How to talk to people about Scientology

by L. Ron Hubbard

What you are up against in disseminating Scientology is the generality of what we do. When you cover all of life and all living things you don't have enough point of concentration for people in general to follow you. They get such hazy ideas of it all and life to them is wrapped in such covert obscurities that they don't track with you, they just go into their engrams and know that whatever it is you're talking about must be beyond them.

To disseminate successfully, you have to have an *apparent* goal that is understandable to the audience or person at his tone level and with which he will agree. Show him something about himself and the battle is pretty well won.

We try too often for a total effect on people and try to tell them everything there is in a single moment. The motto here is: don't try to overwhelm, just penetrate. If we attack with our eyes open we will guide this penetration just as we guide a session.

We don't try to sell Scientology then. We give an apparent and understandable goal of what we're doing and then put the person or persons to whom we're talking into a state of being interested in their own cases.

Penetration

The use of the Dianetic idea of the Reactive Mind is almost infallible. I once told a casual fellow passenger on a short train ride: "Say, did you hear about them isolating the Freudian unconscious?" I said this because he looked like a scholarly bloke. And he said, "No, who did that?" And I said, "Oh, some scientists." And I said, "Yes, they found out it was the sum of all Man's bad experiences and nothing more mysterious than that." And he said, "That's interesting." And I said, "What was your last bad experience?" and he said . . . Well, he was in session and he called me up later.

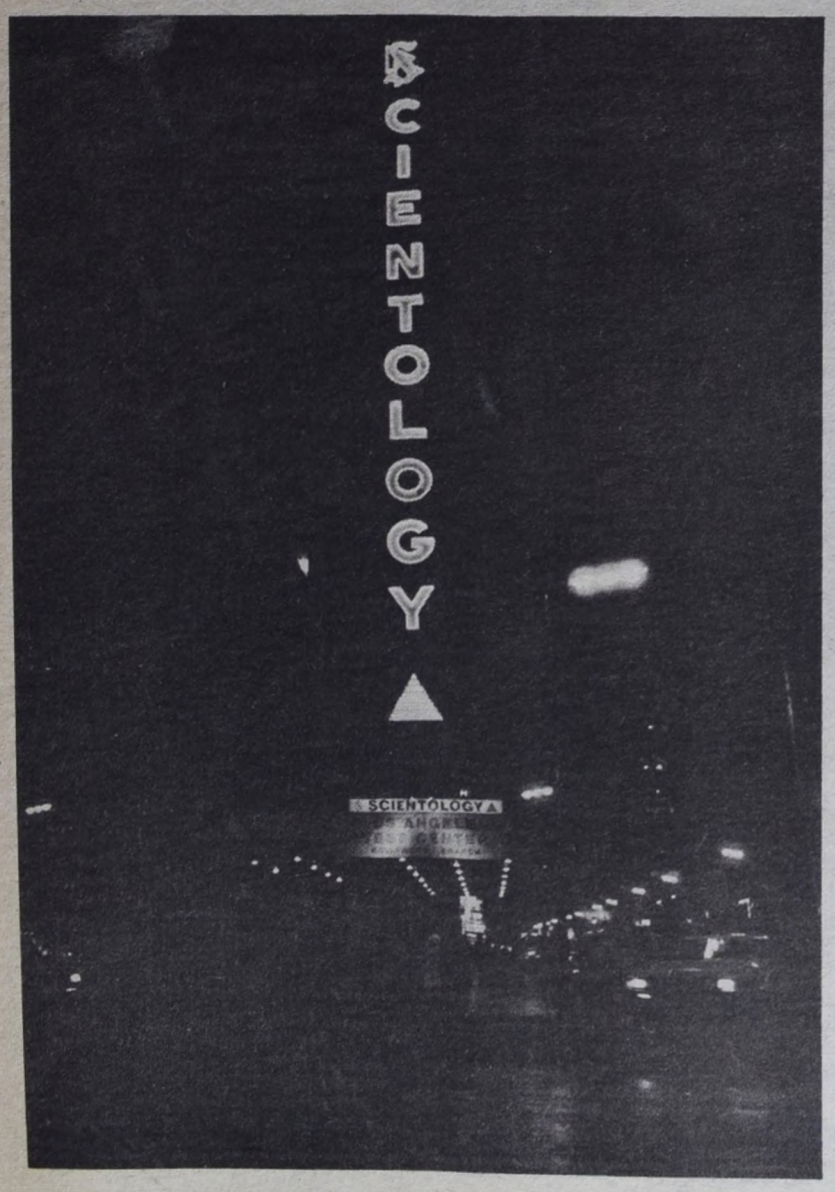

Another fellow I met on a bus. I said,"They've found the dynamic principle of existence and it's about time." And he said, "What?" and I said, "Yes, they know what makes a man tick now." It looked for a while like the machine would win and he said, "What was it?" and I said, "The urge to survive." And he said, "Well, I always thought it would be something like that." And I said, "I don't know. Have you ever had the urge to succumb?" And of course he was in session too, only I had to get off.

I once tied up a whole U.S. Senate lunchroom with these remarks, and if you can get a Senator to listen instead of talk, you've done something.

Another time on a boat I said dreamily so a girl could overhear me: "I wonder if Man really does have a soul?" And she said, "Oh I don't think so really, isn't it all a lot of religious talk?" And I said, "Try not to be three feet back of your head." Gave her an hour or two of processing and she's still interested.

Don't try to persuade. Penetrate. Don't try to overwhelm. Penetrate. And even a newspaper reporter will fall in your lap. (The last one that came down to see what mud he could sling didn't sling any because I showed him an E-Meter, told him not to say anything and then located, by asking questions which only the meter answered, his last car wreck, who was hurt and what part of his body was injured and how many years ago it was. Man, he looked at that E-Meter like he was a bird and it was a cobra. But he sailed off into a full run of the engram and I walked him through it three times until he had good somatics turned on, told him I wasn't going to really put him in it because it would hurt, and ended

L. Ron Hubbard, a very accomplished photographer, has recently branched out into shooting exciting action photos for use in new Scientology promotion and literature.

