KEEPING SCIENTOLOGY WORKING:

Ethics in Auditing

by L. Ron Hubbard

The main difficulty is not clearing people. We can do that. That's a *fait accompli**. We have the technology with which to do this. 2500 years after the fact of somebody dreaming it could happen on this planet, 10,000 years after somebody hinted it might occur, why, we can do it.

And not because we regard our navels meditatively, or think right thoughts, or "realize that it's all thought after all", or not think bad thoughts about things, or read the book held in a proper position on the knee, or tie the cat properly to the bedpost. Without all that line of lie, we can clear people. And that is a triumph of great magnitude because it takes it out of the sphere of a gift "because you are so holy" or something you deserve "because you have believed right." That, of course, is the most fantastic trap of all: that your freedom depends upon your absolute slavery. 1984, here we come.

The only inclination we have in the direction of discipline is getting it done. A certain amount of safeguard must exist in the vicinity of any such technology.

We have a responsibility to make it very very clear to people that clearing is the subject of very expert auditing, and is not a casual piece of nonsense that simply can occur any place on any crossroads.

The ethics of the situation, then, simply involves the effectiveness. The ethics of auditing is the effectiveness of auditing. In other words, he who can audit can audit, and he who hath not been trained had better keep his paws off. And that's ethics. Any time you get ethics matched up totally with effectiveness, you've got a win on your hands.

What we stand for is effective auditing. The fight has been to get a technology which covered *everybody*. And the technology which you're using now is very embracive. You don't have exceptions to these things. But you can derail yourself by having a lucky break. I know a couple of auditors around who have had lucky breaks and have been regretting them ever since, because they keep waiting for it to happen to them again, and of course it doesn't happen again.

Broad, general technology then, is a desirable thing. But it can get hacked up to where it particularly fits just a few or fits a very few cases, or something of that sort, and broken down, then, from its broad, general application, it ceases to be effective. So it becomes *unethical* to audit somebody unstandardly, because it ceases to be effective.

So broad technology of necessity must be preserved as it is, released and safeguarded. There is some responsibility for the know-how. And because there's a responsibility for the know-how, you do get some responsibility, then, for the communication lines of the know-how. And the communication lines of Scientology are simply that—communication lines of the know-how. In that way, using these communication lines, you keep broad technology from taking place.

In the absence of these communication lines, you would either have to let it go, just let it go to pieces, or wait until some far distant date when you can finally put it back together again, you hope.

Actually, the way we're operating right now is that when something goes wrong anyplace in the world on the subject of technology, and we hear about it, why, we *do* something about it within 48 hours or 60 hours. And we can put things back to rights before they can fall apart.

Now this data is very important to you for this reason. You're going out and you're going to get into a central organization or into a co-audit or something of the sort and you're going to have everything up against your chest and your world is going to be only your immediate zone of influence, and you're going to have some tendency to say "That is happening in the next block and is none of my business." And that I don't approve of.

I can't possibly handle everything that goes wrong in Port Darwin, everything that goes wrong in Mexico City, everything that goes wrong in Tierra del Fuego and Paris and Rome and a few other points. It's just not possible. So who's going to handle, when something goes wrong?

"Somebody didn't act" is the inscription on the tombstone of more graves than you can count. Somebody didn't act, that's all. Something didn't happen, a ball gets dropped, and an area of confusion occurs.

