WORLD PEACE

What are you going to do about it?

by L. Ron Hubbard

I want to talk to you about world peace.

You realize that a communication is necessary to stop fights. A communication is also necessary to start fights. What kind of a communication is it? Well, it's generally a communication that's a little longer distance than can easily be understood.

You take these massive terminals, sitting around the world in the world's capitals and in various countries, very distant from one another and very much protected by their populations – they're quite a distance apart. When they start talking to each other they don't talk very understandably and the distance between them has a tendency to set up a considerable amount of voltage. They're too far apart and they have to talk too loud, they have to shout too hard. After a while they begin to figure that they're mad at each other.

It is a technical fact that the distance they are apart brings about a difficulty of communication which brings about an imperfect communication. And they are apparently, in the leaders' minds, sufficiently far apart that they can destroy or strike at each other with impunity. In other words, one can shoot at Moscow without wiping out Washington. One can shoot at Washington without wiping out Paris. They have the illusion, then, of security. That illusion of security actually no longer exists because in any atomic conflict you have things called fallout and "drifting winds of space" and you have other interesting things. Most of the atomic weapons designed for use today have killing elements put in them such as cobalt 60. And these tend to wipe our tremendous areas of countryside, and the drifting fallout resulting from a war, even if it's not terribly dangerous in test, would be very very destructive to the nation who was declaring war. But these countries are situated in such a way that they have the illusion of being able to execute hostile actions against one another with impunity.

None of these national governments are themselves able to operate broadly for the benefit of everyone, but they are trying to go out beyond their own borders and influence other areas. And these other areas are being influenced by yet another national government. So they develop all sorts of brushfire wars. And these little brushfire wars will probably keep on going and they'll be more serious and less serious. But a man is killed just as dead as in any major conflict.

They have all sorts of odds and ends of battle and upset and diplomatic coups and influences of populations. You have a bunch of people who haven't found out that you really can't be at war with one another with complete impunity. What they're doing is bringing about a dangerous environment. This is actually the whole thing in a sentence: they're bringing about a dangerous environment.

The citizen of the United States is being taxed to support fantastic armaments to a point that is utterly staggering. The Washington Government has worked itself into an economic solution by the manufacture of armaments. I think some three-quarters of the scientists and engineers of the United States now work for the government. Pretty soon, there's going to be nobody left to work for the people.

The stores are becoming more empty. Inflation is going up, and the reason for inflation is a shortage of goods. Whether or not you want to window-dress it in some other way, inflation takes place in the presence of shortage of goods and a deflation takes place in the presence of an overabundance of goods. And that's about all you ever need to know about money. If money won't buy things it inflates. And if money will buy too much it deflates. And although they tell you there are plenty of products in the United States, nevertheless that currency is inflating. That currency has gone international in an effort to reach out and do things politically on a political front and handle these situations with other capitals. There are too few goods in the world sitting under the United States dollar, which is the most frequent, most fluid currency of the world. It isn't that there are too few goods in the United States, but that there are too few goods everywhere.

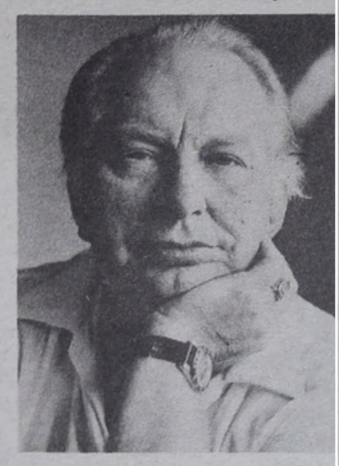

How does this come about? Well, it comes about through lack of production. There is too little production elsewhere. People don't have the facilities to produce. So if the people have no facilities to produce and if they are being disturbed politically, continuously, you get an inflating state of affairs. Some fellow works very hard in his twenties and puts aside a great deal of money and finds out that it will buy a pair of shoelaces in his forties.

Now this brings about conditions of slavery, no more, no less. You eventually have to turn to Communism and no money because nobody can keep up with the inflation. Russia today is busy starving its population. It's having a wonderful time being the "leading nation of the world in political freedom" yet it has never managed the problem of feeding its own people. It isn't lack of political cunning and it isn't lack of plans that has brought this about. It really isn't too much in the field of political philosophy. Russia is having to support and maintain a front line which is vastly extended into many other nations, and it has to support a tremendous array of armaments. With that many men under arms, that many people held into the dedicated service of Mars, Russia finds herself rather incapable of doing anything mundane like making sure that the kids get enough milk to drink.

So we have the world at large in political turmoil of one kind or another, and these national dedications to self protection. There's tremendous emphasis today on politics, and politics has entered very deeply into economics and it makes, in effect, a rather unstable view in all directions. It's not very comfortable for the common citizen filling out forms, forms, forms. It isn't very comfortable for the young man who, just about the time he should learn to be a mechanic or something useful, has a finger pointed at him – "We want you" and finds himself wearing blue or khaki or something of the sort, walking around a place he doesn't want to be. And when

A Christmas Message from Ron

We have expanded greatly the past year in size and in effectiveness.

As a group there is much evidence that we are achieving greater certainty and results from all over the world.

Through our training and processing we are bringing the only hope of sanity to Mankind.

