THE CRAFTSMANSHIP OF AUDITING

by L. Ron Hubbard

There are certain basic truths and laws about the human mind. There are not very many. They are astonishingly few. You audit by those, not by how reasonable it is that something else would work. You mustn't be reasonable. You must be fundamental.

You actually have to isolate out for yourself what is true and what is fundamental.

I could give you a list of fundamentals and get you examined on them until you were green in the face. I could say "These are the truths and that's all there is to it." And actually, all that gives you is a stable datum fixed in by a confusion, not understanding. That datum then isn't available in a tight spot. And if the auditor is unable to regurgitate the proper datum in any tough situation in an auditing session, at that instant he'd be sunk.

You must recognize the fundamental for what it is. A fundamental is a fundamental.

I could go this far: I could say to you "This is a fundamental, find out about it," and tell you eight, ten, fifteen times, "It's a fundamental, find out about it." Then one fine day you'll say, "Well I haven't got anything else to do. I think I'll find out about it. Oh my god, it is a fundamental!" At that point it becomes a useable tool.

You could go on believing these fundamentals are fundamentals but never use them at the time they're required. You'll miss on pc after pc. All of a sudden you'll say "Why am I missing on this pc?" It'll be something on this basis: you, the auditor, do not recognize what fundamental applies.

When you know these fundamentals you can get an enormously speeded-up look at auditing. You've got a chance to look at the fundamentals and eventually see that you don't need 8,655 superstitions like "I must not stand under a carob tree because that's what gives women babies" and other "true" data of the human race. You get down to the bottom of the pile and all these superstitions become understandable.

What I expect of an auditor is that he audit the pc right there in front of him, by the most fundamental fundamentals that he can command and understand. This auditor will always get wins.

Now, these fundamentals must be applied with exactness to small details.

Why?

The common denominator of all great art is a great ability to do a small detail. You look at the Japanese working with the brush. He paints a bamboo. He paints it all up, and boy he paints, and when he's all finished there's a beautiful sketch of a bamboo. So you say, "That's easy," and you take some charcoal and a big piece of paper and say, "Well . . . let's see . . . " and you never get anywhere. It looks so easy, but they don't do it overnight.

Well, the little Japanese knows where to get the inkstone. He knows how to grind it up. He knows how to mix it. He knows how to handle brushes, and he could probably write with a brush as fast as you can write with a pen.

All of this great art is built out of a great ability to do a small detail.

That's why the schools of drawing that you see lined up along the board and fence down in Greenwich Village will never get anywhere. In fifty years nobody will be able to find those pictures around. One sketch definitely will not be going for £285,000. More likely you'll find them filling a mouse-hole somewhere to keep the draft out.

That's because those boys work on an entirely different idea. They see the ease with which art is done by masters, and mistake the tremendous skill in the tiny detail. The tiny detail looks easy. It all looks so natural and easy. They use the same abandon with which the master works to paint their paintings or sculpt their sculptings, and that's madness. The only thing that's missing is how *do* you take a small brush and flip it across a palette to bring it to a point and paint an absolutely straight line. How do you *do* that?

I'll give you some idea of this. Michelangelo used to go calling on his friends, and if they weren't home he'd take a piece of chalk and draw a perfect freehand circle on the door. They always knew Michelangelo had been to visit them as he was the only man in all of Italy who could draw a freehand circle that was perfect. This was recognized as a badge.

There's a craftsmanship, a know-how, an exact skill, an exact response in this. I don't care how great the man's name or how splendid the accomplishment he's trying to accomplish, or how tiny or unimportant the kind of task. The factor is still there – it's still craftsmanship, and craftsmanship is built out of tremendous expertness on the tiny detail.

A student of auditing could make himself a checklist of the fundamental parts of auditing. I'm talking now about the "mixing the pigments" stage of the game. He might include the various parts of the E-Meter and TRs and things like that. He could go over that checklist very carefully checking if at any time in any recent session he was worried about any part of this checklist. Just ask himself honestly, "In the last sessions have I had any concern with this?" Then just take those points he's checked and go ahead and drill them. Treat them like a plain old drill, that's all.

When a dancer finds that he usually stumbles on his exit, he practices the step that gets him exited until he doesn't stumble on his exit.

Well, that's what it takes to become a master of a craft. Don't think that you're going to get results, real honest-to-goodness results if you're anything else.

