THE BEST WAY TO GET CLEAR

by L. Ron Hubbard

The best way to get Clear is to be a good auditor.

You'll find that there is a direct relationship in most cases. The best way to get Clear is to be a good auditor, and, of course, the way to be a good auditor is to deliver a good session. Those people who do not give good auditing, oddly enough, are those who are making the least progress. It's quite remarkable. It's sort of poetic justic. It gets averaged out along the line.

Although the averages on this sometimes might not look like this to you – you're auditing well but you're getting lousy sessions for instance – remember that you've given some lousy sessions when you were getting good auditing too!

So the average balances out to a marked degree, and it's actually true that the very best way to get Clear is to give good auditing.

But more important than that arithmetical figure is just this burning question – how are you going to get Clear? Well, your very best chance of getting clear is having given good sessions *now* and taught good auditing *now* and kept it going. Because then it will still be here and clearing people when you are ready. There is no substitute for good auditing and good dissemination.

This is just a factor, not an exact arithmetical equivalent – for instance, there are people around who have been clearing people, who have been auditing like mad and who haven't been receiving good auditing, so the average is not good for that particular person. But as time goes on, that could reverse, couldn't it? Because, actually as far as a person getting OT with exclamation points is concerned, it totally depends on his continuing to give good sessions. It's true. As long as he goes on auditing and giving good sessions, he will someday make OT.

That's the way the cookie crumbles; that's the way the wheel turns. And if you're worried sometimes, desperately worried about getting Clear or getting clear*er*, then audit like mad. That's my best advice to you because it's advice that I myself take.

Possibly you've audited many times longer and far better than the auditing you have received, in your opinion. All right, that's just how long you have to audit to get some. Who said it was an easy hill to climb? It is *not* an easy hill to climb.

I think with horror of some of the kids in Los Angeles in 1950 who used to tell me that the ideal clearing would be to be able to insert a needle into somebody's gluteus maximus and give one single shot and that would make the person Clear. They were actually hoping that some chemical research of some kind or another would wind up in this. Of course, at our stage of development we know that would be totally silly, but they thought this would be ideal clearing. Actually it wouldn't be ideal clearing because it wouldn't have done anything for anybody. It would have exteriorized them but wouldn't have returned anything to them at all.

Causation of clearing breeds clearing, and that's all I can say about it. It does, definitely. You've got the techniques – about two or three thousand years before they were due. Give me the credit of having developed them before any normal course of research procedure would have developed them.

It's never an easy job to clear somebody. Don't ever get the idea that it is. Don't ever try to persuade somebody that it is. The worst thing in the world you can say to a person is "Oh, yes. Just give your donation over on the right there and come on through here and we'll clear you." Honest, you would find that the person would work much better in the line of clearing if you looked at him and, with an entirely different approach, said, "Are you sure you want to tackle it? It's a hard road. Once in a while somebody is just terribly lucky and finds it fairly easy, but ordinarily it's a very very rough road. It has its ups and downs and it has its heartbreaks. If you stay with it, the end product *can* be delivered. It's well worth having at the other end of the line. *Well* worth having. But we don't want you coming into this co-audit, or into this HGC thinking that this is an easy thing to do, that all you have to do is roll up your sleeves and we punch you with a little needle and you are promptly Clear, because that isn't the way it goes. As long as you've lived, and as much as you've done, how could it be easy?"

The person would say, "Wow, there's something to what you say."

That it can be done *at all* is absolutely miraculous, because it's never been done before on this planet.