I thank you with all my heart for your continued application of Scientology and for keeping Scientology working on all dynamics.

May you have a very merry Christmas and a productive and purposeful 1977!

Love,

Ron

WORLD PEACE

Continued from front page

you get a condition where an individual is being forced to do things he doesn't want to do, and forced to be in a place where he doesn't want to be, he degrades.

Readiness for war! Any one of these people could sit down and have a chin-chin* with one another and settle their affairs. It's quite interesting that Iowa farmers were quite capable of talking to Russian farmers on their various trips. They were swapping notes as to how you could best raise this and best raise that. Anytime they met and talked to one another, they found that they could be very friendly.

Therefore it really isn't the individuals of the world that are having difficulty or are causing the dangerous environment which we find here on earth. The individual would probably be able to work it out rather easily, but impersonalized or depersonalized, with a gun in his hands or a push button under his thumb, he of course can go to war with other individuals he's never been introduced to. We have a nice system going whereby the organizations of earth, which cannot bleed, which cannot suffer in actual fact, which cannot feel, are at war with one another. All of which adds up to a dangerous environment.

If we are going to make a sane world out of it, and if we are going to clear this planet, we have to ask this question: "What are *you* going to do about it? What are *you* going to do with this planet?"

Don't underestimate the amount of progress and the amount of impact which we're having on world society at this particular time.

Scientologists and Dianeticists in the world rank on the upper tenth of the upper tenth of the world's intelligent population; the most intelligent people in the world. This happens to be the truth. We have very carefully categorized it. Now maybe the society has fallen way downstairs, and maybe the society isn't as bright as it used to be, perhaps, but we've nevertheless been left on a pinnacle. We're certainly the upper tenth of the upper tenth, and that is the fact.

And we have to worry now and think now about what we are going to do about it. Now, that doesn't mean that we should get out and start riots and civil commotions and so on. But we do have tremendous influence and if we use that influence we can influence things for good. And we should influence them in the direction of good. We were not idly fighting an enemy just to have a fight. We were actually fighting the evil basic point of a society which was destroying it. And we have to ask now, "What are *you* going to do about it?"

The reason why we ask what YOU are going to do about it is because you actually are a basic power movement. You are probably the strongest movement on the face of this planet today. The old movements have all decayed. They've gone downhill; they have lost their grip. And that again leaves you on a pinnacle.

Now I'm not trying to scare you to death and tell you that you have to take full responsibility for all this, but I will tell you this: you are *able* to do something about all this.

What I wish you would do is get trained up. Don't just sit back and relax and get processed and wait for something to happen. Get trained up, ready yourself up, know what you're talking about. Use Standard Dianetics, Expanded Grades Scientology, Clear, OT Levels to move it on up the line, because you have a whole society that is going downhill rapidly. It is up to us to pick it up.

So what *are* you going to do about it?

L. Ron Hubbard

A SPECIAL NOTICE
DONATIONS
THE SOLUTION TO INFLATION

For many years now our donations have remained at a set figure. In actual fact we have not substantially changed our price list in a quarter of a century.

In that same period of time, the economy of the world has been the subject of inflation repeatedly and continually. Money is worth less and less and buys less and less.

Inflation in the United States is approximately 9% for many commodities. In the United Kingdom inflation is nearly three times as bad.

Wishing to give all possible service, we have not changed our set donation figures. Yet the cost of furnishing those services has staggeringly increased.

This situation is working a great hardship on our staffs as individuals; it is reflected in the sometimes poor image of an org's quarters. And it can and in some cases has influenced the quality of delivery.

Therefore, at this time, we have no choice but to adjust set donation figures. But to do so suddenly would work great hardship on and deny those services to our public and parishioners.

Until a recent study was complete there was no solution other than a sudden and huge price rise. Fortunately I have found a solution which avoids this.

Accordingly, henceforth, beginning at midnight 31 October 1976 the requested donations of all services, books, meters, courses and processing, will increase 5%.

On 30 November 1976 at midnight, all these prices will be increased 5% over October.

Thereafter, at midnight on the last day of each month the expected donations will increase 5% over the past month.

The formula for calculating the price or donation for any month for any item or service for any continent and any currency is simply to multiply the prices of the past month by 1.05 and this will give the amounts for the following month.

Where any service or item is FULLY paid for in any month but not taken until some later time, it will be delivered at the price paid for it.

In view of HCO P/L 26 June 1963, HCO P/L 31 Oct 1964 Issue II and HCO P/L 1 Sept 1965, Missions are bound not to charge less than orgs do, whereas they can charge more. Thus Missions must also follow this procedure.

Saint Hills and Advanced Orgs must also follow this procedure.

All persons donating for services should be given the full reasons for this slight increase: so that our staffs can live, so that we can take better care of our buildings and so that we can give better service.

Progress Toward World Peace: 1976

This year has been the start of massive dissemination of Scientology and Dianetics around the world!

STUDY TECH IS BACK

In October, it was found that the requirement of only the Basic Study Manual before major courses had dropped out Ron's Study Tapes, the backbone of Scientology training since the lectures were first given in 1964.

The Student Hat Course with Study Tapes has now been fully reinstated as the study prerequisite for training. It will be offered free with any major course taken.

Method One Word Clearing continues to be required for all Academy training and above, and will continue to be available as a free co-audit.

