THE REASON FOR LEVELS

by L. Ron Hubbard

The reason for levels originally was to stretch out auditors into what they were capable of getting results with. The first attention was on auditors.

It quickly passed from there over to the realization that we were looking at why pcs didn't make good progress – because they hadn't come up through the line. There are technical reasons why cases progress up the levels and should progress up the levels, and they are very solid, sound technical reasons.

The levels are not particularly popular because people have got it mixed up with class consciousness and everybody wants to be equal. Well, I'll tell you what equality to achieve – the equality to achieve is OT.

THE POWER OF CHOICE

Man is sinking down into just a food animal. He has long thought of himself as a spiritual being with great pride and dignity, then a bunch of revolutionary nuts jumped up in the late part of the 19th century and said, "We have made a new discovery – you're meat. You're nothing but a brain. The way you perceive is a bunch of cells that click against a bunch of cells and this shows against some kind of a screen and this analyzes the new thought. Then this gives you a reaction and the man thinks he thinks, and acts in some stimulus-response fashion."

They have made man into a stimulus-response animal and they are trying to handle him that way governmentally and with advertising, and they are going to have an awful lot of failures because there is a big lie on the line. He's *not* a stimulus-response animal. There is always, no matter to what tiny degree, this power of choice.

When an individual shows this item called power of choice, they concede it to be an irregularity. They think that this individual is now going to conduct himself irregularly. This is against the hidden standard that the plans he was given were right.

The ideal state has never been laid down, and never will be. Absolutes are unobtainable, and that absolute perfection is unobtainable. The reason for that is that you're not dealing with a total carbon copy being to being to being to being. So who would be the judge when the absolute had been attained? We always have some tiny disagreement on that.

That Man is capable of his own judgement keeps the absolute from being attained.

INTEGRITY

All the way down the line, the individual never totally loses his individuality. It doesn't matter how many lead boots you subject him to, how many rats you have in the warm brass jar running around on his stomach trying to get out. It doesn't matter how much economic duress you put him under. Somebody all of a sudden stands up and bares his chest to the bullets – "Go ahead and torture me, go ahead and shoot me. The hell with you."

They say, "Well now, Joe, that's not a reasonable attitude. Do you realize you can be tortured for 8764 days and you can be incarcerated and imprisoned, all your wives and children can be executed out of hand and the whole society will be destroyed? You weigh up all these consequences." And he says, "My answer to that, bud, is shoot me, torture me, put me in jail, but I won't say yes."

The hell of it is, everybody admires him. They recognize this as the last resort of a thetan which is integrity. Integrity to himself.

Even the Russian in propagandizing his own revolution could only make motion pictures of great heroes of the people. All they could do was deify individualism and integrity.

RULES

It is not possible, then, to attain an absolute in terms of conduct by making everybody conform to Rule A and to attain this absolute by denying him continuously and by duress any judgement or initiative with regard to Rule A.

There are two things that make managers or supervisors fight this. One is the person who, before he knows Rule A is very prone to violate it because he doesn't even know what he is violating. He isn't going to get any result, get anything done or make a factory run because he doesn't even know there could be a Rule A.

Now, look at this difference. He knows Rule A and becomes very good at Rule A, knows why it's there and how to excercise it, and he does something else. He gets away with it, and it works. It's not a mutiny, it's an improvement. He can keep the agreement in with Rule A and still exercise his freedom of choice with regard to other factors in relationship to Rule A. It takes a very well-trained, skilled fellow to do that.

In auditing, if you took somebody in your HAS Class and said, "You don't really have to follow the comm cycle," you aren't going to get any auditing done at all.

Let's take the middle area of auditor training, Level 2, 3 and so on. At that level you have to be pretty careful that the auditing cycle is really followed. Now, the reason he is following it is he knows what it is. He knows why he has to follow it, and what results he gets when he does follow it. He is very expert with the auditing cycle. He doesn't even think about using the auditing cycle, he thinks about the pc.

