rolling forward to make AOLA into even more of an ideal organization where you can go OT, with even faster flow lines to make sure that you get through your service standardly and rapidly.

And while these renovations are underway, we needed to immediately make space for the first wave of students routing onto the New Hubbard Solo Auditor Course — so new Solo courserooms were created, and were opened quickly to be able to deliver the new Solo Drills.

These temporary Solo courserooms have filled up fast, and in the meantime the plans are moving forward to create much larger Solo courserooms so that we can deliver to the thousands of Scientologists who will be coming to AOLA to do these drills. These courserooms will provide the ideal environment for the delivery of the Solo and Advanced Courses Drills at AOLA.

And this is just the beginning of a total renovation of AOLA from top to bottom

Top: Artist's rendition of the future AOLA reception. Above: In what is now the AOLA courtyard, a new Atrium will be constructed for meetings and events.

— all with one purpose in mind: To create an ideal home of OT for you!

We will keep you updated on the progress of our renovations in future issues of ADVANCE!

AOLA'S FLAG-TRAINED SUPERVISOR AND WORD CLEARER TEAM: OUR MESSAGE TO YOU

ADVANCE! asked our Flag-trained Supervisor and Word Clearer team if there was any message they wanted to give to you, our readers. Here is their response:

"The time to go OT is now!

"We want you to know one thing, and one thing only… We are geared up to make you a pro.

"At Flag, we underwent the most grueling, exciting, intense, fantastic training program in order that we would be prepared to deliver 100% Standard Tech — and we are doing just that!

"With the new Standard Tech Auditor Drills released at Flag at the May 9th Event, we are done with any uncertainties. Auditors who have done these drills are making results that would have been a dream just 6 months ago. Imagine running into a bug in session that, although you read it in the HCOB, you never had to do it in session. Then imagine having complete certainty and putting the exact, 100% standard handling into effect — with no hesitation.

"This is the result that has been obtained — and that you can obtain now, at AOLA!

"With the E-Meter Drills Simulator, auditors are drilling the exact situations that occur — and to a 100% result.

"With the complete lineup of drills, no longer do you have to worry about the blind leading the blind, or 'have I really had enough drilling?'

"With the Solo Auditor Drills you can have certainty that you will have the best auditor for yourself on the OT levels — YOU!

"Have you worried that you, unlike others, were probably the one person who couldn't do it? Well, you can throw that worry out the window. This is the Golden Age of Tech! With the legacy of tech that LRH left us, and the tools that we have now, no one need worry that they can't make it.

"Now is the time, and AOLA is the place, OT and Class VIII, 100% standardly — NOW!"

SCIENTOLOGISTS DISCOVER LRH'S OT LECTURES BOOST THEIR BRIDGE PROGRESS

Everywhere you turn these days, it seems like you see a Scientologist listening to LRH's OT lectures.

It's not unusual to see a Scientologist with an OT lecture binder in the back seat of his car, so that he can pop in a tape when he's driving. Or to see a Scientologist walking down the street, listening to his portable cassette player, with an LRH OT lecture playing.

The word of mouth has been growing, and more and more Scientologists are listening to LRH's OT lectures at every available opportunity.

But why now? Ask any Scientologist who listens to them, and he'll tell you that not only do these lectures give you incredible OT data from LRH that is found nowhere else, but they're finding that listening to them actually

speeds their progress to OT — because they contain data from LRH on how to *operate* as an OT.

"Just from listening to the Responsibility and the State of OT lectures series, I had spectacular wins," said one pre-OT. "As an example, I was listening to one lecture, and LRH said something that totally blew me away. I had to rewind the tape and listen again just to make sure I really heard what I'd heard. I listened to it again, and I actually spotted the *exact* areas where I was being irresponsible in my life. From that point on, I have been more responsible in *all* areas of my life.

"And there have been many times like this, with other lectures. The cumulative effect of listening to them has had a tremendous effect on my auditing and training. My sessions go faster and smoother, and my studying is going better. I definitely feel that listening to these OT lectures has made a difference in my speed of progress up The Bridge."

OT Legacy Award

And to validate the increasing number of Scientologists who are listening to OT lectures and getting an OT education, Golden Era Productions has recently announced the OT Legacy award. This is a special pin which will be presented to any Scientologist who completes his OT lecture library. And when he has listened to all 524 LRH OT lectures that have been released to date, a diamond will be added to that pin, to acknowledge the fact that he has become an educated OT.

If you qualify for this award, contact the AOLA Bookstore Officer.

The road to OT leads straight to FLAG — the Mecca of Scientology.

No matter where you are on the Grade Chart, you're headed straight for the highest levels of OT. And that means you're headed straight for Flag, the home of Solo NOTs.