NEWS FROM RON

An exciting series of new policy letters from Ron on management were very well received by staffs all over the world this fall, along with "R/Ses (Rock Slams), What they Mean," a new technical issue, and new issues on the importance of technical honesty.

Recent research by Ron also led to new breakthroughs this year on more thorough handling of Potential Trouble Sources.

DEAN OF TECHNOLOGY will now be the title awarded a fully qualified Senior Case Supervisor who has completed the Class VIII Course, has a case level up to the class of his Church, and has a uniform record of case supervision. Deans will be entrusted by Ron with the responsibility of keeping in Standard Tech throughout their entire field area.

The title of PROFESSOR will be issued to Course Supervisors who meet full requirements listed in Ron's policy letter of October 24, 1976, Issue II.

NEW FRONTIERS

Thirty-one new Scientology missions opened this year! New groups of Scientologists have sprung up in South and Central America, North and Central Africa, and the Far East!

SCIENTOLOGISTS MOVE UP THE BRIDGE

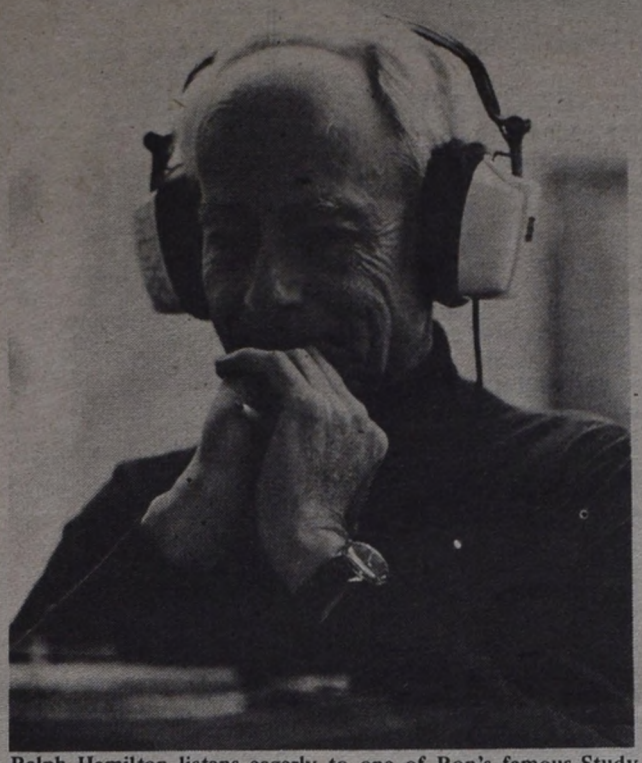

More than 100 Scientologists graduated from Ron's Saint Hill Special Briefing Course and Senior Briefing Course this year at ASHO. And the worldwide Clear tally jumped from 5123 to 5792 this year!

NEW PUBLICATIONS

1976 has been the publication year for landmark works by Ron.

In January, DIANETICS ranked number one seller at Safeway, a major supermarket chain in Los Angeles.

Ralph Hamilton listens eagerly to one of Ron's famous Study Tapes at ASHO. The Study Tapes will now be heard very early in training on the Student Hat Course.

March brought the release of the *Policy Subject Index*, key to all policies in the Organization Executive Course.

Throughout the year, Ron has been releasing color photo brochures specially designed for dissemination to people of different interests.

International Auditor's Day, celebrated September 12th around the world, released the *TECHNICAL BULLETINS OF DIANETICS AND SCIENTOLOGY*, the mammoth compilation of more than 6000 pages of Ron's technical materials into 10 huge volumes, each fully indexed. With this release, Ron's tech is broadly available for the first time. About 25% of these materials had not been in print for nearly 20 years!

In December, L. Ron Hubbard's *The Volunteer Minister's Handbook* is to be released. This how-to-do-it book makes Scientology as directly applicable by the average person as *Dianetics, Modern Science of Mental Health* made Dianetics in 1950.

TRANSLATIONS

Dianetica, the Spanish translation of *Dianetics, Modern Science of Mental Health*, was published on May 9th of this year, 26th anniversary of the original English publication. The first printing was sold out in 3 months!

Earlier in the year, the United States Library of Congress issued *Dianetics* as a talking book for the blind.

The translations of *Dianetics* into Japanese is now well underway, and the government of Kenya is translating the book into Swahili!

U.S. DISSEMINATION CAMPAIGNS

"The sale of books, all other steps being in place, will bring us a Scientology world," Ron said in 1965. This year, giant strides have been taken to make this happen!

In January, the Los Angeles *Dianetics* campaign kicked off with sky typing over the famous Rose Parade: "READ DIANETICS."

Since then, through skywriting, more than 30 radio and television talk shows, radio commercials, and television commercials with Scientologists Judy Norton (of "The Waltons") and John Brodie (one of American football's all-time greats), Dianetics has been rapidly becoming a household word.

"Doing the Briefing Course at ASHO showed me how to keep Scientology working in my life!"

"I'd always known I'd be able to bring a preclear uptone as an auditor in session, but it wasn't until the Briefing Course that I learned what I could do outside of session to make a brighter, friendlier world. Now I know that it's Class VI Auditors – people like me – who are going to make world peace possible.