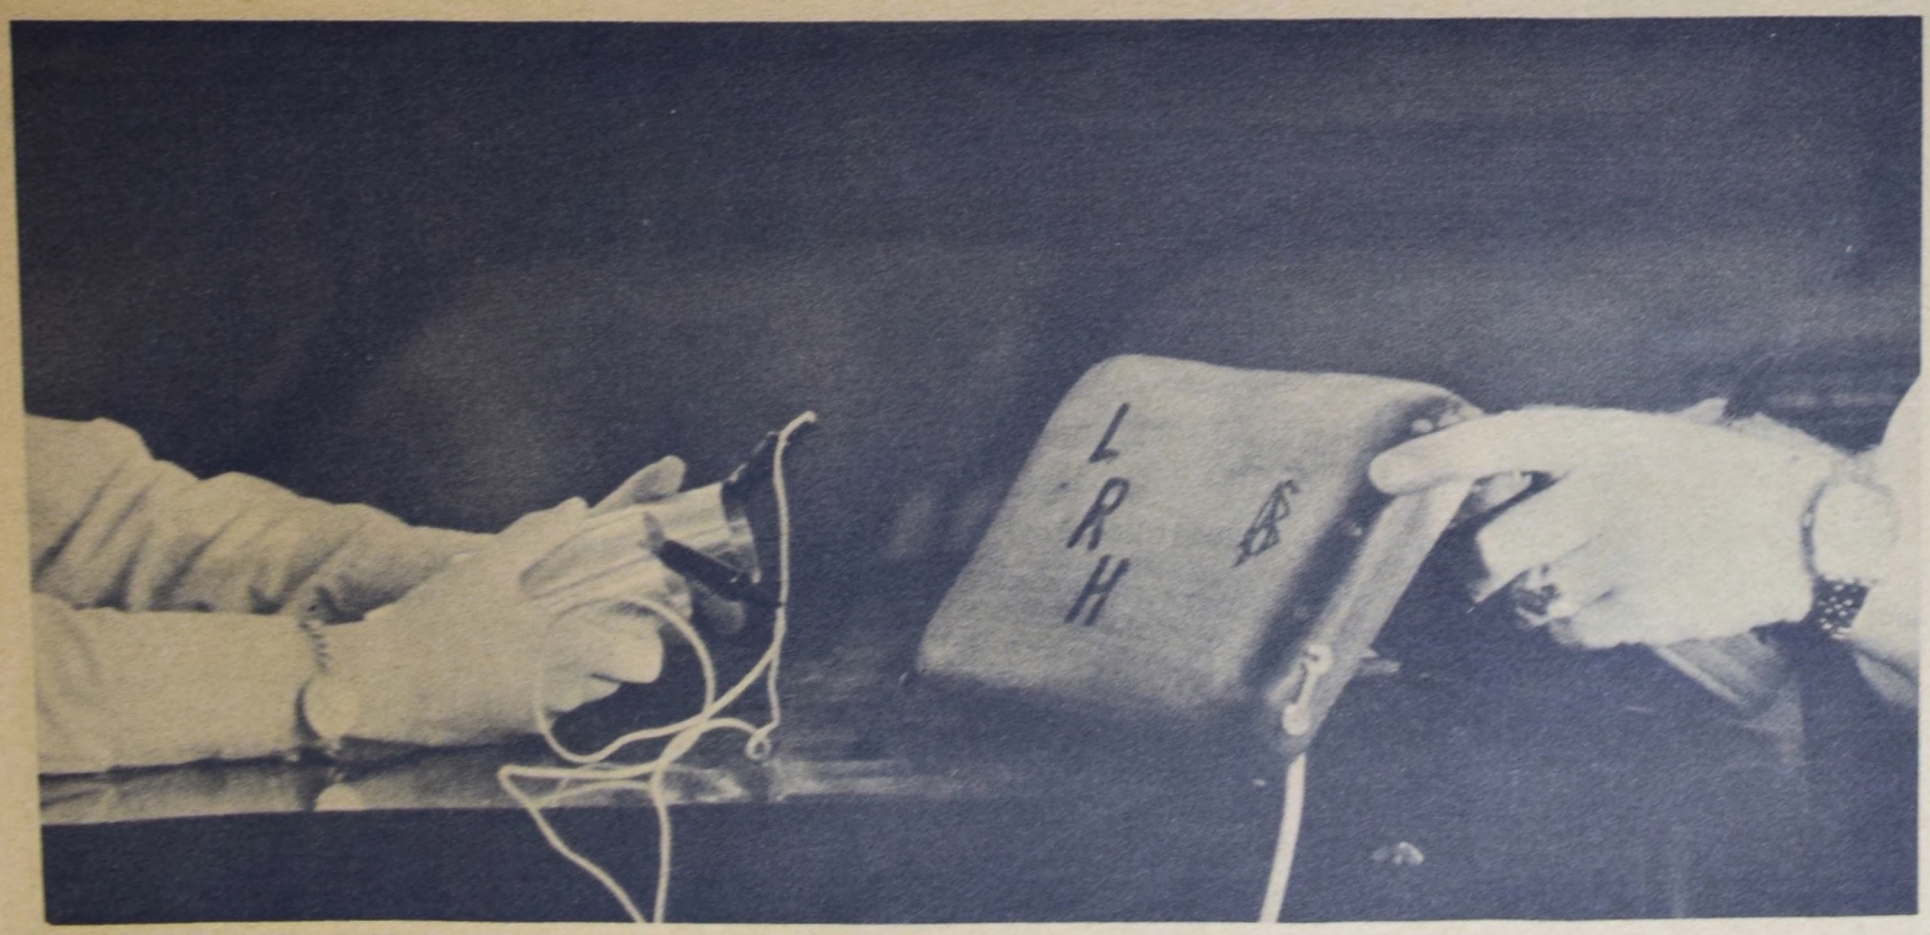

A communication system or an administration system is simply something which is already planned to handle traffic so that nothing becomes an emergency. But if somebody doesn't act along those lines, or if somebody doesn't use his noggin* along those lines somewhere, the next thing you know you've got confusion going at a mad rate all over the place. Confusion is occuring madly.

Now who is this somebody who should have acted in the first place?

Let's see how fundamental this combination of events can become.

*Fait Accompli: an accomplished fact.
*Noggin: head

Ethics in Auditing Continued from front page

Whenever you have an extraordinary solution demanded of you in supervising or auditing, it will only be because the ordinary solution was never in action in the first place. You have the unusual demanded of you because the usual has not been followed.

You've got a pc suddenly appearing on your doorstep at 3 A.M., shaking and sweating. Well, where did this pc come from? How come? What's the enturbulation in this person's immediate area? It's up to you to do something about it, that's for sure. You've got to do something about it. You can't just recriminate and make everybody guilty for not having taken the usual steps.

But let me call to your attention that you actually have *two* actions you're being asked for. Please let me teach you this one thing. There's the pc on your doorstep at 3 A.M. You naturally take hold of the pc, put him on a meter and talk to him. You get this pc calmed, picked up or straightened out in auditing one way or the other. I know you'll handle that much of it, you always have.

But please, can I point out to you, there's another step you must always take. Find out who dropped the ball that brought that pc into that condition and straighten *that* area out. Always take that second action. I know it takes a few minutes longer. I know you feel hard driven. I know that there are two pcs upstairs and one in the basement that are waiting for your time. I know there are three telephone calls coming through the switchboard for you personally and nobody else can handle them. I know all this.

But the point is simply this: You've got to find time between those two pcs. You've found out that this person who appeared on your doorstep was audited last month by George Schnickwick. Well, between your phone calls and so forth, do something. Telephone and ask, "Who is George Schnickwick?" You'll find out he's a person who went halfway through a course but dropped out in the middle of the second week because he "knew more than the instructor."

So your indicated action is to do this second thing, and straighten out that zone. Otherwise that zone is going to multiply more pcs on your doorstep and you're not going to be able to breathe, ever. The way I'm giving it to you, some day you can look forward to being able to breathe.

Just take enough time to call up and say at least "What are you going to do about George Schnickwick right now – not next week, but right now?" That's actually about all you have to do. And that way perhaps we can keep calm reigning.

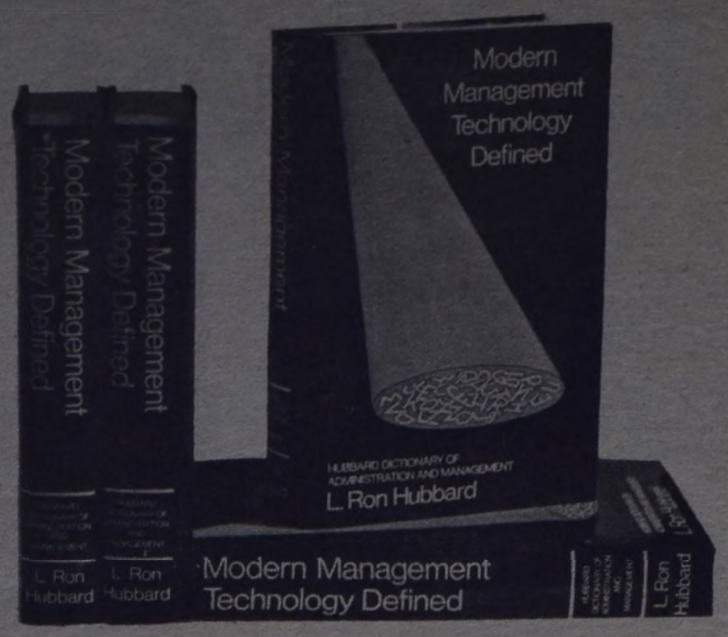

You've got a problem here of keeping the plate level on the table and keeping the soup in the plate, not all over the room. And if you always take this second step, we can manage it, and if you don't always take the second step, you'll have areas of confusion.

