THE MONTHLY JOURNAL OF SCIENTOLOGY

WHY STANDARD TECH

BY L. RON HUBBARD

To audit means to listen and compute. It also means to get a result on a preclear.

One sits down usually and he has a preclear (somebody who isn't Clear). In view of the fact that this person isn't Clear, he sometimes has to be handled rather gently because he has difficulties. It requires auditing done in a technical and professional manner which has not departed from standard procedure.

Man has always had offbeat processing of one kind or another. There's no reason to perpetuate it. The psychoanalyst sits down and does something with a person too, but there is no similarity between what he's doing and what a Scientologist is doing. A Scientologist is trying to make the person better, and that is a NEW idea in the whole field of the human mind. It is so new and novel that psychiatrists think we're terrible because we do not electric shock and execute people.

Our situation does not compare with earlier activities, laughingly called psychotherapy (or pure duress), medieval torture, police action and other things which have passed for mental therapy down through the ages. We're not even in the field of mental therapy.

We are trying to make somebody Clear of his reactive bank.

Now Freud said that man had an "unconscious" or a "reconscious" or something of the sort, which was "subconscious under the underconscious". He thought there was something there and it was inhabited by a beast known as the censor who kept a fellow from pulling social *faux pas*. And when the censor was asleep or nulled or something of the sort, by drugs, the fellow would do antisocial actions. That was the whole explanation of the human mind (except that it was "all caused by sex").

We are actually indebted to Poppa Freud because he did say out loud that there was some kind of a mind that was kicking back on somebody. But he didn't really discover the reactive mind – we did.

Clearing somebody is erasing his reactive mind. All that is horrible, bestial and antisocial about a person is actually contained in his reactive mind, but we are not interested in whether a man is horrible, antisocial or bestial. It has nothing to do with auditing. Auditing is not a social criticism.

You'll notice nearly all psychotherapies ***are*** involved in social criticism. The psychiatrist exists for the "good of the society" and to hell with the patient. That is the way he operates.

Therefore ***we*** are into a new field.

We know the answers to the way a preclear behaves. We can tell ***why*** a person conducts himself as he does, but we don't care because there is a certain road out. Scientology is a way, the road out away from reactivity, away from aberration, away from identification of A=A=A. It increases a person's ability and it increases his general performance and existence to a very marked and fantastic degree.

That road out has certain little milestones that you have to pass to get out and we call these, for want of a better definition, Grades.

If you look at the Classification Gradation and Awareness Chart of Levels and Certificates, you see there are certain steps on this that a person goes up toward Clear. And those steps have certain definite abilities regained.

These steps are Grade 0 Communications, Grade I Problems, Grade II Overts and Withholds, Grade III ARC Breaks, Grade IV Service Facsimiles, Grade V which gets the fellow up to where he can confront the whole track, and then Grade VI which is unburdening the reactive mind (which is whole track). Then we get Level VII, Clearing, which contains the materials necessary to totally erase one's own reactive mind.

It is really not possible to enter this whole task of erasing the Reactive Mind in the upper grades ignoring the lower grades. That would be a catastrophe. The other point that could be a catastrophe is simply not following standard technology.

Commanding Officer ASHO Day announces the VIII Course stays at ASHO to cheering students and staff.

BY POPULAR DEMAND CLASS VIII STAYS AT ASHO

In recent weeks more Class VIIIs have graduated from ASHO than ever. L. Ron Hubbard has announced the VIII Course will not be moved to the Advanced Organization. Class VIII is at ASHO to stay!

The Confidential VIII Course has been made even tougher in its concentration on training auditors to be zealots for 100% Standard Tech. Special sections on supervision and word clearing have been added to give VIIIs all the tools to push in Standard Tech in the field, to make Standard Tech auditors out of lower class.

Eight more confidential tapes have now been added to the famous Class VIII tape lectures. Four of these are tech briefings Ron gave auditors on Flag. These have never before been on any course, and up to this time have only been heard on Flag by upper levels auditors. This makes 27 totally confidential tapes on the VIII Course containing basic data about the universe. These are available ONLY to Class VIII students and cannot be heard anywhere else.

