Why Class VIII by L. Ron Hubbard

Some still look for magic buttons that resolve a case all at once. Some can't duplicate what they read and hear.

They need the broad body of knowledge.

BUT the actual application of Dianetics & Scientology today contains only a few dozen STANDARD INVARIABLE SIMPLE actions and processes.

When these are not used, when opinion enters, it's all gone.

STANDARD TECH ALONE RESOLVES ALL CASES.
No matter how bright, the **other** processes and new inventions of someone else (a) work only on a few and (b) are efforts to solve one's own case by auditing others.

To let Standard Tech go out is an act of Treason as Scientology then loses all meaning in an org.

This is why I'm teaching a Class VIII Course.

(excerpt from HCOB 28 Aug 68, OUT TECH)

CONFIDENTIAL TAPES RESTORED TO THE CLASS VIII COURSE FOR OT IIIs AND ABOVE

Plus a New Class VIII checksheet especially for students who are not yet OT IIIs.

NEW CLASS VIII CHECKSHEETS FROM LRH CREATE ENTHUSIASTIC AUDITORS WITH **TOTAL** CERTAINTY IN AUDITING

The Original Class VIII Course

by L. Ron Hubbard

In 1968 there were many advances, both technical and organizational. Possibly the biggest advance was the development of Class VIII auditing.

Class VIII, as many have since discovered, was a brand new breakthrough, not a cure. 100% gains attainable in minimal time. 100% with Class VIII means 100%.

By simplifying the application of Scientology processing I was able to teach auditors at a high level how to do what only I had been able to do with case supervision before that. This new system of simplified communication and procedure brought more gains faster. It reduced review necessities. It sent cases soaring. And it placed in every org a safeguard against technical difficulties.

Class VIII was a great advance. It was a new look in auditing. This was the primary tech achievement of 1968.

STANDARD TECH

Scientology processing today is made up only of those things which apply uniformly to all cases. Processing is made up of common denominators which apply to all life. There are no variables, there are no different cases, and this is a considerable achievement.

These exact processes must be exactly done to produce an exact result. It is like making pie. If you don't use the same ingredients the same way in each case why, you don't get PIE.

Now we call this Standard Tech.

If an auditor is to see it, then you really have to get him to do it exactly that way a few times. Suddenly he does see it, and by doing it, why he sees in the preclear that it IS the right way to do it. And after that he doesn't require any further persuasions. He has seen it. So it is true for him.

I doubt you could make any Class VIII-trained auditor do tech in any non-standard way. He has seen the fantastic precision of modern processes. He knows he can get results that way. And so he does it without any variation. He isn't doing it because I say so, he is doing it because it works. And he knows he can make pie. Not to compare you to a pie, of course.

STANDARD TECH means therefore the exact processes and auditing actions laid down and used for the invariable resolution of cases, taught and used without variation by all Scientology auditors.

The top auditor in this is a Class VIII. He is trained to a hair's breadth to exact planning and administering of auditing without variation from the optimum resolution of the case.

WHY CLASS VIII?

On Class VIII, Tech no longer is hopefully applied. Auditing is no longer gauged only against result. There is no more "auditing is what you get away with" at VIII.

A flawless, invariable administration of processes with flawless TRs, using ONLY the basics, is Class VIII.

The purpose is to administer Tech without variables, using only highly standardized processes and actions, using only flawless TR approach, all within the new Auditor's Code.

The impact of this action produces 100% results. It produces fantastically fast results. And it produces more result than has ever before been attained.

Using the Class VIII standard C/S approach there are **no** bogged cases.

The first thing a student on Class VIII has to learn is that there IS an exact right way to do auditing, an exact right way to solve cases.

If he grasps this, can do this, can select the correct VIII C/S and get it exactly applied, the result can be achieved.

It is too simple for many to grasp at once.

The ultimate comedy is a student who arrives at course offering "improvements." He is confessing that he's never applied Scientology straight and has **often** failed on pcs.

In Class VIII we bring the basics back in and reinforce them until the auditor will do them and **nothing** else.

From this we get a "magical" high velocity case gain curve upwards on **all** cases.

The beginning Class VIII auditor often has the idea that the **result** of the session is what he will be gauged by. This is NOT true. We **know** what the result of Standard Tech will be when flawlessly administered. We are not "waiting to see." We are not experimenting. There are no different or difficult PCs.

The student on VIII is gauged by the flawless handling of the session and his admin.

You see we know what Standard Tech does. It's up to the auditor to learn to be UNCOMPROMISINGLY STANDARD.

When we have brought about this frame of mind and standard rendition in the auditor we have made a Class VIII. Until we do, we have not.

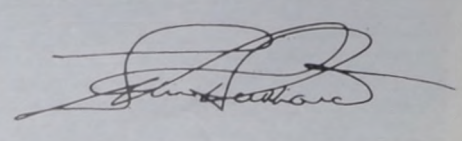

The purpose of the course, then, is to produce an uncompromising zealot for Standard Tech whose reality is such that he will not do or tolerate sloppy rendition.

This can be defeated by lousy beginning auditing on the course, by an incompetent Supervisor who invalidates the students' basics or by a C/S who fails to use Standard Tech C/S on a course.