That is the ethics of auditing. You have to keep auditing good and you have to keep it getting done. That's the only thing that's really effective. And you have to take the steps necessary to make auditing effective and keep it from being messed up. And we've got our job done.

We have the technology and we're on our way, and even you will be Clear very shortly.

Gold Certificate Case Supervisors to be trained at ASHO

Ron has announced a new level of technical recognition, ***DEAN OF TECHNOLOGY***, which is to be awarded with a gold certificate to qualified Senior Case Supervisors.

Requirements are completed at ASHO, the world's largest Scientology training org.

A Dean of Technology is a *fully* (per Ron's policy letter of 24 October 1976, issue III) trained Senior Case Supervisor up to the class of his org, who has also done the Saint Hill Special Briefing Course, Class VIII Course, has a case level to the class of his org, and has a uniform record of case supervision, all as verified by Flag.

His post and duties are those of a Senior Case Supervisor but extend to all the field of his area (including missions). He has the power to suspend certificates, order retraining or retreading or internship or re-internship for all auditors of his area of whatever class and may only be overruled or personally disciplined by the Guardian Office or a member of the International Board after due hearings and formal ethics.

Deans of Technology, superlatively trained at ASHO, the Home of Standard Tech, will be trusted by Ron to fully do their part in keeping Scientology working. This new level of technical achievement and responsibility marks the dawn of a new era in Standard Tech.

For more information concerning the gold certificate rank of Dean of Technology and how you can attain it, just write or call the Registrar at ASHO.

To all Auditors **URGENT-IMPORTANT**

F/N AND TA POSITION

by L. Ron Hubbard

Through verbal tech just located, it has been found that some Auditors have been ordered to disregard all F/Ns that were above 3.0 or below 2.0 on the meter.

Auditors have also called F/Ns which were ARC Break needles, thus falsely indicating to the pc.

These two actions – disregarding actual F/Ns because the TA was not between 2.0 and 3.0 and calling "F/Ns" that were actually ARC Break needles – have upset many preclears.

The outnesses here are: A. not considering pc indicators as senior and B. not noting pc indicators when calling an F/N and C. ignoring and giving junior importance to the technology covered in False TAs. (See list of references at end of this HCOB or the Subject Index of the HCOB Volumes.)

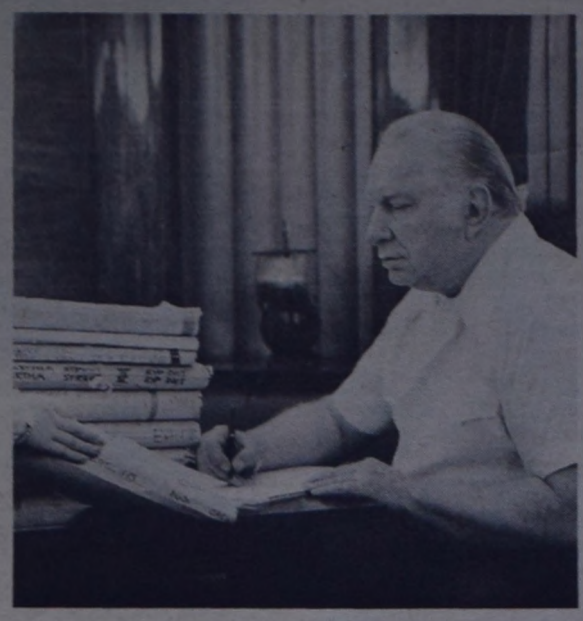

Auditors have even been led to falsify worksheets (giving TA as in range when it actually was not when calling an F/N) because they might "get in trouble" for calling an F/N in the wrong range, such as 1.8 or 3.2.

The CORRECT procedure for out of range F/Ns is:

1. Look at the pc's indicators.
2. Call the F/N regardless of its range.
3. Mark down the ACTUAL TA position.
4. Handle the False TA at the earliest opportunity when it will not intrude into the current cycle on which the pc is being audited. (You don't interrupt a Quad R3R, for instance to handle False TA; you complete it and then, when directed by the C/S, you handle the False TA.)
5. On any pc you suspect has had his F/Ns disregarded because of False TA, you C/S for and get run a repair and rehab of this error.

E-Meter cans can monitor or change TA position when the palms are too dry or too wet or when the cans are too big or too small or when the wrong hand cream is used. The E-Meter does not read on hand moisture alone as was long believed by people in electronics. But TA depends upon resistance to electrical current in the palms, leads, and meter as well as its main resistance which happens to be mental masses or lack of them.

To simply tell some Interne "Always disregard an F/N not in correct range" is to set him up for loses and set the pc up for crashes. The correct information is that an F/N which isn't in range is accompanied by pc indicators that indicate whether it is an F/N or not. AND indicates you better get the False TA handled fast as soon as it won't interrupt the current cycle. AND you always note where it F/Ned so the C/S can C/S for False TA handling.

Ron at work, checking into case folders.

Where an ARC Break needle (which looks like an F/N) is observed, whether it is in range or out of range (2.0 to 3.0 or below 2.0 or above 3.0) you LOOK at the pc and establish the pc's indicators before falsely calling an F/N. A pc who is about to cry is NOT an F/Ning pc and if you indicate an F/N to that pc you will further the ARC Break and suppress the emotional charge that is about to come off.

REPAIR

Where the above matters have not been fully understood and errors have occured on pcs, it must be assumed that:

1. Auditors have falsified their worksheets as to TA position and thus built up withholds and made themselves blowey.
2. That every pc who has ever had high or low TA trouble has had F/Ns disregarded and ARC Break F/Ns falsely indicated.
3. That a briefing and drilling of all Internes and Auditors must occur on this HCOB.
4. That a brief program of clean up of disregarded F/Ns and falsely called ARC Break F/Ns be done on every pc.
5. That every such pc be considered as having False TA troubles and these must be C/Sed for and corrected.
6. That all Auditors and Internes be drilled on all HCOBs relating to pc indicators.
7. Find and handle the False TA in totality.

