NO IFS, A OR BUTS YOU'RE G OT!

At AOLA, we have embarked upon a Golden Age of Tech for OT – an era where everyone who reaches for the highest OT levels will achieve them, with no ifs, ands or buts. And that means *you.*

And if you have a dream of going OT, but haven't yet taken your next step, we know *exactly* why.

The moment you even start thinking about going OT, barriers can arise. But know this: *anything* that cuts across your intentions to go OT is part of the very trap the OT levels handle. There are *very real barriers* you will encounter, and the handling for each and every one of these is to simply disagree with them, disagree with the physical universe barriers life dishes out, and arrive despite them.

So decide to disagree with the stops. Decide that you will go OT *this year.* And we at AOLA stand ready to ensure you reach that goal.

This new issue of *Advance!* brings you the latest news of our Advanced Courses Delivery Team, back from Flag and delivering here in our Advanced Courses course rooms. You'll read about the wins of pre-OTs as they move up to OT with a total certainty that they can handle *anything* that comes up in a Solo auditing session.

You'll read about how simple it is to move onto your OT levels at AOLA, with the new OT Preparations Auditing Package, which you can use to take care of any parts of case you need to square away prior to taking off on the Advanced Levels.

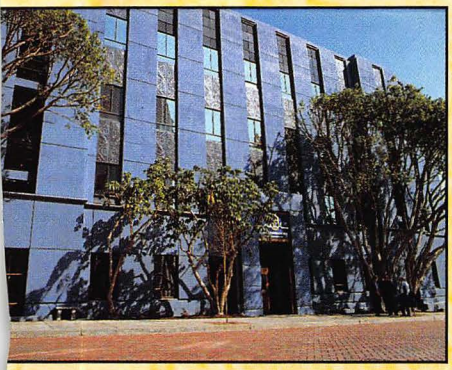

You'll also read about the I Want to Go OT Club, with the magical factor that will make it possible for you to do your OT levels faster than you ever imagined possible.

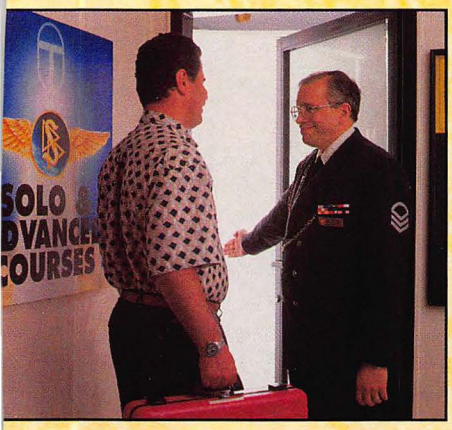

The point is this: in the Golden Age of Tech for OT, your eternity is assured. All you need to do is avail yourself of it. And all that takes is the decision to *do it.* Here at AOLA, the OT Base, we will work with you to get you here and then get you through all the way.

And we won't take no for an answer.

So read on – and plan out your route to OT this year. We'll be here, ready to move you up and through the Wall of Fire and beyond, to the achievement of your fondest dreams.

Faith

THE CONTINUING ADVANCE! MAGAZINE SERIES -
ANOTHER CHAPTER IN MAN'S SPIRITUAL HISTORY.

Java

In the early years of the nineteenth century the British Governor of the Netherlands East Indies, Sir Stamford Raffles, discovered a huge temple hidden by jungle in Central Java. He ordered an immediate excavation, and for more than 100 years, archeologists and laborers worked to reclaim the sacred building from the jungle.

Finally, early in the twentieth century, the structure rose again, like a huge filigreed brooch pinned to the heart of the jungle, one of the architectural marvels of the world: *Boro-budur*, a structure so immense it would dwarf the great cathedrals of Europe.

The nine tiers of Boro-budur are a monument to Buddhism. This is not a temple in the usual sense, but a hill rising 150 feet above the plain, encased with imposing terraces constructed of hewn lava-blocks, crowded with sculptures telling the story of the life of Buddha. Sculptures so numerous, that placed end to end, they would reach almost three miles. A structure of extreme religious significance and hope – hope for enlightenment.

Each statue of this incredible shrine tells part of the story so that from the very base to the summit the whole hill was a great picture bible of the life of Buddha, serving to instruct all who climbed and took the pilgrimage.

The archeologists who led the excavations pieced together parts of the story lost long ago, from the carvings on this building. Buddha's teachings were clearly shown: "Let a man overcome anger by love,

At the Javanese temple at Boro-budur, hundreds of latticed cones house statues of Buddha. To reach inside and touch one is considered good luck. Wall carvings around the temple tell the life of Buddha.

let him overcome evil by good; let him overcome the greedy by liberality, the liar by the truth. Shame on him that strikes; greater shame on him who, stricken, strikes back, since, for each one of us, our own self is the most important, respect the self of your fellow man as you respect your own." And the essence of his doctrine, that each one is himself a Buddha, is central in this temple:

"Seek in the impersonal for the eternal man, and having sought him out, look inward – thou are Buddha."

A magnificent building. A great religion. Yet, abandoned. What happened

Java is an island nation, alive with continual volcanic activity. This challenging terrain did not deter the many colonists who brought new religious doctrines.

to those who built this mammoth shrine? And why had they abandoned Buddha to the Jungle?

SEARCH FOR TRUTH – AND LOST FAITH

The spiritual history of Java is one of diversity. In fact, the motto of Java itself, even in present time, is "UNITY THROUGH DIVERSITY."

Through the ages, the Javanese have embraced many religions – most notably Buddhism, then Hinduism, and now Moslem. And while there were a certain number of native Javanese who continued to follow their ancient tribal religions, worshiping ancestors, idols and natural features of the land, the vast majority of Javanese people would take on each new religion that was introduced into this land, one after the other.

The Javanese were searching, looking for the answers to the questions man has asked for eons. They built one of the most impressive temples of all time as a testament to their professed faith in Buddhism.

But when the Buddhist kingdom in Java was confronted with a new Hindu regime the beginning of the 15th century, these Buddhist beliefs fell by the wayside. And *Boro-budur* and thousands more Buddhists temples were abandoned. A lost faith.

THE RISE OF HINDUISM

Hinduism thrived for many centuries on Java and throughout the rest of the neighboring islands now called Indonesia. Internal wars were rampant, Hindu families ousting others and power shifting over the centuries to various cities on the island. But Hinduism remained the stable faith throughout those years.

A minority were still faithful to Buddhism, but not many. Some of the Buddhist ways continued on in the general daily life of the Javanese – such as their older beliefs in the spirits in the trees and the native animals – but Hinduism was very definitely dominant.

