"We are very rich in materials, in results and in the potential future."

L. RON HUBBARD

The Extent of Technical Materials

Excerpts from "Scientology, Current State of the Subject and Materials"

by L. Ron Hubbard

There is a possibility that some Scientologists have not realized the extent of technical materials which exist in Dianetics and Scientology on the subject of the spirit, mind and life.

For instance, there are about 25,000,000 words on tape in archives which provide the consecutive path of discovery.

When placed chronologically with books, HCOBs, HCO P/Ls and other issues this gives a nearly complete record of all discoveries and applications in these subjects.

The total numbers of words or even the number of tapes and issues to date have not been reliably calculated.

. . .

More or less complete sets of materials exist in many places on the planet to safeguard against destruction.

It is from this tremendous archives that study packs and other materials are made up. These and their checksheets are very numerous and available.

A chronological study of materials is necessary for the complete training of a truly top grade expert in these lines. He can see how the subject progressed and so is able to see which are the highest levels of development. Not the least advantage in this is the defining of words and terms for each, when originally used, was defined, in most cases, with considerable exactitude, and one is not left with any misunderstoods. It is for this reason that the Saint Hill Special Briefing Course checksheet should consist only of the chronological materials, studied in chronological order, excepting only the Study Tapes (Primary Rundown) which should be done first if not previously done properly.*

An enormous amount of this material does exist in issuable form. While not strictly technical, HCO PLs, almost all of them, now exist in books grouped by subjects and I think will soon exist in chronological form also. It is projected that this be done with HCOBs, but these of course should be only in chronological and complete order and the points where books and tapes were part of this track should be indicated.

. . .

Many people believe that Scientology materials contain mainly processes. They think of Scientology as processing. This is a very narrow view. It is understandable enough as processing is the way out for them. But this neglects the more considerable materials which deal with basics and fundamentals; processes are only one use of these.

Other people, having gotten their smallest toe damp as an HAS then wander off to other fields looking for answers, whereas had they taken Dianetics or Scientology Grade training, to say nothing of the Saint Hill Briefing Course, they would have found more fundamentals than exist in all other subjects com-

All Ron's technical bulletins are now available!

From around the world, Ron's technical bulletins from 1950 to the present have been collected into 5,604 exciting pages!

More than five years in the making, this 10 volume set contains all the technical bulletins and articles Ron has ever written (except confidential issues of course).

Of the 1700 pages of material from before 1959, it is estimated *75%* is being made available for the first time in years. Little-known technical newsletters, journals, magazine articles and technical bulletins of all kinds by Ron have been gathered from archives and the private collections of Scientologists and Dianeticists worldwide.

The volumes show where all Ron's lectures (2600 of them) and all his books weave into the rich fabric of the Technology of Dianetics and Scientology. This makes it possible for the reader to seek out data which expands points covered in the bulletins.

Publication of the *Technical Bulletins* is a milestone in the history of Scientology, and a milestone for Mankind.

In years gone by, rapid expansion and tremendous demand for Ron's data have sometimes caused shortage of materials. Some Scientologists or Dianeticists have been lost along the way by falling off the ongoing forward line of new materials. Some newcomers have felt, and rightly, they were somehow "missing something" when trying to study the subject.

With the publication of Ron's *Technical Bulletins,* all written source materials are easily and broadly available for the first time ever. Anyone can pick up where he may have left off in his studies and find what materials he missed. Newcomers can now read all the materials that were issued before they learned of Scientology. And Mankind now has the wisdom of the ages compiled into a body of technology for the betterment of everyone.

Ron has said from the beginning that his new developments do not wipe out the importance of his earlier ones. A truly well trained auditor must be familiar with it all.

Studying the whole of the technology in date order makes it far more understandable. The availability of these volumes will prove the key to training auditors to a level of skill and knowledge far higher than ever before.

Complete cross indexing, by date, by title, and by subject means exact technical references will now be available instantly for auditor training.

These volumes will be the essential companion of the Saint Hill Special Briefing Course student, indeed of any auditor, for daily reference and thorough study.