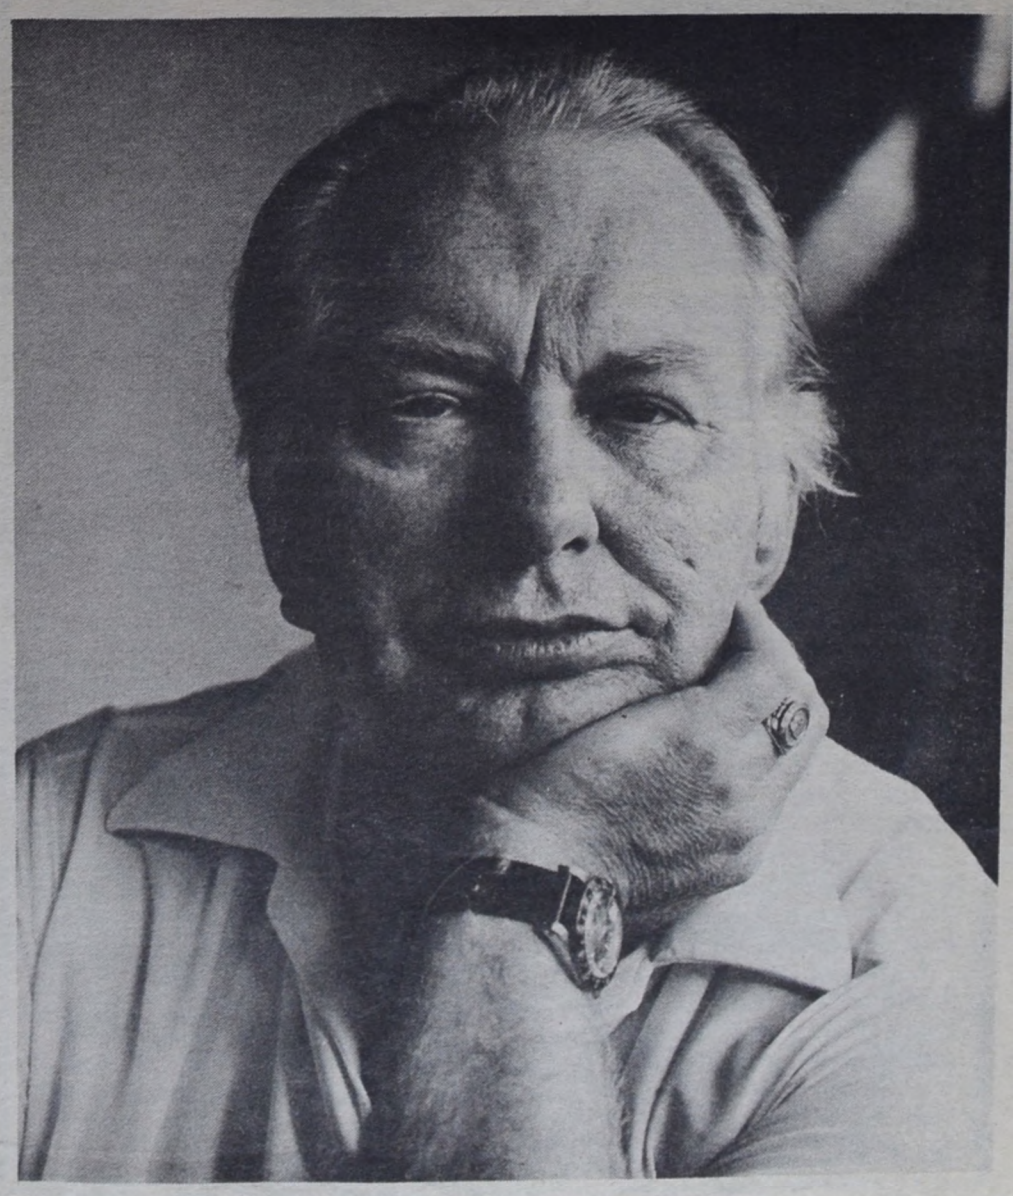

If the person can furnish no effort, can have no causative action of any kind whatsoever, you'll also find the person has never done anything, ever. You will find, in addition to that, that this individual has the *longest* road to go. The individual who is seeking the shortest route has the longest road to go. And the first way and easiest way you could break somebody's heart is to tell him it's easy.

I think most of you have a high reality that you can go Clear. You see yourself approaching the reality that it exists on a gradient. But you make it *harder* for somebody by telling him how "easy" it is, because he then has the heartbreak. I tell you this out of my experience in telling people in *all* the different ways you can tell them. He'd have the heartbreak of learning that it was a tough road, having counted on it being an easy road.

I think you would get a far better response from people if, when they say "I want you to audit me and I want to get this wonderful thing called clearing," you have them sit down and say this: "I want you to understand that this is not an easy road. This is a tough road. It is not a short road. Its end product exceeds anything that has ever been done. But it is *not* an easy road to travel. And it's going to have ups and downs and it's going to have heartbreaks." And if that person walks out the door, thank your stars he did, because it would have cost you too much time to have gotten an adequate result.