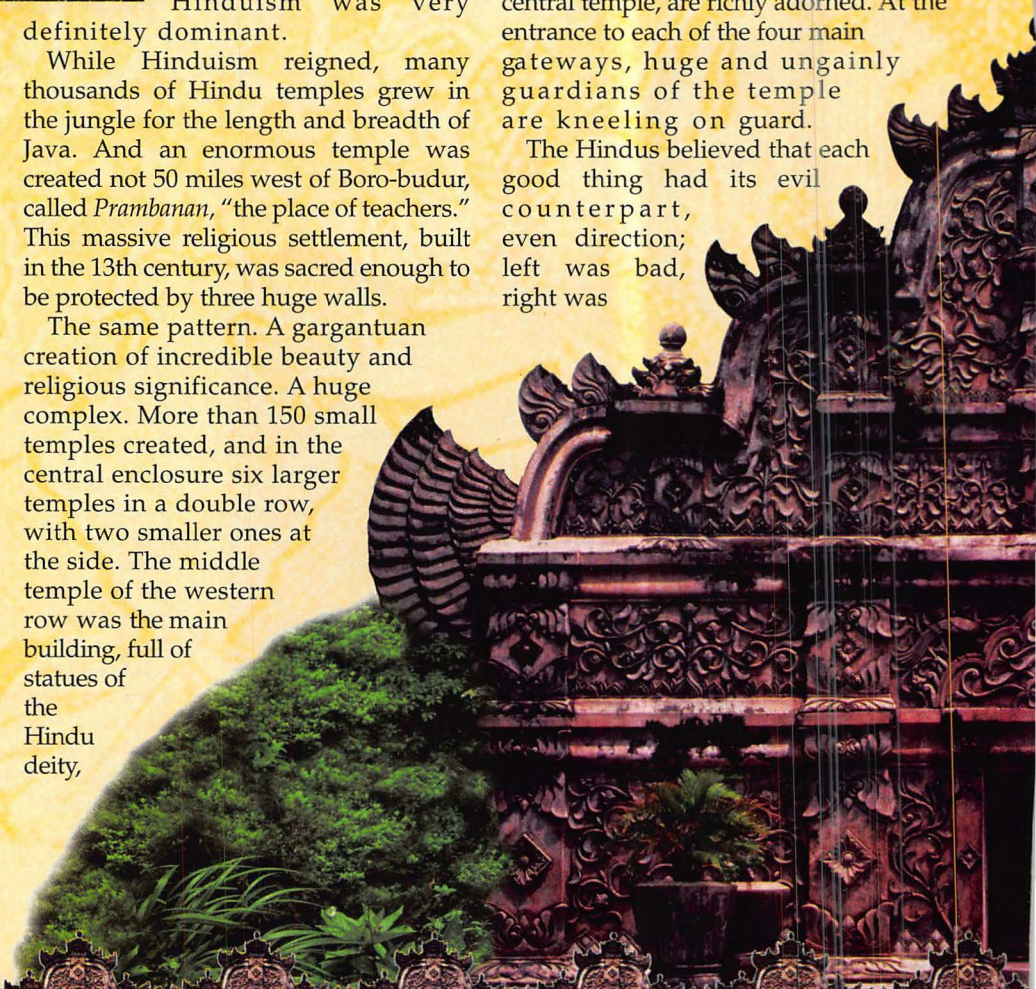

While Hinduism reigned, many thousands of Hindu temples grew in the jungle for the length and breadth of Java. And an enormous temple was created not 50 miles west of Boro-budur, called *Prambanan*, "the place of teachers." This massive religious settlement, built in the 13th century, was sacred enough to be protected by three huge walls.

The same pattern. A gargantuan creation of incredible beauty and religious significance. A huge complex. More than 150 small temples created, and in the central enclosure six larger temples in a double row, with two smaller ones at the side. The middle temple of the western row was the main building, full of statues of the Hindu deity,

The spirit

diversity. I

"UNITY T
DIVER

Shiva, as the Guru or teacher, as the Destroyer, and his many other identities. The southern temple holds a huge sculpture of the four-armed Brahma and many other symbolic sculptures. And to the north "the thousand shrines," approximately 240 shrines around a great central temple, are richly adorned. At the entrance to each of the four main gateways, huge and ungainly guardians of the temple are kneeling on guard.

The Hindus believed that each good thing had its evil counterpart, even direction; left was bad, right was

SITY."

good; and walls were made to fool the prowling demons, for the Hindus believed that evil spirits cannot turn corners and barging in they bounce out again. And holy dancers, danced in trances to appease pestilence. Spirits entered their bodies, moving them in the dance.

The basic belief of the Javanese now was one of an absolute, all-embracing spirit, the Brahma, being the one and only reality, the original cause and ultimate goal of all individual souls – all living things. Now they sought a reunion with the Supreme Self and in so doing worshiped a Triad, a creative, conservative and destructive principle represented by the divine personalities of Brahma, Vishnu and Shiva.

Still, as the crossroads of trading in that area of the world, there was always opportunity to experience new ideas, new spiritual realities from far off lands. The Javanese were definitely looking.

And in the 1500s Prambanan was also forsaken – as were a thousand more Hindu temples on Java – when the Hindu kingdom fell to the Muslims.

And so began the third major kingdom Indonesia had known, the Muslim kingdom called Mataram.

THE FALL OF HINDUISM AND RISE OF MUSLIM

With the rise of Muslim, some Javanese still remained Hindu and some Buddhist. But this was the vast minority – the abandoned temples showed that these major forces and beliefs had gone.

The great walls that protected Prambanan wore down, leaving it fair play to evil spirits. And today the Kulit, the shadow puppets and their puppeteers who portray the ancient Hindu stories, are the only remains for the majority of the Javanese of this once huge religion.

These famous shadow puppet shows start at dark and go right throughout the night, telling stories every Indonesian child knows by heart, no matter their particular faith. Or the Wayang wong, human puppets, derived from the shadow plays. Actors who simulate movements of the shadow figures, relying on stylized gestures to show emotion. They speak their lines with singsong monotony, lines from Hindu legends which again all Indonesians know, regardless of their creed.

Hinduism reduced to puppeteers: a former grand force in a civilization now a point of popular entertainment.

With the rise of Mataram, came the all-embracing Muslim faith in Java. Today the majority of Java still claim that faith. The Istiqlal mosque in the country's capital of Jakarta is often filled with more than 7,000 worshippers at a time – one of the largest mosques in the world.

Another mammoth temple. But one wonders will it go the same way as Borobudur, the Prambanan, and the thousands of smaller temples around this land?

The literally thousands of abandoned temples throughout Java are a testament to the continual but unfulfilled quest for spiritual freedom of the Javanese people.

ANSWERS TO THE AGE-OLD QUESTIONS

The Javanese searched for centuries for the truth, the way to eternal spiritual freedom. And each time they were confronted with the force of invading armies, their beliefs fell to new beliefs. But they have yet to find what they were looking for. LRH said in the lecture, "The Free Being":

"The long-term win is achieved by a balance between force and intelligence. Now, intelligence alone in active action is not enough. The wise men of Tibet, were just a few years ago driven out of their mountain fortresses by the dumbest infantrymen the world has known for some time. Isn't that interesting? They were infinitely wise, and their infinite wisdom brought them total defeat.