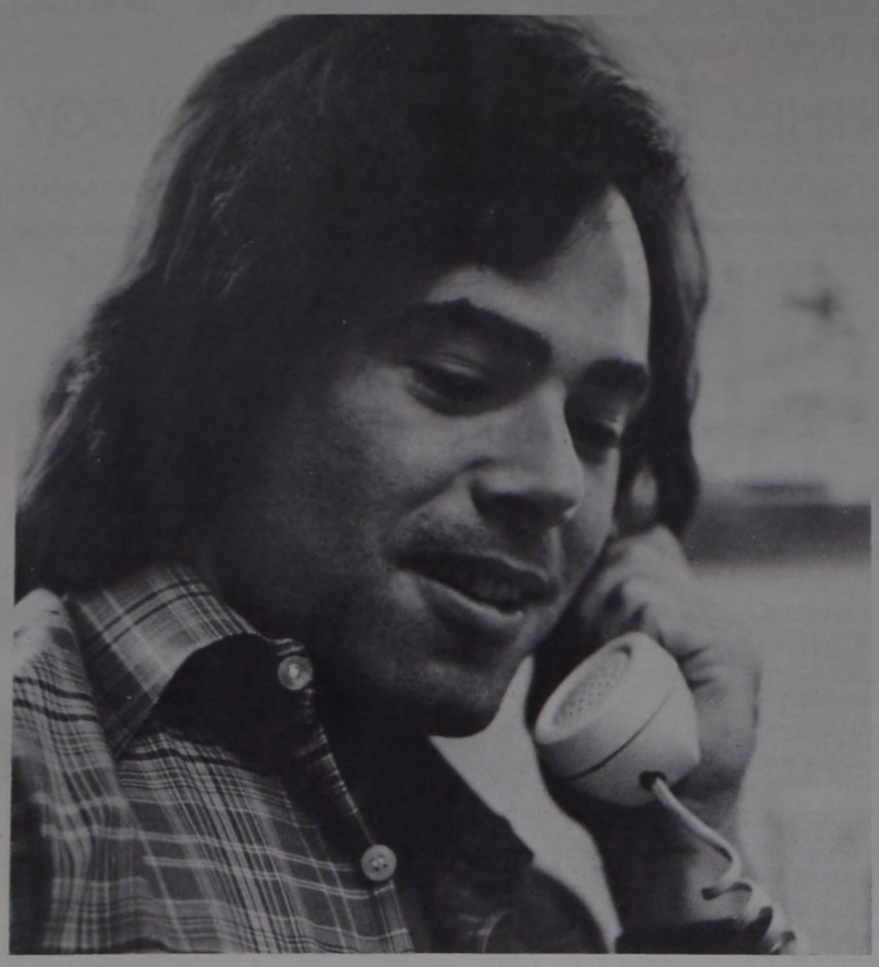

To throw a Class VIII Course out of line and defeat its purpose while supervising or C/Sing gives an automatic Treason assignment.

People who really **don't** understand it are in a muddle of confusion anyway. This blows off as basics go in. You just keep putting basics in and they get unconfused.

There **is** something here in Standard Tech. It is the exact Auditor's Code, the exact TRs, the exact processes, the 100% result. It can be learned, it can be done.

FSM NEWS

Richard Reich, star of "Secret of Flag Results" Top FSM at ASHO, Helping People Up The Bridge to Class VIII

Richard Reich has been an integral part of the ASHO scene for some months now, salvaging people, going on Tours and calling people into the org, in addition to his normal FSM activities. "What I like best about FSMing is helping people do what they already want to do.

"The training awards are great. With FSMing you're putting in a valuable exchange, and the FSM Program fully acknowledges your efforts with priceless training awards.

"Presently my wife is on the New SHSBC. This is something I now have to look forward to as a result of FSMing for ASHO. In fact, I'm going for ALL of my training by FSMing!

"It requires a full commitment - you can't be a dilettante about it. You simply get connected, get in comm with the Director of Clearing, get hatted, and go for it!"

Join ASHO as an FSM and help put people on the Bridge to Class VIII!

Raven de la Croix, AWARDED LEVELS OF THE BRIEFING COURSE SETS, SIGHTS FOR CLASS IX

Actress, Raven de la Croix is more than happy to be training at ASHO: "Since coming to ASHO, I feel I'm really connecting up with Source in a way I've never felt before!"

Vivacious, up-coming actress and disseminator, Raven de la Croix, is currently studying on the New Era Dianetics course at ASHO. Raven is a talented, native New Yorker. She has participated in many Scientology activities through the Guardian's Office, Narconon, Celebrity Center Los Angeles and the Flag Land Base.

In addition to this she has gotten nearly 200 people onto Scientology lines, and has recently been awarded the Public Relations Officer course at Celebrity Center Los Angeles and two levels of the Saint Hill Special Briefing Course at ASHO.

Raven has appeared in six motion pictures to date, made numerous radio and TV show appearances and performed roles in a number of plays. About how she has used Scientology tech in her career, she says, "Scientology makes it simple to communicate. The hardest thing there is to do in the business is to get an answer. It's real easy with TRs. You just get an answer."

One of the other major wins has been how Scientology helped rehabilitate my personal integrity. I say that because one of the most common outpoints is how the business acts as a "slave market" in a polished sort of way. But if one has personal ethics and integrity about himself and his goals and purposes and sticks to LRH's Code of Honor, people will eventually reach for him all over the place."

Raven wants to help revitalize the arts by helping contribute to the quality of communication. She plans to do this with Scientology Tech from her training at ASHO D.

"Since coming to ASHO, I feel I'm really connecting up with Source in a way I've never felt before." Ravens plans to train up to Class IX auditor and C/S so that she can better expand her abilities in performing and screenplay writing, and by personal communication to fellow artists in the field: having as a target helping them enhance their own personal integrity. With the tech training she wants to further one of her special interests of using Scientology admin and tech in counseling children.

"Anything you need to know to be an FSM is contained in the Volunteer Minister's Handbook by LRH. Basics, you know they're there! Other training helps but Ron has put out in that book alone the basics you really need to get somebody really moving."

AN OPEN LETTER TO ALL FSMs FROM RON

As a Field Staff Member you have the rewarding purpose of getting people into Scientology through disseminating. You do this by bringing about an understanding of what Scientology can do thus creating a desire for service.

Now, in order for you FSMs to achieve your purpose and obtain your product, you have to have a local org which has well-presented intro services and an adequate array of Department 17 courses.

Intro services are defined as immediate and fast, **free**, *one evening or ½ to 1 hour services. The successful ones are testing, intro tapes and lectures, information, introfilms, Personal Efficiency Intro Lecture and new book sales. These are for raw public, friends, etc., and are used to gain interest and involvement and to get sign-ups for Dept 17 services or even major services.*

Dept 17 paid services are those services which give the public What is needed and wanted to hande their ruins. They bring the public up to the **recognition** *that Scientology and Dianetics contain the data needed to handle life.*

I'm going to give you the steps that lead up to your need of org services and how you utilize them. It's a little program to follow and if you do these things plus apply the data you have obtained on the SPECIALIST FSM HAT, you will have guaranteed successes as an FSM.

1. You approach the individual.
2. Provide him with some kind of an introductory service.
2A. Alternate: Sell him a book.
3. Find his ruin on the spot.
4. Get him onto a Dept 17 course which will handle his ruin.
5. Collect the commission right then and there.
5A. Sell him a book.
6. Monitor his progress on his Dept 17 Courses and get him selected for a major service the minute he's ready for one.

An example routine that you would follow as an FSM would be to get the guy down to an intro lecture at your local org and then talk to him and find his ruin and then recommend him right on through a Dept 17 course, collect the commission for the Dept 17 course and then select him up the line - to other Dept 17 courses or a major service.

You must remember that you can always select for a major service or major training as your first option. You may very well encounter individuals who are ready for a major service, after reading a book for example.

FSMs ARE TO DEMAND ORG SERVICES

Now there's a point that must be made here. It is your hat as an FSM to demand these services from the org and it is the org's hat to supply you with the services you are demanding.