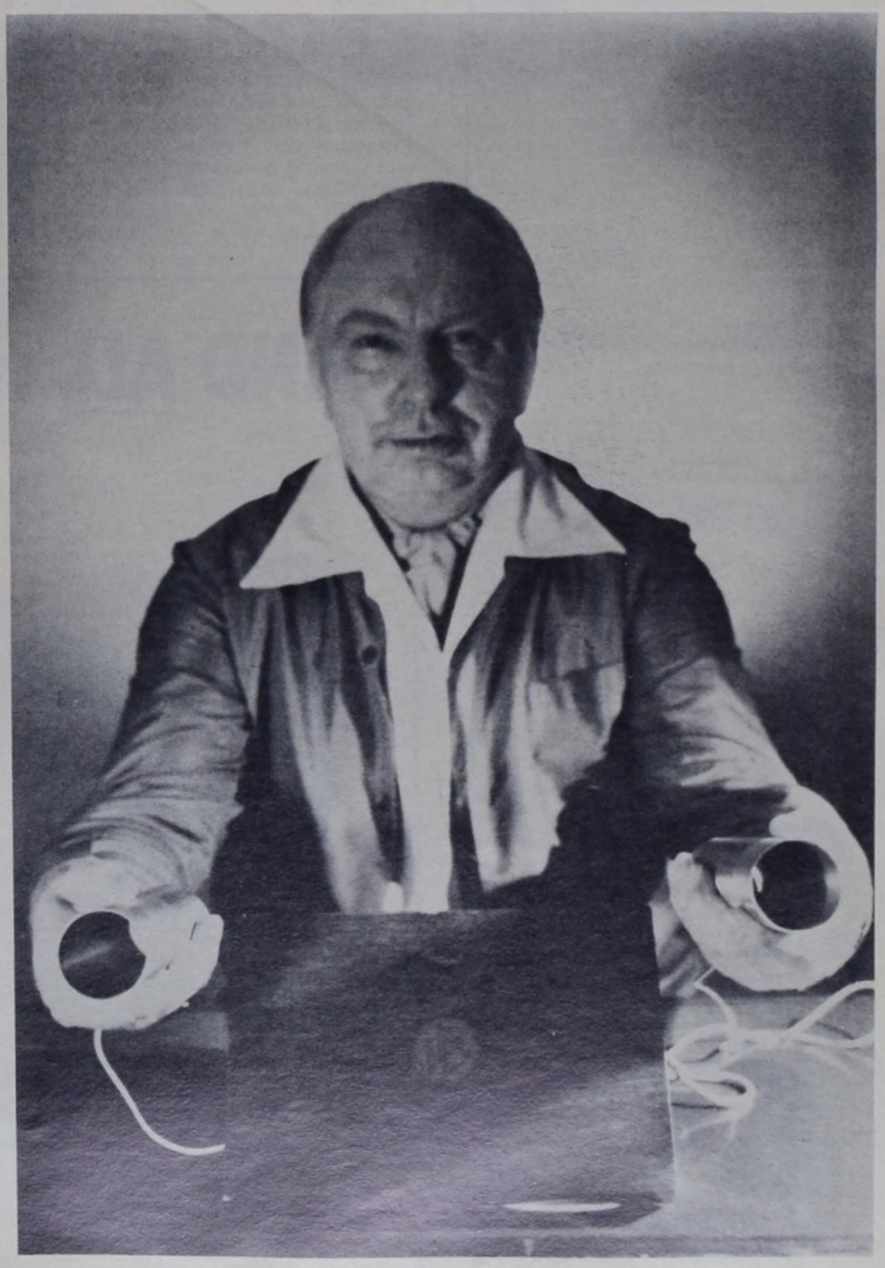

Only with this drilling on fundamentals will you be free to be a craftsman, a master of what you're doing. Only then will you be free to audit the pc in front of you.

You won't be free to audit the pc in front of you as long as you're enslaved with "don't knows" amongst your auditing tools, because you'll have a chain of error which mounts in the session from the basic not-knowingness.

Today's auditing is not aimed at the repetitive process with no attention on the pc and "hoping for the best." Today's techniques require a master's touch. They are that strong, that powerful. The pc's reactive mind doesn't have a prayer if you do auditing right.

You have in Scientology broadly workable technology. At the same time

THE CRAFTSMANSHIP OF AUDITING

Continued from front page

you inherit along with it a precision of application which knows no second class or just-as-good-as. All of the various points which make precision in auditing must be actually *precise*.

When a pc sits down across from an auditor who is E-Metering so well that he never worries about an E-Meter, does his TRs so well that he never worries about his TRs, does his model session so well that he never worries about his model session, who knows what he's supposed to do with the processes and does just those things – when a pc sits down across from such an auditor, he will just say "Gosh, it's so easy! I am so comfortable sitting here being audited. How come? How did that combination of events take place? Was it because the auditor was born the seventh son of a seventh son? Was it some fantastic prescience of some kind? Is it because his thetan can read my thetan?"

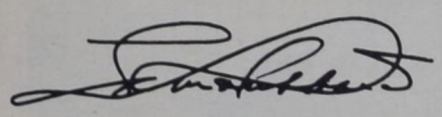

It doesn't happen to be a single one of these things. It was merely because the auditor knew the little points of auditing absolutely perfectly and did them as a whole with perfection. He presented no tension by reason of auditing because he *knew* all the time and could then apply fundamentals to what he was doing.

First and foremost, to attain any result requires a technology. We have this technology.

You have to also get a confidence that when you sit down and audit somebody by the use of this technology he is going to get a result. That takes the last not know out of it. Is the pc going to gain or win? And if you do it right, the pc keeps winning. You win, the pc wins, everybody wins.

That's the final tension that goes out of it, and after that the results you can get in auditing are just fantastic.

And frankly, that's what I expect of you. I expect you to learn how to audit like a master.

TRAINING FASTER NOW!

NO INTERNSHIPS REQUIRED BEFORE SAINT HILL SPECIAL BRIEFING COURSE

By order of L. Ron Hubbard, the internship requirements after Dianetics and Class IV training have been abolished for those going right on to the Saint Hill Special Briefing Course at ASHO.

The Dianetic internship is not required before going on to Class 0. The Class IV internship is not required before beginning Level V (the Saint Hill Special Briefing Course).

When doing your Dianetic and Class IV training you may now achieve *either* a PROVISIONAL CERTIFICATE (meaning you have done the theory, practical and auditing for your level) OR the new CONDITIONAL CERTIFICATE (meaning you have done the theory, and practical drills but not the auditing). Either Conditional Class IV or Provisional Class IV makes you eligible for the SHSBC. Internships are not required in either case for the student going on to Level V.

NOW YOU CAN GET TO ASHO WITHIN 3 MONTHS OR LESS.

As a full time student you can now do your training from the beginning to Class IV in just 3 months with the Conditional Certificate system.

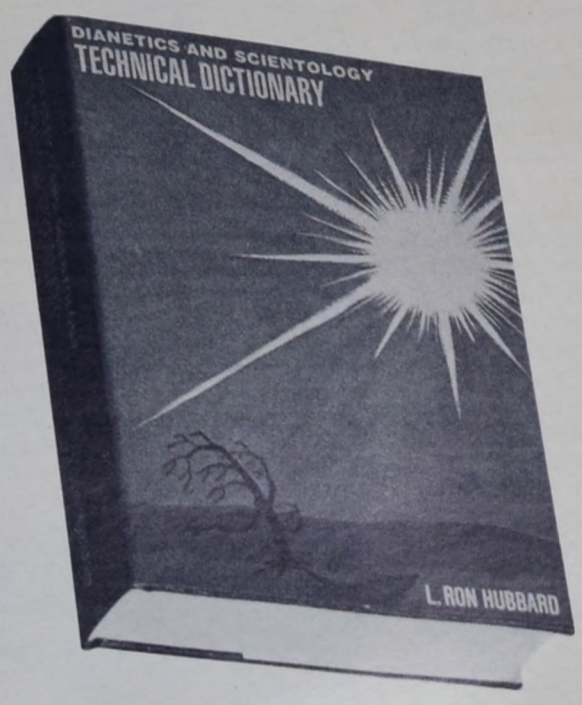

After you complete the Briefing Course (Class V) and Senior Briefing Course (Class VI), you will do your internship at ASHO to earn your permanent certificate. The Class VI Internship includes your full internship on Dianetics and then 0-VI on just the right gradient to craftsmanship.

Take advantage of the new faster route and speed your own progress up the Bridge! Write the Letter Registrar at ASHO right now for friendly assistance in making your plans.

Class VI Intern Mike Miller hops off the Manor bus at ASHO just in time for roll call and another exciting day on his internship. The Manor makes a special morning run to ASHO for interns.