Ron has made the Class VIII course available to ANY Class VI, regardless of his own case level. The purpose of this is to get more VIIIs out into the field applying 100% Standard Tech and ensuring lower classed auditors apply Standard Tech to each and every person. The small amount of OT process data (only what is already part of the OT levels) has been shifted to the Solo C/S Course. This an VIII can do after his OT levels, but these materials are not necessary on the VIII Course at this time as this is NOT what the VIII will be auditing in the field. (All other confidential data is still on the course. Another key confidential bulletin has even been added to VIII.) Ron found unreasonable grade requirements for VIII were slowing the flow and thereby depriving auditors of vital upper level tech.

To continue Scientology's rapid expansion, Class VIII's are needed in the field now to keep tech delivery 100% standard. Ron has made it possible for ALL Class VIs to get the Class VIII materials and see that they are applied in the field.

A Class VIII graduates with pride and integrity far above any lower level. Be one of the trusted custodians of Standard Tech Ron counts on. Become a Class VIII!

WHY STANDARD TECH

Continued from front page

What is standard technology? Standard Technology is contained in Hubbard Communications Office Bulletins. They're on white paper printed with red ink. If I haven't signed it it isn't true. That's standard technology.

Just because we developed something later we didn't lose the standard technology of something earlier. The main bugbear of the person studying Scientology was he conceived that every time he read something new, that which he read wiped out all the old. And this concept was brought about on just one point: he didn't understand the old that he had read, so he didn't realize that it integrated with the new which had just been issued. At no time really in HCO Bs has the new wiped out the old. There are very very few corrections.

There isn't ***anything*** that is going to help Man but processing: not psychotherapy with electrodes or "brain-ectomies" – the new psychiatric operation that takes out the whole brain (joke) – or anything. I'm talking about his state of case, his behaviour and so forth. You're really not going to get any place short of processing.

So you'd better know that processing is a very very narrow little track bounded on both sides and above and below by a complete mass of improper things that can be done. It would be impossible to list the number of wrong things that could be done in auditing. It would be an infinite list. Every time I thought I had it all straightened out and nobody could possibly make any additional errors of any kind whatsoever, someone would.

So this track called standard technology is a very narrow path, and it's very easy to stray off its edges.

* * * * * * *

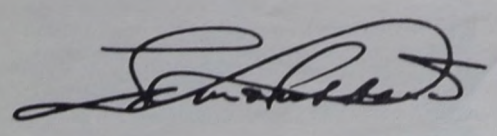

In all those years of experience – and believe me there've been a lot of years of experience on this subject – only certain factors have presented themselves; factors that, each one separately, much less in combination, can totally prevent case gain unless given attention. By definition, this is the super-barrier, these are the super-barriers to the track. These are the girders across the bridge that have fallen down sideways.

And what are these things? They are elementary. They are things that a person cannot possibly audit up against. If these things are out, the auditor has had it. He can't go any further. And these things are communication, problems, overts, ARC breaks and service facsimiles. When you've moved the fellow up that far up the grades he can confront something of his own life and background and so starts moving out on the whole track and moving into the reactive bank itself.

Auditing is done in a highly standard way. It is a very narrow narrow track. It is not a wide track. It is highly beneficial. It has very definite goals, aims and gains.

Therefore the things I've talked about and going non-standard are the things which would bar people from becoming Clear. That's all.