WORLD'S LARGEST SCIENTOLOGY SIGN – On August 24, 1976, the world's largest Scientology sign was officially lit on famed Hollywood Boulevard in Los Angeles. Nearly 400 Scientologists and new people off the street gathered to cheer the outdoor ceremony. Jazz pianist Lamont Johnson (Class VIII) began the ceremony with music, and a brief statement of Scientology's aims followed. Crowds from the busy boulevard are now flooding the test center and Scientology/Dianetic bookstore under the sign.

the demonstration. He didn't write any mud.)

Take an E-Meter to a boy scout meeting and watch the fun. Send notes to their parents when you find them in a bad way. Use an E-Meter as a dissemination weapon.

When you can do these things to people they know we know what we're talking about. You don't have to explain.

Don't explain. Penetrate. Don't overwhelm. Penetrate.

The Entrance Point

When you try to disseminate Scientology, you're really up against a problem today of how do you tailor make what you know to fit the group to whom you're speaking.

You have the whole vast panorama of existence: the mind, the spirit, religion. You've got the entirety of life as a bin out of which you can pull fragments of the subject to offer people. And it is simply in actual fact our dullness that prevents us from disseminating. We just don't select the pieces which would come near enough the case and social framework of the person we're talking to in order to bring a reality.

You see, you're trying to sell him what he already knows. Down deep he knows this, but this is all covered by a tremendous amount of false information. But somewhere there is an entrance point. In every case really there is an entrance point. And there being an entrance point, all you have to find is that point of a gradient of what you know about existence which he does not have to protest and which he does not have to argue with.

So in actual fact, if you wanted with malice aforethought to disseminate broadly, madly and in all directions, you would simply estimate the persons or groups to whom you were seeking to speak, and having estimated them you would then give them something with which they could agree without violating their own fixed ideas. And also, never give them something which is false just to agree, because your force and impact consists of the fact that you speak truth.

Truth is such a fast arrow that it can go through without the fellow ever finding out he's been shot.

But of all things, Scientology is useful. You give people things they can use. You know that you can use data. You don't have to use processing all the time. Unless you can give somebody something they can use, why, he's not likely to have much use for it. He's not likely to be terribly interested in it.

You have to estimate your audience very accurately. And if you do that right, your proper response (short of your having confronted an SP) is "Gee, where's this been all my life?"

Technology of Dissemination

On a world basis we need technology of dissemination applied. The technology already exists.

I've had several Field Staff Members want the formula of dissemination. It's a laugh on the Field Staff Member – the purpose that is written in the Field Staff Member appointment letter *is* the formula of dissemination.

To help LRH contact, handle, salvage and bring to understanding the individual and thus the peoples of Earth.

You could work on it for a while to get exactly how you apply it and so forth, but it's right there. Hidden datum fully exposed. You think it over for a moment and you'll see, that's dissemination. In fact, there isn't anybody it won't disseminate to.

There are four steps that must be accomplished with the individual:

1. ***Contact*** the individual: This is plain and simple. It just means making a personal contact with someone, whether you approach them or they approach you.

2. ***Handle:*** If the person is wide open to Scientology, and reaching, this step can be omitted as there is nothing to handle. *Handle* is to handle any attacks, antagonism, challenge or hostility that the individual might express towards you and/or Scientology. Definition of "handle": to control, direct. "Handle" implies directing an acquired skill to the accomplishment of immediate ends. Once the individual has been handled you then –

3. ***Salvage:*** Definition of salvage: "to save from ruin". Before you can save someone from ruin, you must find out what their own personal ruin is. This is basically – what is ruining them? What is messing them up? It must be a condition that is real to the individual as an unwanted condition, or one that can be made real to him.

4. ***Bring to understanding:*** Once the person is aware of the ruin, you bring about an understanding that Scientology can handle the condition found in 3. This is done by simply stating Scientology can, or by using data to show how it can. It's at the right moment on this step that one hands the person a selection slip, or one's professional card, and directs him to the service that will best handle what he needs handled.

Open Door

There is something about the road to truth. It can never be travelled partially. So if you do not provide some way in which to let them go on travelling on the road, you can also get into trouble. No matter how tiny the crack in the door is left open, there must be a way for them to go further. Don't leave them totally parked. That's tantamount to a sin, to introduce somebody to the way that paves the broad highway by which you know yourself, "and there is a certain technology that is known about this and there are certain books, and courses are taught and I don't have the address just now on where this is taught. But anyway, it exists and goodbye." Whew. You just sentenced somebody to no auditing.

But an estimation of those to whom you are trying to speak and an estimation of where they sit on the Tone Scale and an estimation of what problems they have and what use they can have for the data and so on – all of these things come into the whole field of dissemination.

We are the first group on earth that knew what they were talking about. All right, sail in. The world's ours. Own it.

Important Announcement To All Scientologists

For nearly a quarter of a century, Church donations have remained at set figures which have not changed much.

During the same period of time, inflation in the United States and elsewhere has increased the cost of delivering our services by a staggering amount. The cost of living in the U.S., for example, has gone up 87.6% since 1950. The price of some U.S. commodities has risen as much as 900%!

Wishing only to give service, the Church has not raised most of the donations it has requested in all this time. But this has resulted in making it more and more difficult to deliver the quality of service we want to. Perhaps you have seen this in materials or facilities at times not readily available in your local Church, or existing facilities getting a bit run-down. Over the years, it has also become more and more difficult for our Scientology staffs to be paid enough to live on. We simply cannot buy as much with your donations as we once could.