Before I came to ASHO, I had been in Scientology nearly five years. For the last three of those, I'd been a Class II Auditor and on the Drug Rundown. I was roller coastering on my second dynamic, accumulating failed purposes in helping my friends, and the rest of the Bridge was only a dream I didn't know how to make come true.

Now a year later, I'm winning in everything I do – everything I touch seems to go my way! I'm a Class VI Auditor and very proud of it. Tomorrow I start Grade IV and there's not a stop of any sort between me and OT VII. My second dynamic is stable, my friends and family are winning.

Class VI, Power Processing, Clear and the OT levels are as real and attainable here at ASHO as Life Repair or Class IV may seem to you.

Everything here is geared to getting you up the Bridge. If you need repair, there are students on the Class VI Course eager to audit you; if you need grades, the students on Level V snatch you up. If you need your Drug Rundown, there are lots of people of every case level to co-audit with. If you need ethics, Qual, a place to live, a job – there are plenty of people to help. There's the incredible wealth of knowledge on the Briefing Course itself to make your other dynamics thrive.

ASHO is totally geared toward one thing: *you* going out the top. I've not had a bog or a slow in my way – here they seem to disappear before you come to them. You find yourself moving up the Bridge effortlessly, carried along on the tide of enthusiasm generated by all the students and staff here.

Whatever your considerations – if you're serious about being the best possible auditor, if you'd like to attain Clear and OT, the only real hurdle to overcome is getting here. The rest will fall in place. Join me at ASHO and you'll soon find yourself across the Bridge too."

Toward World Peace

Continued from page 3

Nearly 10,000 attended Prayer Day at Scientology's first International Conference for World Peace and Social Reform, August, 1976.

More than 24,000 copies of Dianetics have been sold in the Los Angeles area through the campaign. People have been flooding into area Churches and Missions, having read the book, eager to get trained or audited.

On August 24, the largest Scientology sign in the world (eight stories high) was lit up over personality test center Scientology bookstore on famed Hollywood Boulevard.

November 28th, a 52 foot float (one of the largest in the parade) on *Dianetics* participated in the nationally televised Santa Claus Lane Parade in Los Angeles.

Dianetics regional campaigns have sprung up in Miami (6000 books sold in 3 months of operation), San Francisco, Denver and Sacramento. Other areas start soon.

By September of 1976, *Dianetics* book sales had far surpassed the total for 1975.

CANADA

Late last year, a press conference announced the broad release of the *Dianetics* paperback in Toronto. Radio, skywriting and transit advertising has backed up dissemination of the book in major Canadian cities throughout 1976.

In September of this year the paperback was released in French in Montreal. Distribution has been extended to include Belgium and France!

EUROPE

The Paris *Dianetics* campaign has just begun with full barrage of posters, radio and television. Campaigns in Germany, England, Holland, Sweden and Denmark are to follow.

INTERNATIONAL WORLD PEACE CONFERENCE

1976 was the year of the first International Conference for World Peace and Social Reform in Scientology history.

More than 7000 Scientologists from all over the world gathered in Anaheim, California, for the spectacular 6 day conference. Speakers included distinguished figures, both Scientologists and non-Scientologists, in the fields of social reform, government, education, ecology and the arts from around the world.

1977 OUTLOOK

1977 promises to be the most exciting year yet in the expansion of sanity and peace through Dianetics and Scientology.

The effort needs YOU as a trained, cleared being to lend a hand. Make 1977 the best year you and this planet ever had! Plan now to get your training and auditing. Decide now to help get others up the Bridge next year.

"A civilization without insanity, without criminals and without war, where the able can prosper and honest beings can have rights, and where Man is free to rise to greater heights, are the aims of Scientology. . . .

"Non-political in nature, Scientology welcomes any individual of any creed, race or nation.

"We seek no revolution. We seek only evolution to higher states of being for the individual and for Society. . . .

"Our aims are simple if great.

"And we will succeed, and are succeeding at each new revolution of the Earth."

These Briefing Course Students are making progress toward World Peace

NEW FRONTIERS IN 1976. Groups from Kenya, Pakistan, the Phillipines, Camaroon, Ghana, Yugoslavia, Korea, Japan, Argentina, Brazil, Colombia, Ecuador, Peru, Paraguay and Greenland this year joined the ever-expanding network of Scientologists around the globe dedicated to world peace.

From America

"One day in 1968 I was sitting on Lake Michigan in Chicago and I decided, "I gotta get out of this rut.' I mean I was down and out.

I figured I'd like to go to California – no particular reason. I was in Los Angeles a couple of weeks later.

I was on a job in a warehouse, and this guy, used to come in bright and shiny early in the morning. Me, I was half drugged and asleep – I kept thinking, "What's with this guy, how can he be so enthusiastic about life?" He started telling me about Scientology.

Finally, I went to a lecture. I got so excited about it myself I signed up for the Communication Course that night. The next few nights I had great wins – and it's been like that ever since, one giant win after another.

The tech you get on the Saint Hill Special Briefing Course and Senior Briefing Course not only gives you a better understanding of yourself, it gives you an understanding of others. You get a really sane viewpoint of life, about world affairs.

