CERTAINTY is knowing you'll get results

by L. Ron Hubbard

If you were to take a person you were training as an auditor, and a moment before they had put their hands on a single case, were to cross-question this person as to how he felt, you would probably discover that he had a certain antipathy toward doing anything about another's mind.

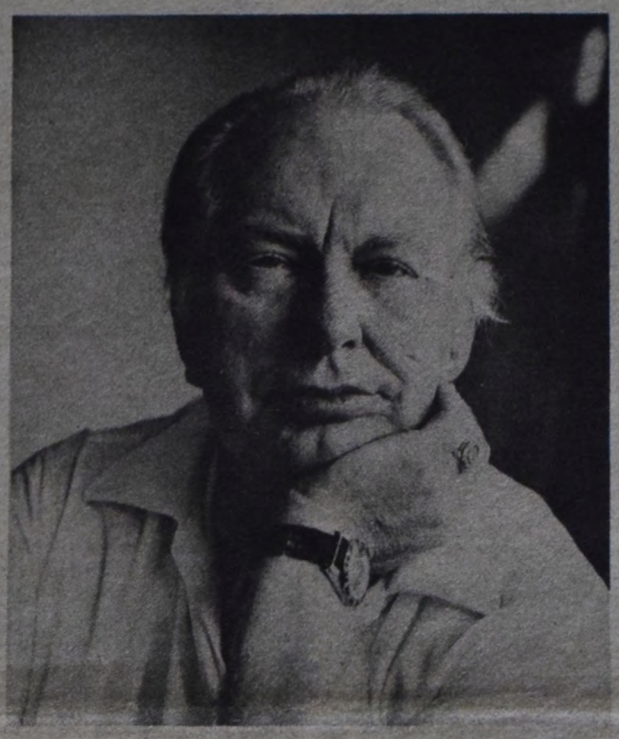

Another's mind, after all, has been granted supernatural tendencies; it has a lot of superstition connected with it. This is something which you as an instructor would have to overcome.

The best way to get over this, I would say, would be to demonstrate to your student as an instructor the existence of a facsimile and a storage of pain. Remember you're probably dealing with somebody who has no indoctrination in the mind at all, or if he does have any indoctrination it has been in some other direction.

Demonstrate to him the existence of a facsimile and the extreme simplicity of this facsimile, the very very simple thing this facsimile is. The best way to do it is with an E-Meter.

Sit him down, put the cans in his hands, pinch him good and hard so he can feel the pinch. Show him the needle of the machine and watch it dip the second he's pinched. Then say, "All right, go back to the moment I was pinching you". He can do this easily. "Now run through and feel again this pinch". He does and the machine dips. He'll watch the machine dip – dip – dip – dip. You'll have to go through it a lot more times than with an actual incident. All of a sudden he says "That's very strange. The pinch that went into my arm was stored or recorded somehow."

Now get his emotion as he was pinched, and you'll see that there's a little emotional curve bob, particularly if you pinch him suddenly.

Just reach out suddenly and pinch him without telling him you're going to pinch him, and you've got a nice emotional curve to show him on the meter. As simple as this might seem to you, it is quite revelatory to some people.

The next thing you could do, still showing him the meter, would be to show him that his thoughts had recording value. You say, "Do you remember your father?" The machine does a little bob. "Did your father ever punish you?" The machine does a bigger bob. "Recall a time when your father punished you." The machine does a big bob. Recall, recall, recall – all of a sudden the machine isn't bobbing and he is not bothered. He realizes suddenly that he isn't quite as bothered about this.

Now that's straight memory. That demonstrates that he can be in present time without any close contact with this facsimile and pick things up out of it.

This demonstration will show him that this exists and that something happens. You demonstrate phenomena to him, that's the first thing your student has to know: the phenomena exist.

If you're teaching him to audit, the next thing is *not* to ask him to try his skill one hundred percent on a preclear the first time. He'd be scared to death. This is something he "mustn't touch". He's superstitious about it. He has gained the idea that the phenomena exist but this still has not gotten him across this one bridge – he hasn't touched a preclear's mind yet. He expects the preclear to blow up, or something strange to happen if he does something to his mind.