To give better service to you, we have no choice but to adjust our donation requests. L. Ron Hubbard has directed there be no large, sudden increases which would create great hardship for parishioners. Rather, he has directed the situation be handled through gradual adjustment.

Accordingly, please be advised that beginning at midnight October 31, 1976, the requested donations for all services, books, meters, courses and processing will increase 5%.

On November 30, 1976 at midnight, these donations will increase 5% over October. This will continue with each month until further notice.

However, where the donation for any service or item is FULLY made in any month but not taken until a later time, it WILL be delivered at the rate paid.

This policy shall apply to Missions and Churches of all levels in Scientology, excluding the Flag Land Base at this time.

The above has been summarized from a directive to staff by L. Ron Hubbard, Founder, dated September 16, 1976, in which he writes: "All persons donating for services should be given the full reasons for this slight increase: so that our staffs can live, so that we can take better care of our buildings and so that we can give better service."

Please contact the Registrar at ASHO for further information and assistance in reserving your next service.

BOOKS ARE DISSEMINATION

by L. Ron Hubbard

If you think you can interest a person in Scientology and yet avoid your responsibility in getting him or her to read books on the subject, you are wasting a tremendous amount of effort.

Do you know why the first book DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH was written? Word of mouth on Dianetics was going forward so rapidly that my letter volume, even before the first book, was startling. Each one of these people expected me, either to write them a long letter and tell them what it was all about, or to be given a chance to come and see me so that I could tell them personally what it was all about. In other words, my time was going to be consumed, not in further research, but in writing letters and talking to people. My answer to this was to write DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH which rapidly informed the newly interested person what this new science was all about.

I will make you a wager. I think you are wasting most of your time answering questions which are answered in books. I think you are talking yourself hoarse to friends, and other people, and groups, explaining over and over and over things that are already taken up in books. I think your time is being devoured by attempts to reach through the natural conversation barriers of people.

You are not giving, I am sure, the newly interested person an opportunity to go and sit down quietly by himself, without any social strain, and study a book on the subject. Only in this way will he come to a decision about the subject which is his own independent decision having inspected the materials. This has to be done quietly and it is best done through the pages of a book.

Without any reservations, I can tell you that DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH, based as it is upon mental image pictures and energy masses, those things which are most real to people, is the best forward vanguard in our possession. It was written at a time when I was very interested in bridging the gap between an uninformed public and an informed public, and contains in it most of the arguments necessary to quiet the suspicions of the newly interested person and contains as well most of the answers to that person's questions.

DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH contains today a perfectly workable therapy. But more importantly it contains a bridge between the uninformed and the informed public on the subject of Scientology.

If you are not furiously pushing DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH and if you are not insisting that each newly interested person read it as something new, startling and strange in the world, you will be wasting most of your dissemination efforts.

Oddly enough, this book, to this day, sells more copies around the world than the average best seller in any given year. Where it has been pushed, Scientology is booming. Where it has not been pushed, Scientology is limp.

Just inspect the number of simple, startling items in DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH. Here you find the Dynamics, here you find several of the earliest Axioms, here you even find the rudimentary ARC tone scale. You find as well a thoroughly accurate description of clears and the reactive mind.

Do you realize that the world does not yet know anything about the reactive mind? Here is the total answer to Freud's subconscious. Here is the resolution of most of the problems of psychotherapy.

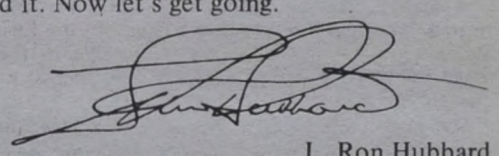

You know so many things that are new and wonderful and strange that you forget that Bill and Joe and Mary have never heard of any part of them. They are not interested in past lives. They are interested in what makes them do strange and peculiar things. They have heard vaguely about the tenets of psychology. They do not know that these have all been answered in DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH.

When people are asking you questions about Dianetics and Scientology, no matter how obtuse or abstruse the questions are, your best answer to these questions was my earliest answer and that was, "Read DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH and that will answer your question."

Now that we can interest people, let's take the next inevitable step. Let's push this book. Let's crowd it into people's hands and demand that they buy it. Let's develop the trick, when they ask us complicated questions, of stating that they should read DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH.

After all, we have a brand new science in the world. DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH is a brand new book that describes it at public level and it is a good thing if you want to get people into a house to get them to come in the front door. The front door we have is DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH.

I, personally, do not believe the book could ever be written again, since it was written at a time when I was well aware of the public arguments concerning the mind. For the indifferently literate person it forms the necessary bridge from knowing nothing to knowing something. It is an exciting book. Push it. Get your people to read it. Now let's get going.

L. Ron Hubbard

"What I got out of the Briefing Course and Senior Briefing Course was UNDERSTANDING."

"As a Class IV, I was operating without full understanding of life, others, even myself. I got that understanding on the Briefing Course.

I became a 'data release.' I no longer figure-figure on what I know. Once you step on the training road, you have to travel to a full understanding or you'll have attention stuck on what you don't know or just partially know. On the Briefing Course my certainty increased tremendously.

This is something others can easily perceive too. I'm working with brand new people at a Mission – around 80% sign up to go on to Life Repair and their next course after I handle them. It's easy – when you understand people.

The Saint Hill Special Briefing Course (Level V) also made my own reactive mind real to me. I realized I'd been doing Scientology for 3 years with only a very shallow reality on why I needed to be doing it!

I really appreciated having a good twin too. There are so many people on the Briefing Course at ASHO you're bound to find someone of comparable magnitude. The 6 months on Level V flew by.

Seven weeks on Level VI gave me the certainty I could repair a case. It became simple, just as I'd hoped it would be one day!