A Class VI is a very able person and he can affect a lot of people. From all over the world, people come to ASHO and they get very well trained. They'll go back to wherever they're from and spread more sanity in their environment, and that's bound to help bring about world peace."

BOB GOODWIN,
from Illinois

Bob Goodwin goes over a preclear's folder with his supervisor on the Senior Briefing Course at ASHO.

Helene drills with her husband Charles on the SHSBC at ASHO.

From France

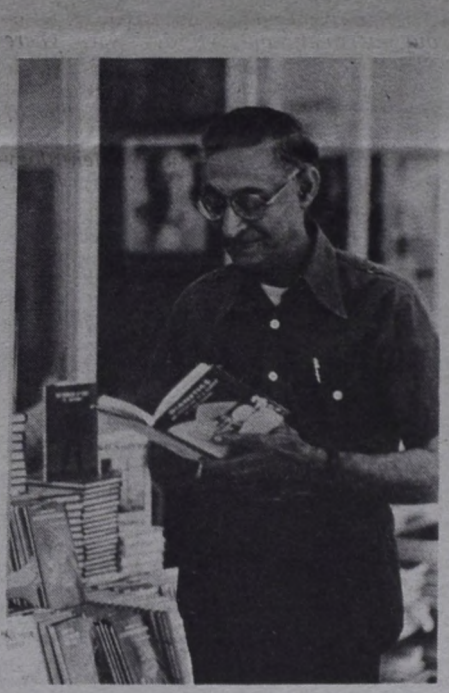

"When we look at the data on the Saint Hill Special Briefing Course and when we look at the world, with all its violence and war, we can see clearly that people don't understand each other, they don't communicate between themselves, they are entrapped. People will fight for an idea or a symbol and the only thing they achieve is destruction of others, then of themselves, and eventually of their own goal.

So here in Scientology we learn the fundamentals of understanding, of communication, of judging situations, and so with this knowledge we feel we can bring some peace and some understanding amongst people."

CHARLES de THIERSANT, architect,
from Paris.

"Today is a great for me: my first day on the SHSBC. I know it is a long cycle, but how exciting! With this course I shall become a flubless auditor and shall allow many people to become Clear."

HELENE de THIERSANT

Zee Marchant recalls reading his first book by L. Ron Hubbard, *Dianetics, Evolution of a Science.*

From India

"Coming from the land of wisdom–India–it was a little strange for me to find that a man from the West had anything to teach me about wisdom.

I came to this country 10 years ago. I had been a voracious reader, and had been looking into many different religious philosophies. I kept looking for proof – I did not want to believe or trust in anybody.

As an engineer, I had been trained to look for results. Nothing I had ever come across gave me results – until Scientology.

In 1973 a Scientologist sold me a book by Ron Hubbard. Soon I had bought all his books, and read them one by one.

Then one day while I was on the HQS Course, my son came to me. He was not doing well – he could not keep a job, he was always fighting with people.

I signed him up for 200 hours of auditing at the Church of Scientology. After the first 50 the boy changed.

Up to then I had had no objective in life. I decided my objective was to train to the top in Scientology, get my own case handled, then disseminate. I gave up my job and started full time training in Scientology.

I am now on the Saint Hill Special Briefing Course at ASHO and co-auditing. My wife has completed her Dianetics Course. My son has continued his auditing and is now happily married with a nice job.

It is my long term plan, once I have become fully trained and OT VII, to return to India and disseminate all of Ron's books there. Then I want to set up a Scientology organization there and show the people THIS is the way to make wisdom really work. Applying Scientology to help clear the planet is the least I could do for L. Ron Hubbard, the one who has done so much for me and for others."

Progress toward World Peace: share with those around them

Lt. Young (right) clears a word with a fellow police officer in San Diego.

Scientology Cop Wins Promotion

"Can you imagine cops with good TRs?" asks Lt. Skip Young, OTIIIX of San Diego Police Force.

After going Clear in November, 1975, and going on to do OTIIIX, he decided to make his contribution to world peace by staying with the police department. He plans to have L. Ron Hubbard's communication drills and study methodology implemented in the San Diego Police Academy.

Skip, also a Dianetic Auditor, was rapidly promoted from Sergeant to Lieutenant when he returned from his Power Processing, Clearing and OT Levels in Los Angeles. "I owe a great deal of my success to Scientology training and processing," he relates. "The certainty of self, personal confidence, and ability to be at cause over my environment gained from Scientology has enabled me to be a valuable asset to this department and my city."

Auto Repair Shop Attributes Smooth Lines and Expansion to ASHO Training

Rick Alba and Gerret Wikoff, both graduates of the Saint Hill Special Briefing Course at ASHO, attribute their rapid expansion with A & W Auto Repair in Los Angeles to Scientology and their ASHO training.

Last spring when they started out, there was just the two of them. Now they have a ten man shop with demand for their services growing by leaps every day. "Without Ron's organizational tech," says Rick, "there's no way we could have expanded this quickly. And without the Briefing Course, which teaches you how to use the tech one has, we'd still be floundering around. Having tech isn't enough. It's being able to use it ethically that counts."

Their staff now includes Charlie Valenti, another ASHO student, Joe Osgood, Briefing Course student. OT VII Harlan McCullough is their CPA (Certified Public Accountant) and ASHO student John Vollbrecht handles advertising.