If the org doesn't have the course that your selectee needs, you have an alternative. LRH books. You should have a command of what books contain data which will help the person you are handling. You can always sell a book as an alternate because the data will always be in a book.

If you do this handling and a Dept 17 service is still called for, then you must recommend that the course he needs gets offered by the org. This is especially true if you find a particular ruin is coming up with your selectees and is becoming dominant.

If your org isn't providing you with intro and Dept 17 services then go to the org's Distribution Secretary or the Executive Director and tell him what is occurring and what you need. Remember also that you always have recourse through the SO 671 line, so if the org isn't delivering despite going to the above named execs then write to me and I will see that the scene is sorted out but fast!

A working Department 17 that is effective, efficient and upstat can save you endless hours of making sales talks and endless weeks of wasted time with prospects.

TEAM WORK

Intro services and Dept 17 courses are the answer to an FSM's prayers. They are part of your tools and activity.

As much as you need the orgs for these services, the orgs need you, as you're supplying them with their future and don't you let them forget it.

As a team, working towards expansion of Scientology, you can't help but prosper.

"YOU WILL PRODUCE 100%

"With man now equipped with weapons sufficient to destroy all mankind on Earth, the emergence of a new science capable of handling man is vital. Scientology is such a science. It was born in the same crucible as the atomic bomb. The basic intelligence of Scientology came from nuclear physics, higher mathematics and the understanding the ancients in the East. Scientology can and does do exactly what it says it can do. In Scientology Orgs and Missions world wide there are enormous file cabinets filled with thousands of case histories, fully validated and sworn to, which attest the scientific thoroughness of Scientology. With Scientology man can prevent insanity, criminality and war. It is for man to use. It is for the betterment of man. The primary race of Earth is now between one nation and another today. The only race that matters at this moment is the one being run between Scientology and the Atomic Bomb. The history of man, as has been said by well-known authorities, may well depend upon which one wins." — LRH

Within the last few years LRH has given Scientology a new set of checksheets for every auditor course needed to train to the highest level of survival. One of these is Class VIII. These checksheets are designed with improvements which reinforce the qualities of the original class VIII Course. In the stories that follow; the Class VIII staff members at ASHO-Day, current students of the Class VIII Course at ASHO-Day, and some recent graduates discuss their immediate feelings about how ASHOS Class VIII Courses GIVE YOU CERTAINTY OF THE TECH, and in what ways Class VIII training is help ing them move toward an uncompromising certainty in handling people.

Missy Shea basks in the Hollywood sun, shining all over with the special Beingness of having graduated the Class VIII Course at ASHO day. "For me, the Class VIII Course is comparable to doing OT III!.

Regardless of how much you've audited - or how good you are as a Class IV or Class VI - your viewpoint concerning the tech expands phenomenally on the Class VIII Course.

All cases are handable, and none seem uncomfortable.

For me, the Class VIII Course has been comparable to doing OT III - the same sort of gain in awareness that ends up in a totally new viewpoint.

The Confidential Tapes, **alone,** are worth doing the course for. They're incredible.

Basically - the tech seems very simple and easy now - more than ever before, and is a new way. □

Like when you have a cognition. Suddenly all the complexity that seemed to hold the package together is gone. You can see it so simply. Sometimes to the degree that it's almost laughable.

That's what Class VIII is. Suddenly you view the tech as something simple. No complexities. The course capsulizes all the data you've learned up thru Dianetics, Class IV and Class VI. The tech is no longer a sea of data. It's something you now have at your fingertips. It's totally useable to you and available to you.

Now what I've noticed this has done for me as far as auditing is concerned is real nice too. The simplicity of understanding the data has slid on over into the application. I find I now have no consideration on auditing any type of PC. Whereas before I did have reservations on certain cases. e.g. I asked to do a PC in the HGC. I decided to do it after taking certain considerations into account. And at that point I realized I said yes without even having looked at the folder yet. I didn't even know anything about the PC, yet I was willing to audit her. This was something I hadn't experienced before now. No worry about could I handle the case or not. I'm suddenly really fully believing Ron that there is no difficult case, only auditors who create their own difficulties.

These are the things I've been getting from the course.

I'm really getting the idea that I can be an upholder of Standard Tech, and it's a nice responsible feeling. I urge you to do the course too. □

MARIAN KUHNS

MARIAN KUHNS—
Recent ASHO-D Class VIII Graduate

Now that the Confidential material is back on the Class VIII Course, it's like a whole different course. You see a certain "look" on Class VIII students which comes from their knowledge of the purity of Standard Tech and also from a vastly increased understanding of what **exactly** is going on on this planet and **why.** The data of the Class VIII Course is essential for all auditors, all OT's and all beings residing on this planet. More than the importance of the data is the **experience** of getting that unshakable certainty on what the Tech is, why it is, what it is, how simple it is and why it is so simple.

Most beings desire to be more able and effective in what they are doing. The Class VIII Course is a major step in greatly increased effectiveness. Besides that, there are the fringe benefits—all the great cogs that come from aligning basic data. Students don't have cases, but you can't help getting case again on this course! The other day I heard a tape which had a great piece of Confidential data which I heard, duplicated and cognited on, and POW!

I pass that along as one of the **minor** wins of this tremendous course. The major ones have to do with becoming daily much more effective as an auditor, as a C/S and as a being.

Abounding thanks to LRH! □

IT IS QUITE IMPOSSIBLE TO GO OT WITHOUT FULL KNOWLEDGE OF OT PROCESSES AND AN ABILITY TO AUDIT THEM" — LRH

DAVID ALDRICH—Power Class VIII (Class VII-VIII) ASHO-D Director of Correction

A Class VIII Auditor learns to be uncompromisingly Standard in applying Ron's tech. The Class VIII course does put the basics in, in, in. The result is a totally unconfused individual. So just look at what this would do for you on all dynamics!

DON FREEDMAN—
ASHO-Class III Student

When I came onto the Class VIII course I didn't know what to expect really.

I had heard "There's a couple of tapes on the course that will blow your mind. I had seen many Class VIIIs since 1968. But I really had no idea what Class VIII was.

Incidentally, all of the tapes are mind blowers.

Well, I'm almost through the checksheet one time, and I know what Class VIII is all about now. In fact I knew as soon as I read the first HCOB.