AUDITORS RUSH TO ASHO

to learn the craftsmanship of auditing

More than 50 new students have poured into ASHO to start the Saint Hill Special Briefing Course in the last few weeks!

There are now more students on Level V and VI than ever in ASHO history, with a total of 357 enrolled for either day or evening schedules.

Staff and Supervisors were thrilled to see all the new students arrive. The large Briefing Course room has been expanded to take over the adjoining space, almost doubling its size, to make room for more students.

"Listening to the Briefing Course room during afternoon practical time is like listening to the hum of the New York Stock Exchange," said one observer. The incredible amount of purposeful activity is exciting to see and even more exciting to be part of! Each set of twins, intent upon their drills, have their total concentration on learning auditing to Ron's standards and progressing through the course.

As Scientology expands at a high roar, more Class VIs, Class VIIIs, Class VI Case Supervisors and HSSTs are needed across the country to hold in Standard Tech.

The auditors now on the Briefing Course at ASHO are the Class VI INTERNS of tomorrow, who will then be going out to deliver auditing with real craftsmanship to the people of the Western Hemisphere.

Now is the time to gain the knowledge and certainty these auditors are gaining. Join them on the Briefing Course today!

NEW STUDENTS ON THE SAINT HILL SPECIAL BRIEFING COURSE:

Holly Epstein, Johni Hurst, Joan Biggs, Romy Nuirhead, Marie Tyler, Sioux Bushman, Marion Fumento, Karen Kuever, Ken Traeger, Jan Welda, Dick Proulx, Keith Fozzaro, David West, Mark Brown, Gail Peterson, Jordan Nagasako, Peter Alexandre, Myrna Jacobs, Owen Reynolds, Nancy Hochman, Joe Hochman, Alice Dayton, Vikki Walker, Cindy Woodruff, Dan Fumento, Debbie Baer, Sue Snow, Charlie Garner, Larry Meyers, Jose Menendez, Paul Gamberg, Bob Kosal, Doris Leonardson, Tim Orloff, Celia Hawkes, Bobby Dubow, Gill Bailo, Mary Ribiero, Leslie Tyrer, Andy Rush, Pat Cook, Bill Penninger, Stephen Rodriguez, Sheila Marsh, Debbie McFarland, Bob Sigsbee, Sarita Lann, Faith Stella, Sherry Robinson, Alan Pearson, Lynn Verhoeff, Dan Mackenzie, Tom Lane, Ed Maher, Doug Taylor, Gerald French, Joan DeAngelo, Linda Peterson, Herb Zerden, Brad Sweigert, Lorretta Warren, Beth Shaffer, Alfred Belleza, Kathy Brown, Ed Miller, Bill Shepard.

FOCUS ON SUCCESS

Auditors gain *professional experience* and *certainty* on ASHO internships!

HANDLED WEAK AREAS

I gained the stability to audit Class VI materials plus really cleaned up and handled weak areas in my tech that I've had for years. The internship rehabilitated my willingness to help preclears and audit.

Rand Shipley, Permanent Class VI

BEST POSSIBLE CLASS VI

I learned so much about auditing on this internship–I really improved in handling preclears and doing assessments.

To be totally truthful I received as much knowledge about auditing in practical on the Class VI Internship as I did theory on the Saint Hill Special Briefing Course. That's a lot!

You really need this internship to be the best possible Class VI you can. Your mission, org and preclears will be glad you did it!

Dede Dizik
Permanent Class VI

PROFESSIONAL EXPERIENCE

When I finished the Briefing Course I could audit with very good results.

According to the Grade Chart my next step was the internship. On the internship I found out I wasn't a student anymore, I was a professional auditor, and that as an auditor I was expected to audit!

Then I found just auditing the preclear to a win wasn't quite enough – I had to get the results that were expected and intended in the preclear's program. That was the test. Whenever I fell back there was correction.

Then one day I found I was able to audit any case that was given to me, with no effort. It was really easy. My confidence had improved 100%.

My purposes all aligned. If you look at the Awareness Characteristic column, you'll notice it goes up the middle of the chart (not just the processing side). The Class VI internship stabilized me at "purposes". It made more change in me than anything else I've ever done in Scientology.

Ellen Rockwell
Permanent Class VI

TECH NEVER LETS ME DOWN

I've been auditing now for 6 weeks in the field since completing the Class VI Internship at ASHO. My own sense of certainty in executing any auditing program continues to grow. The tech I now have 'under my belt' never lets me down, and standard application leaves my preclear looking like a neon light almost immediately. No more desperation for me or the preclear.

Jackie Matthiesen
Permanent Class VI

GLAD I INTERNED RIGHT AWAY

I'm really glad I did internships right away after the Briefing Course. I was on a co-audit, but I found I couldn't just keep co-auditing and do nothing else. I couldn't stay keyed-in long enough! You really do have to keep busy with life. I found it balances the wins of auditing and the satisfaction of producing.

Mark Gale
Permanent Class VI

BACK ON PURPOSE

This has been quite an experience for me. I have been off lines and off purpose for about 3 years. I found if you don't use it – you lose it! With the help of the Supervisors, Case Supervisors and Cramming Officer I've ground off a lot of rust and feel I'm a pretty shiny auditor again. (My preclear is shiny too and that's what it's all about).

I worked hard and I'm glad because I broke through some barriers and now I'm not efforting. Thanks to Ron and the ASHO tech and Qualifications staff.

Helen Kitchin
Class VI

100% STANDARD TECH TERMINALS

To me it doesn't make much sense to do a course without doing an internship – the two go hand in hand.

An internship is the 'proof of the pudding' where the rough edges stand up and salute!

On my first internship at ASHO I learned it really was OK to have a Texas accent, and that I didn't have to come on with a phony voice to get reads on the meter.

At ASHO one has the advantage of being trained by top tech terminals. This may sound awesome and a little frightening, but it's not. It actually makes it much easier because the tech is 100% standard.

Carol Cowan
Permanent Class VIII

SAFE ENVIRONMENT

After not auditing for over 2 years, coming in for my Class VI Internship scared me a bit! But soon after the initial shock of long hours of study and very demanding supervisors, I started to roll and my basics came to full view again. I felt confident and ready to audit.

I audited in the safe environment of the Hubbard Guidance Center under very expert Case Supervisors and from the very first session I was winning and the preclear was winning. Flubs were handled smoothly and quickly and within a few weeks I was out the top and graduated.

