FUNDAMENTALS OF AUDITING

from a Saint Hill Special Briefing Course Lecture

by L. Ron Hubbard

There are probably thousands and thousands of rules in auditing. Yet there are only a few very *fundamental* rules.

Despite these thousands and thousands of rules of thumb, maxims, what you do and what you don't do, if you haven't got these few little basics down, auditing does not occur.

There are these very very senior data on the subject of auditing:

1. Auditing is a third dynamic activity.
2. The basis of it is communication.
3. You have to audit the pc in front of you.

I don't care how many other thousands of rules you have followed, if you've violated those little rules, you've had it. You won't ever have any auditing occur.

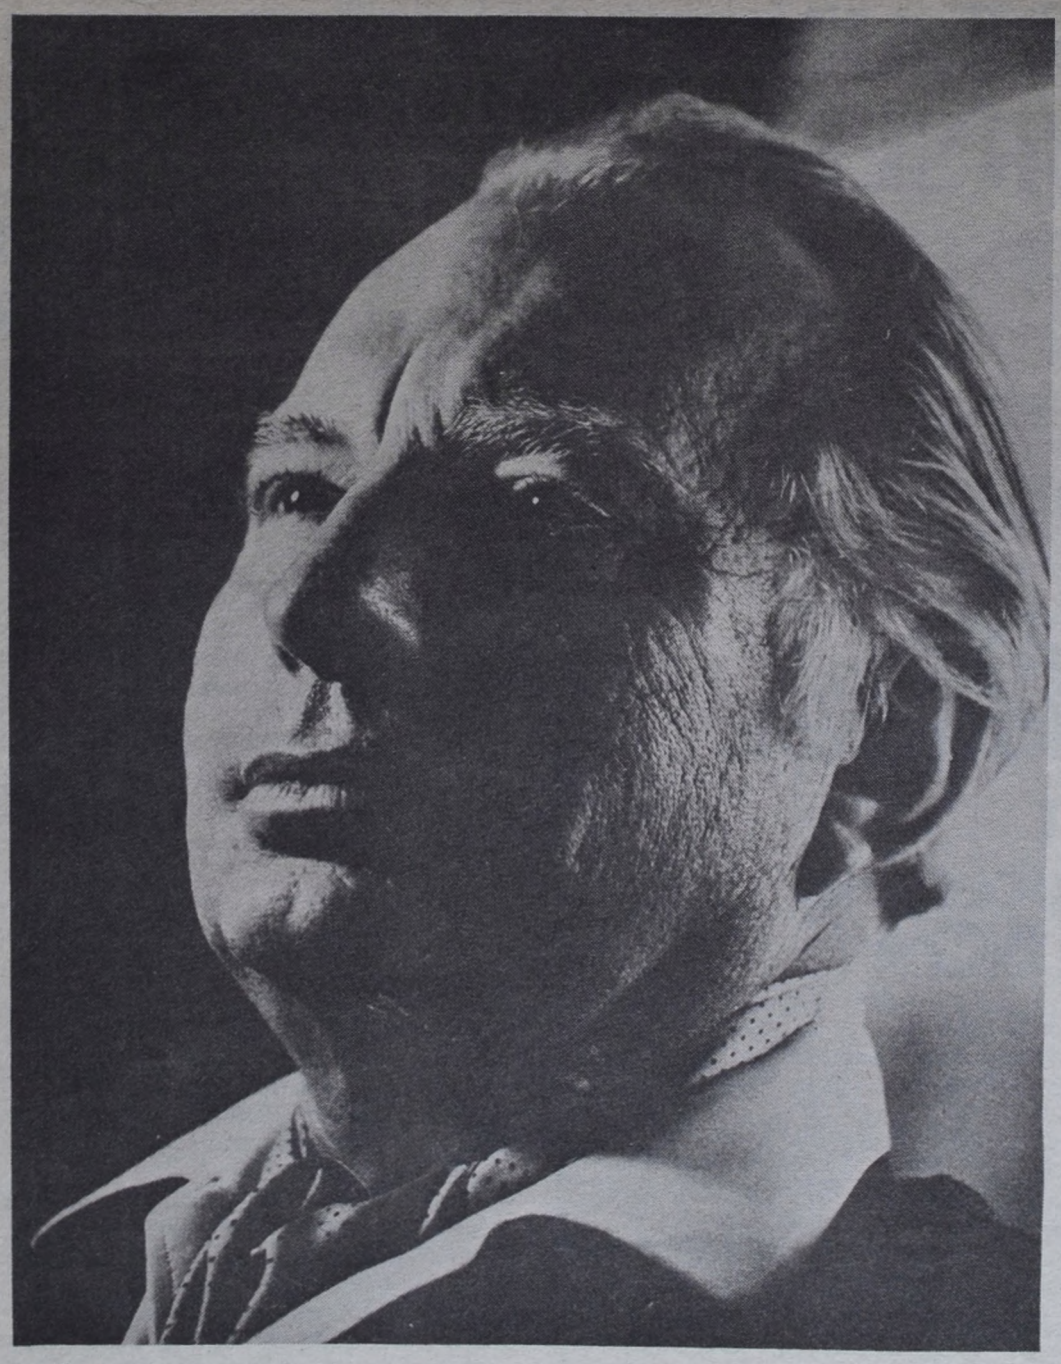

Somebody might come along and tell you that the reason you aren't getting any place is because you're handling the E-Meter on the right and you should be handling it on the left. Or because you're not taking up the pc's present time problems. Or, frankly, how can you expect to audit the pc if you have dirty fingernails? Or that you must improve your diction in order to audit a pc properly. You could just go on down with *innumerable* items, all of them quite valid, which, if you repaired them without repairing the first three I have mentioned would not make one bit of improvement in your auditing.

Some auditors get into a complete fog of the fantastic number of things they have to do and remember in order to audit. And in doing and remembering these thousands of things they must do, they neglect those little fundamentals. They cease to audit the pc in front of them, they neglect communication as the primary function and action in auditing, and they sit there as a totally individuated island – a first dynamic auditing a nowhere. Of course they never get any auditing done, if these fundamentals have been totally overlooked.

It doesn't matter how precisely you turn your toes in as you sit in the chair doing TR Zero. It doesn't matter how much Listerine you gargle before the session, or how many advertisements you put out about what a good auditor you are, hoping the pc will hear them and be impressed. If you've neglected the fundamentals of auditing, you never get any auditing done.