DEFINITIONS:

ARC BREAK NEEDLE: A "floating needle" occurring above 3.0 or below 2.0 on a calibrated Mark V E-Meter with the pc on two cans. An ARC Break needle can occur between 2.0 and 3.0 where bad indicators are apparent.
BLOWEY: From Verb "to blow", unauthorized departure from an area, usually caused by misunderstood data or overts.
F/N: Floating needle.
OVERRUN: Gone on too long or happened too often.
QUAD R3R: Same as Quad Dianetics, Dianetic items run four flows.
REHAB: Rehabilitate.
TA: The tone arm or its motion.

ASHO INTERNSHIPS KEEP SCIENTOLOGY WORKING

STANDARD TECH AT ASHO

On hearing about ASHO's standardness and high quality on internships I thought it would be murderous to actually do an internship. Surprise! It's not murderous. The space is very fast flow and safe. I'm enjoying the drills no end. Without a doubt I have become a better auditor and I'm still pushing to increase my skills. I'm really enjoying the people here at ASHO and everyone is a big help. There's no problem getting a twin or checkouts.

George deGaro
Expanded Dianetics Intern

TRAINED SUPERVISION

The Dianetic Internship was exactly what I needed as an auditor – my TRs finally are the way I feel they should be, I'm comfortable in session and I can get my product out. My Flag-trained Supervisor has made it a really good experience.

Cathy Brown, Class VI

TO THE OLDTIMER

To the many old time auditors out there I want to tell you that the Internship, along with the excellent Case Supervision and Cramming you get at ASHO, is the needed action for fully successful application of Scientology tech.

Supervision is excellent and helped me improve my auditor presence and TRs.

Ruth Knudsen, Class VI

CONFUSIONS BLOWING OFF

The Intern Supervisor is really incredible and in spite of a couple of years of auditing in the field under a couple of excellent Case Supervisors, I have learned a lot. REALLY A LOT! Confusions I've never been able to get handled before have been cleared up and now I feel like a Class VI, a superb auditor, which I couldn't have said before.

Barry Cosme, Class VI

TOP LEVEL TRAINING

It's true what you hear about Expanded Dianetics – preclears change right before your eyes! On this internship I gave the best, most mindblowing session ever – and I say that with no doubt. What I got out of it as an auditor was definitely equal in magnitude to the preclear's gains.

I'd really like to thank my supervisor for her intention to keep Scientology working. I know now I can get anybody through anything.

Cindy Woodruff, Class VI
Expanded Dianetics Internship

PROVISIONAL CERTIFICATE EXPIRY

Any person who has obtained a certificate without having done a full interneship and demonstrated his competence is subject to certificate cancellation if the certificate is not validated at the end of one year.

Therefore, all former – and present and future – students who have not done a full and properly conducted interneship after a period of one year from the date of course completion shall have their certificates cancelled for the class not interned.

All past provisional certificates which have not been validated by an interneship and which are one year old from the date of course completion are hereby cancelled.

Such students should be notified and should be enrolled on the interneships for the class.

If a properly conducted interneship is satisfactorily completed, the certificate may be reissued.

CERTAINTY

I thought when I finished the Briefing Course that I really knew how to audit at a Class VI level – and I did. But there is a difference between a certificate and a permanent certificate. I've spotted as many outpoints and pluspoints in my auditing in a month as I have for the last few years. An internship is very intensive and you see results fast!

For anyone auditing in the field or new graduates off courses, the internship gives you the added certainty that makes for successful auditing.

Rosemary Didear, Class VI

BEING CLOSER TO SOURCE

I have been on the ASHO Internship for a week, having come here with very little auditing for the last three years. There were quite a few things about the subject of auditing that I had uncertainty on, but with the emphasis on TRs, drills and misunderstood word tech these have been blowing off very rapidly.

The internship bridges that gap from being a student learning about auditing to actually being, doing and having the hat of an auditor, and that is what Ron wants.

Max Harvey,
Expanded Dianetics Intern

ASHO Day's Internship Supervisor, a fully qualified PROFESSOR (and Flag-trained Class VII Auditor), helps Intern CATHY BROWN, improve her twin's TRs.

ASHO Day's Internship Supervisor, a fully qualified PROFESSOR (and Flag-trained Class VII Auditor), helps Intern CATHY BROWN, improve her twin's TRs.

SUPERVISOR CARES

My most recent win on the internship was when our Flag-trained Supervisor worked over my TRs. She gave me a little program that I worked on with my twin and we knocked out circuits and moods that had been present a long time.

The internship is great and is doing what it is supposed to – making me a professional auditor.

Kurt Feshbach, Class VI

NO SLOWS

The Intern Supervisor here is so spot on, 100% Standard, that not so much as a particle of dust stands between you and becoming a permanent auditor. No stops, no slows, just Very, Very Good Indicators!