Having some time left over, I did the Class VIII Course and that put things together on a new plane of simplicity. Then on to Expanded Dianetics for more breathtaking tech straight from source. And now I'm on the Expanded Dianetics Internship.

All this in about 4 months!

Thanks to ASHO and Ron for making it so simple.

Peter Rundberg,
Class VIII

PERMANENT CERTIFICATE!

Permanent OK to audit as a Class VI is a fantastic feeling. I feel competent and very valuable as a being.

Dick Killion
Permanent Class VI

CERTAINTY FOR MYSELF

The Class VI Internship gave me exactly what I came to Los Angeles to get. I got certainty for myself on the tech. I usually felt pretty good about programs that Case Supervisors had written and on the day to day C/Ses in general. But as a Class IV I never felt I had enough knowingness to know for myself that everything was 100% standard. The VI Internship gave me that knowingness.

Nancy Beatty
Permanent Class VI

INTERNING AT ASHO

All auditors should be so lucky to do their internship at ASHO. This is the place to do them. I feel fantastic. Thank you all!

Bruce Harrell
Class VIII

EFFORTLESS AUDITING

I came here in June to do the Class VI Internship. Now in early August I'm graduating as a permanent Class VI. I feel absolutely marvelous.

I now know I can apply standard tech flawlessly with total certainty of achieving the desired results. I can audit for many hours effortlessly, taking the preclear through cycle after cycle on up the grade chart. I can handle bogged students, repairs, in fact anything at all that needs handling. I'm finding I enjoy auditing more than ever.

The training here is superb. It's such a joy to experience top-notch supervision all the way, to audit in a totally upstat place – I look forward to coming back for the next training cycle. And I encourage all auditors who have not yet interned to get on out here and do it now!

Be Professional

Intern at ASHO

ASHO is where you become a *professional* auditor. ASHO is where you really learn what craftsmanship is all about.

An ASHO internship is tough, challenging. And it's worth every minute. You come through rapidly as a *confident, certain* auditor of proven flawless ability.

You'll audit all kinds of preclears. Soon you'll be able to give any of them continuous, standard gains – no uncertainty, no goofs, just 100% Standard Tech session after session.

At ASHO you have Flag-trained tech terminals who know their business to back you up. Your Intern Supervisor is a Power Class VIII. A PERMANENT certificate from ASHO means you KNOW your tech is STANDARD.

If you're a provisional Class VI, get on your Class VI Internship at ASHO now. What you already know will be validated. Your tech will be brought totally up to date. Any weak points will be quickly cleared up with source materials.

If you're on or planning to do the Briefing Course, complete the training cycle by interning immediately after you graduate. With the data fresh in your mind, you'll get through faster and easier. When you go home, you'll take a PERMANENT certificate from ASHO!

Class VI Internship: $375, including Dianetics and 0-VI. Allow 3 weeks for each internship.

Reserve *your* place now. Write the Letter Registrar, Church of Scientology of California, ASHO, 2723 West Temple, Los Angeles, California 90026.

You owe it to yourself, to your preclears, and to Ron to be the very best auditor you can be.

YOU WIN *AND* YOUR PRECLEARS WIN WHEN YOU INTERN AT ASHO

IF EVERYONE KNEW WHAT I KNOW NOW

If everyone knew that they could get the kind of gains I got from ASHO's help in delivering fantastic auditing, they would literally be lined up around and around the block.

My gains have been absolutely – not good, or great, but completely and totally fantastic, beyond my imaginings.

I had been away from auditing for a while, had an operation and came in finally. Oh, I thought, I have already done the Drug Rundown – what I didn't know was that I hadn't had it at ASHO with a great C/S and auditor and staff to back it up.

I was already a Grade IV Expanded, but my confront came up to handle things that hadn't been confrontable before. Little did I know what crazy considerations I had stored in my bank to keep me at effect. No longer true. I am here as a Scientologist and that is the only valid reality – Scientology works! Thank you Helen Kitchin for fantastic auditing.

Rosalyn Carlton

WHOLE FAMILY WINS

Before I found Scientology, my doctor told me I should have been dead 15 years ago. Also, my son's life was hanging in the balance after 2 major operations. Since auditing this last year the doctors can find nothing wrong with either of us. They call us "wonder patients" (ex-patients that is).

In this last year my family and I have had progressively more wins. This business of survival is a real joy and pleasure.

Faith Stella, Now SHSBC Student

ASHO GOT ME THROUGH

The people here at ASHO who helped me get through the cycle of Expanded Dianetics and Power are really fabulous. When I was at the other end it all looked impossible, but with their help getting through was easy. The auditing was fantastic.

MORE ENERGY

Expanded Dianetics has made me see myself and others in a new light . . . a nice light.

Since being at ASHO getting audited I've had more energy and renewed old purposes.

I'd like to thank my auditor, Carter, and Jenny and Chris for getting me through so fast.

Debbie

BEING MORE MYSELF

It's hard to put what I've achieved here in words. I made more case gain in 30 hours of Expanded Dianetics than in 500 hours of everything else. I used to be obnoxiously critical and VERY right. The universe looked like something 10 trillion years ago.

Now I'm here and I see what's really there. When I do something I do it – no one or nothing else is making me do it. Wow! Thanks, Tim, Exilda, ASHO and of course Ron.

GROWN-UP THETANS

Expanded Dianetics has to do with evil, and the confront of evil is what makes grown-ups. The wins my preclears and I have made on this level has been uniformly miraculous and it is a pleasure and an honor to have this tech for with it we will be a race of grown-up thetans–something we have all been striving for forever. Thank you Ron, however inadequate that sounds it is heartfelt, and thanks also to the excellent ASHO staff.

HOW YOU CAN IMPROVE YOUR CRAFTSMANSHIP AS AN AUDITOR

by L. Ron Hubbard

IT'S THE LITTLE THINGS THAT MAKE SCIENTOLOGY WORK, not the big crashing reasons why the preclear's mind isn't perfect.

It isn't finding what's wrong with the preclear that really counts, it's the auditor's craftsmanlike attention to the little points of auditing that makes for big gains.

Just one effective, received acknowledgement that makes the preclear *know* he's been acknowledged may be worth a dozen processes!

An Auditor becomes an auditor when he or she finds out that it's the basics that count.

And this can be very hard to teach. The auditor who is *so* sure that all errors are explained by the condition of the preclear seldom gets results. And it's results that count. You *can* get results with Scientology and get them rather easily, too, so long as you know that the way the auditing is administered to the preclear is more important than the process run.

An auditor who consistently fails to get results is always the auditor who is most sure that *all* the errors for failure lay with the preclear or Scientology, and never with the auditor's own basics.