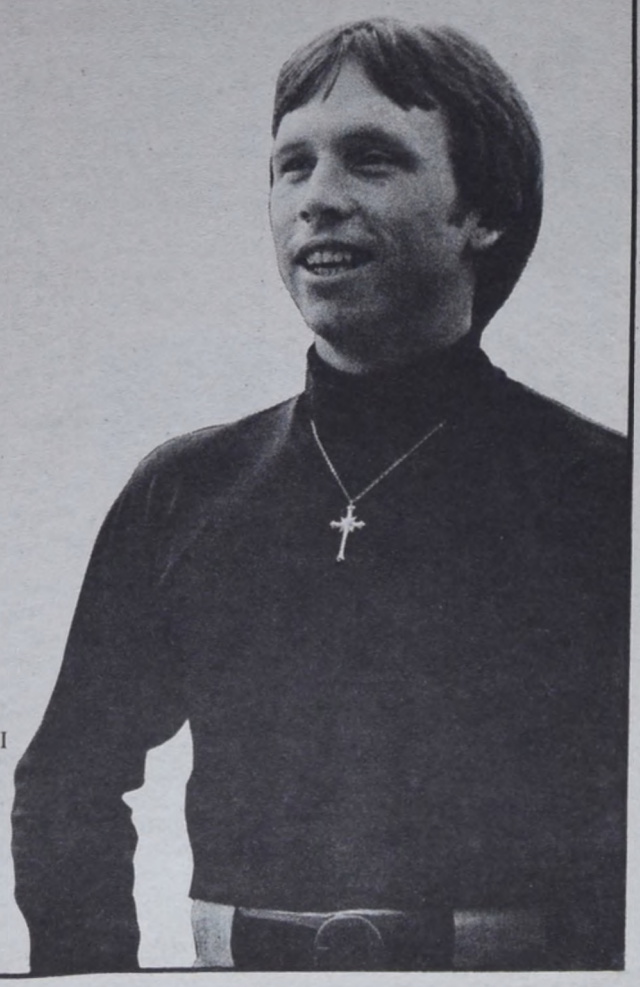

The 'demonstration of competence' I'd been waiting for was the internship. When I graduated with a permanent certificate, I KNEW I could audit as a professional Class VI.

I got my own case handled too. When I started the Briefing Course I'd just finished my Drug Rundown. About 200 hours of auditing from other students finished me up to Grade IV. Then of course I got my Power at 50% discount, and the Solo Course and Grade VI free, just by being a Briefing Course student! A darn good deal for $2150. I *saved* a lot more than that.

Being a Class VI Auditor has definitely made Clearing and the OT levels a lot more fun too. If I hadn't had training I know I'd be wondering what really happened to me all the way up the line. I wouldn't feel my understanding was complete until I knew.

Well, I can tell you without reservation that if you'd like to know more of the truth about any area on ANY dynamic, the Briefing Course is exactly what you should do."

Tim Fahey, Class VI, OT III

International Conference for W

Approximately 10,000 Scientologists and their guests from around the world attended the comprehensive International Conference for World Peace and Social Reform August 24-29 in Anaheim, California.

More than 50 prominent figures from the fields of religion, education, government, science, ecology, social reform and the arts addressed themselves to the Conference theme: "A culture is as rich and as capable of surviving as it has imaginative artists, skilled men of science, a high ethic level, workable government, land and natural resources in about that order of importance." (L. Ron Hubbard).

After tours of area Churches of Scientology and registration on the 24th, informational booths representing Scientology Churches, Missions, and projects of application of L. Ron Hubbard's technology to improve conditions were opened at 1:00 p.m. Wednesday, August 25.

Wednesday night opened the breathtaking International Art Exhibition of the works of Scientologists in photography, sculpture, painting, calligraphy and crafts.

Scientologists in the Movies, featuring films of Academy Award winner Bert Salzman (OT I), Geoff Lewis (OT IV), Robert F. Lyons (OT III), and others, was offered the morning of August 26.

Presentations on the Event Theme brought together Scientologists engaged in professions from mathematics to psychic research, communicating how they have found Ron's technology applicable in their fields.

The stirring Grand Opening of the Social Reform Conference Thursday night began with a medley of national tunes and anthems, representing the Scientology delegations from many nations on all 5 continents of Earth, followed by a Parade of Flags.

"We are the major social reform movement of our times," the keynote which echoed throughout the Conference, was expressed in the welcoming remarks.

The Conference was warmly welcomed by Councilman Don Roth on behalf of the Mayor of Anaheim.

World-renowned pianist Mario Feninger delighted the audience with a piano recital, followed by the first-ever appearance of all four Hubbard children, Suzette, Arthur, Quentin and Diana, who individually spoke of their role in the expansion of Scientology.

Then came the long-awaited moment for the preview premiere release of L. Ron Hubbard's *Technical Bulletins of Dianetics and Scientology*. Diana read a special message from her father, explaining the purpose, use and meaning of the volumes, excerpted here: "An Education which fails to enhance communication between individuals, groups and societies has no place in man's future. With the magnitude of the problems to resolve between nations, let alone groups and individuals, communication barriers cannot go unrecognized or unhandled. The field of Education must update itself to provide actual methods and techniques, and the know-how of communication. Teachers must be able to communicate knowledge to their students, students must be able to receive that communication and apply it. There must be a free and smooth interchange of ideas with real understanding.

"Scientology technology addresses this particular need by approaching Education from a viewpoint of helping the student to understand people, the mechanics of communication, and the successful basis of how to study. *This is why Scientology has today become the vital companion to Education. It boosts a person's ability to understand knowledge and people. . . .*

"In the past, vested interests have bled education and educational institutions for financial gain, with no concern for the future of mankind. Many responsible educators have run headlong into this, aware of the dwindling spiral but unable to take effective action. Earlier on, we ran into some of this business too. But we didn't let that deter us. The technology is enormously successful. And our shining results are truly a part of the long-held ideals of Education.

