If you're Clear, but not moving up to OT right now – *you're stalled* – and we want you here for your Golden Age of Tech Case Program, training as a perfect Solo auditor and speeding up to OT.

We're on a huge push to get *every* pre-OT in the Americas rocketing up The Bridge, and rapid progress to OT begins with the Tone 40 decision to do just that – no ifs, ands or buts. Success after success in this edition of *Advance!* show how the decision to go OT, no more Q&A, is the key.

In the new Inspector General Network Bulletin included in this issue, Chairman of the Board RTC explains how in th Golden Age of Tech for OT there are no stops, no arbitraries, ju a perfect gradient of auditing and Solo auditor training, geare to get you there with speed and total certainty and all the wir of the incredible Advanced Levels.

The LRH Tech Films you'll see as part of your Solo audito training are key tools to ensure you make it, and in this editio of *Advance!* you can read the wins from Solo auditors who hav seen them.

If you're already OT III but not yet New OT V, the message

# E THE NOW!

he same – all arbitraries have been stripped away on case programming. Going OT does not take long!

Nothing is more important to us than YOU making it to OT.

We'll make sure you get there. Scientologists like you from all over the Americas are soaring through their Solo auditor training and up to OT at AOLA right now.

And it's our postulate that you join them, and us. Now.

Love,

While reading this magazine, be very, very certain you do not go past any words you do not fully understand. If the material becomes confusing or you can't seem to grasp it, there will be a word just earlier that you have not understood. Immediately go back, find the word and get it defined. There is a brief glossary on page 31.

**ABOUT THE COVER:**
*Babylon, meaning "Gate of The God," was the ancient capital of the great kingdom of Babylonia in the second millennium B.C. The famous Ishtar Gate, decorated with enameled lions, bulls and dragons, was the entrance to this fabled city.*

THE MYSTERY
BABYL
GATE OF THE G

## An entire civilization disappeared into the desert from whence it came. Why? The fate of Babylon has eluded adventurers, historians and archeologists for centuries.

*Approaching the city, the traveler first saw an immense and lofty tower, rising in seven stages of gleaming enamel to a height of 650 feet. Crowned with a shrine containing a massive table of solid gold, the shimmering Tower of Babel was in fact taller than the great pyramids of Egypt.*

*"South of this great tower stood the gigantic Temple of Marduk, The God who had created all men. And around and below this temple, the city of Babylon spread itself in wide and brilliant avenues, crossed by crowded canals and narrow winding streets, themselves alive with traffic and bazaars.*

*"Connecting the temple and the tower was a spacious Sacred Way, paved with brick overlaid with limestone and crushed red stone. Over this the gods might pass without muddying their feet.*

*"This broad avenue was flanked with walls of colored tile, on which stood one hundred and twenty brightly enameled lions, snarling to keep the ungodly away.*

*"At one end of the Sacred Way rose the magnificent Ishtar Gate, a massive double gate of blue enamel tiles, adorned with flowers and animals of bright colors.*

*"Close to the Tower of Babel stood the grand palace of the King Nebuchadnezzar II. The walls were of fine yellow brick, the floors of white and mottled sandstone; images in vivid blue glaze adorned the surfaces, and gigantic basalt lions guarded the entrance.*

*"And nearby, supported on a succession of circular colonnades, were the famous Hanging Gardens. Built by Nebuchadnezzar for one of his wives, daughter of the King of Medes, who, unaccustomed to the hot sun and dust of Babylon, pined for the green hills of her childhood.*

*"Hydraulic engines concealed in columns and manned by shifts of slaves, carried water from the Euphrates to the highest tier in the gardens, where, 75 feet above the ground in the cool shade of tall trees, surrounded by exotic shrubs and fragrant flowers, the ladies of the royal harem walked, unveiled, secure from the common eye. While in the plains below the common man and woman, and the large slave community lived a very different existence."*

Standing at the site of ancient Babylon today, no one would suspect that the hot and dreary wastes of the Euphrates once held the powerful capital of a civilization rich in learning. For here began astronomy and the science of language. Here also medicine developed to a high skill, and the first codes of law were written and enforced by one of the greatest Babylonian kings, Hammurabi. From here, too, came the scholars who taught the Greeks the rudiments of mathematics, physics and philosophy, and gave the Jews the mythology which they in turn gave to the world.

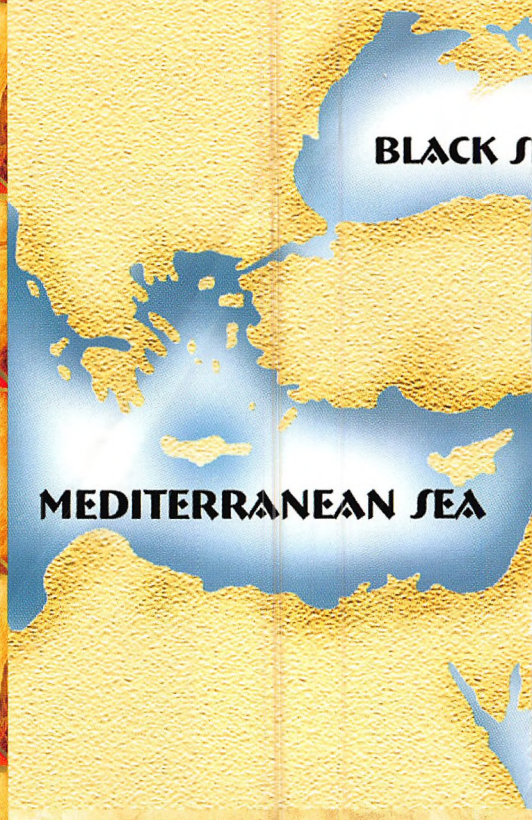

In the valleys of the silent Tigris and Euphrates today, one finds it hard to believe that so much existed there more than 5,000 years ago, and that these tired rivers once nourished the Hanging Gardens of Babylon, one of the seven wonders of the ancient world.

## WHAT DESTROYED BABYLON?

Why did Babylon disappear into the desert from whence it came? Down through the centuries, adventurers, historians and archeologists have worked to piece together the mystery of the demise of Babylon.

One such attempt can be found in the Old Testament where an explanation of how the "Tower of Babel" earned its name is given. The story goes that long ago the world spoke with a single language and used the same words. As men journeyed in the east, they came upon a plain in the land of Shinar and settled there. They said to one another,"Come, let us make bricks and bake them hard"; they used bricks for stone and bitumen for mortar. "Come," they said, "let us build ourselves a city and a tower with its top in the heavens, and make a name for ourselves; or we shall be dispersed all over the Earth." Then the Lord came down to see the city and tower which mortal men had built, and he said,"Here they are, one people with a single language, and now they have started to do this; henceforward nothing they have a mind to do will be beyond their reach. Come, let us go down there and confuse their speech, so they will not understand what they say to one another." So the Lord dispersed them from there all over the Earth, and they left off building the city. Thus, as the story goes, it is called "Babel," because the Lord in anger confused their speech and scattered men all over the face of the Earth.

In fact this Bible story sheds no light on the real mystery of Babylon, for the very name of the city means literally, "the gate of god." And the Tower of Babel was in fact a way to reach The God, Marduk, and other sacred beings.

## THE FIRST GREAT BABYLONIAN KING: HAMMURABI

When we examine the life of Hammurabi, a man who sought power and permanence with MEST, we begin to understand what happened to this civilization. A conqueror and law-giver through his reign of 43 years which ended at his death in the year 2081 B.C., Hammurabi was a leader full of fire and genius, brave and fast in battle. Under his rule the warring states of this great civilization were forced into unity and peace, and disciplined into order by an historic code of laws.

These laws, known as the Code of Hammurabi, like the laws received centuries later by Moses, were a gift from Heaven. Legend has it that the king received these laws from Shamash, the Sun-god himself.

The code combines the most enlightened laws with barbarous punishments. The concept of "an eye for an eye" came from these laws where, for instance, if a man knocked out the eye or the tooth of another, precisely the same was done to him. If a house collapsed and killed the purchaser, the architect or the builder would be killed. If a man struck a girl and killed her, then his daughter, not he, would suffer the penalty of death. And so these laws went, all concerned with the MEST of men.

To secure his authority with the gods, Hammurabi built temples as well as forts. He levied taxes to finance the forces of law and order, retaining enough to beautify his city with more temples and palaces. He built a bridge to span the Euphrates so the great city spread on both sides of its fertile banks and along the river traveled large ships manned with 90 men.

Thus, 2,000 years before Christ, Babylon was one of the richest cities history has ever known, in a civilization founded in MEST and with little attention on the spiritual side of man.

## BABYLON FALLS

But the wealth that softened the people to the ways of luxury and peace, invited invasion from stronger arms and hungrier mouths, and eight years after the death of Hammurabi, Babylon was invaded and entered a period of ethnic and political chaos. And for more than 1,000 years Babylon lay suppressed under the power of the kings of neighboring Assyria, explaining the strong Assyrian influence in the art and statues of the times.

Finally liberated, a powerful Babylon rose again from the desert, nurtured by the most powerful of all Babylonian kings, Nebuchadnezzar II and his untiring quest for permanence via MEST.

Under him, Babylonian merchants controlled all trade that flowed across western Asia from the Persian Gulf to the Mediterranean Sea. And like Hammurabi before him, the king spent the taxes of his people to beautify his capital, and it soon became the unrivaled capital of the Middle East and the largest and most magnificent city of the ancient world.

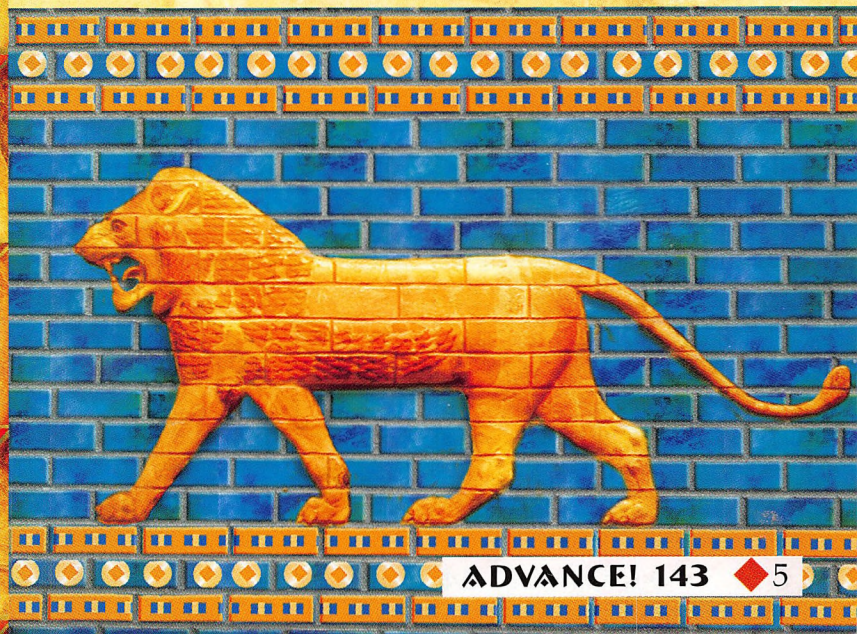

Babylon was now surrounded by a wall 56 miles in length and broad enough that a four-horse chariot could be driven along the top. Some 200 square miles were enclosed this way. A vast commercial civilization, most of the documents from this time are of a business character. There was abundant evidence of wealth, a busy prosperous life, where thousands of slaves brought life to the visions of kings and gods of Babylon, creating the huge structures called for by the rulers.