"So, when you take these two elements, if you are sometime trying to solve the problem of whether you did right or whether you did wrong, take these two elements and look them over in relationship to what you did, and you'll find out that there is an imbalance in any defeat. There was an imbalance of intelligence and force, and these two things were out of gear. You're either using all force and practically grasshopper-intelligence or you're using monumental intelligence and saying 'God will protect me,' forgetting at the same time that you were the only god around to do any protecting."

This datum was not known to the Javanese, so each time they were overtaken, no matter their faith or yearning for wisdom, they were overcome by force. With no understanding of the basics of life and how to operate as an OT in life, their beliefs soon gave way to the beliefs of a new regime.

With true knowledge of all aspects of life, their endless search for spiritual freedom would have been over – and they would never have been taken over in the first place.

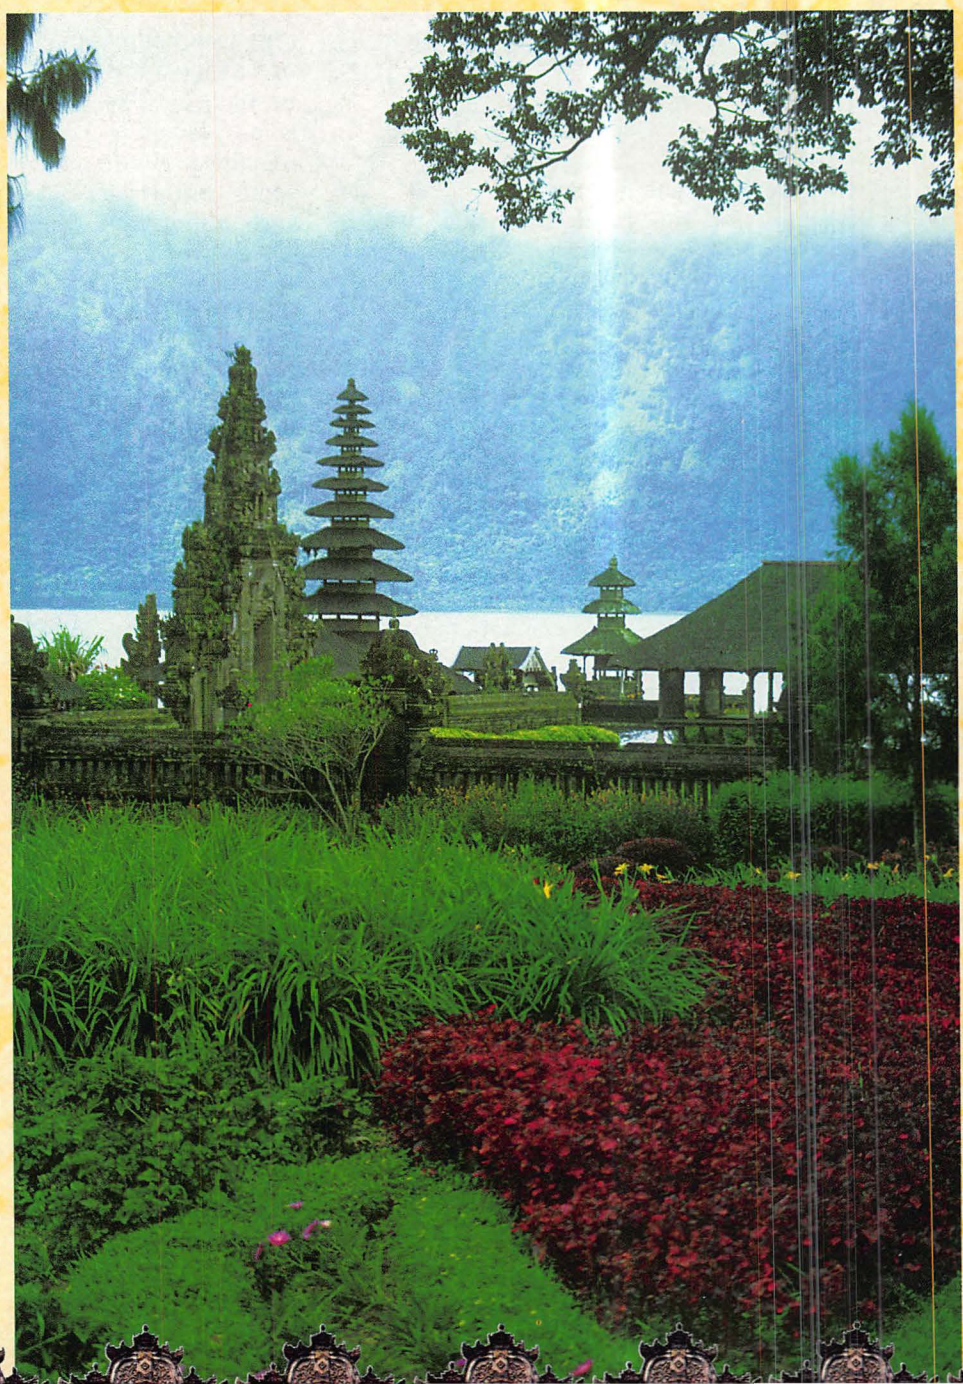

L. Ron Hubbard provided the answers to every possible question that has ever been asked about man's spirituality. Then devoted his lifetime to making sure everyone could have those answers. The truths that man has searched for down the ages are now here. They are found on the Advanced Courses of Scientology.

There is no other way, nor has there ever been, to pull oneself out of the trap and reach true spiritual freedom. But with the Advanced Courses, all the truths that man has so long sought are here.

Avail yourself of them.

And reach the highest levels of your own freedom.

The Javanese were searching, looking for the answers to the questions man has asked for eons.

Cinders of your past,

brazed by fires of hell,

Somewhere in your beingness

a billion lifetimes dwell,

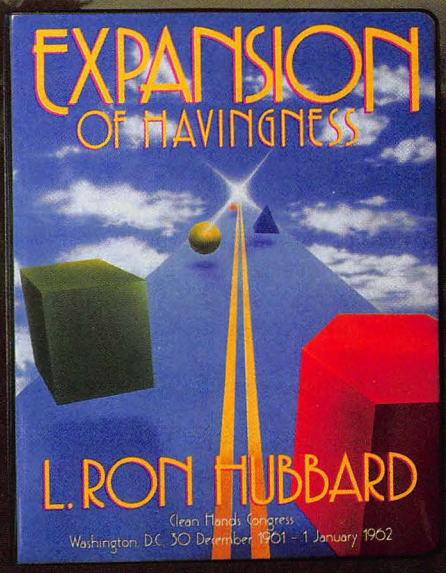

A forgotten look,

a forbidden laugh,

time shall n'er quell,

And who you'll be tomorrow,

no one can foretell!

You burned them down to the last notch, buried them, forgot them, but you still can't get rid of them. And the blackened cinders of them come back to dictate your life.

You want to smile, they make you yell.

You want to reach, they make you shy away.

You want to live...they make you die.

