EXECUTIVE DIRECTIVE

from L. Ron Hubbard

TO: MY FRIENDS
FROM: RON
SUBJECT: THE SO#1 LINE

Church executives and staffs now run the Churches and such organizations. They have been very good about handling mail, even though I am no longer connected to the Church and it is not my legal address.

But the other day I suddenly noticed there were only two mail bags full for the week. I asked what this was all about and was informed that earlier, an unauthorized person, using my lines, had inferred I did not ever see your mail. I almost wept. What an awful ARC break to hand you! And for no valid reason! The person who did that now has blown - understandably. What an awful thing to do to you!

Don't think these lines are out - they aren't. I am always happy to receive communication from you as to how you are doing in Scientology and progressing on up the Bridge.

I love your letters and I would miss them.

I look on the SO #1 line as the only way I have of hearing from my friends. I am interested, man! Why else do you think I work so hard? YOU!

A man is as rich as he has friends - and that makes me the richest man in the world.

So don't get the idea you are not heard and are out of comm with me: It isn't true. You are heard. And appreciated.

Love
Ron

Tech and How to Get It In

by L.Ron Hubbard

The term "OUT TECH" means that Scientology is not being applied or is not being correctly applied. When Tech is IN we mean that Scientology is being applied and is being correctly applied. By TECH is meant *technology*, referring of course to the application of the precise scientific drills and processes of Scientology. *Technology* means the methods of application of an art or science as opposed to mere knowledge of the science or art itself. One could know all about the theory of motor cars and the science of building them and the art of designing them and still not be able to build, plan or drive one. The *practices* of building, planning or driving a motor car are quite distinct from the theory, science and art of motor cars.

An auditor is not just a Scientologist. He or she is one who *can apply* it. Thus the technology of Scientology is its actual application to oneself, a preclear or the situations one encounters in life.

Tech implies USE. There is a wide gap between mere knowledge and the application of that knowledge.

When we say tech is out, we might also say "While that unit or person may *know* all about Scientology, that person does not actually apply it."

A skilled auditor knows not only Scientology but how to *apply* the technology to self, pcs and life.

Many persons auditing have not yet crossed over from "knowing about" to "applying." Thus you see them fooling about with pcs. When a *skilled* auditor sees a critical pc he knows BANG—pc has a withhold and pulls it. That's because this auditor's tech is *in*. Meaning he knows what to do with his data.

Some other person, who *knows* a lot of Scientology, has had courses and all that, yet sees a critical pc and then tries to add up everything he knows about pcs and stumbles about and then decides it's a new thing that's wrong that's never been seen before.

What's the difference here? It's the difference between a person who knows but cannot apply and a skilled technician who can apply the knowledge.

Most golfers know that you have to keep your eye on the ball just before, during and after you hit it. That's the basic datum of powerful, long drives down the fairway. So if this is so well known then why do so few golfers do it? They have arrived at a point of *knowing* they must. They have not yet arrived at a point of being able to. Then their heads get so scrambled, seeing all their bad drives which *didn't* go down the fairway, that they buy rabbits feet or new clubs or study ballistics. In short, not being able to *do* it, they disperse and do something else.

All auditors go through this. All of them, once trained, *know* the right processes. Then they have to graduate up to *doing* the right processes.

Observation plays an enormous role in this. The auditor is so all thumbs with his meter and unfamiliar tools he has no time or attention to see what goes on with the pc. So for 15 years lots of auditors made releases *without ever noticing it*. They were so involved in knowing and so unskilled in applying, they never saw the ball go down the fairway for a 200 yard drive!

So they began to do something else and squirrel. There was the pc going release, but the auditor, unskilled as a technician for all his knowledge of the science never saw the auditing work even though even the auditing done that badly *did* work.

Continued on Page 2

Tech and How to Get It In (continued from page 1)

Do you get the point?

