The Big Auditing Problem

by L. Ron Hubbard

I will tell you at once the first and foremost factor, and that is, auditing does require a certain amount of stamina. It takes a certain amount of what it takes just to stay around Scientology—there is that, you see. It takes a certain amount of— to use a technical term— "guts." You know that. In the first place, the problem of living is complicated by the fact that you know what the other fellow is doing, and he doesn't. You go down to the bank and your communication is disturbed by the degree that you know the fellow behind the teller's window is a 1.5, the like of which you've never seen before, and he thinks he's just a good average human being doing a job, and you count your change more carefully than you would on some other bank teller.

Now there is a tremendous advantage in this. You don't walk around all the time in a figure-figure wondering what's wrong with you because you don't always get along invariably with other people uniformly well. Now you realize that the bulk of the human race is walkiing around with the belief that there is something wrong somewhere, but they don't quite know what it is and it worries them. Now when you get up to a degree where you have some idea of this worry, you are aware of the factors which exist, the fact that your awareness has increased is all in your favor.

One of the great truths of Scientology is that INCREASED AWARENESS IS THE ONLY FACTOR WHICH OFFERS ANY ROAD OUT. That is an awfully simple truth, but you'll find out that people don't know that. They think that LESS awareness is the road out—and that is the road down into the basement.