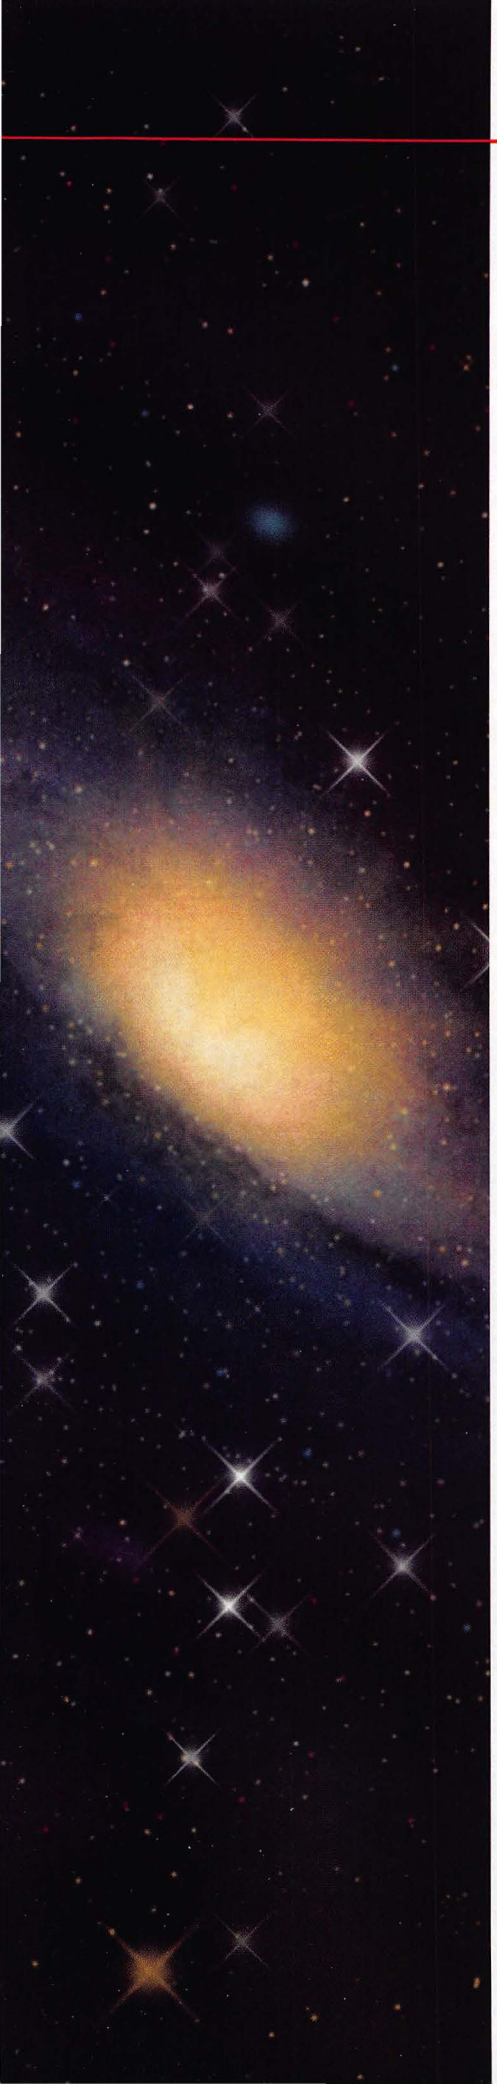

Here is the totally black, nightmarish morass that lurks in the depths of your universe. Here lies the undead residue of a billion lifetimes. *And herein is the cause and remedy of whole track occlusion, and your ability to HAVE.*

In 1961, while researching a direct route to OT, Ron discovered the answer to this mystery. Taking a break from his heavy schedule of research, lectures and instruction at Saint Hill, Ron flew to Washington, D.C., where he delivered a series of nine lectures at the Mayflower Hotel, revealing the breakthroughs he had made.

One binder, 9 lectures with transcripts and glossary.

KNOWING HOW TO FREE A THETAN

by L. Ron Hubbard

Why did you arrive in the condition you are in? It wasn't anything specific that you did. Yes, you have overts; yes, these overts combined into certain motivators being more forceful upon you than otherwise. But even if you hadn't had overts, you still would have gotten the motivators. You would have dreamed up something as an overt, don't you see?

The oddity here is simply that if all this has happened to you and you've been punished, then you must have been punished for some reason. See, you're still trying to be reasonable and intelligent about it, and this doesn't happen to be true at all. The only reasons you were ever punished was for being you, for being powerful and for not being quite intelligent enough.

The exact crimes were to be there and to communicate. Those were the two crimes.

Now, what happens? You can look way back on the backtrack and you can find that some OT came along and decided that he'd put together a civilization of some kind or another, figured it all out to the last notch, you know, and had total curbstones and the hairdo and everything else. He had this perfect, you see. And, some other thetan came along and started chipping away at him, or something like this, or started talking to him, or started putting up mock-ups on the other side of the planet, see?

So this would go on. And to get even with the other thetan who was attacking his pet society, something like this, he would indoctrinate his pet society in how to trap a big thetan. So this became the most accomplished skill that a meat-body society has, is how to trap a spirit.

No OT was so ever out of his mind as to depend upon any of his men or troops to untrap him. He never indoctrinated them to do that, because at the time he was doing this he never thought he would be caught. I consider this as huh! singularly unintelligent.

For instance, Frankie the Limper*, over there, during the 30s, he wrote out a big check. He only thought in terms of billions

* Franklin D. Roosevelt, president of the United States from 1933 to 1945.

and things, and he wrote out this three billion dollar check and he handed it over and he says, "Build an atom bomb, and there you are, wipe out cities and so on."

Well, the knucklehead, he had Congress under his thumb, he had everything under his thumb, it was all set and roaring to go. He could have written out another check for three billion dollars and given it to another group and said, "Build a defense for an atom bomb." But you notice he didn't do that.

See what I mean?

He said, "Build an atom bomb. Here's three billion dollars." He didn't say at the same time, "Here's three billion dollars, build a defense for an atom bomb." So, you lay into a meat-body society the skill to trap a thetan. Why don't you teach him how to free one, see?

You know, it's possible to be trapped for over thirteen and a half trillion-trillion years? That's interesting, isn't it?

THE TECHNOLOGY OF ENTRAPMENT

Well, all the technology of entrapment is just a vast catalog! I could tell you ways of trapping thetans and so on just taken off the track, you know. You run into it running the whole track; it's quite a technology. How do you fool a thetan? How do you make him curious? How do you do this? How do you do that? You know? How do you soften him up? How do you do all these things? A vast amount of work put in on this subject. And no work put in at all on how do you free one, see.

Total technology of freeing one: You reach over on the trap and pull the guy off of it and throw him out in space to cool off. That requires a what? That requires an OT. What if there isn't any? That's an interesting question, isn't it?

So, here you had the atom bomb with no defense for the atom bomb, which was continuous matter, and continuous technology of entrapment and teaching civilizations to entrap and so forth, on and on and on endlessly.

