WINTER OF THE BIG EXPANSION

LEARNING RATE AND CONFRONTING

by L. Ron Hubbard

Instruction is an interesting subject, a very interesting subject, because we seem to be in the business of instruction.

You think of yourselves as auditors. Auditing techniques are a method of bringing people to *know*. Think it over.

A great oddity here is that the common denominator of living appears to be learning. Learning would encompass this operation: A fellow looks at the wall and learns it's a wall. So *recognizingness* is the lowest level of learningness and is still learningness.

We meet Joe. If we're in good shape we can learn that it's Joe by looking at him. Some of us who are not in very good shape meet Joe and talk to Father. Do you see how this fits, how this could be pushed over into the learning category?

NON-CONFRONT

People who think there is only thinking invent so many things to learn about that they have boobytrapped the line.

Some fellow has a body. He can't look at it, so he looks at somebody else's. He can't look at that, so he looks at a dead body on the dissection table. He finds an awful lot of spare parts as he begins to cut it up, he looks over all of these spare parts and he begins to realize that there is no way he can bring order into the chaos of blood and confusion from this cadaver except to apply new titles to everything that comes under his hand. So he writes a learned textbook on the subject. But actually he doesn't do anything, he doesn't even do a good job of cutting the corpse up, but he does do a splendid job of titling parts of the corpse. And he spends the rest of his life readjusting his titling.

Now this is about as close as anybody ever looked at a body, directly, in the healing professions. They've even taken the titling and put it over into a dead language that nobody ever speaks anymore.

Learning can very easily then be subjugated to learning some complexity which has been invented about something that one never looks at. And so learningness itself can get to some degree into disgrace.

Here is learningness, then, at its worst: Learning large, long categories of invented knowingnesses, disordered into some kind of chaotic catalogue.

AVOIDING OBSERVATION

Education, or learning, has been in the past a system of avoiding observation. A systematic avoidance of observation will sooner or later get something into trouble, and the whole of education itself has come into trouble. We send a man to school, and this individual is actually put in a groove of avoiding knowing. Anybody you are trying to teach anything is normally into an interesting avoidance of the object by learning its *invented knowingnesses*.

Two men walk up to a machine. It has chromium-plated cogwheels and goldplated levers – a gorgeous piece of stuff. One of them says, "What's that?" And the other one says, "That's a 'Nash-Wheelsy'." "Oh, is that right. I didn't know that." And they walk away. How easy it is to satiate somebody's appetite for learning by giving them a name for something!

You ought to make a study of this. Somebody comes around to you and asks you, "What kind of a circumstance is this whereby somebody goes off the end of the pier because of a divorce? What's wrong with such a person? They had a divorce and they want to bump themselves off. What is that all about?"

You start to explain to them, "Look, what this person did to the other marital partner is kicking back as a motivator, you see. The person who is so upset about it must have done something." You explain this and you possibly would get it across very nicely. You just take the actual straight-out anatomy of the marital difficulty: One person after a divorce wants to kill themselves, they must have done something in order to inherit a motivator to this degree.

If we explain this to somebody, we would give them some information. Why is it information? Because it can be *used in the game of life*.

But now let's just completely and utterly sidestep any responsibility we have as Scientologists and say, "Well, that person has a 'suicidomania' and is in a very serious circumstance. It's an illness which often comes after a divorce – 'suicidomania marititus'." You would be fascinated how often this deep profound piece of nothingness would turn somebody else around and send them away perfectly satisfied. They "know" now. What do they know? They know something to remember, that's what they know. And that's all they know.

The person is willing to avoid this situation and you gave him an excuse to. You gave him a fancy name, then he didn't have to invade the thing any further, he could just avoid it from there on out. You have given him a little thread off your cloak of authority. An authority has told him this so now he is an authority.

He goes down and tells his fellow mechanic, "You know Pete?"