Now you take him on upstairs into very very skilled, very experienced auditing. A very odd thing about it is that occasionally one violates the auditing cycle. Of course, you have to be an awfully skilled auditor to do that. You find out the pc is answering this question, giving you answer after answer after answer. You've just hit some kind of a line charge on the thing, and if you say YES and THANK YOU every time he gave you one of these answers, it would stop him cold in his tracks. You see this thing blowing, so you just sit there and let it blow, and you give him a little wink of the eye and a nod and so forth. He's got different things in his auditing cycle. He uses his auditing cycle.

SKILL

How well do you have to know the rules in order to follow them with variations? That is what gets interesting about all of this, and there is where the person comes a cropper who is trying to learn some subject or trying to follow out some industrial plan.

This happened one time down in South China when they were trying to

SPECIAL BRIEFING COURSE

BY L. RON HUBBARD

The Saint Hill Special Briefing Course has certain distinct purposes.

The course was begun to do two things:

1. To study and resolve training and education;
2. To assist people who wanted to perfect their Scientology.

There has been no change in these purposes.

The first is succeeding very well. The second is achieving world wide recognition through people who have been here.

THE REASON FOR LEVELS

Continued from front page

industrialize. A new American manager went through the plant and saw this old Chinese standing at this bandsaw sawing out pieces of tin that were to make tin cans. He saw no guard on the table, so he said, "where is that guard?" and the old Chinese workman said, "There's a guard down underneath the table there." He says, "Make sure it's on the machine."

So he picked it up and put it on the machine. He came through the next day and the guard was back underneath the table, so he got hold of the interpreter and the foremen and he said, "I want that guard on the table of that bandsaw because somebody's going to cut their hand off on the bandsaw, and that guard prevents them from cutting their hand off." He explained it all to them with terrific rationale and reason, and they put the guard back on the table.

He came through on his inspection the next day and the guard was underneath the table. Well the end of the story is that after the seventh or eighth day of the same performance he just walked on by the bandsaw table without mentioning the absence of the guard. The old Chinese had won.

The sense of the thing is that he had a highly skilled workman there who could have probably sawed tin into scallops and scrolls and done anything else he wanted to do with this saw, and of course this guard was for some knuckleheaded kid. The necessity of this guard was absolutely nonexistant. He had been working it for five or six years and he still had all of his fingers, hands and arms.

So it requires sense from the person who is handing out or enforcing the rules, and it requires skill, observation and judgement on the other side to make anything work, simply because there are no perfect solutions.

When a management makes no differentiation between these two reasons for variation, then judgement is denied the individual, and from that point on you really get in trouble.

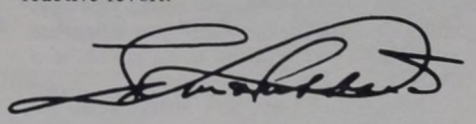

You can handle that first guy – sheer stupidity – with a certain amount of coercion, a certain amount of persuasion, to get him through that point and make him see that there is something there. The pc is getting no better, but the auditor hasn't observed the fact that he isn't following the comm cycle. A certain amount of coercion or persuasion is necessary at this point to trace the source and cause of this no action in the auditing session.

Now the instructor who calls to the attention of a Class VI Auditor, whose pc was running like a startled gazelle, that he was not following the auditing cycle would be pure idiocy. This fellow is following as much of the auditing cycle as is necessary to resolve a case. He's using it with judgement.

So *does* a person know his business or *doesn't* he is what has to be decided. This is decided on the basis of results. Is the person obtaining his results or isn't he?

THE LEVELS

Those are the levels, those are the reasons for the levels, and the individual who revolts against what you are trying to do doesn't understand what you're trying to do. Well, give him some chance to find out what you're trying to do. Let him get his feet wet before you throw him into the icy drink. Let him get some familiarity on it, and if any variations occur as you go up the level, that can be from the level of intelligence and self-determinism rather than merely from reactive revolt.

WHAT IT MEANS TO BE A SAINT HILL SPECIAL BRIEFING COURSE GRADUATE

CLASS VI DENNIS PERO demonstrates his understanding for classmate CLASS VI MELANIE SEIDLER on the Class VIII Course.

CLASS VI DIANA LUCARINO confidently looks over the requirements for her Class VI Internship at ASHO.