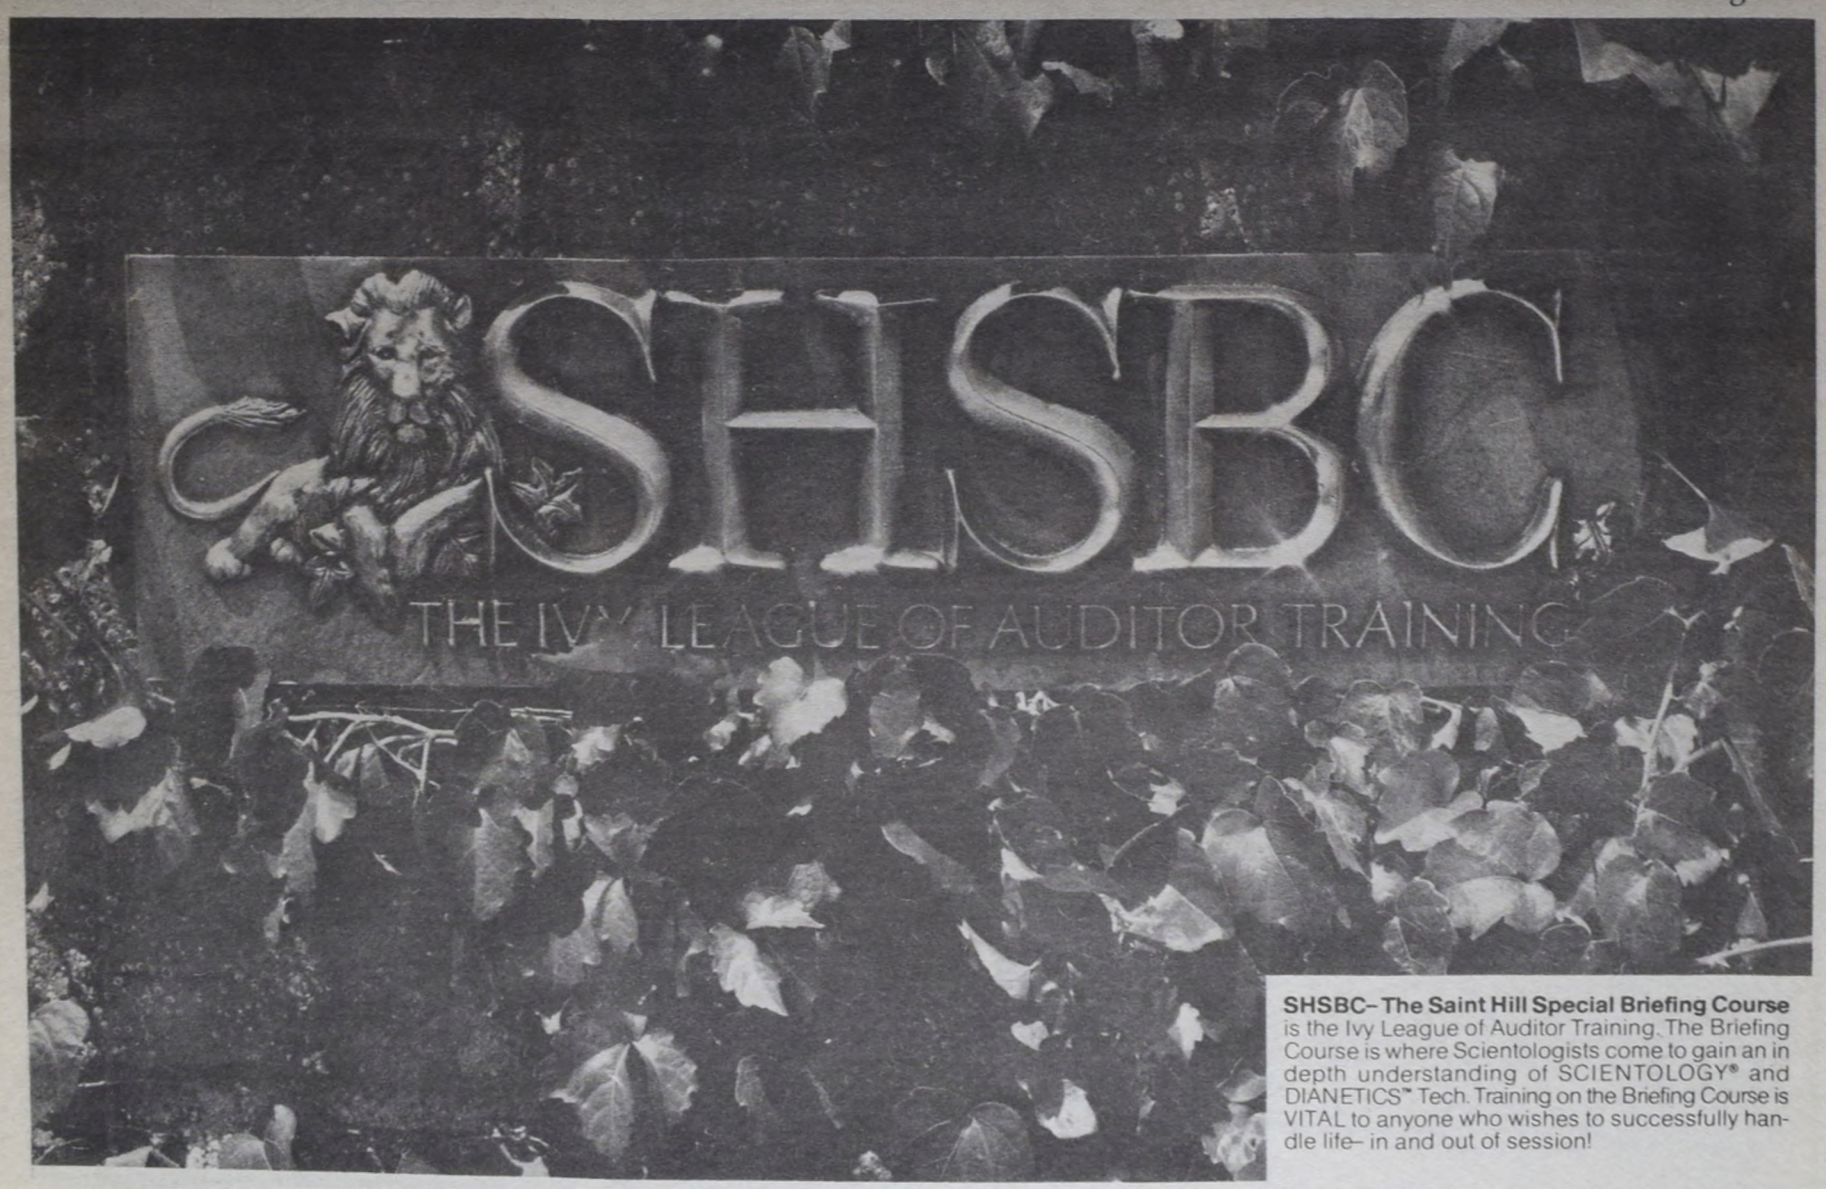

All right— you live in a world that is trying right now to commit suicide on the grandest scale it has ever attempted.

What happens to Scientology and Scientologists in a world of this character? What happens to us? Why should we know what we know and know it well, and so on? That's because your basic attitude toward the world at large will have to be more and more an auditor's attitude toward a preclear if you are going to accomplish any survival at all. To get anybody to do anything will probably require an auditor here in the near future.