## WHO WERE THE GODS OF BABYLON?

The power of the King of Babylon was limited not only by the law but also by the priests, who were a powerful class in ancient Babylon. The Chaldeans served The God, Marduk, and the king was the agent of Marduk. Taxation was collected in the name of Marduk and thus filled the temple treasuries.

The wealth of the temples grew to vast amounts with extraordinary gifts given frequently to the gods. Gold, silver, copper, lapis lazuli, gems and precious woods accumulated in the sacred treasury.

And numerous were the gods, in fact in the ninth century before Christ some 65,000 gods were thought to exist by the Babylonians. Not aloof from man, most of these gods were thought to live in the temples where they received the offerings man made to them.

*Priests, kings and gods determined the fate of the peoples of ancient civilizations. The magnificent Babylonian Empire was conquered, but many of their sacred images survived in the cultures of Assyria and later Persia.*

The oldest gods were the gods of the sky: Anu, who was the heavens; Shamash, the sun; Nannar, the moon, and Bel or Baal, the earth into whose bosom all Babylonians returned after death. But the most important of deities were Marduk, The God who made all, and Ishtar, the goddess of physical beauty and motherhood. And many were the myths woven about these gods and passed down to us: the creation, the flood, heaven and hell.

Yet the Babylonian derived no satisfaction from the idea of personal immortality. Religion was earthly, practical, founded in the MEST universe. Prayer was not for celestial rewards, but earthly goods, and the gods could not be trusted beyond the mystery of the grave.

Life after death was in a dark and shadowy place within the earth where none saw the light of day again. Heaven was only for the gods. The place all men descended into was called Aralu and was a place of punishment where the dead lay forever bound hand and foot, relieved from perpetual hunger and thirst only when their children left food by their graves. And those who had been wicked on Earth were subjected to horrible tortures.

Thus, immortality was not sought by the Babylonians. Religion was more about handling the mysteries and miseries of life on Earth and concerned correct ritual, proper sacrifice to the temples and timely payment to the priests. Reprisal for the lack of doing these religious acts correctly was an earthly reprisal. Sin was a sickness caused by a demon that took possession of the body to destroy it. Prayer was to ward off these hostile demons who were everywhere, hiding in strange places, able to slip through doors or even through bolts and sockets. All was concerned with the MEST world.

## THE MYSTERIES OF MAGIC AND SUPERSTITION

Formulas for the exorcism of such demons and the avoidance of evil visions of the future were the subject of much writing in those days. Manuals of astrology, interpretations of dreams, and instructions on predicting the future from the entrails of animals were part of the religion of these people: no important decisions were made without consulting a priest or soothsayer. Thus superstition was never richer than in Babylon.

Life was a mystery which they sought to control with omens and offerings to those they thought had a way to reach the gods. Yet, not knowing the truth of life on Earth they were the effect of those who they believed had control over them.

Thus it was that the slavedom in Babylonia was not confined to those of the slave class, for the mystery and superstitions of Babylon created their own slave-state which every man was the effect of.

LRH's words about the slavery of man in the lecture *Man's Search and Scientology's Answer*, shed light on the mystery of Babylon and the Chaldean priests of Marduk:

*"And what is slavery but the substitution of one area of controls for the proper area of controls. We take a human being who should be able to control himself and his environment and we put him in chains and we tell him that he is now totally controlled! And he mustn't breathe or spit without some kind of a government permit. And we say, 'Ah, this is the way to go about it. This is the way to have a civilization.'*

*"Oh no, it is not. That is the way to have chaos! And man cannot afford slavery. He cannot afford duress. He can't afford to tear his fellow man to pieces if he wishes to live any kind of a life at all.*

*"There is nothing wrong with the world today, except the world believes in duress and slavery as a method of possession.*

*"No, it's a very simple thing. It's a very simple picture. Let's look what this has done to the entire study of the mind. A study which came up from Chaldea. A study which came through all of the ages of Asia.*

*"Every time somebody would come up with a little idea that had some notion of what it was all about, there was always somebody standing there ready to take that little idea and use it as a control mechanism on somebody else, and enhance slavery, but not man."*

## THE END OF THE BABYLONIAN MYSTERY

And so it was that, devoid of real spiritual values and beliefs, tied in all ways to the MEST universe, the Babylonian civilization fell prey to the very MEST it seemed to worship. And in the end there was no mystery to the fall of Babylon, for trapped in the MEST it lived for, so it died.

Those ancient men of Babylon and the Chaldean priests who served The God, Marduk, lost their chance for immortality as their search focused more and more on the solidity of their own creations, and so they became themselves slaves to their own desires.

The only way out of the trap, the only route that could have saved the beings of ancient Babylon was the way LRH found, The Bridge to Total Freedom.

The heights sought by the builders of the Hanging Gardens and the Tower of Babel, can be reached by anyone today on the Advanced Courses of Scientology.

Here lies permanence in the shape of immortality for all who take this route. And all you have to do is walk it.

*The wealth of Babylon has disappeared, with only a rubble-filled desert to mark its former glory.*

# Luckily, going exterior while reading *isn't* a barrier to study...

That's a good thing because the book *Scientology 8-8008* is straight off your whole track and is guaranteed to blow you away. Here is the truth about factors that were part and parcel to your entrapment in this universe. Here is the OT data you need to make your postulates stick and take you into the realm of OT.

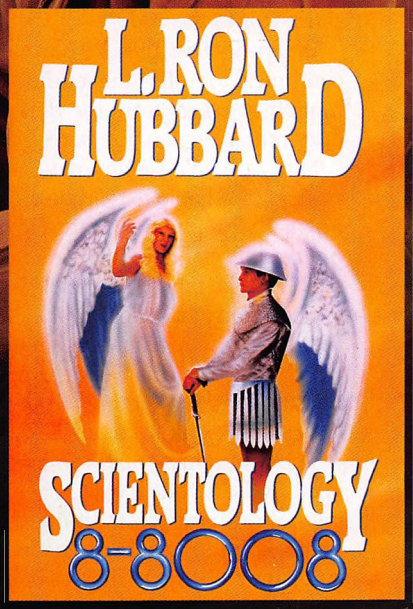

Published in December 1952 as the textbook for the famed Philadelphia Doctorate Course, *Scientology 8-8008* won't just change your life, it'll revolutionize it.

This is the OT's manual on the operation of universes and postulates, and within its very title is an OT formula, where "8" is the symbol for infinity stood upright. This formula explains why the book tends to exteriorize a thetan so readily:

## 8-8008

The attainment of infinity by the reduction of the apparent infinity of the MEST universe to zero. And the increase of the apparent zero of your own universe to infinity.

Here are the techniques for restoring a being's capability to operate causatively in the midst of matter, energy, space and time. With this work, Ron makes it possible to reverse the degenerating effects of this universe on the beings in it.

# THE SECRET OF NOT-KNOWING

## BY L. RON HUBBARD

FROM THE NEW "RESTORATION OF KNOWING CAUSE, CLEAR TO OT" LECTURE SERIES

A field is that area of subjective energy which the preclear sees, and which bars his view from mental image pictures. It's really two things: It's a barrier to mental image pictures and it is a screen, subjectively viewed, which he considers himself to be surrounded with. There are a great many things you could say about fields, but the main thing that you would say about them is that they are variable. And the one law there is that sweepingly gets rid of them is you have the preclear mock up a terminal of the same character as the field and shove it into the body.

When he does this, he normally goes anaten. And the auditor continues to utter the auditing commands regardless of any motion or assent from the preclear. Actually, the preclear himself does not go anaten, the body goes anaten.

Now, a whole session may get buried in the preclear's memory. And he's liable to tell you afterwards that he didn't do a thing. Be totally prepared for this. He did it all the way. The test is simply this: Does he now have a field after you have done this, you see? Does he now have a field?

The oddity of a field is this: it is a dramatized not-know. It is that physical mechanism, in terms of mental image pictures, which the individual uses to prevent vision. He is mechanically not-knowing his pictures. In order to not-know his pictures, he hangs up a "poiple coitain[1]".

The commonest field is a black one. The next commonest field is an invisible one. Now, when we say a black one, if you get a picture of the preclear sitting there totally surrounded by hoods of blackness, you actually have the picture. He is not sitting there surrounded by huge masses of blackness which go out to infinity. This is not the case. He may tell you this is the case, but the funny part of it is, is the blackness is quite finite in depth and seldom exceeds more than a few inches.

We're walking, right now, into a space-opera age. Space opera always consists of a dog-down-belly-to-the-ground dementia praecox[2] sort of scientist who is dedicated to the nth degree. The reason they dedicate a scientist is so he can't keep his information from going away. This is very handy; they don't have to pay him for it. That's what dedication means: no necessity of paying the scientist for anything he does. It's brain-bleeding.

And this dedicated scientist is so enmeshed that he is totally sure there is no such thing as a soul, a spirit or anything – that men are animals. This is the philosophy he normally goes forward on. Except he can only go so far along that line and then he'll flip and he'll go out into mysticism which is an inverse materialism – inverted materialism.

Well, along with this generally a priesthood grows up. And this is some sort of a psychiatric priesthood and this is used by the state to keep everybody in line – gorgeous. Everybody is now in line. And what could be more beautiful? We have a nation of slaves and gadgets. And the gadget rates more than the slave.

And we go along with this type of society for a while and generally, then, another priesthood will grow up which overhangs the materialistic priesthood. And those people are guys like you and me that are trying to help somebody out, and they find it pretty tough to do.

Now, some of these are quite interesting in that they're very involved – extremely involved. They get report centers and they train everybody to report to that center. They maintain insane asylums. There are insane asylums scattered all over this galaxy. They maintain this and they maintain that.

But you're talking about a thetan operation now. And only when that thetan operation goes sour and starts to make slaves too, do you get the total denouement[3] of a space opera and its vanishment down to a point of, well, let us say, India ten thousand years ago. That was the end product of space opera.

And all of this history goes on totally below the surface...it's real history. But nobody dares look at it very closely because if he became very familiar with it, it would totally blow, and that would be that. But this is a space-opera sort of thing.

And the space-opera society that I've just described to you is the most fruitful source of fields. Most of the people you run into – by far the largest percentage of the people you run into who cannot at once mock up and see a mental image picture – have been over some rolly coaster like the space-opera society I've just described to you.

And the last five million years have had more space opera in them than anything else. Consequently, it's closer to present time than magical societies and so forth, and you're apt to get more out of it. There are more things in the environment, there are servomechanisms and automobiles and star-flight rocket ship Oldsmobiles and that sort of thing. And they tend to restimulate the periods that are just past. And we're probably in some Johnny-come-lately, last-gasp state of space opera. We're attempting space opera without having any dolls which is one of the wilder things to do. That's sure going to pose some Scientologists some wonderful problems.

And the restimulation of all of this space opera, compounded by the possession of a body, makes the ejection of an individual human being into space probably one of the most adventurous things that would ever happen. You start shooting somebody into space, and the first thing that happens to him is total loss of havingness. And, of course, the body is so dependent on havingness. It's not like a doll which you just feed it a new battery every couple of months and it's all set. You have to feed it three times a day. The body is so sold on havingness that the moment that Earth is a little small button down there, someplace, the guy simply will go stark, staring mad. That's all. See, he'll go nuts.

There's some rocky roads ahead and in the world of science. And most of these will center around a mental aspect. Well, just now, for the first time, a science has arisen which probably will prove to be much more powerful than any of the other finite sciences, don't you see? And this makes a different future history for space opera than there has usually been. Usually this sort of thing developed long after space opera had been developed, you see? They waited for the scientists to become a bunch of mystics. And then they developed something about thetans and began to handle them in some crude way.

Well now, before they have done this, we have a better technology than they have had before which puts us somewhat in the driver's seat.

Now, the only reason I'm talking about this at all is it all has to do with fields, oddly enough. When you start stirring a fellow up with a bunch of unrealities and start slapping him with hypnotism and start upsetting him this way and that, his only constant and consistent reaction is to blank out the unwanted data. And if he cannot not-know it, he will then curtain it.

So the space officer who comes back to Earth and says, "There are mushrooms a hundred and eighty feet tall up there, and the principal provender of these two-inch high elephants are these mushrooms," and so forth.

They say, "Well, the boy has flipped a lid." And eventually he'll have enough accumulated facsimiles that invalidated him, that he'll start blanking them. Don't you see? And you'll have a fellow with a field.

Let me give you an example. A fellow has got a steel plate out here. Now, he put up the steel plate because there was a soldier there with a bayonet during the March revolution of 1962, in Washington. And he put up this steel shield because there was a soldier standing there with a bayonet, and he cowered down back of this steel shield. Now, there was nothing to tell him when the soldier went away. And to be absolutely safe he would have to figure that the soldier never did go away.

Now, you know what stands between a person and becoming Clear, don't you? A theoretical question here: What stands between a person's present state and a cleared state? What stands in between these two things? What's the principal thing that stands in between these two things?

The biggest barrier to getting Clear, you would say off hand, would be no game. Well, he might have some fear of that, but that isn't the barrier. You might say, well, he'd run out of problems. No, that isn't the barrier.

It's the Frankenstein effect – that's a technical term in Scientology. A fellow, too many times, has mocked up something horrible, which he has then found himself unable to unmock. By some trick somebody else has fixed it up so he couldn't unmock it.

That's the crux of the situation. A fellow will willingly mock up anything that he feels he can unmock. And that is the biggest barrier between an uncleared state and a cleared state. A man will create anything that he feels he can still uncreate.

The reason why people don't go around creating bodies is very interesting: There is a law against murder. There is every kind of

a law you could think of to keep them from unmocking bodies.

Now, they become the total effect of bodies simply because they cannot vanquish bodies. You get that? They cannot make bodies disappear. Therefore they hate to start them out.

But they start them out, and what happens? The body, then, overwhelms them from there on because they cannot unmock the body at any time. Do you see that?

Now, we have other myths. You're very familiar with that one, but are you familiar with this one? We have other myths concerning this particular physical universe – about unmocking it. There are many such myths. But the principal one which is adrift right now is that it was mocked up by one man and is sacred. See, one being mocked it up, and it is sacred. And you mustn't unmock any part of it because every part of it is sacred. Sooner or later, physicists and so forth, run into this postulate with a dull crash and go stark, staring mad.

WE HAVE OTHER MYTHS CONCERNING THIS PARTICULAR PHYSICAL UNIVERSE – ABOUT UNMOCKING IT. ... BUT THE PRINCIPAL ONE WHICH IS ADRIFT RIGHT NOW IS THAT IT WAS MOCKED UP BY ONE MAN AND IS SACRED.

Now, I've got just time here to give you a little story concerning this descent of overwhelmingness, and that is, once upon a time there was a hunter and he went out hunting and he was paid by the government to go out and hunt bears. And the bears were running all over the place killing off chickens and steers and having a good time. And this fellow kept shooting at bears and shooting at bears. But it was very discouraging because bears very seldom fell down and played dead for him. Government paid him, but he just couldn't get rid of any bears and he couldn't shoot any bears and he couldn't kill any bears and he couldn't kill any bears. And you know a grizzly bear will take, sometimes, seven bullets before he drops dead. It's rather discouraging shooting at a grizzly.

And so after a while, what did he do? What did he do? He sat down and he stopped hunting bears. Although he was still being paid for bears, he tapered off in his enthusiasm for hunting bears to a point where he didn't hunt bears anymore.

Well, now, the bears never had done anything to him, personally. See, there's no overt act–motivator sequence going on here at all. They're talking about an entirely different phenomenon. I'm talking about the Frankenstein effect. Overt act–motivator phenomenon can be seen in this, but the one I'm talking about is much senior to it. All right.

So here he is sitting there drawing his pay and he'll sit there for quite a while. He won't hunt any bears. Bears tearing up everything, you know, and chewing up all the steers and knocking chickens to pieces and knocking apart herds and just having a fine time. It doesn't matter how active they are. He won't do anything about it.

One day, you turn up. You've got a gun. You've got a bazooka or something. You're going to kill yourself some bears, you tell him. "I'm tired of this," you'll say, "I want to kill myself some bears."

He'll say, "No, I don't know that I would. I wouldn't be too anxious to do that if I were you." The guy will dramatize his inability to kill bears by restraining you from killing bears. He'll say, "After all, I'm the government officer of this area. Here's my badge. And I frown on people irresponsibly going out – actually, you might get killed doing this," you know? But the truth of the matter is, he is dramatizing this restraint upon killing bears. You got that? All right.

A few days go by – a few years, perhaps – it doesn't matter. You come back in the area again and you'll find him talking to the natives and the Indians and so forth on the subject of bears this wise: "Bears are stimulating to have around. They keep you on your toes. Now, you have to be much better at breeding stock if bears are around all the time killing off the excess stock. And actually, it's the survival of the fittest and Darwin, Darwin, Darwin, Darwin, Darwin. And it's a good thing for the bears to kill off the weaker stock."

You can argue with him in vain and say they always pick the choicest morsel. But Darwin never listened to this argument either.

But they kill off the weakest and therefore it is a very, very good thing to have bears around. He'll be telling people this.

Bears just keep on killing everything in sight, see? No change, as far as the bears are concerned. But his attitude toward these bears is changing.

Well, you come back a year or two later and you find out he's writing books about bears, very, very carefully researching their habits. And there's rather the flavor to these books that it's all cute, you know? What a good father a bear is, you know? By this time he's pretty far gone.

You come back a few years later and you find out that he's now telling his kids bear stories. "There was the papa bear, the mama bear and the baby bear," you know? "and porridge." And he's telling the natives around and about the place that they should get down and worship bears. They should build shrines to bears. That bears are sacred.

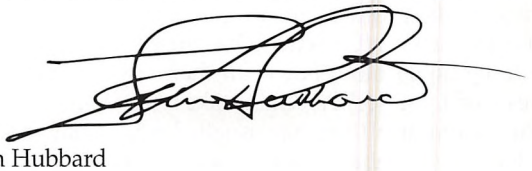

And the very funny part of it is, I have just told you the absolute truth. To the Indians of the early plains, the grizzly bear was sacred. They worshiped him. To the Polynesians, the shark, the one thing they cannot overcome, is sacred.

And wherever you look, the one thing they couldn't overcome has become sacred to them. And it tells you at once that this created thing was, then, not uncreatable – not even that the fellow had to create it, but it was an uncreatable thing.

By the way, just below that point – there is a point below that. You could say the hunter looked all around. There are bears killing steers. There are bears – three days ago killed his wife. Bears killed four campers that moved into the area. And bears customarily knock off all Indian babies. And you say, "Why in the name of God – you're drawing your pay – why don't you do something about these bears?"

And he looks at you and he says, "What bears?"

And so you get your various types of fields and reaction to them.

# Resume a state of full cause in life

## Restoration of Knowing Cause

### CLEAR TO OT

You. Once an all-powerful, all-knowing being. Knew everything. Could do anything, create anything and yet now find yourself trapped in a universe that denies you of inherent ability. What happened? Who caused it? And how do you resume control of the game as a full OT?

In the new OT lecture series *Restoration of Knowing Cause, Clear to OT*, you find out the exact reasons you've met with the current state of existence in this universe as LRH unfolds how to take a being straight up to Clear and beyond.

You'll hear LRH deliver the 19th Advanced Clinical Course at the Shoreham Hotel in Washington, D.C.

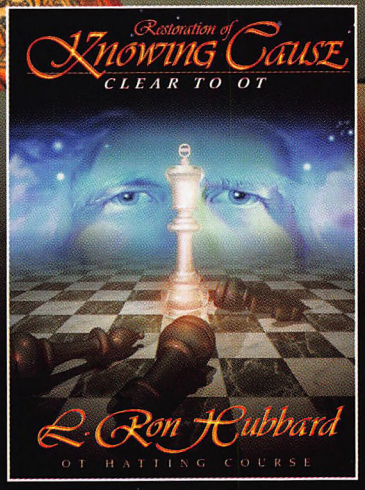

In this unique lecture series, you are given OT data that you can apply in life right now to immediately increase your presence and cause level across all of your dynamics.

- There are exact booby traps set in order to keep man from attaining Clear and OT. Would you like to know what they are?
- If there was a process you could apply to recover whole track abilities, you'd be able to do anything. It's in these lectures.
- The highest aberration of a thetan was narrowed down to one thing. What is it?
- Did you know that we are at the end of a 5 million year cycle of civilization of a particular type?
- How does a thetan communicate without words and without space?

STATE OF THE ART SOUND TECHNOLOGY

*Since the launch of the Golden Age of Tech and the Golden Age of Tech for OTs, thousands of Scientologists have discovered the ease with which one can now move up The Bridge to OT. Indeed, you have read in many issues of Advance! magazine just what these breakthroughs have meant in terms of miracles-as-usual results, all the way up to the highest levels of Operating Thetan.*

*You have also read about the subsequent investigation by Religious Technology Center that resulted in the discovery of arbitraries on case programing – and the fully on-Source handlings that have made speed of progress up The Bridge, a rocket ride.*

*To give you the true magnitude of these findings and what they mean to you making it to full OT, the following Inspector General Network Bulletin has been issued from the Chairman of the Board Religious Technology Center.*

# YOUR PROGRESS TO OT

## (Arbitraries Cancelled!)

The announcement of the Golden Age of Tech marked a watershed in our application of the tech. It placed into all our org Academies the ability to train perfect auditors at the speed necessary to actually create planetary clearing for real.

Where auditors have completed this lineup, the results with their preclears are nothing less than spectacular. That's not because the auditor is responsible for the pc's gains and is now doing something "special." It is because Golden Age of Tech auditors deliver the tech *exactly* as LRH intended.

With Golden Age of Tech training programs now in place, and commensurately higher standard of tech application, a review was conducted on case programing of Scientologists up the Bridge to OT. This review discovered numerous arbitraries which may have affected your rapid progress up the Bridge.

The first thing to understand is that LRH worked for four decades to make the Bridge to OT *FASTER* and *EASIER*. It was LRH's intention that every Scientologist make it up to OT and that the route be QUICK!

If you are a stalled Clear and have not moved on to OT rapidly, there are exact LRH recommended case actions all geared toward getting you to OT. A review of random folders across the planet found several instances where false data had been entered into standard case programing. In many instances this resulted in Clears being programed DOWN the Bridge. The fact is, Clears should be rapidly gotten UP to OT.

If you have been stalled in any way and have not been debugged, it is pretty certain that the exact steps you need have not been delivered. If you are Clear, haven't moved up, haven't energetically pushed yourself up to OT, no matter the apparent "barriers," you are absolutely the adverse effect of factors that LRH described in HCOB 27 Mar. 84, STALLED DIANETIC CLEAR: SOLVED.

**"But where the person in this zone is moving slowly or stalled, there is a technical factor which must be known and taken into consideration:**

***"Dianetic Clears who do not go up the Bridge are still subject to the vagaries and pressures of life.***

**...**

**"The definition of Clear is:**

**"A BEING WHO NO LONGER HAS HIS OWN REACTIVE MIND.**

**"Postulates and considerations can stand independently of mental mass." ...**

If you have attempted to move forward and have not made it up to OT, it is also quite possible that some steps you were previously programed for – quite lengthy in nature – are unnecessary and that you could be gotten up to OT far more rapidly than you are even imagining.

For lower-level pcs, there are precise rundowns meant to be delivered at the lower levels of the Grade Chart which were specifically recommended by LRH for the purpose of making progress through the Grades and up to NED and Clear as fast as possible. An omission of one or another of these rundowns would actually act as a slow on moving through the Grades and NED. That is, hours you may need on these rundowns would actually benefit you in saving *two to three times the hours* you would otherwise need in making it through the Grades and NED if you did not have these rundowns!

LRH gave the Religious Technology Center this purpose:

*To protect the public by seeing that the powerful technologies of Dianetics and Scientology remain in good hands and are properly used.*

With the Golden Age of Tech, we placed in the hands of every org in the world the ability to train superlative auditors routinely and in quantity. Indeed, only with the discoveries that led up to the Golden Age of Tech and with the resultant *bigger* and *faster* gains, was it now possible to see that some pcs had been programed to handle problems that were actually handled by improving auditor training and expertise! We now have that with the Golden Age of Tech.

Nothing in this issue changes the lower Grade Chart. If you are not Clear, your route is through the Grades just as listed on the Grade Chart. But, there are specific rundowns LRH advised C/Ses to employ to handle any barriers to your rapid progress through the lower Grades.

And if you are a stalled Clear, and you *are* stalled if you have not moved onto the OT levels, then the precise actions you need are those for stalled Clears and not some other lower Grade Chart action.

All organizations in the world have received instructions based on RTC's investigation into arbitraries on all public making it up to OT. What this means is that all org technical staff know precisely how to program your case and what service to deliver to ensure your most rapid progress to OT. Org administrative staff are similarly briefed so as to ensure all lines are geared to helping you accomplish this. You can therefore be assured that your route across the Bridge will be just what LRH intended.

We stand at the threshold of the new millennium. The future of this planet depends on clearing away aberrations and the widespread making of OTs and returning beings of Earth to native state. We in RTC are very dedicated to achieving the aims of Scientology. Achieving those aims, in the final analysis, depends solely and exclusively on a full spiritual rehabilitation of all beings on this planet.

Therefore, nothing is more important to us than YOU making it to OT. LRH's researches and discoveries resulted in making the route through the lower levels and up to OT a rocket ride. If someone has told you it takes a long time, or you feel that way even if they haven't told you, let me indicate that is FALSE DATA.

Contact your org for your exact technical programing. You have a goal to make it to OT. You can, and RTC stands ready to help you achieve that goal.

# MAKING THE DECISION AND DOING IT

*One of AOLA's OT Consultants will go over your program with you, so you know exactly what you need to do. He'll answer any questions you have and get you moving.*

# I'M GOING

*Soon after your arrival, the Director of Processing will interview you. A stable terminal throughout your journey to OT, he'll duplicate you utterly.*

# OT!

## MORE PRE-OTS THAN EVER BEFORE ARE BECOMING PERFECT SOLO AUDITORS AND GOING OT AT AOLA, AND PER THESE PRE-OTS THEIR DECISION TO GO OT, NO MORE Q&A, IS WHERE IT ALL BEGAN.

The definition of a "win" per LRH is: "**Intending to do something and doing it or intending not to do something and not doing it.**" And this definition has everything to do with going OT, because the decision to go OT, no more Q&A, is the most important decision you ever made. It opens the way to the most spectacular wins you ever had.

Read any success from any pre-OT moving up The Bridge in the Golden Age of Tech for OT, and you'll spot a common denominator. Talk to them, they come up with that same thing: the DECISION to go OT is the most vital step, followed closely by *communicating* that decision to someone at AOLA. From there it's simple.

They also say things like these:

"The gradient is smooth, step-by-step ..."

"It's easy ..."

*continued on next page*

*If you haven't completed the Hubbard Solo Auditor Course Part One, you'll route onto that immediately in our magnificent Solo training complex where we also deliver Solo Part Two and the Solo Certainty Course (above). You'll perfect your auditing skills with the Hubbard E-Meter Drills Simulator and Golden Age of Tech Session Drills (left).*

"It doesn't take long..."

"Auditing in the Golden Age of Tech is the best I've ever had and the wins are life-changing ..."

They usually end with a comment something like this:

"I should have cut the Q&A and done it years ago ... but I'm glad I didn't put it off any longer."

There's another vital aspect to this – if you're Clear but you haven't moved up to OT, something is *wrong*. The Bridge is a smooth, step-by-step gradient, each point leading to the next. If you haven't moved on The Bridge since you went Clear, realize that this is not the way it's supposed to be. And we are here to help you get through any barriers and get moving to OT.

About this very point LRH wrote,

**"Anyone who is Clear but not OT III had better be pushed up to OT III fast because otherwise he is at risk."**

In HCO PL "An Open Letter to All Clears," he made another crucial point, relevant to your scene,

**"Essentially, you are Clear on the first dynamic and still have a lot of work in front of you to attain OT, which is to say the remaining dynamics."**

Additionally, in a 1984 HCO Bulletin, he pointed out that, **"Dianetics Clears who do not go up the Bridge are still subject to the vagaries and pressures of life."**

And while we're sure you're definitely running into those **"vagaries and pressures,"** we're equally certain you can handle this non-optimum scene in a heartbeat. Simply decide to go OT and then contact us. For with the breakthroughs of the Golden Age of Tech, and all arbitraries off case programming, the days of "stalling on The Bridge" are over.

## THE REST IS SIMPLE

Here's exactly how it went for one pre-OT recently who had been Clear for 18 years.

After Clear she planned to go right onto Solo training and then the OT levels, but found out she was programmed for several other actions which she hadn't donated for, and which she didn't really want to do right then. So she decided to "wait for a while." Well "a while" turned into nine years, and during that time she got on with her career and concentrated on bringing up her children, both important cycles, but at the same time she was moving further away from her earlier decision to go OT.

Then, a few years ago, after listening to the *Responsibility and the State of OT* lecture series, she was totally revitalized about going OT and decided the time had come to get moving. When she was told that she needed her Grades she decided "to wait" a bit longer.

Nothing else happened until a few months ago when she was contacted by AOLA and told to come in and get her tailored program for OT. The person who called briefed her on the Golden Age of Tech for OT and how RTC had conducted a review into the programming of cases at all levels of The Bridge and had discovered arbitraries. These arbitraries, she found out, had been thoroughly stripped from all case programming, and exact programs to handle this had been issued to all orgs with the relevant LRH references attached.

*You'll move onto your Advanced Courses, moving up the Advanced Levels, through the Wall of Fire and beyond.*

She told the person who called that she was supposed to get her Grades before OT, but she was told that Grades were very likely not necessary. "At that point," she said, "I started to get excited. I thought, this is it, I am going OT, and I was completely determined to do it!"

Her folders were reviewed and she came in shortly after that for her tailored case program. And she's been here every day since, moving up to OT!

"When I got my tailored program for OT it made total sense to me," she said. "Now I'm on Solo training and I'm halfway through my OT Preparations auditing. I'll be New OT I in no time! My wins from the Golden Age of Tech are fantastic, both in session and on training as a Solo auditor. But one thing I have to say, with the arbitraries off the line and my simple decision to go OT, things moved and continued to move. I am having huge wins and I am going OT!"

## OUR PLAN FOR YOU

At AOLA we're intent upon getting all pre-OTs in the Americas trained as Golden Age of Tech for OT Solo auditors and moving up the OT levels, big time. If you're Clear, you're part of our plan. And if you previously trained as a Solo auditor but you aren't through OT III yet, then our plan for you is to get you back on the OT levels with the Hubbard Solo Auditor Certainty Course. Either way, we want you in session, moving up to OT as a perfect Solo auditor.

It begins with your decision to go OT. Then a simple phone call or letter to us to let us know you've made that decision. We'll take it from there and get you onto Solo training, through your OT Preps and Eligibility and winning like never before on your route to OT!

**CALL US AT (323) 953-3300 NOW. TELL US YOU WANT TO GO OT AND ASK FOR YOUR FREE COPY OF THE "YOUR ROUTE TO CLEAR AND OT" BROCHURE.**

# SOAR TO FREEDOM NOW....

## ON THE HUBBARD® SOLO AUDITOR COURSE

**For countless centuries man has been the adverse effect of the mysteries of life.**

**Trapped in the MEST universe, his efforts to reach the heights of OT have all been to no avail.**

**Until L. Ron Hubbard found the way.**

**And you, trained as a perfect Solo auditor can make it. Definitely.**

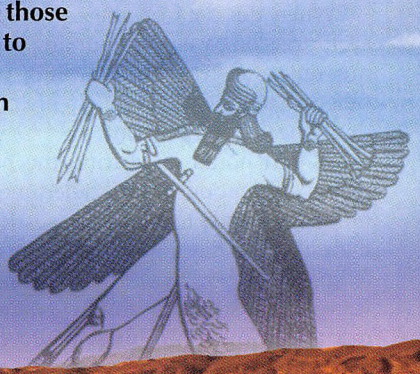

**Straight out of the Golden Age of Tech for OT, the New HUBBARD Solo Auditor Course puts you through high-velocity training before you ever take your first Solo flight.**

**You'll learn *perfect* metering. With Golden Age of Tech drills, you'll drill your basic auditing procedures until you know them *cold.* Plus, you'll watch LRH™ Technical Training Films, that *show* you exactly what to do, every step of the way.**

**Maybe you've envied those fearless enough to soar to full OT.**

**Well, with the Golden Age of Tech, *your* flight will be just pure, smooth soaring to OT states beyond anything you've ever dreamed.**

**The thrill of flying Solo is about to begin.**

# SUCCESSES ON THE WAY TO OT

WINS FROM PRE-OTS WHO MADE THE DECISION TO GO OT AND THEN STARTED MOVING ON THE BRIDGE® AT AOLA.

## JULE ROTENBERG

*Currently on her Solo auditor training at AOLA.*

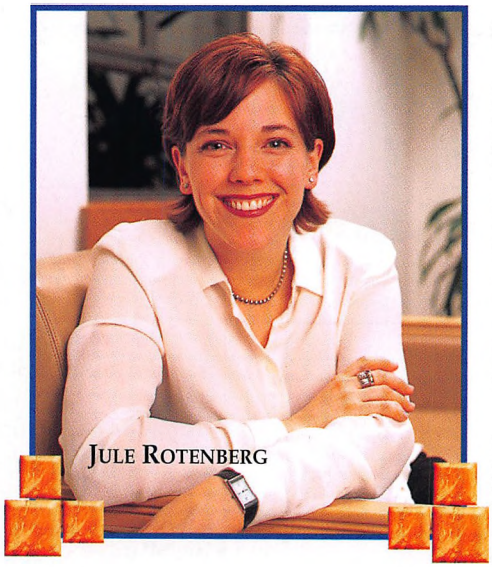

"I got into Scientology 15 years ago in Texas. I was a dancer and I had problems with my back so I did the 'Ups and Downs' Course and then had Dianetics auditing. I did more training, a number of courses in fact, then in 1989 I moved to LA. Shortly after that I did my Clear Certainty Rundown and found out that I was a last-lifetime Clear. I was told my next step was OT Preps but somehow I felt like I needed more hatting as a being. So I did Key to Life, Life Orientation, the Data Series Evaluator's Course, the Basic Art Course and Upper Indocs.

"Then in 1993 I was told that my next step was Grades and so I routed onto the SHSBC as I wanted to know all of the tech and I decided if I needed my Grades then I could do them on the SHSBC. So there I was, a Clear on the SHSBC waiting to get my Grades.

"When the data on the cancellation of arbitraries on case programming came out my husband was on the Ship, and he called to tell me about it. My life changed dramatically at that point.

"Within hours of hearing the news, a fellow student on the BC called me to tell me he was ready to take me in session, and then the next day I got a call from AOLA telling me I didn't need my Grades! That was it! I was so happy and I was sure I was ready to move on! Things really opened up. I got right back on The Bridge and life has gone very well since then.

"With any barriers or arbitraries out of the way I saw that my OT case was in my face. All case doesn't dissolve when you attest to Clear, and I finally saw how that case was impinging on me every single day. I also saw how at Clear a lot of the buffers are stripped off and this is all the more reason why you simply must keep moving up and not stall.

JULE ROTENBERG

**"LIFE STARTS GOING RIGHT WHEN YOU HEAD IT IN THE RIGHT DIRECTION – OT."**

"When I routed on to Solo it was great to re-read *Dianetics* and the very basic references on the mind, but this time with the benefit of Golden Age of Tech supervision and word clearing. I found that I was applying all of this data in life as I continued on the course. And my dynamics all started doing better than ever. I realized I was back on the track of going OT, and boy was this the right thing to be doing.

"Training on Solo at AOLA was itself a huge win. It's a very theta environment – the place is OT and the staff are OT. The attention of the entire group is on getting others to OT. It seems like a big challenge to go OT. But it is on a perfect gradient, and you just keep taking the next and the next step, and it all starts to happen.

"My advice is contact AOLA and get started. I Q'd and A'd for years, decided I had to get my career as a sculptor more established, and a bunch of other things, but the way to go is to simply decide to do it and do it. Life starts going right when you head it in the right direction – OT."

## DAN SIMONDS

*Currently on New OT V, Audited NOTs.*

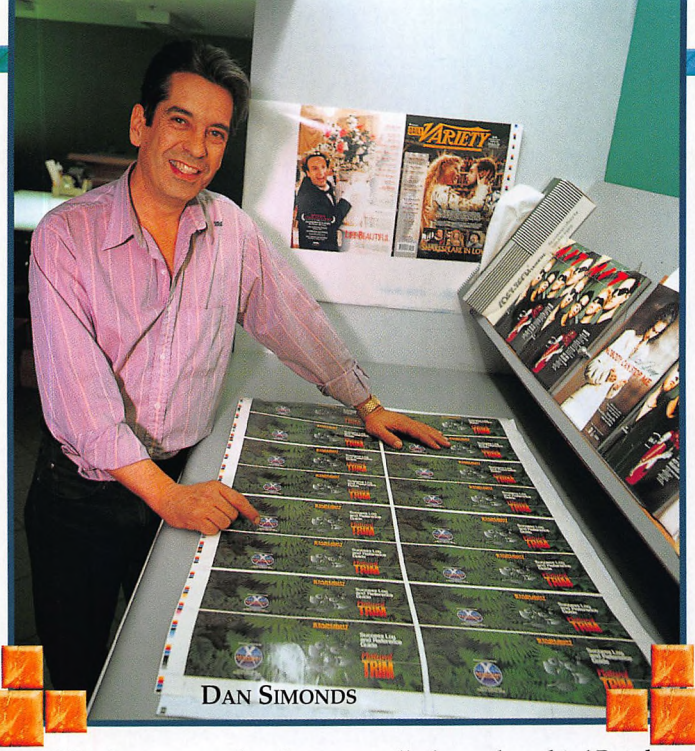

"I went Clear in 1985 and moved up through New OT IV, but after that I stalled for a while. Then my wife died and I knew I had to get back on-lines and move on The Bridge again. The only thing I knew that could handle the loss that I felt was LRH tech. So, I came to AOLA, did the OT Doctorate Course and then got onto New OT V.

"How do I describe New OT V? There really aren't words to describe it. I've had so many huge wins. One of the biggest and far-reaching ones I had was regarding ARC breaks. They just don't happen anymore. I don't get upset, and if the terminal at the other end gets upset, there is nothing in my universe perpetuating it, so there is no ARC break. I can just get in comm and handle their upset.

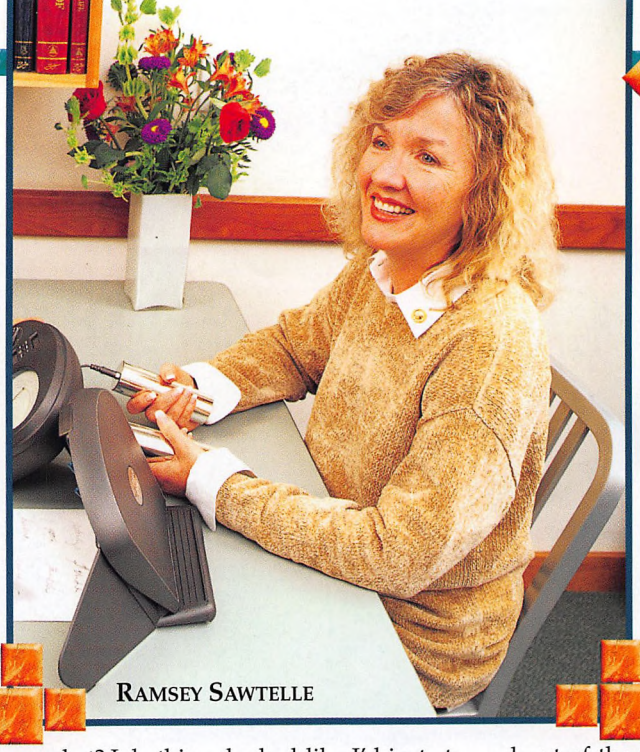

"The same is actually true with the rest of the rudiments, especially with problems. If there's a problem, my attitude is, 'Yeah! Let's have at it!' Very much in the spirit of play. They are fun and I look forward to handling them, it's a game. There is nothing that sticks my attention, something comes up and I get excited about dealing with it.

"I work in the graphic and printing industry as a computer operator and pre-press specialist. It makes my job a lot easier. Every day is a welcome challenge. People have their opinions about things or something comes up that's a 'big problem.' These days I simply tackle this with 'Great, let's handle it!'

"This actually is connected to quite a bit

RAMSEY SAWTELLE

of OT phenomena that happens all the time. I can change someone's mind about something. It's not that I can 'make them do it my way,' not at all. It's more like I can make a decision that they will make the right decision once they have all the data. Like when my son was thinking about joining the Sea Org but hadn't made up his mind. I gave him all the facts I was aware of in terms of the condition of the planet and what his responsibility was. I simply communicated the truth and he was able to see it and make his own sane decision. Immediately after this he decided to join and is now on post as a Sea Org member.

"On a different note entirely, since being on NOTs I can very easily step out of my body. LRH talks about the thetan relieving pressures on the body in the PDC lectures – and I now know exactly what he means. I can step out and actually do things to fix it.

"The only thing I am kicking myself about is that I didn't start NOTs sooner. In the promo you read about the 'I Want to go OT' Club and making a flow – it's absolutely true. For a long time my excuse was that I didn't have the funds. Then I just started donating whatever I could and soon I was on the service.

"Now, if you're sitting there thinking to yourself, 'Sure...that's great for Dan, but it wouldn't be that easy for me,' here's what I want to say to you: Everything I got into Scientology for I'm getting on OT V and I'm not even done yet. All the OT phenomena you read about, all the wins about OT V are now a part of MY life. And that is how it will be for you. So get moving. And if you are moving, keep moving. It gets better.

"You can reach points on The Bridge where you think, 'Wow! It can't get any better than this.' But do you know what? I do this in every single NOTs session and I go back in and I get my socks blown off again. My auditor takes me to places I've never been before. Then I'll think, 'That's the best session I've ever had, there can't be anything better...' then, yes, it gets even better."

## RAMSEY SAWTELLE

*OT Preparations Auditing completion, currently on Solo auditor training at AOLA.*

"I went Clear during my New Era Dianetics auditing back in 1980 and I was stalled on The Bridge, big time. When one of the staff at AOLA called me and told me about Golden Age of Tech Case Programming and all arbitraries being off the lines, he also told me to come in immediately and get onto my program. I did, and it turned my life around!

"As soon as I arrived I knew I had done the right thing. The crew at AOLA are very uptone, very professional. The Golden Age of Tech is all about delivering 100% Standard Tech, perfectly, and that is exactly what happens. When I went in session for the first time with a Golden Age of Tech for OT auditor it was quite an experience. I knew I was going to get handled, and I knew I was going to make it!

"My auditor was so relaxed and CERTAIN. The combination of a Golden Age of Tech for OT auditor and a Quantum is an irresistible combination. In a word it is 'phenomenal.' The result? The biggest auditing wins I'd ever had! These were life-changing wins. And I had total confidence in my auditor and her Quantum. I had never ever had auditing like that. I looked like I'd just stepped out of the *PC Indicators* Tech Film, day after day. I looked good, I was winning, I wanted more auditing, etc. And I was also on my Solo Course. That is a great combination. Studying the basic books on Solo contributed to my case gain during my auditing. For instance, I was reading *Scientology 8-8008* on course and had a great cognition. I went in session right after that and the data and the cog I'd had reading the book had raised my awareness incredibly. My auditing went even faster from that point on.

"When I had completed my OT Preps auditing, I looked back at where I had been when I started and I realized how downtone I had been before I started and how uptone I now was. The difference was remarkable!

"I had two major ruins, both were fully handled on this auditing. I feel the best I have ever felt. My overall health is great and I have expanded as a being so that I am really operating on the 3rd and 4th Dynamics. My overall ARC for others has skyrocketed. In terms of being prepared for the OT levels, OT Preps has handled *everything*. I am totally ready and the only thing I have my attention on is going OT!

"I would say to any stalled Clear that if you are not moving to OT something is wrong. Get in comm with AOLA right now and get it sorted out. There is no point in sitting in it. You go nowhere except downtone. I can't put into words how happy I am that I made the move I did. You can too!"

# CLEARS – DO YOUR OT

If you're Clear, and you haven't moved onto the OT levels, you're *stalled*. And the precise actions you need are those for stalled Clears, nothing else. The handling is simple. Come in to AOLA for your Golden Age of Tech Case Program and move *UP* to OT with the steps laid out below. *It doesn't take long.*

**SOLO AUDITOR TRAINING**

Why must the Advanced Courses be done with Solo auditing?

First there's the matter of speed. Solo auditing is much faster than other auditing. As you move up the OT levels it is impossible for an auditor other than yourself to keep pace. The comm cycle would be far too slow. Reads could be missed.

Second, your own perception of shifts in your case – changes imperceptible to another auditor – are necessary in the handling of specific upper levels.

Just as an Academy auditor must be perfect so must the Solo auditor. At the lower levels one is operating to achieve a Release; at Solo, you are auditing to achieve Native State.

Additionally, Solo auditing is a tech of its own and a Solo auditor must be skilled beyond imagination. There's only one thing that could prevent a Scientologist from going OT. His ability to audit. And with the Golden Age of Tech for OT breakthroughs – the Standard Tech Drills, the Drills Simulator, and the Quantum E-Meter – you learn every single Solo auditing skill cold.

**OT PREPARATIONS AUDITING**

A brief, tailor-made program is designed by our Golden Age of Tech Solo C/S based on Ron's exact guidelines so you're in good shape casewise prior to moving onto the OT levels. Pre-OTs rave of tremendous, life-changing wins from this level and often claim their OT Preps auditing handled what they thought they'd be handling only *after* starting the OT levels themselves.