Class VI Graduates from ASHO tell what it has meant to them:

DREAM REKINDLED

Listening to those 365 lecture tapes is like being audited by Ron for 500 hours! It gave me hope that change CAN occur on this planet–because now I know how to cause it.

I turned down a $50,000 a year job to come out and do the Briefing Course, and recently I turned down the opportunity to go back and start earning $400 a day. I would never consider doing anything else but auditing at this time. An old dream of mine that had died a long time ago has been rekindled.

MIKE MILLER, Class VI Auditor on Class VI Internship

EFFORTLESS COMMAND OF TECH

Ever since I did the Briefing Course, I've noticed how effortless it is to audit. I can confront what's going on in the session and not back off the way I used to–I KNOW what's happening and exactly how to handle it.

CAROL HOMAN, Class VI Auditor

UNDERSTANDING PEOPLE

As a Briefing Course graduate, I have such a full understanding of people and their motivations that it amazes even me! It's as if I've been reborn with a new pair of eyes. I can see the "junk" people are sitting in and dramatizing, and I can see the being–encrusted and submerged, but there, and struggling to get free.

It helps so much to have the Briefing Course tech that I often wonder how I got along with people when I didn't have all this data. The truth is, I didn't get along with people. I just moved through time and space in a kind of daze. Robotic. Engulfed in my own ignorance and unawareness.

Now, with the whole history of Ron's tech travelling with me, it is a vastly different game! Like the difference between fog and a bright spring day.

STAN CHAPMAN, Class VI Auditor

CONSISTENT SUCCESS

I did the Saint Hill Special Briefing Course at ASHO six years ago. Since then I've been a consistently successful auditor with certainty and confidence in my ability to handle anyone's case.

Currently I audit 40 to 50 hours a week and I'm always having new cognitions on the processes I audit. I can't imagine ever getting bored with auditing. It's the most rewarding and enjoyable game I know of.

RICHARD COLEMAN, Class VIII Davis, California

CERTAINTY

I've grown to really know Ron and the tech he has developed for us. My certainty as an auditor has gone out the top. This course is so much more than knowing how to audit; it is knowing truth and having the data to live!

I've come to realize the responsibility of having the tech and seeing it is applied standardly and effectively.

NEAL FRANSON, Class VI on Class VI Internship from Pasadena

RESULTS

I was a professional social worker before Scientology. I had status in the community and an excellent salary. But I have never felt as productive in bettering my group and Mankind as I have the last several months since I finished my internship as a Class VI.

Individuals come into my auditing room every day and they leave lighter and happier, less aberrated. A few years ago I would never have dreamed of such results.

PEG BARNES, Permanent Class VI Davis, California

KNOWLEDGE

As a child I used to speculate on a profession that would not only be self-expansive, but would help others along the way to Truth.

It has been exactly one year since I completed my Class VI internship. This has been the most causative year in many eons. The knowledge I gained from Ron on the Briefing Course has allowed me to broaden my reach and interest in all areas of life.

As an auditor my understanding of processes and the mind has been greatly increased, thus my results have been fantastic. I simply know what I am working with.

As a group member I've been able to effectively hold every hat as needed and function in it by applying the organizational data on the SHSBC.

The Tech that I once knew about, I now KNOW, and apply naturally.

I have reached my goal. I've connected up with the knowledge that has led me to achievement of personal power and allowed me to help others reach their full potential.

MARK SILBER, Permanent Class VI Palo Alto

ABILITY TO AUDIT

I did the Briefing Course mostly because Ron put it there and wanted Class VIs. Now that I've completed it, I see any Class IV who really wants to be a great auditor needs to do it.

Auditing with confidence and perfection is a product of the Briefing Course. Class IVs owe it to themselves, their preclears and to Ron to be the best they can be.

If I could do it over I'd change only one thing–I'd come to ASHO sooner. But now that I'm done I'm sure glad I did it. I feel great.

SANDY HANNA, Class VI

KNOWING HOW TO HELP

Class VI is a higher awareness as an auditor, as a Scientologist, as a person.