How difficult it is to see oneself! How easy it is to blame the other fellow.

When I first started to teach by self-appreciation of one's own auditing here on the Saint Hill Course, even the most veteran auditors were completely baulked. They have surmounted this now, but it was a mighty high hurdle for a while. The saga of it was quite funny. I had the auditor give a session which was recorded on tape. Then I had the auditor listen to his own session to find out his or her errors in basics.

Well! You should have seen some of the early reports I got! I even did an HCO Bulletin to show what to look for, but to no avail!

Some reports gave the session command by command. Some gave all the preclear's errors. Some went Russianesque in 'How horrible I am.' But at first nobody, just nobody, caught on.

Let me give you the example of the first test made to show what I mean. I taped a session noting needle action and condition of the preclear during session. Then I listened to the tape. And I found that every time the auditor had gotten a dirty needle or a bad reaction from the preclear, the auditor some minutes or seconds *before* had slipped up on his basics. In other words I found that these basic errors were causing all the bad preclear reactions.

I found that *the auditor made the session always and the preclear never.* The preclear got better because the auditor audited with smooth basics or got roughed up because the basics skidded a bit – a slip up on an acknowledgement, an over-hasty command, a failure to let the preclear fully answer the question. Seconds or minutes later, a bad reaction appeared in the preclear.

As a result of such studies of taped sessions, my complete conclusion is that it is only the auditor's handling of the session that makes the session. There is nobody and nothing else to blame. Because the preclear's bad reaction comes *later* than the auditor's skid in the basics, the auditor often does not connect his error with the preclear's reaction and thinks it is just the way the preclear is.

You'd think this would be easy to learn; but no, student reports continued to come in about their taped sessions that completely avoided the point. These reports described anything and everything except the Auditor as Cause.

Examples: 'The session went badly because the preclear had had no sleep.' 'The session was slow because the preclear had a present time problem.' 'It was late in the evening, and the preclear always has a high tone arm after 9:00 p.m.' 'The Instructor had given me another process, so when I tried to change the preclear got upset.' 'This preclear is always critical of auditors.' 'I had to end off because the preclear was upset.'

Horrible. In no case was the auditor making the session. The session always depended on outer influences. Next thing I'd have heard, 'We didn't have a good session because the stars were not in the preclear's favour.'

Then some light began to dawn here and there and they started to make it. The students began to see that the failure of the preclear to progress was due to auditor errors, not preclear meanness. And these are the things the students learned:

The preclear's upset is traced back to a failure to acknowledge well, to chopping the preclear's communication, to a failure to give the preclear something to answer, to evaluation, to invalidation – not to the late hour or the position of Saturn.

An auditing session is made. It doesn't just happen. ARC Breaks are constructed out of bad basics. Failures to improve a preclear begin with failures to do good TRs.

An auditing session gets wins only when the auditor is right there running it and running it smoothly.

The whole essence of auditing is *not* finding what is wrong with the preclear and hammering at it. That's a medical-surgical approach, not a way to betterment. The essence of auditing is ARC handled and controlled by the auditor.

The auditor gives the preclear something to answer. The preclear answers it and when the preclear has answered it to his or her satisfaction, the auditor acknowledges it. That's auditing. That's why auditing works. That's why the tone arm moves. That's why the preclear gets better.

But that simple cycle can have a thousand ways to go wrong. The auditor gives the preclear something the preclear doesn't understand and can't answer. The preclear isn't permitted to complete his or her answer. The preclear answers fully and then never gets acknowledged for it and rambles on.

Those are the things self-appreciation of one's auditing should reveal.

Scientology has been getting fine results for a dozen years. In the hands of a good auditor, there are no big case failures. So it isn't the techniques.

It's this: What *is* a good auditor?

A good auditor is one who knows Scientology and its techniques and who *audits with* all basics in. That's a primary thing we stress in training here at Saint Hill.

A good auditor gives the preclear something to do that the preclear can do, lets the preclear do it, and, when the preclear has, acknowledges well that the preclear has done it and promptly gives the preclear something to do. A good auditor never evaluates or invalidates. A good auditor understands what the preclear has said and never goes on until he or she *has* understood what the preclear said.

A technically skilled auditor can choose the very best processes, but unless these are run with all basics in, the wins are few.

That's why I started the Saint Hill Course – to make good auditors become good auditors who could also make good auditors.

It's been successful in the extreme here at Saint Hill.

But it's still a battle with basics.

For whatever else an auditor must know about the mind, however valid the technology, it takes plain down to earth good auditing to pull preclears through.

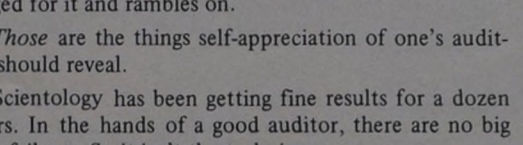

For the *only* reason *any* process works is the auditor's handling of the session and the basics of the auditing cycle.

Record some of a session you give, on tape. Note the rough spots for the preclear in the session while you give it. Playback the tape in private and spot exactly where and how each subsequent rough spot was caused by the failure of the auditor to observe basics.

Suddenly it shows up like a crashed airplane at a picnic. The auditor caused those rough bits the preclear went through – and the auditor caused them by failing to observe the simple basics.

There may be lots of others reasons, too, but these don't give the preclear a rough time. They only make the pc's progress fast or slow.

Preclears don't fail because Scientology doesn't work. Preclears fail only when Scientology isn't administered with all basics in.

NEW INTERNSHIPS:
Sure Gradient to Craftsmanship

WHAT IS AN INTERNSHIP?

"INTERNSHIP, serving a period as an intern, or an activity offered by a Church of Scientology by which experience can be gained. The apprenticeship of an auditor is done as a Scientology Church intern. A course graduate becomes an auditor by auditing. That means lots of auditing." *Tech Dictionary.*

An internship is where you polish your auditing skills into fine craftsmanship.

ASHO internships are tough, fast-paced, thorough. You have the exciting privilege of auditing next to the Western Hemisphere's top auditors in a smooth and efficient Hubbard Guidance Center.

NEW STEP BY STEP INTERNSHIPS

Today's internships are set up on a very exact gradient. Your internship checksheet contains exactly what you have to do, in the sequence you are to do it.

Internships don't drag on. Your supervisor insures you get through each step rapidly and with certainty.

Your basic auditor skills to your level are checked over one at a time with short, specific checksheets within the overall checksheet. You are checked out on the basic auditing data of your level, drill the actions you will be asked to do, and catch up on any bulletins released since your last training.