And for anyone new to Scientology, what better place is there to start than page 1?

SPECIAL INTERNATIONAL PREMIERE PREVIEW

Advance copies of the full 10 volume set of L. Ron Hubbard's *Technical Bulletins* will be available for sale to event attendees at International Prayer Day (Los Angeles, August 24-29). Official release date around the world is set for Auditor's Day, September 12, at your local Church of Scientology.

The Extent of Technical Materials

bined, a fact which any advanced student of Scientology can confirm.

Still others think that the "newest" is of course the most advanced and are looking for new "Processes" to be issued or new materials; whereas the process to resolve their case was most likely issued in earlier years. An amusing instance of this is one whole continental area where an exact set of principles were isolated and exact processes released that handle that exact national type; yet, waiting for something new because they did not know the old, they were found earlier this year to be ignoring this rundown even on new preclears and of course were having a hard time of it for those ARE the basic processes for that continent, for those people DO have that barrier.

For quite a while I have had the hat of "finder of lost tech". Whole sections of knowledge drop out of view, whole arrays of processes (and administrative principles) go out of use and preclears there and the organization of the area sags; but recovery is swift the moment the "lost" knowledge is pulled out of their own file cabinets and restored.

Further, people in organizations are quite often at high case levels. They have already experienced the bridging knowledge which connects the subject to the man in the street. It is not new to THEM. They sometimes err in believing it is not new to the world. Thus gaps are permitted to exist. The solution is to recover the "lost" tech.

But it is also true that many in organizations work very hard to keep the knowledge bridge in. And do well in accomplishing it.

Within the same civilization, many other subjects than Scientology exist. Many of these other subjects are in a very primitive state while pretending a very advanced position. Psychiatry and Psychology are a pair of these. Their pretenses, inhumanities and even cruelties muddy up the field of the spirit and mind. Because they produce negative or even damaging results and because they were "authority" before Scientology began to guide the field toward saner and more civilized levels, Scientology's task of handling the public is made far more difficult than if the public had not been so harmed and made suspicious of the field of the mind. Yet the most mind-wrenching problems Psychiatry and Psychology practitioners think they have (they have not confronted the real ones) give way before the lowest most pedestrian levels of Scientology. There is an amusing story of a Scientologist who attended a social meeting of Psychiatrists and Psychologists and listened to them for a while as they moaned about their patients and their own cases and then, being compassionate, began to explain to them in a sort of technical baby talk the nature and resolution of these "vast" "unsolvable" "problems". As he took no offense at their ignorant arrogance which first greeted him and as he did seem to have a grasp of their troubles, they kept him up until four A.M. going over their "problems" in detail and gave him more and more absorbed attention and began to cognite. They were very tame and very respectful when he left, certain they had heard the guru of all time: and this is amusing because he was not a trained auditor in any sense of the word and had only read a few Scientology books! Yet to them he was their dean as a professional by comparative and sensible knowledge. Many Scientologists have had similar experiences. In the field of Scientology Admin tech a staff member who had not had an Org Exec Course but had been hatted in HCO went home for a vacation. His father who, like some fathers, was certain his son was stupid, permitted him, with misgivings, to reorganize the administration of his medical clinic along Scientology lines. The son trained the small staff for only a week, lines began to whizz, patients began to get handled, records went straight, income rose and the father became absolutely convinced that his son was the brightest organizational genius in the country; yet in the org they had considered he had a long way to go to be a good Ethics Officer! Gives you some comparative data of where the lowest rudimentary levels of Scientology sit in relation to current technologies.

Above such small bits of fringe information the bulk of Scientology knowledge towers into mountains. It is accessible in the main, to those who seek it.

. . .

There is undoubtedly a considerable amount of neating up that I could do, including making all materials more readily available, seeing to the compilation of a very extensive dictionary of terms, filling in incidental gaps where material may not have been fully recorded. These are difficulties of a minor nature compared to the research in making the result attainable.

It has been difficult working in a confused and, yes, even primitive society that is starved for workable knowledge in the humanities. The very condition that made it vital to seek out and release the material also made it difficult to do the job in the first place.