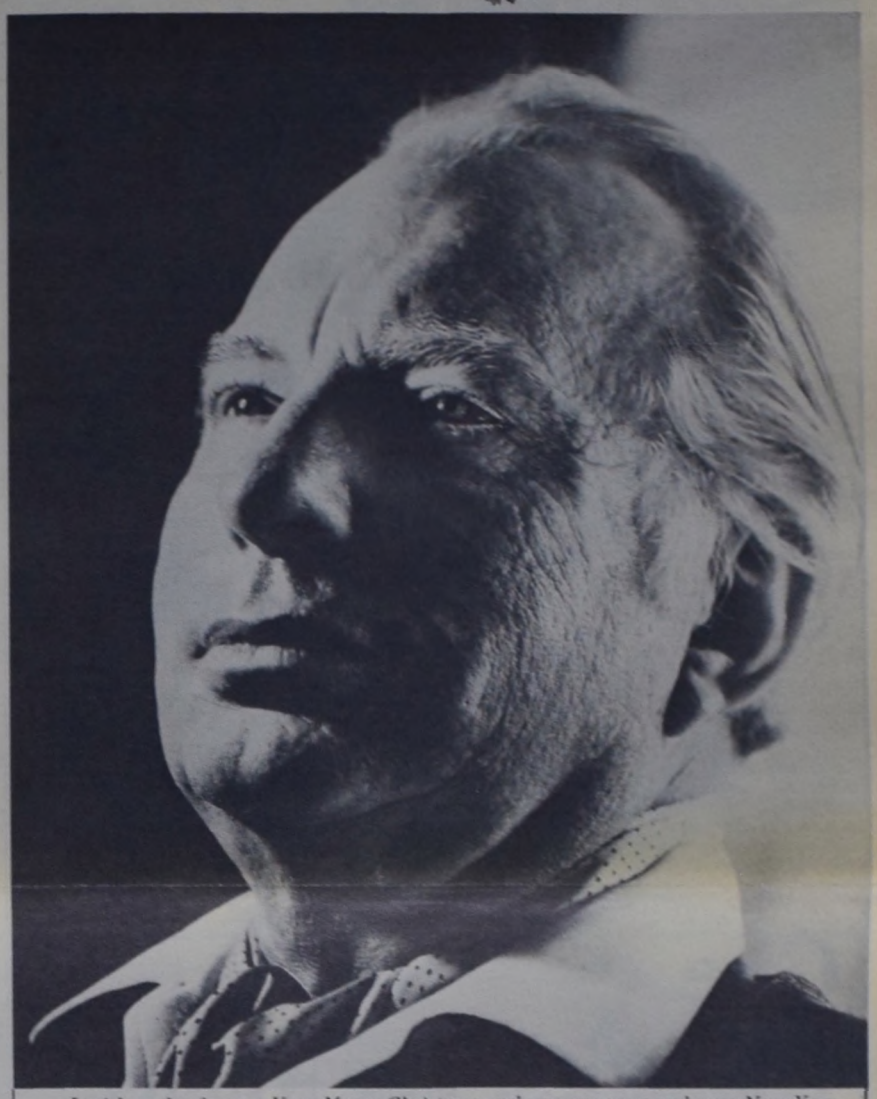

"Yeah, what about Pete?"

"Well, Pete's in a bad way. Pete has suici . . . has . . . He's got a dreadful disease!"

And that's the end of that datum.

If this is dominant as a method of conveying understanding, then people must be avoiding, to a very marked degree, the actual objects, actions or beingnesses of life.

So education could be one of several things, one of which would be "the science of avoidance," how to avoid. We could do all that up, and we could do a wonderful science. It would be terribly acceptable. We would write it up in such a way that never could anybody find out anything. We would teach them a system whereby if they looked at a wall, it was then necessary to look it up in a book. And having looked it up in a book, they would then have to address a small slide rule, which operated in phonetics, and then they could look at the name on the slide rule. You would permit them to avoid, wouldn't you?

I wish each of you a Very Merry Christmas and a prosperous and sane New Year.

With all my heart I thank you for all you have done to help create a saner civilization this year. We have made tremendous progress with our honest means of handling life.

This is a time when the end of war, crime and insanity is vital to our own survival. Through our group efforts, we are competently clearing this planet and creating more trust, respect and understanding amongst Mankind.

We are bringing about World Peace through Scientology. We are creating a Safer environment in which to live and work.

I wish us all the Very Best for an outstanding, productive US 1976.

Merry Christmas.

L. Ron Hubbard

LEARNING IN SCIENTOLOGY

Our systems of education are less merciful, much less merciful, because we operate on the very sound principle that it won't kill anyone to know anything.

They operate on the theory that a little bit of learning will kill you deader than a field mouse, that learning is dangerous. There is even an old proverb, "A little bit of learning is dangerous." How they would love to include into that, "A little bit of learning or a whole lot of learning or any kind of learning about anything will kill you dead."

That is the theory of avoidance in education. We don't subscribe to this at

Ron's son, Class XII QUENTIN HUBBARD makes a key point to a crowd of Scientologists at the Manor in Los Angeles.

Quentin in Los Angeles!

Tells of new land base for Flag training and auditing

L. Ron Hubbard's son, Class XII QUENTIN HUBBARD, made a special visit to Los Angeles October 24th to tell Scientologists personally about Ron's new land base for Flag auditing and training!

A larger and larger crowd packed the Manor lobby to greet Quentin and Class XII RUSS MEADOWS (both specially flown in from Flag) at 10:00 a.m., 2:00, 4:00, 7:00 and 9:00 p.m.

A 10 minute video tape of Ron and the new base was shown the excited audience on TV monitors around the room. On the tape, the Flag Class XII Senior Case Supervisor told of the miraculous gains of the newly released L-10, L-11 and L-12 rundowns ("L" stands for list), and the Class XII Intern Supervisor told of Class X training which will now also be offered at the base.

After the Video tape, Russ and Quentin spoke and answered questions. Quentin explained that L-10 vastly increases the *ability to cause effects* and is usually delivered now in 25-40 hours. L-11 deals in increasing the *ability to have*, he went on, by handling directly the most basic aberration on the case. This is a short action done in approximately 4-8 hours. L-12 increases the *ability to BE* and is completed in about 20 hours. The end result of L-12 is that the individual is not PTS (a Potential Trouble Source) to anything in the physical universe or the theta universe!

Ron has been carefully researching these rundowns since 1971 and they are now fully ready for delivery to all Scientologists. They can be taken after Grade IV Release or after OT III.

All Scientologists are encouraged to get up to Class IX rapidly at ASHO and then go to Flag where they can co-audit the fabulous L-10 on the Class X course.

Ron's beautiful daughter Diana and Class XII Brian Livingston, held a similar event November 1st in New York for Scientologists on the East Coast.

For more information on the new land base or the Flag services, contact your Flag Service Consultant in care of ASHO.

LEARNING RATE AND CONFRONTING *continued from front page*

all, because we know for a fact that a person (that is, the person, not his body) could actually connect with or associate with anything with impunity. And the only things that are giving him any trouble are those things with which he dare not associate. The things that he is unwilling to learn something about are the things that are giving him trouble.

What does learning mean to us? It means *communication.* It doesn't mean a substitute datum.

If you want to learn about something, communicate with it.

So we get down to the fundamental of Scientology education, and that is, that it doesn't hurt a thetan to communicate with anything anywhere at any time. If he learns that, then he learns learning.

SELF-DETERMINISM

Old-time education could be defined in this wise: placing data in the recalls of others. Therefore old-time education accepts hypnotism, does not really allow for the useableness of the information, does not analyze doingness and completely avoids any havingness, which of course permits nobody to be anything.

