FIRST CLEAR FROM SAINT HILL CLEARING COURSE

John McMaster, one of the original students on the Saint Hill Clearing course, on March 8, 1966 was checked out CLEAR by Anton James, Qualifications Secretary, Saint Hill and given the first Clear award issued on the basis of the modern gradation scale. This is a real Clear, no bank. Earlier "clears" were what we now call Releases. They were separated from their bank. Clearing consists of a total erasure of the entire Reactive Mind.

John McMaster began the Saint Hill Clearing Course on September 5, 1965 and completed his auditing on February 14, 1966.

There are 141 students on the Saint Hill Clearing Course at this time.

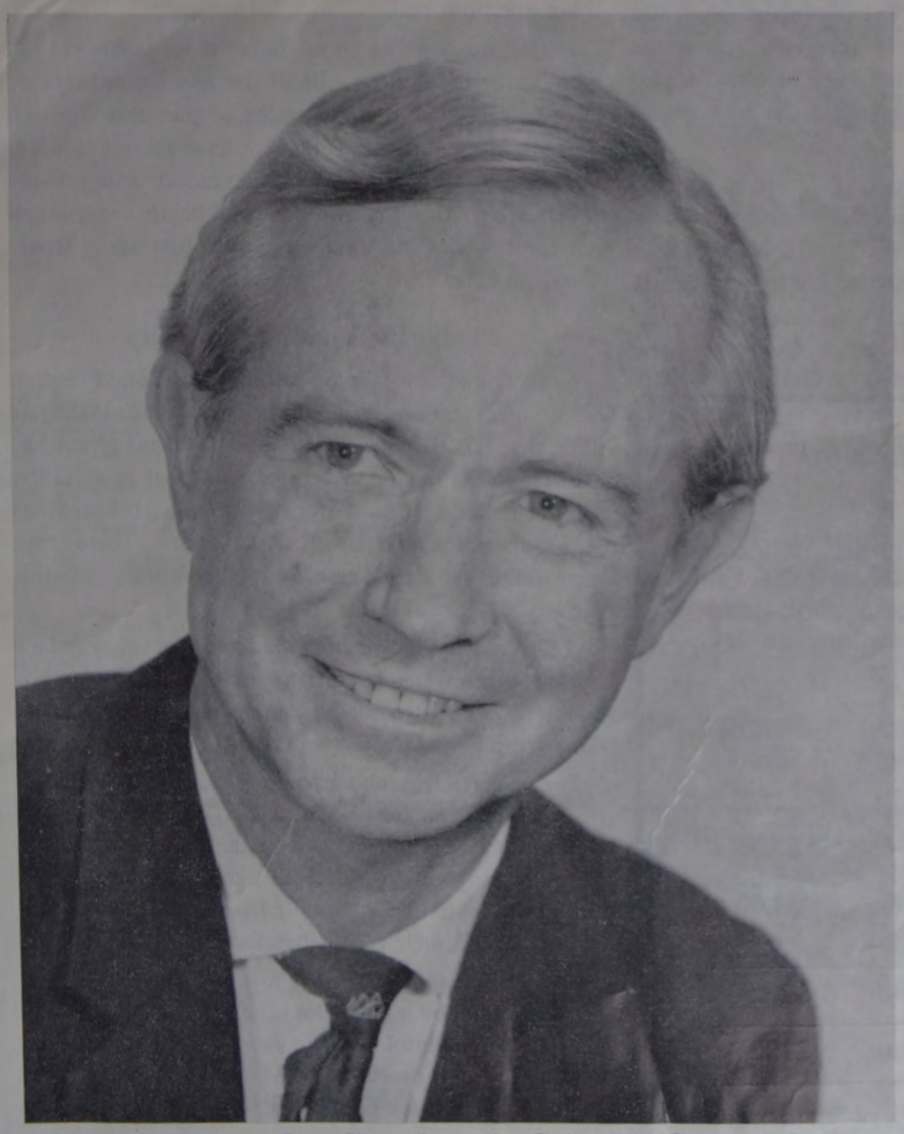

To give you some idea of what a Clear can do, John McMaster, in a recent visit to HASI London, raised its activities by half the very next week and doubled them the following week, all on the basis of a two-day visit as Org Exec Sec Communicator for Qualifications WW, a world-wide post which he holds at Saint Hill.

In relation to his clearing, John McMaster said: "I want to thank each one, and there are many, who helped me. It is a great privilege to have been able to follow the stepping stones paved in the wake of Time by such a man as L. Ron Hubbard, for although I have worked for it, I could never have realized it without the great gift he has given, not only to me, but all Mankind. And now, in the Spring of 1966, to flow with the sap, to burst with the buds, knowing that because of the Technology now available to man, I have been able to acknowledge fully each person who has contributed to the effortless freedom I now have.

"I want each Scientologist to know that it is with the individual agreement of each of you that it is now possible for me to be as I am.

"I thank you and wish this for you too, soon."

In commenting on this, Ron said: "This is a greater validation of Scientology than it might seem. I have never audited John McMaster. This was all done by other auditors and himself. He was a fine person to begin with, which made it easier. And he was excellently trained as an auditor. I am glad he made it. Given time, training and some hard work and they all will".

John McMaster—first Clear from the Saint Hill Clearing Course.

AMNESTY

Celebrating the First Real Clear made in the Saint Hill Clearing Course, a general Amnesty is ordered.

Any and all persons who have been dead filed or declared suppressive are included in this Amnesty providing they report to the HCO Area Secretary in their nearest organization and obtain a clearance from her and an auditing check in the Department of Review.

I have no wish to have any organization stand in anyone's way on the Road to Clear. The complete route is available and proven. It is time to settle all differences for the day of Total Freedom is here.

With this Amnesty I wish to thank from the bottom of my heart those who helped, and I wish to hold no rancor for those who in ignorance of what we sought, may have hindered us—the time is long over when we could be stopped.

All actions or intentions before this date are freely forgiven.

L. RON HUBBARD

March 13, 1966

CLEARING IS TOTAL FREEDOM

The ultimate weapon is Total Freedom. With the first Clear graduated from the Saint Hill Clearing Course, Total Freedom is a reality. In all the eons, apparently only we made it.

It is incredible that only 16 years have passed since the first book by L. Ron Hubbard, "Dianetics, The Modern Science of Mental Health" appeared in which Ron forecast the attainment of Clear and his capabilities. Those capabilities of a Clear were completely accurate, but they go much farther. A Clear, as we now know, is a far, far higher being than anyone ever hoped.

A big breakthrough was made last year when Ron aligned the Grades of Release. What, since the early days of Scientology, had been called a Clear was found in fact to be a Release. Clear lies above Release. Before, a Release was properly called a "keyed-out clear," which meant that the person was keyed-out from his bank. That is a Release. He still has a reactive mind but he's not in it. He is just released from it. A Clear has no reactive mind. He has totally erased it.

The reactive mind is now completely known territory. It contains false purposes that make people lose their own basic purpose. For all those years Releases were being made but so able is the state of Release that one believed it was a Clear.

It is hard for Man to grasp that these states exist. He has no literature about them really or any vocabulary for them. But they do exist and we have attained them today in Scientology.

The next step above Clear is O.T. (Operating Thetan). By "operating" is meant "able to act and handle things," and by "Thetan" is meant the spiritual being that is the basic self. "Theta" is Greek for thought or Life or the Spirit. An Operating Thetan then is one who can handle things without having to use a body or physical means. "Poltergeist" is a learned term for only one of the phenomena of this state. Basically one is oneself, can handle things and exist without physical support and assistance, being cause over matter, energy, space and time.

Man's relentless search

When one realizes that Man has never before had anything approaching a workable technology concerning the state of Release, let alone Clear, one can get some idea of what an incredible achievement this is.

Man has been trying to prove that he can be a higher being for thousands of years. The giants of Greek philosophy such as Aristotle, Euclid, Socrates, Thales, Heraclitus, Parmenides, Democritus, Pythagoras, Plato, Anaxagoras, Lucretius, had as their goal the understanding of the spirit of Man and his relationship to the universe. They considered that they had failed and so they had. Without the higher mathematics and electronics they could not prove that Man was a spirit clothed in flesh. They could only speculate upon it. Scientology has proved their speculations but more than that, has developed the technology to attain states of being far beyond their or any man's wildest dreams.

It was not until Scientology that the accuracy of the speculations of such philosophers as Parmenides could be proven. Parmenides said that "Being must be immune from change and timeless—beyond distinction of past, present and future". In Scientology we know how close to the whole truth Parmenides came.

In the East, Buddhism strove to prove the same thing and even attempted to achieve something akin to the state of Release through lengthy spiritual and physical exercises. In Tibet, for instance, they sometimes made a Release after 20 years of careful exercises, but it was not stable. Gautama Siddhartha Buddha discovered that he was not just a body but a spirit clothed in flesh. He was unable, however, to show others how to realize this and achieve higher states of existence.

Why Scientology is different

While Scientology follows the traditional search of philosophy, what makes Scientology different is the tremendous breakthrough in developing a technology that can attain what Man has for so long sought. That is what is new in Scientology. We have accomplished practically those goals Man has long considered good and desirable in the field of philosophy, and more.

At the beginning of our written history on this planet there was only one trace of workable knowledge that had been handed down from pre-historic times. This was contained in the Vedic hymns. The Vedic peoples are directly responsible for the principle known in Scientology as the Cycle of Action. The invaluable observation that birth proceeded into growth, that growth proceeded into decay and finally concluded with death, provided Scientology with its Create-Survive-Destroy curve. This principle extended to us from a religion, and although the Vedic hymns are religious hymns the material in them contains all that is to be found in the works of Charles Darwin and even in the works used today by nuclear physicists.

The next single most important philosophic advance within our history was accomplished by Gautama Sakyamuni. This work was part of a religion known as the Dharma. The Dharma, existing some time before the advent of Gautama Siddhartha Buddha, is a religion preached by individuals known as Buddhas. The Western world knows this as Buddhism and variously believes it to be a superstitious or idolatrous practice or believes that it was founded by a man named Buddha, none of which is true. A Buddha is simply one who has attained Bodhi. A Bodhi is "one who has attained an ideal state of intellectual and ethical perfection by purely physical means." There have been many Buddhas and there are expected to be many more.

Although the Dharma does not give and does not contain, as it is handed down to us, any real or workable methodology to accomplish the state of Bhodi, it cleaves very strongly to a scientific rationale which, coming to us from two and one-half millenia ago, is startling in view of the fact that it is more delineative, more exact, more comprehensive and more comprehensible than any and all psychological doctrine as known to us today.

The Dharma rose in an Asia enslaved by superstition, idolatry, cannibalism and slavery. But Gautama Buddha and his few followers spread their wisdom and teachings throughout India, China and Japan until two-thirds of the Earth's population had attained higher levels of wisdom. Spreading Westward, the Dharma came into the middle-East and there presented its message of "love thy neighbour", and general compassion for life. And the parables of Gautama Buddha were re-expressed with some differences and additions to spread Westward again as Christianity. And today, the entire Western civilization lies under the spell, if at a lower intellectual level, of the teachings of the Dharma.

Scientology has the answers

But none of these various philosophies or religions have been able to supply answers to those searching questions of man, such as "Who am I?" "Where do I come from?" "What is death?" "Is there a Hereafter?" At different times different answers have been put forward, but these answers have varied through the ages and race to race and this variation alone is the stumbling block which brings disbelief into faiths. Old religions fade because people no longer find their answers to those questions real.

In Scientology we now have those answers and because for the first time in all the ages the answers we have are truth and not half-truths, or guesses or theories, we have accomplished all that we have set out to do in attaining these higher states of existence and proving conclusively that man is an immortal being, a spirit, and not the thing of mud and only mud that many would like us to believe.

Total Freedom now a reality

Nothing can now stop Scientology, for Total Freedom has no qualifications, it cannot be curtailed. It is the one hope that has flared in Man's heart that no tyrant has ever completely extinguished. And now it is a reality. The technology so hard won by L. Ron Hubbard has passed its ultimate test with flying colors. There is no comparable accomplishment in the history of this planet.

A new day has dawned for Mankind that is beyond his wildest dreams. A completely new era of history is about to be written loud against the stars. And you, the Scientologists, will be writing it.

The suppressives and warmongers, the tyrants and their gestapos, have had their day. The only thing they could do to a Clear or O.T. is make him laugh. There is nothing anybody can do to a totally free being. It is indeed fortunate that the totally free being is ethical and decent beyond their comprehension for his powers are unlimited.

It is too late by a long shot now for anybody or anything to stop Scientology. We have succeeded in finding the way to Total Freedom for Man. The stars are ours and this planet, thank God, will never be the same again.

So don't stand there watching. Hurry up and join the crowd. We'd miss you.

Clearing Course

Clearing is Total Freedom and the road to Total Freedom is all ready and waiting. You just have to start walking it. It begins with processing through the Grades of Release to Grade IV and Academy training. Once you have an HCA (Hubbard Certified Auditor) certificate you can enrol on the Saint Hill Special Briefing Course and commence fast, easy gradient training all the way to Class VI Solo Auditing and the Clearing Course. It is not essential to have Power Processing (Grade V Release) before commencing the Special Briefing Course but it is recommended and is a requirement for enrolling on the Solo Audit Course. After training and Solo Auditing yourself to Grade VI Release you can commence the Clearing Course and Audit yourself to Clear. The Clearing Course takes only a few days at Saint Hill. After that your Solo Auditing is supervised by air mail and the materials issued as required. This is the sure, professional Road to Clear.

Provision has also been made for the untrained Scientologist. The preclear who attains Release Grades O to V need not stop. He can enrol on the Solo Audit Course to Grade VI release. While this gives no right or ability to audit others, it does allow the non-professional on to the Clearing Course.

If you are not en route already you had better hurry up and join the crowd. We'd miss you. Full details available from your local Organization or from the Advance Scheduling Registrar, Saint Hill Manor, East Grinstead, Sussex, England.

The Night of the Moon

The night of the moon,
I murmurered restlessly through trees and flowers
And followed moths in furry whimpering flight
And yet I stood remote and tall
Observing what I did,
And seeing the gradation of solidity.
I moved across the high flung sky
And wolverined with stars,
Caressed so whisperingly the things I loved.
Acknowledged you and you who came with me.
And in this night of the moon
I felt the touch of light
Upon my being
And did not stir
For cradled in that endless motion
I knew that I alone was still.
