REVITALIZATION OF TRAINING

All Barriers Removed!

L. RON HUBBARD has just suspended the Primary Rundown and Primary Correction Rundown as prerequisites to training.

You are only required to do the Applied Scholastics Basic Study Manual (unless you've already done a Student Hat Course or Primary Rundown) and Method One Word Clearing for Level 0-IV students on up. (Including Org Exec Course).

TWIN CHECKOUTS SUSPENDED

You do not need a twin. You now sign off items as soon as you know and can apply them.

EXAMINATIONS SUSPENDED

You pass each course by attestation that you have properly enrolled on the course, studied and understand all its materials, done the drills, and can produce the result required in course data.

YOU ARE NOW AWARDED A PROVISIONAL CERTIFICATE.

(Provisional certificates expire within one year if not validated).

INTERNSHIP OR FORMAL AUDITING EXPERIENCE.

An auditor does an internship to show he can produce flubless results. At this point your certificate is validated. For other courses, you demonstrate you can apply what you studied by producing an honest statistic with it for a validated certificate.

SUPERVISORS HELP

As a fast flow student you are assisted by course supervisors with word clearing as needed.

ARBITRARY REQUIREMENTS REMOVED.

There is no fixed requirement of so many hours audited or number of completions produced. The requirement for course completion is "has produced the result required in the materials."

NOW ON PRIMARY RUNDOWN?

You may complete it or move over to your next course. Any donation paid on a Primary Rundown not yet half done may be applied to next course. If more than half completed, donation is not refundable.

QUALIFICATIONS

The Qualifications Division is responsible to see Scientology tech remains standard and flawlessly applied.

CLASS VII NO LONGER REQUIRED FOR CLASS VIII.

At Class VII an auditor learns the precision Power Processes. This course will now be available only to Church staff on 5 year contract and Sea Org Members. All other Class VIs will go on to Class VIII without VII.

MOVE onto your next course now. You can still be at ASHO this year for your Saint Hill Special Briefing Course and higher level training.

Many more auditors are needed right now. Ron has removed all barriers to revitalize training across the world. Start today!

ASHO Field Staff Member Awards!

Field Staff win training by helping others move up the Bridge to ASHO

THE PROGRAM

For every two people you select for ASHO services who arrive within a given quarter, you are awarded 1/5 of the Saint Hill Special Briefing Course! These fifths add up each quarter as you earn them.

If you're an individual Field Staff Member who has already done the Briefing Course you may apply an equivalent award to your next course.

This ASHO program is in addition to 10% commission paid you on auditing donations and 15% commission on the training donations of those you select for ASHO services.

"THE BIG AUDITING PROBLEM"

by L. Ron Hubbard

Auditing does require a certain amount of stamina. It takes a certain amount of what it takes just to stay around Scientology—there is that, you see. It takes a certain amount of—to use a technical term—"guts". You know that. In the first place, the problem of living is complicated by the fact that you know what the other fellow is doing, and he doesn't. You go down to the bank and your communication is disturbed by the degree that you know the fellow behind the teller's window is a 1.5, the like of which you've never seen before, and he thinks he's just a good average human being doing a job, and you count your change more carefully than you would on some other bank teller.

Now there is a tremendous advantage in this. You don't walk around all the time in a figure-figure wondering what's wrong with you because you don't always get along invariably with other people uniformly well. Now you realize that the bulk of the human race is walking around with the belief that there is something wrong somewhere, but they don't quite know what it is and it worries them. Now when you get up to a degree where you have some idea of this worry, you are aware of the factors which exist, the fact that your awareness has increased is all in your favour.

One of the great truths of Scientology is that INCREASED AWARENESS IS THE ONLY FACTOR WHICH OFFERS ANY ROAD OUT. That is an awfully simple truth, but you'll find out that people don't know that. They think that LESS awareness is the road out—and that is the road down into the basement.