There is a difference here between *certain* clearing and *easy* clearing. The world only wants to know that

THE BEST WAY TO GET CLEAR continued from page 1

we are *doing* something about things. That's really what the world wants from us. They want to know that we are actually *doing* something about the world, that we're doing something about Man, that we *do* know where we're going, that we *are* getting someplace and that we *are* making progress. We actually are living up to that.

Don't add to our burdens the statement that with a snap of the fingers they're going to all be cleared because it isn't true and it never will be true.

People expect of us to go on forward and do something about it. Well, we are going forward and doing something about it. We are doing something about it in a remarkably short period of time. It is very remarkable that something *can* be done about it with certainty – proportional only to the skill of administration of the technology. Things can be done, and the only thing that's letting us down at all today is weak or imperfect application of the technology.

So there is where you sit on dissemination. If you work along those lines you'll be far, far better off than if you say "Well, all you have to do is sit down in the chair and I'm going to make a few magic passes . . . " 75 hours later you would still be making those few magic passes. Your heart would be broken, and so would the pc's.

So you tell him it is a hard road. And if it's easy for him, well, you've made a liar out of yourself. Anytime you want to make a liar out of yourself *that* way, do so! It's the other way you can't retract.

The goal of Clear *can* be attained, so tell people *that* with certainty – that we have attained it, that we can attain it and that it is attainable. And don't interpret it as something that is easy to do because it is not. If it were easy to do it would have been done many, many, many times before in Man's history, and it has *never* been done before in Man's history.

FACTS ABOUT
CO-AUDITING:
more gains.....less money

CO-AUDITING is an abbreviation for cooperative auditing. It means a team of any two people who are helping each other reach a better life with Scientology processing. (Dianetics and Scientology Technical Dictionary.)

You've heard about co-auditing. Now read the facts for yourself.

MORE GAINS

You actually do get MORE out of your own auditing on the co-audit route!

Because you've been trained on the materials you're being audited on, **you know what to look for.** You know how the processes work to handle the bank, and you know what each process is designed to achieve.

Auditors say their gains are DOUBLE on the co-auditing route, because they also enjoy the wins and cognitions of their preclears. **Being cause over another's bank helps you to become cause over your own too.**

Scientology training itself, part of the co-audit route, gives you new awareness of yourself and expands your viewpoint on every dynamic. **Ron says at least 50% of the available CASE gain is through training!** Auditor training gives you the ability to confront life, and to push through barriers toward your goals.

The Co-Audit route gives you a **balance of increasing knowledge along with increasing awareness.**

PLUS, Ron says "**If you want a good auditor at Grade VI and VII (Clear), why, become one!**" Solo auditing at Grade VI and above is AUDITING. The better auditor you become on your way up, the better auditor you have when you audit yourself to Clear and OT.

Value of the Professional Route
by L. Ron Hubbard

The proposition that you must be Clear before you can audit anybody is totally unworkable and never will work.

There are several reasons for this having to do with practicality. And one of the reasons you perhaps are not too aware of is that cleared raw meat with no reality on what has happened is enormously inferior to somebody that has the data and goes Clear.

Getting a subjective reality on what it's like trying to wrestle with the problems of it leaves you with a capability of understanding people, even though Clear. Whereas you clear raw meat and you're liable to find somebody now very impatient with people. Wonders why he's associating with them. The poor guy has suddenly been launched into the stratosphere and is being expected to fly without having found out that he's in an airplane. He has no comparative data.