**OT ELIGIBILITY**

Eligibility for Issue of OT Levels Check is a laser-precise special auditing action, designed to seek out and eradicate any last possible barrier to your achievement of full gains on the OT levels, clearing the way for smooth and rapid progress to OT. Following completion of this step, you'll be ready for your invitation to start New OT I.

**NEW STANDARD TECH ADVANCED COURSE DRILLS**

You'll begin each Solo OT level by studying the theory for that level, getting it down cold with Standard Tech Advanced Course Drills. Using these you'll master the secrets of life, and then you'll go in session to apply this tech to regain your long-lost OT abilities.

Once a Solo auditor goes in session on any OT level, he has no choice but to take himself right through the level to completion. And key to the Golden Age of Tech for OT are new Advanced Courses Drills the C/S uses to help debug any Solo auditor flub *once he's started on an OT level.* Envisioned by LRH earlier, these new drills are tailored for each Solo OT level so that the pre-OT never stalls on a level. And thus it is a straight, fast sprint to full OT.

**NEW OT I – ACQUIRING YOUR OT VIEWPOINT**

New OT I is the first Solo step toward full OT abilities, and with it comes a fresh, causative OT viewpoint of the MEST universe and other beings.

You'll shatter darknesses that have been with you for eons with the more than 130 different actions you Solo audit on this level. Your ability to cause the effects you intend – often at a great distance to your physical proximity – dramatically increases. And with every session you become more extroverted, with an OT orientation to the world.

**OT II – OPENING UP YOUR WHOLE TRACK**

OT II is a journey into hidden aspects of your life that up to now have paralyzed your ability to be OT.

Here you explore vast reaches of your whole track, and confront a mammoth area of your case that has been long occluded. And although this case is very, very ancient, it nevertheless remains with you here and now.

Vast amounts of energy and attention are released as huge areas of whole track charge are blown. Huge increases of space, memory, reach and aliveness, are yours as you open long closed doors on OT II.

**OT III – THROUGH THE WALL OF FIRE – TO FREEDOM ON THE OTHER SIDE**

Many have tried to understand the mystery of why Earth is such an inferno of insanity. But so insidious is this trap, it was designed to kill anyone who dared penetrate the truth.

That is, until LRH discovered the way to pass through the Wall of Fire and then made the thinly-taped path for the rest of mankind to follow in his footsteps with utter safety to wins which defy imagination.

**NEW OT IV – HANDLING YOUR WHOLE TRACK DRUG CASE**

Drugs are an old operation on the whole track, used to suppress and destroy beings. Whole track drugs played no small part in our fall, and on New OT IV you will handle the effects of those drugs forever.

Not a Solo level, you'll be audited by a Golden Age of Tech Class IX Auditor through this vital step, so you're ready for the Second Wall of Fire – New Era Dianetics for OTs.

**NEW OT V – "THIS DEALS WITH LIVING LIGHTNING, THE VERY STUFF OF LIFE ITSELF." LRH**

The incredible technology of New Era Dianetics for OTs reaches in to find the actual roots of aberration – MEST entwined with life itself – hidden so totally there's no question they would have remained obscured forever had LRH not continued to research high into the OT band. On NOTs these secrets are revealed.

# WILD EXPERIENCES FROM THE OTHER SIDE OF THE OT LEVELS

I was on my OT Preps and Eligibility auditing and bought my new Quantum so I'd be ready to start my OT levels as soon as I was through Eligibility. My husband set the combination on the lock of the Quantum E-Meter case, but the trouble was he promptly forgot it before he wrote it down or anything. We tried to undo it several times, but he just couldn't remember what it was.

"The day I completed my OT Eligibility and received my invitation to New OT I, I decided the time had come to open it without any further Q&A. I needed it the next day!

"He wasn't home when I arrived, but I was determined to get the case handled so I went back to the time he said he'd set it and picked up that he'd been thinking about his weight at the time. I had no clue what he weighed but a number came to me so I dialed it in and, *Viola!*, the Quantum case lock sprung open, ready for me to use it!" T.W.

One day I called my mom and found out that a close friend of mine from school days, called Peter, had suddenly become very ill and was in the hospital. He was not expected to live more than 48 hours. I was alarmed as he had always been a strong person, the last person I thought would become so ill.

"In any event I was not about to let him die. So I got in comm with him in the theta universe and, Tone 40, I told him it was not OK for him to die. I made sure he definitely got the comm.

"A few days later I called my mom to find out how he was and, no surprise to me, she explained that Peter had had a 'miracle recovery' and was out of the hospital. I took a win.

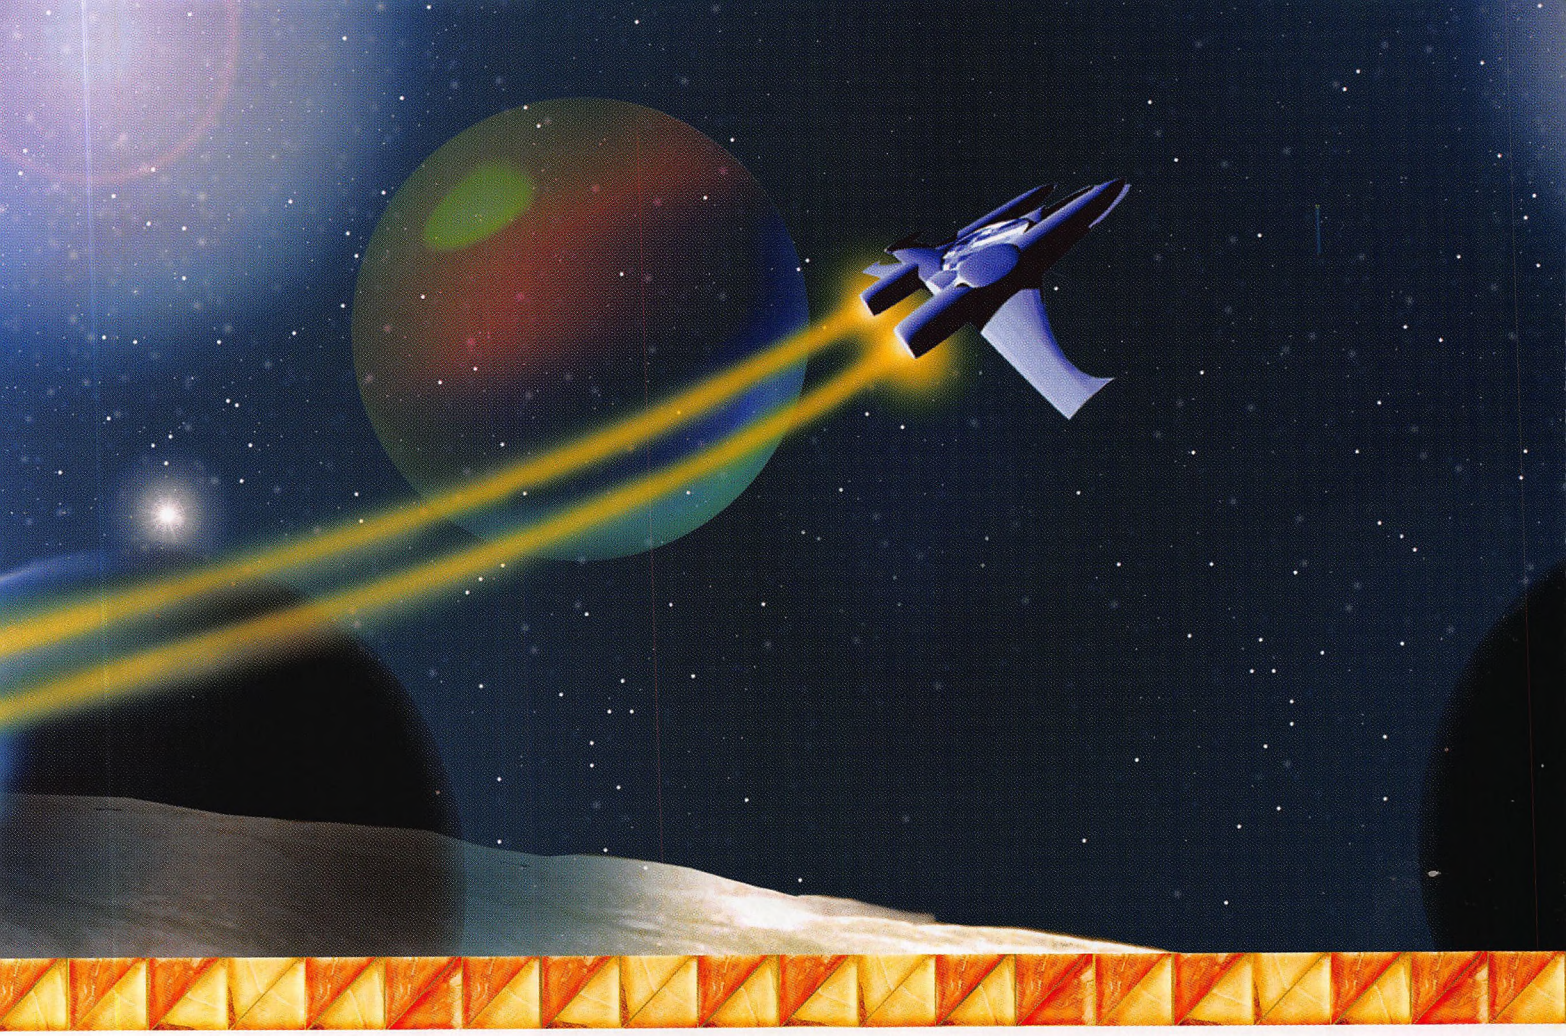

"A few months later I went back home and saw him. When he told me he'd been really ill a few months before I said, 'Yes, I know.' All of sudden he got it, looked right at me and said, 'Was that you when I was in the hospital?' When I confirmed that it was, he gave me a huge smile and said, 'Thanks a lot!'" T.L.

Recently I was driving when suddenly I got a picture of a guy driving onto the freeway right in front of me. He came in very fast from the on-ramp, zig-zagging, smashing into me and wiping me out. It was so real that I was pretty shaken up and began driving very carefully, very alert.

"About 15 minutes later, exactly as I'd seen it, a guy drove onto the freeway from an on-ramp, zig-zagging between cars as he came, missing the car next to me by about two feet. I slowed down rapidly, letting everyone pass me. Others seemed to take their cue from me and slowed down too.

"All of a sudden, close to where I'd seen this whole scene happen earlier, his car hit the railing of the freeway, veering off sharply about where I would have been had I not slowed down. He went all the way across the freeway to the other side, narrowly missing several cars on either side, with his car rolling over as he went.

"I screeched to a stop to help, and the amazing thing was he had no serious

injuries and no one else had been hurt! At that point I realized *fully* what LRH meant about a thetan creating his own future!" R.N.

When I was on my Audited NOTs, for the first time I fully understood the exact anatomy of a ridge. I really got it that there had to be two equally opposed forces to keep a ridge in place. It was quite a session.

"In the office later in the day after session I was sitting there working very cheerfully. All of a sudden one of my seniors came in, very enturbulated. He started unloading his upset with someone else, at *me* instead. Coming right out of left-field, he went on and on, very unpleasantly and a ridge built up, and up and up. By the time he left I was very enturbulated.

"I kept working, thinking to myself how remarkable it was that my tone had changed so fast. Realizing that I should do something about it, I remembered what I had cognited on earlier in the day about ridges. I could see the huge ridge that had been created between us and that all I had to do was shift my viewpoint on it, even a little bit, and it would blow. So I did. I shifted my viewpoint and the ridge blew. I cheered up immediately and got back to work.