All right—you live in a world that is trying right now to commit suicide on the grandest scale it has ever attempted, although I will say that when they dug up that last cave down in the Middle East and found seven civilizations they did find under the shreds of the seventh civilization green glass, which looked awfully like the green glass from an atomic explosion out in the middle of the New Mexican desert. In other words, tens of thousands of years ago there was evidently another atomic blast, and perhaps everybody has been coming forward through barbarism and so on up the line.

So although it is pretty hard to live around Scientology very often—somebody tells me, "You know, that is awfully restimulative material which is in these lectures" (I've heard this said two or three times), "Oh, I don't know, I've sat through a lot of lectures and it just restimulated me and I'm in terrible shape now." And I've also heard somebody in the organization look at a remark like this and laugh. They say, "Well, the only real difference is that you're in terrible shape, that's sure, but now you know it." And if you're in bad shape, it's better to know it than not know it, that's for sure.

What happens to Scientology and Scientologists in a world of this character? What happens to us? Why should we know what we know and know it well,

continued on page 2

"THE BIG AUDITING PROBLEM"

continued from front page

and so on? That's because your basic attitude toward the world at large will have to be more and more an auditor's attitude toward a preclear if you are going to accomplish any survival at all. To get anybody to do anything will probably require an auditor here in the near future.

I will give you an interesting example of this. If you can tell the difference between a lot of little kids you run into, and psychos, I'll give you a medal. Now the funny part of it is that little kids have something to hope for. They have the future to grow up into. And that's their only asset. Almost everything else is on the debit side of the column. Here is this poor devil who has been slugged, he's just lost a body, he's been put into a state of anxiety, here he's got another body, is it going to get along right or isn't it? He's got the hope that it will grow and that alone can carry him forward and colour the world brightly for him, but at the same time he is suffering from death shock. And because he is suffering from death shock, he is coming along very timidly with his learning. Now that is the condition a little kid is in, and when you KNOW that a little kid is in that condition, boy! can you handle him! You don't label him with this omnipresent over-used term "insane", or "psychotic", you don't do that. This person is having a terrible time trying to adjust himself to his environment and control a body which is suffering from many responses he does not understand, and he is at his wit's end. The delusions of children and death delusions are quite similar. When a person dies and starts to pull out of that body, he generally snaps in on himself a torrent of facsimiles of one kind or another. He has all sorts of weird things that go "boomp in the night" present themselves at that moment.

When the kid gets worried, he's worried. Now who can handle him? Mamas and papas across the face of Earth today, particularly in America, have just about given up. We have a whole philosophy—we hardly dignify it with the name of Science or even really dignify it with the name of Philosophy—which tells us that the child must be permitted to express himself, that you let the child do anything he pleases in any direction that he pleases and he will be all right—now that is modern psychology at work with children, and it is not true.

A child requires understanding and a child requires assistance in controlling the environment around him which is already too big, too strong, and is moving much too fast on him. He has to be set a good example of 8-C. I am not now talking about heavy discipline. I'll show you the shortness of discipline. How many people have told you to be a good boy or a good girl. They never came to you and said, "Thank you for being a good boy or a good girl." I almost startled little Quentin out of his wits a couple of evenings ago. I told him to be a good boy now and go to sleep. He was feeling upset. "Stay in bed, now, get some rest." He was very quiet for a half an hour. I went downstairs again and noticed he was still awake, and I said "Thank you very much for being a good boy." He smiled, looked sort of dazed—it really shook him. And ever since then he's been saying—he always says it with enthusiasm, but with this he just about burst the walls – HELLO, DADDY! He is really in communication. Probably the first time it's happened to him in seventy-six trillion years. You get the idea! Somebody did give him an order and then did finally acknowledge that he had executed it. But there is a common lag on executing such an order as "Be good," or "Go to sleep," and there is never an auditor there to say "Thank you", never an auditor there to say "you did it." So life is finished with these tremendous numbers of unfinished cycles.