I will give you an interesting example of this. If you can tell the difference between a lot of little kids you run into, and psychos, I'll give you a medal. Now the funny part of it is that little kids have something to hope for. They have the future to grow up into. And that's their only asset. Almost everything else is on the debit side of the column. Here is this poor devil who has been slugged, he's just lost a body, he's been put into a state of anxiety, here he's got another body, is it going to get along right or isn't it? He's got the hope that it will grow and that alone can carry him forward and color the world brightly for him, but at the same time he is suffering from death shock. And because he is suffering from death shock, he is coming along very timidly with his learning. Now that is the condition a little kid is in, and when you KNOW that a little kid is in that condition, boy! can you handle him! You don't label him with this omnipresent overused term "insane," or "psychotic," you don't do that. This person is having a terrible time trying to adjust himself to his environment and control a body which is suffering from many responses he does not understand, and he is at his wit's end. The delusions of children and death delusions are quite similar. When a person dies and starts to pull out of that body, he generally snaps in on himself a torrent of facsimiles of one kind or another. He has all sorts of weird things that go "boomp in the night" present themselves at that moment.

And very often you get a preclear who is suffering merely from the death shock. And he is psychotic, he's crazy, he doesn't know whether he is coming or going. Why? Because he's surrounded by things he cannot understand— and that is the common denominator of all lack of orientation, of all aberration. It's being surrounded by things you cannot understand. And a child, surrounded by these things he cannot understand, therefore can produce what we call childhood delusions. But I can't find any real difference between these childhood delusions and the delusions being suffered by a person about to die or a person in an asylum.

SHSBC– The Saint Hill Special Briefing Course is the Ivy League of Auditor Training. The Briefing Course is where Scientologists come to gain an in depth understanding of SCIENTOLOGY® and DIANETICS™ Tech. Training on the Briefing Course is VITAL to anyone who wishes to successfully handle life– in and out of session!

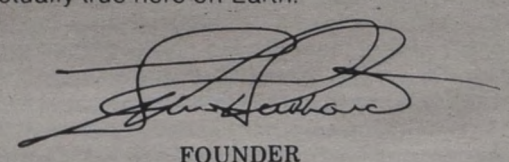

The Big Auditing Problem (continued from page 1)

When the kid gets worried, he's worried. Now who can handle him? Mamas and papas across the face of Earth today, particularly in America, have just about given up.

A child requires understanding and a child requires assistance in controlling the environment around him which is already too big, too strong, and is moving much too fast on him. He has to be set a good example of 8-C. I am not now talking about heavy discipline. I'll show you the shortness of discipline. How many people have told you to be a good boy or a good girl, and when you were a good boy and a good girl, they never came to you and said, "Thank you for being a good boy or a good girl."

There is a common lag on the executing of such an order as "Be good," or "Go to sleep," and there is never an auditor there to say "Thank you," never an auditor there to say "You did it." So life is finished with these tremendous numbers of unfinished cycles.

If one is bad, it gets acknowledged, confirmed and pushed around, but if he's good, it's sort of neglected. That is an interesting factor right there. But all I am telling you is that children, and now the entirety of this world in which we are living, present to us an auditing problem. We are rich in being able to understand what is happening in our environment and we are rich also in knowing exactly how to handle such a circumstance or condition. Nobody knew before. That is factually true here on Earth.

Expansion Wins!

The DIANETICS campaign roars on!

In 1950 a reviewer of *DIANETICS: Modern Science of Mental Health* wrote in the *New York Times*, "History has become a race between Dianetics and catastrophe. Dianetics will win if enough people are challenged, in time, to understand it." Today the biggest campaign in book publishing history is being launched to see that enough people *do* have the opportunity to read, understand and apply the incredible life-changing Tech Ron first released in *DIANETICS: Modern Science of Mental Health.*

The first leg of the campaign in Los Angeles is creating some tremendous results in booksales of *DIANETICS.* In one week recently over 775 books were sold over the phone to people responding to the campaign's radio ads! The Los Angeles Church's books sold to people new to DIANETICS and SCIENTOLOGY Tech has soared week after week and is now over 2,000 with no sign of stopping! *DIANETICA,* the Spanish edition of *DIANETICS,* is now number four on the Spanish best seller list in the LA area!

Backing up the advertising is a publicity campaign featuring numerous radio programs on *DIANETICS.* One program, featuring Mexican Book One Auditor Juan Antonio Zuloaga, is running regularly for 15 minutes a day, 5 days a week on a Spanish radio station in LA. Juan Antonio is already booked to do two additional one hour programs on DIANETICS.

Coming up in the LA campaign are seminars on *DIANETICS,* in both English and Spanish. These will be advertized on radio, in the newspapers, and each copy of *DIANETICS* will have a notice giving the time and place for seminars.

Also being put together is a large exhibit on DIANETICS to travel from shopping mall to shopping mall throughout the whole area. The exhibit will consist of several parts and will be spread out throughout the entire mall!