You have to know your tools *very very* well to see past them! An auditor who squirrels, who fools about with a pc, who fumbles around and seldom gets results just isn't sufficiently familiar with a session, its patter, his meter and the mind to see *past* them to the pc.

Drill overcomes this. The keynote of the skilled technician is that he is a product of practice. He has to know what he is trying to do and what elements he is handling. *Then* he can produce a result.

You can train somebody in all the data and not have an auditor. A real auditor has to be able to *apply* the data to the pc.

Importances play a huge part in this. I had a newly graduated darkroom photographic technician at work. It was pathetic to see the inability to apply important data. The virtues of ancient equipment and strange tricks to get seldom required effects were all at his fingertips. *But* he did not know that you wiped developer off your hands before loading fresh film. Consequently he ruined every picture taken with any film he loaded. He did not know you washed chemicals out of bottles before you put different chemicals in them. Yet he could quote by the yard formulas not in use for 50 years! He *knew* photography. He could not apply what he knew. Soon he was straying all over the place trying to find new developers and papers and new methods. Whereas all he had to do was learn how to wash his hands and dry them before handling new film.

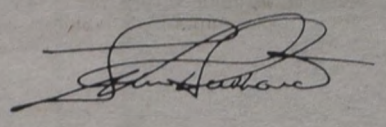

Alter-is and poor results do not really come from not-know. They come from can't-apply.

Drills, drills, drills and the continual repetition of the *important* data handle this condition of can't-apply. If you drill auditors hard and repeat often enough basic auditing facts, they eventually disentangle themselves and begin to do a job of application.

There is no "magic" touch in auditing like the psychiatrist believes. There is only skilled touch, using known data and applying it.

Until you have an auditor familiar with his tools, cases and results you don't have an auditor. You have a collected confusion of hope and despair rampant amongst non-stable data.

Study, drill and familiarity overcome these things. A skilled technician knows what gets results and gets them.

News From Around the World

In this marriage we see two powerful worlds: Sea Org expansion of Scientology Orgs and centres and the influential world of the music industry. That's quite a match. Congratulations John and Diana!
Diana Hubbard and John Ryan. Match of two worlds.

Hubbard Marriage

DIANA HUBBARD and JOHN RYAN were married in a private ceremony in Los Angeles on the 15th of March, 1982. They honeymooned a few days in Ireland.

DIANA is doing some 4th Dynamic projects in the Sea Org while doing public speaking events all over the world. In April she appeared with national press at a festival in Stockholm hosted by Anders Jansson of the Celebrity Centre there. In May she was in Switzerland at a major expansion event, sponsored by Hania Mrkos, which determined the future of Swiss Field auditors and the future of Yugoslavia and Czechoslovakia! Amsterdam and Frankfurt are her next events in June. "Sea Org expansion projects are very much part of my life. We're experiencing a tremendous amount of reach into society, better than ever," she reports.

JOHN is a dedicated NOTs Scientologist and one of the top 20 record producers in the USA. He's just finished a project with Carlos Santana. You can find John's records frequently on the hit charts. His list of many credits include *Styx, Allman Brothers, Pure Prairie League* and *Climax Blues Band*. He is a major force in the music industry today. Recently he brought into SCIENTOLOGY a top publisher in the music trade, Barry Fiedel. "As music is one of the biggest communication mediums in our society, it's always been my goal to bring sanity and SCIENTOLOGY to the music business. It's important and I feel I have been making some headway," says John.

Los Angeles School Run by Class VI

Los Angeles Apple School Director Sheila Rollins and Apple School students by a new building on the expanding Apple School campus.

Class VI Sheila Rollins is the Director of the Los Angeles Apple School. With a current enrollment of 290 students ages 3 to 19, Apple School uses many phases of LRH Tech and Policy in its operation and curricula. Students are trained in study tech, and the school stresses ethics and communication skills.

Twelve of the thirty Apple School staff are Briefing Course graduates and a number of these are Class VIIIs.