On the Briefing Course I learned what Scientology is all about. The certainty and confidence I have as a Class VI is much different than when I was a Class IV. There is no question on the workability of the tech when you've seen it developed from the beginning right along with Ron. I go into session now knowing what I'm going to do will work, get agreement from my preclear that we're working together to handle his bank, then just get right into it. It's an incredibly powerful feeling knowing you can and are helping other thetans go free.

My ability to handle life was the most exciting win. In the auditing chair, you've got your set of rules all laid out. There are only so many things that can happen because you have a lot of control over it. But out in the world, a lot of different things can happen. I have really noticed a major change in my ability to handle situations.

DIANA LUCARINO, Class VI now on Class VI Internship

EXPANSION

AT OT IV, I knew I was stable. But there were always little "soft spots" in my environment and in my universe. After I did the Briefing Course those soft spots weren't there anymore.

Doing the Briefing Course after my Academy levels was like looking out of a broomcloset into all this immense space. This is where you really learn to be an auditor.

DR. ARNOLD BARRACK, Class VI Permanent (now on Class VIII Course)

STEPPING STONE TO CLASS VIII

You are a professional auditor when you graduate as a Class VI. But I don't like to do things halfway–so I went on to Class VIII.

I discovered that was what I really came to ASHO to do. On the VIII Course Ron lays out the correct evaluation of importances of all the Briefing Course data, and that makes it very simple.

DENNIS PERO, Permanent Class VI from Las Vegas, now on Class VIII

COMPETENCE

Finishing the Briefing Course is the greatest experience of my life. I really feel competent and very close to source.

We have a big job to do to help Ron clear the planet. It's not an overnight cycle. So my postulate to you is that you train and help to free people because an auditor is the only one capable of doing that.

OT MUSIC TEACHER

After getting his Power Processing at ASHO and then going on to OT III, BILL NICOLOSI returned to his school district near San Jose to start an award-winning jazz band.

The band, made up of middle school age musicians, is run after school hours for elementary students. School district support is growing, reports Bill, and students are enthusiastic about it. Several have noticeably improved in their self-image and extroversion as a result of participating.

This past spring they won the Gavilan College Jazz Festival Junior High Division award! Bill attributes much of their success to his ability as an OT to project intention and create a safe space.

CHICAGO

Enthusiastic students heard more about what it means to be a Briefing Course Graduate from CLASS VIII E. J. STEINKE who was there June 7th to show the ASHO Slide Show. MIKE WALKER, CLASS IV C/S, has returned from his ASHO training to take over C/Sing.

3/4 MILLION DOLLARS IN 3 YEARS!

Three years ago, POWER RELEASE RANDY PARSONS in New York started "Loftcraft" to make a new kind of furniture that puts a bed near the ceiling and leaves free living space underneath. By using Scientology administrative tech from Ron's Org Exec Course volumes, Randy was able to expand gross sales to $75,000 in 1973, then $350,000 in 1974. 1975's sales are already over the end of 1974!

Loftcraft has received quite a bit of publicity in newspapers and magazines around the country for their innovations. They were recently featured on ABC TV Eye Witness News, and their products have appeared as prizes on a well known national TV game show.

OT II, Class IV Auditor GEORGE GOODRICH, Marketing Secretary, was responsible for doubling sales his first 6 months. George, a high school drop out with no marketing education, explains his success this way: "When you're trained and experienced in Scientology, your understanding of life and people makes this easy." His wife, CLASS VI DINA GOODRICH, returned to New York Church staff in late 1974. George will be out for his Briefing Course in several months.

About 50 Scientologists, many of them auditors, and almost all on current training or processing, work with the company.

Deputy Director JOHN PISCIOTTA has just finished receiving auditing at ASHO from CLASS VI DON FREEDMAN. RANDY plans to start his own Briefing Course training at ASHO this fall.

In 1976, George and Randy will be turning their attention to setting up Scientology missions in the New York area.

UND THE WORLD

JUDY NORTON finds it easy now to act out any emotional tone! She appears as Mary Ellen Walton in this film clip from the popular TV show. (Courtesy of *The Waltons.)*

TV STAR TRAINS TO VI

CLEAR 4473 JUDY NORTON, who launched her TV career immediately after becoming a Scientologist, is now doing her Dianetic Internship at the Los Angeles Church in preparation for the Saint Hill Special Briefing Course and Senior Briefing Course.