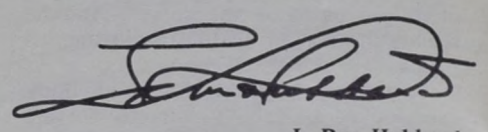

Scientology has an entirely different category of action: You offer data for the assimilation and use of others, and facilitate their absorption of it to the end of permitting them a better control of a better life.

If you're going to attempt education at all, then it has to be a game with a goal.

When we offer a person a datum that datum must be under the self determinism of the other person, *not* in his recalls. Get the difference? It must be at the disposal of his own determinism. And if it is not, then it cannot be used thoroughly in living.

Permit them to use that data, align and evaluate and apply that data to specific beingnesses and actions in life. We never let a datum hang up in the air without anything with which to unite.

Here, then, is a tremendous field in Scientology and it does appear that all you are doing is not just increasing the learning rate of a person but increasing his power of choice over what he has learned. If you can do that, he can lead a much better and more successful life.

WITH NEW CONDITIONAL CERTIFICATE SYSTEM

NOW YOU CAN GET TO ASHO FOR THE SAINT HILL SPECIAL BRIEFING COURSE WITHIN 3 MONTHS OF WHEN YOU START TRAINING!

1. Former mandatory auditing or co-auditing requirements to graduate auditor training courses are suspended. Students who graduate on this system without auditing requirements receive certificates marked "Conditional."

2. Co-audits are not cancelled but they are not now required for graduation. You MAY co-audit while on the Conditional system or start your co-audit after graduation. The key point is you may now start your next training level as soon as you have completed the training requirements of your current level. Your co-audit may continue as long as it takes without holding up your training progress.

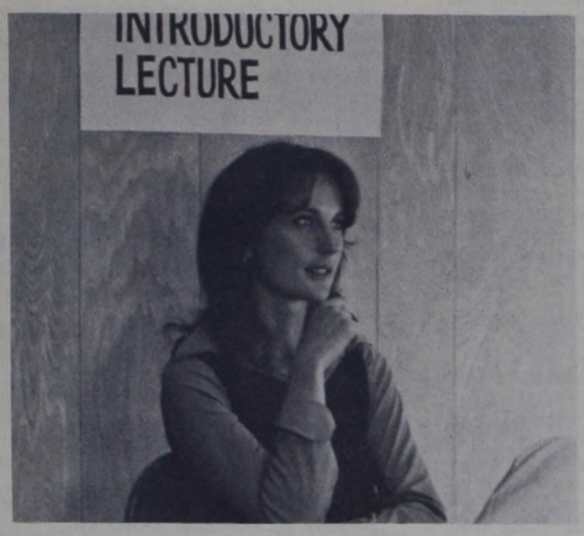

3. Practical drilling and supervision are STANDARD and result in a real ability to apply the materials of the course.

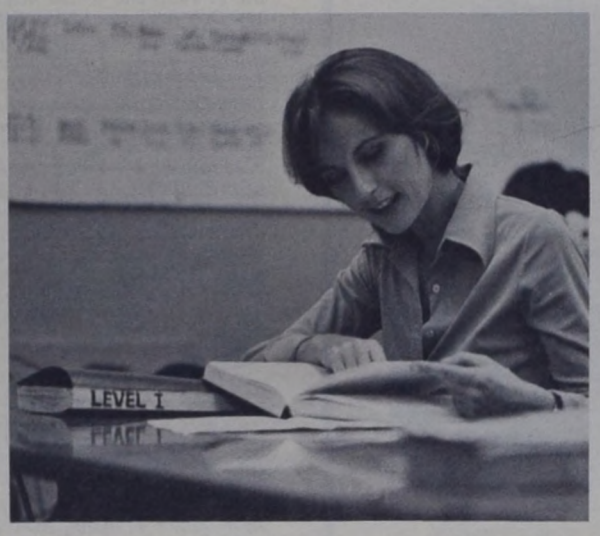

4. A Dianetic Auditor with conditional certificate from the Hubbard Standard Dianetics Course or Hubbard Practicing Dianeticist Course may go right on to Level 0-IV without having done an internship. A Conditional Class IV is NOT REQUIRED to do an internship if he goes onto the Saint Hill Special Briefing Course at ASHO.

5. Permanent validation of a Conditional Certificate is done on an internship. You do not need to get a permanent certificate before starting your next training course, but you must have your certificate validated as permanent within one year of completing your last course.

6. The Provisional Certificate System, where students audit the complete action of the course in order to graduate, is still available for students who prefer it.

There are NO DELAYS on the Conditional Certificate system. Write the ASHO Letter Registrar, Church of Scientology of California, 2723 West Temple, Los Angeles, California 90026 with any questions you have. Your path has been smoothed! Take your next step to ASHO *NOW*.

A DREAM COME TRUE

I have gained the ability to observe and hold a position. A dream come true! It's great.

Kirk Anderson
Power Release

A NEW DIMENSION

My arrival at this level is no small miracle and I owe a special thanks to the incredible team of personnel at ASHO. Not so long ago I was seriously bogged down as a preclear. Much too much time passed while I was in the field in that condition. Only through the persistence and teamwork of many valuable people on ASHO staff was I recovered and completely salvaged.

I have now completed Power Processing. Grade V is an experience of a new dimension – it is a new perspective on life and living. From this point one has new vital abilities to make things go right.

The Power Processes are themselves an incredible achievement by Ron. Thanks to him, both you and I can make it.