If one is bad, it gets acknowledged, confirmed and pushed around, but if he's good, it's sort of neglected. That is an interesting factor right there. But all I am telling you is that children, and now the entirety of this world in which we are living, presents to us an auditing problem. We are rich in being able to understand what is happening in our environment and we are rich also in knowing exactly how to handle such a circumstance or condition. Nobody knew before. That is factually true here on Earth.

Fast Flow Training Successes at ASHO

"Hey, now we can get our training faster!" ANNE LARSON and DREW JOHNSTON find out about fast flow right from source as they read Ron's new policy, "Fast Flow Training Reinstated" at ASHO.

This fast flow training is really great. It allowed me to move right on to my levels although I was scheduled for the PRD first. I can hardly wait to move right onto the SHSBC–then on to Clear and OT!!

ANN LARSON

Fast flow training has enabled me to move faster toward Class IX. As soon as I read the new policy, I decided to take advantage of it. I routed off the Primary Rundown and right onto the Expanded Dianetics Course at ASHO. I was done in 8 days. Now I'm on my internship and doing great!

DREW JOHNSTON

LOOKING FORWARD TO SHSBC

I have looked forward to the SHSBC for five years, and have just completed Section I of V. Having been so eager to have this Course, it wasn't until I signed off this section that I realized I have surmounted a hurdle – and have transformed that hurdle into greater understanding. It's strange that one can really desire something to the point it takes a cognition to realize that the pure gold isn't the mass but the knowingness one has made their own.

CLAIRE MELGREN

LONG-TIME GOAL ACHIEVED

The Internships are where you really learn to audit, which I've been trying to do since 1958, when I first got auditor training. Now that study tech and Internships are available, it won't take that long for anybody anymore. I'm very happy that I finally arrived.

LEARNED MORE THAN EXPECTED

This course has been the most rewarding and enlightening experience that I can remember. Of couse, it handled the questions I had as a IV and I learned much more than I could have imagined. It's great to do this course at ASHO where I never had a problem that wasn't handled immediately by the fine supervisors and technical and qualifications personnel. Thanks to all staff, who helped more than they know.

ABLE TO PRODUCE AN ABLE PRECLEAR

I have just completed the SHSBC. This is by far the most remarkable course I have ever taken. On this course I can say that I really learned the beingness and doingness of an auditor. Knowing those things, I can attain the havingness of an auditor – the product of a more able preclear.

I have also learned from LRH how important it is to persist thru all barriers to attain the valuable products and the goals of Scientology. My admiration for him and his ability to accomplish his purposes is unlimited – and my dedication and commitment to Scientology and Ron have risen vastly because of this course

My thanks to the supervisors, the Director of Training – and to my C/S, whose correction has always been precise and superb.

PETE SUMMERS

BRIEFING COURSE MAKES AN AUDITOR

I came to ASHO a Dianetic completion and uninterned Class IV Auditor. I made it to OT IIIX, Class VI, Expanded Dianetic Auditor, permanent!

I was a pretty Good Class IV–but I'd never been totally comfortable auditing, able to confront rough situations and willing to have my actions scrutinized. As a Class IV the very idea of a TV Demonstration would have devastated me! But the perfect gradient of all the data on the Briefing Course and then internships from the bottom up was very smooth.

It's like learning to write. After awhile you don't think about how to write, but you use it all the time and you depend on it. You don't forget how, it's an ability that is yours totally.

The Briefing Course result was way above what I expected.

There's a feeling when you've done a lot of auditing as a Class IV that the Briefing Course couldn't be much because you're still auditing lower level actions. That was my misconception. But auditing isn't the actions or rundowns, it's what you can do with the pc, what you know about what's going on. It's not the tricks, it's the professional expertise. The SHSBC gives you the potential for that, and on the Class VI Internship you get real certainty.

The last preclear I audited here said I was the first auditor who ever picked up every time he didn't feel quite right, every little thought he had that he might as well withhold. Before, I would never have done that. Now I have the knowingness and freedom of working with another thetan and having it be really real."