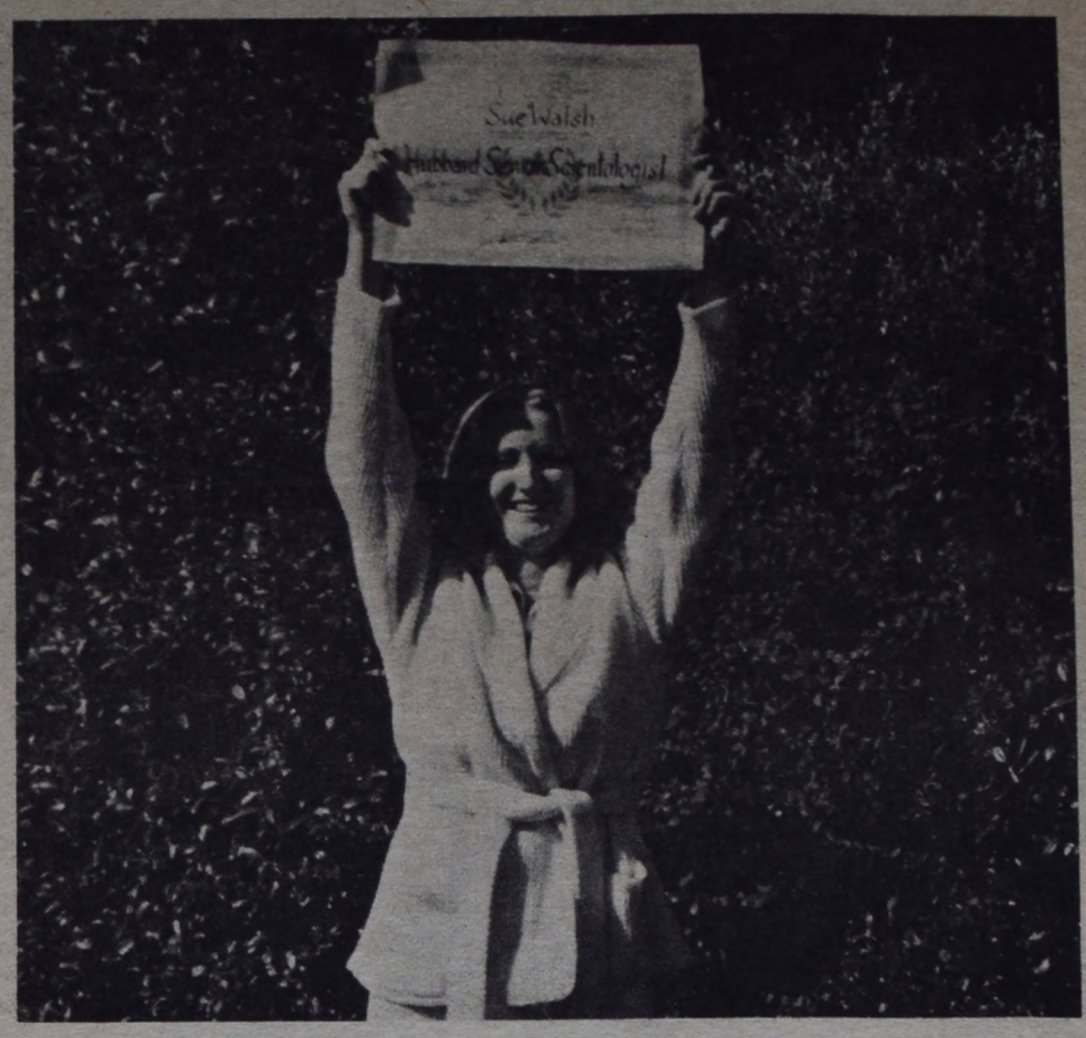

He'll be fine, I mean he'll do well in life, I'm not trying to run down the state. But as far as the idea of the mind and people and this universe, there is no substitute for a guy being as spun in as you are – and then going Clear. Because you go Clear on it with all the data. There's a lot of virtue to be said for this. You get much more comprehending people this way.

L. Ron Hubbard
from the tape-recorded lecture given to
Saint Hill Special Briefing
Course students on July 12, 1962.

"BETTER THAN A GOLD MEDAL"

"Class VI! It's better than a gold medal by far!" says Sue Walsh, who ought to know, having won a gold medal at the 1st World Aquatic games held in Yugoslavia after winning the U.S. national synchronized swimming competition four times straight.

"I can hardly believe I've made it," she goes on. "It's a great feeling to know you can bring a person from never having even heard of auditing up to Grade IV Release with the viewpoint of CAUSE. This has been the most valuable cycle of my life – co-auditing up to Grade IV Expanded, and now Class VI Auditor. Thanks ASHO, supervisors, coaches, and Ron !"