Neil R. Brown
Power Release

SURE OF MYSELF NOW

In 1973 I was on hard drugs and my Mom was very concerned and wanted to help me. She remembered that my Dad had had some auditing in 1950 and it had helped him. So she and my Dad took me to the Scientology Mission in San Diego for a personality test and introductory film. I liked what I saw and knew I needed help so I started the Communications Course. My Mom and Dad also started the course and today my Mom is OT VII and my Dad a Power Release.

From Power Processing I've gained certainty of my abilities.

I feel very confident and sure of myself. The best way I can describe it is that I am incredibly stable and in complete control of myself and everything around me. Needless to say, I've never felt so good.

Craig Morris, Power Release

SIMPLE

It all seems so simple now. All the things I've been trying to do.

There's just no more stops in the way and no need to pretend it's all so complex. I just feel like it's time to really get on to doing what we're here for–with no more need to mock up barriers along the way. I can't say how much I thank Ron and all those who help.

Sandy Chapman, Power Plus

GREATEST RELEASE YET

Power was the simplest, fastest, and greatest release along the line. My feelings and relationship to the physical universe have totally changed. I am certainly more at cause than I have ever been.

Bill Hendrien

AT CAUSE AGAIN

The auditing I received at ASHO was superior to any I've ever had. I had a chronic situation that continually came up in life. Thanks to Ron, his tech, my auditor and other ASHO staff, that has been handled. I know I'm at cause again in that area. There were other gains and other wins and I've gained a tremendous amount of certainty as a being. Now I'm ready for Power, Clear and OT! Here I go, all the way.

Mary Bryner

SANITY

To record my wins on paper would take the Poet Laureate of England or maybe Robert Heinlein. I could honestly say 100 different incredible wins I've had in my past 8-10 hours of auditing.

But I take the one I feel the most – that is the recognition of the VALUE and EXCHANGEABILITY of the TECH that was delivered to me. The C/S, the Auditor and those who helped get me into session have given me a commodity that is worth more than money, more than material well being – LOTS OF IT. They've given me myself, my sanity, my peace of mind, a way out, a fantastic hope and view of future expansion. My thanks are monumental and my appreciation of Ron is BOUNDLESS.

Jack Dirmann

BEING AUDITED BY A CLASS VI

Being audited by a Class VI means having an auditor who is totally in control of the session, with very high ARC who takes you to a full end phenomenon.

A Hubbard Senior Scientologist is just that, a SENIOR SCIENTOLOGIST. It is pure joy to go into session knowing that what needs to be handled will be handled, every bit of it, and that you will come out of session changed for the better and expanding as a being.

IDEAL TRAINING ROUTE

Get Standard Tech Fast Flow

Now with or without co-audit

What would be the IDEAL TRAINING ROUTE?

It would be a route where you would learn to apply STANDARD TECH exactly.

It would be a route where you could get lots of practice at auditing.

It would be a route that would make co-auditing EASY.

It would be fast.

All the materials would be available.

The supervision would be good.

The gradient would be smooth.

It would be flexible, so that you could mold it to fit YOU.

And it would make LOTS and LOTS of real auditors.

NOW, AT LAST, THAT IDEAL TRAINING ROUTE IS HERE!

The Conditional Route allows you to do the theory and practical of Dianetics and Level 0-IV, and do your co-audit whenever it works out best for you. No waiting, no frustrating delays, no auditing requirements that can stretch out into what seems like forever.

You get the standard tech of one level and learn to apply it. And then you go on to learn the next level. It's that simple. There are no auditing requirements to graduate from one level to the next on the Conditional Route.

Internships after your training give you lots of practice and produce standard, flubless auditors in minimum time.

You can still co-audit concurrent with your courses or afterward. It's easy to arrange a co-audit once you're trained, free of worry that your preclear might need an action you haven't studied yet, free of delay if another student isn't available right when you need to audit a certain action to graduate.

FAST FLOW is fully in. There are no star-rate checkouts (except on Class VIII). You attest to your ability to apply what you have learned. If you have done an item earlier on another course, you may attest you have done so and not have to re-do the item.

With the TECHNICAL DICTIONARY, all the materials and references are there for you to become a top auditor.

Standard supervision helps you move right up the smooth gradient Ron has set up in the levels.

If it works out best for you, you can still do the Provisional Route, and audit each grade as you do the theory and practical of that level.

If you're trying to become a truly top notch auditor in the shortest possible time, go on the Conditional system and take this route, the ideal one for most students:

Hubbard Apprentice Scientologist Course
Hubbard Practicing Dianeticist Course
Basic Study Manual
Method One Co-Audit Course
Level 0-IV
Saint Hill Special Briefing Course (Level V)
Senior Briefing Course (Level VI)
Class VI Internship (Including Dianetics and Class IV)
Class VIII and Internship
Class IX and Internship
Class X and Internship

Alternate to the Hubbard Practicing Dianeticist Course is the Basic Study Manual plus Hubbard Standard Dianetics Course.

Expanded Dianetic training and internship can be done after Class IV or Class VI at your Continental Church (Washington, D.C. or Los Angeles) or at ASHO.

On the Conditional Route you do not have to do your internship before going onto your next course. It is only required that you intern within one year after the last course you do.

Going directly to ASHO and doing your internships there after Class VI is the fastest route. At ASHO, top trained staff make internships rapid and thorough. You become a flubless auditor with a permanent, Gold Seal Class VI Certificate in a few short weeks.

Your local Church of Scientology is all set up to deliver training on the Conditional Route *or* the Provisional Route.

Every possibility of delay has been removed. The only auditing action a student must have is Method One Word Clearing, which can be co-audited before Level 0. The Drug Rundown is not a prerequisite to this. And, if you are held up on getting your Method One, you can even start your Academy or Saint Hill Special Briefing Course starrate and continue starrate until you have had Method One and so become eligible for Fast Flow!

There are NO stops on training now.