Trained Scientologists Revitalize Society

Successes told at National Reform Conference and Human Rights Prayer Day

The Church of Scientology held its first National Conference on Public Action and Social Reform August 24, 1974 at the Biltmore Hotel in Los Angeles, California. Scientologists came from all over the U.S. to hear legislative, medical, community and church representatives speak on community action and the growing trend to positive reform.

The program was divided among active groups which use the technology developed by L. Ron Hubbard, Founder of Scientology, to get needed social reforms carried out. Speakers from each group presented its purposes and activities over the past year, followed by a guest speaker for the field the group is working in. Covered were reforms of government functions such as taxes, handling of human rights, rehabilitation of criminals, public health and safety, as well as reform of education, psychiatry and correction of abuses in treatment of mental retardation, the elderly, alcoholism.

Many public opinion leaders praised what Scientologists are doing in the field of reform. California Assemblyman Bob Moretti discussed the new breed of politicians who actually do care, pointing out that legislative reform is possible. He promised his support of the Church's reform goals. Assembly Frank Holoman of the California State Assembly praised Scientology community involvement and its dedication and effectiveness. Holoman presented a Resolution from the California legislature commending Narconon, a drug rehabilitation program using Scientology communication techniques, "for its successful and effective salvaging of persons who have become involved in criminal or drug/alcohol abuse."

The Conference featured guest speakers like the Rev. Lyn Hodges, Executive Dir., Northern Calif. Ecumenical Council (center), as well as trained Scientologists active in social reform.

Public interest journalism awards were given out Saturday evening by the Church of Scientology's independent news journal, FREEDOM. The acceptance speech of Bill Addison, Executive Producer, KMOX-TV (CBS) St. Louis, for his coverage "Drug Experimentation Missouri Institute of Psychiatry," proved to be the highlight of the evening. Addison strongly acknowledged Scientology's work in social reform and pointed out that if anybody could handle society's problem spots, Scientology would. He further urged Scientologists to unite fully as a group and take advantage of the present as the right moment to accomplish those aims.

Scientology choir looks on as Jane Kember speaks at Prayer Day.

PRAYER DAY

More than 4000 Scientologists from around the country poured into the Biltmore on Sunday for the Human Rights Prayer Day.

A short film "PAX" illustrated the Creed of Scientology and Scientology's purpose to assist man in understanding his nature as a spiritual being.

The 30-voice Church of Scientology choir sang L. Ron Hubbard's "The Factors" set to music by Clear composer Bobby Richards, who has orchestrated music for several films (including the James Bond series), as well as being musical director for the English group "The Seekers." Its impact was tremendous. At the music's end the audience rose with waves of applause.

Rev. Jane Kember, Guardian of the Churches of Scientology Worldwide, delivered a sermon recognizing the value of American rights as spelled out in the Constitution. Only the abberration of individuals has prevented its promise of freedom from being fulfilled in this country, she explained, and Scientology has sprung up to build a new civilization. A 20th century religion cannot divorce itself from life, she stressed, and it is up to us to rehabilitate American life and bring true freedom and understanding to this culture.

CANADIAN PRAYER DAY

A similar Prayer Day was held in Toronto in June, 1974 to unite Canadian Scientologists.

The road to Total Freedom and Ability travels through Ron's Saint Hill Special Briefing Course.

Mel Fuller, Nancy Davis and Marie Perrin look on as inventor Chuck Moeller demonstrates the "Qual" for factory machinery.

Auditor Revitalizes Initiative

Hubbard Certified Auditor and Grade VA MEL FULLER started Inventors Workshop International 3 years ago to give ethical assistance to individual inventors.

"When I got my Power Release I knew what I had to do. My power came way up and I proceeded to move out," Mel reports.

He says the U.S., once first in inventions per capita, is now 7th in the world, and with this change has gone our balance of trade with other countries. His idea is to help revitalize individual initiative in this country by making sure individual creativity is rewarded through better information and better patent laws.

A Scientologist since 1958, Mel uses Scientology constantly in his group. The Workshop has now expanded to 14 local chapters and is preparing to move out to the East Coast also this month.

NANCY DAVIS, OT VII, Hubbard Recognized Scientologist, is head of the Chapter Director's Association for the group, and MARIE PERRIN, Grade VA, Hubbard Professional Auditor (currently training at ASHO on the Saint Hill Special Briefing Course) is another of the chapter directors. Mel has just selected JIM LUEKER, a chapter director, onto auditing toward Clear.

Grade VA CHUCK MOELLER, one of the L.A. chapter members recently invented a mechanical "qualifications division" for factories that stops a machine and isolates the trouble spot if it malfunctions in a way that would result in damage or a product which will not pass inspection. "It says 'flunk,'" Chuck jokes. "I just mocked it up and put it together—if a part wasn't available I had it made," he relates. The first place he went to demonstrate it was a printing plant—though he hadn't seen a printing press in a year and a half, it fit in perfectly! "Scientology improved my overall ability as an engineer," Chuck says.

Canadian Scientologist Wins Gold Record

MICHAEL ARGUE's recent recording, "Make My Life a Little Bit Brighter" literally soared to the top of record charts in Canada, achieving a gold record within 3 months.

Michael attributes his success to Scientology. "I write music to make people happier," he says. "Scientology has helped me improve my musical abilities to do this even better!"

He has just finished POWER RELEASE at ASHO and is now working on the Clearing Course.

Scientology Brings Success to Jewelry Business

A little over a year ago, business for the Calf and Dragon jewelry company in Evanston, Illinois, was on a downtrend.

Today, it has four times as many employees and its production has increased over 100%. Floor space has more than doubled and a second store is opening soon in Chicago.

GREG POTTER, now the Calf and Dragon manager, is the Scientologist who made the difference. "Scientology is what changed it all," he reports. "When I started here, I was hired to do some remodelling of the sales room. Temporary work. Business was down, the employees were at each other's throats. So I whipped out my Basic Staff Hat Book (Volume 0 of the Org Exec Course)."

"One year later, I'm manager, our employees are happier, and our production is at least triple what it was with quality higher than ever."

Greg, now training on the Hubbard Standard Dianetic Counselor's Course, heard about Scientology four years ago from DAVID JEWELL of St. Louis.

"It's amazing how easy it can be to become powerful," Greg says about using Ron's policy in the Org Exec Course volumes. "L. Ron Hubbard is the best friend the Calf and Dragon ever had!"

Greg Potter uses a Scientology Organizing Board to route despatches.

Artists Succeed with Scientology

Briefing Course Graduate PAM BACZKOWSKI and her husband HENRY have become leading artists in Europe as a direct result of Scientology.

The Baczkowskis were running a pottery business in the early '60's in Yorkshire, England, when JIM PATTERSON gave them a copy of L. Ron Hubbard's SCIENCE OF SURVIVAL. Three weeks after they'd read it, they liquidated the business and started a Communication Course in London.

At Grade IV, Henry realized his own purpose–to paint successfully. Pam turned to sculpture after Grade IV, and soon they started exhibiting, from Rome to the Bahamas.

Today Pam is a Class VI Auditor and helping to disseminate Ron's books in England. She and Henry plan to fit out a caravan as a mobile gallery to tour Europe and disseminate Scientology in the near future.

Henry Baczkowski, who became a painter after Grade IV Release, selects the right brush for the job.

Reading Scores 3 Months Above Average

JAN NICOLOSI's 2nd graders at a public school in Santa Clara scored an average of 3 months higher than the expected in State reading tests this past June.

This is a direct result of Jan using L. Ron Hubbard's study tech!

Over the summer she was at ASHO for her Power Processing with her husband, Bill Nicolosi, and they have now both gone Clear.

Power Release David Campbell (right) adjusts sound equipment at the RCA Studio as OT III Wings Livinryte sings along.

New RCA Record Contract

WINGS LIVINRYTE, now OT III, and DAVID CAMPBELL, Power Release, have just signed a contract with RCA for a series of 10 albums.

They're recording the first now, "Fishing for Each Other", an album of original songs to be released in October.

Plans for the album with RCA crystalized after both musicians finished their Power Processing at ASHO.

David, who's done arranging for popular singers Rita Coolidge, Kris Kristofferson and Carol King, is producing and arranging the album, as well as playing violin. Wings is the vocalist.

"Power Processing has allowed me to really be a musician, to be whatever I want to be," David says. He got into Scientology through Class VIII and classical pianist MARIO FENINGER. "He not only located my ruin but he handled it in about 2 minutes. I felt so good I was on his doorstep the next day to get audited," he explains. "I was a classical musician then. I was interested in pop music, but hadn't had any experience with it. Usually it's hard to make a turn-about into commercial music. With Scientology it was really easy to shift."

Wings is the son of Academy Award and Cannes Film Festival award winning Dwight Hauser. In addition to studying theater since he was 8, he's guest starred on the TV series "Twelve O'Clock High" and in the Warner Bros. motion picture "First to Fight."

Les Rogers sketches his engine idea–originally inspired by an article in Advance! Magazine on mercury fuels used at earlier times in this universe.

New Engine Invention

LES ROGERS of Toronto has come up with a new kind of engine which runs on recyclable mercury-based fuel. It's designed with only one moving part, with exhaust gases that would be processed for re-use.

Free of vibration and noise as well as pollution, the engine is adaptable for cars or larger machines.

"Scientology has given me increased depth of perception and concentration," Les says. "Through Scientology I have greatly intensified my ability in terms of free-thinking."

FOCUS ON SUCCESS

I've just had a very interesting journey covering the bulk of 1961 and 1962. This was via tapes with the "voice" that spoke and spoke and spoke. The message I received loud and clear was "Responsibility" and how to achieve it.

The successes, the setbacks, the reforging of tools, was fascinating and most remarkable of all – the indomitable will and incredible self control of he who made possible and is continuing to make possible the transition of this "road to a better being" from Corduroy to cobblestones to a broader, smoother highway.

I salute – L. Ron Hubbard.

At the conclusion of VA, I feel really good. I feel more alive than ever before – and more ME. I know who I AM! I can feel myself getting closer and closer to CLEAR and it's a nice feeling

I want to thank my auditor, Will Carter, and Ron, whose tech I am appreciating more and more as I move up!

Thanks for the Auditor copies, I enjoy them very much, and will make sure my friends get to read them.

I'm a G.I. stationed in Japan. I'm a HASI member, and I have ordered a lot of books from ASHO.

Scientology is a hard subject to keep to oneself. I've only known about Scientology 7 months and have been near a Scientology Center 1 month total. I took the Comm Course in October 73. In April 74, I did 12½ hours of Life Repair in Los Angeles before having to go back to Japan.

So, it's new, but Wow, it is powerful! Friends have read my Scientology books, and had their friends read books and magazines. All kinds of people that I've seen but never talked to come up and ask me 'what is Scientology, what can you do with it?' So, I need everything I can get to show them. Scientology seems to have a stablizing effect that brings people uptone.

Get the New Sound Created by L. Ron Hubbard

"Power of Source"

A stereo album of music entirely new and alive.

When L. Ron Hubbard sets out to create music for a new and better world, the result is a sound so free, so dynamic it leads you right to the upper reaches of the emotional tone scale.

Bright, alive, bursting with the sheer joy of life itself. This music has already taken two whole countries!

POWER OF SOURCE brings revitalization to a music world long awaiting the sound of the future. It's performed by The Apollo Stars, a group of 10 OT musicians Ron worked with closely for many months.

Three original pieces by Ron and the Stars reflect all the vigor of the world's most rapidly expanding religion– *We're Moving In, Power of Source, My Dear Portugal.* With refreshing new energy, the Stars play two traditional songs, *Johnny Comes Marching Home* and *Summertime.*

POWER OF SOURCE – a must for your record collection. The ideal gift for those you wish well.