Most of all you AUDIT, and prove to yourself you can apply what you learned.

As you drill and audit, you compare tapes of your sessions or drills with tapes made by L. Ron Hubbard, working to improve your impingement and presence.

When you've done high hours of flubless auditing on the actions of your level, with a tape of your session passed by the Senior C/S, you are graduated with a permanent certificate.

DIANETIC INTERNSHIP

The Dianetic Internship, your first, gives you experience with all kinds of preclears on the Dianetic actions. ($125).

SCIENTOLOGY INTERNSHIPS

The internship that follows the Saint Hill Special Briefing Course is the 0-VI. This includes auditing the Grades and all repair actions. ($375 *including* Dianetic internship.)

The product of the SHSBC internship is: A PROFESSIONAL AUDITOR WHO CAN AND DOES PROCESS TO PROFESSIONAL STANDARDS AND FULLY TERMINATEDLY HANDLE EVERY CASE HE STARTS AND GETS THOSE CASES BACK ON AND THROUGH GRADE IV ON THE GRADE CHART.

Class VII, an internship for 5 year contracted staff and Sea Org members, teaches you the precision of the Power Processes. ($775).

On your Class VIII internship you apply everything you have learned on the Class VIII Course to use 100% Standard Tech on even the toughest cases. ($375).

On your Class IX internship you gain a smooth certainty on your skill in applying Class IX rundowns. ($375).

WHY INTERNSHIPS?

Internships give you all the benefit of Ron's materials and people to help you learn to apply them really well. When you do an internship, step by step perfecting your craftsmanship on an intensive basis, you come out a completely trained, experienced, confident auditor in the shortest possible time.

Start your next internship now!

Young Clear 4490, Colleen Cowan, tells her proud father, Class VIII student John Cowan, the great news!

DAUGHTER OF INTERNED CLASS VIII GOES CLEAR

Thirteen year old COLLEEN COWAN, daughter of Class VIIIs JOHN and CAROL COWAN, went Clear on August 4th!

Colleen took the Communications Course in Albuquerque in 1972, and Hubbard Qualified Scientologist Course in Austin.

Her mother, an interned Class VIII, audited her up to Grade IV Release.

"I used to be very shy before the communications course," says Colleen, "but not anymore."

"From when I first got in Scientology, I thought going Clear was the thing to do," she goes on. So she took responsibility to arrange to keep moving up the Bridge until she made it.

Colleen goes to Apple School, a Scientology school. She plans to continue up the OT levels, and to do the Dianetics Course and Saint Hill Special Briefing Course in addition to her regular schooling.

INTERN EXPANDS ACROSS THE DYNAMICS

Class VI Intern at ASHO ELLEN GIFFEN, successful field auditor, is expanding to tell her fellow horse enthusiasts about Scientology!

Ellen got into Scientology in New York state in 1961. Shortly after she took the Communication Course, she built her own house and began raising Morgan horses—an expansion of a long time interest.

She is now expanding to introduce Scientology to people in the equestrian world, showing them how basic data such as the emotional tone scale and TRs (Scientology drills) can be applied to horse training.

Ellen has been a professional auditor since finishing the Briefing Course in 1971. "The Briefing Course gave me ways to handle human problems. It gave me the ability to DO something about them, not just sit there and be a victim," she comments. She is on the internship to bring herself totally up to date on the craftmanship of auditing.

RISING MOVIE ACTOR INCREASES CONFIDENCE ON INTERNSHIP

"My rise in movies has coincided with my rise in Scientology," says actor GEOFF LEWIS, now doing his Dianetic Internship.

