PHILOSOPHY WINS AFTER 2000 YEARS

By Tom Esterbrook

Philosophy did not die with Ancient Greece.

Out of the Natural Philosophy of those times came Science.

The wonders of chrome and metal cars, planes, the atom bomb and even the satellites have their roots in the firm base of Greek Philosophy.

But Socrates, Aristotle, Euclid, Thales, Heraclitus, Parmenides, Democritus, Pythagoras, Plato, Anaxagoras, Lucretius and all the rest did not have in mind the manufacture of material things when they released their knowledge to the world.

Even though all these great things developed out of Greek thought and mathematics, the great names of philosophy considered they had failed.

And so they had. Until today.

For their philosophic goal was the understanding of the spirit of Man and his relationship to the universe. And they could only speculate upon it. They never *proved* their contention that Man was a spirit clothed in flesh, they could only assert it.

And so they drowned in the avalanche of superstition which engulfed the world in the Dark Ages.

Why did they fail? They needed the higher mathematics and electronics which would, over two thousand years later, develop their philosophies.

These *were* developed. But they were used for different purposes than those intended, and Man turned his back upon their lofty dreams while building planes to bomb cities and atom bombs to wipe out the Mankind no one had ever understood.

Until Scientology.

And in it the goals of Greek Philosophy live again.

Using modern developments in the sciences, it became possible to approach again the basic problems: What is Man? What is his relationship to the Universe? What is the Universe?

Scientology, after a third of a century of careful research and investigation can answer, with scientific truth those questions and prove the answers.

This is rather startling.

We have come so far from Thales, Heraclitus, Parmenides and Democritus that we have almost forgotten what they were trying to discover. But if you consult writings of the work they did over two thousand years ago you will see what it was.

They wanted Man to know. They did not fail. They laid the ancient Greeks a firm foundation on which to build. And two thousand and more years later we can furnish all the evidence they need.

And that evidence and its truths and its great potential of betterment for the individual and all Mankind are completed work today in Scientology.

We have reached the star they saw. And we know what it is. You'll find its value when you become a Scientologist, a being who has come to know himself, life and the Universe and can give a hand to those around him to reach the stars.

Scientology Answers

Man has asked a great many questions about himself.

Such questions are "Who am I?" "Where do I come from?" "What is Death?" "Is there a Hereafter?"

Any child asks these questions, yet Man has never had answers that long satisfied him.

Religions have various answers to these questions and they belong in fact in the field of religious philosophy, since this is the area of Man's knowledge that has sought to answer them.

Answers have varied through the ages and race to race and this variation alone is the stumbling block which brings disbelief into faiths. Old religions fade because people no longer find their answers to the above questions real.

The decline of Christianity is marked by modern cynicism about a Hell where one burns for an eternity and a Heaven where one plays a harp forever.

Materialistic sciences have sought to invalidate the entire field by shrugging the problem off with the equally impossible answers that one is merely meat and all life arose by spontaneous and accidental combustion from a sea of ammonia. Such "answers" sound more like pre-Buddhist India where the world was said to be carried on seven pillars that stood on seven pillars which stood on a turtle and, in exasperation to the child's question as to what the turtle stood on, "Mud! And it's mud from there on down!"

It is the nature of Truth that if one knows it, even more things get understood. The disease and decay of Asia tends to invalidate their concepts as Truth and in the West, war, where soldiers saw "Gott Mit Uns" on the slain enemy belt buckles tended to end the domination of the churches of those times—for God could not be on both sides of such Devil's work, or so the soldiers reasoned.

Scientology Answers *(continued)*

Even Christ's great commandment of "Love thy neighbour" seems to have less force today in a world of income tax, inflation and the slaughter of civil populations in the name of peace.

So without in any way condemning or scorning any man's beliefs, Scientology arose from the ashes of a spiritless science and again asked—and answered—the eternal questions.

That the answers have the force of truth is attested by the results. Instead of the sickness of religious India, Scientologists are seldom ill. Instead of internal warfare such as the riots of Alexandria, Scientologists live in relative harmony with each other and have skills that restore relations rapidly.

The world tends to attack new things and Scientology has had its share from vested interest groups and governments but it keeps rising eventually victorious from each clash without bitterness.

Various interesting results proceed from the practice of Scientology. One's intelligence increases and one's ability to handle his problems is markedly bettered.

One does not have to study Scientology very long to know that one does not have to die to find out what he [illegible] where he is going after death, for *one can experience* [illegible] for himself with no persuasion or hypnotism or [illegible]h."