You can go right on and get the amazing knowledge of life that is waiting for you at each training level of Scientology and Dianetics.

Work out the route exactly tailor-made route for you. Write the Letter Registrar at ASHO today!

100,000 Auditors means a saner planet

Ron's target for this year is 100,000 active Auditors, Case Supervisors and Course Supervisors by his birthday, March 13, 1976.

That means *hundreds of thousands* on their way to Clear!

It means a saner world for you and your family and friends.

It means YOU need to get trained to make this target a reality!

(1) OBNOSIS: the observation of the obvious; the ability to look at the obvious. (2) FIFTH INVADER FORCE: a theta from the fifth invader force believes himself to be a very strange insect-like creature with unthinkably horrible hands. He believes himself to be occupying such a body, but is in actuality simply a unit capable of producing space, time, energy and matter. (3) IN TECH: when tech is in, we mean that Scientology is being applied and is being correctly applied. (4) DEGRADATION: being big and getting small and not at your own request. (5) CERTIFICATE: an award given by the Hubbard Communications Office to designate study and practice performed and skill attained. It is not a degree as it signalizes competence whereas degrees ordinarily symbolize merely time spent in theoretical study and impart no index of skill. (6) CLEARING: 1. a gradient process of finding places where attention is fixed and restoring the ability of the pc to place and remove attention under his own determinism. 2. what is clearing but regaining awareness that one is himself and regaining confidence. (7) WHY: 1. that basic outness found which will lead to a recovery of statistics. 2. the real reason found by the investigation. (8) SANITY: 1. the ability to recognize differences, similarities and identities. 2. Sanity is the measure of how ably an individual assists things which assist survival, and inhibits things which inhibit survival. (9) BACK TO BATTERY: slang, an artillery term. A gun, after it fires, is said to go out of battery, which is to say, it recoils. Then after it's fired it's supposed to go back to battery, which is sitting the way you see them in photographs. They use the term in slang to indicate somebody is now fixed up. So this guy will be all right for something or, what he has had will now be over.

Class IX Auditor Rocky Stump and his record-breaking catch.

CLASS IX SETS STATE RECORD

Class IX ROCKY STUMP's recent trout catch has set a new state record in West Virginia!

The 4.5 pound, 23-inch golden rainbow trout he caught on May 23, 1975 at Shavers Fork, West Virginia, was confirmed a new state record by the Division of Wildlife Resources, Charleston, West Virginia.

Back from his vacation, Rocky is continuing as Senior Case Supervisor of the American Saint Hill Organization.

New Management Career for Dianetic Student

For GENE ESQUIVEL, Ron's tape called "The Five Conditions" was the start of a career within a career.

Gene's professional life had centered on the printed media, working in various capacities from reporter to managing editor at the Seattle Post-Intelligencer, Long Beach Independent, Press-telegram, Los Angeles Times and Sea Magazine.

After a frustrating experience with his own public relations firm, an old friend asked him to be executive editor of Pacific Skipper magazine, a specialty pleasure boating publication.

"Soon after I began my editorship at Pacific Skipper, I started a course in Scientology administration tech at Scientology Orange County in Tustin, California. The timing couldn't have been more perfect," he writes. "The publisher of Pacific Skipper had been considering management of two other specialty publications. With the data on the course, I really welcomed the challenge. The rest of the staff hesitated to produce two more magazines in the same space, but I soon allayed their fears with Scientology administrative tech, creating an organizing board and making sure everyone knew his job."

GENE ESQUIVEL has become a lot more efficient at his job since Scientology.

Gene continued putting in Scientology administration. He hadn't been at it long when the publisher noticed a great change in his ability and promoted him to general manager and vice president of the corporation!

Gene is now on the Hubbard Practicing Dianeticist Course and plans to be Clear in 1976.

TOP SALESMAN

JOHN FLEMING sold more Mercedes Benz cars last year than any other retail salesman in the country. He attributes his dramatic increase in sales ability to Scientology.

John got interested after reading *Dianetics, Modern Science of Mental Health* by L. Ron Hubbard, and then took the Communications Course in Los Angeles.

"On the Communications Course I learned how to communicate, to talk to people and be able to listen to them. With those basic tools you can do a lot," he says.

John is now receiving auditing at the Los Angeles Church of Scientology and plans to train as an auditor on the Saint Hill Special Briefing Course at ASHO.

John Fleming, soon to do the Saint Hill Special Briefing Course at ASHO, finds communication on his job easier than ever since Scientology.

UND THE WORLD

Former Math Professor Owen Reynolds is now hard at work on the Saint Hill Special Briefing Course at ASHO.

PROFESSOR DROPS MATH FOR SCIENTOLOGY

Math Professor since 1946 at the University of Tampa OWEN REYNOLDS is now on the Saint Hill Special Briefing Course at ASHO full time.

Owen first learned of Dianetics in September, 1949, from the editor of *Astounding*. He watched impatiently for the promised article on Dianetics to appear, and when it came out in May of 1950, he immediately ordered the book *Dianetics* advertised in the issue.

After reading it in just 3 days, he started auditing his wife and then friends. "I got some wonderful results right off the bat," he recalls. "One fellow I co-audited with got rid of colitis that had bothered him for years, took off his glasses and cut his consumption of beer from a case a week down to a couple of bottles in a weekend."

He signed up when the Hubbard Standard Dianetics Course came to Orlando, Florida in 1970. He later finished it and the Primary Rundown in Miami in 1972.

In the winter of 1973, he quit his job at the University of Tampa and went into Scientology training full time.

After his Academy training and internship, Owen came out for the Saint Hill Special Briefing Course at ASHO. After his internship, he'll be returning to Tampa to work as a Scientologist there, while his wife comes out for Clearing and OT.