And if you truly knew what miraculous gains await you at this level, you would be taking full advantage of the Golden Age of Tech breakthroughs to race through your Solo auditor training and through your OT levels up to New OT V, to arrive at Flag.

Solo NOTs is the level that determines your eternity. It is more powerful than any previous level by huge order of magnitude. Just one short session at this level packs more gains than an entire intensive at lower levels.

And right now, with the breakthroughs of the Golden Age of Tech, those stellar gains are within the reach of every Scientologist. In fact, hundreds of Scientologists are right at this moment packed into our OT courserooms, learning how to audit this level *exactly* as LRH intended. And like them, *you* will learn to be a *perfect* Solo NOTs auditor.

And *that* we guarantee.

Flag is also here for you if you are at all bugged or slowed in your Bridge progress. Flag's technical team is famous for being able to crack any case that walks up the walk. We have a huge technical team here — the best on the planet. And they are all dedicated to one purpose — to get *you* all the way to full OT.

To accomplish this, we have a powerful arsenal of special rundowns, available only at Flag. This includes Flag's incomparable L Rundowns, L 10, L ll and L 12, powerful OT boosters that release your OT power *now.* And the Case Resolution Rundowns, each one designed to pinpoint and blow away specific charge that is not handled on any other rundown.

Flag was created by LRH for one reason: so that every Scientologist will make it to the highest levels of OT.

And that includes *you.*

Step into the new Golden Age of OT ability.

Make *your* plans now to arrive at

FLAG™

THE MECCA OF SCIENTOLOGY

Contact the Flag Letter Registrar, your nearest Flag Service Consultant, or call Flag directly at 1-800-POSTULATE.

Cast off from the traps of the MEST universe and take passage to an OT future.

The *Freewinds* delivers the highest of the OT levels, currently New OT VIII. It is our purpose to get all Scientologists up and through this level.

That's why we are vitally interested in *your* case progress, regardless of where you are on The Bridge.

With the recent Golden Age of Tech breakthroughs, any Scientologist can attain *perfection* of technical application, and that means full OT is within the grasp of anyone.

There's only one thing that could stand in your way: Failure to do these services in the first place, due to barriers in your life preventing you from taking your next step.

The truth is, you live in an implanted society. All around you are the dramatizations of incidents which occurred millions of years ago — and which were intended to trap and crush a thetan.

When you take passage on board the *Freewinds,* you cast off the lines to the implanted society around you, and voyage into a truly OT environment where everything is working *for* you, not against you.

This is where you gain an OT viewpoint and abilities to overcome the bank agreement of this planet, and go free. It's another universe on board the *Freewinds* — an OT universe.

And with the Freewinds-only OT Debug Service, including the incredible OT Hatting Courses, you'll learn how to overcome any barrier you may have in life and to operate as an OT.