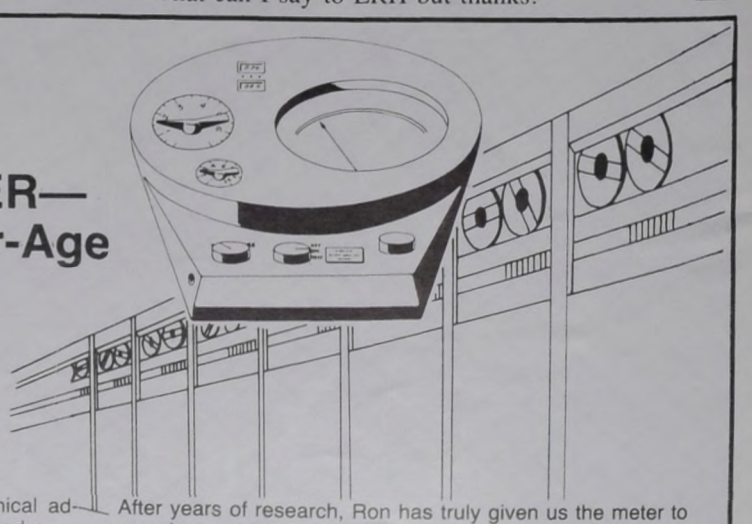

In one statement Class VIII is simplicity. The kind of simplicity that you have when you fully understand something.

IAN WAXLER—
Class VIII Student at ASHO-D

The Class VIII Course is **the** most intense experience of the Tech in my 11 years of studying Scientology. I **cannot** have a single day go by where I have not had incredible, **major** wins and incredible case gains. One of the amazing things I cogged on today while studying the early data on PTS/SP Tech was that it is very much a matter of KRC! My confront has come up to being willing to take more responsibility, and Voila! . . . my knowledge accordingly soars to stellar heights on the Tech. I have a Reality now on what it takes to **originate** such data and to be **fully** responsible for the Tech one must as near as possible be able to assume this **source viewpoint.**

What can I say to LRH but thanks. □

STANDARD TECH." -LRH

Healthy, outdoor beauty, mother of three, Myrna Jacobs, celebrates her last few days on the Class VIII Course by taking a bike break down Berendo. "I'm having so many cognitions regarding auditing and life! It's all so simple now!"

MARK DOBSON—
ASHO-D Class VIII Student

On the Class VIII Course Ron talks to you about the Tech like never before. I've learned a lot more about the OT Levels, and how they relate to lower-grade sessions. Ron really considers us VIP's, who will eventually go back to our Orgs or Missions to wear his hat of holding the area to Standard Tech. Meanwhile, I'm just totally flipped out about listening to my next tape.

There are so many spiritual phenomena that an OT needs to know about in order to be cause over them that makes training so essential. Once Ron has pointed out a particular phenomenon to you, it's no longer on automatic. It's now something you can look at. And he certainly points out to us some incredible phenomena on the Class VIII Course! □

TOBY CANTEEN—
ASHO-Days Class VIII F.E.S.er

My biggest win from the Class VIII course was cogniting on what standard means. It doesn't mean "perfect," it means applying the exact right action to get the result. And I **know** LRH's tech is the exact right action and I know LRH's tech. This applies to life as well as to auditing. It means **looking** and **seeing** the exact situation and being able to handle it. Thus, I realized **all** my life was Scientology, not just in the org, but in **everything** I do. Of course it is spontaneous, but the win isn't some **thing** I do sometimes—it is a way of thinking and being cause over life. □

JEFF YOUMANS—
Recent Class VIII Graduate

The Class VIII Course is great! There is one tape which alone is worth the whole price of the course. To have the Confidential data enables you to tie the upper grade chart into the lower grade and **radically** simplifies your understanding of the Bridge and what we are dealing with on the 4th Dynamic. We must all go OT as fast as possible for the sake of ourselves and the planet, and Standard Tech is not only the most A to B route but the ONLY route. On Class VIII you learn how very true "Keeping Scientology Working" is and the simplicity of viewpoint Ron desires for each of us in getting the job done. □

CAROL KINSLEY—
Class VIII Student at ASHO

Auditing as a Professional Auditor and a Class VIII is the most enjoyable activity I've done. The pride I feel and pleasure in giving that very well done session are well worth the time spent in training. Seeing the pc win, become more successful and drop the old barriers to life and happiness are valuable in anyone's book. And having the certainty, the simplicities of the basics to do that 100% of the time is a treasure. □

BARBARA RUBIO—
Class VIII Senior C/S at ASHO-D

I think one of the best ways to describe the Class VIII Course is "simplicity of Standard Tech." After doing the SHSBC you have a vast amount of data and knowledge of the mind, beings and this universe. The Class VIII course aligns all this data along the **exact** basics of technology. Standard Tech, winning preclears, and proud auditors producing the expected results uniformly with ease are what is achieved on this course.

100% STANDARD TECH. Additionally you acquire the confidential data no other course has. As Senior C/S ASHO-DAY, I am here to ensure you do gain the knowledge and experience of being 100% Standard. I do oversee each Class VIII auditor's auditing and give the final ok on their auditing requirements on the Class VIII Course. I am always open to any communication from the Class VIII students and am quite willing to ensure they do get whatever is necesssary to attain Class VIII.

I guarantee you there is **no** course like the Class VIII Course. DO IT. BECOME A ZEALOT OF STANDARD TECH! □

Why O.T.'s Must Be Trained by L. Ron Hubbard

This is a road to judgment. Nobody has ever bothered to teach judgment in the last 200 trillion years and you're not going to find much judgment in any bank you've got. If there'd been much judgment in it, you wouldn't have it as a bank. If a valence had been capable of enormous differentiation and judgment you wouldn't have it as an aberrated valence. This has been a scarcity on the track. So you have here in essence a new skill, and it's going to be very difficult to process it into somebody because they've never had it. Pure observation, study, duplication, comprehension or judgment have never been a study in the field of Philosophy. They just don't exist. There has been no road to judgment.

This is a judgment on the subject of another Being—the ability to understand what is going on in a session and operating with judgment so as to do the right thing about it. Do you know what bars you from judgment? It's just the not-knowness of it all.

The conclusion is that you can learn to have judgment. And the way you learn to have judgment is just these two steps - duplication of data and pursuant to that, understanding.

We therefore get the ability to observe. Judgment lies in that field.

We're not talking about a processing approach because there's nothing there to process to. Processing processes to what is there.

The data of Scientology is being used to develop in you judgment, and not only judgment on the subject of Scientology. You come up on the other side of the thing into a realization of it and you have the realization of it not because you've been taught it, but because you **realize** it. And this is what we know as "making it your data."

NEWS FROM ARO

CLASS VIII TONY HITCHMAN SPEAKS OUT FOR TRAINING

Tony Hitchman graduated from the SHSBC in 1976, and like most Class VIII's has SUPREME CONFIDENCE in his ability to handle any case. "As a direct result of the Class VIII Course I am sure I can handle any case and deliver Tech faster and deliver it in a straight forward way therefore faster. AND I can get results on anyone. Bar none."