"These new Technical Volumes are probably the first comprehensive collection of such technology intended for the general public."

The suspense mounted as Diana walked to the rear of the stage, and let fall a veil to reveal a huge stage version of all ten Volumes. Cheers, a standing ovation, red and white streamers exploded from the crowd as hundreds of red and white balloons drifted down from the ceiling.

After a special Bicentennial salute, the crowd rushed out to the first open displays of the Technical Volumes.

Throughout Friday and Saturday morning and afternoon, Scientologists joined top government, church and social reform leaders from across the globe in presenting their views and accomplishments toward a saner society.

Amongst those who spoke on human rights and social reform topics were distinguished attorneys, educators, legislators, social workers, doctors, and journalists from Mexico, Canada, Sweden, Germany, Denmark, Switzerland, Great Britain, South Africa, Western Australia, New Zealand and the USA.

Friday evening, Scientology in Concert featured jazz pianist Chick Corea, number one in his field on the 1975 *Downbeat* and *Playboy* polls, and winner of a Grammy award for one of his records, with Stanley Clarke, voted number one bassist in *Downbeat*. The bill included dynamic Israeli singer T'Shura and pianist Mike Garson.

Saturday night marked the presentation of the 1976 Freedom Awards, given by the Church's independent publication, Freedom Journal, for best journalism in the public interest.

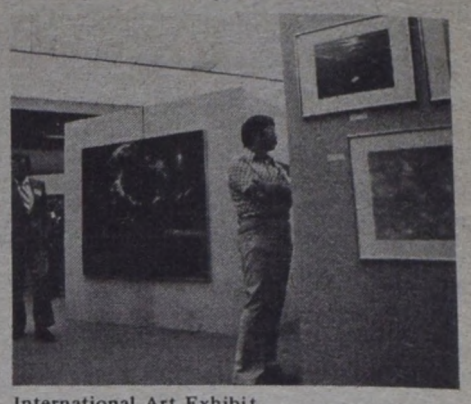

For those who purchased their Technical Volumes during the Conference, a special signing of the books by Diana and Quentin was arranged Saturday night.

The Human Rights Prayer Day on Sunday began with the film PAX and was highlighted by the Church of Scientology choir singing "The Factors." The sermon was delivered by the Guardian, Rev. Jane Kember.

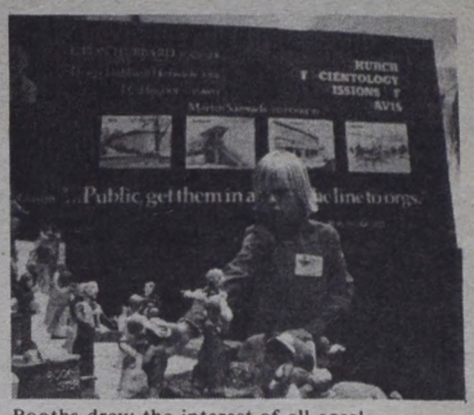

The conclusion of this, our first international conference, left no one unmoved or untouched. Each one who had come heard, saw or felt the tremendous progress Scientologists have made in making the world a better place. Recognizing how much further there is yet to go, each one left with renewed purpose and determination to do his part to disseminate and to apply Ron's technology to create, in truth, a world without insanity, without criminals, and without war.

All-American swimmer Sue Walsh performs with teammate from Santa Clara.

Swim Champ Coaches with Scientology

Gold medalist SUE WALSH, All-American swimmer, is now full time on the Saint Hill Special Briefing Course at ASHO. After graduation she plans to audit during the day and be head coach for the nation's top Synchronized Swim Team in the evenings, taking them to upcoming national and international games.

In 1973, the team Sue was part of took the gold medal at the 1st World Aquatic games held in Yugoslavia after winning the U.S. nationals four times in a row.

May of 1974 found Sue studying at San Jose State. A friend, Dan Fumento (now a Class VI Auditor), invited her to a Scientology lecture by Tim Fahey (now Class VI also) and she started the Communications Course right afterward.

She and the rest of the team went on tour to Japan that fall where they beat the Japanese team three times in a row. (The home team twice requested a rematch!)

That year, Sue was voted by fellow athletes to the All American team, for which she also qualified in 1975.

She coached the Santa Clara team to an easy victory at the 1975 National Competition in Long Beach using basic Scientology. Two team members have since done the Communication Course.

In November of 1975, Sue retired from the team to train in Scientology full time—becoming an auditor was the next bigger game she had been looking for.

Fred sold 125 copies of *Dianetics* in the Coast Guard during his first three months as a Scientologist.

Dissemination in the Coast Guard

FRED PORTER has wasted no time since getting into Scientology!

A Chief Warrant Officer in the Coast Guard, Fred first read *Dianetics, Modern Science of Mental Health* in February 1976 while recuperating from surgery. Having been a teacher of basic nuclear physics, he had been looking for some real answers to basic questions for a long time.

After reading *Dianetics* he went straight to the San Francisco Church of Scientology where he completed the Communication Course and his Life Repair.

Within 3 months, he had sold 125 copies of Dianetics and gotten nine other new people into Scientology!

Fred is now a full-time Scientology staff member to help further broad dissemination.

Karen Black's FSM to Use Restaurant for Dissemination

Class VIII CANDY SWANSON, FSM for famous movie actress Karen Black, started "the Horn of Plenty" restaurant nine months ago to create a safe space from which to disseminate.