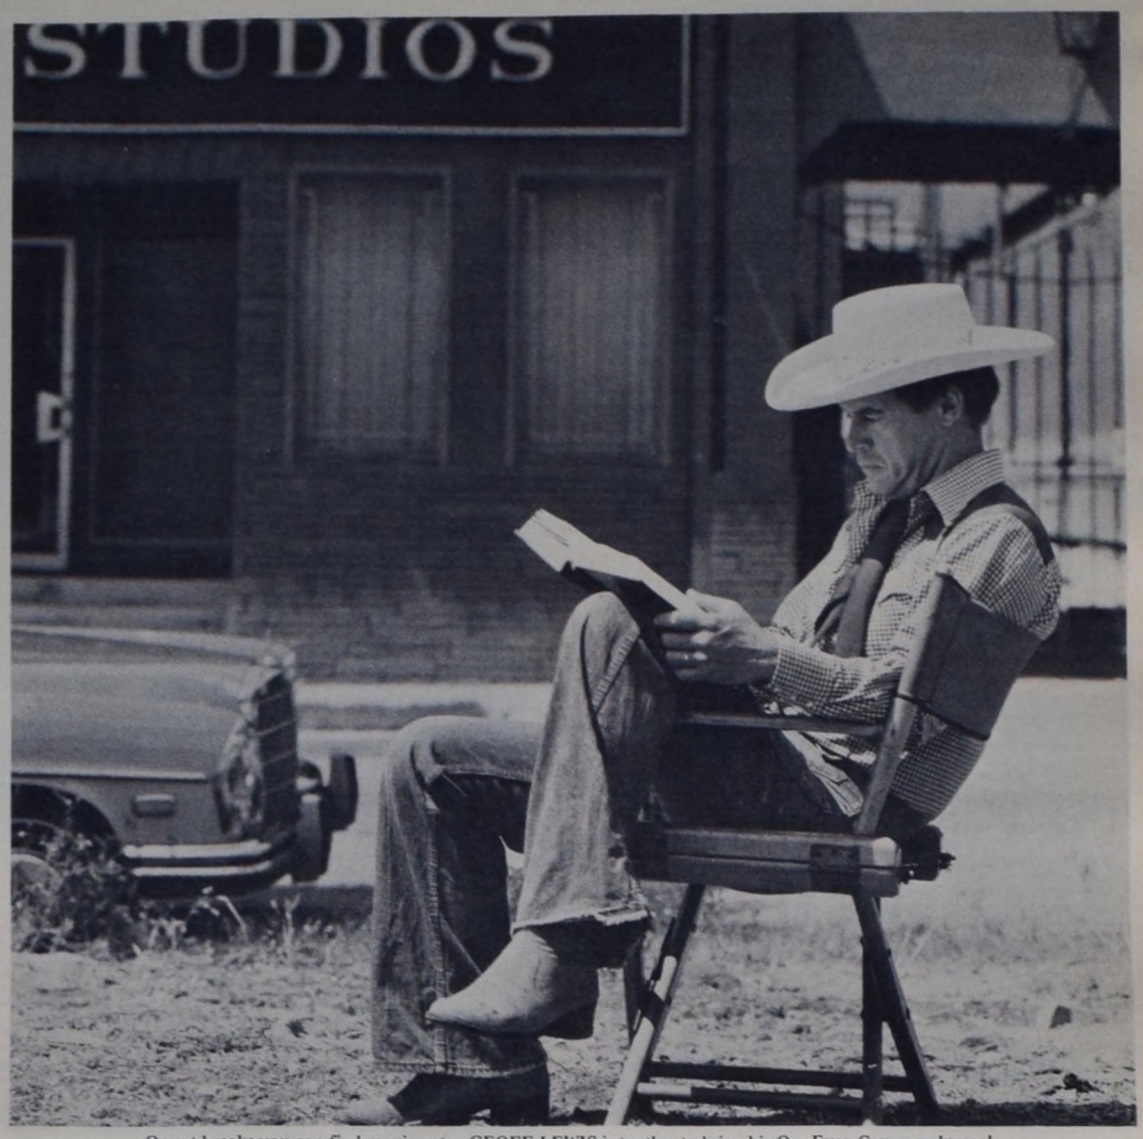

Before Scientology, Geoff admits he was way off purpose and getting nowhere. Having read *Dianetics* several years back, he got in and started training and auditing. Since then, his career has really taken off. His recent film credits include *Smile, The Wind and the Lion, The Great Waldo Pepper, Thunderbolt and Lightfoot, Macon County Line, High Plains Drifter.* And the future looks brighter and brighter!

"My confidence in handling other people both on the set and off has improved since I started my Dianetic Internship," he notes. "It's just easier to work with people."

In filming the recently released movie "*Smile,*" Geoff disseminated to one of the other performers, JOAN PRATHER, who got right into Scientology and is now on her Dianetic Internship too!

Running his administrative affairs has gotten a lot easier too since he read Volume VII of the Org Exec Course. He made time to do that between takes in his last movie shooting, *Lucky Lady* (a soon to be released film with Liza Minelli, Gene Hackman and Burt Reynolds). Geoff manages his 6-man back up organization using Ron's tech now. "It helped get everybody moving in the same direction, in agreement on their jobs and purposes." His job as an executive doesn't take much time now, which leaves him free to do what he enjoys doing-acting.

Geoff is a Grade IV Release and plans to be Clear by year's end. He's very keen on training too and wants to continue to Class XII.

On set breaks you can find movie actor GEOFF LEWIS intently studying his Org Exec Course volumes!

SCIENTOLOGY MUSICIAN WARMLY RECEIVED IN SOUTH AFRICA

Saint Hill Special Briefing Course student TOMMY CORTEZ has just returned from a dazzling jazz tour of South Africa that broke all entertainment attendance records in the country.

"The Lovelace Watkins Show," in which Tommy was performing, was the first of its kind ever to play South Africa. Standing ovations greeted them at every performance in every city!

After seeing Tommy's show, a minister in the government was so impressed that for the first time in the history of South Africa, non-Europeans were permitted to use the facilities and see the show in a theatre previously inaccessible to them.

Tommy lectured at the South African Scientology Churches while there. "You know, on this tour I realized that the sun never does set on Scientology. Everywhere I went I was greeted by Scientologists just as friendly as the ones in this country."

Tommy left his own very successful band in Puerto Rico to come to ASHO for Scientology training in 1971. Over the years, he has now worked with such stellar names as Ray Charles, Count Basie, Tony Bennett, Xavier Cugat, The Supremes, Bill Cosby.

While out on his recent tour to South Africa, he was voted onto the Trial Board of the American Federation of Musicians in Hollywood, the second largest Musicians' Local in the world. From this position he has been able to use his training as a Scientology auditor to bring a higher level of ethics to the performing arts.

SCIENTOLOGY SCHOLARSHIP

The National College Athletic Association has granted BILL LAURITZEN a $1000 scholarship to study at the Los Angeles Scientology Foundation!

Bill won his scholarship in 1973 for outstanding achievement on the swim team at the Air Force Academy in Colorado Springs. When he discovered Scientology this year, he asked to apply his grant to auditor training at the Scientology Foundation. The National College Athletic Association approved his request.

CERTAINTY HELPS INTERNED AUDITOR WIN KEY EXECUTIVE SPOT

After completing his Dianetic Internship in Hawaii, OT I MELVIN R. LARSEN was selected for the 1974-75 Federal Aviation Administration Executive Development Program from which the Agency's top executives in future years are to be selected.

"Things have been going exceedingly well for me, especially since I've had Scientology tech to apply to my everyday life and job," he writes. "My future really looks bright now."

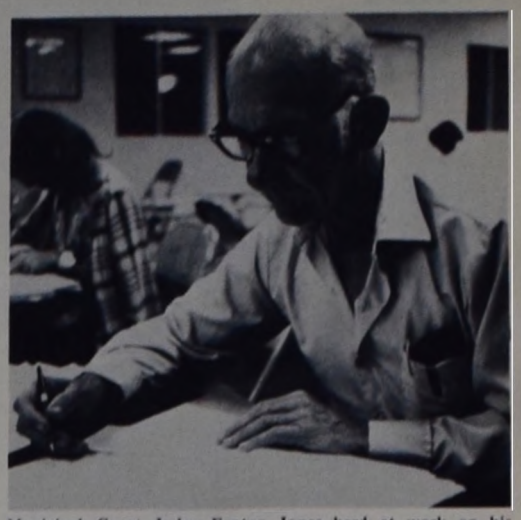

The FAA is the government agency responsible for aviation safety and promotion of aviation commerce. The FAA mans control towers, approves aircraft designs, and does all licensing of aviation personnel and facilities.

Mel had 30 hours of Dianetic auditing in Los Angeles in 1952 and his life hasn't been the same since. He has gone from technician to responsible management positions. "My first significant management job came within 3 months after Power Processing at ASHO in 1971."

The FAA Executive Program is highly competitive. Final screening took place this year from 80 men and women, of whom only 6 were selected. The final determination was made on the individual's effectiveness in handling difficult situations under simulated conditions.

Mel's wife, ANN, is a Class IV Auditor. Four of their 5 children are members of Scientology's Sea Organization, and the youngest is training to be a Dianetic Auditor!

Now posted as head of the FAA Office in Panama, Mel is doing very well and sees much opportunity to assist Mankind there.