Auditing is a third dynamic activity. The auditor and the pc are, basically, a group. The activity they are engaged in is communication, and the auditor is auditing the pc in front of him. If those things are occurring, auditing will happen. If those things are not occurring, you could handle these thousands of rules and you would never make any auditing take place.

A Saint Hill Special Briefing Course graduate will very often go home and find that there are people around who don't think there is a right way to audit. They think it's something they dream up as they go along. They think this and they think that. It boils down to the fact that they don't know there is a right way to audit. Any unpracticed auditor who has not been very ferociously schooled on this subject will tend to overlook this – that there *is* a right way to audit. And the right way to audit is to consider an auditing session a third dynamic activity, which has to do with communication, and to audit the pc in front of you. Then auditing occurs.

Now someone might say, "A Saint Hill Graduate? Well, of course, they just learned all of these little tricks and all of these little nuances, and therefore they look good." No, I don't think that's it at all. I think that around here, on the Briefing Course, you find out that auditing can occur; that there is a right way to audit. Your case gains are coming on up the line, and through practice, through interest in what you are doing, you start auditing the pc in front of you, communication starts to occur, and soon you can't conceive of auditing being anything but a third dynamic activity.

Another thing that happens on the Saint Hill Special Briefing Course is that you get over being self-conscious about auditing. There is so much auditing going on and so much being demanded, that you get into a state where you haven't got any time to be self-conscious about it. An auditor at Saint Hill looks very relaxed when he's auditing. It's one of the points you look for. He's stopped worrying.

But if you neglect these fundamentals, then you can add thousands of things to do. Then you have to have rules to handle the pc's origins, rules to handle this, rules to handle that. That's a *curative* measure. That's trying to keep people from multiplying and adding nonsense which has nothing to do with auditing.

If somebody wants rules, I'll give them rules. But all I'm doing is writing a bunch of rules on how you get out of a swamp. Well, what were you doing *in* the swamp? Here's the road marked with tar on both sides of it and arrows, and it's bright daylight, and there you are a quarter of a mile away standing in the middle of a black swamp. And you say, "Ron, give me some rules. How do we get out of these swamps?" So I say, "All right, I'll give you some rules – but what in blazes are you doing in the swamp? How did you get there? Auditing must seem like a very complicated activity to you if you are over there in the swamp. How many rules did you follow that got you *into* the swamp?"

Fundamentals of Auditing continued

The difficulty is, the human race does not want a third dynamic acitivity and doesn't know anything about it. As far as communication is concerned, it quite often consists of evaluation and invalidation. There's no communication. Nobody ever finishes a cycle of communication. Things they talk about are non-sequitur: they never follow up any subject with any other related subject. It's just a dispersed mish-mash of invalidation and evaluation. That is what passes for communication.

So an auditor, or a person learning to be an auditor, has his first strike on him because he has been associating with homo sap. He would make a perfect auditor if it weren't for that. We've got to cure him of it. Therefore we have rules, like TR-4, Q and A and other things we have put in. What are those things doing there? They are trying to bypass and not let into the session a number of human aberrations which already exist in the communication habits of the person who is trying to audit.

For instance, I had someone once who didn't realize that when the pc originated, the cycle should be permitted; that the auditing cycle occurred when the pc originated. They thought it only occurred when the *auditor* originated, and that's why they Q'd and A'd. Only the auditor, they thought, was supposed to begin and end a communication cycle. Well, that immediately is not a third dynamic activity and you are not auditing the pc in front of you, because the pc in front of you is not permitted to originate a communication.

The pc says "Black is white". An auditor who still has the cramps and coughs of being a homo sap, tends to handle this a la homo sap. Somebody says "Black is white". This violates his reality or something, so he "writes script" – he dubs in. He says, "This person is nuts." So he says to the person, "You're nuts! Black is *not* white!" That's homo sap at work, you see. A big figure-figure is added into the middle of a communication cycle. Where do you find any "think" in a communication cycle? It doesn't exist.

You find most auditors learning to audit have difficulties with pcs in direct ratio to the amount of extraneous "think" that they add into the communication cycle. The pc says something so they think something.

What's the proper response to "Black is white"? "Thank you." That's just a pure communication cycle.

Auditing is based on communication, and the basic communication formula is much simpler than homo sap makes it out to be. I think the homo sap communication formula is "I originate and you invalidate", then, "I evaluate and you negate".

No, the various rules of the game are that it is a session, that auditing is based on a pure communication cycle and that the pc who is sitting in front of you is the pc you've got to audit. You cannot audit a meter and get a clear pc.

There is no substitute for putting a pc into session. There is no substitute for giving him an auditing session. And if you're going to get yourself tangled up in 8,765 rules, well, that's just that many rules between you and the pc that are forbidding auditing. If those rules are being used to prevent a third dynamic, to interrupt or upset a communication cycle, or to get out of auditing the pc in front of you, then those rules are not for that session.

There are many ways to audit pcs. There are many styles of auditing. But there is no substitute for auditing. What does the pc consider auditing? An alleviation of his upset, reaching his basic purposes and driving down the road – those things are auditing to the pc.

There *is* a right way to audit. It's good, direct, straightforward, and audits the pc. The basic patterns of auditing that you are using are very very refined patterns. As you're sitting there auditing the pc, you are in the very fortunate position of not having to develop auditing. The test of a good auditor is when he has learned this. He just uses the tools he's got and carries on down the line. He uses them sufficiently well and gets something done.

The bad auditor doesn't know that these things exist. He thinks there are thousands of ways to audit and that he's got to dream up the thousand-and-first one right in the middle of the session. That's just another way of figure-figuring your way out of giving somebody a session.

There are right ways to audit. We're teaching you the right ways to audit. You'd be surprised how many rules have been lopped off of auditing. The most direct approach to auditing happens to be the very pattern of auditing and the equipment of auditing that you have right at the present moment. There is a way to audit, and the more you embroider that, the more you add to it, the more unnecessary stress you put on it, the less it will work.

There are right ways to audit, there are right things to do. The auditor who audits according to pattern in the smoothest way gets the furthest in the long run, so long as he isn't violating those three basic rules that I have given you.

I invite your cooperation.

ATTENTION ALL EXPANDED DIANETICS AUDITORS
Come to ASHO Now
Before 1 September 1977

Here is an excerpt from an important new policy letter: "Expanded Dianetics began in development in 1970. It is a very fully developed subject. However, for some reason or another, the *total* materials of Expanded Dianetics were never packaged and exported even when it was reported that they had been. Thus auditors who have been trained as Expanded Dianetics auditors had been denied considerable key materials and have even lost the reason for Expanded Dianetics. (HCO B 24 Jan 77 Tech Correction Round-Up)

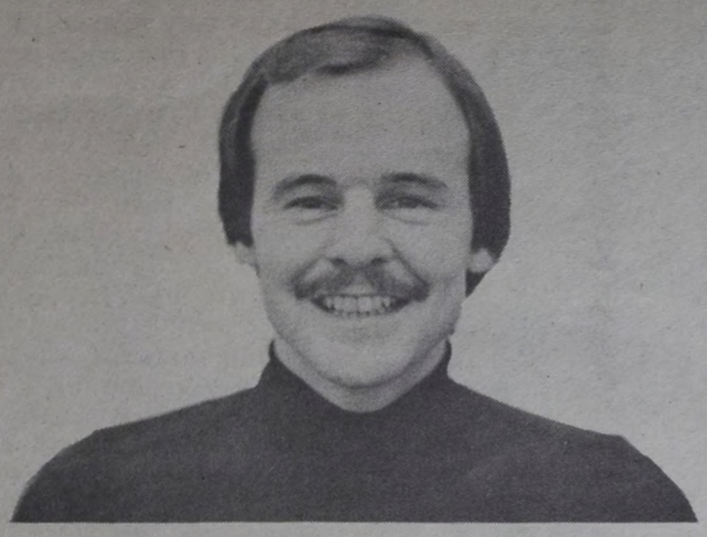

"Therefore it is mandatory that all auditors auditing Expanded Dianetics be trained on the recompiled Expanded Dianetics course. The deadline of 1 Sept 1977 is set after which no auditor who has not done the May 1977 checksheet may audit Expanded Dianetics.

"The price for auditors certified on earlier Expanded Dianetics courses is $250.00 for those auditors who pay for and start the new course before 1 September 1977. After September 1, the price is 1/4 of the full price of the course in the month it's purchased.

"The price for those auditors who have done an Expanded Dianetics Internship is $100.00 for the internship if paid for and started before 1 September 1977 and 1/4 of the full price of the internship in the month it is purchased after 1 September 1977."

THE BRIEFING COURSE is better than ever!

The Saint Hill Special Briefing Course has been overhauled so as to attain the original purposes of the Course as stated in HCO PL 9 July 1962 SPECIAL BRIEFING COURSE and HCO PL 12 Nov AD 12 PURPOSE OF THE SAINT HILL SPECIAL BRIEFING COURSE. The foremost purpose of the course is in training auditors.

The course gives students a full understanding of the Technology of Scientology as developed by Ron at Saint Hill from 1961-1966. SHSBC students get a full command of the theory of Scientology as well as being required to pass a high level of auditing skill before they are allowed to graduate from the course.

The course is run rigidly and by the book.

FORMAT

The new format of Level V Saint Hill Special Briefing Course exactly parallels the HCOB Volumes from 1950-1966.

So that the student has a complete knowledge of the development of Scientology when Ron was at Saint Hill, dozens of taped lectures by Ron have been added.

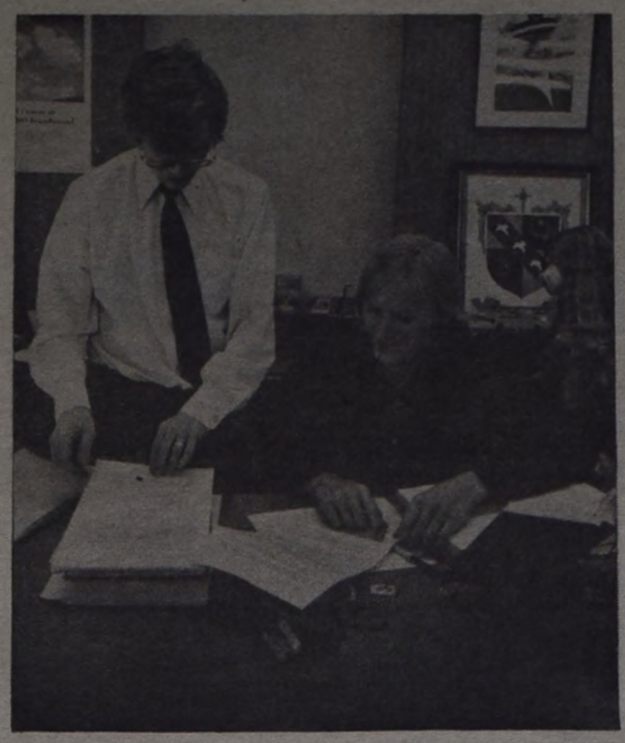

When the student arrives at ASHO, he is given a consultation by a trained Saint Hill Specialist. In this interview, any weak areas of his auditing application are located and a special individualized program is drawn up for the student whereby all previous areas of misunderstoods are handled as a first action. The student is drilled thoroughly on the materials of earlier courses he is weak on by his twin when he is on his practical time. He audits these actions during his daily practical period until he can audit the Styles of Auditing to Saint Hill Standards.

The student does practical and auditing daily and during this set aside time he progresses through his program as set by the Saint Hill Specialist when he commenced course.

A TV Demonstration is required to be done and passed before the student can graduate Level V SHSBC. This demo must show that the student's presence and metering and TRs are that of Saint Hill Standards. If the student flunks this Demo, the student must do another TV demo until he passes.

SCHEDULES

FULL TIME STUDENTS:
A. PRACTICAL OR AUDITING: 9 AM to 12 NOON
B. THEORY: 1 PM to 6 PM
C. THEORY: 7 PM to 10:30 PM

DAVID THOMAS, first student to start the new SHSBC checksheet at ASHO, gets grooved in by his supervisor.

DAY TIME STUDENTS;
A. PRACTICAL OR AUDITING: 9 AM to 12 NOON
B. THEORY: 1 PM to 6 PM
FOUNDATION STUDENTS:
THEORY: 7 PM to 10:30 PM MONDAY THROUGH FRIDAY
PRACTICAL OR AUDITING: 9 AM to 3:15 PM SATURDAY AND SUNDAY
THEORY: 3:15 PM to 6 PM SATURDAY AND SUNDAY
THEORY: 7 PM to 10:30 PM SATURDAY AND SUNDAY

The best way to do the SHSBC is on a full time schedule. Day Time students are expected to study over the weekend.

On Level V SHSBC there are approximately 850 hours of Theory to be studied if the student is moving well. Therefore a full time schedule is by far to the student's advantage. If the student attends on weekdays and puts in 5 hours of study on weekends it will take the student approximately 28 weeks to do Level 5. If the student does not come in on weekends this time goes to approximately 34 weeks.

On Level V SHSBC if the student keeps a full time schedule the number of weeks to do Level V is 14 weeks.

If the student keeps a Foundation schedule including full time on weekends the student will take approximately 28 weeks to graduate from Level V.

NOTE: When the student has completed his program as set when he routed onto SHSBC and has passed his TV Demo and finished his auditing requirements, he is no longer required to spend 3 hours in the morning on Practical or Auditing. During this period he may study on his theory instead.

SENIOR SHSBC

The Senior SHSBC has been overhauled so that the students achieve Class VI skills in the best possible manner. It's on the Senior SHSBC that real professionals are made that can audit all types of auditing actions with ease and are true experts in the handling of Prepared Lists, Interiorization Rundown, Confessionals, Co-Audit Supervision. Very high Class VI standards must be met on these actions before Class VI Auditors are allowed to graduate.

The coaching and drilling is tough and it is demanded of a Class VI student that he gain real competence in handling preclears expertly with standard application of tech before he is allowed to graduate.

When the student routes onto the Senior SHSBC, he gets a consultation by the Saint Hill Specialist. If the material has been studied previously, any areas of Misunderstoods are located and the student gets a program which includes cleaning up all Misunderstoods on the materials as the first action, reviewing the materials and drilling and auditing during his practical time. The auditing consists of PTS Handling, Confessionals, Prepared Lists, and wordclearing.

TAPE COVERAGE OF TECHNOLOGY

by L. Ron Hubbard

Due to certain pressures in the world at the end of 1962, I deemed it advisable to speed up research as a means of handling developing situations.

This activity proved fruitful beyond any expectations for the period devoted to it.

To increase an already burdened personal time schedule was not without repercussion. It was in the first place impossible to crowd more action into the crowded hours but somehow I did so. I cut out all social engagements, almost all appointments and even reduced time spent talking to students. I cancelled all lecture appearances abroad. I let my cars and motorcycles rust and my cameras gather dust. I kept Mary Sue up all night auditing or being audited. And somehow, through the devotion of staff, everywhere, kept the show on the road and handled the legal front also.

The stepped up schedule period has not ended but the golden knowledge has been gathered in and *all targets hoped for* have been *exceeded.*

This period has also been hard on staff, students and all Scientologists due to shifting technology.

One of the ways of reducing research time is omitting written records. Therefore I have relied on the Saint Hill Course Lecture tapes to bear the burden of collecting the data together.

On these tapes over a certain period we have a full record of the *results* of this stepped up period of research.

What one is greeted with, in listening to these tapes, is a whole new clarification of Scientology including breaking it into progressive classes or levels of data.

Hardly any HCO Bulletins mirror this period. It is all on tapes.

Revised SHSBC now offered at ASHO

continued from page 3

The student must pass a TV Demonstration on auditing Prepared Lists to graduate from the Class VI Course.

FORMAT

The Senior SHSBC is now in the best format for the student to get a real understanding of the various Rundowns which have been developed since 1970. All the materials on PTS Handling are done as one check-sheet which is one section of the Senior SHSBC, all the materials on Confessionals are together in one section of the Senior SHSBC, and so on.

It's on the Senior SHSBC that an auditor really becomes an expert on the Class VI skills of handling Prepared Lists and the various Rundowns since 1970. The student gets drilled on these materials and is made to audit them until he can do so with ease and can handle any case. The Senior SHSBC is an extremely important course as it's where an Auditor learns all the skills to crack cases.

SCHEDULE

The schedule of the Senior SHSBC is the same as the schedule of the SHSBC.

CO-AUDITS

The emphasis of the SHSBC is on training real professional auditors.

Per HCO PL 12 November AD 12 PURPOSE OF THE SAINT HILL SPECIAL BRIEFING COURSE written by L. Ron Hubbard:

"Clearing the student is incidental to teaching the student.

"This to some degree is a shift of emphasis. It is made to reduce time spent on course.

"It is impractical to treat this course as an HGC as clearing can be done more easily off the course under less hurried conditions.

"Were we to turn Saint Hill into an HGC Scientology would bog down everywhere.

"I agree it is desirable to have a cleared auditor. It is also true that auditors' cases get in the way of auditing. It is also true that clearing can happen, is happening and will continue to happen without cleared auditors.

"At Saint Hill our responsibility is to train auditors.

"It is the students' responsibility during and after Saint Hill to get clear.

"By treating Saint Hill as an HGC, we could clear every student present. But also, by treating Saint Hill as an HGC we would bog down Scientology everywhere."

Although students can co-audit during their daily practical and auditing time, the concentration is on getting the student's skill in application up to Saint Hill standards.

A Post Graduate Co-Audit is set up as Unit G of the SHSBC which students can route onto after completing Class VI, to co-audit if they desire. It is recommended that anyone who plans a major co-audit and case handling wait until this point when he is fully trained.

A small fee is charged for the CSing and use of Saint Hill services.

SHSBC PRE-REQUISITES

1. Student Hat
2. HSDC
3. Class IV Provisional. May be omitted for Clears and above per HCO PL 11 December 1969.

Per HCO PL 11 Dec 69 TRAINING OF CLEARS, a Clear may do the SHSBC without previous Academy training. It has however, been long standing policy for anyone doing the SHSBC to be a qualified Dianetic Auditor, thus HSDC is required, even for Clears.

NO CASE REQUISITE NEEDED

No case requisite is needed for the SHSBC or Senior SHSBC.

CLASSIFICATION

Class V graduates are awarded the provisional certificate of Hubbard Validated Auditor.

Graduates of the Class VI Course are awarded the provisional certificate of Hubbard Senior Scientologist. The Class VI Auditor is awarded full permanent HSS Certificate on successful completion of the Class VI Internship.

COURSE MATERIALS

Students are expected to provide or purchase their own E-Meters, worksheets, auditor report forms, pens, clocks, books, packs, dictionary, doll, etc.

CONCLUSION

Class VI auditors are very special and important people. They are highly skilled and trained on the full theory of Scientology Technology as developed when Ron was at Saint Hill.

The Briefing Course is a very rigorous course and has to maintain a very high level of standard to get its product of professional Class VI auditors.

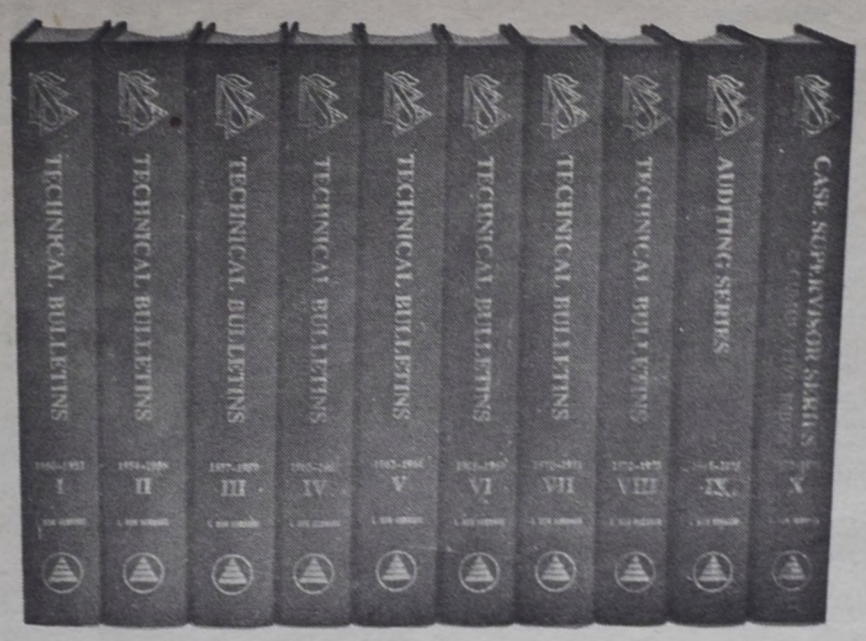

As Ron says in HCO PL 9 July 62 SPECIAL BRIEFING COURSE:

"This is a tough course. Only become upset if it is anything less than tough. A lot of future depends on it."

WHAT Questions does the Briefing Course Answer?

You have heard many people say the Saint Hill Special Briefing Course "answered their questions." "But," you may wonder, "what questions? Will the Briefing Course answer MY questions?"

To give you a taste of what answers are waiting for you on the Briefing Course, here is a list of just a FEW of the questions Ron answers on his famous Saint Hill Special Briefing Course:

What is the state of Clear really like?
What causes an artist to run out of ideas?
What causes a thetan to retain pictures?
What is self-auditing, and why doesn't it work?
What did Ron learn from his endocrine research at Oak Knoll Naval Hospital?
Why is Scientology expanding on an international, rather than national, basis?
What is the actual end phenomenon of a havingness process?
Why do so many listing questions began with the phrase "who or what"?
What do you do with a person who is threatening to commit suicide?
What causes lack of mass in study, and why does this turn on the physical sensation it does?
What is the cycle of insanity?
Why did a thetan mock up a bank?
What does it mean for an auditor to be "real" in session?
Why do you say "This is the session"?
Why do you do a preclear assessment sheet, how much detail do you get, and what is each section there for?
How must unexpected noises in a session be handled?
What causes aging?
How do you start a Scientology activity in a new area?
How do the purposes and goals of the individual relate to his aberrations?
Why does listing give case gain?
What is jealousy?
What do dark shadows under a preclear's eyes mean?
How can you help someone with advice that they can accept, follow, and get results with?
What makes a person slow?
What makes a Missed Withhold charged?
When traveling, should you carry your E-Meter on the plane with you or pack it?
What is the significance of a change in pc eye color?
When is it MOST important for the pc to receive the best auditing?
How do you keep an animal from attacking you?
Why is Prepchecking called prepchecking?
What causes a chain to become a chain?
Why is an instant read INSTANT?
What starts a pc drifting out of session?
Why do clay demos work?
What was society like when thetans had doll bodies instead of meat bodies?
Why do some people get Clear faster than others, and what can you do to get Clear faster?
How is the tech of "clearing" different from "releasing" done at lower levels?
What is the difference between a Clear and an OT and what must a being do to get to the higher states?
Why did Scientology start on this particular planet?
What is a free thetan and what got him trapped as he is today? Could this ever happen again?
What does an OT need to do to stay OT?
After an OT goes free, then what does he do?

There are, of course, hundreds more.

Truly, the SHSBC is not only the very best route to Clear and the OT levels, it is the ONLY way to have the knowledge to STAY Clear down the eons, and the ONLY way to achieve the full potential you expect of OT. These questions are answered on the SHSBC tapes, and they aren't answered fully ANYWHERE ELSE.

You owe it to yourself to learn the answers; you owe it to your preclears and associates to have the understanding to fully apply Scientology, the way Ron would, to help them.

Get YOUR questions answered. Get on Ron's Saint Hill Special Briefing Course at ASHO NOW!

GLEN JOHNSON delightedly starts up his next tape by Ron on the Saint Hill Special Briefing Course at ASHO.

SUCCESS ON THE SHSBC AT ASHO

The Briefing Course started as something to have, a course to do, a class of auditor to be.

It turned out to be the biggest single life changing experience I ever had. The data on the tapes cannot be found anywhere else. Ron audits you on those tapes. That is, you get the straight cognitions and development of the greatest technology ever created. I can now say I am an OPERATING thetan because I am now an OPERATING Scientologist.

Glenn Johnson

The theory of the Briefing Course has helped out my auditing enormously – it's a gas to know what to do in session based on understanding not rote. Auditing is more interesting. I see lots of classic examples of precisely what Ron was talking about on the tapes. Before the Briefing Course I saw lots of things I didn't understand. Now my attitude is, "I wonder what will come up in the next session – I can't wait," rather than "I hope this and that doesn't happen because if it does, I'm sunk!"

The tapes are like a really hot novel that you can't put down – yet each tape is a complete story in itself. So many times I've thought that just about everything there was to be said had been said in a tape, only to find the next one adding vast areas to what had just been covered. *Jim Burghorn*

The Briefing Course answers just about every question you ever had on money, people, flows, behavior, MEST, dynamics, and goals. What else is there? Well, your questions about that will be answered too! It looks like a long cycle but just do it because it contains the essential data of life. *Jo Plunkett*

I have made a lot of good personal changes in my life during Part One of the Briefing Course, and my auditing ability has come way up.

The data on this course is absolutely priceless! As good as gold or diamonds and far far more valuable and easy to carry around! *L. Douglas Holser*

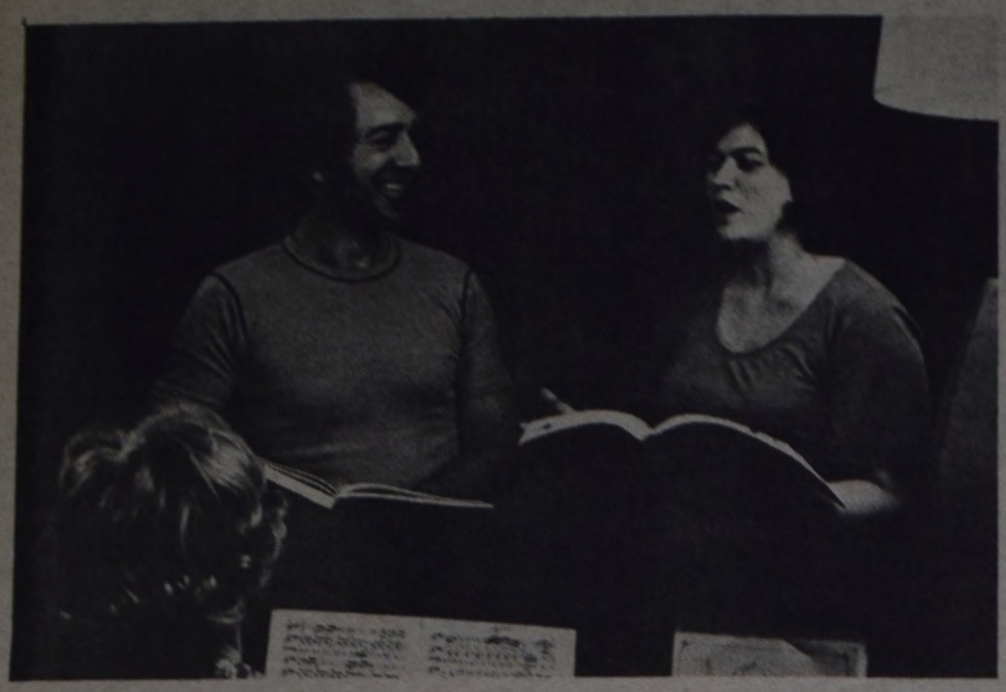

I realized being on course that auditing is actually an OT activity. When you audit another you are really operating on dynamics other than self.

There are totally fantastic, unbelievable gains to be had from Dianetic and Scientology auditing. I've had some! But also I am now beginning to see that moving up the training side of the Bridge is at least as big a series of wins. BOTH are vital to the rehabilitation and expansion of a being. *Karl Woodrow*

Since I have been on the Briefing Course my life and living have become remarkably easier. Regaining some of my OT abilities, I have completed year old cycles which didn't seem solvable before. Instead of just barely keeping up with present time needs I am now creating a good future for myself as well as for the rest of my family. My thanks to Ron for the data, to ASHO for the delivery of this course. *Antje Henderson*

With all the data I'm getting here on the Briefing Course I sometimes wonder how I ever audited as a Class IV. The tech is so good that someone can run a process without all the understanding. But what a difference it makes to run a process and have the understanding too! *Lyn Haffner*

NEWS FROM ARO

SHSBC student CAROLE BLUM practices with her students LARRY TOMPKINS and HALDORA SIGURDSEN (on piano) for her upcoming leading roles in *Barber of Seville* and *Rigoletto*.

Opera Singer Trains on Briefing Course at ASHO

Opera singer CAROLE BLUM has selected Saint Hill Special Briefing Course training at ASHO as the most important part of her preparation for an international career in classical music.

Carole found out about Scientology shortly after graduating from college (where she had been a music major), and she has been singing professionally and teaching voice ever since. However, she says, she never felt able to confront building the career she wanted in opera until the Briefing Course.

She has now played in 30 operas in Los Angeles, and is in rehearsal for 2 major operas for fall.

Briefing Course training banished her stage fright as well as raising her cause level. "The Briefing Course is about life – I apply everything I've learned to my singing as well as my auditing," she stresses. "Every artist should be a Class VI!"

After finishing her Class VI Internship, she plans to go abroad to pursue her operatic career while auditing other artists she meets on her way.

Businessman on SHSBC fulltime by using Scientology

If it weren't for Scientology, TED MARTIN of Colorado wouldn't have been able to get away from his business long enough to do the Briefing Course. But then, if it weren't for Scientology, he probably wouldn't still BE in business.

Ted's three dry cleaning plants were going downhill until he turned them around using Scientology policy. He put in statistics, hats, checksheets and packs for every post in the place in 1973 and his volume increased 25% the first year with the businesses being managed by his 21-year old son. Business has continued to increase each year since, despite the fact that the dry cleaning industry as a whole has showed a consistent yearly decline over the last decade.

Ted is especially proud of the fact that while most cleaning businesses require years of experience in training their employees, by applying Scientology training principles his businesses are able to train employees to HIGHER skill in 6 days!

With the businesses being managed by his son with L. Ron Hubbard's administrative tech, Ted and his wife Georgia were able to leave Colorado to do their Academy levels in Las Vegas. Ted is now full time on the Briefing Course at ASHO and his wife is coming out next month to ASHO for the Dianetics Course and SHSBC.

TED MARTIN, now a full time student on the Saint Hill Special Briefing Course at ASHO, works on practical drills.

A film clip of JOAN PRATHER, from the *Dianetics* TV Commericial shown on the recent Nixon-Frost interview seen by 3.4 million viewers in Los Angeles.

3.4 MILLION SEE DIANETICS AD

May 4, 1977, DIANETICS, THE MODERN SCIENCE OF MENTAL HEALTH made television and Dianetic history by co-sponsoring what turned out to be the highest rated TV program EVER to be shown on an independent station, the first Nixon-Frost Interview in Los Angeles.

It is estimated that approximately one third of the entire population of Los Angeles, or 3.4 million people, saw the *Dianetics* commercial on the show.

The commercial, which stresses world peace and eliminating the source of irrational behavior through *Dianetics*, is delivered by actress JOAN PRATHER FIDUCIA.

Even before this tremendous dissemination feat, almost double the number of copies of *Dianetics* over last year had already been sold in less than the first half of 1977. More than 2000 newly interested people had come in to Los Angeles area Churches and Missions as a result of the *Dianetics* campaign, prior to the airing of the *Dianetics* spot on the Nixon-Frost Interview.

With the remaining three Nixon-Frost Interviews also being co-sponsored by *Dianetics*, looks like Los Angeles is going to be the world's first Clear city!

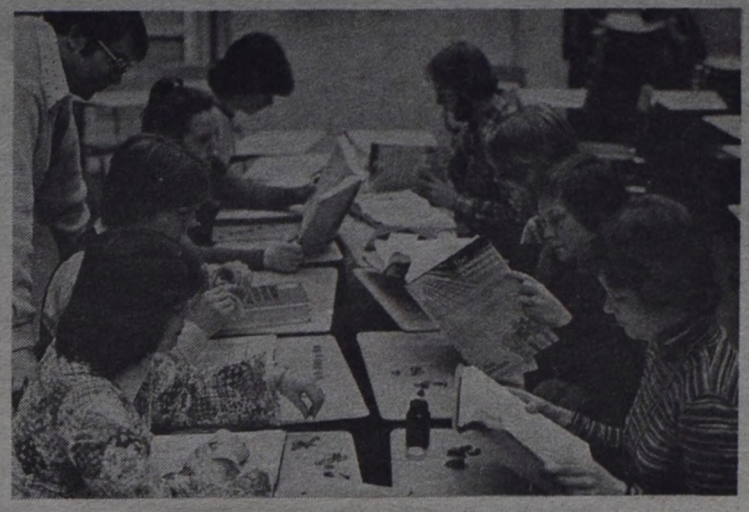

Group Leader Comes to ASHO

BETH FORDYCE, Clear No. 68, OT VI, and Scientology Minister since 1962, who leads the Applied Communications Group in Michigan, has just arrived at ASHO to start the Saint Hill Special Briefing Course.

Beth was awarded a Dean of Scientology degree by Ron in 1965 for her contribution in applying the *Book of Case Remedies*.

Her partner in the group, MICHAEL McGRATH, Grade IV Release, is an English Professor at the local Community College in Oakland, Michigan. Michael has had excellent results using basic data from L. Ron Hubbard in his regular classes, and he and Beth have started a very popular course on Ron's study tech at the school.

Fifteen members of the Applied Communications Group spontaneously set up a regular study group on Ron's new *Volunteer Minister's Handbook* shortly after it was released. About the book, Beth says "If earth had a catastrophe with only two or three people left, they could actually start a new civilization with that book alone! And what a fantastic civilization *that* would be!"

Volunteer Minister study group in Michigan: seated left, Debbie Ewers, Ken Johnson, Donna Dixon, Al Jett; seated right, Debbie Grobbel, Gail Brown, Andrew Rassi, Curt Johnson. Standing, Grade IV Michael McGrath. BETH FORDYCE, Leader of the group, is now on the Briefing Course at ASHO.

NEWS FROM ARC

Dianetic student John Perkins (left) gives accident victim successful touch assist. (Photo courtesy of The Arlington Advocate.)

Successful Assist

After being run over no less than three times, a fifteen year old boy from Cambridge, Massachusetts is in good condition today thanks to application of Ron's tech by Dianetic Course students JOHN PERKINS and ARTHUR ROBERTS!

The two students were driving home from course March 4th when Arthur saw someone get hit by a car in the heavy rain. He immediately pulled over. While they were running to the scene, a second car backed over the youth and in the confusion pulled forward, running him over again.

Arthur took control of the crowd while John started a touch assist on the boy who was lying in the road, in shock. John continued the assist, and the boy came out of his stupor before the Rescue Squad took him to the hospital half an hour later.

Twelve days after the accident, he was released in good condition with only a neck brace and, miraculously, no broken bones or serious injury.

Both students were grateful to have had the tech to handle the emergency, and plan to continue getting their training all the way up the Bridge.

Saint Hill Special Briefing Course student ANDY SZACH gives ASHO staff member a building tip during lunch break.

BUILDER TRIPLES INCOME; TRAINS TO CLASS IX AT ASHO

ANDY SZACH'S vastly increased energy level since Scientology has enabled him to triple his income and pursue his training full-time. He is now a student on the Saint Hill Special Briefing Course at ASHO.

Originally from Poland, Andy discovered Scientology in late 1968 after several years of searching through philosophy books for the meaning of life beyond the "nuts and bolts" of earning a living. He found *Science of Survival* by L. Ron Hubbard at the local library and realized this was the missing link! He sent for more books from Phoenix and was one of the first lecture attendees at a new center opening there. His interest growing all the time, he bought the full library of books by Ron and got audited to Grade IV.

Then the big decision came – whether or not to spend the bonds he had been saving, to go to Saint Hill (then the only place in the world for Power Processing and Clear). It seemed the more money he had accumulated in life the more personal and family trouble he had; so he packed up and went, completing up to OT VI in 6 months.

"I never made a better investment in my life," he reports. "I never *felt* better in my life!"

He immediately went into action when he came home. He finished the house he had left incomplete, having fun like never before. Soon he had five more houses under construction on the property all at the same time. His friends and family couldn't believe his energy level.

When OT VII came out in Los Angeles, he rushed to get it. Upon his return he finished up all five houses and immediately rented them all, tripling his income over what he had ever made before. "I could hardly believe it myself," he remembers. "Before Clear I could hardly finish the one house."

With a stable income for his family, he came out to ASHO for his dream of many years, to get trained all the way to the top and fill in all the data he had been missing.

"It's time for me to return the flow, which I couldn't do before. I want to become a very good auditor. That's why I signed up for training to Class IX at ASHO," he explains.

Class IV Auditor JIMMIE SPHEERIS (on piano at right) was one of the featured entertainers at the celebration of the 27th Anniversary of *DIANETICS* in Los Angeles.

27 YEARS OF DIANETICS

All over the world, Scientologists celebrated May 9, 1977, as the 27th Anniversary of L. Ron Hubbard's Best-seller, *Dianetics, the Modern Science of Mental Health.*

In a special message sent to all May 9 events, Ron said:

"Our first book, Dianetics, the Modern Science of Mental Health, is the Number One Best Seller on the Ingrams Bestseller List and it has been our best seller for twenty seven years. We celebrate tonight the book that has launched a new game on Earth, Dianetics and Scientology. This is the book that is changing our civilization. We are already the fastest growing new religion in the world and we have much to celebrate tonight. With your very valuable help in keeping Scientology Working our goals and purposes are assured. Thank you for your help and support in bringing about this major victory. You are very valuable to me and to the future civilization of this planet."

In Los Angeles, the crowd received an exciting, data-packed briefing on the story of the Dianetics book from its first days on the bestseller list in 1950 to its return to Number One this year, including a special screening of recent color television commercials for the book.

A special play of taped talk by Ron stressed the importance of each Scientologist getting trained up and doing his part to bring about a saner world.

Scientologists were introduced to the dynamic musical performance of Billy Newton Davis, Jr., from the hit musical "Bubbling Brown Sugar", and welcomed the songs of old-favorite, OT Jimmie Spheeris.

SEND IT IN AND MAKE IT A FACT

Focus on Success

WHAT IT MEANS to be an SHSBC Graduate

This has been the best year of my life for trillions of years. This planet is getting more and more solid – people are getting more and more withdrawn and charged up and upset and now as a Class VI it's clear to me how to reach them and loosen all the mass they are encased in. I've never been so valuable.

ASTRID NEAL

The whole Briefing Course cycle was the most unbelievable experience I've ever had. I'm a whole different being now, much better, much brighter and much bigger. I'd like to thank the Sea Org for being here and putting the Briefing Course here and I'd like to thank Ron for all he's done for me.

KEVIN McGREEN

The Briefing Course for me was the most rewarding and rigorous cycle I've ever done. It changed my life! Never before have I felt this responsible for myself and especially for those around me.

The knowledge and truth and workability of tech that is packed into this course are nowhere to be found anywhere else in any universe. I can now take a person who is hurting spiritually and give that person the assistance he needs to locate the causes of those sufferings and feel better and above all more self-determined and happy.

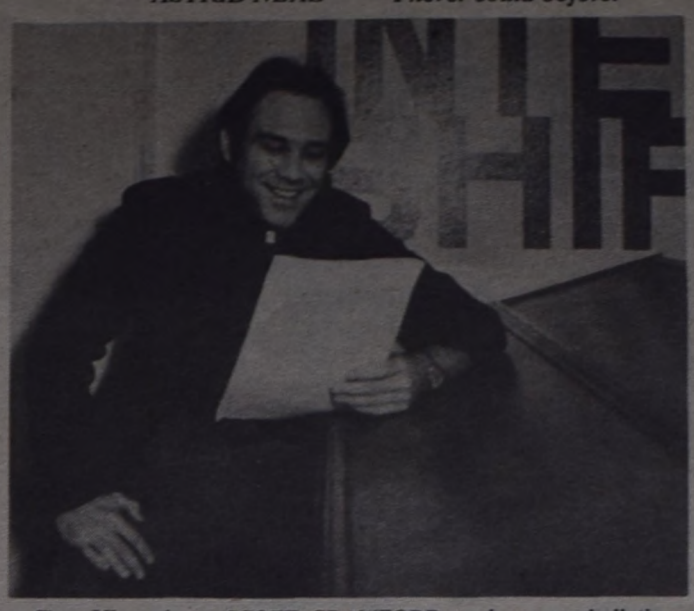

SCOTT CRAWFORD

After my Class VI Internship, I have the certainty that I can audit anyone on anything. Bring them to me and let me go!

Boy, do I have plans. I've already made the plans for auditing my brother, my sister, and two real close friends. This is all in addition to auditing my other preclears which I already have lined up.

I feel so tough. I know I could do anything and make it go right.

MARY JO SLATKIN

Class VI graduate SCOTT CRAWFORD reads a new bulletin just issued by Ron on his internship at ASHO.

Wow! I am a Hubbard Senior Scientologist, a Class VI Auditor! It is quite a state.

From Class V I really got to know Ron. I really became validated and smoothed out in my application of the tech. I honestly don't think there are any cases I can't understand and work to resolve, and attain results I never could before.

From Class VI I gained the ability to assist pcs who are in need of corrective assistance in their road up the Bridge. I learned what occurs when the tech isn't correctly applied and how to walk someone from wherever he has erroneously gotten on the Bridge to where he should be, and get the tech again correctly applied. I gained ability on this course, true ability that I can see and that I can and have used in handling individuals and life.

My questions have been answered. I feel I really can do the job Ron expects of me, and I will do the job competently and with certainty.

INGE McKEE

I have certainty on how to handle any being and bring him to a realization and new understanding. I can observe a situation and know at once the whys and wherefores and handle any outness with no comm lag. I feel a certain closeness and understanding with Ron. I feel I have some inkling of what he went through and why he went through it. I spent months pouring over data that changed my life, brought me into present time on the subject of Dianetics and Scientology, and filled me with a respect for every Scientologist on the planet. It's a fact that I never felt these things as a Class IV. I now feel I have unchanging, solid data behind me that I totally understand and apply every waking moment. I also feel a great responsibility for there aren't enough like me around! I'll never regret a single moment on it – I just keep winning. With all the data and application, how could I lose? *JULIE ROBINSON, now Class VIII*

POET'S CORNER

What did I ask for?
I did not ask to have you there
receiving the wrath
of my deepest confusion
nor did I even ask
you to listen
to the vilest treacheries
of my life
yet there you are
being listening
without reaction
guiding my pathway
to freedom
I did not ask
for so splendid an offering
from you –
nay even expected
to seek you or
find you or
have you even
near me
yet
there you reside kingly
mastering the reins
of an aberrated life
and guiding it to freedom
Nay did I ever even think
to see the day
when my ankles are grasped
by steadying hands
showing my dusty feet
the way along the path
and the eyes
I look down to see
are yours
did you ever expect
to see mine?