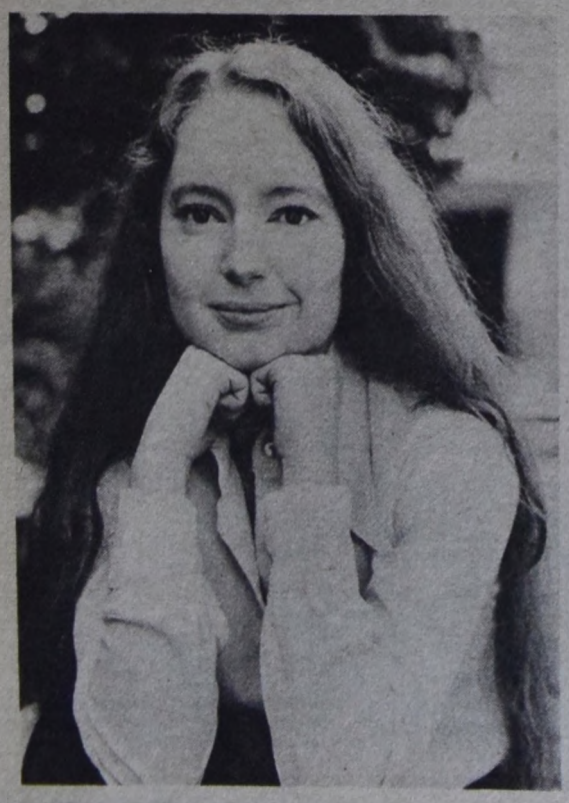

So what you do is take your old copy of *Self Analysis* or *Handbook for Preclears* and you put it in his hands and you give him a preclear and you make him read this to the preclear, make the preclear recall these things, and his confidence will come up the line.

If you want the student to get a further reality on this subject, make him be masochistic to this extent: Have him take his right foot and stamp on his left toes, and then take his left foot and stamp on his right toes. Then run out the right foot only, and he will be able to see that his left foot keeps on hurting, but his right foot isn't hurting now. That's a very simple experiment, but it demonstrates to him that a facsimile was what kept his right foot hurting and it demonstrates to him that you can do something about it and that that's what auditing does.

These are little proofs – easy ones.

Let him become accustomed to his tools, little by little, each time gaining reality on what

Dianetics Released in Spanish!

Diana and Quentin represent Ron in Los Angeles and Mexico

In Los Angeles

A historic celebration was held May 9, 1976, 26th anniversary of publication day for *Dianetics, Modern Science of Mental Health*. On the very same stage where L. Ron Hubbard gave his first Los Angeles Dianetic Lectures in 1950, the Spanish translation of *Dianetics* was unveiled 26 years later by the Commanding Officer of Ron's Publications Organization for the U.S., Canada and Mexico.

Next Diana Hubbard Horwich, Ron's beautiful daughter, was greeted by an enthusiastic audience that cheered and applauded for nearly two solid minutes. She told of the new frontiers of expansion for Dianetics and Scientology – into Mexico, Brazil, Colombia, Argentina, Peru, Paraguay, Ecuador and Cuba. From places as far away as Portugal, Greenland, Kenya, Ghana, Camaroon, Tokyo, Pakistan, the Phillipines and even Yugoslavia, people were celebrating May 9th, anniversary of *Dianetics* publication.

Since last May 9, a quarter of a million copies of the book have been printed. It is translated into 9 languages, and 32 European countries are currently demanding distribution rights.

Diana brought words of appreciation from her father for the support of Scientologists over the last year. Ron is now writing a book which is to be released next year, along with two more for later release.

Quentin Hubbard, Class XII, brought news of Ron's researches into nutrition and filmmaking, as well as new OT rundowns to add to the L series.

Quentin also brought word of Ron's plan to release OT 8 as soon as there are 10,000 OT 7s!

Entertainment was by Jimmie Spheeris and the spectacular T'Shura of Israel.

During intermission, ASHO featured consultation booths to help event attendees up the Bridge. A lively attraction was the challenge to anyone to try and break up the TRs of two Briefing Course students!

he is doing. He has to have subjective reality. An auditor who does not have subjective reality on this subject finds it very difficult to understand what is happening to the preclear. He can study it until he is the best-read person in Scientology, and he still will not be a good auditor if he has never touched physical pain in himself, if he's never experienced an emotion out of a facsimile. If he doesn't have any reality on this he is not a good auditor.

So anytime you're training auditors, you'd better encourage them by the process of taking it a little bit at a time and a little bit at a time and a little bit at a time to get their hands dirty. Get them to work on each other. Get your advanced students to work on the earlier students up to a point, with good auditing, so that you wind up with students who are Clears. They've got all the tools, there aren't any bugs left in it. You've got the tools, you learn the tools, you apply them with good reality, with good confidence – you get Clears.

Then you've really got auditors. If you could, for instance, clear a medical doctor, you would have somebody that could go around creating more miracles in less time.

There is one doctor in New York City whom I taught straightwire. He learned it crudely. He was unable to give more than about fifteen minutes at the outside to a patient. Patients came into the office in streams, one after the other. The doctor knew enough about straightwire to knock out some "maybe's". And by George, he was turning off psychosomatic disease three out of five, patient after patient. He called me up one day and he said "Someday I'm going to learn some more about your subject – it must be able to do better than this."

I went over and talked to him for a little while in New York one day, and found out he was using the lowest possible order of straightwire and was getting results like this! Why? He was a doctor, people went there to get well. He would knock out a "maybe" and it gave them an excuse to get well, so their psychosomatic disease would turn off. He'd never been able to get anybody turned off with regularity before, so he was quite interested.

The odd part of it was, he was taking it as routine. Nobody said to him "Well, there are times when this can't be done and there are times when it can be done". He just happened to come over one day and hear a talk by me and said, "That's a very interesting idea" and went back to his office and got to work and never talked to anybody else about it.