CLASS V AND CLASS VI
ADVENTURE INTO TRUTH

Becoming a Class VI is a real adventure into truth! I've never felt so sure and able and valuable as a being This is the most impressive course I've been on by all standards. It is THE auditor making course. I can say I am an auditor now and know it's true. ASHO was really behind me all the way.

H. W., Class VI

UNLIKE ANY OTHER COURSE

This vast course, the Saint Hill Special Briefing Course, might have been expected to stock my mind with facts and figures but as I look at it now my mind seems far less cluttered than before. So much has been aligned and organized, and so many questions and uncertainties I have had, about the universe or life, as well as about Scientology, are gone; my space is clean and ready for more.

The secret is the truth contained in the course. Even the task of trying to remember where such and such a datum is in the tech is made simple by the understanding one gets of the chronology and development of Scientology.

Having this kind of certainty makes it very possible to confront other people and what's more, knowing that one has at his disposal the means to help people, such as one learns on this course, increases one's confidence enormously.

This is a course unlike courses anywhere outside of Scientology. This course frees, and enables, and ennobles too.

J. L., Class V

MOST IMPORTANT STEP IN BILLIONS OF YEARS

Part one of the Briefing Course is really beyond words. I have had as many cognitions and changes through these last 2½ months as I've had going up through my Power. And that is a lot.

It's one thing to feel good – that's nice. But to be able to change conditions – and know why the tools you are using change conditions – is priceless.

My admiration for Ron has no limits. I've even ceased to be amazed. This Briefing Course is by far the most important and significant step I have taken as a thetan in billions of years.

Pat Royce

"THE ONLY WAY TO CLEAR"

While doing the Academy levels I have noticed so much data that is really valuable. Just knowing the processes helps!

I've also noticed there is a difference between 'comm course Scientologists' and 'auditing Scientologists'. Comm Course Scientologists know only beginning data, but there is so much data on Level 0 alone that anybody will be mind-boggled at learning (I definitely was).

As I've progressed up the levels I am really able to handle life as never before because I know much more of how people tick.

I used to want to be Clear before I got trained. But as I've trained I've begun to see that not only is training a cheaper way to Clear, it is the only way to Clear! My appreciation for the state of Clear has really increased as a result of just the data I've assimilated so far.

Mark Patterson

ON COMPLETING THE BRIEFING COURSE

I have attained a stature I felt I would never get to. Being on course at ASHO with the best and most brilliant beings is an experience I will never regret and always cherish.

Robert Kosal, Class VI Auditor

MOVING UP BOTH SIDES

The number one advantage to doing the training route along with your processing is the data. Aligning the tremendous surges in ability and awareness I received from processing with data, applicable data, greatly enhanced my life and beingness.

And, the money I save by co-auditing more than paid for my course donation. At the same time I had the opportunity to assist others in getting up the Bridge.

Training is vital and going up the grade chart on both sides simultaneously is most optimum. I recommend it to all.

G. K., OT IIIX ASHO Class VI Intern

CLASS VIII
THE PRIVILEGE OF CLASS VIII

The Class VIII Course is the finishing touch on the assumption of beingness of a totally standard auditor. I'm very, very privileged to have this data.

Olivia Washauer, Class VIII

EFFORTLESS AUDITING

My first big realization after auditing as a Class VIII is how totally simple and effortless auditing is with my basics really in. Efforty-think and figure-figure ("what do I do now") really originates with the simplest, most fundamental basics being out. Class VIII put my basics in and gave me the ability to audit from a knowing point of view and has really made the profession of being an auditor an enjoyable experience for me.

I set as my ideal the ability to give a session exactly the way Ron would and that is 100% Standard Tech. It is really quite simple. All you have to do is know and apply the tech exactly the way Ron says to do it. Then sit back and enjoy the havingness of your preclears moving up the grade chart and going free. I'd like everyone in Scientology to be able to do that. How? It all starts happening the minute you walk into the Class VIII Course room and gets better and better from there on out!

Larry Dahlkvist, Class VIII, HSST

ALL THE WAY

The last seven weeks have changed my attitudes and ability as an auditor completely. I've recognized the importance of basics, because that's where it's all at.