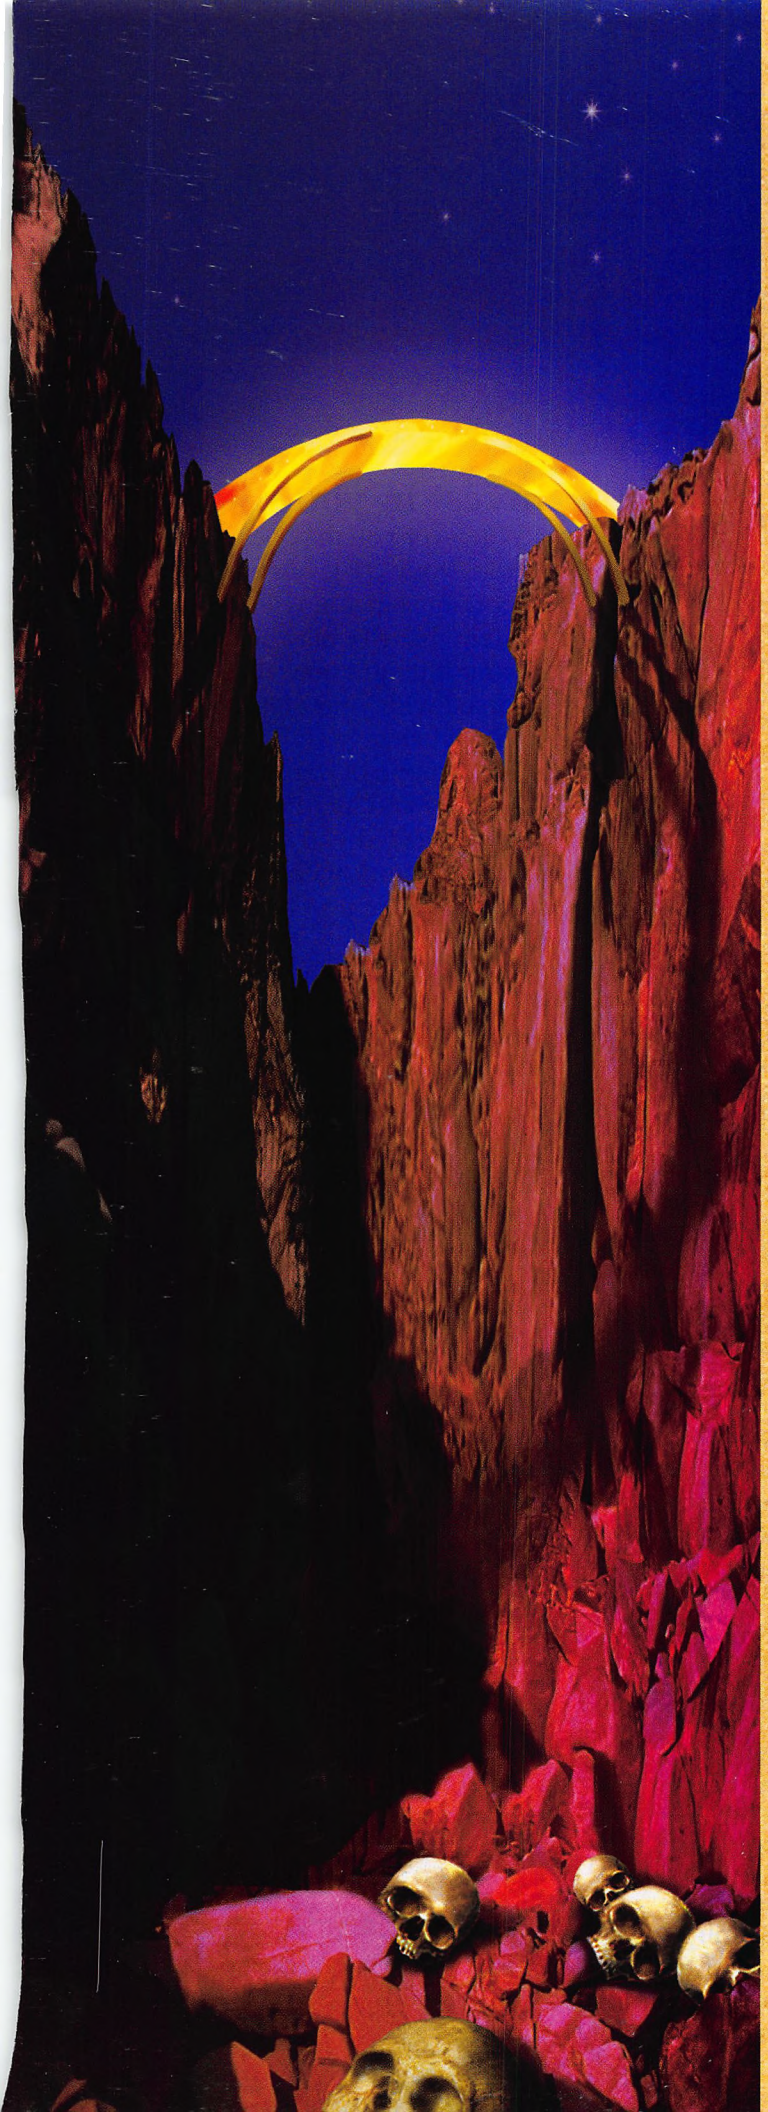

Come to the *Freewinds*, your OT ship.

And before you know it, you'll be back at AOLA, rocketing up your OT levels!

To find out how you can come to the *Freewinds* for an OT Hatting Course or the Freewinds-only OT Debug Service, contact your nearest Flag Ship Service Consultant, or call the *Freewinds* directly at (813) 445-4309.

THE ABYSS

by L. Ron Hubbard

The mystics spoke of the Abyss. They said that in trying to cross it, many fell into the darkness. Without knowing it, they spoke of the Goals Problem Mass.

The Buddhists spoke of Nirvana. Without knowing it, they spoke of vanishing forever into the GPM (Nirvana). They had become completely overwhelmed, lacking meters and a map.

We are Scientologists. We won't fall into the abyss. And we won't join Nirvana. We have meters and a map. We know the rules and the way.

This is the greatest adventure of all time. The way is strewn with the skeletons and skulls of those who have tried over the past trillennia. The bottom of the Abyss is glutted with failures. Nirvana is choked with the overwhelmed.

To say it is not a dangerous way would be false.

But it is not dangerous if you keep going. Only the fainthearted will add any bones to the Abyss or apathy to Nirvana.