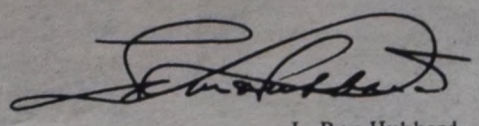

By the time he was talked to and told "Really you should do all this with a globe of the world hanging as a pendant from the left chandelier" or something, he had so much *reality* on it that he just looked at these people and said "you're crazy. It works."

If you give an auditor just the conviction on one tool, you have preclears who are really up the Tone Scale.

What I am telling you is that a broad, foggy, unreal knowledge of this subject is nowhere near as valuable as one scrap of real information which you have seen produce a result.

In other words, introduce the subject to him step by step with all the reality which you can give him on the subject. Not by telling him he has to believe, because he natively, inherently *is himself* belief. Not by telling him he has to have faith, because he natively *is* faith. But by telling him that here is data and phenomena he can understand, which can be understood and which is real.

We are only asking you to find out for yourself that it is real and then apply what you know out of it that is real to others and get results.

DIANETICS RELEASED IN SPANISH

continued from front page

A giant replica of the new *Dianetics* in Spanish was unveiled on May 9th in Los Angeles.

In Mexico

A week of events culminated in the release of *Dianetics* in Mexico!

Interviews with Sylvia Pardo, very highly respected artist in Mexico who has just returned from Flag as an OT III, appeared in all major newspapers prior to the event week. A national TV show with 12 million viewers also featured Sylvia talking about Dianetics and upcoming events. Response was wildly enthusiastic – people flooded the station with calls, and phones rang at Mexico's Instituto Filosofia Aplicad for days afterward.

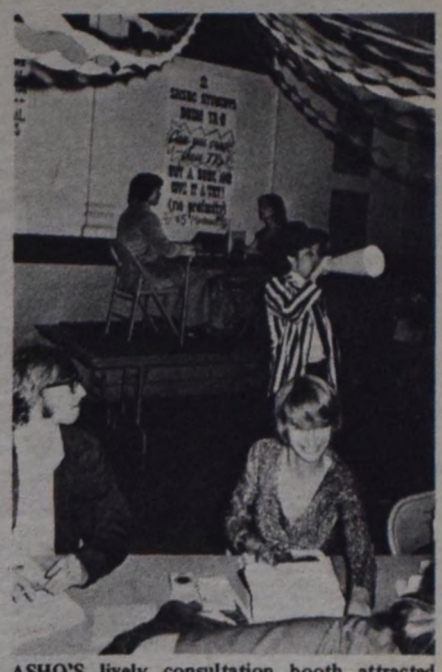

More than 1000 people, including the wife of Mexico's President and many other dignitaries, mobbed the grand opening of I.F.A. April 24 to learn more about Dianetics and to see an art exhibition by Sylvia.

Seminars on Dianetics began the next day and continued through Thursday April 29 at Mexico City's Camino Real Hotel. Two hundred people attended the first seminar, and by week's end the group had grown to 450! 70% of them were brand new to Dianetics. During the week days, speakers from ASHO, AOLA and Flag were there to bring the reality of the whole Bridge. Friday, the Spanish edition of *Dianetics, Modern Science of Mental Health* was released at a huge banquet. Diana and Quentin were there to represent L. Ron Hubbard.

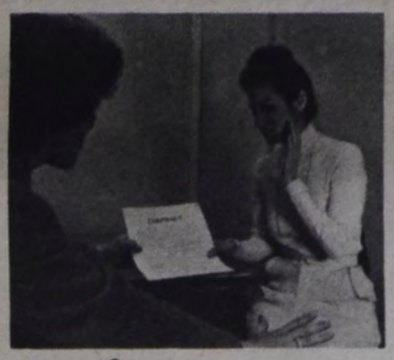

T'Shura and the famed Apollo Stars performed, and Yvonne Jentzsch was presented with a plaque for her contributions in bringing Dianetics and Scientology to Mexico.

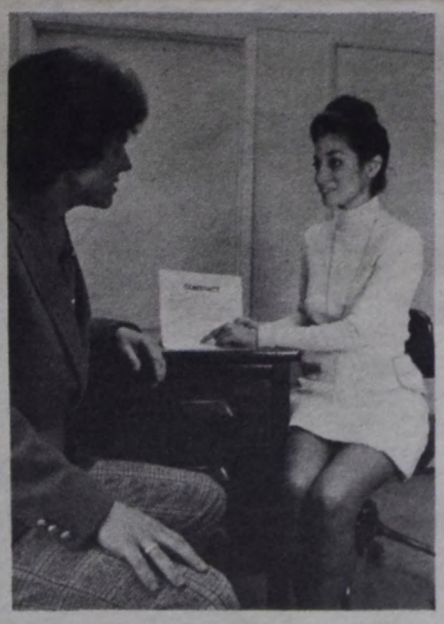

Starting at 9:30 p.m., the banquet lasted until 4:30 a.m. – and the room was as full at the end as at the beginning. Nearly everyone bought their own copy of Spanish *DIANETICS*, and by the close of the events a great many had signed up for the whole Bridge.