Although acting professionally for 10 years, it was while she was on her first Scientology course that she won her first major TV role. "It had a lot to do with my improved ability to communicate," she says. That was in 1971, and she has been appearing as Mary Ellen Walton in the very popular night time series, "The Waltons," ever since.

Audited mainly by Class VIs, she quickly attained the state of OT IV. She plans to become fully trained as an auditor and case supervisor herself, while she continues to advance her acting career.

"Knowing so much more about people has enabled me to take any character I'm doing and really duplicate what would be expected in the scene," she remarks. "I find it very easy to work with people now that I'm an auditor."

CLASS VI SOLVES READING PROBLEM

CLASS VI CAM SMITH SOLARI just finished a project in a Los Angeles public school using L. Ron Hubbard's study tech to help third graders.

The sixteen students who took part were all having a great deal of trouble learning to read. Cam applied Ron's study tech so successfully that by the end of the year, the class had written and illustrated their very own book! They called it "Our Class Book, the Greatest Stories in the World."

Comm Course in Mental Health Center

CARLA MILLER, Hubbard Dianetic Counselor and Grade IV Release, and BARRY JAYE, Class IV Auditor and OT II, have just returned from giving a very successful communications course in a Tennessee Mental Health Center.

At the request of DR. JAMES BRYAN, former psychiatrist and now Scientologist, the Center's director had investigated various approaches to handling drug abuse and found the techniques of L. Ron Hubbard had been most effective.

Carla and Barry began supervising the course in October 1974 with eight students, which quickly grew by 40 more. Their success in helping participants to more capably handle their lives and problems was highly praised by the center's personnel.

Many enrollees had had long previous psychiatric or institutional histories and most had been on drug medications. Over 60% successfully completed the course.

Barry is now back in L.A. to do the Saint Hill Special Briefing Course.

TOM JEFFERSON looks forward to his next taped lecture by Ron on the Briefing Course.

Golf Pro to be Briefing Course Grad

Successful golf pro TOM JEFFERSON decided he wanted to do more than help people play better golf, so he started getting his auditor training in earnest. He has just graduated as a Class V Auditor and is now working toward Class VI.

EDDIE WALTERS (now a permanent Class VI) introduced him to Scientology in 1970. Tom avidly read 7 Scientology books in his first 5 days!

Since, he has sold several hundred books through his contacts on the golf course. He uses Ron's tech when teaching, which has made it very easy. He's also disseminated Scientology to 25 golfers now on the pro circuit.

Playing with celebrities as he often does, he finds they tell him what's bothering them some time in the game. After his Class VI Internship he'll be opening his own Scientology Mission – "I like to be able to have the person sit down, pick up the cans, and give him a session."

"A cocky golf pro is the one who wins," he observes. "The one who's in fear or doubt is always a loser. An auditor is the same. The Briefing Course gives you that polish–you know you can take anybody in session and not worry about it."

DISSEMINATION WIN IN CANADA

SYLVAN GOULET, Grade IV Release coming to ASHO soon for his Power Processing, put new life into his youth group earlier this year.

Sylvan is regional coordinator for "Direction Jeunesse," a government sponsored group for French-speaking youth in Ontario. Noting lack of communication between those in small towns and suburbs of Ottawa, he arranged a special Communication Course at the Ottawa Church.

Thirty eight students came! Friendships and plans for new group activities grew as communication improved.

Two of the students, PIERRE ARPIN and DARQUISE LaLONDE, are joining staff at the Ottawa Church for the summer!

LEADING AGENCY

Within 6 months, several Scientologists have created Buffalo New York's largest rental agency. Using Scientology from the Org Exec Course volumes, they have increased their statistics by fourteen times since January!

The all-Scientology staff (about 30-35 people) is directed by GRADE IV ROBERT FLOAT (owner), and OT IV RALPH GUASTEFERRO, GRADE IV TOM PACHOKZAK, GRADE IV MICK THOMPSON.

"Red Giant," as the group is called, has already sent nearly 25 new people to the Buffalo Church of Scientology so far.