Class VI Poet Uses Scientologists Poetry Anthology at University

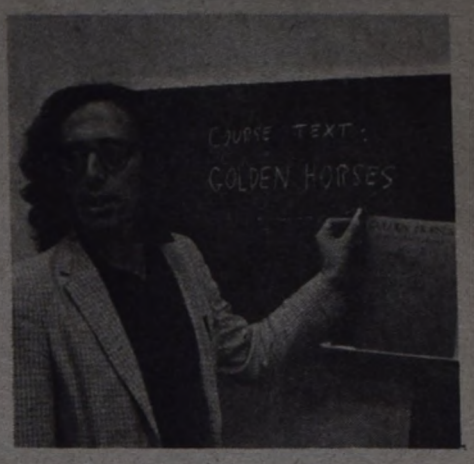

University of Southern California poetry students will find the first all-Scientologist poetry anthology required reading in the winter classes of Class VI David Ross.

David, though a serious poet since 1955, had not published any of his work before he discovered Scientology in 1958. His career took off soon after with the appearance of three of his poems in *The Nation*. Simultaneously, a major publisher (Macmillan) sought HIM, and in 1962 his first book of verse, *Three Ages Of Lake Light*, was released with very favorable reviews in the New York Times. Several well-known critics in the U.S. and England sent personal letters in praise of the book.

"Discovering you're an immortal spirit is one of the best things that can happen to someone who wants to write immortal verse," he quips.

Since then, he has published widely, with appearances ranging from *Poetry* (Chicago) and the *New York Times Book Review* to *Kulchur* and *The New Yorker*, the *Michigan Quarterly Review* and *Transatlantic Review*. In 1969 his work was included in the *New Yorker Book of Poems*, and he is to be listed in the next edition of *A Directory of American Poets*.

From 1962-67, in addition to being on staff at the New York Church of Scientology for two of those years, he taught poetry at the New School for Social Research as well as privately. He later went on to complete a full contract as a New York Org staff member in the Qualifications Division. His current faculty appointments include Antioch/

Class VI David Ross assigns an all-Scientologist poetry anthology as required reading in his University classes.

College West (Spring 1976 and Winter 1977) and the University of Southern California (Winter, 1977).

David graduated as a Class VI Auditor from ASHO in 1969 and became Clear No. 2336 later that year. He is now OTIIIX.

Response to his use of Scientology tech in teaching has been enthusiastic. He earned all of his OT package through his private poetry classes in less than 2 years.

Class VI training has made teaching even easier. "The Briefing Course gives you something you can't get anywhere else," he explains, "and that's a full philosophical and technical command of materials to Class VI. Scientology is wisdom. If you aspire to greatness in any field, you can use all the wisdom you can get."

The Scientology poetry anthology, for which he served as poetry editor, includes the work of Scientologists from around the world.

25th Anniversary of Publication

The book that first offered the world FREEDOM FROM INSANITY:

Dianetics: the Original Thesis by L. Ron Hubbard

In 1948, Ron's first manuscript on Dianetics was passed from hand to eager hand as interest grew amongst professionals in this revolutionary new breakthrough on the mind.

As you read this remarkable work today, you will adventure back into the pre-Dianetic world and share the excitement of that very first explanation of Dianetics. You will experience all over again the new hope for eradicating the root causes of war, for freedom from insanity for Man, the hope destined to become reality for thousands of people in the coming years.

The fanatically popular *Dianetics, Modern Science of Mental Health* was published in 1950, but it was not until December, 1951, that Ron's original manuscript was finally published as the sober *Dianetics, The Original Thesis.* December, 1976, marks its 25th Anniversary of publication.

In *Dianetics, The Original Thesis,* you find the primary axioms of Dianetics, the character of engrams, the Auditor's Code, the dynamics, the basically good nature of the individual.

As you read you will recognize basic principles on every page that have never been more clearly or simply stated, principles you can apply in your current life and auditing.

NEWS FROM ARC

Dianetics Saves an Artist and a Family

Professional artist OLGA FARNETH of Florida was on the verge of a nervous breakdown when her husband brought home a book from the library hoping to help her. That book was *Dianetics, the Modern Science of Mental Health*, by L. Ron Hubbard.

It sounded so good they tried it. "I started laughing about the whole thing. I went from tears into laughter and I laughed for half an hour. It worked!" says Olga.

Since Scientology, she has experienced a great increase in the artistic and financial success of her work.

When she first decided to start her auditing at the Miami Church of Scientology, she put down $20, having no idea how she would be able to arrange any more – but there she was, in one month, starting a 50 hour intensive! Today she has finished her Drug Rundown and plans to continue up the Bridge to ASHO for Power Processing.

Olga's husband, Ron Farneth, and her three children and grandson are all Scientologists.

Olga Farneth has found she can keep much more attention on her painting since Scientology.

Helping Others Help Themselves

SALLY MALM, of Westwood, California, has a busy schedule of helping others. She is Day Captain for Meals on Wheels, a nationwide organization that services the disabled in their homes. She was a member of the Vietnamese Refugee Committee (the family she assisted was totally self-sufficient in 6 months). And, she is a member of FISH, an emergency number than can be called day or night.