"I consider the Briefing Course the bulk of my training and without it I could not do this job," Sheila says. "Unless you understand people well enough and to a great depth and breadth you'd best not try to run a school. You have to understand people to work with people. Having every decision I make involve about a thousand people: kids, parents, staff, I just have to have a good understanding of people to be able to make intelligent decisions.

"The other facet is using LRH Tech in the school environment. Unless I'm fairly well versed in LRH Tech I've no business trying to put it in in any environment. There's my school- which is worse because you come in here trying to teach it to others. That's a big responsibility. I would not like to try to do this job if I were not a Class VI. I really wouldn't."

LRH Tech has enabled Apple School to overcome some of the major problems facing students and their parents in contemporary school systems. Sheila relates, "there have been kids who have come here, particularly high school students, who have been using drugs, and they've stopped just by virtue of being talked to and shown and having demoed and clay demoed what drugs are doing and how one feels after smoking those joints. Sometimes they'd say they quit and they would come here and later it would come off as a withhold that they had been smoking or using drugs and then with intelligent use of ethics materials they quit. And that's wonderful. I've had parents thanking us for getting their kids off of drugs."

One of the purposes of the Saint Hill Special Briefing Course as laid out by Ron, is to resolve education. Sheila and her staff use Briefing Course materials to directly address study problems: "A lot of students come to us in junior high and high school with great and mighty study ruins. It was very painful for them to go to school, very painful for them to study. Teaching them just the rudiments of the Basic Study Manual (based on the Briefing Course materials on study) has changed their lives because it's no longer painful to study. They decide to stay in school, and they sometimes go an extra year to get the stuff they missed before they came here.

"And there are kids who come here that can't talk very well and have very little communication skills. They do the TRs and the Basic Study Manual (and the kids are pretty good coaches with each other) and all of a sudden they are brighter and look better, they talk, they answer, they can talk to the teacher when they need to. It's nice!

"We've had a lot of wins on the older children who come here because of course we get them late in their educational program and you always notice it when you save somebody or really change them. We have a lot of people clamoring to get in in the junior high level.

"And the sports progams are nice. Ours are really good because our coaches are not violent, and they don't scream at the kids. They do locationals on the field before games. We do contact assists in practice. It's a little hard to do them during the games because other teams don't know what you want to do. People do notice at a game when a player gets hurt- ours or theirs- our stands immediately fall silent. Our cheerleaders quiet the crowd, and they think it's really nice. I've had parents of the other school say 'it's so nice that your people were quiet during my son's injury.' They understand that you should be quiet. They're always pleased."

Sheila offers this advice to anyone who hasn't done the Briefing Course: "you should do it. Don't put it off. I consider that a person would probably double their success in life by being a Briefing Course graduate, just because you know what's going on."

DEATHS:

Lori Wood Sherrill- She was right there in the forefront in many of Scientology's most ambitious projects. She was one of the earliest Sea Org members, having joined the Sea Project in 1967. She worked on "Mission Into Time" with LRH. She was one of the youngest Class VI Auditors and Clears. She was also personally awarded her OT Levels by LRH. She was an active and upstat Mission Holder, and in January of 1980 was officially appointed as one of Ron's Honorary Personal Public Relations Officers.

Don Freedman- A Class VIII Auditor, Don audited on staff at the Church of Scientology in New York and at ASHO for many years. As one of his many friends said, "He had one consuming passion, and one love that eclipsed all else. And that was the love of auditing. The point with him was caring. He really cared enough to do something."

John Totin- For thirteen years he put together the splendid files of LRH issues at Bridge Publications International, that are depended on and used so much. He valued highly the materials and always knew their importance. His products heavily assisted the expansion of Scientology over the years and the effects he created will continue to bear fruit for many years to come.

Leland "Doc" Wellington- Memorial services were held in the San Diego Church by the Rev. Betty Young.

Mark Redmond- He was much loved during a full and happy life. All his family, friends and Margy, his wife, wish him well. Get back into the game really soon, Mark.