Originated by Ricardo Garcia, audited and trained at ASHO, this magnificent series of events has opened the gates of clearing to the country of Mexico.

ASHO'S lively consultation booth attracted many interested onlookers!

ASHO Students Gain Certainty

GETTING RESULTS

Being at ASHO and doing the Briefing Course is nothing like I expected. After finishing the IV Internship I felt I was good enough – not great but good enough. I came down to ASHO for the training package including Power and Solo, which was the incentive.

I'm on Level VI now and what I got from this course is truly an almost overwhelming series of wins. My knowledge of what makes this tech work is invaluable. There is not even a comparison of how I thought I could handle life before and how I can now.

The most dramatic win was a week ago when my father came in my room at 5:30 a.m. having an attack – severe, and from all appearances he looked as though he wasn't going to stick around in his body. I actually was quite terrified (to put it mildly) but the tech came through and I handled it. He is quite naturally now reaching for Scientology.

The amazing and phenomenal part about it is – the more your knowledge increases as mine has on the SHSBC, the bigger my gains and the more spectacular are my wins. How grateful I am to Ron for making this course possible.

Jolee Marshall

The main reason I decided to do the Briefing Course is that it was about the same price as a package with Power as getting Power by itself.

I really had no intention of being an auditor because I had no certainty that the auditing tech worked, as I was not able to produce results in the preclears I audited. I thought most of the cases I had handled were tough cases and I was more interested in getting my own case handled than in training.

I started the Briefing Course in hopes of it being an easier way to get set up in a co-audit. It was much easier to do a co-audit with the added benefit of getting better daily as an auditor and the C/Sing being very standard, plus there were many students on the VI part of the course ready to handle any necessary repair actions my auditor may not have done yet.

I have found, from study of the materials on the Briefing Course, that there are many essential things that I didn't observe on the meter and in a preclear before. Therefore, I now get results as an auditor and am quite confident that the tech works.

The main thing I have benefitted from however is not auditing but an enormously increased ability to handle situations in life, including my relatives whom I could get across little reality on Scientology before.

Sioux Bushman

Jolee Marshall clears a word with her preclear Alice Smith on the SHSBC at ASHO.

Recent Class VI Graduate Bob Taylor, who earned enough money in 6 weeks to pay for all his full time training and OT levels after completing Class IV and Grade IV in Las Vegas.

APPLYING STANDARD TECH ON INTERNSHIPS

This is one of the biggest wins I've had – I finished the VI Internship! When I started I didn't really want to audit but that has totally changed; not only do I want to audit but I look forward to auditing and can do it VERY well and produce good results! I can't validate ASHO staff enough for making this possible. This feels like the top of the mountain.

Jan Welda

CERTAINTY

Completing Class VI is like the total recognition of a persistent Floating Needle that won't quit! I got what I came here for – knowledge and certainty. This has got to be the greatest course on the planet – and ASHO is just the org to deliver it.

The MEST universe, the Bank, the auditing to handle the two of those and the Thetan – by the end of the course these are all so incredibly simple. My deepest thanks to Ron for brilliant perception and restoring me to truth.

Phyllis Harris

The certainty is absolutely phenomenal. The number of stable data I'm operating on are less and less and truer and truer. If you want sanity and tech on auditing and life, you've got to do the Briefing Course.

David Dorsey

One aspect of the Briefing Course that takes a top star rating in my book is the C/Sing for the students. The C/S indications are "on the nose." The correction is pertinent, fast, and thorough. Without a C/S who can spot everything and keep the auditors and pcs winning, an auditor course, no matter how much data it may contain, will lack some amount of certainty for the auditors in relation to their technical skill. It's needed, and it's appreciated, and it's definitely here at ASHO.

Steve Drabin

As a Class IV Auditor with three years of Hubbard Guidance Center experience, although I had great successes and many many wins auditing, I was acutely aware that there was a lot of data missing from my universe about auditing. The Saint Hill Special Briefing Course is filling in that missing data and it is positively incredible!

My certainty and understanding have increased by many times. It is something I am sure I should have done 2 years ago and now I'm on the bandwagon for all Class IVs to do it. You don't know what you really are missing 'til you do!

Debbie French

BEING ABLE TO HOLD A POSITION WITH CERTAINTY OF TECH

I'm much more aware of myself and more aware of many other universes.

I have no uncertainty of my ability to hold a location in space both as a being and as a tech trained terminal.

It's a whole different ball game between a Class VI and a Class IV. You have certainty of the tech – you have a much much broader understanding of what it's all about. Not only do you get a philosophical understanding of Scientology from A to Z, but you also drill it and then you audit it. It really does give you total certainty on being able to audit anybody up to Power.