Father of 6 children, Owen comments "I don't know how we would have raised them without Dianetics. Every time there was an accident we would run it out with excellent results."

His oldest daughter Kathy and her husband Jim MacKendrick will be out for the Briefing Courses and training to Class VIII at ASHO within a month. Kathy received an award at last September's Auditor's Day celebration in Miami: in 2 years on staff there she has delivered 3,250 hours of auditing!

Doing the Briefing Course has proved quite a revelation for Owen. "When I did my earlier training I felt I understood what I was studying. But when I finished Part I of the Briefing Course, I realized all this time I had been reading a continued story starting with the second installment! With the Briefing Course I have finally found the first installment and I can really see what Ron is talking about now. So much is falling into place and making much more of a unit than I had ever suspected it would," he says.

"Standard Tech today is not only standard in its application but standard in that anybody can learn it who wants to. That is what impresses me," he goes on. "It leads to a consistency of wins that we would have thought incredible in 1950."

OT Edith Johnson finds her writing and editing a breeze since Scientology.

OT AUTHOR

EDITH L. JOHNSON, OT III, has just had her book "Secrets of Top Money Extra Income" published by Parker Publishing Company. Since becoming an OT, Edith says, "I can write faster and easier. When something requires handling, I can usually find the solution with little or no effort."

In addition to her full time job in charge of Public Relations at the Phoenix Park and Recreation Department, she does volunteer work for the local Scientology Mission.

She also finds time to do her free lance writing, which includes a monthly magazine column and a recent animated TV series.

TV STAR AWARDED SHSBC

Familiar face on TV ROBERT F. LYONS has just been awarded the Saint Hill Special Briefing Course by L. Ron Hubbard for his outstanding contribution to broad public Scientology dissemination.

In addition to directing the L.A. September Event in 1973, Bob has been on many TV talk shows in L.A., New York, Boston, Arizona, San Diego and Washington, D.C. to tell about Scientology and its importance in his acting career. The Keyout Players, an improvisational group he founded and directed, have appeared on major television shows such as Steve Allen and Merv Griffin and have played nightclubs all over the country disseminating Scientology.

Some of the TV series he has appeared in recently are *The Young Lawyers, Ironside, Judd for the Defense, Night Gallery, Petrocelli, Bonanza, Paper Moon, The FBI, Gunsmoke, Bronk.* He is especially proud of his starring role in Movie of the Week *The Rookies* which is now a successful TV series.

"Before coming into Scientology I had a very difficult time dealing with audiences. I just couldn't confront groups. Now I love to talk to groups on TV or radio about Scientology or any other subject," he says.

Robert F. Lyons sets out for an early morning TV filming.

Now an OT III Expanded, Bob is a Dianetic auditor and plans to start his Saint Hill Special Briefing Course at ASHO soon.

Actress takes Training Route

Movie actress JOAN PRATHER got interested in Scientology through GEOFF LEWIS, Grade IV Release, while they were both filming *SMILE.*

After reading *Dianetics, Modern Science of Mental Health,* she wanted to know more and immediately began her training. She has now finished the Hubbard Standard Dianetics Course and internship and is on the Method One Co-Audit. She's going right up the training route to Class VIII!

Scientology has helped her be more successful in her work she says. "I FEEL better since Scientology. I definitely feel that I am more myself. An agent asked my manager what she thought of Scientology and she said: 'All I can say is, my client, Joan Prather, is in it and I've never seen more change for the better in anybody that I've ever handled, and just by her example, it must be an incredible thing.' "