She has just completed the Hubbard Practicing Dianeticist Course. "When I first started working for these organizations, I was always afraid that I would not be able to truly help or that I would let people down. Now, I can be calm with the certainty of helping others. And I can get them to a point where they are helping themselves."

Sally Malm helps a young friend.

New Scientology Recording Studio Backs Clean-Up Campaign

Golden Sources, new recording studio run by Scientologists, has volunteered to tape the radio commercials for the government-sponsored Hollywood Revitalization Campaign.

The radio commercials, which will be running throughout December, are designed to help clean up and revitalize Hollywood. The jingle was written by OT II Doug Herring. Celebrities such as Bob Hope and Lucille Ball will be among those featured.

Class VI Steve Singer, who handles public relations for the studio, explains, "There is a great deal of failed help and failed purpose in the music business. I got rid of most of my own case as an artist through Scientology, and on the Briefing Course at ASHO I found out how I could help other artists too."

By applying Scientology technology with their artists, the group enables each to communicate his best to the listener. Their record label, "Theta", has already released its first national single.

One of their major statistics is number of people starting on the Bridge through their efforts. The owner of the studio, herself a well-known national music publisher and producer, is now reading *Dianetics!*

Jerry Hall, Class II Auditor, who has produced seven gold records in his career so far, is Chief Engineer. Hessam Sadat, now on the Dianetics Course, is his assistant, and Charmaine Brazil, also a Dianetic Course student, handles personnel and communications. Special Briefing Course student Terry Van Zeer is chairman of the Board of Directors.

UND THE WORLD

Patent agent Don Flickinger has become happier and more successful as a result of being a Scientologist.

Peace of Mind for Attorney

After being audited to Grade I Release by Class VIII Roz Wall in Phoenix, patent agent DON FLICKINGER was able to spot the enturbulation in his work environment. With the self-confidence he gained from his auditing and the Hubbard Qualified Scientologist Course, he left a 12-year association and opened his own office.

"Immediately upon creating my own space, fantastic things happened," according to Don. "The demand for my services increased, my money flows improved, and well . . . I'm happy." The office was established and is operated with Scientology tech. "The Code of Honor" is framed on his wall.

Scientology has also enabled him to become a very relaxed public speaker. He has talked at the local Scientology mission and various local business organizations.

Don was introduced to Scientology in October 1973 by OT I Connie Flynn.

His immediate plans include the Hubbard Standard Dianetics Course and auditing up to Power Processing at ASHO.

Auditor's Day at ASHO

Auditors Renew Dedication to Peace on Earth

Renewed purpose and dedication to auditing marked the celebration of International Auditor's Day at ASHO September 12th this year.

L. Ron Hubbard's Technical Bulletins of Dianetics and Scientology were officially released with a ribbon cutting ceremony by the Keeper of Tech, U.S. A special message from Ron, announcing the first technical amnesty in years, in honor of the release of the volumes, was received with enthusiasm.

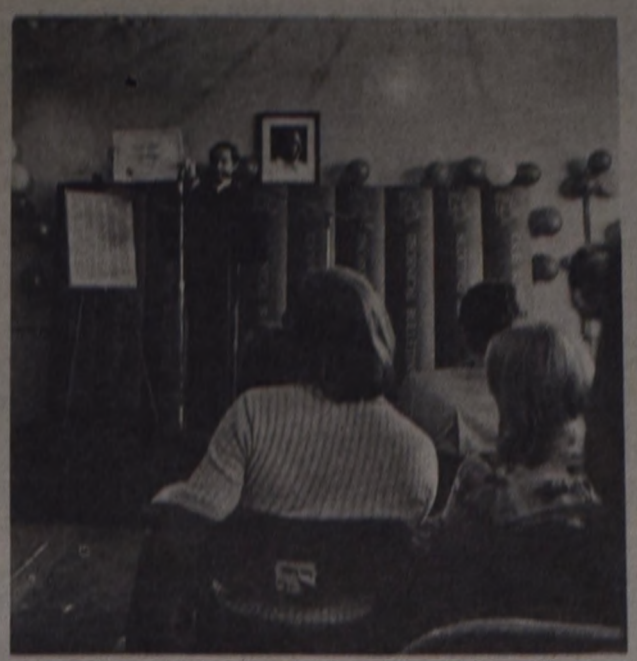

"Scientology's progress in achieving the 'Aims of Scientology' and how this relates to the auditor" was the featured topic of ASHO's Assistant Guardian for Public Relations.

The area's highest producing auditors and supervisors were validated by a special Honor Roll, with each one named to receive a certificate.

Special guest from Flag, Training and Services Aide, Julie Gillespie, brought the latest news and left everyone with the determination to audit and get more training.

Three giant red and white cakes were shared by all, and the event closed with live music.

Simultaneously, auditors all over the planet celebrated Auditor's Day at their local Churches of Scientology.

Top auditors and supervisors were validated by certificates at ASHO's Auditor's Day.

All joined in red on white cake at close of the celebration.

FOCUS ON SUCCESS
ASHO Trains Auditors to Create Peace

I was on my way home from a party and stopped at the local 7-11 store to get some cigarettes. The man behind the counter was having difficulty with a customer. The customer, slightly drunk, started yelling and swearing in Spanish and the clerk started yelling and screaming Chinese at the customer. Meanwhile 5 or 6 other people had gathered, waiting in line at the counter.