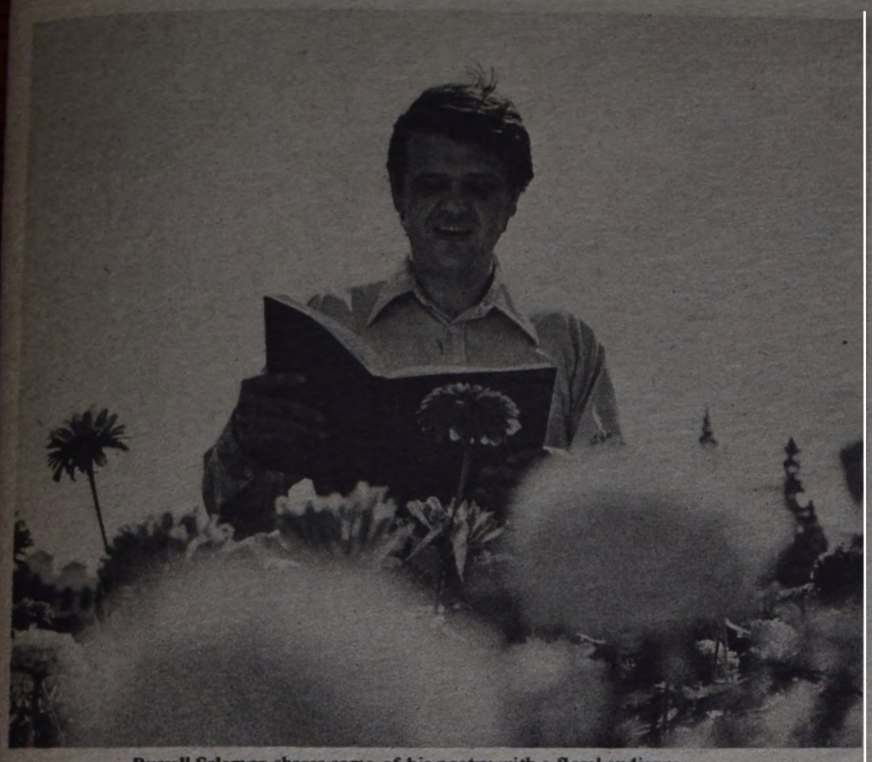

While she had never worked in a restaurant before and hardly knew anything about cooking, she has been able to work creatively with natural foods and the restaurant is an ever-growing success.

Candy plans to start beginning lectures on Scientology there shortly. An active Field Staff Member, she currently has about 35 people on her lines that she is pushing up the Bridge.

UND THE WORLD

Russell Salamon shares some of his poetry with a floral audience . . . .

Poet Disseminates

RUSSELL SALAMON, who, in his own words "acquired his body in Yugoslavia and his American accent in Cleveland," had wanted to be a poet since the age of two. Now, as a Clear, that dream has come true for him and he is working to disseminate Scientology to others.

In June of this year, his first book of poems was published by Admiral Books of Los Angeles. Over recent years he has developed quite a following through stirring poetry readings and publication in periodicals.

In 1965, he had heard about a book called *Creation of Human Ability* by L. Ron Hubbard and searched through libraries and bookstores for six months. He finally found it at the New York Church of Scientology. "I opened it and said 'this is it!'" he recalls. He started Scientology training and auditing shortly after and in 1971 became Clear No. 2995.

"Scientology has given me the content, what is inside the land of the very good indicators, the smile country," he explains. "Communicating that in simple English is the job I've picked out for myself."

Among the people he has disseminated to as a Field Staff Member are Al Yarger, now Class VI; Aminta Alexander, now Class VIII, HSST; Marilyn Davis Jones, now OT III; and Ruth Newhope, who has just signed up for her Academy training.

Al Yarger was one of the easiest says Russell. "Nothing to it. I just defined what Scientology was. He said 'Yes? I've been looking for something like that. Sounds terrific. Think I'll go.' I went on a two week vacation and when I came back Al was already on course!"

Class VI Bonnie Bishop of Apple School and Dr. George Fischbeck of ABC TV get ready for this year's Bike-A-Thon.

Community Support for Scientology School Bike-A-Thon

With reading test scores showing an average of 2½ years improvement in 1st-8th graders, the Los Feliz Apple School, a private Scientology school, is holding its Second Annual (fund-raising) Bike-a-thon to meet increasing enrollment demands.

Just under 100 students, parents, teachers and friends rode in last November's bike-a-thon. The 20 mile route, which centered around five Jack-in-the-Box restaurants in the Los Angeles area, ended up at ABC Television Center in Hollywood. The youngest rider to complete the route was five, the oldest around 80!

This year's event will take place on Halloween Sunday, October 31st. Jack-in-the-Box and ABC TV Center are again donating their time and resources. Dr. George Fischbeck of KABC-TV will again be Honorary Chairman, Senator Alan Robbins will cut the official starting ribbon, and TV idol, Scientologist John Travolta of "Welcome Back, Kotter" fame, will head the list of celebrities helping out along with "Kotter" regular, Helene Lembeck and drummer Mickey McMeel.

This year's target is $50,000 which will enable the school to purchase the 4.2 acre campus it now leases and start building the extra permanent classrooms it needs.

In addition to the main school, three more California Apple Schools will open this Fall: San Diego, Westwood, and San Francisco. Another is projected for Flagstaff, Arizona.

Apple School Founder, Bonnie Bishop, Class VI Auditor, gives full credit to the study, communication and organizational technologies of L. Ron Hubbard for the magnificent success Apple School is enjoying.

RECORD-BREAKING FSM IN TWIN CITIES

FSM LEA JOLLIFF has broken all records at the Church of Scientology in Minnesota for number of books sold to new people by an FSM in one month.

Lea sells cosmetics at a department store during the day and is studying in the Academy at night. She still finds time to sell books with the Division 6 team! In April she sold 66 books, and in the last four months she has accumulated $482 on her own account in training awards.

Class VIII Pem Wall executes advanced karate maneuver.

Class VIII Wins International Karate Trophy

Class VIII PEM WALL, a living dissemination of the workability of Scientology, at age 33 ranked in the top three in Korean form at the recent Long Beach Internationals, largest karate tournament in the U.S. Most of the 6000 competitors are 18-22 years old.