Bob Taylor

Having just completed the Saint Hill Special Briefing Course I can say without a doubt it is the most worthwhile and uplifting activity I have done since I've been in Scientology. I have attained a huge increase in knowingness and a much greater willingness to take responsibility across all dynamics – I feel I have an excellent grasp of many basic tools and am ready to play the game at a new level now.

★ *Certain.* You go on to Clear with tremendous confidence in your own ability to apply auditing basics.

★ *Rewarding.* One Class VI Graduate said "Going Clear without doing the Briefing Course is like coming in at the end of the movie." As a Class VI, you'll *know* how Ron evolved clearing.

Prerequisites to Class V: Hubbard Dianetic Counselor, Basic Study Manual, Method One Word Clearing; and either Class IV or Clear.

Allow 6 months full time for both V and VI, or a year part time.

Donations: $775 for Class V, $775 for Class VI. Add $375 for Internship to earn permanent certificate.

If you're working on your lower training now, send your donation to reserve your place to: REGISTRAR, Church of Scientology of California, ASHO, 2723 W. Temple, Los Angeles, California 90026. Write the Letter Registrar for details on how you can save 5% with advanced donation!

Full understanding of auditing tech makes a big difference in the results your preclears get. It makes a big difference in the results you get for yourself in life too. And only comprehensive Briefing Course training can give that to you.

If you're a Class IV Auditor or Clear, don't delay. Get started on the greatest adventure of your life. Start the Saint Hill Special Briefing Course at ASHO right now!

Class VI Graduate Peter Hallam put finishing touches on his drawing of the Scientology structure just before shifting to full time study on the Briefing Course.

Architect Completes Design for Scientology Building

Peter Hallam, who for 16 years has worked with the best architectural firms in South Africa, Europe, Scotland, England and the USA, has completed his plan for a Scientology Organization building. First begun as his graduate thesis at the University of Capetown many years ago, he recently completed the final drawing while a Saint Hill Special Briefing Course student at ASHO. He has now just graduated as a Class VI.

To create the design, he studied every policy letter written and designed space for all posts on the org board, building each unit around a mind-body-product concept. Originally designed to serve the needs of the city of Capetown for a Scientology Org, the first segment is to house 1200 students and expand one segment at a time to full size of 10,000 students. Larger than Rockefeller Center, the structure could be executed today exactly as laid out. Every achitectural detail has been considered, including the use of natural light. Completed out of gratitude to Ron, Peter estimates the value of the architectural time on the project would be $2 million today.

As an architectural student in South Africa in 1963, Peter had concluded sane architecture could not exist without a technology of the mind. "When I read *Dianetics*, I realized L. Ron Hubbard had evolved exactly what I was looking for," he recalls. He immediately began studying at the local Scientology Organization, and his work changed a great deal as a result. He went on to become Chairman of the Architectural Student Society of South Africa, and disseminated Scientology at all universities there, personally contacting hundreds of students.

He later worked as an auditor and senior executive in the Scotland Church of Scientology for 3 years.

He recently became a full time student to complete his Class V and VI training at ASHO. "My confront on life is greatly improved from 13 years ago, and by that I mean confront without compromise. My results now are first class. I have no back off from any type of preclear. I know what auditing is and what it isn't."

Most artists, he points out, try to use their subject as a route to freedom. "Architecture is not a route to freedom for me now — it's just architecture. I feel very clear about that and very down to earth about Scientology too," he says.

Peter will be doing his Class VI Internship at ASHO following a co-audit.

Award-winning filmmaker, OT I Bert Salzman, in action.

OT WINS OSCAR

On March 29, 1976, OT I Bert Salzman of New York became the first Scientologist to win an Oscar – the film industry's most coveted award.

In accepting the gold statuette before a worldwide television audience of 90 million, Salzman concluded his speech with:

". . . and last, but not least, I'd like to thank a good friend and a beautiful human being who helped me pull it all together, Mr. L. Ron Hubbard."

"Angel and Big Joe", which Salzman wrote, produced and directed, was voted Best Short Live Action Film for 1975.

In an interview at the celebration held for Salzman at Celebrity Centre in Hollywood, he said greater understanding of the KRC Triangle (Knowledge, Responsibility, Control) has made the difference in the improvements in his filmmaking in recent years.

"You have to know what you're doing in directing a film," he said. "Then you have to take responsibility with the actors and see that the scene is presented just right. And control . . . that really makes the difference. By using Ron's data, I've been able to control the environment around me much better, which is the key to making a good film."

Tone level also played an important part in the directing of the film, he went on. "Angel and Big Joe" reflects the friendship that a fatherless teen-age boy builds up with a telephone lineman. "I presented the film at the tone level people could receive it," Bert noted.

He plans to expand into feature films. As for his future in Scientology, Salzman says he wants "to be trained to the top."

Stock market whiz Steve Goldfield helps a client make the right decision.