All right, if the technology is that vital, of how do you untrap somebody, how do you push somebody back to battery after a horrifying experience – if it's that vital, why hasn't somebody worked on it? Basically, they're afraid of the technology.

The people on Earth here don't think that Scientology doesn't work. They've been trained, however, against the vectors of it. They've been trained to destroy, to set something up – a fixed status of something – and then work a destructive means with it and to work out techniques of entrapment so people cannot leave certain social strata and economic strata of the society. This is the whole level of training. And you're not up against Pavlov, Freud or any mental technology. You're up against the social structure of the organization in which we exist at this moment.

And you pose a tremendous threat to that social structure. You could tear it to *pieces*! In two different ways, one by the rehabilitation of tremendous power and force. That's one way.

That's pretty easy. You make somebody OT and he's good and mad on account of what they did to him in Chicago, and he pulls the air cover and that's the end of this planet.

Don't think it hasn't happened. Those mammoths that are up in the frozen tundra, with quick-frozen vegetables in their stomachs, must have been reduced down to about two hundred degrees minus, in a split second, because to freeze vegetables they have to be frozen in something like sixty seconds for them to preserve it. And here these millions of years later, the Explorers Club serves those things with fresh mammoth steak at its annual dinners! They serve them as vegetables – deep-freeze – quick-freeze; they've been packed up there in the ice ever since. They're tropical! What are they doing under all that ice, man!

It must have been done in sixty seconds. Can you think of any natural cataclysm that could take place in sixty seconds? They couldn't have been transported from point A to point B. Somebody was good and mad and they pulled the air cover and gave the planet a reverse spin. They changed its axis just like that – bang! Bang! There was just – somebody got mad. That's all.

So, that is the most direct force that is posed to this civilization by any technology such as we have. See, that is a real factor. People don't even have to get mad. We just get together and say, "Well, I guess it's best for the greatest good for the greatest number of dynamics that this planet be de-aircovered." *Pfsst.* That's it. Frozen vegetables.

Well now, then there must be a great factor involved here in intelligence; that's just the use of total force, isn't it? All right. Now, if we admix intelligence into this total force, what do we get? We get some other solution. We get a solution like the greatest good of the greatest number of dynamics, and that is an optimum solution always: The greatest good for the greatest number of dynamics.

In fact, that is the definition of an overt act.

Most of you think an overt is harming something. Brother, that is the most unlimited piece of nonsense ever. No, that is not an overt act. It is sometimes an overt act, but that is just an unintelligent look at what an overt act is.

An overt act is flaunting "The greatest good for the greatest number of dynamics."

But you'll find the real overt acts – was maliciously and viciously setting out to damage, for no good reason, some beings or people, or start a trend or something of the sort. It was a lie or a piece of nonsense; you knew very well it was a lie and a piece of nonsense and keep going anyhow.

An overt act can occur almost unintentionally by the realization that you haven't been very smart about it. An overt act is often realized after the fact by the realization that you could have done it some entirely different way that would have been much smarter, and then you get regret and so forth, and then you get a hung-up overt act.

And when you hit a real overt on the track – that the pc is going "Oh, my God, why did I do it?" – you'll find these other elements are present. A lot of elements.

You run off a long chain of engrams and all of a sudden one of these overt acts will suddenly show up – in a very strategic locale that meant a great deal to one and all in all directions. And you'll see that thing all grouped up and that thing followed by a chain of motivators like mad. And if that overt hadn't been present, those motivators might never have followed at all. And then you'll know what an overt act is, and you can analyze it, and you'll find out – it was "The greatest good for the greatest number of dynamics," was violated – wittingly or unwittingly – either because the guy was a complete knucklehead at the time or just because he had gone clean vicious.

"You reach over on the trap and pull the guy off of it and throw him out in space to cool off. That requires a what? That requires an OT."

Now, what's this all amount to? The intelligent use of intelligence and force. You've got to have force and you've got to have intelligence. If you don't have these two things you haven't got anything. And imbalances along that line have occurred over such a long period of time that we find ourselves reduced to a rather static civilization, and the free powerful being, at war with the organized society as an adventure and an action, can be looked upon as a lost war. You've *lost*. You're *here*, aren't you? You've got a meat body, haven't you?

THE SOCIETY OF THE FREE BEING

Now, we say, what does this mean for the future? Does this mean that there will be no more free beings? Oh, I'd hate to think of that, man. I reserve my right to go sit on a mountaintop for a few trillennia and take a long breath, you understand? The point I am making here is the use of intelligence with force can maintain a freedom of action, and so on, without racking up a new bank, without racking up new overts, without the war again turning entirely against one.

There's never been a lasting or intelligent society of free beings. You say, how could you have a society of free beings? Well, in the first place, you can't do without a society of free beings. That is to say, it's all very well for everybody to be totally on his own, but look where this gets everybody. It gets everybody downscale in the long run so that it doesn't work. And if you mean a totally irresponsible freedom – if that's the definition of freedom, see, total irresponsibility all up and down the line – well, you're not talking about freedom, you're talking about catastrophe. What it

takes – what it takes is know-how and force – not know-how in how to play the force. You probably know how to mock up a body, you probably know how to do this, that, the other thing; these tricks are pretty easy. That isn't the missing intelligence. The missing intelligence is: a balanced technology. If you know how to enslave people, everybody knows how to enslave people, then they equally should know how to free people.

So, at this point of the line we're shifting gears on the whole game of the universe. That's an adventurous thing to do. This is a noteworthy time, and the only way we're doing it is, quite simply, we're just putting some intelligence along with the force. We've got the know-how and the technology necessary to handle the problem which has never before been handled.

When you finally get down to the final action of OT, well, just what are you making? Just what is the end product of all this? If I could tell you that, yes, each person is just let free to go and wander and do anything he pleases anyplace and do anything he wants, and it's all up to him and that sort of thing. . . I'm telling you that this is a shortsighted irresponsibility, which will again almost immediately wind us up in the soup.

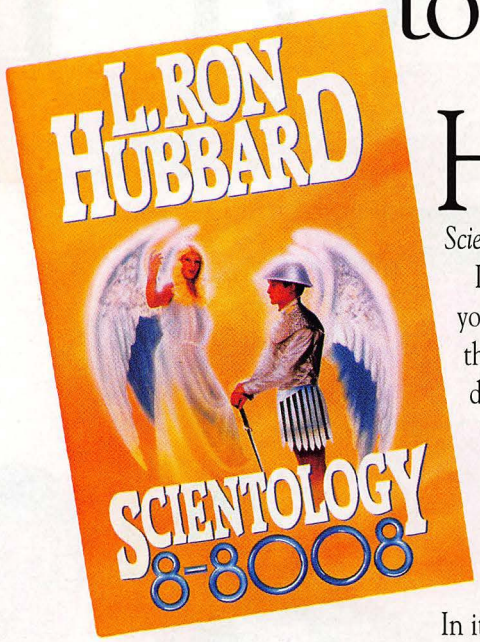

We have to continue to take our responsibility for our fellows, we have to go on with that. And we can't continue to exist on an irresponsible line of just forgetting and abandoning everybody and anybody and "leave them on the theta pole, so what," you know, this kind of an attitude. Because that kind of an attitude breeds for each one of us entrapment in the long run.