"People ask me how I do it, and of course the answer is Scientology," says Pem. "When I was a kid I was always the smallest in the class, the last one chosen for sports. I wanted to study karate, but I was afraid of getting hurt. It was through the application of the principles of Scientology that I have been able to accomplish what I have."

He picked up karate after he was a Class VIII. He is now a black belt.

Steve MacHutta, one of the people Pem met when studying karate in Phoenix, ended up getting some auditing and has recently completed his Power Processing at ASHO (he is now Clear No. 5532).

Pem was coached for the tournament by OT II Danny Divito, Class IV Auditor.

NBC cameraman arranges the taping of interview with Class VI Charles Dunn, Class VIII Claire Dunn and their daughter Shaylee.

Graduates from ASHO on TV: How Scientology Affects a Family

This summer, the most comprehensive coverage of Scientology ever done on U.S. television is airing on the national NBC program ODYSSEY.

The six part series on Scientology has so far covered the Life of L. Ron Hubbard, Use of Study Tech in Scientology Courses, a Scientology wedding, and preview of the International Conference on Social Reform and Human Rights Prayer Day. The two remaining segments, How Scientology Affects a Family and How Scientology Helps Celebrities, will be shown soon.

In the family segment, Class VI Charles Dunn and his Class VIII wife Claire (both recent ASHO graduates) are interviewed about their family. Their children, Buddy and Shaylee, are both Scientologists too. The Dunn family, from Indiana, have been living at the Manor Hotel for Scientologists while training to Class IX at ASHO.

Scientology Music Disseminates

Clear 661 SAM GERBER, and his son-in-law, DON GREAT, have collaborated on an album of music for dissemination.

Sam, a successful businessman before Scientology had always been interested in the mind (he majored in psychology in college). But he was flabbergasted when he found Scientology in 1959 – it was exactly what he had been looking for.

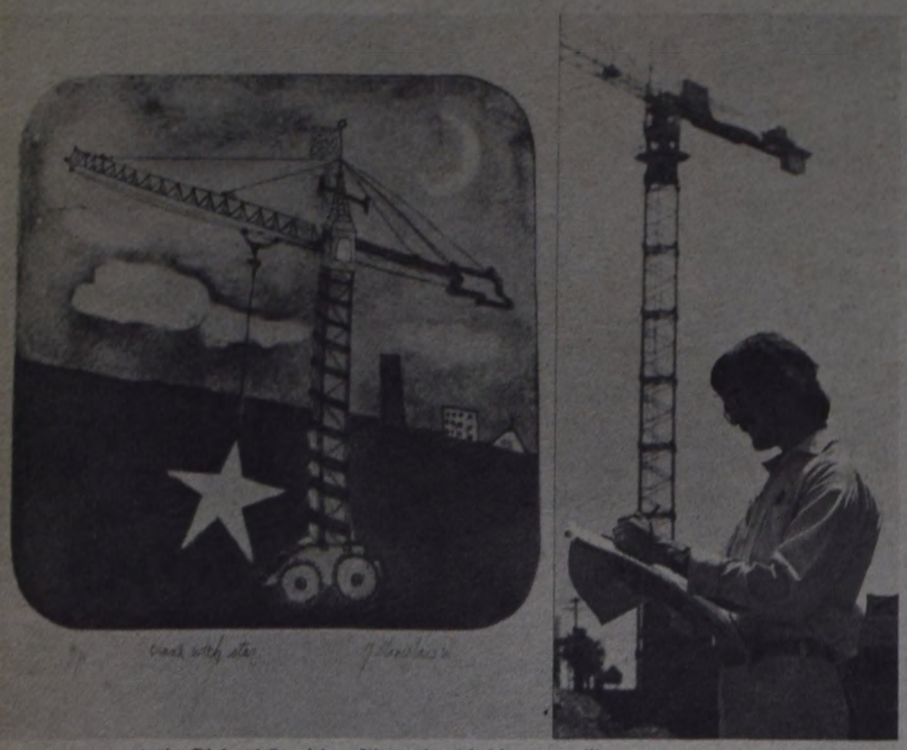

Don, composer and singer, has scored five motion pictures, produced two gold records, and contributed 17 songs to a double album sponsored by the Bicentennial Administration featuring artists such as Sammy Davis, Jr., Pat Boone, Paul Revere and the Raiders, and Billy Joe Royal.

The new Scientology album, entitled "Thee Awakening", was produced by the two to help people disseminate Scientology concepts to friends through music and song. It carries the seal of the Master of the Commodore's Music, Bobby Richards.

Don and his father-in-law Clear 661 Sam Gerber go over one of the songs on their new album.

UND THE WORLD

Artist Richard Stanislaus Wasczak adds his sense of humor to a crane.

Class VIII Auditor Revitalizes Artist

RICHARD STANISLAUS WASCZAK is rapidly becoming very well known for his whimsical illustrations, etchings and paintings. But until a few years ago, when his sisters got him into Scientology, he wasn't drawing any more at all.

Heavily invalidated as a young boy, by 1966 he had stopped doing his artwork completely. His sisters, Arlene Wasczak and Barbara Glass, finally got him interested in Scientology in 1972. Barbara, a Class VIII, audited him on Life Repair and rekindled his old purposes to be an artist.

He now has galleries in New York, Chicago, Pennsylvania, Death Valley (California) and Washington. One of his etchings has been approved for presentation to the Unicef greeting card selection committee.

Currently, he is writing and illustrating a children's story based on Scientology concepts.

Drummer Mickey McMeel in action!

Scientology Drummer Lands New TV Role

Drummer MICKEY McMEEL has just landed a key role in the new 90 minute rock 'n roll comedy series "Krofft Super Show starring Kapt. Kool and the Kongs," Saturday at 9:30 a.m. on ABC TV.