Tony is a professional Auditor who is excelling in his field. "The Class VIII Course has helped me better get my valuable final product. Class VIII was a milestone. It is essential for those who want to audit, and even for those who want to live a satisfactory successful life. I have a greater understanding of life. I have an ability to look instead of think. I have a stronger viewpoint in life, of life itself and across all the eight dynamics. I'm more certain.

"You come out of the Briefing Course and you know how to audit. You're a good auditor and you have all this data and what happens is that the Class VIII Course crystallizes what you know and makes life itself and as an auditor much less effort.

"There are people that take the viewpoint that they will just sit in an auditing chair and be audited. In the long run, they are going to need the Tech to really survive well out there. Especially when it comes down to handling individuals. All of life consists of handling individuals in one form or another, whether you're a disc jockey or astronaut or salesman or business man or artist. Somewhere along the line. And The Briefing course gives you that fundamental training that is available nowhere else in the handling of people and life situations. It's like, the way I see it: you learn a lot of things in school but the one thing they don't teach you is about life. The teachers and the academies in the world do not understand life. But a trained Scientologist understands and knows life. And the way you gain this data is you do The Briefing Course. Then if you really want to top it off and have your cake and eat it why then you would do The Class VIII. **There's** something definite to be attained."

Richard Kiperman, Highly Successful Businessman States "Training As A Class VIII Gave Me Certainty To Operate As An OT"

The Class VIII Course beyond even the Briefing course made something so finally clear for me that it's absolutely Tone 40 - that is: anything that I decide I really want to accomplish, I can accomplish. It has firmed up abilities for me. It has made things achievable for me on a one to one basis, as far as things I wanted to do in life: what I wanted to accomplish, my goals —ALL OF THAT! The Class VIII course is beyond anything I have done in Scientology and it gave me the certainty to operate as an OT.

The training is worth literally its weight in gold. In terms of what a being can accomplish, it's much more valuable than its weight in gold. And I'm talking in terms of weight as far as the amount of energy expended to get through the training. It is absolutely negligible compared to the returns. It's quite incredible.

What Class VIII does is it allows a Thetan to be able to hold any point in space without being thrown off for any reason. Now that is just about the most valuable thing a Thetan can have: he does not get thrown off any point of view he takes: he does not have his space collapse. He **expands** from that point.

The way the Class VIII Course is related to my survival in the area of doingness is: whatever I choose to do I can get done. The barriers to survival are just not there with the training I've had from the Class VIII Course. From my point of view it is the elite course in Scientology as far as training is concerned. It is the elite Thetan course, it is sheer beauty.

In fact, in my opinion, if Briefing Course students do not take advantage of The Class VIII Course they are really ultimately betraying themselves. It **is** the culmination of Technical

Class VIII, Richard Kiperman, successful businessman, shares his expertise in applying 100% Standard Tech in Admin. "The Class VIII Course is beyond anything I have done in Scientology!

excellence and the actual codification of everything they've learned on the Briefing Course. It pushes the cognition to the final cognition of training. It's **the** basic on the chain as far as training. Because on the Class VIII you really have 100% certainty—you really can't get off the course without having a total working knowledge and understanding of the tech. Anyone finishing the BC has so much information—and what the Class VIII Course does is it fine tunes it to a **TOTAL** knowingness of how to actually go about applying that technology. There is really **nothing** that should deter the Briefing Course student from taking the Class VIII Course.

World Wide Expansion of Scientology Evidenced by Growing Academies!

"By equipping more and more Scientologists through Training, with brilliant workable technology, we are achieving our aims."—LRH

Around the world there is a tremendous hustle and bustle in the Churches of Scientology. If you pass the receptionist's desk following the sounds, you will be lead to the Academy! Scientologists are there getting trained and co-auditing up the Bridge. And a smooth Bridge it is! Never been smoother. Ron has streamlined the checksheets for all the Academy levels.

"I have long said that auditing is for use. With the technology and the skills of the auditor, applied to the preclear, we have the route to a saner civilization.

"Full application of what has been studied on Academy courses is vital."—LRH

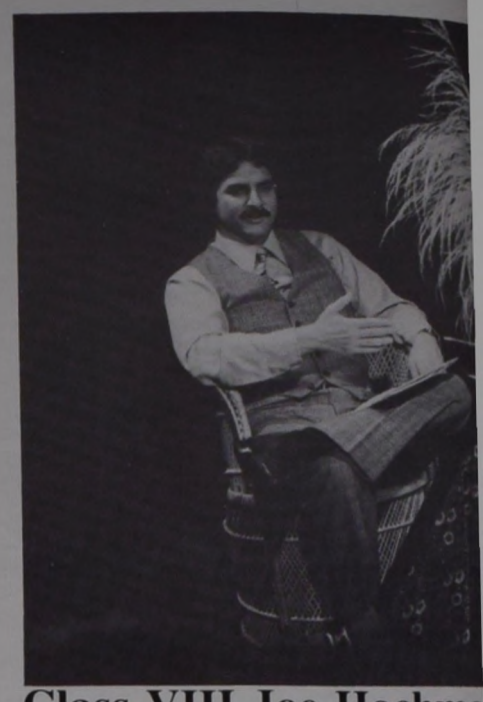

After the Academy Levels an internship is done then on to Saint Hill for the new SHSBC and Class VIII!

Training marks the boom of Scientology. With training and co-auditing everybody wins, and the discounts are **phenomenal.** People save thousands of dollars simply by following the Training Route to Clear and OT, helping each other up the Bridge.

Class VIII Joe Hochma Dianetics And Scientol

For little over two and a half months now Cl VIII Joe Hochman has been disseminating **Dianeti MSMH** and Scientology on his T.V. show: "H dling the Problems of Life." About his success says: Class VIII is a sort of State of Being, in ac tion to a doingness and havingness. Ron gives yo lot of his Beingness as a Class VIII. He gives you hat of keeping things Standard and seeing t Standard Tech goes in. It's a bigger hat than only Auditor or only a C/S.

Class VIII's who preserve their integrity as Cl VIII's survive very well. They all have a real n standard of living and their survival level is good

When you have the basics and the certainty y have as a Class VIII, then it makes it a lot easier accomplish other things. In this society and in h dling life, Class VIII is something that can't be d without. Of course people have been doing with the Class VIII Course for years, but they have been doing very well.

Some people forget that even in Admin, if y want to become very able as an Administrator should get trained as an Auditor too. Then you kn where people are at, and you can handle peop

What else are you handling besides people as an Administrator.