Briefing Course Student Wins in Stock Market

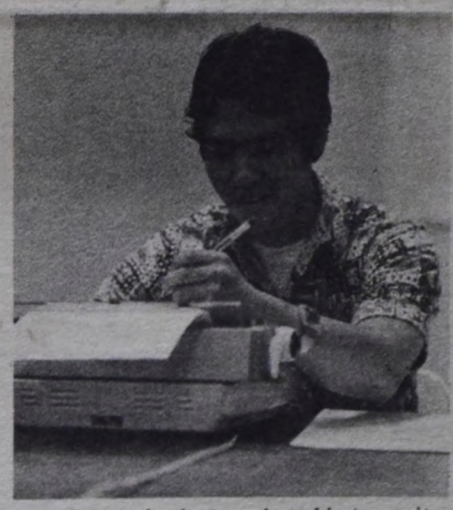

Steve Goldfield directly attributes his success as a stock broker to the training he's received at ASHO on the Briefing Course.

Since being on the Course, Steve, an OT III who has recently done L-10 and L-11, finds he can handle clients better and reduce problem situations. He operates his own brokerage firm in Encino, California through Universal Heritage Investments Corporation which has offices throughout the country. Other brokers have been puzzled by the fact that even when they're in a slump, statistics over at Steve's office keep on rising!

"Perception and knowing about the mind has helped me know a good deal from a bad one," he says. "My stable datum is that I never lose on the stock market. I only lost money once – $80 – and that was when I followed someone else's advice instead of my own knowingness. I don't do that anymore, and I've won thousands of dollars as a result."

Steve says his biggest win in taking the Briefing Course has been the stabilization it has brought to his life. "As a matter of fact," he says. If it weren't for the Briefing Course, I probably wouldn't be in the stock market today."

Another part of his success secret is applying Briefing Course data with other stock brokers who work for him. "I've established a safe space, and that's something that doesn't occur in other brokerage houses," he comments.

John Inouye hard at work at his typewriter.

Better Results Since Scientology

John Inouye has been writing since he was 15. But it wasn't until he discovered Scientology in 1974 that he stopped getting rejection slips and started selling stories.

"Scientology training and auditing have boosted my ability to write better stories in less time," says John.

He now has 43 stories published. He is also studying film making at the University of Southern California in order to expand into that field.

He is now training on his Academy Levels in Los Angeles in preparation for the Saint Hill Special Briefing Course at ASHO.

Diann Caudill works intently on her pottery in her new studio.

ASHO Student Conquers MEST

Diann Caudill, an OT IV currently completing Method One Word Clearing in preparation for the Saint Hill Special Briefing Course at ASHO, has carved out a pottery studio from an empty shell of a garage in just 2 months.

She started out with an 80-year old garage with holes in the walls you could put your fist through – no windows, no water, no electricity, and a floor piled with what turned out to be 4 truckloads of garbage. (Just clearing it out took a month). Then, with a pottery show coming up in just two months, she created a studio with water, windows, and electricity using 350 pounds of cement and a lot of confront. "I got over the inertia of the physical universe," she says. "I *said* I could go from A to B before Scientology but I didn't do it. Now I can!"

She is steadily becoming recognized as an artist in ceramics, with continuously rising sales. Her last Christmas showing was nearly double the success of the previous year.

"I use Scientology every day," says Diann. "Before, I was utterly frustrated as an artist. A lot of my energies that I now put into my work I was using up in handling my reactive mind. I broke through those barriers in my auditing."

She is also an active Field Staff Member, with 25 people she is currently helping to move up the Bridge.

Her husband, Wayne, is Chief Lab Technician for Shell Company and a weekend student on the Saint Hill Special Briefing Course at ASHO.

"If I have fought for a quarter of a century, most of it alone, to keep this work from serving to uphold the enslavers of Man, to keep it free from some destructive 'pitch' or slant, then you certainly can carry that motif a little further. I'll not always be here on guard. The stars twinkle in the Milky Way and the wind sighs for songs across the empty fields of a planet a Galaxy away. You won't always be here. But before you go, whisper this to your sons and their sons – 'The work was free. Keep it so.'"

Mary Ribiero on the run – she completed her Class V and VI training in just 3 months and is now on Class VIII! "Class VIII is everything people say it is. I can feel things getting simpler and simpler," she says.

Chemist Gains Certainty as an Auditor at ASHO

Mary Ribeiro, ASHO Class VIII Student, had been a chemist for 17 years up until last August when she came to do the Saint Hill Special Briefing Course at ASHO.

A full time student, she graduated as a Class VI in just 3 months, followed by a rapid Class VI Internship of 4 weeks. At the end of her Class VI Course, she decided to stay at ASHO for more training. "This involved getting agreement from people back home, renting my house, and finding the money to stay – all of which I did with no problem. I don't think I could have before. The Briefing Course gives you tech to really handle those things in life that are usually difficult," she observes.