Kapt. Kool and the Kongs will be on the Donny and Marie Osmond show in mid-October, and on American Bandstand April 18. Also in the making for the group is an ABC Movie of the Week, and a prime time TV series for next summer. A record contract will be signed in the very near future.

Mickey, who has been in Scientology two years, has recorded with such well known rock groups as Three Dog Night and Flash Cadillac. He also has his own music company and is currently producing the work of another Scientology artist, Richard Lewis, a Hubbard Dianetic Counselor.

"I'm a Dianetic Auditor and I use the tech all the time," says Mickey. "People always want to know why I'm so together – and of course I tell them!"

He plans to be at ASHO for Power Processing soon, and will be training on the Briefing Course after his OT levels.

As a new rock celebrity, he has been interviewed by "Tiger Beat" and several other teen magazines.

The Hubbard Communications Office exists to expedite the communications and oversee the policies of L. Ron Hubbard.

FSMs Learn Dissemination at ASHO

"I'm going to need every last Scientologist in the world as highly trained and processed as possible.

And so I have swept aside all the blocks I could. We must we can get the show on the road in time.

So let's get the show on the road!"

L. Ron Hubbard

Over 100 Field Staff Members recently attended a very successful dissemination seminar at ASHO June 5th and 6th to do just that.

Here are some of their successes:

I have made new friends who really appreciate what I have and am doing for them as their FSM.

I am really appreciated and loved by my people–they swear by me. That is really a win in itself in this society and for me personally.

This seminar really helped me as an FSM.

Chesley Johnson

For the first time I feel I am on the road to being a successful FSM. The gradient is spot on for me. I feel great and am happy to be doing the greatest good for the greatest number.

Paul Mantle

My husband and I got in communication on our goals and purposes as Scientologists for the first time in months. Watch out! We're going to be hot shot FSMs!

Nancy Ruiz

This FSM rally really handled what I've had my attention on handling.

Mila Gaudremeau

This is what I came to L.A. for! I'm really to the point at which I am able to FSM and deliver. I will. I'm handled.

Ron Reinig

My biggest win was seeing how many Scientologists there are who really care about FSMing and getting new people on the Bridge towards Clear. I would really like to thank the seminar leader James Byrne, for caring enough to help us all.

Renee Swish

Focus On Success

FSMs Win!

Mary Jo Alburger enjoys a Briefing Course lecture by L. Ron Hubbard on telling people about Scientology, at ASHO.

Helping people learn about Scientology

One of the main factors that makes disseminating a great game is that here is someone who knows nothing at all about Scientology. He might not realize that things could be better. He probably doesn't know he is a spiritual being or that there is such a thing as communication. To take this person and get him interested in himself and on course is one of the biggest wins to be had in Scientology. Imagine running into YOUR SELECTEE at the Bookstore or the Academy! What a win!

In three months I got ten new people into Scientology and sold more than 600 Dianetics books. It's really easy to do. Being a Field Staff Member is a fantastic game, on purpose, with huge wins.

Tom Jacoby

Moving Scientologists up the Bridge

Seeing someone get moving on the Bridge is almost as rewarding as auditing.

Recently I helped a girl who was down tone, nattery and more or less blown from getting Clear. I totally by-passed a few people who were supposedly 'handling' her and got her preclear folder to the right terminal fast. This showed up some auditing errors that would stop any case! She got cleaned up because of my action and she's now working to get some auditing. Good FSMing helps clean up an area.

Joe Patterson

Traveler Disseminates

Last Friday I boarded a plane to Sacramento, looked around for the passenger with the least mass and sat next to her. We were in instant communication. I told her about Scientology and she couldn't wait to get back to Los Angeles to find out more about it. Last night she signed up for the Communication Course!

Sioux Bushman

Family

I just came back from a 2 week trip home. I saw my folks and friends and my fiance's folks and friends. I had a lot of wins using the tech I've learned on the Briefing Course. I disseminated to a few people and was a good example of Scientology. At one point my mother said (about my sister who had been moody for 2 days) "I wish your sister was in Scientology!" That was a win!

Mary Jo Alburger

Making Scientology Visible

I was standing in line at the bank wearing a T-Shirt with the work Scientology printed on it, when a gentleman approached me and said "So you're one of these Scientologists. What's it all about anyway?" I sent him to an introductory lecture and he'll be starting course soon!

People are constantly stopping me in public and asking about Scientology or Dianetics. I started putting Scientology symbols and messages on T-shirts to create a fashionable and practical way to make Dianetics and Scientology more visible in the environment. I'm collecting quite a file full of dissemination successes as a result. It's working!

Mary Ann McCaffrey

It's Easy with Training

Disseminating Scientology and getting thetans onto training lines at ASHO or Solo lines at AOLA is very easy once you're a trained OT. I'm a Class IV, OT IIIX and have gotten 11 thetans on lines or returned to ASHO services and 9 onto AO services in the last 9 weeks.

My personal goals are to become a fully trained OT, paying for the rest of my Bridge as an FSM. In my first 2 months of daily part time FSM work I'm earning $925 a month.

I can confront and HANDLE any stop provided the guy does need and want to move up the Bridge. If he is willing to get his ethics IN or be helped in getting them in then the rest is easy for me.

My FSM Hat really gives me purpose and value and helps me fulfill my responsibility as a Scientologist.

Rev. Bob Fell, II

Sanity

There's a certain satisfaction I've experienced in getting new people into Scientology. It's a really sane flow and one of the most rewarding things I've done in Scientology.

Jim Darcy

Back on the Bridge

I came to ASHO with my FSM because I was at a standstill in my training and had a lot of problems I didn't know how to handle or who to go to to help me handle them.

Ten minutes here certainly cleared up a lot of uncertainty and problems and set me straight on what I need to do to get up the Bridge. Fantastic.