Soon the two were about at each others throats and I decided it had gone far enough. I shouted a tone 40 THAT'S IT that totally stopped both of them cold!

I said to the customer, "you're leaving, right?" and he replied "Yeah." I turned to the clerk and said, "You're staying right there, right?" He nodded. I then guided the drunk out the door, headed him toward his apartment and returned to the counter, where the people standing in line were still gaping. The clerk said thanks. I bought my cigarettes and left.

Jay Emery

When I read Dianetics in October 1972, I realized something could be done for mankind.

Now I'm on the Senior Briefing Course at ASHO learning how and doing it.

Ed Maher

What I am learning on the Briefing Course is all about life, all about how man got into the condition he did, and how to get him out. I have had more wins as far as handling myself and others than I ever had on any other Scientology activity. The data to be had on the Briefing Course is so valuable I know I will never be the same again. (I will be better!)

Inge McKee

I have no more uncertainties about the nature of man, what he is, why he does what he does and the exact manner technology can be applied to his life and livingness to enable him to overcome barriers in life. I'm definitely no longer a Class IV Auditor; Class V is a whole new territory of understanding.

I've come a long way.

Ted Crammer

Class V was the best training action I have ever done. It's truly given me the understanding to exist in harmony in this universe. Also it's made me a Scientologist in the fullest sense of the word.

Dennis Smith

I understand much more about not only the background and purposes of Scientology but more about me and how I relate to others and the physical universe.

I came to ASHO to get the data and I've gotten that and much, much more. Even more important I feel proud to be a Class V and join a team that is on the most worthwhile purpose there is – clearing the planet!

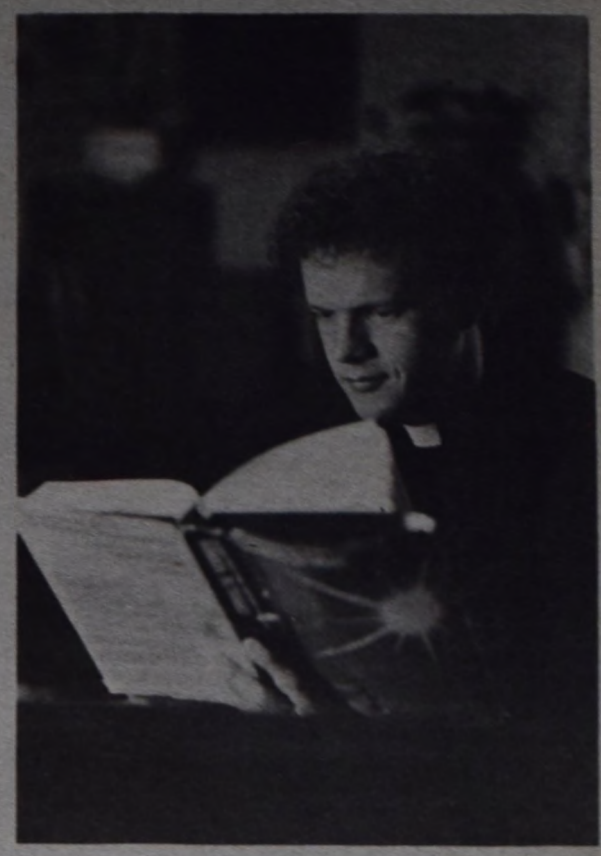

Dave Walbridge

One tape I listened to this week gave me more understanding of history than all my school classes put together. This course is really under promoted!

Missy Shea

It's a great feeling to know that any person you see on the street you can sit him down in a chair, put E-Meter cans in his hands and handle his life. The tech on this course truly makes one into a Senior Scientologist.

Rick Johnson

Senior Briefing Course student Dave Walbridge expands his understanding of standard Scientology tech at ASHO.

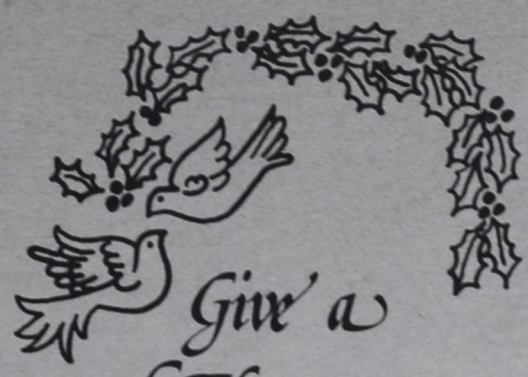

Anyone interested in salvaging himself and the rest of this planet should make it out to ASHO as soon as possible! I've been here over a year and in that time have done the Saint Hill Special Briefing Course and internship. While I was on course I co-audited all my lower Bridge. It can be done, it is quite easy. I'm presently auditing on OT III and I can assure you there is nothing more important for yourself than to get to this level and run it out. The secrets of this area of the universe are on OT III and they are well worth knowing.

I've also audited Power in ASHO's Hubbard Guidance Center and it is without a doubt the funnest auditing I have ever done. Never had I helped another being so much.

I can without a doubt assure you that the training route to Clear, taking the Briefing Course first, is far, far, far above any other method. After all, that is the route Ron took.

It is a very safe space out here and I encourage you to get here as soon as you can.

Byron Gillikson