As a result of the Class VIII Course I can audit standardly and get excellent results on any PC and I know there are no unusual cases. Even Admin-wise there are no unusual cases. You do what Ron says and you get the result you are supposed to get.

Right now I have this T.V. Show going as a Volunteer Minister. I don't have any particular T.V. or radio or drama experience this lifetime but I have an ability to go in and do it. To be a really good disseminator you need to be a Class VIII, because as a Class VIII you know that there aren't any variables in the Tech and you know that the Tech works with incredible certainty.

On the Class VIII course you get an unwavering certainty that Tech works 100% of the time, if it's done right and if it didn't work it wasn't applied. It's a certainty of your own beingness and ability to cause effects. It makes you into an OT as an Auditor, in perception and in simplicity. It goes beyond the auditing chair. For instance, I decided to do this T.V. show and turned out a very professional product. It isn't that I have training as an actor but I have TR's, I have Class VIII Tech Training."

Mark V - The Workhorse
The second E-Meter for your Class VIII training!

Every Class VIII student and those on their way to Class VIII need the workhorse of a meter - the MarkV!

The Mark V with a newly groomed coat is the willing, high spirited E-Meter Class VIII have depended on for years. Beautifully oiled in a hard wood walnut case with new heavy duty TA counters, sealed foolproof switches, and long-lasting rechargeable batteries. It's the perfect second meter to the Mark VI for any Class VIII. "Real dependable - I have had a Mark V since 1968 - and it is a wonderful meter. Aesthetic - I do love it!" says Don Freedman, Class VII student.

Like a **sturdy, reliable** workhorse Class VIII auditors have come to trust the Mark V meter as their faithful second E meter, or their first meter.

Order your Mark V from the ASHO Day Bookstore TODAY, 1413 North Berendo Street, Los Angeles, Calif. - 90027

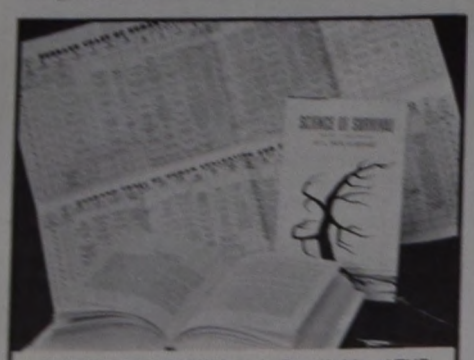

(If unavailable, order from the Church of Scientology, Publications Organization, 4833 Fountain Avenue, East Annex, Los Angeles, California 90029)

SCIENCE OF SURVIVAL by L. Ron Hubbard THE GREAT COMPANION TO **DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH** and a favorite of many Class VIII's.

Would you like to have a better feel for what is going on in a relationship? Are you able to look at people and situations and understand them? Do you have a friend who wants to relate better to people? The knowledge and know-how in **Science of Survival** has been used by trained Scientologists, many of them Class VIIIs, to attain more optimum survival.

"A fact which has been forgotten in this time of war and spiritual pestilence is that there have been times in man's history and pre-history when he has **succeeded.** It has not all been gloom and hopelessness, else we would not be here today - even as poorly as we are. Men have lived to conquer all other forms of life, from the mastodon to the microbe. Men have lived to build walls and roads and pyramids which have defied the elements for thousands of years. Men have lived to write music which has pleased the gods and lines which have made the angels sigh and the devil weep. This is the time for man to succeed again. Here is the word, the technology, the goal. The job is cut out: and its name is **Survive!**" - from **Science of Survival** by L. Ron Hubbard.

Focus On Success at ASHO

CLASS VIII SUCCESSES:
*This course was **GREAT!!** The materials of the course and particularly the recently reinstated confidential data has been a real life changer for me and the simplicity of Standard Tech and the tremendously **vital** job we have to do in getting the beings of this planet OT is a totally unshakeable viewpoint now!*

Thanks LRH and ASHO.

-Jeff Youmans

*I've just finished Class VIII. What a superb course. From the moment I started, I had an incredible shift of viewpoint on Standard Tech, and by the time I finished it, I could really see the **simplicity** of Standard Tech.*

That's all I can say.

*I **really** want to thank the ASHO Staff for putting the Class VIII Course here.*

Any Class VI should do it as his next step.

And Ron - thanks for the grades and the Class VIII Course.

Wendy Budlong

Writing a success story at this point seems somewhat impossible.

*This has been the **MOST FANTASTIC** cycle I have ever done in training or auditing.*

*The gains have been **mostly** in certainty, confront and simplicity of understanding (tons of wins).*

*I truly feel I am a **zealot** of standard tech.*

Thanks guys.

It has been incredible.

-Missy Shea

SHSBC SUCCESSES

*My viewpoint is that the advantages to training are infinite! When one is a Ned for OTS completion - the next obvious step is the training so you know what is going on in your environment and how to handle it. And on the Briefing Course you learn to become a professional so you're not doing things half-way. Plus the Class VIII Course makes you 100% Standard so - it aligns with the Grade Chart - both sides **in** - no case **plus** 100% Standard handling of others.*

Diana Zottola

I feel very OT and very smart for having the good sense to do the Briefing Course. It's another journey into terra incognita.

-Carolyn Bell Percy

I really enjoyed doing checksheet A of the SHSBC.

The road toward auditing success is more clearly defined than ever! You can't miss this time around!

Ron's still brilliantly making it simple and more effective.

Thanks to sups and coaches, and LRH.

-Frank Tanner.

Listening to Ron explain the mechanisms of the Bank's construction and watching as he bulldozes his way through it was very exciting. I literally got case gain on this part. I really know what it means when LRH says the fastest way up the Bridge is training. Goodbye circuits, machines, locks, secondaries, engrams, and no fare-thee-well!

-Howard English

It's really fascinating to see all the different requirements Ron devised to Clear someone; starting with a knowledge of the basic buttons on a case and attacking it from different aspects. My appetite for creating Clears has come way up with the Briefing Course. I guess that's a pretty basic Auditor's win!

-David Burns

Auditing allows you to find your freedom, and training makes it certain.

I loved the Briefing Course more than anything I have ever done.

Thanks to ASHO Staff, and of course, our incomparable LRH.

I've been helped, and I know it.

Marian McPhee

*The Briefing course was just tremendous - but after all those changes and wins, it's hard to describe the course, or even just Part VI because there's so much to it. I'm basically speechless. How do you describe Freedom? It's not Freedom **from,** but just Freedom as a Thetan. The course takes one to the other side of the Bridge - where you get dusted off and polished up. I'm a new Being!!*

Elizabeth Dannecker

Everything's super on the SHSBC. The tapes, the bulletins and especially the practical. Seeing a pc going to Qual and attesting is a thrill of a lifetime. May there be many more.