(Left to right) Tom Pacholczak, Ralph Guasteferro, Mick Thompson, Bob Float, Mary Float go over expansion plans for their successful rental agency.

FOCUS ON SUCCESS

POET'S CORNER

Children of the Sun

And there are those
who run shapeless
In their dark eternity
For they lost
With only their failures in mind
Closing their eyes
To all and any ray of light.

We children of the sun
Make our destiny
We create the game
We are playing
And above all else
We know who we are.

SCIENTOLOGY BOOKS INTERNATIONAL

MONTREAL

May 15-19, 1975 Toronto and Montreal Scientologists SHARE JESSUP, SUSAN PRIEUR and several Field Staff represented Scientology at the giant Montreal International Bookfair.

Pyramids of *Dianetics, Modern Science of Mental Health* and *Dianetics Today* drew interested crowds. 2,460 information packets were handed out. Major distributors from Canada, Japan, Latin America and Spain are submitting contracts to distribute books in their countries.

NEW YORK

May 25-28 Dianetics and Scientology books were exhibited at the American Booksellers Association Annual Convention and Trade Exhibit in New York! The 3-day conference of international publishers attracted more than 7000 people.

Dianetics Today was released to the public along with the industry's other fall best-sellers at this giant and most important convention. The impact of the Scientology exhibit has opened the whole field of broad public distribution for Dianetics and Scientology books.

L. Ron Hubbard's books attracted keen interest at the recent New York Booksellers Fair.

BRIEFING COURSE GRAD tells turning point

Back in the late '60s I was in college trying to learn the truth about Man and about myself. I studied religion and philosophy. But much to my disappointment, I didn't study man as a being, but rather man as a body! My philosophy teacher (using the classical form of argument) could "prove" that man was a machine. "Just because a man thinks does not prove man IS."

After getting totally fed up with the depth to which philosophy had fallen I looked elsewhere—to LSD. Then one day my girlfriend told me about Scientology.

I was on the HAS Course a week later and have never taken drugs since.

Now I've completed the Saint Hill Special Briefing Course with all Ron's research data on the mind. My questions about myself were answered very early in Scientology. Now I have the tech to take a thetan who has been trapped and help him become free.

The change from my pre-Scientology days to the present is immense: from being unable to act to further my own survival to being in a very high condition on all dynamics.

But there is more to the tech—there is why is this the only way out. That is what is covered on the Class VIII Course—Ron's 100% Standard Tech. Not only do I have the ability to free a thetan—I have the ability to ensure others free thetans, a much broader area of application.

CARTER MANIERRE,
Class VIII Auditor

The Right Move

Several weeks ago my family and I sold our home in Santa Rosa, California, to move to Los Angeles so I could take the Saint Hill Special Briefing Course.

I have glimpsed into the world of the future being here. The people at ASHO ARE doing something about changing life for the better and they are turning out practitioners that are capable of going out and making more people able.

There is so much life here that one can't help but get very enthused.

Yes, my decision to just DO it was the right one!

I wish each and every one of you could feel the life and enthusiasm here. You can be producing and really living by doing something that is going to help all of us climb out of the mud by learning how to apply Ron Hubbard's technology.

Much affinity,

JEAN BLAKE

Class VI Expands

I went Clear in August 1974 after being in Scientology about a year. After OT VI, I started the Briefing Course—and only then did I get the tools to understand the physical universe. I found myself in a totally new dimension of Clear and OT. I became an auditor—an ASHO product—and that's a darn good auditor.

I came off the Briefing Course with a super expansion of all my dynamics and a willingness to really help the group. I came off the internship totally polished as an auditor with certainty I can handle any Class VI action on any preclear. Plus feeling like I'd gone up the grade chart again and attained OT ability on the 3rd dynamic (groups)!

Since, I completed full OT VII and joined ASHO staff to become a Briefing Course Supervisor myself. It is a real joy to be here.

Class VI Auditing Best

This auditing has been the best yet. I really notice a difference getting audited by a Class VI!

I feel that I am more myself, and can do what I want. I like others better too.

These are all priceless benefits and I recommend auditing for anyone who wants to become more able.

DIANE LEAKAKOS, preclear from San Francisco