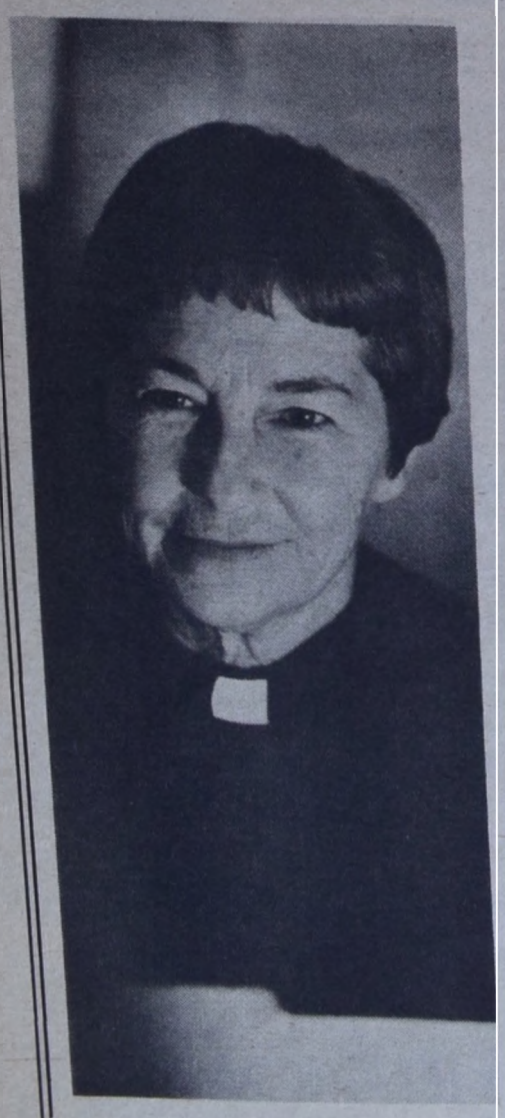

Rick Norberg

SUPERVISORS AND C/SES INSIST ON STANDARD TECH

I didn't know that I could learn so much Standard Tech and be handled so standardly anywhere short of Flag. I had a lot of little bugs I didn't even know about, but the C/Ses and Cramming Officer and Supervisor found them, exposed them to the light of day and helped me erase them. Now I feel I can handle any preclear flublessly and can remove the basis of insanity itself as an Expanded Dianetic Auditor.

George Seidler, Class VIII

AUDIT WITH CERTAINTY

An ASHO Internship is *essential* to polish your skills to fully professional level. Any uncertainties or questions you may have are answered right from source materials!

You will audit all kinds of preclears on all kinds of actions until you are *flubless* to your level of training.

When you graduate from ASHO, you KNOW you can audit any pc standardly – because you've proven you can, to yourself and to the very highly trained ASHO tech staff.

Every certificate must be validated by internship within a year. Don't delay – hurry to ASHO and avoid the rush.

Your supervisor during the day is a Flag-trained Class VII PROFESSOR.

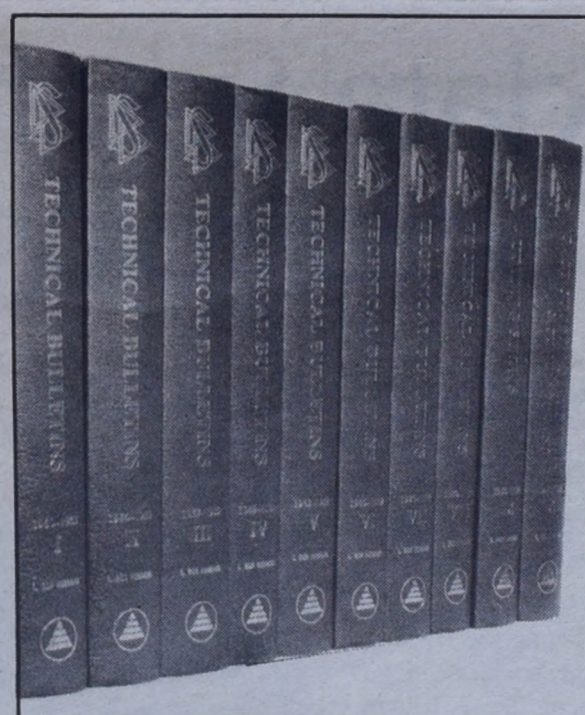

Donations for Dianetic Internship: $137.81; Class IV Internship: $302.88; Class VI Internship: $455.82; Class VIII and IX Internship: $455.82 each. 5% discount with full advance donation.

Doing an internship at ASHO is the surest way to close the door on any possibility of incorrect application of the tech.

ASHO INSISTS ON STANDARD TECH ALL THE WAY TO CLASS IX

ASHO, the largest training org in the world, offers the training route for you as an auditor and C/S from Class V non-stop through Class IX and HSST, the Class VIII C/S Course.

Seventy Class VIIIs have graduated from ASHO in the last 22 months. And Ron's Class VIII Course at ASHO is still turning out graduates in the original tradition of 100% Standard Tech.

Here are some of the gains in store for you when YOU come to ASHO.

CLASS V
Getting Data from Ron not available elsewhere

When I came on the Briefing Course I knew my tech, but it was interlaced with uncertainties bred by misunderstood words, wrong cramming whys, verbal tech and missing data.

Being on the Saint Hill Special Briefing Course I've seen how the tech evolved from the very basics of auditing and that these very basics are as true today as they were when Ron first said them. I know these basics now and have certainty on them.

I don't need someone else to tell me what Ron said about auditing anymore – I know.

Chris Martelli

Each page a Thrill

This course takes up all the questions I didn't know I had about Scientology. Part One, 1948-1958, was a lot of reading and demonstrating but I could have taken twice as much and still been ready for more. I had to restrain myself from previewing ahead. Turning each page was a thrill as I saw what new marvel was revealed.

John Lichtensteiger

All Needed Materials for Complete Understanding of Tech

What I have gotten out of the Saint Hill Special Briefing Course so far is certainty and knowingness of the technology, the mind, the spirit and auditing.

Level V is an incredible adventure into the technical materials of Dianetics and Scientology, starting with the first books and running on up to 1966.

I have learned so much data that was lacking in my life and auditing, it's hard to imagine how I got along as a Class IV at all! The Briefing Course is really an excellent opportunity to get answered all those unanswered questions you may have had.

Inge McKee

CLASS VI
Staff who care about you as a person

The people here at ASHO have become very important people in my life.

The Class VI Supervisor is totally willing to be there and to do what is necessary to get you through, to help you as an individual.

The Class V Course cracked my case, as a preclear and as an auditor. But the wins were not comparable to the wins I've had on the VI Course.

On Class VI I noticed suddenly my attention wasn't on myself as an auditor or on my auditing, my attention was on the preclear – was he making gains, was this the right action for him, was he winning? When my attention shifted my preclears started doing really well. I really knew at that point that I was ready to graduate.

Lois Robin

CLASS VII
Power Processes

The Class VII theory is the best I have ever seen. I got my Power all over again by reading the materials and doing the clay demontrations.

I've become totally stable as a being by understanding the Power materials and seeing how they affect people. I know with certainty how not to make the mistakes that start a person down the long dwindling spiral. This data is on the VII Course.

Byron Gillikson

CLASS VIII
Knowing what you are learning is exactly standard

This is the best course I have taken in Scientology. I know what Standard Tech is and can apply it and have as a native aspect to have others apply it.

The supervision has been standard and fun. ALL auditors who have not taken this course should do so – for your sake and your preclear's sake.

Olivia Korringa

Effortless Auditing

Since completing the Class VIII Course about 3 months ago I've been out in the field auditing and what an amazing world of difference!