"About five minutes later, in came my senior again, totally calm and in comm. Totally changed. Ridge totally gone and we had one of our normal high-ARC comm cycles. Nothing like being OT and hatted!" R.W.

I left my key in my shirt pocket when I washed my shirt at the laundry in my apartment building. Next morning when I realized what I had done I went through my entire laundry but there was no sign of my key. As it was the key to vital papers at my job I had to find it. So I decided right then and there that there was no way I was not going to find it. I knew I had to get to the documents in the cabinet within 24 hours, so I decided I would have it by then.

"That night when I got home I told

## OT PHENOMENA

*continued from page 19*

one of my neighbors what had happened and another person who overheard what we were talking about interrupted to tell me she had found a key like the one I was describing in the laundry last night. She said she had put it in a green hamper, assuming it belonged to the person who she had seen just put his laundry in the machine. She didn't know who the person was but had seen a stuffed bear wearing a Christmas cap in the bag.

"Intent on finding my key, now I knew I had to find someone in the apartment complex with a bear wearing a Christmas hat. I started to ask around about the bear and within a few minutes I met a young man who said the bear belonged to someone who worked in a camera crew living in the apartment complex. He had no clue where these people lived, but I knew I was going to find them.

"My knowingness told me to go to the last block of apartments, to the last apartment. I knocked on a door and there was only one person home. I told him that I needed him to go into the back bedroom and get the green hamper with the bear in it and bring it to the door. He looked at me strangely, but did exactly as I said. But the key was not in the hamper!

"I got the idea that the person whose hamper it was had found the key and put it in his pocket and gone to work. As it was by now very late at night and the owner of the bear was not expected home for a couple of hours I asked where and when the bear-owner normally ate lunch. Then I left a note saying I would meet him at that restaurant at lunchtime and get my key.

"Next day I went to the restaurant. I had no clue what the person looked like but walked right up to a table of young men. Before I had a chance to say anything, one of them smiled up at me, put his hand in his pocket and handed me my key!" P.A.

# AOLA Hosts World Literacy Crusade Event

## More than 100 LA Scientologists recently attended a World Literacy Crusade Event held in AOLA's Atrium.

The purpose of the gathering was to brief attendees on the current projects and successes and to get others to join the cause to get LRH's Study Technology into the hands of those who need it most – the illiterate.

During the course of the evening the audience heard from several people whose lives had been totally changed by the work of the World Literacy Crusade and then Reverend Alfreddie Johnson, the President of WLC, addressed the group. He read win after spectacular win from the application of study tech and then briefed the audience on WLC's big-think strategies. Calling for volunteers to help get these strategies done, he brought it home to all who were there just how vital the activities of the WLC are in terms of the future of millions. As a result fourteen new tutors signed up to work with the committee and were all set to begin helping get the tech out immediately.

If you want to help get LRH's Study Technology to those struggling with the problems of illiteracy, contact the Public Officer AOLA at (323) 953-3300.

*Reverend Alfreddie Johnson, President of the World Literacy Crusade, called for volunteers to help tutor the illiterate on LRH's Study Technology at the recent event hosted by AOLA.*

*AOLA OT Committee's President, Meri Dolan, received a special award for the committee's great work on getting others onto The Bridge. Meri invited attendees to join AOLA's OT Committee.*

## Top FSMs Honored

AOLA recently honored their top-producing Field Staff Members at an event where awards were presented, followed by a special dinner. And the statistics of these OTs who get others onto The Bridge were excellent. For instance the winning team, Wendy Ettricks and Joanne Schnitzer, have gotten 395 people onto The Bridge over the past year. Ty Dillard has personally gotten 425 onto service. He accepted his award by phone, called from the event by the Public Officer AOLA because Ty was at Flag moving up The Bridge himself.

Barry Kline, there to accept his award, has gotten 359 onto services over the past year, and he spoke to the group, telling them the key to his success.

*Kat Brady, very pleased with her award at the recent FSM Award Event and Dinner held at AOLA.*

Kat Brady proudly accepted her award and told the group how she had moved 71 people further up The Bridge.

Special recognition was given to AOLA's OT Committee for their weekly events which move hundreds up The Bridge each month. Meri Dolan, the OT Committee Chairman, accepted the award and invited others to join this group of OTs who are dedicatedly helping others make it to OT.

## AOLA OTs Start Dianetics® Group

**Bill and Sandra Baikie are determined to be the driving force for *Dianetics* in the South Bay area of Los Angeles. Since signing up recently to start a Dianetics Group in Torrance, Bill and Sandra have established a space for their group and gathered up a team of 10 volunteers, including fellow AO OTs Carlene and Jim Eckhart. The South Bay Dianetics Group's first seminar will be held shortly, and will be followed rapidly by a series of Book One Seminars over the next several months.**

**If you want to join the South Bay Dianetics Group or start your own group, contact the Public Officer at AOLA at (323 ) 953 - 3300.**

## Southern California's OT Ambassadors – flat-out getting others onto The Bridge

There are seven OT Committees in Southern California including AOLA, ASHO, CC Int, Pasadena, Valley, LA Org and the Solo NOTs Case Completions, and their statistics show they are making real inroads in their activities to get others on The Bridge to OT.

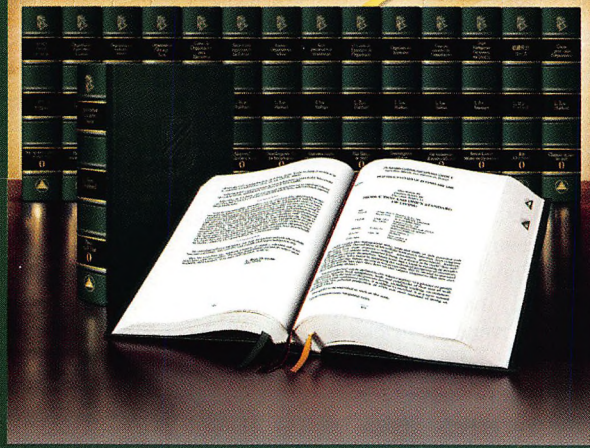

In just the last year these groups have gotten a total of 6,831 people onto Scientology and Dianetics services. They've held 1,408 events, sent 162 to the *Freewinds* for OT Hatting and gotten LRH tech into the hands of 69,149 people. And there's plenty more to do. In an average week these groups get 250 people onto The Bridge, hold 45 events and get LRH's tech into the hands of at least 2,000.

With this in mind, these groups need more members to get the job done and membership is invited for the AOLA OT Committee. Call the President, Meri Dolan at 818-957-8302. The committee meets each Thursday night at 7PM at AOLA. Meri can also connect you up with an OT Committee closer to home if you don't live close to LA or even in California. Bottom line, there is an OT Committee you can join, so call Meri and find out where you can help.

*Standard Tech for the third dynamic*

**Now available in 15 languages for the first time ever!**

## ORGANIZATION EXECUTIVE COURSE VOLUME 0

Just as 100% Standard Tech applied in session invariably produces miraculous results for the pc, the tech contained in OEC Volume 0 – Standard Admin – brings about results on the third dynamic that are just as remarkable.

This is news for every Scientologist. We have the third dynamic tech of survival and this is something everyone needs. This tech is not just for an executive or someone involved in business affairs – it applies to any activity you could think of, from doing well as an FSM or Field Auditor to being stable on your job or any group activity. 100% Standard Admin is the tech you need to survive and achieve your goals in life.

Any group or individual who knows and *applies* Standard Admin will have the ability to flourish and prosper in the face of anything.

LRH says in HCO PL 30 Jan 83, *Your Post and Life*, "IF ONE KNOWS THE TECH OF HOW TO DO SOMETHING AND CAN DO IT, AND USES IT, HE CANNOT BE THE ADVERSE EFFECT OF IT."

- Easy-to-find, thumb-tabbed index and appendix put policy right at your fingertips.
- Complete alphabetical list of titles shows you every issue at a glance.
- Comprehensive and usable index, makes locating specific policy references easy and fast.
- Organizing boards (charts) show the complete layout of an organization – for use from personal life to any endeavor of any size.
- Policies are also listed chronologically.
- Typography is designed to make it clear and easy to understand and duplicate the material – the words literally jump off the page!
- Ribbon page markers make it easier to find your reference or keep your place.

# Learning to Solo from the top Ace himself

AOLA's Solo auditors in training see LRH's Technical Training Films over and over again, and with total certainty of the tech, take off for OT.