We are Scientologists. We have won.

The goal of every Scientologist is to attain full OT. And with the Golden Age of Tech breakthroughs, every Scientologist can now move up to OT faster than ever before.

And no matter where *you* are on The Bridge, OT is within your reach — and we at AOLA are dedicated to making sure you *do* reach OT.

If you're not yet Clear, keep moving up The Bridge in your local organization and *get* to Clear, through professional auditing, or by enrolling on your Academy training and co-auditing to Clear — the recommended route. And with the new Golden Age of Tech training tools, getting to Clear will be faster and easier than you have ever imagined.

And while on your route to Clear, contact an AOLA Letter Registrar who will make sure you *keep* moving on that route, so that you *do* make it to AOLA — and to full OT!

If you're Clear, your next step is to come to AOLA to start on your Hubbard Solo Auditor Course Part One. Write to the AOLA Letter Registrar at the address below, or call us directly and speak to one of our knowledgeable Registrars, who will get you here and started on your course fast.

This is top priority for you as a Solo auditor, for this course will enable you to become the totally certain, standard Solo auditor who will take you through the Wall of Fire. Call one of our Registrars at the number below to find out how to get started on this course immediately.

Invest in your Eternity

Wherever you may be on The Bridge, your OT levels are the most important step you will *ever* take. No matter what else may be happening in your life right now, it can't compare with your eternity as a spiritual being.

Contact one of our Letter Registrars and let him know that you've decided you *are* going OT — *now.* He'll work with you to make sure you move up The Bridge rapidly.

The investment in time you make to move rapidly up The Bridge to OT is factually an investment in your eternity. Working with our Letter Registrar, you'll keep the goal of OT in mind at all times, and be constantly working toward it.

And very soon, we'll see you walking through the front doors of AOLA, to begin your journey to full OT!

What Existed Before the Beginning?

What is the true nature of a spirit? What is the goal of an OT? How has a being postulated his own case into existence? What was a being's original intention that got him aberrated in the first place?

Man has been searching for an answer to questions like these — and for the means to escape the traps of the MEST universe — for eons.

And with the truths contained in LRH's OT lectures, you no longer need to search. All the data is right here.

In *The First Postulate* lecture series, Ron teaches you OT realities — the basic truths of life.

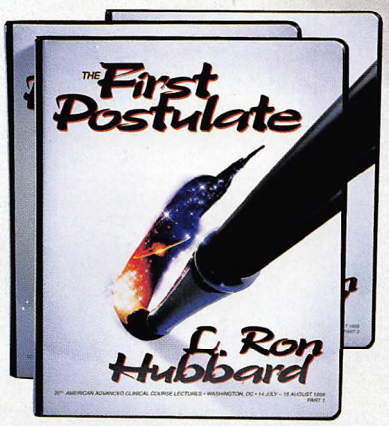

Learn how to be cause over matter, energy, space and time directly — as a thetan. In this lecture series, Ron gives you data you can use to blow any considerations that keep you from going OT. As he says in one of these lectures, "It's *education* that makes the OT."

In *The First Postulate* lectures, Ron reveals some of the most incredible OT data that you'll find in any OT lecture series. It's not just a minor aberration that destroys an individual's ability to create life as an OT, but something much more sinister — the very core of all aberration.

Listen to these lectures and learn about the ultra-mysterious object *every* thetan creates continually, yet which is *totally* invisible to him. This discovery is straight off the whole track, and will send shivers up and down your spine! This object is THE KEY to a total as-isness of case, and so molten hot that when contacted, it causes the E-Meter needle to go *wild.*

Handle this, and you regain the sweeping ability to create life as an OT.

"A thetan, spirit, you, is actually capable of tremendous creation. But when you have taken an irresponsibility for some part of your ability to create, you can then continue to create without knowing that you are creating. Now we don't know that you aren't creating the whole physical universe. We don't know that you aren't creating everybody you see. We don't know this positively; this is simply a matter of 'Who's God?' Well, you're the logical candidate. You've accepted the blame for everything else, you might as well accept the blame for that one." — LRH, from Lecture 13, "The Rock"

In ancient Tibet, they dreamed of achieving "godlike" states of enlightenment.

Today you can audit yourself to states they never even conceived of.

The higher states which man has dreamed of throughout history are within your grasp.

The Tibetans dreamed of transcendent beings who could operate at their full potential, independent of a body. They spent long years in rigorous discipline trying to reach such a state.

Today, a Bridge exists between *Homo sapiens* and OT. Anyone can cross it and realize their full potential as a being.

And with the new Solo Drills, a Golden Age of Tech for OT is at hand. You can achieve your dreams of full OT faster than you ever thought possible.