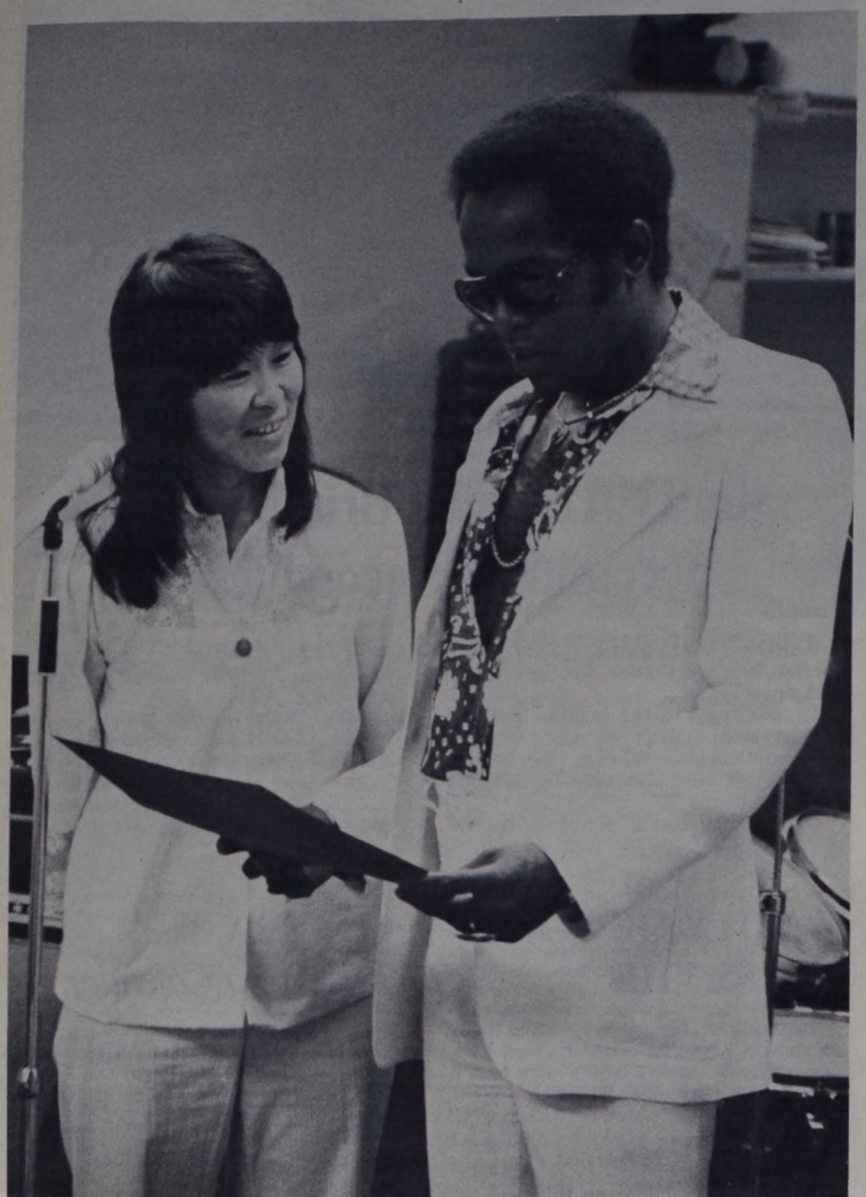

Her newest film, *Devil's Rain,* with Ernest Borgnine and Eddie Albert, i doing very well. This month Joan wil be filming one of the leads in a new movie, *Midnight Auto.*

Singer Lou Rawls gets his HAS certificate at graduation from Betty Murakami of Celebrity Center Las Vegas.

LOU RAWLS

Graduates as Hubbard Apprentice Scientologist

LOU RAWLS, internationally famous blues singer and recording artist, graduated from the Hubbard Apprentice Scientologist Course in Las Vegas, Nevada in August of 1975!

Lou, known especially for his hit songs "Natural Man," and "Love is a Hurtin' Thing," plans to take more Scientology courses when he returns from his current tour. "With Scientology, I'm going all the way!" he says.

Since doing the Communication Course, Lou reports "I find it easier to deal directly and complete things, instead of 'scattering' as you tend to do in this business. Scientology has helped me tremendously in my life and work. I have just become more 'me' than ever before."

Lou has recently been asked to play the lead in the Louis Armstrong story, an upcoming movie. He plans to continue recording as well as expanding into acting.

Richard Jiminez flew himself and his wife Anita to St. Louis on weekends to get his auditing up the grades!

PILOT FLIES TOWARD CLEAR

POWER RELEASE RICHARD JIMINEZ picked a rather unusual mode of transportation to get his auditing up to Grade IV – he flew his own plane from Wichita, Kansas, to St. Louis on the weekends!

As soon as he finished his Grade IV, he came out to ASHO for his Expanded Dianetics and Power Processing.

Richard is head of the engineering department at Bede Aircraft in Kansas, and runs his own Aircraft Development Company at home with his wife, Anita.

After reading Ron's books, he began applying Scientology to his job and morale in the department soared. He's noticed greater respect from both his employees and his seniors.

"I feel younger, healthier, think faster and remember things better," Richard says. His wife reports the whole family gets along better (they have two children) since she and Richard have been getting audited.

Since completing his Power Processing at ASHO, he's been asked to write a series of articles for the magazine Wings Unlimited. "Power sure lets you get things done," he comments.

ASHO TRAINS MORE STANDARD SUPERVISORS FOR CHURCHES AND MISSIONS

NEW FSM PROGRAM FOR CHURCHES AND MISSIONS

To make sure all students get full benefit from the Conditional Certificate System and Fast Flow Training, ASHO has launched a special Award program that will provide more highly trained 100% Standard Supervisors in all Churches and Missions!

For every three people sent to ASHO Day for a major service between November 1st and December 31st, 1975, the Church or Mission sending them will be awarded a $500 training voucher to be used by any staff member for the Hubbard Professional Course Supervisor Course or Hubbard Senior Course Supervisor Course.

These awards must be used no later than the 31st of January 1976 and be applied toward the two supervisor courses mentioned.

To make Ron's target of 100,000 Auditors, Course Supervisors and Case Supervisors, every Church and Mission needs top trained supervisors to give all students standard supervision along the training route.

Help achieve a Clear planet faster! Help your area make more auditors! Tell your Church or Mission you want to go to ASHO Day by December 31st so your area can have more highly trained supervisors.

FOCUS ON SUCCESS

ALONG THE TRAINING ROUTE

Conditional System

I learned a lot on this level and have made great gains since being on this course and completing it. I am interested to get thru the other academy levels and DO the internship for 0-IV so I will HAVE the skills needed and wanted to deliver these services to the beings on this planet.

SHEILA MUNSEY, Class I

It was really a win to get onto the Briefing Course.

I did my Academy Levels on the Conditional system. When I finished I really felt like a Class IV auditor and now getting all the tremendous data on the Briefing Course validates what I've already learned. It adds in the total theory and understanding of the processes.

I'd recommend the Conditional Certificate route for anyone who wanted good fast flow training. It's a fast, smooth training route.

BRENDA YATES

Saint Hill Special Briefing Course

Doing the Briefing Course has helped to fill in the holes in my understanding of the tech which has made my auditing as a Class IV less than totally effective at all times. As my understanding increases so does my certainty and my ability to apply the data – it feels like going Clear on the subject of auditing!

JULIE GERBODE

Reading Ron's materials in chronological order from the beginning gives one a grasp of the development of the technology unmatched in any other course.

You can see where he was at at the time. His speed of particle flow even in the early 50s was tremendous. And the actual amount of digging around, changing, investigating, and breakthroughs he has made in as little as 25 years (since the initial tech of Dianetics) is rivaled by no other endeavor on earth.

It's taken Ron 25 years of painstaking observation and test to come to where we are now.

I'm grateful to have the opportunity to follow that track, for here I can at least get the taste of what it must have felt like, and a grasp of what he discovered for myself.