Fred Collins

This Briefing course is so fantastic.

*A person really getting what LRH puts out on this course will inevitably become one of the more able individuals **ever.***

Jim Ellingson

My certainty as an auditor has increased tenfold with SHSBC. Many thanks to a spot-on C/S and to my sups and especially to Ron.

I am very pleased, needless to say, with my product, and I am looking forward to producing many, many more of the same.

Mollie Espinosa

*I can't begin to communicate **all** of the wins I'm having doing the Briefing Course, but I can tell you about the more major ones.*

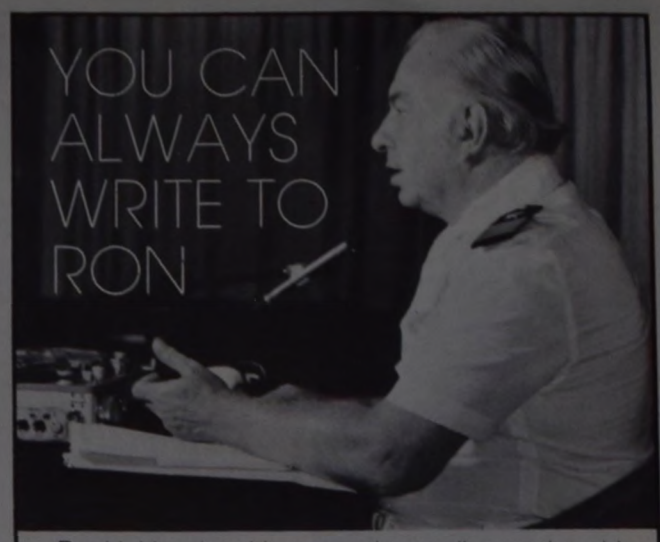

First, the Tech! This really is the road to O.T. After the DCSI, I felt like I had this brand new, bright shiny state but no know-how. On the SHSBC I am definitely getting hatted on how this universe works, and my control and responsibility levels are just taking off as a direct result.

*Secondly, the **Briefing Course** itself and ASHO! I have gone through enormous changes these past two months simply by being on course here at ASHO. The Briefing Course is the most incredible Third Dynamic activity I've ever experienced. My own case gain has been **huge.***

*Finally, **auditing** itself! What fun to know my TRs are in for good and what a pleasure it is to be responsible for my pc's gains. I'm totally blown out.*

Thanks to my sup, my twin, and especially LRH.

Janet Tashjian

SEE HOW RON DID IT. THIS IS DATA YOU CAN'T FIND ANYWHERE ELSE. BUY NOW.

LONGTIME CLASS VIII'S TELL ABOUT THEIR COMPLETE CERTAINTY IN HANDLING THINGS IN LIFE.

"It's not man's dreams that fail him; it is the lack of know-how required to bring those dreams into actuality."

—LRH

In the following stories some longtime Class VIII's talk to **The Auditor** journal about how they have benefitted from Class VIII training, how training actually relates to their daily survival. How it has directly and emphatically given them certainty to handle things in life.

Susan Salaman, Class VIII C/Sing OT's says "I'm proud to be a Class VIII. It just really takes you beyond the realm of 'student'!"

The Class VIII Course has enabled me to be really certain on my application of tech in both auditing and CSing. One thing which was really interesting on the course was that I felt really close to L.R.H. I felt the way the tapes were, he was talking to me as a terminal rather than as a student. It's different types of tapes. He's really expecting certain things out of Class VIII's and talking to you on these tapes, as a terminal. OT's definitely, definitely, should do Class VIII. You get to see a lot of LRH C/S Sessions, you get to follow the development of the Tech and all the things you can do. I'm not just talking about the confidential tapes. I'm very glad those tapes are back on but that's not the whole thing of the Class VIII course. You definitely need the data that the confidential tapes brought back, but the constant reminder of the application of Standard Tech, and being surrounded by new Tech developments and meeting a lot of LRH's C/S Sessions, doing lots of clay demos. It's a very fulfilling course and I think that OT's definitely need the data.

The data you are getting on the Class VIII course tops it all off. You have the Briefing Course which sort of leads up to the point where Standard Tech came in. Then you see how that's evolved. And it's very interesting, definitely something someone should go on to. I am very proud to be a Class VIII. It just takes you beyond the realm of being a student and into the professional realm. □

Roland Machary

From the moment I left the Class VIII course in 1970 until now, I am certain that I can audit perfectly. I achieved a level of understanding of all areas of endeavor in this universe. I did the original Class VIII course and it gave me a level of understanding of the mind that was just real simple.

The Class VIII makes tech really clear. And Ron gives data on those confidential tapes that, by the way, are nowhere else. He gives you a level of understanding in terms of basics combined with common sense. There are a couple of tapes on there that are about rudiments that are just totally incredible.

The things that you are getting on the VIII course are not just confidential data about the OT Levels. There's a lot of material that aligns lower level data that you don't get anywhere else. Plus it is a chance to hear Ron summing up basics.

The data on the Class VIII is your survival; it is the relationship of truth to survival. I wish it were more real to more OTs how necessary it is to do this course.

Class VIII Roland Machary is a natural comedian. As a member of the Screen Actors Guild, he is showing success and promise in the Hollywood Film Industry.

When you have a Being going up the OT Levels and his reach is increasing, that data becomes **vital** to him. It's not just something he learns in order to audit people well. That is not the whole basic purpose of training. That is **one** purpose from **one** viewpoint. But it is not exclusive of the purpose to enhance your survival and your ability to use what is now available to you from auditing. □

Jon and Vivian Zegel consider Class VIII training gave them the certainty of handling people and clearing the field as Auditor and C/S, respectfully, as well as giving them a special working relationship. A perfect right action!

"There are no unusual cases. The tech does work. I apply that, of course, on a daily basis in my work as a C/S; but I also apply that on a daily basis handling my kids, my neighbors and **all** the little cycles that make up **life.** As an OT the training **invaluable!!**," says Vivian.

Her husband Jon says:

"I can take on any case that comes before me and handle it to an expected result. What you've got is the ability to integrate large amounts of the Tech using the simple basics. In other words, you've got the Ethics Tech, Admin Tech and you've got the Auditing Tech. And the Class VIII Course helps to generate a perspective you can take a case and handle all aspects of it standardly.

"One of the things you get as a Class VIII is a lot of respect. It also gives you the ability to look at situations and work out standard solutions whether they are in business or family difficulties or other kinds of groups, or even personal problems. With me the Class VIII Course was the difference between being a full-time Scientologist to being a fully Professional Scientologist. So that has enhanced my survival quite a bit. I mean it has changed my income. It changed my entire way of life. So, the difference between being a Scientology follower and a Scientology leader.