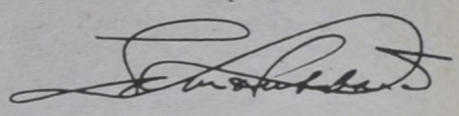

Scientology now has more than enough data and technology to handle even the broad problems in the humanities. The main task now is getting it fully used, and along this line there are hundreds of thousands working every day around the world.

Scientology is the fastest growing Religion on the planet by actual surveys and statements by sociologists. And this is the more remarkable as in this period orthodox Religions have shrunk before the materialistic onslaught of our times.

The materials of Scientology are the result of forty-three years of search, coordination and application to millions. The organizations of Scientology have been building and expanding for nineteen years (despite the fears and hates and jealousies of this civilization) on five continents and making it all the way, thanks to the magnificent people of Scientology.

We are very rich in materials, in results and in the potential future. Through our hardest times we have endured. Into our brightest times we are expanding.

These materials contain the full basics of the only game in the universe where everyone wins, the game of triumphant life itself.

*Per Board Policy Letter 18 March 1975, Issue II, the only study tech prerequisites to the Saint Hill Special Briefing Course are Basic Study Manual and Method One Word Clearing.

A mammoth compilation project

For over a quarter of a century, Ron has been issuing the technology of Dianetics and Scientology to auditors and students as soon as it was developed. This data was issued in thousands of technical articles and bulletins. The bulk of these were Hubbard Communications Office Bulletins, called "HCOBs".

In 1966, Ron said, "Standard technology is contained in HCOBs. And they just run off one after the other. And one of these fine days we will roll up our sleeves and publish them all in consecutive order all corrected so that nothing ever corrects anything in the bulletins and make it very very easy. We will probably have to put them in seven or eight or ten different volumes because there are quite a few of them."

The huge task of compiling and fully indexing these thousands of technical articles and HCOBs has taken years, but it is now complete, putting this quarter century of research and development, this wealth of technical data, within the easy reach of any auditor or student.

It's complete

Every HCO Bulletin and technical article written by Ron since 1950 (excepting only confidential issues) are contained in these *ten* huge volumes. Each volume is over 500 pages long!

Included in the volumes are all:

- HCO Bulletins
- Professional Auditor's Bulletins
- Dianetic Auditor's Bulletins
- Journals of Scientology
- Operational Bulletins
- Explorers Journal articles
- Ability magazine articles
- Associate Newsletter Articles

These issues are presented in exact chronological order, just as the technology was developed. Even books and taped lectures are listed in the volumes at the points where they occurred chronologically. This, then, gives you the *complete* track of technical development. You can easily see, for instance, that Ron gave a lecture on a particular subject on the same day that he wrote an HCOB on the subject, and you could listen to the lecture for more data.

Four-way cross-reference helps you find any technical reference in seconds.

1. *List by date:* The table of contents at the beginning of each volume lists every item in chronological order. If you know the date, it's easy to find the data using the table of contents.
2. *List by date, with subject:* The expanded contents list in each volume lists all entries in chronological order *and* gives a brief summary of the subjects covered by each HCOB and article. In this way you can rapidly check what is in each HCOB or article and find the reference you want.
3. *List by title:* At the back of each volume is a complete list of HCOBs and other items alphabetically by title. In this way if you know the title, you can find the reference.
4. *Subject Index:* At the back of each volume, a full subject index assists you to find all the technical references on a particular subject. If you want to find out data on a particular technical subject, you can find it fast using the subject index.

Never before has the technology of Dianetics and Scientology been so thoroughly referenced and so easily available!

All technical series

The first eight volumes of this ten-volume set contain the chronological HCO Bulletins and written technical materials from 1950 to the present.

Volume Nine contains the famous Case Supervisor Series, completely indexed.

Volume Ten contains all of the Technical Series issues, such as the Expanded Dianetics Series, the Auditor Admin Series, the Basic Auditing Series, the Integrity Processing Series, Word Clearing Series, Tape Course Series and more.