The Class VIII Course is an EXPERIENCE – it soaks into your beingness, so that it could never get lost. It permanently changed my auditing and my understanding of tech.

I have been able to deliver those "wins and gains beyond your wildest dreams" with an ease and smoothness almost impossible to believe. Just effortless! "Rough" cases and all. And that IS Class VIII.

Thank you Ron, and all the people of ASHO, for such a perfect piece of straight TRUTH.

Randy Wise

ASHO, the world's largest training org, is the home of upper level training for Auditors and Case Supervisors.

Duplicating Standard Tech

The roughest and most rewarding course I've taken! I had to shift quite a few rocks, landslides and various road signs I had put up, such as "shortcut" "detour" – and I finally got the road clear.

Standard Tech is very simple and it takes a certain level of self-control, discipline, responsibility and certainty of basics to get there.

It is now my duty and responsibility, and pleasure, to get and keep Standard Tech in on myself and others. It actually makes the game easier, more fun, and more predictable.

Pat Deluz

CLASS IX
Top Level Training Available

The IX Course has enabled me to fit in all the missing pieces I had in my understanding of Scientology.

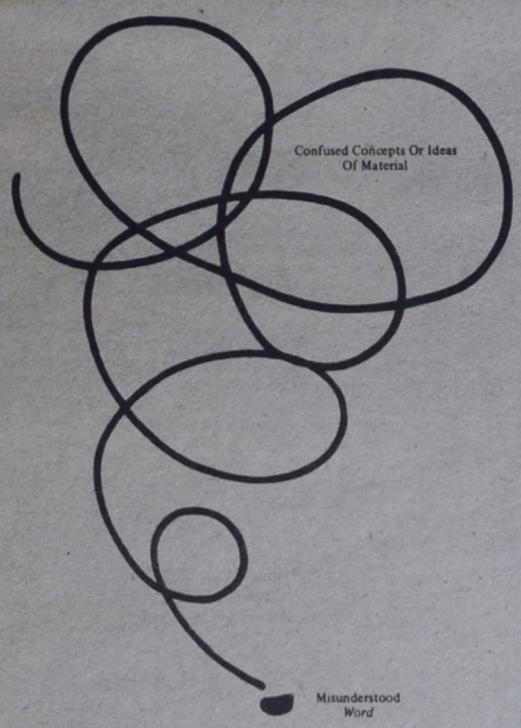

I had a big win finding out that I could finally respect myself as an auditor, for real.

I am finding out that every word I read in tech applies to me – and I can apply it all.

Class IX has given me a level of understanding of tech and of being that I have been reaching for since I got into Scientology.

It is the exact next step for any Class VIII.

Billard Champ Trains to Class IX

EDDIE ROBIN, who rocketed to world prominence in 3-cushion billiards in 1970 as a result of Scientology tech, is now training up to Class IX at ASHO himself.

In 1962, he had gotten to the point where he had as much data on billiards as just about anyone, but still wasn't playing as well as the best. "I was forced to the conclusion that I was lacking in ability," he relates, "and I knew I couldn't do anything about that so I gave up playing."

Eight years later, Eddie found out that with Scientology you *can* increase ability. Revitalized, he immediately started playing again and entered competition.

His first game of the world tournament in 1970 found him with very little practice. "The cue felt like it had bark on it!" he recalls. "But after 3 minutes of reach and withdraw I felt like I had been playing for months." That game was against the world champ, and in a startling upset victory, Eddie beat him. To this day he is the only American who ever has.

Eddie's ability continued to increase while receiving processing in 1972, and he didn't lose a single game on his way to becoming U.S. National Champion that year.

But his level of ability seemed to stop increasing at the point he discontinued his processing and training. He faltered at the Mexico City International tournament and missed coming out number one by one point.

So he decided to re-enforce what had been successful so far in his career and came to ASHO for auditing up to Grade VA and to train up to Class IX. When finished, he plans to go after the world championship again – this time as a highly trained OT! Eddie is well on his way – he is now on the Saint Hill Special Briefing Course and recently became Clear 5799.

"I'm far more stable than I ever was before," he says. "It would really take a lot to shake me up now and that stability will be tremendous help when I return to the tournament circuit.

"And in addition to studying the Briefing Course data to apply to people and auditing, I also look at how it can be applied to sports. It's amazing. I changed my whole playing style from just one paragraph of one of Ron's books!"

Considerable press followed Eddie's spectacular rise to world recognition in billiards, and he intends to fully utilize his dissemination opportunities in the future as well. Once he has achieved his own goal, he plans to help others become champions in their fields using Scientology tech.

Eddie Robin, having just won the most exciting game of the 1972 World Professional International 3-Cushion Billiards Tournament, scoring an unbelievable 6 points in the last 55 seconds of play before 2000 spectators and a television audience throughout Central America. Scientologist Val Garcia, his road partner, is on the right. Eddie is now at ASHO, training all day to become a Class IX Auditor.

Conductor Maestro Dr. Louis Palange congratulates composer Class VIII LaMont Johnson (left) after performance of LaMont's award-winning *Symphony in Blues*.

Class VIII Wins Top Jazz Award

Class VIII LaMONT JOHNSON has just won the first competition for the most important recognition in jazz – the Duke Ellington Award!

The award (also known as the Jazz Heritage Foundation Scholarship) is given to a single professional jazz musician who through his compositions and music best exemplifies the tradition established by The Duke.

A distinguished panel of active, well-known jazz musicians judged LaMont's SYMPHONY NUMBER TWO IN BLUES the winner after reviewing the works of more than 200 screened jazz composers!

On February 14, 1977, the Award will be presented at the Los Angeles Triforium with special proclamation from the City Council and Mayor Bradley.

In 1968, LaMont, then a promising musician just breaking into the New York music scene, began intensive Scientology training. Two years later he re-emerged into the musical spotlight as a Class VIII and started doing soundtracks, arranging, recording. His film scores have since won eight top awards in national festivals.

An active field auditor in addition to his pursuit of musical excellence, LaMont is currently moving several preclears up the Bridge.

His latest album is entitled NINE –which is his next training level in Scientology!

Stops Blow For Engineer After Power Processing At ASHO

HEINZ ZEPERNICK of Creskill, New Jersey, went home after his Power Processing and blew all stops on the progress of himself and his wife the rest of the way up the Bridge!