"I'm playing a lot of admin games at the moment. The course is not specifically an admin course but with the basics that I learned on Class VIII, I can standardly apply the admin Tech.

"So, I'm using it in helping people with their business and doing some personal counseling like Admin Scales. Because I know how to study and apply materials to a 100% standard - whatever materials I am using, whether it's the instructions on the back of a can of paint or the Policy Letters from the HCOPL Series, I get the same 100% result.

"I don't see really how you could be fully OT without Class VIII. It's, how can I say it, even learning to apply your increased abilities to a 100% result, the materials on the Class VIII Course enhance your doing that." □

Carol Wilber - Mother, Supervisor

I know I could sit down with anyone and be totally relaxed, totally comfortable and know exactly what to do. This is a priceless win. I learned so much about thetans, the mind and all those things that I had not gotten anywhere else before, up to that time or since. What I have discovered in getting trained in Scientology, is that all the data is there for use in all areas of one's life. It's not just for session. That's a cognition that can occur over and over. You can always find new areas where the data that is in LRH's books and in the HCOB's can be used. Thetans are thetans and what enhanced a thetan and brings him up tone and gets him free is the training. All those things you learn about in Scientology courses are true, whether you're in session or out of session.

Personally I feel Class VIII is a necessity for OTs because when you have done Class VIII you've really got your hat on as an OT. There is no substitute for understanding what's going on. Everyone in Scientology and every OT should get trained, because, in my opinion, they'll be able to handle the freedom they're getting more easily. Every time I did a course there was always more to learn and something new to realize something new to put to use. Once you get into something like the Class VIII course where you really have to pull it all together, you get an exterior point of view. **Training** can give a person tremendous abilities in realizing his own OT-ness, just by understanding. And really understanding is **big** a senior item. □

Training is definitely, definitely, definitely a part of the route of OT. Definitely. This is something that is not 'nice' to be a part of. This is something that is a vital part of becoming OT.

HELLO RAINBOW
ARE YOU DIGGING A HOLE
IN THE MOUNTAIN
TO POUR YOUR COLORS IN?

HELLO DOG
DON'T BARK SO LOUD
YOU'LL KNOCK THEM ALL OFF

HELLO MUD FOOTPRINTS
WHEN THE KIDS LEAVE
DO YOU WALK AWAY?

THE HOPE OF MAN
by L. RON HUBBARD

This is a fantastic thing that today in this twentieth century, thousands of years of belief in the field of religion have materialized into an actuality which can be put into an effect rather easily by the average individual. We have at last brought this material into the category of practical. The oldest material Man has, hope, the spirit, has come to a culmination of being intensely practical. Now, let me say something about this word "religion."

You know that religion has a great many meanings. It has a great many different meanings. It can mean an enormous number of things. And where the public at large turns away from religion they don't really know what they are turning away from, but where they are turning away from it they are turning away from its impracticality and that's all they are turning away from. If you ask some avowed atheist, "Why are you mad-dogging on the subject of God? Why do you talk, talk, talk on the subject of God?" This man says, "Well, it started out when I was a little boy and I asked him for a new bicycle and he didn't give me one and my father beat me with the Bible." He's telling you what? He's telling you it didn't work.

CONTROL

Now there are two kinds of control. There's good control and there's bad control. I can show you a process which demonstrates that a total absence of control is sickness itself. A child who has no one in his vicinity to control him as much as he is controlling things is on a stuck flow. He is incapable then of proceeding. He gets upset. The total absence of control is itself sickness.

Without control, without moving particles, without being oneself moved, do you know that you would just float forever in a timeless void? So, there is something to control. But, the word control and control itself has been so badly done that control is almost a curse word. But there is good control. It would be a type of control where we had some agreement and knowledge of the goal to be attained. Do you see that? Some agreement and knowledge of the goal we were trying to reach. That would have to be there. It would have to be knowing. At least one party would have to know it very well, and both parties would have to know it somewhat for control to be functional. We would have to have an agreement of goals.

A POSITIVE DIRECTION

Scientology happens to contain within it today possibly the bulk of what is knowable in terms of theory, that is immediately knowable to anybody anywhere. But it contains in itself something else. It contains a positive direction, a positive goal and is itself committed along a certain path, and this is the first time that this has ever been committed along this path and is the principal thing I wish to announce. A postulate made by an awareness of awareness unit is a higher manifestation than any energy-space manifestation, a thing which would be news to a nuclear physicist, but which could be proven to him. It would probably make a very old man of him. Now we have that fact, that postulate. A thought is the most senior thing there is. It is senior to any and all masses because thoughts can handle masses.

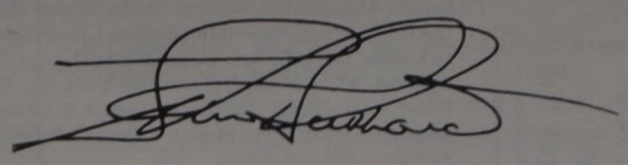

Now Scientology contains, then, a direction and it contains a goal, and the goal is simply a greater freedom for the individual, and when we say the individual we are talking about something as precise as an apple. We are not talking about a collection of behavior patterns which we all learned about in the study of rats. We are talking about something that is finite. We are talking about somebody. The somethingness that you are and the capabilities you can be and this is what we are talking about. We are not talking about the color of your hair or the length of your feet. We're talking about you and we know what we are talking about when we talk about you, and therefore, a greater freedom is indicated for this individual, you. Why? Because this individual, you, is today threatened by one of the greatest cataclysms Man has been called upon to face. He is threatened by a lot of bodies running around, evidently on total automatic, doing and planning interesting things for the demise of the race.

If we understand what we know — you know, that's an interesting thing, you have to understand what you know — if we understand what we know we can go a long way in assisting or mitigating the effect and onslaught on a society of weapons which exceed the imagination of any of us in their destructive power and which are going to cause on every hand a decline of the state of Man unless some of us know what we are talking about. And fortunately, right now, we do know what we are talking about. It will depend upon us to a very large degree whether Man will become an animal in earnest or will continue to be a spiritual being. Because, Man is today threatened by men who have become animals, who have no thought of any other thing than this. This work does not represent a revolt; it doesn't even vaguely represent a desire for the demise of any of these things. All it represents is the hope that Man again can find his own feet, can find himself in a very confused mechanistic society and can recover to himself some of the happiness, some of the sincerity, some of the love and kindness with which he was created, and if Man can do this and if we can help in any way to accomplish this, then all the years of my life and all the years of yours will have been well paid for, and none of us will have lived in vain.