The complete E-Meter

with everything you need as an Auditor

The vast extent of Ron's technical materials today require the precision of an E-Meter for auditing. From the Hubbard Practicing Dianetician Course on up through the Saint Hill Special Briefing Course and beyond, an E-Meter is a vital part of every auditor's equipment.

The Hubbard Electrometer is known for its uniformly high quality parts and craftsmanship, giving long service with minimal repair.

Now, for the first time, this fine E-Meter comes to you packed in its own custom-made carton, complete with all accessories!

How to unpack your new E-Meter

1. Your E-Meter comes to you safely through the mail in a specially marked box, sealed and stamped securely.

2. Special foam packing cushions your E-Meter to prevent any damage on its way to you.

3. Every E-Meter now comes with a set of shiny new cans! You can start right off using your E-Meter without having to go out and buy cans.

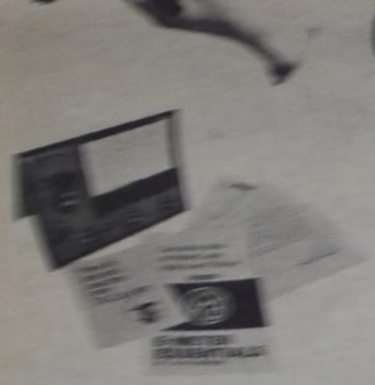

4. Inside one of the cans you'll find a handy box that holds your set of calibration resistors. With these, you will keep your Meter adjusted exactly right. (They're very easy to use – a full color folder included in the kit shows you how.)

5. And of course, an E-Meter is no use without a way to charge it, so without precious leads, as leads and charge cord are tucked in the box, ready to pull out and use.

6. Just inside the plastic bag that protects your E-Meter's natural American walnut finish you'll find directions on when to charge your Meter, how to care for it (you'll want to oil the wood regularly just as you would fine furniture), and the name of the person who made your E-Meter.

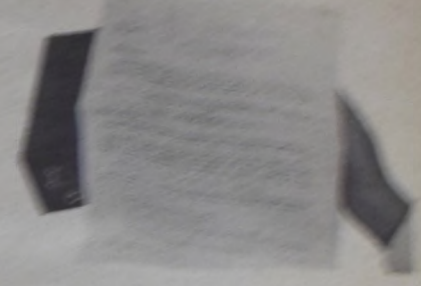

Great care is put into the standardness of every meter. But WE'RE not perfect, so if anything does go wrong with your Meter within the first 6 months, don't worry. Just send it back — we'll fix it, free, and send it back to you.

7. You'll also find a packet of more information on how to use your one and counter (already installed on the meter when you get it), and how to get the drill books and manuals you need to become an expert at using your new E-Meter.

You and your E-Meter

Think of all the auditors you'll be able to audit toward Clear — you with your E-Meter. That's a big contribution to clearing this planet. And of course, when you go up the Solo levels (Grade VI and above) yourself, your E-Meter will be right there with you, too.

Think how proud you'll be to have your very own E-Meter — an auditor's best friend!

Still only $215.

Best of all, the special care and extra features that make up the new Complete E-Meter don't cost you any more than E-Meters used to. You still pay just $215 ($171 with your 20% HASI discount). Shipping and handling are free.

The Scope of Ron's Saint Hill Special Briefing Course

Ron started the Special Briefing Course at Saint Hill, England, in April 1961. Its purpose was to put the finishing touches on the already able auditors throughout the world.

Ron taught the course personally until 1966.

Today, this great tradition is continued vigorously at ASHO, the AMERICAN Saint Hill.

It starts with *Dianetics, the Original Thesis* in 1949, and continues with more than 25 books, more than 345 taped lectures by Ron, and hundreds of pages of bulletins, to the end of Ron's personal instruction at Saint Hill in 1966. The Senior Briefing Course picks up in 1967 and carries on with Ron's technical developments from there to present time.

These courses cover dissemination, how to start a preclear, how the grades of release were developed and how they are applied, the basic principles of auditing, and the purposes of a being and the road to OT through Scientology.