TV ads for the national campaign are going into production very soon. They are being done by a firm that has done commercials for Kodak, Century 21, and the Yellow Pages.

The publicist hired for the campaign has handled other famous authors, such as James Clavell, and Sidney Sheldon. She already has a history of best sellers to her credit.

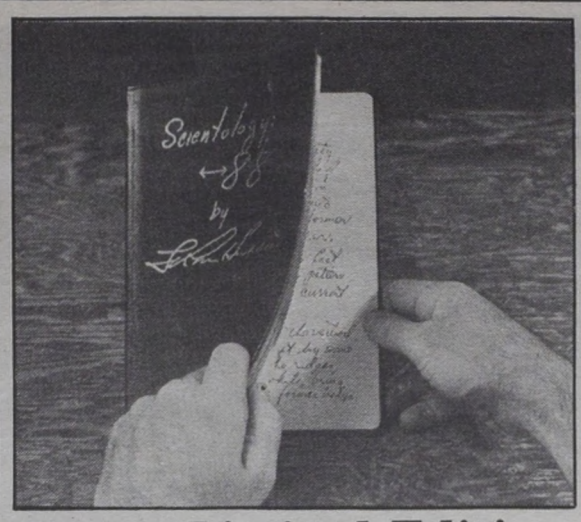

Right now celebrities are being lined up to do com-

Learning How to Handle Life: Success Stories from the Saint Hill Special Briefing Course

The mystery has gone away. I've become a stable terminal for friends and family and am seldom presented with a situation which I don't have the data to handle. It's totally real to me that training *is* 50% of the gains on the Bridge. The increase in certainty and cause level as one travels up the road from Level A

to Level F is a pleasure to experience. I'm so glad I've done this action.

–Pam Krauskopf, Level F student

Auditing others causes one to be interested– in the pc, in others, in life. So one observes more. And with all that one learns about the mind one actually sees more of what's there than the untrained. Training also puts a person at cause in those areas of life that are of interest to him or her. So it's very easy for me to create any effect I want to as a singer and as an auditor and a mother and wife, etc.

Every thetan on this planet deals with life on a daily, non-stop basis. Some are very causative about the game of life. Some are the effect. An auditor is not only causative in life but sees more of what's there because he confronts the mind and all of its complexities and doesn't even blink in the process.

–Carolyn Bell Percy

As (quite recently) an *untrained* Pre-OT already I'm understanding how and why 50% (at least) of the gains on the Bridge come from training.

My operations and accomplishments with groups is rapidly becoming more balanced and saner. My integrity

on all dynamics has moved into a whole new range because now I am getting the tools which just being a pc never gave me. As I read and duplicate the materials, the data goes into all my dynamics.

All of the things which I wanted before but never knew how to achieve– except by illusive postulates– are now, one by one, becoming achievable, because I am getting the "how to" for the doingness on all my dynamics.

By having the tools of doingness, survival is enhanced both for myself and those around me.

–Colleen Fehely

I'm really amazed at just how much easier life is getting since getting on the SHSBC. I'm a "New OT IV", OT Doctorate Course Grad who has never had auditor training prior to the BC. So this is quite an experience for me. It has really demonstrated to me why training is 50% of the gains. As an OT your awareness is way up– you know something's going on with this or that person. As a trained OT you know what to do!

–Ron Reinig

Even though I have read most of the books on the "B.C." before, it's different reading them chronologically and with the thoroughness (and demos) one gets on the B.C. somehow the Tech just seems to fall together more clearly and simply than it did before. I'm just reading along and all of a sudden someone I know will pop into my head as an example of what I'm reading. From this my understanding of this person increases and I know that I can get along with him or her better. For example while demoing out the 1.1 tone level on the "Chart of Human Evaluation" an old "friend" came to mind and I now understand how to handle him better and spot his tone level changes.

Also on the B.C. I finally got my TR0 and TR0 Bull Bait in, and I've notice that I don't have the back-off on facing and communicating with anyone I happen to see or meet on the street no matter who they are. It has also made it so much easier to really impinge and direct my communication so that I can have the effect I want.

Overall I'm finally really getting what Ron talks about when he says that without training a person's life is too enturbulated for him to make much progress to OT. I've gotten into various difficulties along the line which would

really have bogged me had I not known the Tech to handle them– especially ethics tech. I don't know how the untrained person gets along without this data.

The B.C. is the core and elegance of Scientology anyway you look at it and I'm sure glad I'm here.

–Mike Autore, Level A student

One Saturday I was looking for a kitchen gadget at a garage sale. The fellow said he had seen a quantity of them at a store, but he couldn't remember where. He thought and thought...

I had just studied straightwire in *Science of Survival*. So, I had him tell me what he was wearing when he was in the store. He did. Then immediately he gave me the directions to the store.

Boy, did he brighten up when he remembered that! It was nice to finish that cycle of action.

–Nancee Braan

Doing the Briefing Course has given me certainty I would never have had without it. I was OT III Expanded and had found that without the training data I would have a very hard time holding off the evil forces in the environment. As *Dianetics: The Modern Science of Mental Health* is the handbook of the mind, the Briefing Course is the handbook for handling the physical universe.

On starting the BC I merely wanted the data for myself. I'm now on the last section and I know I have to use the data, not only in life for myself but also by auditing others.

You start applying the tech almost immediately in your everyday circumstances and soon it is just "second nature" to do certain things so you don't really think about *how* you're applying the tech. it's just a way of life.

The Briefing Course is an absolute *must* for anyone wanting to be and operate as an OT in this universe.

–Esther Hebert

NEWS FROM AROUND

The World

Ron's new book— BATTLEFIELD EARTH

New LRH Novel Released!

Prepare for countdown! Ron's new book, *Battlefield Earth,* is about to blast off! Returning to the field of science fiction, Ron has written what may be the largest science fiction novel ever published (450,000 words!) to celebrate his 50th anniversary as a writer.

Battlefield Earth is an intergalactic adventure set in the year 3000 when only a few small bands of humans are left on Earth. The planet had been invaded a thousand years before by an alien race and humanity virtually erased so that the planet could be mined for precious ores to serve the alien's world.

Jonnie Goodboy Tyler decides to venture from the Rocky Mountains where his small tribe lives and descend into the valley to learn for himself about the superstitions and the tales of "giants" that haunt the valley (the alien Psychlos stand 8-10 feet tall).

Those unfamiliar with LRH's philosophy may find merely a fast paced adventure story– a work of "fiction".

Others will find a chilling parable of Man's plight.

Ron's new book has been promoted already at the US Festival, a giant rock and computer festival held near Los Angeles, and also at the 40th Annual International Science Fiction Convention in Chicago.

At the Science Fiction convention, called ChiCon IV, attendees were greeted on the way from the airport by a huge billboard with a picture of the book's hero, carrying the message, "L. RON HUBBARD'S Jonnie welcomes all Science Fiction fans to ChiCon IV". The billboard featured bright 20 foot neon rays streaming from Jonnie's blaster and attracted considerable interest in itself!

At the US Festival, a three day event attended by an estimated 200,000 people, there was a twelve foot replica of one of the book's chief alien villains, and several other characters from the book.

Also featured was the sound track that Ron wrote for his book, played on the Fairlight CMI (computer musical instrument). The music features natural sounds incorporated into the sound track, modified by the computer to blend in with the sounds of usual musical instruments, giving the music a very live impinging and exciting effect.

Battlefield Earth will be released on October 5th and will be available in Walden Books bookstores.

Jerry Watson in ASHO Reception on his way to the Saint Hill Special Briefing Course.

Class VI Persuades US Senate

Class IV, OT VII and Briefing Course student Jerry Watson keeps a tight schedule: in addition to his studies at ASHO he has a full time law practice in Dallas and is Executive Vice President of an insurance company in California. He uses the Tech to keep things expanding in his life, "I think it is really a marvelous thing about SCIENTOLOGY Tech that the Tech is totally adaptable to any social situation– it just fits wherever you are and what ever you're doing. You don't have to be sitting in an auditing chair, you don't have to be on course, you can be out there with non-Scientologists, even with people antagonistic to SCIENTOLOGY and it fits. It works out there just like it does down at ASHO."

In his law practice Jerry has dealt with legislators and has spoken more than once before the US Senate. On one of his recent journeys to Washington Jerry spoke to the Constitutional Committee of the Senate. "I was trying to swing them to my viewpoint on a certain issue concerning some bills that were going to be passed. The way they intended to pass the bills without what I considered necessary amendments would have had the effect, very clearly to me, of validating downstats. So in my presentation I talked to them about the danger of validating downstats and penalizing upstats and explained to them what the outcome of this had always been in any society, group, or individual.

"You know, it totally swung the thing! They accepted my amendments and the bill passed with my amendments!"

Jerry puts a high value on his SCIENTOLOGY training– "it's becoming very obvious to me that one can't survive without it. A guy is asking for trouble and cheating himself out of a *lot* if he doesn't get trained! Me using it in my insurance company, using it in my law practice, is like where the water hits the wheel– my application of it out there proves that the distinguishable fact about SCIENTOLOGY technology is that it works."

Project Tackles International Language Barriers

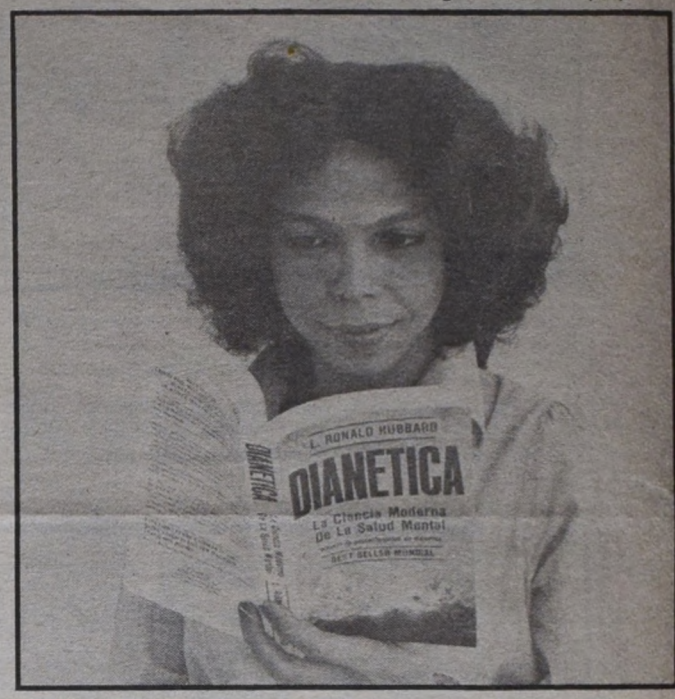

Clearing the planet *fast* means getting the people on the planet LRH Tech and getting them able to read and apply it. This is quite a task, considering that only a small part of the world's people are fluent in English, and literacy is a problem, recognized or not, all over the world. Some languages have no dictionaries for example, and the dictionaries of some languages are not up to SCIENTOLOGY standards!

An international SCIENTOLOGY project is being launched to handle these barriers to getting LRH Tech known and in use throughout the world.

The project is now collecting data internationally and keeping track of it on a computer, on existing translations, Scientologists who cacn do translations, and findings on what barriers exist to getting the Tech distributed, known and applied. The project is turning up some interesting facts. For instance, many translations have been located, in a total of 29 languages, ranging from Afrikaans (a language of South Africa) to Urdu (a language of Pakistan and India). All in all about *300* translations have been catalogued so far!

And of course translations are just a small point of handling language barriers. The project is also setting up steps to handle any barriers that might exist to getting SCIENTOLOGY Tech understood anywhere on the planet, including handling illiteracy, lack of dictionaires, etc.

Keep reading The Auditor for more news on this exciting international project.

Class VI Leads Law School Class

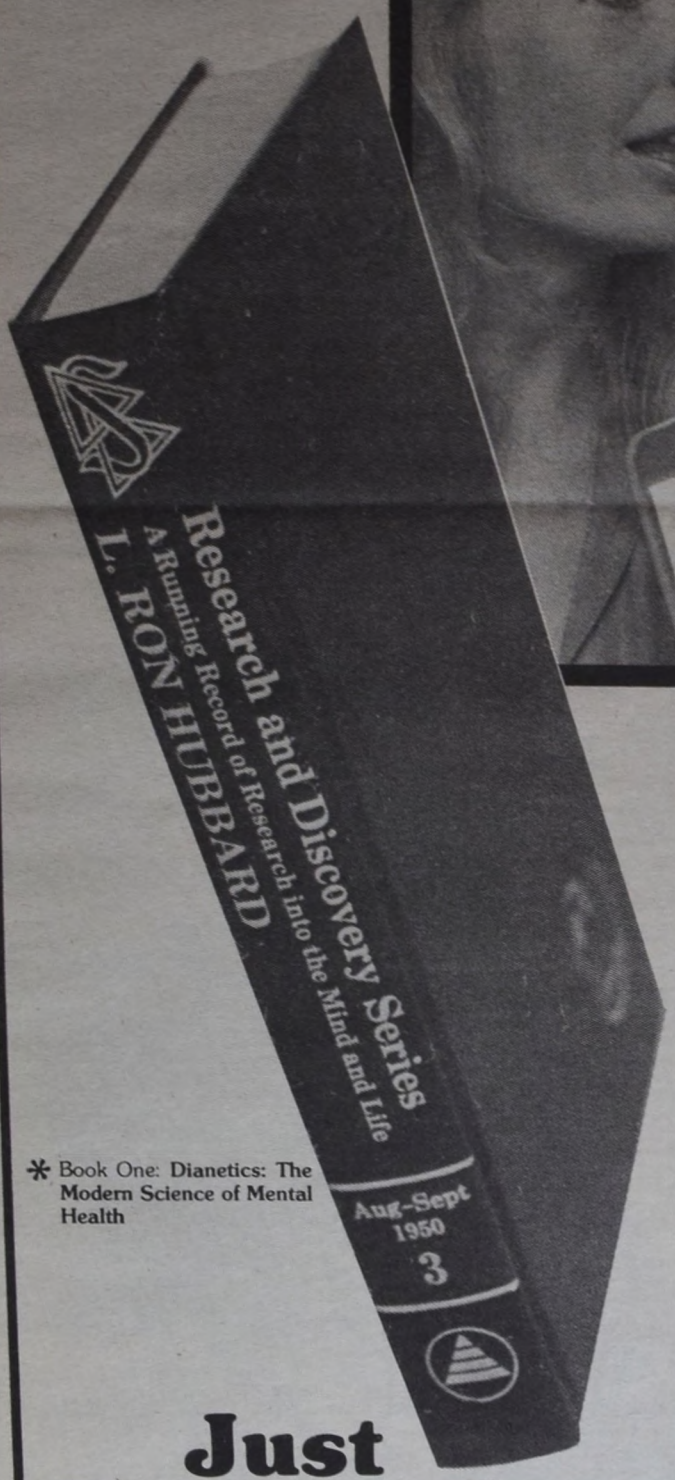

Class VI David Moore, now studying law at San Francisco Law School, is number one is his class. He also has two jobs, including field auditing, in addition to his course time. "The rule of thumb in law school is three hours of study outside of class for every hour in. Mine works out to about a half hour outside of class for every hour in class, due to Study Tech. It's produced above a ninety average."

David has found his study on the Briefing Course very applicable to law. He says, "it's applicable to *every* aspect of life." The Briefing Course's bearing on the study of the law, according to David, "is, law deals with a lot of aberrated situations. Understanding the basics of things such as justice and right and wrong conduct, moral codes, ethics– words which are defined and you come to understand on the Briefing Course, makes the study of law pleasurable because you don't buy the false stable data. There are data senior to the law and understanding the senior data makes the understanding of the junior data called the law really simple."

Upon his graduation, David plans to use his abilities and skills as a lawyer and Briefing Course Graduate to help create a saner civilization.

Expansion Wins! (continued from page 2)

mercials and publicity. Amanda Ambrose, well-known singer, OT and DIANETICS auditor, was recently on a nationwide talk show on DIANETICS Tech. The show was scheduled to last only one hour, but the response from the audience was so great the show was lengthened to three hours. The station running the show received over 200 calls during the program!

More DIANETICS Expansion Wins

A minister of a protestant church recently walked into a DIANETICS center in the midwest and took a course in DIANETICS Tech. He was so impressed he called the Bishop of his Church and a DIANETICS Course is now part of the required training or a minister of that Church!

In Latin America *DIANETICS* connues to grow: DIANETICS centers have een set up in Guatemala, El Salvador, enezuela, Columbia, Ecuador, and Argenna. These groups are giving Book One eminars at least every one to two weeks. ew Class IV Orgs are planned for uatemala, El Salvador, Venezuela (2), and exico (4). Eighty two people are now getg trained to be Class IV auditors to man these new organizations, which are pected to open by the end of the year!

re Latin America Wins!

In Venezuela, seminars in comnication and other LRH Tech were dered to members of a Venezuelan police e. The commander of the police force orted afterwards there have been no e citizen complaints in that area about ce abuse or discourtesy, and the police getting excellent co-operation! As a lt, two more series of seminars were n and a study was initiated to see about ng the program part of the Police demy curriculum.

lso in Venezuela - a program was ed a few years back by Augie Pinto, OT, to get LRH Study Tech in use in ducation system there. Ron's Tech ow been delivered through this pro- to thousands of teachers, parents tudents.

other major breakthrough has oc- in the area of education in Venezuela– se on "Human Relations and Comation in Education" (based, of course, on LRH Tech) was delivered as a groups of school principals. The t the university where it was being ed is demanding that a course be out of the pilot, and a meeting has eld to make it a continuing activity.

US Scientologists and Dianeticists get the Tech Applied!

Scientologists and Dianeticists in the US, too, are making big reaches into their communities. In Los Angeles, for example over 85 events are held *weekly* by volunteers getting LRH Tech applied.

One group of volunteers, Concerned Businessmen's Association of America, founded by DIANETICS auditor, Barbara Ayash, has had success getting gang members in LA to take more responsibility for their neighborhoods. In one project, one gang the group was working with volunteered to re-paint walls in the city that had been defaced by graffitti. Barbara's group discovered that one of the gang members had considerable talent as an artist, and got him to paint a large mural on one of the walls. For their help in the project, the group received recognition in a major Los Angeles newspaper.

In another project, this same group was invited to give a seminar on "How to Find a Job" to clients of an alcoholics rehabilitation group. This seminar was delivered by Class VI Thomas Franklin, and was so well received they were invited to give another seminar, and this one was "How to Keep a Job". The same rehabilitation group then asked for help for case workers on how to motivate people to come off drugs and alcohol. *This* was followed by a 2 hour seminar on communication, and then a 2 *day* seminar on communication, 2 programs for kids (one on Study Tech, and one on finding a job). And another seminar on *Self Analysis* is now being planned, and a Class IV auditor, Carrie Alkins, is setting it up! Just an example of how interested people really are in LRH's workable tech!

Communications Course in Prisons

Across the continent from LA, in Miami, the Comm Course has been delivered in a prison under the auspices of a local college. (The Scientologist delivering the course was hired as an Assistant Professor for the project). The regional director of the prisons was contacted, and is very enthusiastic about the results of the program and wants it implemented in the rest of his region - beginning with himself and his staff!

Spreading the Word!

Ron's Tech is for use! These are only a very small fraction of the wins that Scientologists and Dianeticists are having around the planet getting DIANETICS and SCIENTOLOGY Tech known and applied. You can help, too! Whether as an Auditor, volunteer, staff member, or just good neighbor your, contribution is welcome! To find out about expansion programs in your area or to get help starting your own, call your local SCIENTOLOGY Church or Mission.

Ron Writes, "My purpose is to bring a barbarism out of the mud it thinks conceived it and to form here on Earth a civilization based on human understanding, not violence.

"That's a big purpose. A star high goal.

"But I think it's your purpose, too."

Focus On Success!

Mountain View Mission: From the Briefing Course to Number One

Marc and Penny Silber are the Mission Holder and Executive Derector and of Mountain View Mission, top Mission in the world for 1981–1982. Currently shooting for another number one position for their Mission, they've had soaring statistics, including highest ever value of services delivered for their Mission.

Marc and Penny decided to run a Mission while they were on the Saint Hill Special Briefing Course. Marc relates, about doing the Briefing Course at ASHO– "The whole cycle was extremely A to B there. There were *no* stops whatsoever. The place was really booming and there was an air of excitement about the expansion of SCIENTOLOGY. It was while on the Briefing Course that Penny and I decided to run a Mission. I doubt that we would have done that without the Briefing Course.

"The Briefing Course is the biggest course in SCIENTOLOGY and you get LRH's viewpoint *totally* because you study everything from the beginning up to present time. You really walk away from that knowing that you understand what it is the subject is all about, and you can really apply it, whether in an auditing session or running a Mission or lecturing or whatever. You've got your basics down. I think the Briefing Course has been the foundation on which everything else I've done has built."

Penny says, "The Briefing Course has all the data that one would need to run one's life, and without that data you just don't have the secrets of life! You just wouldn't have the tech if you hadn't done the BC! I wouldn't be able to do a hundredth of what I do without the Saint Hill Special Briefing Course. It totally made me into the auditor I am now and it's the solid foundation I got as an auditor and it's also helped me immensely as an executive. Having tech training makes the total difference as an executive– you can handle people in a situation more efficiently than you could if you were just administratively trained."

When Marc and Penny started their Mission, they had no administrative training and used the data on the Briefing Course to get the Mission off the ground. Marc says, "I don't think I could do anything at all in the way of being a Mission Holder without being a Class VI– for years I had no other training than my Tech training, and my primary training there was the Briefing Course. LRH on the Briefing Course not only covers the Tech side of SCIENTOLOGY but tremendous amounts of administrative data. When we first opened up the Mission all I knew about distribution was what I learned on the Briefing Course, which turned out to be really successful."

Looking back, Marc reflects on the overall importance of doing the Briefing Course. "It's one of those things that no matter what someone plans to do they have to make a plan to do the Briefing Course, and the sooner the better, because the sooner they've got that under their belts, the easier everything else is going to go.

"It's having a totally firm foundation– anything you build on that is going to be very strong and stable."

Penny adds, "I firmly believe that to be truly an OT you must have auditor training. The Saint Hill Special Briefing Course gives you the technical foundation you need to really be an OT. I really believe that auditor training is vital to life to anyone, whether they're going to be running a Mission or not, whether they're OT or not. It's *vital* that you do the Briefing Course."