I thought there was a difference between a Class VI and a Class IV. Well, there's just as big a difference between an VIII and a VI, so don't stop until you get all the way to the top.

Dan McNichols

50% OF GAINS

This has been the most rewarding course I've ever taken. I feel I can operate so much more as an OT since I enrolled. Ron says training is 50% of your gains – he is so right.

Thank you Ron from the bottom of my heart for this tech. I want all the people on Earth to feel the way I do – and I know they eventually will.

In the last year, TONY COHAN, OT VII and Saint Hill Special Briefing Course student at ASHO, wrote and produced more than 200 radio spots for record artists like Elton John, Diana Ross, Stevie Wonder and Joni Mitchell; published two books and has two more scheduled in May; has begun a novel which will be out in the fall; and has co-written a TV series now under development at Warner Brothers.

But he was not always this productive.

Before Scientology several years ago, Tony had tried his hand at many occupations, wanting desperately to write yet unable to make it happen.

Then after his Scientology grades he suddenly wrote 50 songs, sold a number of them and had some recorded. He wrote and sold two novels and published a dozen articles within three months.

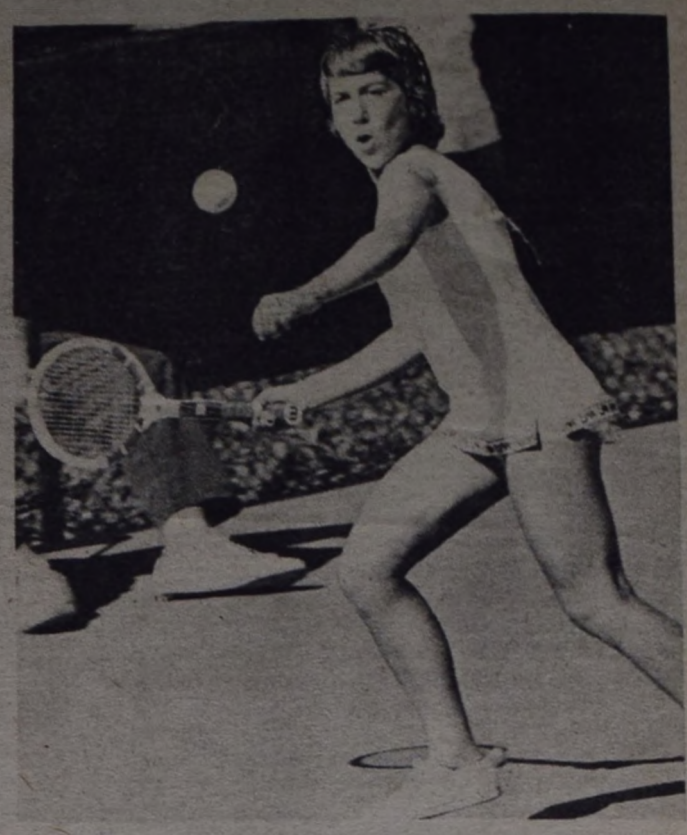

He has since developed a thriving career as a writer, producer and publisher who is much in demand.

Saint Hill Special Briefing Course training is the reason for his continued expansion in recent months. "When I finished the OT levels I felt like a stumbling giant," he explains. "My own universe was solved but I was piling up overts of omission – I felt great, but it saddened me that others didn't. I didn't know how to reach out to help them. Since training on the Briefing Course, I can wade into the world with my sleeves rolled up and quite cheerfully handle people and their banks. I was surprised to find that instead of becoming more impatient with people I have become more involved with them and can now walk into the craziest situations, calmly and certainly going about making them right."

Tony is very happily married to Class VIII Auditor MASAKO TAKAHASHI COHAN, who is a filmmaker and artist in her own right.

ASHO BRIEFING COURSE STUDENT TONY COHAN is now much in demand as writer and producer.

National Tennis Champ PAM CHAMPAGNE, who got her Power Processing at ASHO before going on up the Bridge to OT III, is now using Scientology data in her playing and teaching.

ASHO Graduate Disseminates to Tennis Champ

PAM CHAMPAGNE, who holds at least six national tennis titles, now uses Scientology tech in her tennis instruction. Pam and her husband Jeff started in Scientology in December 1973, as a result of dissemination by ALICE TROMBLEY, another tennis pro who is now a Class VI graduate from ASHO.

Since going on up to OT III, Pam has started playing the pro tennis tour (she had previously been a national champion as an amateur) and came in within the top five.

A number of new people have gotten onto the Bridge as a result of her successful use of Scientology data as an instructor.

Pam has just completed her Dianetic Internship at the Phoenix Church of Scientology, and plans to continue her training along with her dissemination.

UND THE WORLD

CLASS VI COOPER KESSEL, who got all his auditing up to Grade IV on the Briefing Course at ASHO and is now a Power Release, has also found training improved his ability as an architect.

Architect Completes Co-Audit in Record Time on Briefing Course

COOPER KESSEL had been in Scientology for only six months when he routed onto the Saint Hill Special Briefing Course at ASHO, and he had had no auditing at all.

He received all his auditing up to Grade IV while on the Briefing Course and is now also a Class VI graduate. He has just completed his Power Processing (Grades V-VA) at ASHO.

"The fact I was an auditor before I got any auditing was the reason my own auditing went incredibly fast. I knew what was expected of me as a preclear, and I knew the bank was real," he says.

The easy gradient of Briefing Course training also surprised him. "Ron's lectures are superb. All you have to do is get started on it and keep your ethics in and you will make it," beams Cooper.

KURT DAMBACHER, now Class VI and on the VI Internship was the one who first got Cooper interested in Scientology by sending him *DIANETICS, Modern Science of Mental Health.*

"My ruin was I didn't know how to handle people," Cooper recalls. "But I have no trouble handling them now. Being able to be REAL with people and CONFRONT them has enabled me to give them a better product in my work as an architect."

He is currently interested in solar energy. "Structures are just not being designed to use the energy that is there," he points out. "A house will use 50% less energy just by proper placement of the windows!" But his main interest is Scientology, and after doing his internship and Clearing and OT levels, he plans to start a Scientology Mission.

NEWS FROM ARC

GIL DE JESUS has increased his awareness and ability in music since his auditing at ASHO.

ASHO Preclear Quadruples Progress of Music Students

GIL DE JESUS, recently audited at ASHO, has returned home to Massachusetts to great success as a music teacher. Students coming to him from other teachers routinely now quadruple their progress under his instruction!

Scientology training and auditing have both made him better able to apply Ron's basic study data with awareness and skill. His students have responded with enthusism and tremendous loyalty.

"Scientology has given me the ability to become a much better teacher and to see things as they are," he writes. "One of these things is the appalling degree of mental confusion with which we are confronted in American students. The other is that no other tech is going to solve this problem except Scientology."

Gil will be coming back to ASHO for his Power Processing soon.

UND THE WORLD

Scientologist CHICK COREA, winner of two Grammy Awards this year, meets with beaming executives of Columbia Broadcasting. (left to right: Bassist Stanley Clarke, Chick Corea, singer Gayle Moran, Ron Moss (Chick's manager), President CBS Records, President of CBS Group.)

GRAMMY AWARDS TO SCIENTOLOGISTS

February 19th, the National Academy of Recorded Arts and Sciences gave OT VII CHICK COREA and his all-Scientologist band Return to Forever two of its highest honors at its 19th Annual Grammy Award ceremony held in the Hollywood Palladium.

Chick was given his first Grammy of the evening for Best Instrumental Arrangement, for his piece "The Leprechaun's Dream" from the album "The Leprechaun." His second Grammy was for Best Jazz Performance by a Group, given for the entire album "The Leprechaun" which is performed by Chick and Return to Forever.

STANLEY CLARKE, OT IIIX, bassist in Return to Forever, was also nominated in the Best Instrumental Arrangement category for his tune "Life is Just a Game" from his own solo album "School Days."

Upon receiving the Grammies, Chick expressed to the live and television audience totalling many millions his special thanks and acknowledgement to L. Ron Hubbard.

Vital New "Tapes to Books" Project Underway

A mammoth project is now getting underway at the Flag Land Base to accurately transcribe and issue the text of *all* Ron's recorded lectures chronologically, volume by volume, as a huge library.