You'll hear about such widely diverse things as how Ron first got the ideas on which Scientology was based, the time the Russians tried to buy Dianetics, and the individual cases whose lives were changed by Ron's research. When you finish, you'll feel that surely Ron must be one of your closest friends.

The Briefing Courses make a real Scientologist who can get others trained and cleared.

Having more Class VIs is the secret to having a Clear planet faster!

Ron's target is 100,000 active Auditors, Case Supervisors and Course Supervisors by March, 1977. This will include 1000 ASHO graduates.

In the summer of 1976, we are faced with far more rapid expansion than 1961 when Ron began the Briefing Course. With broad public dissemination moving up to a high roar, Class VI auditors are needed more urgently than ever before.

Getting the knowledge and skill on the Saint Hill Special Briefing Course and Senior Briefing Course is the single most important thing you can do this year.

Start now, and be a permanent Class VI Auditor before March, 1977!

Students on the Special Briefing Course at Saint Hill in the early '60s studied auditing basics eagerly.

Hundreds of students today have the same enthusiasm for getting a comprehensive understanding of Ron's tech on the Saint Hill Special Briefing Course and Senior Briefing Course at ASHO.

WHAT STUDENTS SAY ABOUT THE SAINT HILL SPECIAL BRIEFING COURSE!

Before I was finished with just the first section I finally realized my own main goal and purpose in life! There is no way to describe in full the great adventure of traveling the road of development of Dianetics and Scientology along with the greatest being in the universe – the one who laid down the road itself.

Dick Dodson

Part One of the Briefing Course is a milestone in my progression as a Scientologist and particularly as a being. All I can say is that I have come a long way. My reach has expanded, my area of control on all dynamics has greatly improved and life is a lot more fun.

My admiration for Ron is unlimited and I give my greatest thanks for the opportunity of studying and understanding the development of Scientology.

Antje Henderson

Learning the REASONS WHY behind the technology is a very exteriorizing experience and very contributive to my own personal sanity. The data is broadly applicable.

Every Clear and OT very much needs what's here.

Jim Darcy

I've gone through tons of changes on this course – from a rote auditor to an auditor who knows why the bank reacts as it does! One thing you don't really expect on a training course is how stable it makes you and how much case gain you get whatever side of the meter you're on!

Charlotte Beardmore

I really think the whole thing is a lot easier now that I know what's going on.

Kenneth Erwin

This information and data has truly changed my life as an auditor and as a being. I can't believe thinking I was a qualified auditor before these tapes.

Kurt Dambacher

How to describe what it's like to follow Ron through the years of his sometimes heartbreaking, sometimes exhilarating research – now it's like the sun has burst from behind a cloud – it's like finally, after trillenia, understanding where we've been and where we're going – it's like . . . . only those who've done it can really understand what it is, for the only accurate communication on it is the many wise words you hear directly from Ron – you should come hear what he has to say!

Gail Petersen

If you haven't been right next to Ron the last 27 years, you've missed a lot.

Saint Hill Special Briefing Course student, actress Judy Norton, and cameraman Eric Reiner, also an SHSBC student, discuss the shot before taping the TV commercial on *Dianetics*.

Briefing Course Students Aid Massive Dissemination

Saint Hill Special Briefing Course student JUDY NORTON (co-star of the popular TV show "The Waltons") is now appearing on TV spots for *DIANETICS* in Southern California.

Over a million people each week, it is estimated, are hearing about Dianetics through this massive dissemination project.

ERIC REINER, also a Saint Hill Special Briefing Course student, was cameraman; SANDY GAINSFORTH, Hubbard Dianetic Counselor was script girl; Hubbard Qualified Scientologist GREGORY STONE produced it with copywriter TONY COHAN, OT VII, soon to start the Briefing Course as well.

Bullock's Youngest Executive

What are most people doing at 22 . . . college? Biding their time? Not LEE THOBURN! At 21, Lee was an accounting clerk at Bullock's Department Store. He was also doing Scientology auditing and training.

Today, as Manager of Accounting, Lee is Bullock's youngest executive.