An engineer who had picked up *Dianetics* at a bookstand, Heinz left ASHO after Power with this to say: "I found who I am and what I want to do in life. This gives me so much certainty, inner happiness and new possibilities to do things in life that it is hard to describe in mere words. My world has completely changed, I am completely sure of myself and ready to go out and start doing things."

And that is exactly what he did. He gave up his job and went into business for himself as an engineering consultant. His income increased markedly and he has been flooded with work offers.

Now that he's in charge of his own time, all stops are off his moving up the Bridge. Within a few months he had returned to Los Angeles and is now Clear! Heinz also plans to do the Saint Hill Special Briefing Course.

Heinz Zepernick from Creskill, New Jersey, who has recently gone Clear.

Suzy Sajnenkoff works with one of her computer programming students.

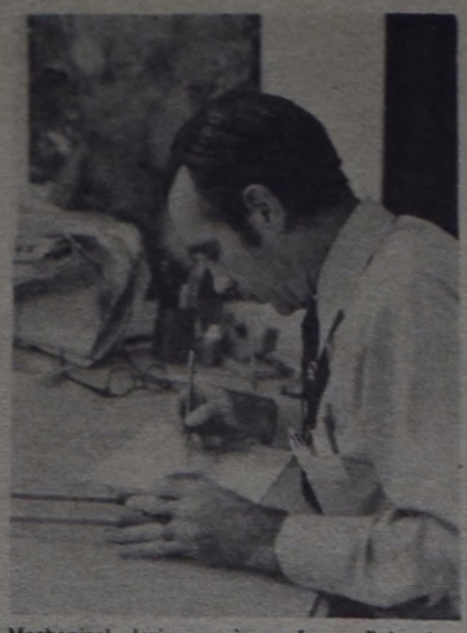

ASHO Preclear Succeeds with Study Tech

Upon returning home to New York after Expanded Dianetic auditing at ASHO, SUZY SAJNENKOFF landed a job as a computer programming instructor, and she is now considered one of the best in the school.

What was most unusual about that is that at the start she knew almost nothing about the subject! A friend had asked her to come down to fill in temporarily for a teacher who had left suddenly. She began applying study tech right away with the students and the subject and she ended up staying.

She has her second class now and student opinion has it that she is the best instructor at the school next to her friend who had first asked her to teach.

The secret, she says, is L. Ron Hubbard's study tech – combined with her wins as a preclear, without which she would never have had the courage to give it a try.

Mechanical design engineer Larry Bales has taken on a new professional skill – becoming a Dianetic Auditor!

John Nelson beams over his new sense of personal worth as a Scientologist.

Father Uses Tech With Family

LARRY BALES, mechanical design engineer in St. Louis, has been auditing his son Kevin on the Drug Rundown. Kevin, who asked his father to audit him, says that among other gains his visual depth perception has improved 200%!

Larry's interest in Philosophy and religion had prompted him to buy the book Dianetics, the Modern Science of Mental Health just prior to taking a business trip a year ago. Throughout the trip he couldn't put the book down, reading it at coffee breaks and every chance he got. Though he'd read hundreds of books on philosophy and religion, "Never had I read anything with so many revelations," he recalls.

Upon his return, he started training at the St. Louis Church of Scientology and is now on his Dianetic Internship there.

Larry applies Ron's study tech in training machinery servicemen too. Recently one commented, "I've never been taught like this before. It's *better* than just being taught!"

Larry plans to continue his training and go on to Clear.

Applying the Tech

JOHN NELSON of Southern California had been working in a warehouse that was in a state of massive confusion. After taking the Communication Course, he confronted the owner with the existing situation, and offered to take responsibility for clearing it up.

The owner immediately agreed, created the position of "Organizer" and gave John the job along with a substantial raise!

The expanding Church of Scientology in Miami has moved to these beautiful quarters, three times the size of their previous building.

MIAMI EXPANDS!

November 14, 1976, the Church of Scientology in Miami moved to new quarters three times the size of their old building! Statistics boomed immediately after the move.

Located in Coral Gables, a small city within the metropolitan Miami area, the Church is two blocks off the "Miracle Mile" shopping district. (Now Miami will see some REAL miracles on the Miracle Mile!)

Community acceptance has been excellent. One local business sent a huge floral arrangement to welcome Scientologists to the area.

Definitions
ASHO American Saint Hill Organization, Home of upper level training and processing.
Auditor A person who through church training becomes skilled in the successful application of Dianetics and Scientology to his family, friends and the public to achieve the ability gained as stated on the Gradation Chart for his class of training.* A Minister.
Case Supervisor That person in a Scientology Church who gives instructions regarding, and supervises the auditing of preclears.*
Clear A thetan who can be at cause knowingly and at will over mental matter, energy, space and time as regards the first dynamic (survival for self). The state of Clear is above the release grades (all of which are requisite to Clearing) and is attained by completion of the Clearing Course at an Advanced Organization.*
Dianetics DIA (Greek) through, NOUS (Greek) soul; deals with a system of mental image pictures in relation to psychic (spiritual) trauma. The mental image pictures are believed on the basis of personal revelation to be comprising mental activity created and formed by the spirit, and not by the body or brain.*
HASI Hubbard Association of Scientologists International.*
HCO Hubbard Communications Office.
HCOB Hubbard Communications Office Bulletin.*
HSST Hubbard Specialist of Standard Tech, Class VIII C/S.
Preclear A spiritual being who is now on the road to becoming Clear, hence preclear.*
Reactive Mind A portion of a person's mind which works on a totally stimulus-response basis, which is not under his volitional control, and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions.*
Scientology An applied religious philosophy, dealing with the study of knowledge, which through the application of its technology, can bring about desirable changes in the conditions of life.*
Tech or Technology The methods of application of an art or science as opposed to mere knowledge of the science or art itself.*
Thetan The person himself – not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware; the identity which is the individual.*

*Taken from the Dianetics and Scientology Dictionary by L. Ron Hubbard.

Millions to Use Ron's Tech

VOLUNTEER MINISTER'S HANDBOOK RELEASED NATIONWIDE

All across the U.S. on December 11, L. Ron Hubbard's new VOLUNTEER MINISTER'S HANDBOOK was released at special holiday events.