[illegible]o Scientology is different mainly because one doesn't [illegible]ave to *believe* in it to have it work. Its truths are of the order of "Is this black?" "Is this white?" You can see for yourself something is black if it's black and that something is white when it's white.

No tricks of logic are needed to prove any point and Scientologists only ask people to look for themselves.

Thus, along with science, Scientology can achieve positive invariable results. Given the same conditions, one always gets the same results. And anyone given the same conditions can obtain the same results.

What has happened is the *superstition* has been subtracted from spiritual studies. And today this is a very acceptable state of affairs to Man.

The ultimate freedom depends on knowing the ultimate Truth. Truth is not what people *say* it is, it is what it *is*. And Truth, quite remarkably, sets one free, just like philosophers have said down the ages.

What the philosophers did *not* say was how free can one get? And that is the surprise contained in Scientology for everyone who walks the Road to Truth—one *can* be totally free.

Naturally this makes no friendly news to the person who wants slaves and Fascistic, Capitalistic and even some more liberal creeds forbid that utterly, for who could be a master, so they think, where no slave wears his chains? They miss the point entirely, for who *has* to be a master?

When you yourself hold the Truth the shadows by which you are bound tend to slither away.

And when you at last know for yourself in your own experience that Scientology does have the answers, and when you have applied them, you have the result all philosophers, savants, sages and saviours have always dreamed of—and freedom as well.

As much of Scientology is true for you as you know of it, those who know it only by name react to the hope of it. And as one advances upon the road, one knows more and more of it and is more and more free. Unlike so many promises made to man and which have made him fear disappointment, Scientology delivers. It may be over a rough road. It may be over a smooth one. But Scientology eventually delivers all it says it can.

And that is what is new about it and why it grows. No other religion ever given Man delivered. They all waited until after the end for one to find his harp or his Nirvana.

For the first time in all the ages there *is* something that within one lifetime delivers the answers to the eternal questions and delivers immortality as well.

L. RON HUBBARD

Scientology was developed by L. Ron Hubbard, an American writer and philosopher.

It was completed after 35 years of research.

Hubbard was born in Tilden, Nebraska, March 13, 1911.

Much of Hubbard's early youth was spent in the American West and he travelled extensively in Asia as a young man.

He studied Science and Mathematics at George Washington University, graduating from Columbian College. He attended the Princetown University and obtained a degree as Doctor of Philosophy (Ph.D.) from Sequoia University.

Before World War II he was well known in exploratational circles and is to this day a member of the Explorer's Club.

He wrote and published over 15,000,000 words of articles and novels of all kinds before World War II.

During that war he served as a commander of corvettes and was extensively decorated.

Crippled and blind at the end of the war, he resumed his studies of philosophy and by his discoveries recovered so fully that he was re-classified in 1949 for full combat duty. It is a matter of medical record that he has twice been pronounced dead and that in 1950 he was given a perfect score on mental and physical fitness reports.

Revolted by war and Man's inhumanity to Man, he resigned his commission rather than assist government research projects.

He published his original thesis on his work and the startling popularity of a thesis brought publishers to offer him a contract for a popular work on the subject which in 1950 soared to the top of the best-seller lists and stayed there.

Hubbard has a lovely wife, Mary Sue Hubbard, and four charming children.

Unlike any other philosopher in any age, Hubbard has led a very full and adventurous life. He has been the hero in numerous novels and even of a famous motion picture.

Probably no philosopher of modern times has had the popularity and appeal of Hubbard or such startling successes within his own lifetime. And Mankind has had no better friend.

THE AIMS OF SCIENTOLOGY

A civilization without insanity, without criminals and without war, where the able can prosper and honest beings can have rights, and where Man is free to rise to greater heights, are the aims of Scientology.

First announced to an enturbulated world fifteen years ago, these aims are well within the grasp of our technology.

Non-political in nature, Scientology welcomes any individual of any creed, race or nation.

We seek no revolution. We seek only evolution to higher states of being for the individual and for Society.

We are achieving our aims.

After endless millenia of ignorance about himself, his mind and the Universe, a breakthrough has been made for Man.

Other efforts Man has made have been surpassed.

The combined truths of Fifty Thousand years of thinking men, distilled and amplified by new discoveries about Man, have made for this success.

We welcome you to Scientology. We only expect of you your help in achieving our aims and helping others. We expect you to be helped.

Scientology is the most vital movement on Earth today.