The SHSBC is a map of the discovery. Though its content is knowledge, its form is pure art. It's not a course, it's a phenomenon. And one can only experience it to really know what I mean.

STEVE DRABIN

What is really marvelous is the way Ron has cut the gradient and cut the gradient to get us 'knuckleheads' to duplicate what it is he was trying to put across. That's what I guess is the most astounding thing about Ron, his infinite patience at getting his communication across so that we could do what he was able to do – produce Clears. This course is the application of a gradient to being able to produce auditors. I am glad to be on that road and on this course.

LARRY SHELTON

I just finished Part II of the Saint Hill Special Briefing Course which covers 1959 thru 1961 materials. Two things stand out among the many wins I had on this section. First is the know how on how to run a session with high auditor presence and what auditing the pc in front of you really means. This used to be a mystery to me, sort of a knack. Now I know it has mechanics and can be understood and learned by anyone who is willing to do it.

The second major win I had was the increased ability to grant beingness to people into games I disagree with. While walking down Hollywood Boulevard last Saturday night after a movie I passed many freaky people and religious evangelists who used to make my hair stand on end but on that night I was able to confront them calmly without snickering to myself or getting misemotional. I took a look at what changed in me during Part II and I realized that it's mainly an understanding of where people are at and a knowingness on what it takes to handle them. I used to have a feeling that I had to help, but that has been replaced by a certainty that I can help when they are reaching for help and that is a nice win.

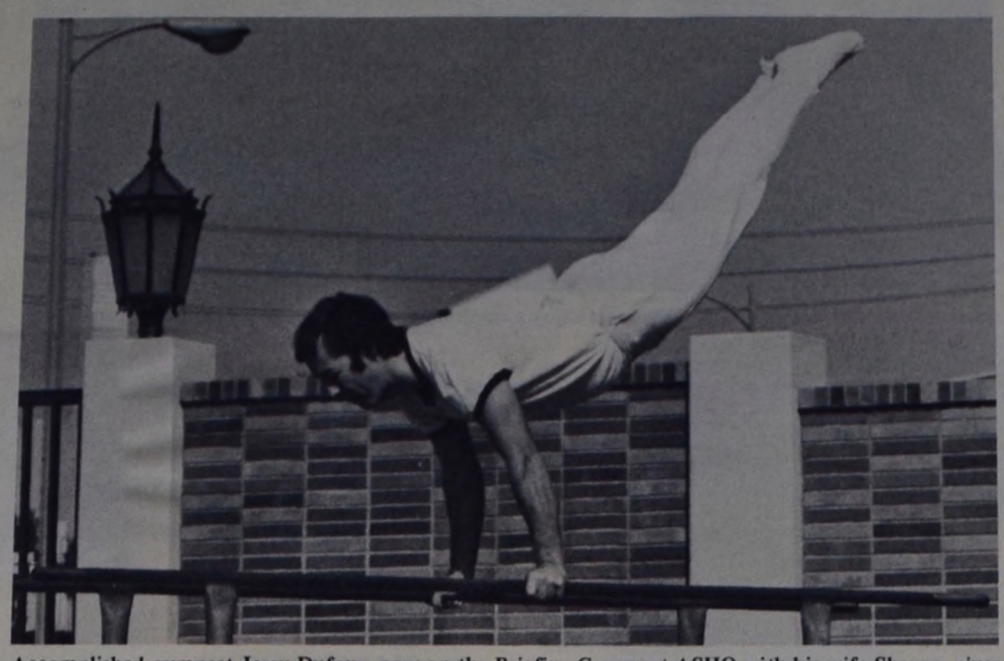

JERRY DUFOUR, JR.

After my Academy Levels and Class IV Internship, I knocked around Toronto getting auditing experience. But when I arrived on the Briefing Course and started reading all the Professional Auditor's Bulletins, listening to the whole series of lectures he gave the first Saint Hillers, I wished I had come sooner.

Instead of studying bits and pieces of tech for specific auditing applications, I found myself studying the whole of tech and its development in order to make myself into a fully educated Scientologist. Instead of studying only part time in the evenings, I found myself plugged into Source 11 hours a day – theory in the morning, drills in the afternoon, auditing at night.

Now I'm nearly finished, and I'll miss being in daily communication with Ron. But there is a lot to do in the world, and I now feel a lot more able to do it.

BRUCE FLATTERY

Accomplished gymnast Jerry Dufour, now on the Briefing Course at ASHO with his wife Sharon, gives an athletic demonstration.

Class VI Internship

My Class VI Internship at ASHO was the most rewarding experience I have ever had. It's vital that everyone of you auditors do an internship as soon as you finish.

I am so delighted that I as a being can deliver Ron's tech and really help a fellow being. I feel great.

CRISS LICKERT

Class VIII – Total Certainty About the Tech and its Workability

The Class VIII Course is really an eye-opener. How could I have missed so much data before? This course really strips the vital data out, which is basic, basic, basic and there you are a flubless, flawless smooth as silk Class VIII.

ARNOLD BARRACK, Class VIII

This course has been the most incredible adventure of this life or any other life that I can recall. The wealth of Scientology data that is on the Saint Hill Special Briefing Course is simplified and aligned with later data to make totally STANDARD, flubless Class VIII Auditors. The awareness of the simplicity of the tech is a win all by itself.

The biggest win for me is the gaining of the ability to think with the tech and not have to rely on route memory circuits of tech procedures. At Class VIII the data is totally yours!

JACKSON PETERSON, Class VIII

It's an incredible experience to be on course from 8:30 a.m. to 11:30 p.m. and NOT have it seem like a long time or feel tired at the end of the day! The VIII Course is great.

The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of the Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed, or owned only under these conditions.