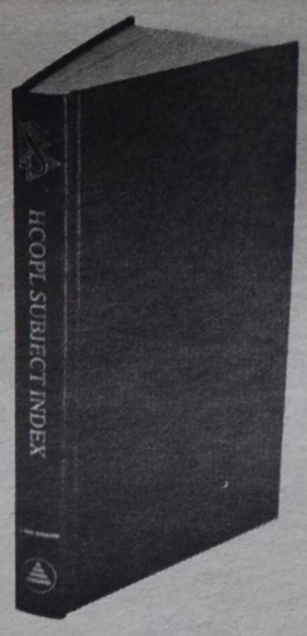

While still a chemist in Palo Alto, she got Method One Word Clearing. "After that," says Mary, "I started picking up things I had shoved in my desk that I was supposed to be reading and making up experiments from, and I was able to read them and use them."

She was a Class IV Auditor when she arrived at ASHO. She felt her auditing ability was adequate, but thought perhaps her good results were because of "OT intention." "I learned if you know the tech, that's all it takes. I know it isn't some 'trick' I'm doing, it's the tech."

Here is a NEW book to make it easier for you to handle and organize life. It is the NEW *Policy Subject Index* by L. Ron Hubbard.

As a Scientologist you could be using Scientology more in your life. But perhaps there was no way for you to do this without having to spend a long time going over policies to see what was there. To have a good command and immediate practical use of the Policy of Scientology, it makes sense that you SHOULD be able to know exactly where to find the exact information on the exact subject you are looking for. This is now a reality with the *Policy Subject Index!*

Just pick any organizational subject you need information on: finance, ethics, communication – you name it. Then turn to it in your *Policy Subject Index*. Right there will be all the references you need to handle that area!

The *Policy Subject Index* refers you to:

*Subjects covered in policy under direct titles and likely titles.
*All HCO Policy Letters by L. Ron Hubbard in chronological order.
*Complete listings of re-issues in chronological order.
*Complete chronological listings of all Board Policy Letters.
*Complete chronological listings of all cancelled Policy Letters.
*And the most complete list of Scientology Administrative Abbreviations ever compiled.

For those who own OEC Volumes, the Index lists page numbers where each policy is to be found in the OEC set.*

The price is $14.00 (10% discount for HASI members, *50%* discount for Scientology Church staff!)

Scientology Minister Ed Maher listens to a taped lecture by L. Ron Hubbard on the Saint Hill Special Briefing Course at ASHO.

Nuclear Weapons Specialist Turns Minister

Ed Maher, native of Boston, was a nuclear weapons specialist with the Air Force when he first encountered Scientology in 1973.

After his initial Scientology training, he established better lines between juniors and seniors in his group and used two-way communication to locate misunderstood words and missing data. As a result of his increased ability, he was shortly promoted to Master Technician Nuclear Weapons Specialist.

After his discharge from the armed services, Ed continued his training and processing to become a Minister in the Church of Scientology. He is now training to Class IX at ASHO in order to contribute to world peace. He has just completed Class V.

OUND THE WORLD

Master artist Larry Gluck shares his knowledge with others.

Art School Results Credited to Briefing Course

Successful OT artist from the Virgin Islands, LARRY GLUCK, is out to rehabilitate artists and create a renaissance!

A master artist himself, Larry has started an art school with his wife Sheila, a Saint Hill Special Briefing Course student at ASHO. They now have more than 75 student artists.

Larry won't stand for anyone not getting better – his Scientology training has taught him to *get results*. "This is probably the only art school in the country with no dilletantes," he says. "Every student, whether he has ever studied art before or not, is getting better."

Non-Scientologist art students at the school soon become interested in what Larry knows. By June, there will be about 25 people in Scientology as a result of the Glucks' dissemination through the school.

Though both he and Sheila are OTs, they credit their Briefing Course training heavily for their recent success. "I don't see how a person can operate as an OT without knowing Scientology data," says Larry, "whether he uses it as an auditor or whether he just knows it so he knows what's in front of him and how to deal with other people. Getting audited alone just doesn't show you how to use Scientology in life."

The Glucks plan to open similar art schools in other parts of the country to get more artists into Scientology. "If a Renaissance is going to happen," explains Larry, "It's not going to be because of one person's paintings. It's going to be because a lot of people who are getting saner are putting aesthetics back into art and taking reactivity out of it."

Elena Dubow takes time out from her study schedule for story time with Molly and Juliette.

Scientologist Gets Results as Mother

When Elena Dubow started the Briefing Course at ASHO, her daughter Molly was a year old, and she was five months pregnant with her second child, Juliette. She and her husband Bobby (also on the Briefing Course) have applied their training very successfully on their second dynamic.

When Molly was in a car accident and hurt her arm, Elena immediately began giving her touch assists. After 3 hours of one assist, Molly perked up and exclaimed "It's all better now. No more pain!" Elena took her to the doctor and found she actually had a broken bone, so the bone was set with a cast predicted to be removed in 6 weeks. Elena continued assists – when she bought Molly in for her first 2 weeks checkup, the doctor was amazed. "Miraculous recovery!" he said. "You can have the cast off in another week."

Neither Molly nor Juliette have objected to her mother being a full time ASHO student. "It seems very important to them that I do go to ASHO," she says. "I really sense that." Molly wants to study at ASHO now too! For her birthday, Elena and Bobby opened her ASHO account for future training.