Ron has said:

"There is a possibility that some Scientologists have not realized the extent of technical materials which exist in Dianetics and Scientology on the subject of the spirit, mind and life.

"For instance, there are about 25,000,000 words on tape in archives . . .

"THESE TAPED LECTURES CONTAIN THE ONLY CONSECUTIVE RECORD OF ALL SCIENTOLOGY RESEARCH.

"They contain more data than was ever released by HCOB by many times.

"These tapes are not simply lectures. They are the ONLY existing record of all the advances which made possible the handling of the human mind. There is NO other such record in existence."

A new unit, the Tape Transcription Assembly and Publications Unit, is being formed now at Flag under Ron's Personal Secretary to carry out the project.

Editors, transcribers, proofreaders will be coming to Flag to work on this vital project. Others who cannot come to Flag will be able to work in the field transcribing tapes.

SEARCH FOR EARLY TAPES

The majority of Ron's tape recorded lectures are safeguarded in Guardian Archives. However, in the chaos of early organizations, particularly before 1954, a number of tapes have been lost. Fortunately tapes were usually duplicated for sale at the end of the congress or course at which they were given, so copies should exist somewhere.

YOU may have copies of tapes which are not in tape archives!

A search through the garage of an early Dianeticist in Hollywood in early 1975 turned up about 100 tapes, some 12 of which we did not already have.

There are probably many more such caches waiting to be found. You may even have a priceless tape sitting on your bookshelf or in your closet!

HOW TO FIND

In the Tech Volumes, points at which Ron gave tape recorded lectures have been indicated as they occurred. Tapes for which we have a master copy have one or two asterisks (* or **) preceding the title. Tapes for which we do NOT have a master have no asterisk. If you have a tape which is not on this list, then you have a tape we don't even know about!

Using the list in the Tech Volumes, check your tapes to see if you have some we have listed as missing. Check your garage, closet, basement and attic.

If you know an early Dianeticist or Scientologist, call on them and find out if they have any early materials, written or tape recorded. One Scientologist in Vancouver did just this last year and turned up two 1956 tapes which were not in archives!

Arrangements will be made to copy any tapes you find. A new copy will be sent to you.

Report your finds to Ken Delderfield, Tape Transcription Assembly and Publications Project, Flag. If you are interested in taking part in the transcription project itself write Ken Delderfield at: Flag Land Base, P.O. Box 23751, Tampa, Florida 33623 USA.

Focus on Success
Co-Auditing to Clear At ASHO

ASHO IS FANTASTIC

ASHO is a fantastic place to outflow and inflow auditing as a student. I've received some really good gains and given great gains. It is the OT way to become full OT! *Lee Lipton*
Saint Hill Special Briefing Course student

PERFECT EXCHANGE

There has never been anything at all like co-auditing. The exchange is perfect but it's amazingly cheap. Being able to REALLY help someone else and then turning around and REALLY getting good help is something you have to experience yourself to even believe it's possible. *Richard Harrison*

TREMENDOUS EXPANSION

Grade 0 was great. My responsibility and cause level expanded tremendously in regards to all my dynamics. I have never felt so bright, alert and aware of present time and the processes were fun to do. I can't think of any auditing I've enjoyed more and I've had a lot of wins in my earlier auditing.

Lois Robin, Class VI Auditor

LOIS ROBIN is now doing her Class IV Internship at ASHO.

TRAINING AND AUDITING TOO

I'm having a GREAT time on my co-audit. I'm training at the same time and it's really fantastic. I audit my preclear, then he audits me, and we get in about 35 hours a week. It's very smooth and we both are winning. All it takes is a firm intention to get to Grade IV (don't let your postulate stop there though!) and keeping yourself on target in the course room. The combination of training and auditing is terrific.

David S. Haberman,
Saint Hill Special Briefing Course student

ENJOYABLE

Co audits can really be fun. It's so great to be doing a good job on your co-audit twin and watch the changes in ARC with your preclear, in the chair and out of session too. Co-auditing is the best, most enjoyable thing I've done in Scientology to date!

Howard Marchese, Saint Hill
Special Briefing Course student

The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of the Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed, or owned only under these conditions.