We have to learn to take care of our own because we will have made that own with our own lily-white E-Meters.

Luckily, going exterior while reading *isn't* a barrier to study...

How well do you read from outside your body? Or up on the ceiling? You're likely to find out while reading *Scientology 8-8008*.

In fact, you're likely to find out how well you do a lot of things exterior after reading this book, because the data makes it rather difficult to remain in a head.

Published as the textbook for the famed Philadelphia Doctorate Course, *Scientology 8-8008* won't just change your life, it'll revolutionize it. It's the OT's manual on the operation of universes.

In its title is an OT formula, where "8" is the symbol for infinity stood upright. This formula explains why the book tends to exteriorize a thetan so readily:

8 - 8 0 0 8

The attainment of infinity | by the reduction of the apparent infinity | of the MEST universe to zero. | And the increase of the apparent zero | of your own universe to infinity.

Herein are the techniques for restoring a being's capability to operate causatively in the midst of matter, energy, space and time. With this work, Ron makes it possible to reverse the degenerating effects of this universe on the beings in it.

BUSTING THRO THE OT BAND

Have you ever wondered what it would be like to be so big the planet couldn't hold you? Perhaps you've already experienced something like this, but it was fleeting – it didn't last. Well, that's how it's been for you and every thetan here on earth for a very, very long time. OT abilities that are fleeting and don't last. And that's what changes when you do the incomparable Advanced Courses.

When you go Clear, you have handled your own reactive mind. But on the OT levels you handle far, far more – and you do this on a gradient, so your confront increases and you are able to handle more and more of your OT case.

On the Advanced Courses you find out what *really* happened all those eons ago: the whole truth, no holds barred. So hidden, so insidious that only one man, L. Ron Hubbard could unlock the trap. You learn the *exact* mechanisms and how to deal with them, so that when you go in session as a Solo auditor you know how to blow them off your track FOREVER. The result? OT: CAUSE.

Getting Scientologists up the OT levels is the most vital activity in the universe, and that's why at AOLA we're single-minded about getting **you** to OT. Our Flag-trained team know exactly how to get the product, with no delay. And they are ready for you. Their message is simple: Disagree with the stops of the physical universe. You *are* going OT. Come in now and start.

The point is this – if you're Clear then you're standing at the very door to OT. And with just a few incredible steps you

could walk right in and make it all the way through OT III, the Wall of Fire and then up through New OT V, New Era Dianetics for OTs. Not in a year, or in a few months, but NOW.

With the Golden Age of Tech for OT we are creating a new breed of Solo auditors on the Advanced Courses, Solo auditors who are totally certain of the tech and can handle anything that comes up. Like these:

"What an adventure! Starting OT III theory with the new checksheet, the Advanced Courses Drills, and the Flag-trained sups was exciting enough, but now I'm ready to roll on this fantastic level and I have NOTHING to question or wonder about. I am totally well drilled and raring to go thanks to the Golden Age of Tech for OT." L.C.

"The reason why you have to do these levels solo is because of the speed you need to be able to move on these levels. I audited Solo earlier and I thought I was pretty good. Well guess what, pretty good is not good enough. The speed you can move once you have trained using the Advanced Courses Drills is the speed of light. You know what to do, you know how to do it, and you just do it. It's part of you. This is the Golden Age of Tech!" S.P.

Thousands of Scientologists have gone Clear and OT here since LRH first established AOLA as the OT Base for the Americas in 1968. And in the Golden Age of Tech for OT, we are set up like never before to deliver these fantastic levels to you and take you all the way through New OT V, perfectly. And it won't take long.

So, what are you waiting for?

There is no "trick" to moving up the OT levels. Just intention. You simply decide to start, then start, and then keep moving. You will make it, we'll make sure you do.

The adventure takes off with Solo Part One and if you can't come to AOLA to do it, call us up and we'll help you get on Solo One at your local org. The Flag-trained sups there will get you through in no time flat, using all the technical breakthroughs of the Golden Age of Tech.

The course is the very foundation for all your future Solo auditing. You'll study several LRH basic books so you have the theory of the mind down cold, you'll watch LRH Technical Training Films, including "The Solo Auditor" where LRH shows you *exactly* what a Solo session looks like. And when you're done you'll know the theory of Solo auditing and be ready to put that theory right into practice on Solo Part Two.

If you've already done Solo One when you arrive at AOLA you'll go right onto Solo Part Two while you get through any needed auditing. There's a special auditing package – the Introductory OT Preparations Package – geared to help you get your case in perfect shape and ready for the incredible adventure of the Advanced Courses. (See the ad for this on page 17 of this magazine.)

And while you get this auditing you'll complete Solo Two. Here you'll become a top notch Solo auditor, ready for the heights of the Advanced Courses. This is actual in-flight training experience, and with the Golden Age of Tech drills you will know exactly what to do at any moment in any Solo session from this point on.

THE ALTERNATE ROUTE TO CLEAR

R6 EW

There's another side to this amazing adventure, a route for those who didn't go Clear on New Era Dianetics. For you the next step to OT is the Alternate Route to Clear. On this route, after completing Power Processing and your training as a Solo auditor, you'll audit your *own* way through the final barriers to Clear.

Your first Solo level is Grade VI Release, a confidential level which delivers freedom from dramatizations and the return of power to act on your own determinism. The theory of this level includes four confidential filmed lectures by Ron in which he *shows* you the fundamental anatomy of the reactive mind, and exactly why the human race reacts so oddly to life. Then you Solo audit the Grade VI processes, experiencing your first Solo auditing and the spectacular gains this level brings.

THE CLEARING COURSE™

The Clearing Course is the next step on the Alternate Route to Clear. Here you'll see several LRH filmed lectures where Ron personally demonstrates the *exact* structure of the bank. He also gives a session demonstration of exactly how to audit this level! And with Standard Tech™ Drills you'll gain total certainty of your ability to apply the Clearing technology, and then take yourself all the way to the glorious long-sought end phenomena of this milestone level.

The Clearing Course has made thousands of Clears and if you didn't go Clear on NED®, here's where you can.

And then next the Sunshine Rundown®: with the burst of power and vitality that comes from this Solo action, you'll be ready for New OT I.

NEW OT I: ACQUIRING AN OT VIEWPOINT

New OT I is the first step a Clear takes toward full OT ability, and that first step is to a fresh, causative OT viewpoint of the MEST universe and other beings.

Solo auditor skills, honed to perfection, and the materials of New OT I down cold, you now experience the joy of operating as an OT, familiarizing yourself with the universe of matter, energy, space and time, and the universes of those around you.

In the OT lectures Ron talks about invisible "spheres of influence" that surround a being. And on New OT I you discover the extent of these mysterious influences, and then proceed to handle them forever. With the more than one hundred and thirty different actions you learn to do on this level, you shatter darknesses that have been with you for eons.