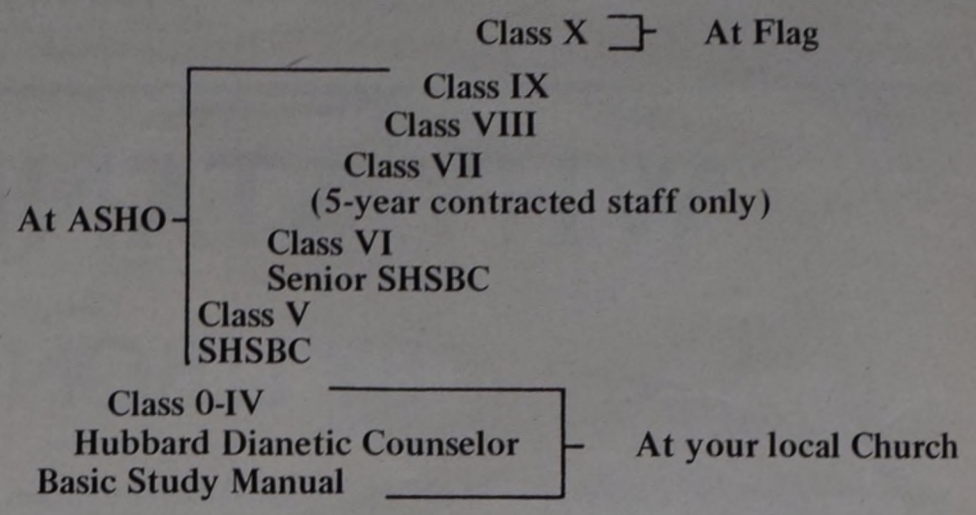

Your own personality added up to the technology and moving on through does the rest of the job. You, a being, are also part of the lineup. And I count on that, and count on your co-operation in pushing it through on a standard line, straight on through to Clear for everybody.

L. RON HUBBARD

(Edited from "The Classification Chart and Auditing," Saint Hill Special Briefing Course lecture of July 26, 1966)

Faster Route to Class X Explained

WHY A FASTER ROUTE?

Demand in society for Scientology tech is growing at an ever-increasing rate. Each of us, as Scientologists, must get as highly trained as possible–faster than ever before.

Being a well-trained auditor also guarantees you a secure livelihood no matter what happens to the rest of the world's economy. There will never be too many auditors! This planet has billions of preclears–an expert auditor is in demand wherever he goes. The faster you can get training, the sooner you can benefit from it. It's that simple.

IT'S EASIER THAN EVER TO LEARN RON'S TECH

Ron's magnificent tech is still the same. You still learn Dianetics on the Hubbard Standard Dianetics Course, Grade processes on 0-IV, basics of auditing and FULL data on grades on the SHSBC, Power Processing on Class VII (if you're 5-year staff or Sea Org), 100% Standard Tech and the confidential secrets of the universe on Class VIII, polish and advanced rundowns on Class IX, and L-10 (the special upper level rundown that unlocks the door to unlimited power, reach and ability for a thetan) on Class X.

But now Ron has made an even smoother gradient to learning it: more doingness at lower levels, more alignment at upper levels.

Co-auditing is still very much a part of today's training route–you may co-audit up to your level as always.

HERE'S WHAT'S NEW

Now you can increase your auditor class *as rapidly as you can complete your training requirements.* There are *no* case requirements anywhere on the training route (excepting only Method One Word Clearing before Level 0).

All that has been removed from the training route is any possibility of *delay.* With all the knowledge of Scientology waiting for you, now YOU don't ever have to wait for IT. You're free to get all the tech you need to be THE BEST–a really top auditor–*fast.*

AND Ron has added a BRAND NEW COURSE to round out the line-up: the SENIOR Saint Hill Special Briefing Course. This course takes 1967-1975 and gives you the same chronological line of development that makes the data on the original SHSBC (1948-1966) so easy to grasp. It also trains you very thoroughly on Ron's new rehabilitation lists.

You will now complete the original SHSBC (which leaves off in 1966) including matching practical as a CLASS V. Then you're ready to start Class VI, with *its* own practical section.

Class VI remains prerequisite to Class VIII as always. Graduates of previous Class VI Courses are not required to do the SENIOR SHSBC to enroll on VIII, but are encouraged to do so as this brings the auditor's tech fully up to present time.

C/S TRAINING STREAMLINED

Now you can shoot up to Class VIII and then do the Class VIII Case Supervisor Course (HSST)–lower level C/S Courses are no longer prerequisite.

The Class VIII C/S Course makes you a 100% Standard Tech C/S for all actions before Power Processing.

All C/S Courses have been streamlined to emphasize application. Donations are confirmed the same as before at $250 for Dianetics, $500 for Class IV, $650 for Class VI, $500 for Class VIII.

CLASS X

When you finish your Class IX Internship at ASHO, you can now go to Flag for Class X! This course, previously available only to Sea Org Auditors, is now open to any Class IX.

DONATIONS SIMPLIFIED

The SHSBC, after more than 14 years, is still $775. The new SENIOR SHSBC, patterned after it, is also set at $775. Class VIII and IX, though both greatly refined and improved are still each $1500.

Internships have been smoothed out even more with the aim of total perfection at each level, but donations will remain unchanged. (Dianetics, $125; Class IV, $250; Class VI (includes lower level internships if not already done), $375; Class VIII, IX: $375 each.)

Many years ago, Solo and Grade VI materials were part of Class VI training. As this has not been true since 1972, the special offer of free Grade VI is now terminated. Class VI Graduates will receive all Grade VI materials and free, superb C/Sing throughout Grade VI at AO along with their Solo Course donation of $775.

50% POWER DISCOUNT PACKAGE RESTORED!

The 50% Discount on Power Processing awarded those studying toward Class VI is now fully restored! Anyone who takes the Class V and VI training package is again eligible for 50% Discount on his Power Processing.

VALUE OF TRAINING

Training, as always, is an essential part of smooth, sure, stable clearing. Training is still by far the cheapest way to get all your auditing up to Grade IV.

The training route is the route to understanding and honest ability to handle life.

Training gains are yours forever. You can't be fooled by the reactive mind once you understand it. And when the chips are down, if you're trained you can always assume a cause point and start moving things up again.

To get all the tech Ron has discovered–for unlimited personal ability and freedom–get trained all the way as well as audited. *Now is the time.* Take your next step to Class X today!

In the end, when the planet's Clear, you'll be able to say YOU helped.

ASHO LEADS THE WAY TO RON'S GOLDEN ERA OF TECH

Success on Upper Level Training

Class VIII students hard at work. (Seated, from left: Anne Pfanner, Ann Irgens, Jeff Mintz. Row behind supervisor: David Stokes, Linda Larson.)

A Golden Era of Tech takes highly trained auditors and case supervisors delivering Standard Tech across the world.

Here are a few successes from recent ASHO graduates–going out now to do just that.

CLASS V AND VI

The SHSBC was the most magnificent experience of my life. I feel for the first time that I really connected up to Source and have total certainty on the tech and on the game of Scientology. I know why I'm here and this course hatted me as a being, as a Scientologist, as an auditor, as a planet clearer. I feel natural and good and right about all the above beingnesses I can DO and I know I can do in these areas and the biggest win is that I am willing to be responsible for the truth LRH has given me.

LIZ BURGESS, Saint Hill Special Briefing Course Graduate, Hawaii

I got onto the Briefing Course to learn how to audit–or so I thought! What I learned is what auditing IS and how the bank works and how and why auditing works.

Now I know how to audit, because how to audit is answered in the above! And I get results!

JON ZEGAL, Saint Hill Special Briefing Course Graduate, Delaware Valley

It's really great to pass TV Demonstration auditing. There is no withhold as to whether or not it is done right!

BRYON GILLIKEN, Saint Hill Special Briefing Course Student, Twin Cities

Today is the BIG Day! I am a Class VI Auditor. I never dreamed so much truth could be in one place. ASHO has been so safe and so standard my thanks to all the staff could not be big enough.

I am amazed how little I knew as an interned Class IV. Coming onto this course I thought I had a vast amount of knowledge. In comparison to what I now know it seems only a drop in an ocean.

My life, my abilities as an auditor and an individual are so much greater, I now really know what I am doing and WHY. My understanding of my fellow man has risen to heights I never knew possible.

This course is the answer to questions philosophers have been debating for eons. I feel very honored and privileged to have walked the road with Ron.

SHER WARREN, Class VI, San Francisco

CLASS VIII

My life has changed. I am no longer in mystery about any preclear's case. I know exactly what he is doing,why he is doing it and what I can do to handle it.

My dream has come true. My questions have been answered.

PENNY ATWELL, Class VIII Graduate, Los Angeles

The Class VIII Course is without a doubt the most rewarding thing I've ever done. I have gone through more changes in awareness, certainty and understanding than I knew were possible in one lifetime.

I feel extremely powerful and totally serene in the understanding and application of Standard Tech. My knowingness as a thetan has been validated. The tech is my own and I'm with Ron!

LINDA LARSON, Class VIII Graduate, Los Angeles

The Class VIII Course will always be something special for me. I have totally changed my attitude toward standard tech and life. If I could have known what was there I would have done Class VIII long ago. But to totally understand it and really know it, you have to do it.

So many complexities have dropped from my operating basis.

R.G., Class VIII Graduate, Walnut Creek, Ca.

Passing a theory test with a grade of 100% in 100% Standard Tech is an incredibly beautiful experience. I knew the exact correct answer to every question without any flinch or hesitation. That to me is a preview of how my auditing will be from now on–always 100% spot on.

LARRY DAHLKVIST, Class VIII Graduate Palo Alto, California

Think of something very simple you know you can do well. Now imagine having that simplicity and certainty as your viewpoint 100% of the time toward the technology that will free beings. That's the gift Ron has waiting for you on the Class VIII Course.

This course gives you the viewpoint of truth so strongly nothing can shake it.

SHARON BESIO, Class VIII Graduate, Davis, California

It's been 3 years since I finished the Briefing Course. If I really had known how good Class VIII was I would have been on it 3 years ago.

Having a complete knowledge and understanding of the Technology and total certainty in my ability to apply it standardly gives me a feeling of power and stability I have never felt before.

It doesn't stop there. Once you can achieve this in one area all other areas in life begin to align and be at your command.

TERRY MORRILL, Class VIII Graduate, Pasadena

I feel great! This course really put it all together for me. There is a Standard Way.

There is an exact reason.

All the wins Ron speaks of are there if it's done right. The course is tough and that's how it should be. When you finish Class VIII you have a new viewpoint on life, help and the future. This is my biggest win as a Scientologist.

E. J. STEINKE, Class VIII Graduate, Los Gatos, California

CLASS IX

The thing I really liked about the Class IX Course was reading all the folders C/Sed by Ron and seeing how he developed many of the rundowns now commonly done.

The course covers a lot of areas that can really bug a case. Understanding these and being able to fully handle them resulted in a great certainty on standard tech for me. Every auditor should do the IX Course!

WENDY NEGLEY, Class IX Graduate, San Francisco, California

Class VIII student Doc Collins shows classmate Barbara Glass (from Las Vegas) where his name will go on ASHO's Honor Roll of Class VIII Graduates!

Dream Coming True

Dr. ALLEN COLLINS just graduated as a Class VI at ASHO and is now achieving his dream since 1968 to become a Class VIII.

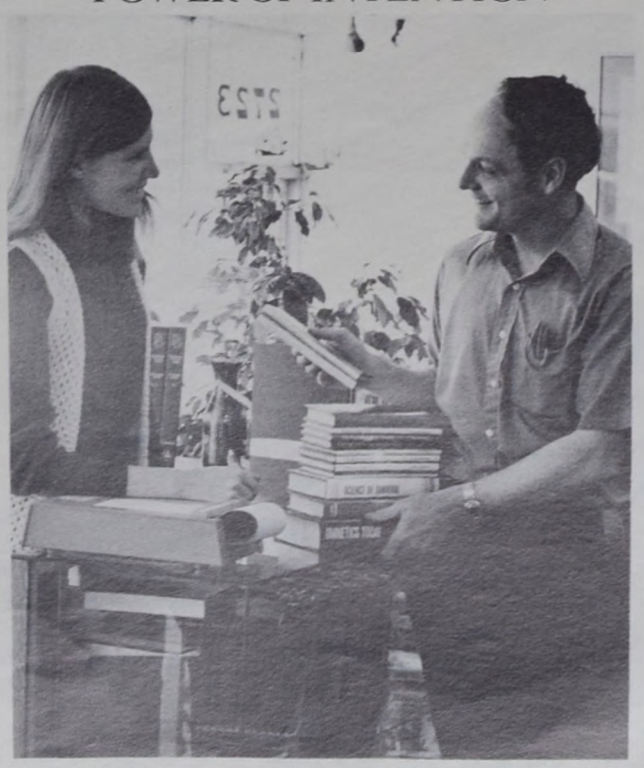

"Doc" is an orthodontist from Michigan who routinely used Dianetics to assist him in handling his young patients when they felt faint or very frightened."I also found just being in good communication helped a lot," he comments.

But though an OT VII and doing very well in his practice, he realized he wasn't doing all he wanted to do in Scientology. "I was handicapped because I wasn't highly trained," he explains.

So in 1974 he gave away all his dental equipment and came to ASHO for full time upper level auditor training.

After finishing Class VIII, his internships and case supervisor training, he'll be starting his new career as a professional Scientologist!

ENGINEER DISCOVERS POWER OF INTENTION

Briefing Course student Lynn Ross buys his books at the ASHO bookstore.

LYNN ROSS, Industrial Engineer for General Motors' Buick Division in Flint, Michigan, is now at ASHO on the Saint Hill Special Briefing Course.

Last year he decided he really wanted to come out for the Briefing Course in 1975, but couldn't get a leave of absence approved (even at no pay). Then almost exactly when he'd wanted to come out, he was suddenly laid off – free to do the Briefing Course full time just when he planned, at 75% of his normal pay!

"Since getting into Scientology I have much more ability to control areas I'm assigned to," he reports. In 1973, right after Grade I (Problems) Release, he tackled a hidden confusion within the company's operations that had been going on for nearly 20 years. With his training as a Class IV Auditor, he straightened it out completely in just over a year, saving several hundred thousand dollars annually.

...OUND THE WORLD

More than 70,000 Indiana listeners will miss the weekly editorials from Clear 440 CHARLES DUNN (Vice President of Eastern Broadcasting Corp. and General Manager of WHUT and WLHN) while he's on a 2-year leave of absence at ASHO training to Class IX.

The whole Dunn Family is living at the Manor while training at ASHO. At right, Claire and daughter Shaylee play a duet.

SCIENTOLOGY APPLIED IN BROADCASTING

Clear 440 CHARLES DUNN, now at ASHO training to Class IX, found Scientology to be the key to his success as Vice President of the Eastern Broadcasting Corporation.

He first learned of Dianetics in 1950 from his brother TED DUNN, then an electrical engineer, but it just seemed too good to be true. Then in 1964, he began having trouble handling one of his radio announcers in Virginia, so he dropped in on Washington D.C.'s Church of Scientology for some advice. He bought *Science of Survival*–he applied it and it worked!

Soon he and his wife CLAIRE began going to Scientology Congresses, and Charlie took an Executive Course in Washington.

When his company acquired WHUT in Anderson, Indiana, Charlie and his wife were called in to straighten it out. Using what he'd learned on course and applying *Problems of Work* and *How to Live Though an Executive*, he quickly started putting in order. WHUT became such a success the company was granted a license to build a new 50,000 watt FM station in Anderson.

Charlie became general manager for both stations and kept on applying Scientology. The result: success! His boss (the company's president) called it a textbook example of the perfect way to launch a radio station.

Through his interest in Scientology and playing Ron's lecture tapes at home, a group gathered which is today the Anderson Scientology Mission. He also became very active in the community after going Clear in 1967 including serving on the Board of Directors of the Red Cross and Boys Club and last year running the county Junior Achievement Program.

Now he and his family are in L.A. for full-time training. He and his wife are going straight through to Class IX, and Charlie also plans the Org Exec Course and Flag Executive Briefing Course while at ASHO.

Clear 4613 JOHN RYAN ("The Chicago Kid") enjoys horseback riding in his spare time.

GOLD RECORD WINNER TO DO BRIEFING COURSE

Styx II, first album produced solely by OT V JOHN RYAN, was certified a gold record the last week of April 1975! The million-dollar seller includes the hit single "Lady."

John went Clear February 8th this year, and the record hit the top ten that same week!

"Knowing Scientology," says John, "you can hook up with people in the industry who are in power and can complete cycles of action–instead of people who are going to drag you down. Groups I was with before Scientology were good, but none of them ever got a record contract, and sooner or later they just broke up."

Now he uses his auditor training (he's a permanent Hubbard Dianetic Counselor) constantly to handle the group, plus Scientology ethics and administrative tech. These days he has so many contract opportunities the only hard part is deciding which to take!

John's next big project is the Saint Hill Special Briefing Course, which he will shortly be doing full time at ASHO.

HAPPIER FAMILY SINCE SCIENTOLOGY

CLAIRE DUNN (Clear 4548) is training to Class IX along with her husband Charlie at ASHO. "Our whole family really went together after we got started in Scientology," she says. "I used to have a terrible temper, but now I can confront things a lot more calmly."

As a result of using Scientology, their son Buddy went to school 5 years without a single day absent, and their daughter Shaylee for 3 years. Both are now on the Hubbard Qualified Scientologist Course after school.

Claire had stopped playing the flute when she settled down to be a busy wife as well as the office manager for the radio stations Charlie was running. Then, after Power Processing years later in 1968, she auditioned for the Anderson Symphony–and she made it! "I just knew I could do it," she smiles. "Power made me feel so much more confident on stage."

CHURCH NEWS

NEW CHURCH OPENS IN ILLINOIS

Some of the new Illinois Church staff, clockwise: Dave Parker, Bill Meehan, Jack Terrell, Lyle Norman, Class VI Ed Mooney.

On April 25, 1974, 45 people came to hear the first introductory lecture, given by Class VIII ALAN WALTER, at the new Chicago Forming Church. Forty-two of those people signed up for their first course right then!

Expansion has been steady ever since. On March 13, 1975, the Church of Scientology of Illinois took on official status!

Located at 1555 Maple, Evanston, Illinois (a suburb of Chicago), the Church has created a stir of interest among students at Northwestern University nearby.

DAVE PARKER, Saint Hill Special Briefing Course student, backed up by MELANIE SEIDLER (now on VIII Course at ASHO), JACK TERRELL (Hubbard Professional Course Supervisor trained at ASHO), and ED MOONEY (Class VI, ASHO trained) are leading 38 more staff to deliver Scientology in Illinois.

PENNSYLVANIA JOINS GROWING CHURCH LIST

Also in March of this year, the Main-line Mission in Pennsylvania became an official Church of Scientology!

Address is the same at 8 W. Lancaster, Ardmore, Pennsylvania.

CLASS VI GAYLE ZISON is home from ASHO now to help out Executive Director BUTCH CLARKSON there.

HAWAII

CLASS VI PAM MONIZ is back in Hawaii as Case Supervisor getting more auditing delivered than ever before in Hawaii Church history! Permanent CLASS VI DAVID MOORE returned from ASHO in late February, followed by CLASS VI C/S TIM MELCHIOR. Auditor AL MONIZ is now at ASHO doing the Saint Hill Special Briefing Course.

ORANGE COUNTY

L. RON HUBBARD PLAZA

May 10, 1975 the Mayor of Tustin unveiled a huge gold-lettered sign dedicating a 2-acre complex as L. Ron Hubbard Plaza! The ceremony was attended by the Chairman of the Chamber of Commerce, several other city leaders, and 200 citizens.

Scientology Orange County occupies 55% of the office spaces, with local professionals and businesses leasing the rest. The Mayor will be moving his own offices next to those of Class VI Raymond Kemp, Director of the mission, to better avail himself of his counsel and assistance.

Earlier this year, the Tustin Mayor proclaimed February 24, 1975 "Scientology Day"! His proclamation urged all citizens to become aware of Scientology training. Part of it reads: "The founder, L. Ron Hubbard, writer and philosopher, has created the only complete and standardized technology which is in use today with 100% effectiveness for people to help themselves and others."

FOCUS ON SUCCESS

HIGHLY TRAINED AUDITORS GET RESULTS

Dramatic Assist

I was walking to lunch when suddenly I heard the screech of breaks and a crash. I looked up and saw my friend Brian Crum flying from his motorcycle over the hood of a car–landing 10 feet past it in the street.

I rushed over and had people stay back and be quiet. His body was twisted around in a pool of blood and I thought at first he was dead.

A few moments later DAVID STOKES, a recent Class VIII graduate, drove up. Sue Mustard was with me and we told him quickly what had happened. He immediately took control and told her to call an ambulance while he did an assist.

As he did the assist, Brian became more aware and soon was propping himself up on his elbow, wiping the blood from his face, starting to talk–such a change from only 10 minutes before!

David knew exactly the right thing to do, and he just did it with no effort at all.

SHERRY BROWN, Los Angeles

My own feeling about it is that a trained auditor is there to help and should help at any opportunity. I'm glad I was there and thankful for my training. I've observed that in these situations Scientologists act rather than react.

DAVID STOKES, Class VIII

Class VII Mark Elstner looks on as Tom Walmer and Peter Harper do a training drill.

Results Times Thirty

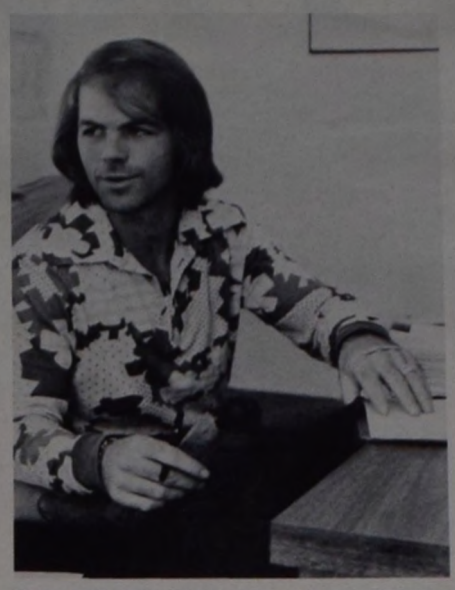

In 1971 I was seriously wondering where I was going with my life. Why did I do things I knew weren't quite right? Why did I have so much uncertainty? Then I read Dianetics, Modern Science of Mental Health. *Suddenly I could see what was going on with myself and others. Life became much simpler.*

I continued to get trained and processed and became the technical case supervisor in Washington. Then I went to ASHO for the Saint Hill Special Briefing Course and Class VII. After that, I knew I could handle any case with Standard Tech.

Within a very short time I was promoted to Senior C/S.

As a Case Supervisor you have the satisfaction of getting Ron's tech applied standardly by another auditor. When you're doing that with 30 preclears and their auditors every day and getting RESULTS, the personal rewards are very great.

MARK ELSTNER, Class VII
Washington, D.C.

Class VIII John Welsh finds his job effortless since his training.

EFFORTLESS COMPETENCE

I've found one of the biggest parts of Case Supervision is the willingness to be totally responsible for the preclear, from the moment he walks in the door to the moment he leaves as a shining Grade IV Release. I would never have been willing or able to confront that much responsibility without my upper level auditor and C/S training at ASHO.

My auditor training showed me that as a Class VIII, Expanded Dianetics auditor there were no cases that couldn't be handled with Standard Tech. I know that if I can handle a preclear through my own use of Ron's Standard Tech, I can expect the same of the auditors I supervise.

I've had many, many wins as the technical C/S in Miami since coming back from ASHO. I had an auditor do three sessions on a preclear until he finally found ALL of his misunderstoods and could now run Dianetics. I applied Expanded Dianetics data to uncover the exact trouble on a case (a whole area of second dynamic aberration that had been left untouched by previous handling). That's just a couple.

The business of parallelling the minds of thetans is a highly rewarding one. I have gained the respect of my fellow staff members and our preclears.

Like any job, to be a C/S you have to be well trained. The people at ASHO delivered the goods and made sure I really had the abilities I needed to succeed.

JOHN WELSH, Class VIII, Miami

RESPONSIBILITY

I saw a group of young boys marking on a neighbor's wall and garage.

I went out of our house and knowing exactly what would be an acceptable communication, yelled at them exactly on their reality level. I didn't do it as a far distant, attacking adult, but by knowing what their reality was I was able to communicate in such a way that affinity was established.

Next day they knocked on the owner's door and said they wanted to clean off the wall and garage!