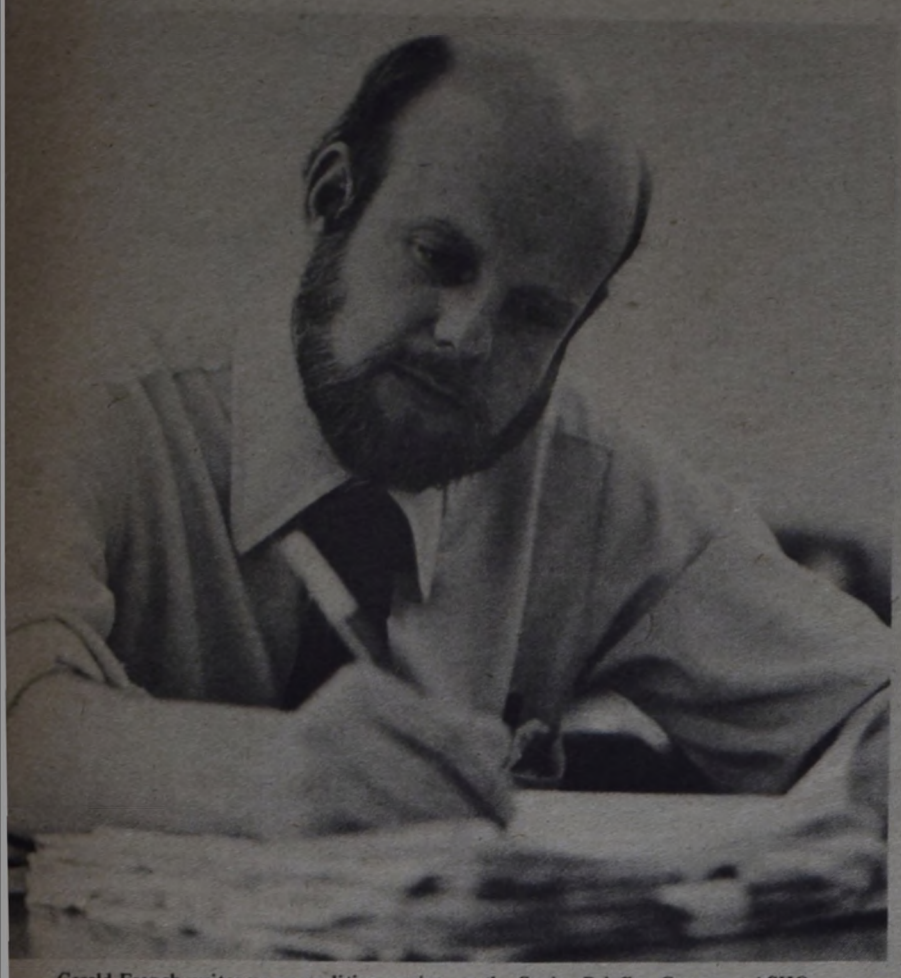

A Dianetic Auditor, Lee is also studying Scientology organizational technology to help him in his job.

"Scientology has given me knowledge and certainty that I can apply the data to change conditions in my life," says Lee. He plans to do the Saint Hill Special Briefing Course at ASHO after his Academy training.

Dianetic auditor Lee Thoburn, Bullock's youngest executive in Los Angeles.

UND THE WORLD

Gerald French writes up an auditing session on the Senior Briefing Course at ASHO.

~~TEACHER~~ AUDITOR

About a week before he graduated m the Senior Briefing Course, RALD FRENCH had a marked change viewpoint. On the line of his student kly report where it says "occupation," stopped signing himself "teacher" and ted signing himself "auditor."

A Harvard graduate with a master's ree in early childhood education from Francisco State, Gerald tried teaching 3 years before discovering Scientology 1970.

After going Clear, he took training in Ron Hubbard's Study Tech and then ame a Class IV Auditor. His success as eacher shot up the next year. "It was difference between fumbling around *tending* to be an expert, and knowing ictly what to do in order to create the ects I wanted as a teacher," he says. ng the Study Technology he took student's reading level from pre-dergarten level to 3rd grade level in one school year. He found all the students worked much more enthusiastically. "The effectiveness of Ron's educational technology can be recognized by anyone with eyes to see and a child to watch," he summarizes.

What led him to become an auditor? "All children know there are answers and grow up looking for them," says Gerald. "As adults most wind up with the gnawing realization that they themselves have the answers if they could only get at them. To no one's greater amazement than my own, Scientology proved itself to be an awesomely effective means by which I was enabled to re-discover the answers I always knew were there." He plans to be a professional auditor to bring Scientology to others.

Now a Class VI, Gerald is doing his internship at ASHO to polish the skills gained from the broad scope of the Briefing Courses.

Joan Ryan, as she recently appeared in a newspaper interview on her community work in Arizona.

Active Power Release Helps Community

Recent Power Release JOAN RYAN has returned home from ASHO to Scottsdale, Arizona with a busier schedule of community work than ever. "Since Power Processing at ASHO, I get more done and find my ability to understand study materials is greatly increased," she writes.

Joan is now on the Executive Board of the Crisis Nursery Auxiliary, which is setting up a 24-hour respite care facility for tiny children whose families are in crisis situations where child abuse is imminent.

She continues as an active volunteer on the HELP (Home Emergency Lifeline for Parents) Hotline, a 24 hour listening-referral service for parents unable to cope with home life stresses. Joan finds the Auditor's Code and the Tone Scale invaluable tools in this work.

Having been enabled by her auditing and training to feel totally at ease before large groups, she has joined a community Speakers' Bureau to inform schools and groups about problems of child abuse and available help.

In addition to being a housewife and mother for three teenage children, Joan is on the Dianetic Internship at the Phoenix Church of Scientology. Her husband, Howard Ryan, is also a Scientologist.

Old Timer Back on Training Route with DIANETICS TODAY

JIM SLADE first read *Dianetics Modern Science of Mental Health* in 1954, his last year in the Air Force. He couldn't wait to find out more about it.

Enrolling on the HCA (Hubbard Certified Auditor) Course in Arizona, he heard lectures directly from L. Ron Hubbard! After graduating, he came home to Florida and audited his rheumatic father – after 40 hours of auditing, all rheumatism symptoms were gone and his father's enthusiasm for life was restored.

After 20 years, Jim read *Dianetics Today* in Orlando. Now both Jim and his wife Jeannette are on the Hubbard Standard Dianetics Course and plan to go all the way on the training route.

"Old timers" Jim and Jeannette Slade had their original purposes to be auditors rekindled reading L. Ron Hubbard's new book, *Dianetics Today*.

OUND THE WORLD

Tamara Wilcox, who was featured in the movie *M*A*S*H**, has recently gotten her Power Processing at ASHO and gone on to Clear.

Clear Helps Create a Safe Space for New York Artists

After being audited on the Power Processes by one of ASHO's Class VIIs and then going Clear, respected writer, actress, and director TAMARA WILCOX returned to New York this spring with new purpose and connection to source.

In Los Angeles, where so many students are on the Saint Hill Special Briefing Course, she learned it is really possible to clear an area. "I found an incredible feeling of purpose at ASHO. There are LOTS of Scientologists in L.A. You see them on the street every day. I had never experienced that before," she marvels.

She came back home determined to see more Scientology artists in New York getting up the Bridge. She started connecting them up more as a group and encouraging them to use Ron's tech in their fields. Artists in the group were so excited they all started targeting how they would get Clear too!

Tamara first came to New York in 1971 as a director. But the pressure and jealousy of the theater scene there depressed her. One of her musicians, Jim LaGuardia, said what she needed was Scientology! In the 6 months after she began her auditing and training, she earned more money than she had in the past five years. Through the years, she has expanded a costume design business for top theater, rock and musical performers.

Last year, she decided she wanted to get back into acting and writing – within a month she had pulled in a TV special to write (which aired nationally last February), got interviews for two major films, and started to write a musical show. The show, which she also directed, was the sell-out Madison Square Garden production THE GLORIA GAYNOR *("Never Can Say Goodbye")* EXPERIENCE in late fall, 1975.