Session after session, you experience a dramatic increase in control over postulates, and with this you gain a new-found level of cause. Problems, stops and barriers disappear as you progress. Your ability to cause the effects you intend – often at a great distance to your physical proximity – dramatically increases.

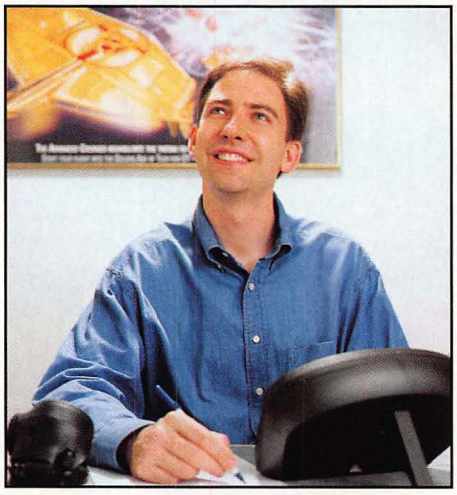

And with every session you become more extroverted, with an OT orientation to the world.

A cutting edge to the universe of OT, the results of this level are spectacular.

"A looming darkness has been shattered and replaced with a bright future on my way to OT. The gains came fast, and were more sweeping and basic than I thought possible. My cause level dramatically changed, my ability to intend and make things happen even far away is really there.

"I am also very confident as a Solo auditor and a pre-OT. I have the ability to be responsible for my own case, actually audit it, and that's no small thing. And best thing of all – I know what an OT viewpoint is, because I now have one." J.S.

"I am exterior! What a level New OT I is! Things which would have earlier worried me for a long time resolve in minutes. I am cause over whatever I choose to be cause over. I can do, handle, resolve and accomplish what I decide I want to. My postulates are strong, and they stick. It's no longer a matter of 'working things out in the physical universe.' Things get handled. Period.

"My ability to spot the exact source of something and then handle it is unstoppable. My abilities to communicate and to perceive have increased mightily. And my ability to work with and handle others has increased unbelievably.

"I achieved much much more than I anticipated on New OT I. It was totally life-changing and I am ready for OT II!" B.R.

OT II: OPENING UP YOUR WHOLE TRACK

OT II is a journey into hidden aspects of your life that up to now have trapped you and paralyzed your ability to be OT. And the dramatically increased cause and intention levels you gained on New OT I, are exactly what you need to take you through.

For here you explore vast reaches of your whole track, and confront a mammoth area of your case that has been long occluded. And although this case is very, very ancient, it nevertheless remains with you here and now.

And as part of the closely-taped path he discovered, you'll see a series of eight LRH filmed lectures, where he reveals some of the most sought secrets of existence, solving mysteries which have been the ruin of all beings on this planet for trillions of years.

Vast amounts of energy and attention are released as huge areas of your whole track charge are blown. And you experience resurgence after resurgence of your self-determinism and your native ability as a being.

Huge increases of space, memory, reach and aliveness, are yours as you open long closed doors on your journey to OT.

"I could say I hardly recognize myself, I changed so much on OT II, but the reality is I am more myself than I have been for eons. So many things I'd thought were 'just the way I was' have blown.

"I could sum it up by saying that this level explained to me so many things that have eluded me for trillions of years. Suddenly the mysteries were gone. And this has had benefits across all my dynamics, because now when I see another person dramatize these traps I am no longer the effect. My TRs stay in completely, because I understand the source. And I can deal with it.

"Another incredible benefit from this level has been my creative abilities. I am an artist and there were real blocks I encountered when I tried to create in some areas. OT II handled this. My creativity and my production as an artist is at an all-time high. I'm moving onto OT III right

now and I'm more than ready to deal with the Wall of Fire. But I have to say OT II was literally beyond my wildest dreams." C.J.

"When I was auditing on OT II an entire mass – I mean A HUGE BLOCK OF MASS just fell away. It was incredible and I could hardly tell what had happened. And when I walked out of session EVERYTHING was brighter. I felt lighter and the entire way I view life changed. A joy came over me that was very deep, and it has never gone away." D.K.

"OT II was a spectacular level – SPECTACULAR. I have a calmness that has stayed with me permanently, or rather an absence of a franticness that had been with me for eons. Before OT II 'calm' was not a word you would have used to describe me. Electrified perhaps.

"My perceptions have dramatically increased. Just how much, I noticed the day after I completed. My wins had been so huge that the C/S had told me to go off and enjoy them. And I definitely did. I went to visit an estate, famous for its magnificent gardens. It was spring and for tens of acres there were rhododendrons, some 30 feet tall, in almost every color imaginable. And across the fields was a blue haze of blue-bells, everywhere. And I was totally exterior, able to go anywhere in this garden. My senses of smell, sight, touch and hearing had so dramatically improved it was a most incredible experience. And those heightened perceptions have stayed with me to this day." J.W.

OT III: THROUGH THE WALL OF FIRE – BECOME TRULY FREE AS A BEING

Many have tried to understand the mystery of why Earth is such an inferno of insanity. But so insidious is this trap that it was designed to kill anyone who dared penetrate the truth.

That is until LRH broke through on March 14, 1967, and was the first being ever, in the history of this universe, to pass through the vicious Wall of Fire. He then researched a way for others to follow in his footsteps, and developed the technology so they too could pass through this wall unscathed, providing only that they followed his carefully taped path unwaveringly.

That path is OT III, and you will learn it on the theory section of this level so well, that by the time you come to travel it in session, you will know it like your name.

You will address the epic catastrophe that occurred on Earth 75 million years ago. A catastrophe so huge that it impinges on each moment of your life to this day. And your own role in the history of this planet, has *everything* to do with why you're still here.

"ANYONE WHO IS CLEAR BUT NOT OT III HAD BETTER BE PUSHED UP TO OT III FAST BECAUSE OTHERWISE HE IS AT RISK." LRH

No one will survive this planet unless they travel through the Wall of Fire, and as LRH wrote in HCOB 23 Dec 1971RB Solo C/S Series 10RB, *The No-Interference Area Clarified and Re-enforced*: ***"Anyone who is Clear but not OT III had better be pushed up to OT III fast because otherwise he is at risk."***

So if you're planning to put off OT III until later, don't. If something else has a higher priority in your life, beware. If you are blocked by MEST stops, get them debugged fast.

And what is on the other side of the Wall of Fire?

"The ultimate win" as LRH called it: case gain, the length and breadth of which defies imagination. Your *spiritual beingness* restored.

"OT III answered all my questions, even questions I didn't know I had! In my 10 years in Scientology, I'd had over a thousand guesses as to what the secret of OT III was. None – not one – came close!

"If you haven't done OT III, you must. And, you must hurry. All I can tell you is that when you make it through the other side you will know what is at stake here. Until then you have to trust all those who've made it through, and take the closely taped path LRH left for you. Whatever is causing you to delay is part of what you will handle. Don't buy it any longer. You must do OT III, and now!" L.T.