In a turbulent world, the job is not easy. But then, if it were, we wouldn't have to be doing it.

We respect Man and believe he is worthy of help. We respect you and believe you, too, can help.

Scientology does not owe its help. We have done nothing to cause us to propitiate. Had we done so, we would not now be bright enough to do what we are doing.

Man suspects all offers of help. He has often been betrayed, his confidence shattered. Too frequently he has given his trust and been betrayed. We may err, for we build a world with broken straws. But we will never betray your faith in us so long as you are one of us.

The sun never sets on Scientology.

And may a new day dawn for you, for those you love and for Man.

Our aims are simple if great.

And we will succeed, and are succeeding at each new revolution of the Earth.

Your help is acceptable to us.

Our help is yours.

What Scientology Can Do For You

All that Scientology has to offer is understanding. What a simple statement that is and yet that one word, understanding, is the key to all of man's problems and opens the door to a future without fear, without sickness, without insanity, without death, for beyond that door is the road of truth, of beauty, of creation, of hope unlimited where a man can create a universe of his own.

Understanding is not a limited thing. It cannot be hedged with maybe's and guesses. A very wise man once said that if you could fully understand just one grain of sand then you could understand everything there is to know about this universe. To understand is defined in the dictionary as "Comprehend, to perceive the significance or explanation or cause or nature of, know how to deal with." Well, throughout recorded history and probably long before that, man has been attempting to understand things: why it rains, why the world turns, why the sun rises and sets, why things grow and why things die, but particularly he has tried to understand himself and the human mind.

It follows then, that if man has consistently tried to understand himself and his mind, there must be something to understand and that something must be very worthwhile indeed. If it was not it is hardly conceivable that after all these thousands of years man would still be seeking to understand. And the only road to understanding is truth.

This is the road that Scientology follows and by following that road, by refusing to deviate from that road no matter what, no matter what precious "traditions" had to be discarded, no matter what opposition he encountered, L. Ron Hubbard has broken through the seemingly insurmountable barriers that have frustrated man's attempts to understand the human mind. And it is this truth, this understanding of life, that Scientology offers you through its technology of processing and training.

With Scientology the sick can be made well, the insane sane and the able more able than was dreamed possible by even the most optimistic of savants. Documented proof of this we have by the carload, but the proof that really matters is the proof you provide yourself by trying Scientology. We have nothing to hide. You are not asked to join a secret fraternity, for secrecy, mystery, is the enemy of truth. The knowledge of Scientology is available to all who reach for it. It is as simple as that.

Like most things in life, understanding is a gradient. One must first understand the operation of the controls before one can drive a car. Similarly, one must know the data of a subject before one can understand that subject. Understanding how to drive a car one can then go on to understand the much larger concept of traffic control and road planning. So it is with Scientology.

Through Scientology processing (the application of Scientology technology in order to remove unwanted, unnecessary conditions in your life) and training you follow clear, concise and easy steps to full understanding of Scientology data, yourself, others and life. This combination of processing and training first of all remedies your problems in life in order that you may advance towards higher states of existence and understanding.

The fact that processing can make the insane sane and cure psychomatic ills does not mean that Scientology is in the healing business. A science of the mind that cannot do these things is a very poor science indeed. It is a documented fact that when the first Scientology book appeared fifteen years ago: "Dianetics—The Modern Science of Mental Health," and became a runaway best-seller overnight, that sick people became well through just reading the book, that bed-ridden patients got up and walked out of hospitals after reading this book. Such is the power of truth, of understanding. But the primary aim of Scientology is to make the able more able, for only through so doing can we hope to turn back the tide of insanity and self-destruction which is sweeping the world today. That, too, is the aim of Scientology.

That we know how to do this and are doing it, every day, and are succeeding with each revolution of the earth cannot be overemphasized. We do not, for instance, say "You are a psycho-suttics which is incurable" or "Well, maybe we can help you." We know we can help you, we know what Scientology can do.

For instance, processing, like training, is done in stages or Grades. We call these the Grades of Release, in that at each grade you are released, in the true meaning of the word, from conditions in your own life and environment that prevent you from being more able than you are. For instance, the first four Grades of Release attained in processing accomplish the following. There is no maybe or perhaps about it.

Grade 0—Improve your ability to communicate.
We instinctively revere the great artist, painter or musician, and society as a whole looks upon them as not quite ordinary beings. And they are not. They are a cut above Man. They were born this way and he who can communicate to others is a higher being who builds new worlds. A Grade 0 Release achieves this ability to communicate.