Charles Allen- Founding Scientologist and Dianeticist since 1950. Charles was a Sea Org Member and a Founding Member of the Old Timers Club.

If it isn't announced in the AUDITOR, it didn't happen.

Send it in and make it a fact.

Focus on Success– on the Saint Hill Special Briefing Course

The Briefing Course data is great. To me it seems fully as valuable as the data on the OT Levels.

This course gives a greater understanding of the human condition and the manifestations of aberration and what it takes to handle both. The story of Ron's Bridge is quite an adventure and it is a privilege to follow this man's great quest and success.

-Kramina Kelly

Briefing Course graduates Pat Mason and James Marchand drill before going in session on their Interneships at ASHO.

Having completed the Briefing Course has made me feel like a rather grown up thetan. It's a nice label- Class VI, but what it actually means in terms of my personal gains and heightened abilites and the wins I am now able to give my PCs is nearly indescribable.

My perception of my environment and what's right and wrong with it has been greatly enhanced and the effects that I can and do create are more far-reaching. Knowing that I can handle just about any thetan's aberration is marvelous. What's really interesting is that I now get the most amazing wins voiced from PCs on what are considered very "simple" processes.

I hear a lot of talk about how so and so hasn't started the Briefing Course because it's such a *long* course. Actually, 1) it's not that long and 2) several months of wins isn't too difficult at all!

-Pat Mason

I am and live as a Class VI. This is the most incredible success I have ever seen. I went from the total bottom of complete failure as an auditor to the tops of the ranks and am a shining producing product.

I get the greatest results on PCs and have no doubt of doing it every time.

I have the ability to handle anything with communication. I feel I can now start to really really live life because I now understand it fully.

Really I had no reality on the B.C. of what it was and I know no one really has the reality on it until they actually do it.

LRH is my best friend and there are so many others who I can consider my best friends now also.

It's a total explosion of sunshine forever.

-Suzanne Crowley

I am not the same person who arrived at ASHO. All my dynamics are re-aligned and expanded.

I have learned an awful lot about myself, about LRH, about people. about the physical universe- and of course, about auditing. And it all has great value because all those areas can be compared to each other.

When I first arrived here I was ready to become a better auditor- and I certainly did. What I didn't expect was that I would be a different person. The wins of the BC are certainly not going to stop here because I have millions of pieces of data that I haven't had a chance to use yet.

My auditing is not very similar to what I used to consider "auditing". Where I used to "think" or even "guess"now I *know*. And that is one great feeling.

There is just too much to say about what has happened to me. May it happen to you.

-Ron Pratt

I have been on the Saint Hill Special Briefing Course for several weeks now. As a result of this I have already recieved an incredible educatiton in the basics of Scientology. There is a wealth of data on this course and of course that data being directly from LRH one gains and gains and then gains some more! There's not enough I can say about that! The course is laid out by LRH himself so that you do get the data, and with the excellent supervising here at ASHO, well you can't miss- you win. I'm winning with more and more confidence in myself and knowing that in a matterof months I will be a Professional Class VI Auditor!

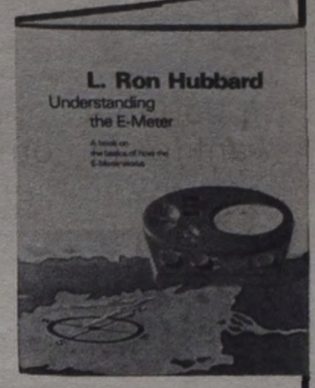

-Ron Reinig

Understanding the E-Meter™ by L. Ron Hubbard

Find you way to a new understanding of how the E-Meter operates– read this new book by L. Ron Hubbard, the most recent of Ron's books on to the Saint Hill Special Briefing Course Checksheet!

Understanding the E-Meter is an easy to understand guide that shows in illustrated steps exactly what causes the E-Meter to work, and what is going on between the pc, the bank and the meter. If you've ever used an E-Meter you'll want this book to answer your questions about the meter!