"This is the BIG one, that's for sure! I'd read about it, heard about it, knew how important it was, and knew 'I was at risk until I made it through' and even though I 'knew' all that, I was in no way ready for what I found out. What a fantastic adventure!

"How LRH ever uncovered this is totally beyond me but the fact that he did means eternity for me and for all mankind. It means we have the way out, never available before. You have to understand this: until you do it you won't duplicate how important this level is to the survival of every thetan. But you have to trust those of us who've made it through. DO NOT DELAY! For to delay is to perpetuate the trap you have been in for the past 75 million years. And know this too, when you do the new drills you will have a certainty and competence that equips you to fully take on and handle the Wall of Fire. And when you emerge from this trap you will know what is really going down on this planet and this sector of the universe. On OT III you will experience wins beyond your wildest of wild dreams!" U.W.

This is the route that the best friend you ever had, made for you. And you need to take it now! To get to Clear and not move on is to meddle with the trap. And the only words of advice on this boil down to one: DON'T!

If you have ever wondered exactly what LRH meant when he said you were "at risk" know this one thing, the trap is already running. To be at risk means this: "to run the chance of harm or loss: danger; peril." And that's exactly what LRH meant. It's not a matter of "today or tomorrow, what's the difference?" When we're talking about the Wall of Fire – the difference *is* your eternity.

And if this is still not quite real to you, know this: *It's not supposed to be.* That's also part of the trap. LRH said that breaking through the Wall of Fire took quite some doing. He said it was in fact "the toughest one I've faced." He also said, "I faced it so that it would not be tough for you to face when you came to it."

So what exactly do you have to do? Two things, both simple. First, and this is key, decide you're going OT right now, no more Q & A. Second, contact us the minute you make that decision. Call the Registrar at 213-953-3300 or write the Letter Registrar today. Take the next steps to your infinite future as a full Operating Thetan.

PREPARE FOR A ROCKET RIDE TO OT

OUR NEW "COMPLETE YOUR CASE" PROGRAM

With the return of the Golden Age of Tech for OT teams from Flag, every Advanced Org on the planet is flat out on a program to complete up *every* case in their area and get them going on The Bridge to OT.

What does "Complete Your Case" mean?

Before you embark on the journey to full OT, your case must be in order.

The Complete Your Case Program picks up *any* earlier undone or incomplete steps and gets them rapidly *completed*. That means you walk forward onto your OT Courses ready to blow through megatons of charge and experience the full gains of Solo auditing.

FREE OF THE ABERRATION OF EONS

Realize that the gains on the Advanced Courses will free you of the aberrations of *eons*. You are about to confront the very thing that has kept you small and unable to break out of the MEST universe.

It took thetans a lot of time to wind up in such a state that they would believe they couldn't do anything except walk the body from point A to point B. That they only lived once. That they were descended from apes.

This frame of mind was brought about by vicious implants, traps set up on the track. The problem was that no one knew how to undo those traps until LRH made the breakthroughs that penetrated the whole track lies. And, with the help of the E-Meter, he plotted an *exact* way for all beings to set themselves free.

What this means for you is that you will not only be free of the traps, but with your abilities as an OT regained, you will be more powerful in life than you have ever dreamed. Postulates are the stuff of thetans, and you will be in control of yours across all your dynamics.

PREPARE TO TAKE ON THE WHOLE TRACK

The earlier part of The Bridge® is entirely set up to prepare you for what is coming on the OT Courses and beyond.

With these factors still in place, the being is too overwhelmed, too loaded with present time charge to be able to take on the whole track.

Thus, the first action of the Advanced Course C/Ses is to review your folders in detail and to see exactly what is needed to get you ready to enroll on your first OT level.

Any actions you need to ensure you are going to race up the OT Bridge will be programmed out.

INTRODUCTORY OT PREPARATIONS PACKAGE

And in celebration of the Golden Age of Tech for OTs and return of the technical teams to the AOs, a special Introductory OT Preparations Package makes it very easy for you to take this next step. (see ad opposite for details).

One thing is clear – once you arrive at the AO, we will take you all the way through the Wall of Fire. This is where the new OT Preparations Package comes in – you get the auditing you need so you can get started in the Advanced courses course room.

This also includes False Purpose Rundown Expanded auditing as needed to pinpoint and blow any major cross purposes that could stop your progress dead.

And it includes your OT Eligibility auditing step so you are fully set up to embark on the ultimate journey of your lifetimes – the full rehabilitation of your OT abilities.

AOLA CASE CHECK

If you have any questions regarding your next step on your OT journey, AOLA will provide you with a complete Case Check. Your past auditing will be reviewed, and a program written to complete your case and get you rapidly onto your OT levels.

This Case Check can be done in a weekend and provides the perfect opportunity for you to come to AOLA, meet the staff and take your first step on the OT Bridge.

All you need to do is tell your local org to send your pc folders to the Director of Tech Services of AOLA, and let the Letter Registrar know you want a Golden Age of Tech Case Check, and when you will arrive.

GET STARTED NOW!

The MEST universe is a vicious invention – it offers a myriad of tricks and false data to the thetan who is trying to find the road out. Don't be fooled. Disagree with all the stops and you will find the road

"Sorry, I left my beeper on my body..."

I got in a little hot water the other day with the boss.

I was driving across town, it was a hectic day, a lot of client randomity.

So I popped an LRH cassette into my car stereo and settled in for some wild OT data.

The First Postulate Lectures.

Wild? I had no idea. Here's some food for thought: "What thing have you depended on utterly which became your unknown master?" I found out.

Ron went on to talk about thetans doing things with time tracks other than the time track they're aware of. Whoa! I had to rewind the tape and listen to that one again.

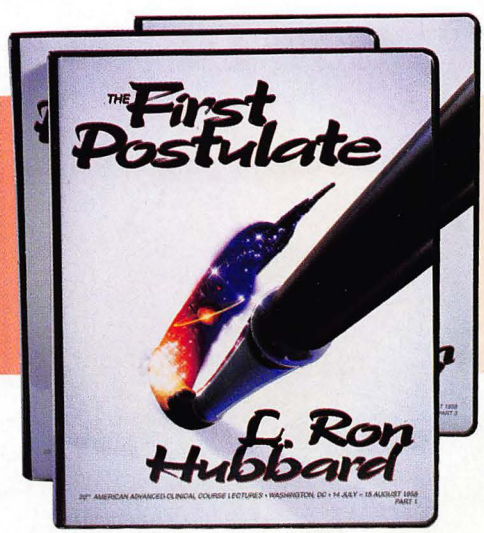

And when I found out what happens to a preclear's computation when it ducks out of sight from him, and how a being can never be injured unless he consents to it, I really went out of my head.

And right through the roof, over the freeway and into the clouds.

Pretty nice up there.

Apparently my beeper went off, but I didn't notice. So the boss was a little upset with me. But when I told him what I'd been listening to, he found a reason to go for a spin across town himself.

The First Postulate Lectures

A very good reason to go for a long drive.