SCIENTOLOGY IN THE PHILLIPINES

From the Republic of the Phillippines comes word of Brigadier General (Ret.) ARISTEO T. FERAREN, one of the top businessmen in Pasay City, in the Phillippines. He writes:

"I can hardly express in words and deeds the tremendous benefits that I gained in the attainment of my present goals as a businessman from just completing this initial course. I am fortunate to have found Scientology, an event that will definitely mark my rebirth and literally start me off on a new adventure of my life. My companions and I although few at present, are aware of the tremendous potentialities of Dianetics and Scientology in being able to provide the magic touch of enlightenment to our people and pave the way to wisdom, advancement, peace and well-being."

Confident Mel Larsen, interned Dianetic Auditor, who was recently put in charge of the Federal Aviation Administration office in Panama.

JUDGE TO GO CLEAR

Municipal Court Judge in Westminster, California, the Hon. FENTON JONES, has completed his Hubbard Qualified Scientologist Course. He hopes to be Clear by February, 1976, just one year since he discovered Scientology.

The judge is registered for the Hubbard Standard Dianetics Course and Social Counselor's Course in Orange County.

"The name of the game as a judge is CONFRONT," he writes. "You must not let your reactive mind influence your decisions. Confusion must be solved promptly by picking out a stable datum. You must confront on the proper tone level to insure communication in actuality.

"My confront was fair before. It's better now and will improve further. If your confront is up, you can have good affinity, reality and communication and get the job done in a fraction of the time and better."

ASHO NEWS

FIRST CLASS VIII REUNION HELD

Class VIII Artie Maren shares a joke with the roomful of Class VIIIs at the First Annual Class VIII Re-Union.

The First Annual Class VIII Re-Union was a perfect success! It was held at the Manor on July 26, and attended by over 100. Five guest speakers gave their own personal experiences on the Class VIII Course: Artie Maren, Peter Crundall, Drew Johnston, Alan Walter, and Pam Kemp.

A large card, "Greetings to the Commodore from Class VIIIs of the First Class VIII Re-Union" was signed by all, and sent to L. Ron Hubbard.

There were seven Class VIIIs there from the original Class VIII Course on Flag in 1968: Charles Groff, Mary Jane (Jewell) Hertz, Esther Mangold, Artie Maren, Pem Wall, Alan Walter and Bob Lypko.

Each Class VIII at the Re-Union was given a "Code of Honor", donated by Class VIII Bruce Bishop.

There are now two families with THREE Class VIIIs in each: Phil Spickler, Teri Spickler and Mimi Spickler; and George Seidler, Andy Seidler and Melanie Seidler.

Next year's Class VIII Re-Union will be the 4th Saturday in July, 1976.

(Any Class VIIIs not in contact with ASHO Class VIII Supervisor, write her immediately at ASHO. A Class VIII Newsletter is coming out soon and your current address is needed.)

When you're going to be an auditor, you need your own E-Meter

CRAFTSMANSHIP IN AUDITING REQUIRES THE TOOLS OF THE CRAFT

BUY YOUR E-METER NOW

The Hubbard Electrometer is an honest measure of the spiritual state and change of state of a preclear in Scientology processing.

It is a basic tool of any auditor. As an intern or professional auditor, you should own TWO meters to be sure one is always right there when you need it.

Donation: $215. For members, $172.

If you are a Scientology minister or ministerial student, or if you are a Grade VA Release seeking higher spiritual state, you may own an E-Meter. Send Verification with your check/money order that you are eligible to own an E-Meter. Non verified requests must be returned.

Order from Dept. 116, Church of Scientology of California, Publications Organization, 2723 W. Temple Street, Los Angeles, California 90026.

The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of the Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed, or owned only under these conditions.

HAVE REAL KNOWLEDGE OF SCIENTOLOGY TECH

Take the Saint Hill Special Briefing Courses and learn the craftsmanship of auditing straight from Ron!

The Saint Hill Special Briefing Courses fill in all the gaps on what auditing is, why, and how it came to be that way. This is where you get your questions answered.

You'll follow Ron's whole research line from 1948, right from him personally. You actually hear his voice on the original tape recorded lectures he gave – over 365 in all! Each one with vital data to professional auditors and any Scientologist.

Superb daily practical training helps you learn craftsmanship in your own auditing. Internship immediately afterward gives you full confidence and certainty in your Class VI skills and makes your Class VI certificate permanent.

ASHO students are very clear about their gains from the Saint Hill Special Briefing Course (Level V) and Senior Briefing Course (Level VI):

I thought I knew what Scientology was but not until I started along with Ron on the fantastic adventure did I realize my data on the subject was very minor.

The more you confront and begin to know, the more you know there is so much to experience in Scientology that you can't wait to continue!

ELLEN DONISH

From the Briefing Course I gained an increased comprehension of the universe and the mind especially.

From the VI Internship I gained the certainty of my ability to really handle the universe and the mind.

I really became an auditor here.

DONNA TAYLOR

The Briefing Course has had the greatest impact on my life of anything so far. About halfway through I cognited that my whole attitude about Scientology had changed. I was no longer asserting myself a Scientologist, I was just BEING one.

Events in life no longer throw me–I understand what is happening now. As an auditor I know I can handle rough cases–I have!

I came on as a quickie Drug Rundown completion, quickie Class IV and now I'm full expanded Grade IV and Class VI.

RICK WHITE

I don't know how any Scientologist or anybody survives without the Saint Hill Special Briefing Course and THEN the internship. I came off the Briefing Course with all the tools – a super expansion of all my dynamics and a willingness and desire to really produce on the 3rd dynamic.

I feel the internship has moved me up the grade chart on the 3rd dynamic, made me not only totally able to audit but to live my life with the same flubless Class VI qualities.

LINDA DARLINGTON

The Saint Hill Special Briefing Course gave me all the data – an incredible gain in knowledge about life and auditing. The Class VI internship really put the icing on the cake. It was the heaviest training cycle I've done so far and the best. You have to apply, apply, apply. That's where you find out if you know your tech or not.

I really feel confident about auditing out in the field.

DIANA LUCARINO

Class VI Linda Darlington closely supervises practical drills on the SHSBC! (seated counter clockwise from left: Pat Cooke, Gil Bailo, Joe Holtz, Bill Newby, Sharon Dufour, Robin Manoogian, Sioux Bushman, Charlie Garner, Sheila Marsh.)

Sadie Stromfeld (Scientologist since 1954) enjoys Ron's warm humor on a Briefing Course tape.

GET ON THE SAINT HILL SPECIAL BRIEFING COURSES
The Surest Route to Clear