Having certainty on Scientology has cut out a lot of wasted time for Elena too. "Things I used to figure on – what am I going to handle next, why people do things – I don't sit around and figure on. I just go and do it."

She has just graduated as a Class VI Auditor and has found the course really made a difference to her as an auditor. "I now know WHY the grades work – I know what is going on in the person's mind instead of doing the grades as rote. There's a huge amount of data, and you can use it all to get results."

DEFINITIONS

ASHO American Saint Hill Organization, home of upper level training and processing.

Auditor A person who through church training becomes skilled in the successful application of Dianetics and Scientology to his family, friends and the public to achieve the ability gained as stated on the Gradation Chart for his class of training.*

Case Supervisor That person in a Scientology Church who gives instructions regarding, and supervises the auditing of preclears.*

Clear A thetan who can be at cause knowingly and at will over mental matter, energy, space and time as regards the first dynamic (survival for self). The state of Clear is above the release grades (all of which are requisite to Clearing) and is attained by completion of the Clearing Course at an Advanced Organization.*

Dianetics DIA (Greek) through, NOUS (Greek) soul; deals with a system of mental image pictures in relation to psychic (spiritual) trauma. The mental image pictures are believed on the basis of personal revelation to be comprising mental activity created and formed by the spirit, and not by the body or brain.*

Dynamics There could be said to be eight urges (drives, impulses) in life. These we call dynamics.*

Flag The Church of Scientology of California operates a marine mission aboard a chartered vessel. This marine mission is commonly referred to as Flag.*

HASI Hubbard Association of Scientologists International.*

L-10, L-11 New Flag auditing rundowns.

MEST A coined word, meaning matter, energy, space and time, the physical universe.*

OT (Operating Thetan) A Clear who has been refamiliarized with his capabilities.*

Preclear A spiritual being who is now on the road to becoming Clear, hence preclear.*

Reactive Mind A portion of a person's mind which works on a totally stimulus-response basis, which is not under his volitional control, and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions.*

Scientology An applied religious philosophy, dealing with the study of knowledge, which through the application of its technology, can bring about desirable changes in the conditions of life.*

Straightwire Straight memory is also called straight wire because the auditor is directing the memory of the preclear and in doing so is stringing wire, much on the order of a telephone line, between "I" and the standard memory bank.*

Tech or Technology the methods of application of an art or science as opposed to mere knowledge of the science or art itself.*

Thetan The person himself – not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware; the identity which is the individual.*

Tone Scale A scale which plots the descending spiral of life from full vitality and consciousness through half-vitality and half-consciousness down to death.*

TRs Training Regimens or Routines.*

Word Clearing A technique for locating and handling (clearing) misunderstood words. There are nine methods of word clearing.*

*Taken from the Dianetics and Scientology Technical Dictionary by L. Ron Hubbard.

Class VIII Auditor gets results with ASHO training

In 1969, I was in Berkeley working on my master's thesis and feeling very depressed most of the time. One day I was walking up the street and saw a cheerful sign that said "Come in." I did – I bought the book *Dianetics: Modern Science of Mental Health*, took the Hubbard Apprentice Scientologist Course the next weekend, and then started the Dianetics Course. I experienced such an upsurge in self respect that I finished my master's thesis in record time, for the first time in my life writing on a subject that interested *me*.

When I read *Fundamentals of Thought* I realized how far this subject could take me – and ripped up my application for a PhD program in psychology.

Wanting to make Scientology my career, I came to Los Angeles and joined ASHO staff in 1970. Since then I have trained through the Saint Hill Special Briefing Course, the Class VII Internship, Class VIII and its internship, Expanded Dianetics and its internship, and now I am on the Class IX Course.

From internships at ASHO I have gained certainty and pride in my ability. It is very nice to have the data from course for one's own use, but for me, there is always a slight reluctance to apply it right away. On the internships I overcame that little resistance, and applied the data to a point where I knew I could use the course data with good judgement – at that point I would feel like a real professional.

I have never had the slightest back-off from applying any area of tech that I have been interned on.

For example, my father had had chronic headaches for years. They incapacitated him when they turned on.

While I was on the Class VII Internship I went to visit him. I got him to tell me a little about them and show me where they were and ran a little locational assist. His headache blew. Then I got him to do the Hubbard Qualified Scientologist Course! He is now a Life Repair Release, through his Method One Word Clearing and studying on his Student Hat Course.

Earlier this month my husband and I had gone out to dinner at a very beautiful place with my parents for my mother's birthday. She was unable to enjoy her meal because of a painful ulcer in the roof of her mouth. I just got her to spot the recent shock that had introverted her, and then she spotted her own postulates to get sick – she laughed for about 5 minutes and we resumed our celebration in high spirit.

My training, and my upper level training in particular, have given me the very real happiness of being able to create good effects on all my dynamics.

Daly Dana, Class IX Student at ASHO

Daly Dana excitedly starts the Class IX Course at ASHO.