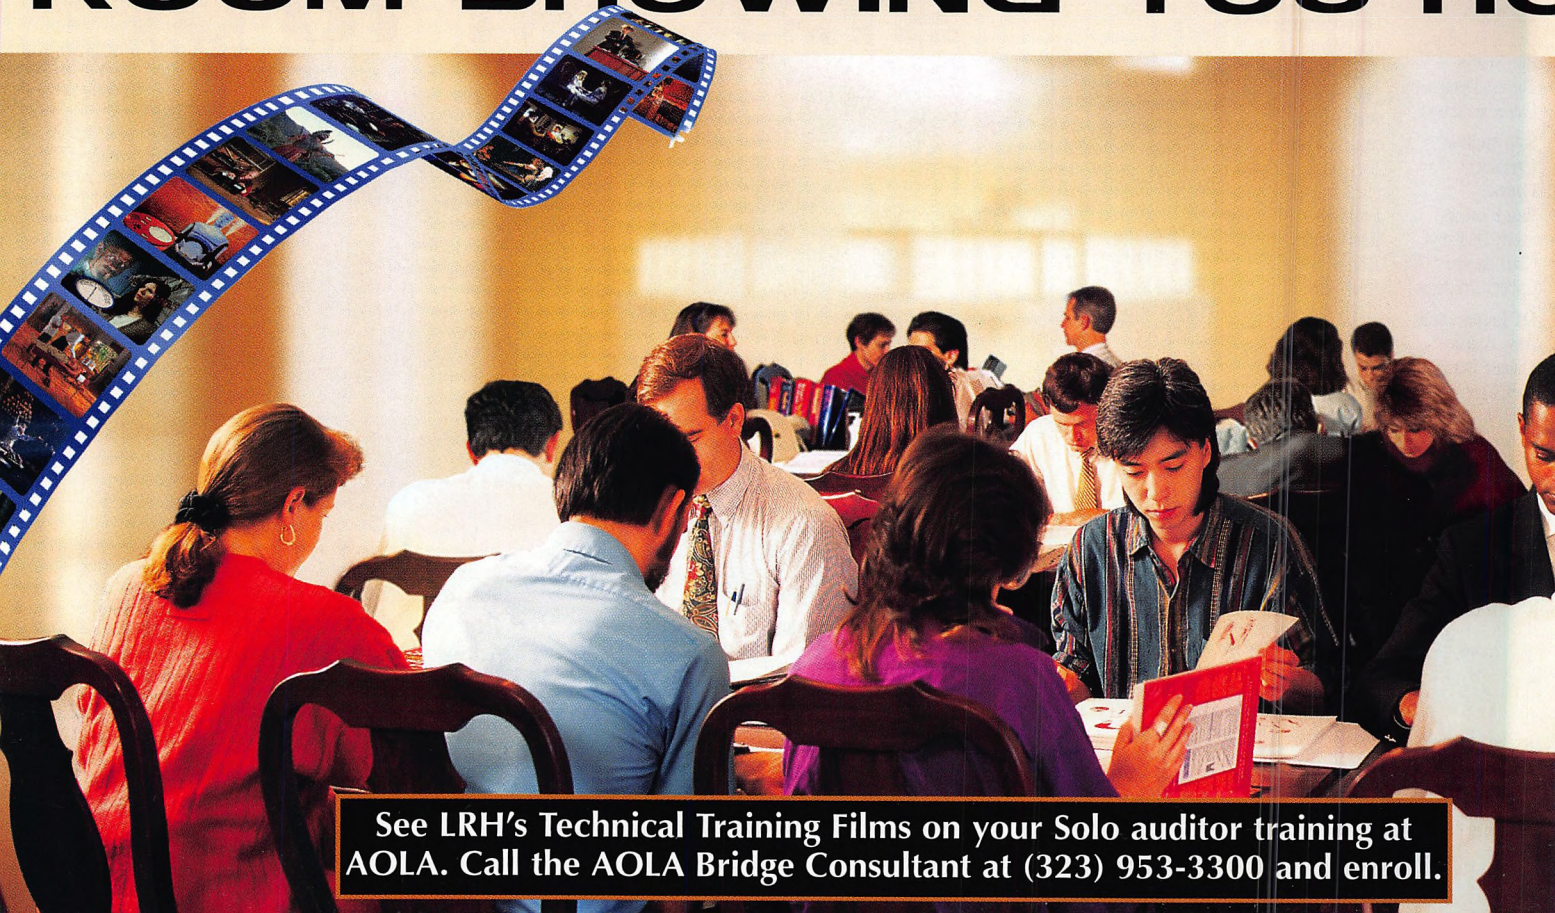

About training and Solo auditing Ron said this, **"On Solo levels you deserve the best auditor you can get: You."** He also said, **"Cognitions in Solo auditing depend upon the ability to use the tools of auditing so well, they serve no distraction in Solo session."** And the Golden Age of Tech for OTs Solo auditor training you'll experience on the Hubbard Solo Auditor Course Part One and Part Two, or the Hubbard Solo Auditor Certainty Course if you already trained as a Solo auditor in the past, will absolutely ensure you are the best auditor you could ever have for your journey to OT.

The best instructor you could have is of course Ron himself, and that's exactly what you'll have when you see the seven Technical Training Films on your Solo training – *The Solo Auditor, How the E-Meter Works, E-Meter Reads* and the *E-Meter Reads Drill Film, PC Indicators* and the *PC Indicators Drill Film* and *The Cycle of Communication* – because here Ron *shows* you every single Solo auditor skill you need to have to make it to OT. And when you watch these films over and over again, and drill the skills they show until you have them down cold, you'll be ready – completely – for your take-off to OT.

The successes of these recent graduates tell the tale:

*"I was struck by the sheer simplicity of the tech when I saw The Cycle of Communication LRH Tech Film on my Solo training recently. Ron makes communication crystal clear in this film because he shows you exactly what it is – all the components. I thought I knew what communication was, but I didn't really until that point. I realized that it was the data on this film, nothing else, that was the breakthrough for me. You know, you read about how the Tech Films contain tech you won't find anyplace else and I hadn't really looked at what that meant before. Now I get it! As a Solo auditor in training I need to know all about communication, otherwise there will be no Solo auditor comm cycle, and therefore no auditing!*

## IT'S LIKE HAVING RON IN ROOM SHOWING YOU HO

**See LRH's Technical Training Films on your Solo auditor training at AOLA. Call the AOLA Bridge Consultant at (323) 953-3300 and enroll.**

*"There are seven films on this course and so far I've seen four – The Cycle of Communication, PC Indicators, the PC Indicators Drill Film and The Solo Auditor. They all blew me away. LRH showed me things he couldn't have shown me any other way. I am looking forward to seeing the rest and graduating this incredible course, earning my wings and then flying Solo!"* M.B.

*"The Tech Films you see on Solo training are awesome! I always had this apprehension about whether I'd actually be able to spot all the meter reads in a Solo session, but by seeing E-Meter Reads and the E-Meter Reads Drill Film over and over, for as many times as I wanted, I have total certainty I know every one of those reads. I have zero attention on ever missing a read. I just know I won't because the knowledge that Ron gives you on this film is now mine.*

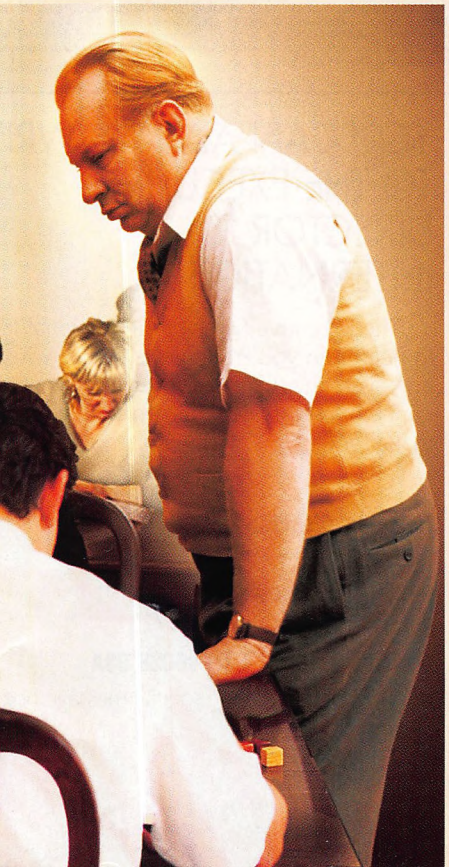

*"On top of this, all my questions about the E-Meter – and I had a lot, though I never would have admitted it before – were totally handled by seeing How the E-Meter Works. I'm an E-Meter expert now, and the combination of seeing the film and drilling and drilling means that the E-Meter is an extension of my knowingness and the greatest tool I have had on the whole track.*

*"With the films PC Indicators and The Cycle of Communication, I learned vital skills that you have to know perfectly so you can have the cognitions you need to have in a Solo session. These films, and the drills you do, helped me polish those skills until they shone.*

*"And finally, The Solo Auditor film brought the whole thing together. This film shows how you move from being perhaps 'all-thumbs,' to utter competence as a Solo auditor. When I first saw it I was the person at the beginning of the film, the Solo auditor in training who had a lot to learn. And I saw this film many times during my Solo training, but the last time I saw it, a few days ago, I was the guy at the end of the film. I knew I could Solo audit all the way to OT!"* B.B.

**Come in to AOLA, see the trailers for these films and enroll on your Solo auditor training!**

# THE COURSE W IT'S DONE

Imagine you're on Solo auditor training, learning the only tech to free yourself from the ancient traps which were laid in on you long ago, but which still hold you down today.

Now imagine Ron is there with you *showing* you exactly how it's done, how perfect TRs look, how they sound, every meter read perfectly demonstrated, each Solo auditor skill clearly shown. That's how it is on Solo auditor training with LRH's Technical Training Films.

*Every* Technical Training Film you'll see was written by LRH and produced to his *exact* technical standards. They are the measure by which we define Standard Tech and *are* the standard for Solo auditors to duplicate in their own sessions. These films are in fact how we can guarantee that 50 years from now, Solo sessions will be conducted just as if Ron were there personally supervising in the course room. And when you train as a Solo auditor you'll see seven of these remarkable films – *How the E-Meter Works, E-Meter Reads* and *E-Meter Reads Drill Film, PC Indicators* and the *PC Indicators Drill Film, The Cycle of Communication* and *The Solo Auditor.*

All teach parts of the tech you must know as a Solo auditor. All contain technology you won't find anyplace else.

And you'll drill the skills they show until you know them cold, and then use those skills to fly to the very heights of OT.

For more information see the Reader Service Card in the insert.

# DEFINITIONS

**Advanced Courses:** those courses above the level of Clear, specifically dealing with materials of which one has to Solo audit in order to attain the stable gains of the grade.

**Bridge, The:** the route to Clear and OT, which we call THE BRIDGE® Classification, Gradation and Awareness Chart. It is a term originating in early DIANETICS® days to symbolize travel from unknowingness to revelation.

**Clear:** the name of a state achieved through auditing or an individual who has achieved this state. A Clear is an unaberrated person and is rational in that he forms the best possible solutions he can on the data he has and from his viewpoint.

**Dianetics:** man's most advanced school of the mind. The word comes from Greek *dia,* through, and *nous,* soul. DIANETICS is defined as what the soul is doing to the body.

**MEST:** the physical universe. A word coined from the initial letters of Matter, Energy, Space and Time, which are the component parts (elements) of the physical universe.

**Operating Thetan (OT):** a thetan exterior who can have but doesn't have to have a body in order to control or operate thought, life, matter, energy, space and time.

**org:** (SCIENTOLOGY slang) an organization that delivers DIANETICS and SCIENTOLOGY training and processing.

**OT Preparations:** a tailor-made auditing program designed to handle any case areas that could cause one difficulty on the OT levels.

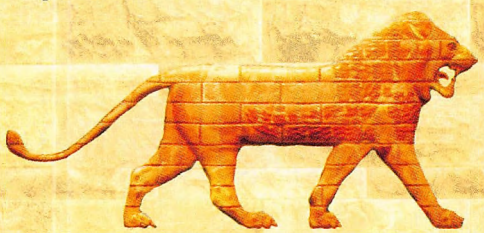

**OT Eligibility:** eligibility for the OT levels is determined by passing an FPRD Confessional for which one is awarded an "Eligibility for OT Levels" slip. This Confessional step is often called "OT Eligibility."

**rundown:** a series of steps which are auditing actions and processes designed to handle a specific aspect of a case.

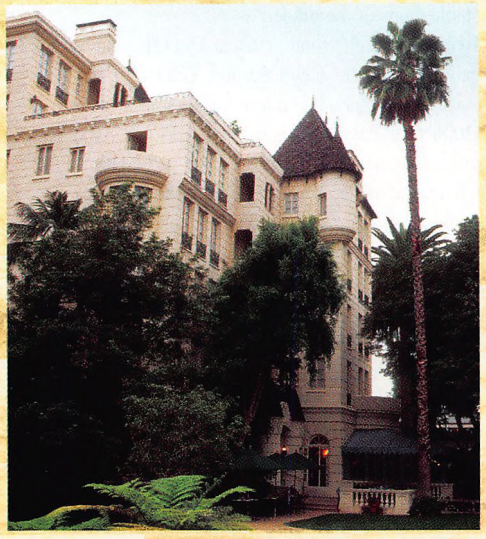

**theta:** energy peculiar to life or a thetan which acts upon material in the physical universe and animates it, mobilizes it and changes it; natural creative energy of a thetan which he has free to direct toward survival goals, especially when it manifests itself as high-tone, constructive communications.

**thetan:** the person himself – not his body or his name, the physical universe, his mind or anything else; that which is aware of being aware; the identity which is the individual.

**whole track:** the moment-to-moment record of a person's existence in this universe in picture and impression form.

# THE ANSWERS TO LIFE'S MYSTERIES WERE NOT IN BABYLON

Nor were they in the pyramids of Egypt, n the magnificent cathedrals of medieval ope.

Eternity doesn't have anything to do with permanence of MEST. In fact, MEST is the very core of the mysteries man has ught to solve.

The whole pattern of civilization here on rth is a dramatization of a vicious 4th namic engram of traps and lies laid in on u, and the rest of mankind, in a tastrophe that occurred here 75 million ars ago. And that engram impinges on ch moment of your life, to this day.

No one solved the mystery until L. Ron ubbard. And he laid the way out for you n the Advanced Levels of Scientology. All ou have to do is walk this closely-taped ath. And in the Golden Age of Tech for T, you will travel it with *total certainty,* as perfect Solo auditor.

Your decision to go OT now, will ensure ou make it.

And here at AOLA we will back you up, very step of the way.

This *is* your one chance to go free.

Take it.

NOW.