Grade I—Enable you to handle problems.
The being who can recognize the actual source of problems and so see them vanish is too rare to be easily comprehended. Man "solves" problems. A being in a higher state looks at them and they vanish. There are fantastic phenomena here which Man has never, before Scientology, examined. When a being can do this—make problems vanish with a glance—he certainly is no longer Man. A Grade I Release is able to do this.

Grade II—Give you relief from the hostilities and sufferings of life.
Man has never known, except in some of the rare miracle workers he regarded as saints, how to bring relief to various ills. The secret was that one is connecting oneself to what he abhors. To be able to easily bring relief to oneself and others from the hostilities and sufferings of life is a skill Man has seen only in healers. A Grade II Release has this ability.

Grade III—Give you freedom from the upsets of the past.
Man is chained to the upsets in his past. He has never known why he felt so upset and misunderstood about his family or people or situations. Most men dwell perpetually on troubles they have had. They lead sad lives. Freedom from the upsets of the past with the ability to face the future is almost an unknown condition to Man. It is attained as a Grade III Release.

Grade IV—Give you the ability to face the future and to change conditions. Man's abilities tend to be individually specialized. He is so intent upon some action that he is clumsy in performing others. Moving out of a fixed condition and being able to do other things is attained as a Grade IV Release.

This, then, is just part of what Scientology can do for you. We will never betray your faith in us as long as you are one of us. We look forward to having you with us.

Focus on Success

Before learning about Scientology and before having auditing I was a nervous wreck. To put it plain I found it very difficult to communicate with anyone and was continually running away from all problems. Now, after Auditing, I am no longer running away from Life but am capable of dealing with all problems which have cropped up. Also I have started on the Hubbard Recognised Scientologist Course at Saint Hill. I am enjoying every moment of the course. Nothing will stop me from being a Scientologist, for I have found it to be the only way of living in this world happily. I thank all the staff and students of Saint Hill for bringing about the happiest time of my life, being a Scientologist. ANN COCHRANE, East Grinstead, Sussex.

I have gained a Grade III Release and also I have taken the Hubbard Apprentice Scientologist Course, which I found very interesting, and am taking the HRS Course. I hope very much to become a Scientologist and be a part of this wonderful organization which I am now learning a lot about. I feel so much happier and more able to cope with problems etc. Since I started my auditing I enjoy it so very much. Thank you once again. SUSAN WILSON, East Grinstead, Sussex.

I have reached Grade III Release, thanks also to my Auditor Moira Blumenthal and I feel really fine. One of the things I notice is that I'm no longer the slave of other people and no longer worry whether what I am doing is right, now I just do it. Life seems so much fuller and I feel so much more at peace with myself. WENDY HEWLET, Todsworth, Surrey.

Scientology has changed my whole life. Since undergoing the various Grades of Release I have felt great. I am now able to look back and find where mistakes were made and how to avoid them in the future. Problems no longer seem to exist. Scientology I feel is the answer to everyone's problems, whatever they may be. I herewith wish to thank Ron Hubbard personally for making all this possible. H. S. J. HILLWOOD, East Grinstead, Sussex.

I have now regained the ability to answer back—argue with people. Before I wouldn't have. And I have nothing troubling me, no worries and I have no suppressives, so I have got terrific gains. I feel terrific. NUALA BYRNE, South Nutfield, Surrey.

I am applying the data I have already acquired in my life. I think this is mostly very helpful in dealing with people I come in contact with both inside and outside my home. Also in handling situations in my life which need decision and understanding. I also find more inner calm and happiness. MARGARET McNIECE, East Grinstead, Sussex.

I feel that Scientology has made me feel quite a bit freer to talk and to mix and be with people. For example, for my first auditing I came up to Saint Hill and walked into a room full of people and I felt, as I usually do, that everyone was watching me and sort of weighing me up. I felt very self-conscious, but even after being audited on 0 level (two hours) I came back into the same room and the same crowd of people and as I sat down and wrote out a report on how I felt after the auditing, I felt at ease and this made me very much better for myself and for the sake of the other people in the room. DEREK BISHOP, East Grinstead, Sussex.