In Los Angeles, 2200 Scientologists gathered at the Convention Center to see jazz pianist Chick Corea unveil Ron's new book! Chick told of the impact of Scientology books on his life as he emphasized the importance of the latest book from Ron. As he drew back the veil, the hall resounded with hundreds of exploding red and green balloons and a cheer from the crowd.

Along with Gayle Moran (formerly with the Mahavishnu Jazz Orchestra), Chick gave the party a special performance of his theta music.

Millions of people will be using the tech of this new book out in society to help each other, stressed Ron's personal representative, Mike Smith, in a message brought directly from Ron for the occasion. Religion, he pointed out, is Man's first sense of community, and *The Volunteer Minister's Handbook* is a way for people to activate their sense of compassion.

Chic Corea gave a special performance in honor of the release of L. Ron Hubbard's new VOLUNTEER MINISTER'S HANDBOOK.

ASHO KEEPS SCIENTOLOGY WORKING

RESULTS!

The wins haven't stopped coming since I finished Expanded Dianetics, Power and Power Plus at ASHO. Every day one or more new aspects present themselves.

I've gone back to work in the computer field which I've been out of for eight years, at a way above average salary.

I re-instated my pilot's license and am taking aerobatic lessons after spending several years being afraid to fly even with another pilot.

My awareness of what is happening and why makes it pleasurable to handle any situation.

But the best I saved for last – my husband and I are putting together a real second dynamic. We have a long way to go but the gains we've had in opening communication have us both delighted.

Keep that tech rolling!

Elena Rutter, Atlanta, Georgia
Telecommunications Specialist

Power Processing was the most powerful auditing I've ever had. The whole world began sparkling for me.

When I returned home I took a job managing a company and supervising between 5 and 10 men. It's easy to do. But the success is me. So many times I have just intended for something to happen or for one of my men to do something and it gets done with very little comm lag. Things don't break down when I'm around. There's a lot fewer hassles.

I've felt like I've been growing and growing and growing – ever since I started with Power.

George Furman, Roofing Superintendent
Indiana

MOVING UP THE BRIDGE

I loved my stay at ASHO. I've come from a Life Repair Release to OT I and from a green Class IV to a very good and experienced Class VI.

I feel very causative and responsible and able. Thank you to the team at ASHO for getting me there.

Myrna Jacobs, Class VI

READY TO KEEP SCIENTOLOGY WORKING

I've just completed my Power Processing, Class VI, and my Class VI Internship – wow! I feel fully prepared to go out into the field and get and keep Scientology working. That requires a high responsibility level and I am ready! As a matter of fact, I can't wait.

John Grant, Class VI

EXCELLENT AUDITING QUALITY

I had really beautiful wins on my Power Processing and I feel fantastic. I never felt so strong, so calm, in my life. I'd like to thank most of all Ron for making this level available and second I want to thank my auditor and the tech staff at ASHO who made it incredibly safe to be here and moved me very quickly to Power Release.

I feel ready to handle anything – I feel terrifically stable as ME. On to Clear!

TOTAL HANDLING BY ASHO CLASS VIII

I had the privilege of having an ASHO trained Class VIII on the other side of the meter shield. And I'm here to tell you I have never felt so totally handled, or felt so completely unconcerned with how, when or where we were going or if it would work out OK. It almost seems redundant to mention that she unsnarled the mess that was my case, in short order, and left me feeling like an A-to-B pc before the end of the first intensive.

Lisa Becker

STAFF WHO REALLY CARE

I appreciate all the consideration and help I've received here at ASHO where the best knowledge and techniques are taught and applied of anywhere on the planet. You make it a thoroughly enjoyable process which meets my measure of a truly successful and ethical operation. This has been one of the most enjoyable experiences of my life.

B.T.

Joan Todhunter is moving up the Bridge since she came to Los Angeles!

FULLY SCIENTOLOGY ATMOSPHERE

I've been a student at ASHO Day the last two months. I'm happy to say my intention to move up both sides of the Bridge at once is being carried out!

During these busy months, staying at the Manor has allowed me to use my time to study and align my life on all dynamics. I really love the people here.

The other day I looked at my life and my environment and realized here I am, truly independent for the first time, living in a safe place with lots of friends who care about me, learning things I need to know, and going free at last!

Poet's Corner

From *SMILE COUNTRY*

I pour over hills
into the expanding universe,
a full laughing sunlight.
All I fill holds
a beautiful breathing.

Fire of liquid resonances,
I am clean sunlight
caught in long oceans
echoing outward into
stars.

The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of the Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed, or owned only under these conditions.

ASHO ANNOUNCES A CHANCE FOR YOU TO SAVE MONEY!

THE GAME:

Start the Saint Hill Special Briefing Course by March 31, 1977 and SAVE $1000!

That's right!

On April 1st, 1977, the new Senior Class IV Course becomes a prerequisite to Class V, the Saint Hill Special Briefing Course.

Senior Class IV includes training on the PTS/SP Detection Course, Integrity Processing, and Interiorization-Exteriorization Rundown. Donation for this course will be $1000, and it will become part of the regular training line-up.

BUT YOU CAN START CLASS V AS A CLASS IV AUDITOR *WITHOUT* SENIOR CLASS IV RIGHT UP UNTIL THE DEADLINE DATE! You save $1000 *and* you start getting the amazing data on Ron's Briefing Course that much sooner.

Game Rules:

1. You must start the Saint Hill Special Briefing Course no later than midnight, March 31st, 1977.
2. You may start the Briefing Course as provisional or conditional Class IV. There are no internship requirements to start Class V – you may do your internship at ASHO *after* you graduate from the Senior Briefing Course as a Class VI.
3. What you *do* need to have done is:
   A. Class IV
   B. Hubbard Standard Dianetics Course or Practicing Dianeticist Course
   C. Student Hat Course
   NOTE: Student Hat is FREE with the Saint Hill Special Briefing Course if not already done.
   NOTE: Method One Word Clearing makes you eligible to be a Fast Flow student, but you *can* start the Briefing Course without it.
4. CLEARS may still start the Briefing Course without Academy training (which means Senior Class IV will not be required of Clears) according to long-standing policy.
5. Make your advance donations to:
   ASHO DAY – if you will be on the Briefing Course during the day or full time.
   ASHO FOUNDATION – if you will be on the Briefing Course evenings or weekends only.

Contact the Registrar at ASHO right away and let him know you plan to enter the game and save $1000!

If stops or barriers get in your way, contact the Registrar immediately at:
