Ron's Journal 37

by L. Ron Hubbard

Hello!

And thank you for your good wishes on this 13 March 83.

I am well and doing very fine indeed and I sincerely hope you are the same, and, believe me, earnestly, that is the only reason I have done the work I've done this last half century.

If at a breath I could wish the whole universe right as you too may have dreamed, it would be wonderful. But it takes a lot more than breaths or wishes to accomplish that and it requires that you also do your part in it if you and those dear to you are going to make it fully.

So I have a Birthday gift for *you* to return the flow of the avalanches of good wishes and remembrances that you send me. And as I accept them gratefully, so I hope you will accept this legacy.

It is the tech.

You see, despite inferences to the contrary, this tech has not been available before anywhere and was not even known.

I say this as no boast, but with something of amazement for you see researches by most others in the past have not been aimed at bettering man but making him more suggestible and obedient.

As a proof of this, any trouble Dianetics and Scientology had is traced to those who engage in suppression of individuals and man.

They use numerous ways to attempt the eradication of this tech. Denying it is the first. Invalidation is the second. Corrupting it is the next. But all these efforts in whatever guise, boil down to just one thing: to prevent people from achieving and enjoying freedom.

Those who attempt to suppress our tech do not themselves have the faintest clue of how to better anyone. *This* they cannot do. And *this* is your ace in the hole.

You see, truth must exist before lies and truth blows the lie away as it is later on the chain. And any suppressive person or group seeking to dissuade you or invalidate you deals only in lies. These lies are quite easily spotted if you know the Data Series.

Most people get so confused by all the lies around, they come to believe anything they're told and that's the reason the suppressive lies. But with the Data Series, one can spot bad data so easily it is itself a sort of relief to know it.

And as you burrow your way down through the layers of lies, you come to truth. And truth blows the lies away.

So we come to this legacy of tech. It is the route, which if purely used, uncorrupted and unperverted, will bring you at last to the vast free vistas of freedom and truth and the glory of being really you.

But this is not all, and this is my true message to you this Birthday: IF *YOU KNOW* THE TECH, IT WILL PROTECT YOU.

You do not even have to believe it works. If you really know the true tech, no one and nothing can hurt you or demean you in the ages to come.

So it is not just freedom that is the goal; it is the maintaining of it one must assure.

Those who do not let you have it, twist it, invalidate it and pretend it is something else that's meant, are seeking to deny you not just the road out but the armor of knowledge that will guard you.

So this is my gift to you this Birthday in return for all your well wishing: the legacy of tech.

The policy is there to guard and deliver the tech as well as to help make a better society and this is also yours.

It means of course that you yourself must more than whiff at the bouquet of tech. It means hard and earnest study and precise application for only those will bring it into full bloom in your life.

It is true that paths are sometimes rough and that travel can be tiring and long. But wait!

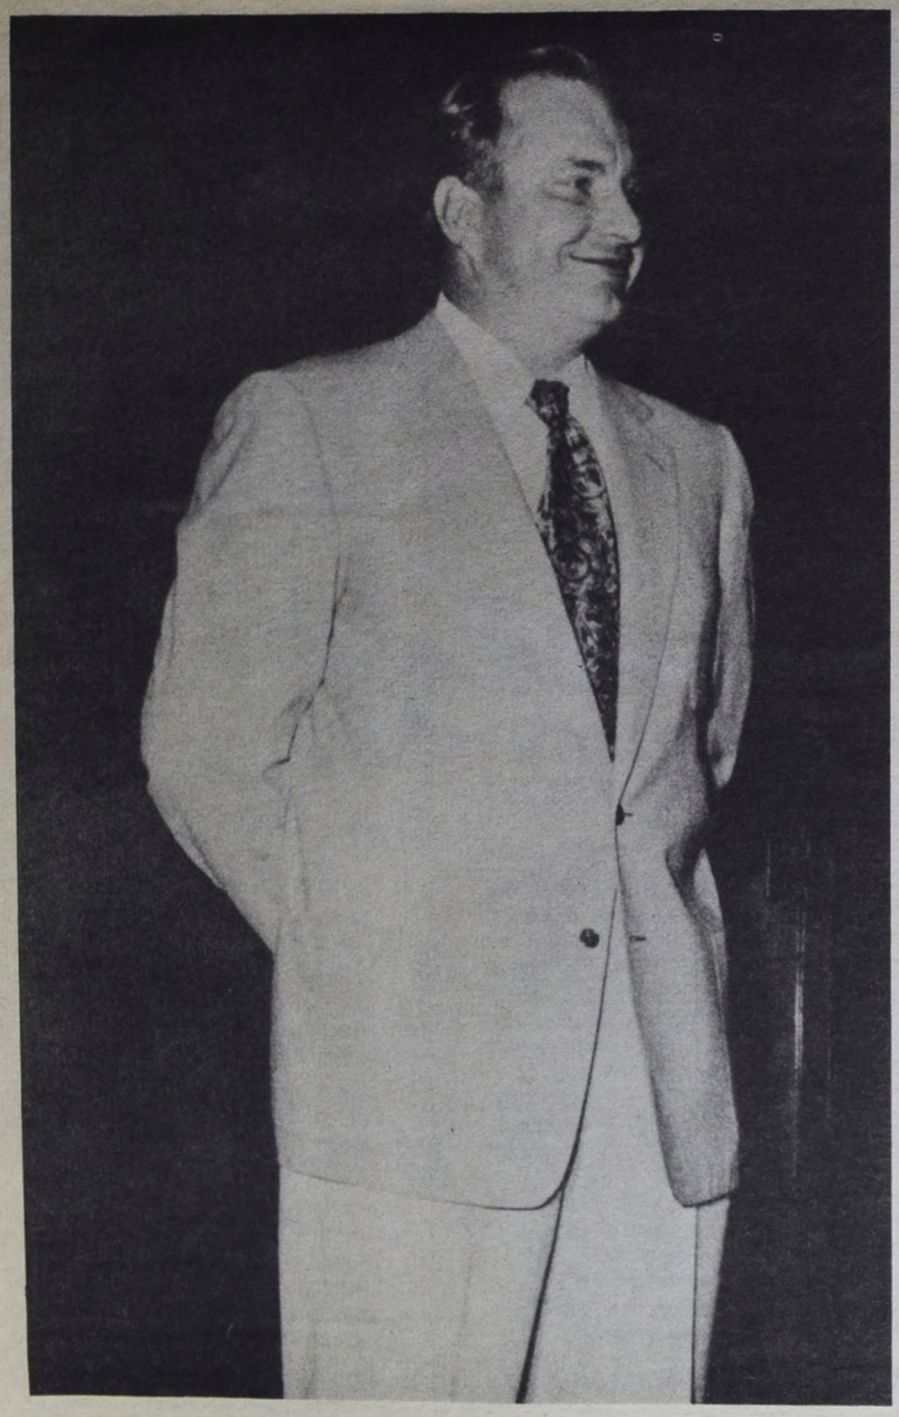

There are vistas never dreamed of, there are joys never even known, there are glories no past glory ever surpassed. These wait for you but only if you accept my legacy and help bring these things about.

And in the years to come and the ages that follow, the hosannas will be for *your* Birthday, not mine.

My Love,

RON

Incredible Expansion Across the globe, and up the Grade Chart!
★★★★★Special *Auditor* Report

Church of SCIENTOLOGY® organizations on five continents are now delivering MORE TRAINING and MORE AUDITING than ever before. Just look at these statistics for the first three months of 1983 alone:

★ Over 100 new Class IV Auditors!
★ Over 1000 new Clears!
★ Over 4400 well done Solo auditing hours *each week*!
★ Over 2200 Solo NOTs (New OT VII) well done auditing hours *per week!*

EIGHT NEW ORGS have qualified as full Church of SCIENTOLOGY or DIANETICS™ organizations, able to deliver services up to Class IV, NED/AUDITOR and Clear: *Lisbon, Portugal; Guadalejara, Mexico; Verona, Italy; Celebrity Centre, Paris, France; Ann Arbor, Michigan, USA; Kansas City, Missouri, USA; Long Island, New York, USA; New Haven Connecticut, USA.* — These are just since Ron's Birthday 1982. And many more are forming up to make 1983 a year of even more explosive growth!

ALL THIS and the major steps now being taken to handle the billions of people on this planet as they begin to reach for LRH Tech and a better life, are directly following upon Ron's intention, expressed in many new Policy Letters and Hubbard Communications Office Bulletins: to get people up the Bridge right away by getting basic Standard Tech *applied* and planetary dissemination accomplished.

TRAINING IS KEY

Ron has again stressed the NECESSITY of Training to make it to OT and to live successfully.

In *Ron's Journal 37*, written as a birthday message (March 13th) he said, "this is my true message to you this Birthday: IF *YOU KNOW* THE TECH, IT WILL PROTECT YOU... It means of course that you yourself must more than whiff at the bouquet of tech. It means hard and earnest study and precise application for only those will bring it into full bloom in your life. (Copyright® 1983 by L. Ron Hubbard. ALL RIGHTS RESERVED.)

In HCOB 27 December 82 *Training and OT*, he put it bluntly: "The plain truth of it is, if anybody is really going to make it to OT he has to know how to audit. That's the long and short of it... You owe yourself the best auditor in the world on Solo, and that is you. So get trained."

And along with the emphasis on Training, Ron has greatly strengthened the course lineup itself, in HCOPL 23 January 83 *Urgent – Important Auditor Training Prerequisite*:

"In 1950 it was found that raw public had no slightest idea of a communication cycle and you could not possibly make auditors out of them without it. The solution to this which was worked out and which proved very, very effective was the TRs Course. After that was introduced and particularly when Hard TRs were forced through for professional auditors, the problem was solved and did not exist thereafter as long as auditors *were* trained in auditor TRs.

"TRs are key and basic to any other auditor training.

"From time to time over the years the vital importance of professional TRs as a requisite in auditor training has been alter-ised, not-ised or even cross-ordered, which has always necessitated putting it back in by hammer and pound and emphasis and more emphasis and then more re-emphasis.

"Thus, the rule, THE PROFESSIONAL TR COURSE IS A PREREQUISITE FOR ALL PROFESSIONAL AUDITOR TRAINING COURSES, should be set forth in concrete.

"Auditors beginning their training should be put through the Professional TR Course before starting any other auditor training checksheet.

"Auditors now in training who have not had the Professional TR Course should, at their first next Class completion (before receiving certification on their current level of training) be required to take a Professional TR Course.

"Any 'auditor' who has been 'trained' without a Professional TRs Course had better be put onto one and gotten through

it forthwith or risk suspension of certificates." (Copyright © 1983 by L. Ron Hubbard. ALL RIGHTS RESERVED.)

ASHO is delivering the Professional TR Course full blast. If you haven't done it already, do it! And move on up to be a *trained* Scientologist and OT!

NEWS ABOUT RON

Ron is now preparing new OT Levels high above Solo NOTs (New OT VII) and the other OT Levels now on the Grade Chart, past OT XV! Many Pre-OTs are moving up the Bridge swiftly, and these new levels will be ready for them.

As a result of his intensive whole track research, Ron has developed a brand-new rundown which will soon be released! It is actually an OT action, but it will be available and delivered at different points on the Grade Chart, including the lower area of the Bridge. Remarkable wins and case gains are being reported by those who are doing it in pre-release piloting. PTS situations vanishing, chronic "back conditions" blowing right and left, and major changes in one's outlook, are among the results occuring. It addresses the thetan's causation over his own energy flows, which can tend to keep him interior and can contribute to various other difficulties a thetan can have.

Meanwhile, Ron's non SCIENTOLOGY work in writing, films and music is booming!

Battlefield Earth, a huge tale of high-adventure science fiction, Ron's golden anniversary work as a professional writer, is zooming up the best-seller charts. In the U.S., it was already 9th on the *Time* magazine list for the 7th of February.

In a new interview published in the Denver, Colorado *Rocky Mountain News* on the 20th of February (Denver in the year 3000 is the setting for *Battlefield Earth*), Ron said, 'I wrote "Battlefield Earth" for those who enjoy adventure, the will to survive and the basic spirit of the individual against impossible odds.'

Battlefield Earth will be made into two seperate major films. *Revolt in the Stars*, a spectacular motion picture script by Ron, is also to be made into an epic film. And Ron recently completed *two more* screenplays.

In the field of music, Ron is quickly gaining recognition for his album *Space Jazz* (also released in cassette form). It's another of Ron's famous "firsts" – a futuristic score which is, in effect, the *soundtrack for the book Battlefield Earth. Space Jazz* uses a state-of-the-art computer (the Fairlight) to originate new sounds and combine these with natural and available sounds in creating a sharply innovative future-world style. It features leading musicians.

Already planned is still another, and even grander, science fiction epic by Ron to be called *Mission Earth*. This work, some 1,154,100 words in length, will be published in *twelve seperate volumes*. The first is scheduled to be released in 1984, with a new volume coming out each month after. Because of its great magnitude, *Mission Earth* is to be made into a series for television rather than a seperate motion picture.

In addition, Ron is currently engaged in composing and scoring the music *and* writing the lyrics for another twelve music albums in the successful Space Jazz style –one for each volume of *Mission Earth*!

BOOKSALES SKYROCKET
LRH BOOKS MARKETED AS NEVER BEFORE

With a large-scale advertising campaign underway in the U.S., *DIANETICS: The Modern Science of Mental Health* has soared onto the best-seller lists – unprecedented for a book first released three decades earlier.

TV ads featuring a "Mountain Climber" and a woman "Marine Biologist" have been enormously successful. Not only was DMSMH number 4 on the National "Trade" List of the largest book distributor in the U.S. by December, it was number 1 on the West Coast list, which can be considered the trend-setter. National advertising will soon be launched in numerous magazines. *Self Analysis* in its bright new large-sized paperback is being advertised too, and its sales are climbing all around the country. Back in June there were no commercial distributors (firms which supply bookstores with their stocks) who were carrying Bridge Publication's LRH books – and now there are over 200! The largest distributor has pre-ordered, in twice the quantity of their original order of *DMSMH* and *Self Analysis*, the next two LRH books to be released to the broad commercial market: *Problems of Work* and *The Dynamics of Life* (new title for *DIANETICS: The Orginal Thesis*). Both of these books have very attractive new covers. More releases will follow in the fall, and again more in the spring of 1984, and so on.

Major DMSMH and other LRH books campaigns are in the strategic planning stage for non-US areas, and new campaigns are already in progress in the UK and EU.

What's been done so far functions as a pilot for full world-wide dissemination. LRH said in May 1982, "Books are your best ambassador and spokesman. Get them out into public hands...

"Books, cassettes, films, meters are a planet-wide assault on the reactive mind. No one wants a reactive mind but a psychologist. So everyone else will be your friend.

"I'm not saying this just because I want books sold. No. I'm saying this because I want to clear a planet.

"Do you?

"Good!"

EVENTS HIGHLIGHT STANDARD TECH

"There is one Tech and that is Standard Tech.

"Unfortunately there is other Tech around. This other Tech is a Liability. Other tech is defined as any tech which is not standard Tech.

"Let's start punching this hard."

— L. Ron Hubbard, in Hubbard Communications Office Policy Letter of 31 May 1968 (Copyright© 1968,1983 by L. Ron Hubbard. ALL RIGHTS RESERVED)

The Office of the Senior Case Supervisor International is spearheading an international campaign for Standard Tech — the application of the Tech *exactly* as issued by LRH.

Senior C/S Int Ray Mithoff and the International Finance Dictator for the Church Wendell Reynolds spoke before huge audiences on three continents in the first phase of an international tour that wound up on Flag for Ron's Birthday celebration. They delivered to Scientologists many recent issues by LRH that underscore the need for standard Tech, Ethics and Policy application.

In New York, Commander Mithoff briefed Scientologists on the tough new safeguards, and what they can do to help Keep SCIENTOLOGY Working:

"The trademarks of DIANETICS [spiritual healing technology] and SCIENTOLOGY [applied religious philosophy] have been given by LRH to a corporation which is entrusted with safeguarding them and guaranteeing that those trademarks remain inviolate.

"There are *trademarks* and *copyrights* — two completely different things. The copyrights which you see at the end of any piece of material by LRH — it says, 'copyright 1983 by L. Ron Hubbard.' That means simply that it is the right to copy. There's no change whatsoever in that. That remains just the way it always has been.

"But the *trademarks* of DIANETICS and SCIENTOLOGY are the words 'DIANETICS' and 'SCIENTOLOGY'; they are both registered trademarks. The symbol 'S' with the two triangles for SCIENTOLOGY is also a registered trademark, and so is the symbol for DIANETICS, which is a triangle with green and yellow stripes. Those are some of the registered trademarks.

"Taking any DIANETICS or SCIENTOLOGY materials and calling them something else and delivering it is a viola-

Here, then, is a small sample, compiled by a Briefing Course student, of the questions answered on The Saint Hill Special Briefing Course, the most comprehensive study of life in the world.

What is the data behind organized attempts to stop Ron and take over DIANETICS and SCIENTOLOGY organizations, and why didn't they succeed? The details of an attempt to kidnap Ron. Ron's Legacy of Tech

It's on The Saint Hill Special Briefing Course

"If you really know the true tech, no one and nothing can hurt you or demean you in the ages to come."* — L. Ron Hubbard.

Ron set up the Saint Hill Special Briefing Course to see that Scientologists could study the Tech in depth and become TOP auditors, all under his personal supervison. Ron-taught the Briefing Course personally from 1961 to 1965, and today, the Briefing Course is still Ron's Course: run to his exact specifications, it is an in-depth study of just what SCIENTOLOGY® tech IS, and THE course that teaches how to apply the tech at a high professional level.

As you would expect from a course personally taught by Ron, the Briefing Course gives you the exact gradient you need to duplicate and own the tech. And there is top flight supervision, supurb Qualifications services, and the whole of ASHO *runs* to see that you get the service Ron expects. Full time, the Briefing Course can be completed in about 6 months.

Prerequisites: Student Hat, Professional TRs Course, and, for those not yet Clear, Class IV.

NEWS FROM ARC

Broadway Actress Uses Briefing Course Data on Stage

Linda Griffin-Bland rehearsing lines from her lead role in "The Amen Corner".

Performer Linda Griffin-Bland, currently on the Saint Hill Special Briefing Course and OT Preps at ASHO, has performed on Broadway in a number of shows, including "Jesus Christ Superstar", "Purlie", "1600 Pennsylvania Avenue", as well as with Sammy Davis Jr. in "Stop the World". In addition to the Briefing Course studies she is doing, she is now playing the lead role in a musical version of James Baldwin's "The Amen Corner".

Linda started her SCIENTOLOGY® training in New York. "I was looking for something I could actually use. I didn't want to hear anyone talking about it; I wanted to be able to use it. That's what made me stick with SCIENTOLOGY [applied religious philosophy]— I could apply it in life and it would work out if I applied it exactly as it was stated."

Linda has created numerous effects with the tech in her current show, both for herself and for others in the production.

"Some of the people in this show weren't feeling good– PTSness, that kind of thing. There was one singer in the show– she had a cold and she wasn't feeling good, she was having all this pain and she had to go on. So I sat her down and gave her a touch assist. She actually went exterior. She blew all the pain in her chest. She was so shocked she was running around telling everybody. I started to give a number of people touch assists after that and people got better and the ARC came up.

"I handle children in the show the same way. One girl was very badly keyed in and I knew she wasn't going on stage like that so I just took her aside and got in comm with her and gave her a child's process. She just blew out, her tears went away and she started laughing. She came up and kept hugging me during the performance— all the kids came running around — they consider me their mother.

"It's really nice, you establish ARC and blow the upsets going on and people begin to look at what's actually going on."

Linda has also found TRs valuable in helping others in the performance. "I use my TRs on people. I get in comm with them. If I have something to tell them I can. I can say things to people that other people might get shot saying. I can say it with such ARC that I won't get clobbered.

"I've found L. Ron Hubbard's tech applicable to any life situation, particularly now in the play that I'm doing. I use the tone scale in reading over the play. I look at how it applies to SCIENTOLOGY data — getting into the character. It makes it more real to me because I know I'm not being the effect, I'm at cause even when as a character I'm at the effect of something. It's more of a game — I'm having a good time doing it, and also communicating to the public exactly what I want them to see. Also, because I know what I'm doing I can get things out of the other actors and actresses. The show's gotten better as a result — people are giving better performances."

After completing the Briefing Course Linda plans to do her interneships and apply the Tech. She says, "I plan to USE it. Not only to counsel people. It's really important that a person apply what they know to the field.

"I want to encourage other people who maybe have had losses to get back there and find their misunderstood words and get themselves out there. Why have all the volumes with dust gathering over them if you don't use them? I'm always getting after people about that. That's one thing I want to use the Tech for in the field; I want to encourage other people to USE it.

"It's just so interesting to see it work. It's fun and exciting. To me, it's a game. It's rewarding to know that you can go into an area no matter how wierd it is and sort it out."

Musician and Briefing Course Student — an Ideal Combination

Claudia Schneider from Munich, Germany, started to learn to play the violin when she was six. Encouraged by parents who loved music and being very gifted, she won numerous violin competitions as a young girl.

As a member of the Reger Trio she toured throughout Germany, and later as a member of orchestras she toured all over Europe, as well as to Japan and South America.

Today she is a freelance musician so that she has enough time to dedicate to her SCIENTOLOGY® studies. She encountered the Church of SCIENTOLOGY in Basel in 1976 where she was studying. She trained up to Class 4 Auditor and is now on the Saint Hill Special Briefing Course. She says, "Before I came to know SCIENTOLOGY philosophy I was looking for some thing which would enable me to help, and I have read many books about different subjects such as psychology. The discovery of SCIENTOLOGY religious philosophy was the answer. Since then I have always stressed the training route.

"Before I enrolled on the SHSBC I was a bit skeptical and was afraid it would be too high a gradient. But now I'm extremely happy to be on this course. What I recognized was that studying the SCIENTOLOGY material from its very beginning gives one a *totally new* viewpoint. As a Class 4 auditor one has the technology and can audit. But what the big difference really is, is that one truly grasps and fully understands the SCIENTOLOGY technology."

As a violinist Claudia is used to a very high technical standard and that's what she likes on the SHSBC. As she expressed it, "I see technical perfection and professionalism also reflected on the SHSBC. It's what makes a professional, the one who masters the subject of auditing. I have cognited that a 'Saint Hiller' is a person who really *knows*."

Violinist Claudia Schneider from Germany, now on the Briefing Course. "It's what makes a professional", she says.

Briefing Course Student Uses Tech as Teacher

College intructor Charlie Cook first read of DIANETICS™ tech in Ron's article in *Astounding Science Fiction* around 1950. He ordered a copy of *DIANETICS The Modern Science of Mental Health* and set up a book auditing group at his college.

Now NOTs completion and a student on the Saint Hill Special Briefing Course, Charlie finds using the tech very important in his life, "As far as I'm concerned you almost have to be a professional auditor in order to handle people who are not trained. I know why people do what they do and I can react with adequate methods to handle them."

Several years ago Charlie was one of the founders of Applied Scholastics, a group dedicated to getting SCIENTOLOGY® study technology in wide use. Charlie himself uses study technology with his students, getting them to understand the importance of looking up words they do not understand. He says, "the students when you apply it correctly.

"Also, you need to get trained just to get up the Bridge and get through the OT Levels. It'll be much, much easier, even on the early OT Levels, if you're a trained auditor. Ask anyone who is a trained auditor who's done the OT Levels, and they'll tell you.

"Get yourself up the Bridge. LRH isn't going to release OT XIV just for one person to do. He's not working and getting a whole new level ready just for one or two people on the whole planet to do, when we have *billons* here. So we need lots of people, which is you and your friends, up through the levels. And through Solo NOTs [New OT VII], which is a long level. It is not done in one day. I will be very blunt about it: it is not something you'd be finishing in one afternoon. It would be a very good idea to get started on it now, because these *other* levels are right around the corner."

tion of trademark laws. And the other way around: if you're saying you're delivering DIANETICS or SCIENTOLOGY technology but you're really doing something else, or delivering something else, or it's different, changed in some way, modified, or in some fashion altered, that's also a violation of trademarks. And a person doing something like that could wind up in extremely serious trouble.

"This new corporation which is entrusted with safeguarding these copyrights is called the Religious Technology Center, or 'RTC', and the persons who are in this corporation and who work to carry out that function are known as the Inspector General Network, and you'll be hearing more about these persons and what they are doing.

"The reason LRH didn't give these trademarks earlier, by the way, is that he didn't have the persons to whom he could entrust them. He does now, and the persons who are in this corporation are extremely ethical, competent, and trustworthy.

"The act of Ron's giving these trademarks is in no way associated with money. He simply donated them.

"What this means to *you* is that you can walk into any org or mission or field group where there's a doorway that has a sign over it that has a double triangle with an 'S', or it says 'SCIENTOLOGY', or any type of sign like that, and you can know that you'll get Standard Tech. And I'm not just talking about this week. I'm talking about the next ten years, twenty years, one hundred years, one thousand years. And longer.

"The purpose of all this I was just telling you about is to guarantee that you will always have pure, uncorrupted, unaltered SCIENTOLOGY technology around, which is a very good thing to know. Some people see fit to squirrel with SCIENTOLOGY, which means to take it and alter it in some form. Most commonly somebody who squirrels is trying to make a fast buck for themselves by cheating other people out of what is actually the only workable mental technology on this planet today, and by so cheating people hopes to do them in. SPs [suppressive persons] like that actually cannot complete a cycle of action, and these little activities which spring up from time to time always fail.

"I just wanted to inform you about it, because if you *do* run into someone who's doing that, you have a duty as a Scientologist to take whatever steps are necessary to see to it that it does not occur. It's not just one or two people in a Church whose job it is to keep things running correctly and keep people on-Source and using LRH tech.

"This whole future– the whole future of this planet and other areas– depends on *you* getting tech applied standardly.

"So here's what you do: if you see somebody doing anything that's out-tech, you can write a report on it to me. You can write a report on it to the Inspector General Network. You can go to your local Org and report it to the Qualifications Secretary, or you can do all those. And you can *also* grab hold of the person yourself – I'm not advocating anything violent at all – you could take this person outside and explain to them, just tell the person very bluntly (there's nothing to withhold about it), 'This is my religion and this is the technology that I use and I want this technology to be around forever and I don't want you monkeying with it and messing it up for everybody else!'

"Maybe that'll be enough to startle the person into going and getting a dictionary and his Ethics formulas and getting himself straightened out. For most people, really all it takes is just simply pointing out that 'Hey, you're not following the material' or 'You're giving this person verbal data! You're not actually showing them the material, you're just telling them about it, and giving them your own false ideas or misconceptions,' or saying, 'Listen, you should go to the Org and get this thing straightened out 'cause you're kind of confused.' And most people will just go 'Hey great!'. They're very glad to be corrected... But if not, you have lines to report it on, and you can take steps yourself to see to it that this person gets discipline put in on himself.

"And if the person is unable to put discipline in on himself we can put discipline in.

"What you should do is *get yourself trained.* Read LRH's Tech. Listen to his tapes, read his books and so on, and get through courses, and understand what it is that he has written. Apply it to somebody else exactly the way it's supposed to be applied. See what the results are that you're going to get. Have an absolute certainty yourself, with your own eyes, on what the results are that can be gotten

that come out of High School are in my opinion semi-literate and they don't know how to study; they've never been required to study for the most part and so coming into a community college level course which requires study is almost a blow to them. So I go through the study phenomena and what happens. Some of the students will catch on and will start looking up words from that point on."

A trained auditor with many years experience applying the tech in life, Charlie has helped people successfully with personal counselling and assists. One student he gave touch assists to was a pitcher on the college baseball team. The student had a pinched nerve and was unable to use his arm. In the second touch assists the condition blew and a few days later he was back pitching.

A psychologist at the school who Charlie gave a touch assist to was so impressed he immediately went out and bought his own copy of Book One. Charlie says, "The tech *works* – that's the bottom line."

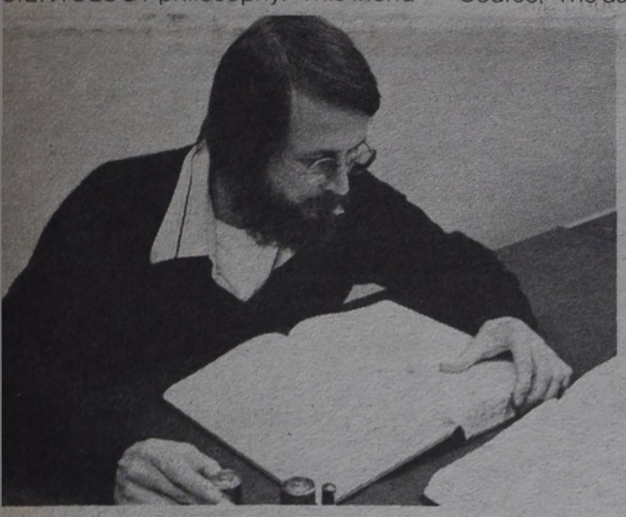

Once complete on the Briefing Course Charlie plans to open a Mission and use the tech to make a safer environment.

Physicist Finds Answers on the Briefing Course

Harry Van Der Heijden was teaching and studying physics in his home country of the Netherlands when he decided that he wanted to find answers to deeper questions than he was probing in physics. He began to study western philosophy, then studied eastern religious philosophy, culminating in studying Buddhism in Thailand, where he learned Pali, the language that the Buddha taught in.

On returning to Europe, he was still looking for something that could be applied, when he was introduced to SCIENTOLOGY philosophy. "This friend came up and showed me some books, *Phoenix Lectures*, I think, and there was something there that said I should really check this out. I went to the Mission in the Hague and from the very first 25 minutes I just knew there was something there. The ED there was a Class VIII – he had so much tech, so much wisdom."

Harry did the NED Course at the Mission, then came to Los Angeles where he did the Academy Levels and where he is now on the Saint Hill Special Briefing Course at ASHO. Recently he also completed OT III. He says about the Briefing Course, "The data on the Briefing Course is applicable all over. I could go back into teaching and be a thousand percent better teacher. A manager could turn around and be a thousand percent better manager. In all sorts of fields there is an application for it. If you're living, if you're doing *something*, the data is there. It's pure gold."

Focus on Success — Auditor Training on Ron's Saint Hill Special Briefing Course

Sally Culloden demonstrates the structure of part of the mind for Briefing Course supervisor Patty Azevedo.

I have been a Scientologist for thirteen years and have been audited to the top of the Bridge and as a result gained incredible new abilities. I have also trained as an auditor and audited many hours. It wasn't until I began the SHSBC recently that I realized how my future depends on how much I know about this game we call life. On the Briefing Course you get it *all*– the game, the rules and how to play it so you can win!

The SHSBC is more than a course to learn to audit – it is an adventure – you are right there with LRH everyday as if you are at his side when he made each new breakthrough.

You get to experience what LRH did as he evolved this wonderful tech to help mankind.

When he named this course the Saint Hill *Special* Briefing Course – he really gave it its correct importance. It is special – very special.

It's where you really get to full understanding why we are the way we are. It's where you learn the stuff that this Bridge to Freedom is made from –

I love being here at ASHO on the SHSBC. This is the best present I have ever given myself –

Life and livingness are becoming a game that I know I can win at.

— Arda Froese

Today I read an HCOB that I never knew of, where Ron explains how one of the basic SCIENTOLOGY concepts applies to my occupation– sales. Now I understand what has been happening to me in the several years that I've been in sales and I can see exactly what's happening to some of the salesmen around me and why they're doing good and bad; and most importantly, the simple thing to do to prevent becoming reactive in sales work and ensure success.

I've also had wins and cogs in another field I used to be involved with – physics. So the Briefing Course is not just about auditing, but about life.

It's really great to be on Ron's course.

— Mike Autore

Recently I co-produced two one-act plays, I also had a part in one of the plays.

At the end of our 9-week run, one of the actors commented to me that he knew that I could pull this off as I was a Briefing Course student. I felt it was a great validation of the Briefing Course and LRH.

The best way I can describe my wins is to say that I have the tech and ability to master life. My own life has definitely changed and I now know, that being a Saint Hill Special Briefing Course auditor is the way to increase abilities and awareness, and, expecially to help other people.

— Martha Schulman

A big win reading these books is that I'm really duplicating them – and I'm amazed at how much Ron knew in '51!

The thoroughness which Ron understands life is amazing! The data given in these books is invaluable for living life well! A big thanks to Ron who kept persisting!

— Gail Bromley

Freedom has never been so real, simple, or fun as it has been lately to me. The Briefing Course and Solo NOTs is the only way to go. If you're not actively working towards doing both of these then you're really cheating yourself *badly.*

— Willie Newman

On Solo NOTs you are auditing *very* basic bank and your gains will be only as good as you can audit. As a Solo NOTs auditor you have your basic tools, not unlike a Class 4 can have his and be expert at them at his level. But the BC is a whole new level of expertise and truly a necessity to really be able to 1) totally duplicate Ron's discoveries and Tech in depth, and 2) *operate* (as in "operating thetan") in life.

I love it.

— Norm Thomsen

On Level A of the Briefing Course I have begun my route towards being a real *Operating* thetan. I see that anyone not having this data is not equipped to play the game of life but can only succumb to the enormous amount of confusing inflow. I have learned so much of the basics that I really know what I'm trying to accomplish in auditing and am really looking forward to learning more tools with which to do this on the next levels of the Briefing Course.

I also am much more able to control my life in my dynamics and have more postulates under my knowing control. I finally know what the KRC triangle is, that it's senior to the ARC triangle and I have heightened KRC in life.

— Catherine Weaver

I guess the best way to describe being on the Briefing Course is by "competence gain". I no longer feel like I'm analyzing life, trying to figure out what to do next. I operate on an entirely different level – I KNOW what to do without even thinking about it. And the results are astounding. I don't have this little time lapse where I stop, figure out what to do, and then finally get around to fixing whatever is occuring. On the Briefing Course you get SO many tools, so much basic understanding, that you really recognize that you're the solver. So life is simple, handling scenes are just part of your nature, and as a result, you really feel like you are in control. You're making your life go in that direction – not chasing behind it trying to catch and dissect it to do something about it.

LRH said "The only richness there is is understanding*" and with the Briefing Course, as a basic hatting for a thetan in this universe, you become rich beyond belief – on all dynamics. What an incredible gift he has given us!