My introduction to Scientology was very interesting. There I was at the age of 24 a qualified lecturer in the Royal Air Force Education Branch and also a commissioned officer with two pips. I had studied and specialized in the sciences and was teaching Physics and Mathematics. I had additional qualifications in Chemistry and Biology. My route to promotion was all but automatic. Behind me lay a very successful record as a sportsman. My colleagues were hand-picked men and the branch I had joined was intended to be an outlet for the academically interested who also had leadership qualities. Training included Chemical, Biological and Nuclear Warfare and I had a thorough grounding in these subjects. One day I suddenly realized that all I was doing was purposeless and I was only doing it because I had not found any true purpose to life. I had become an atheist.

Before entering the service I had spent ten years looking for sense and meaning in many subjects including Spiritualism and Theosophy, Psychoanalysis, Hypnotism, Occultism, Psychology, which I also studied and of course all the sciences. I was well read and yet had found only half-truths. The last person I met had been Secretary to Dr. L. Ron Hubbard whose book "Dianetics, The Modern Science of Mental Health" had seemed too good to be true. However I reached out for the last time for Truth and resigned my commission and had some Scientology auditing. The changes were remarkable. I found my purpose I had searched for since 12 years of age entirely by being guided by my auditor. I then trained in London with remarkable awareness changes and learned how to live life with a workable method and also how to help others.

I became aware of the genius of L. Ron Hubbard who had discovered a science of the mind which worked for everybody who wanted to change their lives. All really great men tend to be so far ahead of their fellows that they are often not appreciated by even intellectual thinkers of the day. Often a more simple approach grasps the meaning of the work of a great man. Einstein was once laughed out of Germany when he tried to lecture to professors. Galileo offended the church with his accurate findings of planetary motion. Ron Hubbard has only offended those who claim to understand life and the mind, yet know little and are jealous of his successes!

Today I am content, relaxed, have a partner and family, two successful businesses and know who I am, what I am and where I am going. Who could want more. Yes, it works. The mind and knowledge of how it works is the key to all success and happiness. I live fairly close to East Grinstead. Here is the centre of the World Wide Organization of Scientology, where I am on the last legs of the professional course.

East Grinstead is the start. Ron Hubbard is here to stay and his works will spread. The significance will without reservation or hesitation grow like a tree and will gather impetus with each year and very soon encompass large sections of the population. East Grinstead in ten years will be world famous as the start of a movement to promote sanity, happiness and contentment. Scientology does not have to change anything but when our thinkers and those who work for progress realize what Ron has discovered we will have a hard time attending to their requests to study and learn the subject.

Famous business names, millionaires, doctors, lawyers, physicists, actors, musicians are gathering in East Grinstead. Also you and I. Here has started a seed which will eventually change the history of the race and make known what many thought would always remain unknown. The mystery for which the painter Gauguin gave his life. From where do I come? Where am I going? Who am I? Thank you Ron for answering the questions Scientifically, emotionally and truthfully. PETER GOODWIN, East Grinstead.

GO TO YOUR SCIENTOLOGY FOUNDATION

As a public service every main Scientology Organization including Saint Hill has a Scientology Foundation. The Foundation is open evenings and in some places on weekends to provide the services of Scientology to those people who are busy during the day.

Scientology services include:

BOOK SALES – The over-forty Scientology publications contain all the data about life and Applied Philosophy. Here you find practical information about life that you can apply to your own livingness and increase your survival.

THE CHAPLAIN – A trained Scientologist who is an expert in personal and spiritual guidance who will give you concise and workable advice about your problems.

RECEPTION CENTRE – A place where you can go to seek more information about Scientology, talk to Scientologists, meet people and make new friends.

INTRODUCTORY LECTURES AND COURSES – These are given every evening and sometimes on weekends. Simply drop by in the evening (Monday evening for a course). This is often the most direct way to learn about Scientology.

ADVANCED COURSES – For the person who has certainty that he or she wants to learn how to handle life rather than be the effect of life. See the Registrar for more information.

PROCESSING – The fastest and most effective way of changing things, increasing I.Q. and ability and reaching higher states of existence. Processing is the application of modern techniques which result in releasing the individual and restoring freedom of mind and spirit. For more information see the Registrar.

The Foundation is the entrance point for those new to Scientology. You may visit it as often as you wish and your family and friends are always welcome. It is staffed by Scientologists who work at other jobs during the day and take on a part-time Foundation job evenings or weekends to service others who work or have other duties during the day.

When you come to the Foundation, see the Receptionist who will direct you to the person who can best serve you. Many Foundation services are not charged for, some have a small fee. The address of your nearest Foundation is on the back page. Don't hesitate. Simply drop in. You are always welcome.