Several months ago, she decided it was time to put everything else aside and go Clear. With a burst of organization, she came out to ASHO for her Power Processing and went on to Clear in March.

"Every day when I wake up the feeling of power that was unleashed in L.A. is still there. New York is a wonderful game for me now," she says delightedly.

Tamara is on the Hubbard Standard Dianetics Course and is also studying Ron's administrative tech.

What it means to be a Saint Hill Special Briefing Course Graduate

I just finished the Senior Briefing Course. I'm just about speechless – trying to put 4 months worth of wins and cognitions onto one sheet of paper is just about impossible!

I can say that my whole viewpoint on auditing has changed. My understanding of human behavior and why and how auditing works and what it's for have increased tremendously.

I got excellent course supervision and lots of help and understanding from the ASHO staff.

This course, in my opinion, should be MANDATORY for anyone who considers himself to be a Scientologist. You get such a complete, thorough education in the basic laws of life. You also get a chance to apply what you learn from the tapes and books, which increases your certainty that it works incredibly.

Jan Welda

When I got into Scientology I was searching for a lot of answers to many questions I had about life, especially other people and why they did certain things. The more courses I took in Scientology the more answers I had and in present time I know the reasons and lack of reasons people have for what they do.

The best thing is that I can do something about it. I can audit. I feel great about being able to help preclears and put them at cause in life.

I'm a true doer now.

Albert Moniz

This course is beyond doubt the launching pad for unbelievably sane production on all your dynamics! This course enables you to be responsible enough to really make a difference on this planet.

Susan Baldwin

I really don't know how to express the appreciation and respect I have for Ron and for ASHO. For the first time in my life – even after several college degrees – I now have the tools and knowledge to help my fellow man. I am just starting on the great adventure of helping Ron to clear the planet. Thanks and love to all who made this fabulous journey possible!

Claire Dunn

Julie Robinson, graduate of the Saint Hill Special Briefing Course who has now finished training to Class VIII, leaves ASHO for Fresno. She will fill in for Delores Stokes, Class VIII, who is coming to ASHO for Class IX.

All I can say about the Saint Hill Special Briefing Course is that I feel very grateful to have earned the right to apply L. Ron Hubbard's technology to other beings and therefore to have the incredible experience of watching a face once colored with sadness now glow with joy.

I've gained the ability to help myself and help others, which makes things once difficult easy and the impossible possible.

James Fiducia

I have gone up to OT VI and the gains I've gotten from auditing have been fantastic. Now the gains I got from training have stabilized my auditing gains and added to them greatly.

Ron is such a fantastic being and I feel very honored that I was allowed to share his adventure in developing and stabilizing Dianetics and Scientology.

Thanks to Ron and all those at ASHO who helped deliver his tech.

Larry Polak

It's a great day. After many many lifetimes of searching for a way I could help Mankind out of its misery – and I did try every field you can think of – I finally found and learned the one that works. It is an honor and my greatest joy – and my gratitude to Ron is great. Now I am able to do what I want to – and do it well. To help my fellow man be free – what greater job is there?

Tove Peterson

And go on to Class VIII . . . .

When I went back to Fresno as a Class VI they gave me all the preclears that really needed a good auditor. I knew what was going on with them as a result of the Briefing Course. And I did handle them.

The Briefing Course gives you a very broad outlook on life and on auditing. You have a vast valley of data to use.

Then on the Class VIII Course, you've just got the exact data Ron wants you to look at. It's like taking a roomful of data and making it into 5 packs and 19 tapes. But you need to have done the Briefing Course first to be able to grasp it.

On Class VIII Ron turns his tech hat over to you. He tells you what is really important and all the data falls into a thin straight line. Suddenly you realize you ARE 100% Standard. There is no case that would tempt you to do anything but steer right straight down that line.

I am amazed at the certainty I have as a Class VIII. I have no back off from any preclear. I know I could take anyone and move him up to Clear. And I know I can get other auditors around me to do that. Class VIII is a vital next step for any Class VI graduate.

Julie Robinson
