Scientology The Science of Certainty

by L. Ron Hubbard

Scientology is the science of knowledge. Knowledge itself is certainty; knowledge is not data. Knowingness itself is certainty. Sanity is certainty, providing only that that certainty does not fall beyond the conviction of another when he views it. To obtain a certainty one must be able to observe. But what is the level of certainty we require? And what is the level of observation we require for a certainty or a knowledge to exist? If a man can stand before a tree and by sight, touch or other perception know that he is confronting a tree and be able to perceive its form and be quite sure he is confronting a tree, we have the level of certainty we require. If the man will not look at the tree or, although it is observably a tree to others, if he discovers it to be a blade of grass or a sun, then he is below the level of certainty required and would not be able to grasp Scientology. Some other person, helpfully inclined, would have to direct his perception to the tree until the man perceived without duress that it was indeed a tree he confronted. That is the only level of certainty we require in order to qualify knowledge. For knowledge is observation and is given to those who would look.

In order to obtain knowledge and certainty, it is necessary to be able to observe, in fact, three universes in which there could be trees. The first of these is one's own universe*; one should be able to create for his own observation in its total form for total perception a tree. The second universe would be the material universe, which is the universe of matter, energy, space and time, which is the common meeting ground of all of us. The third universe is actually a class of universes, which could be called "the other fellow's universe," for he and all the class of "other fellows" have universes of their own.

Starting at any level, it is only necessary to obtain a fair degree of certainty on the MEST* universe to improve considerably one's beingness. Above that, one obtains some certainty of his own universe and some certainty of the other fellow's universe.

Certainty, then, is clarity of observation. Of course above this, vitally so, is certainty in creation. Here is the artist, here is the master, here is the very great spirit.

As one advances he discovers that what he first perceived as a certainty can be considerably improved. Thus we have certainty as a gradient scale. It is not an absolute, but it is defined as the certainty that one perceives or the certainty that one creates what one perceives or the certainty that there is perception. Sanity and perception, certainty and perception, knowledge and observation, are then all of a kind, and amongst them we have sanity.

What will Scientology do? It has already been observed by many who are not that doubtful thing, the "qualified observer," that people who have travelled a road toward certainty improve in the many ways people consider it desirable to improve.

The road into uncertainty is the road toward psychosomatic illness, doubts, anxieties, fears, worries and vanishing awareness. As awareness is decreased, so does certainty decrease; and the end of this road is a nothingness. It is a nothingness which is a total effect.

Simplicity, it would be suspected, would be the keynote of any process, any communications system, which would deliver into a person's hands the command of his own beingness. The simplicity consists of the observation of three universes.

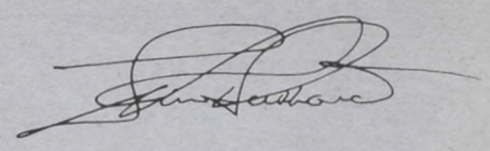

Where observation of one of these three is suppressed, hidden, denied, the individual is unable to mount beyond a certain point into certainty. Here we have a triangle not unlike the affinity, reality, communication triangle. These three universes are interactive to the degree that one raises all three by raising one, but one can raise two only so far before it is restrained by the uncertainty on the third. Thus, any point on this triangle is capable of suppressing the other two points and any point of this triangle is capable of raising the other two points.

Certainty is a wonderful thing. It is possible to take large groups and to bring them, each and every one, into higher levels of communication, communication not only with their own bodies but with others and with the material universe. And as one raises that level of awareness, one raises also the ability to be, to do, to live.

Today this world suffers from an increasing incidence of neurosis brought about by a dependency upon mechanical things which do not think, which do not feel, but which can give pain to those that live. It suffers with an overdose of agreement that there is only one universe. So long as it believes that there is only one universe, that there is only one universe to study, to be studied, only one universe to agree with, it will continue to seek the lowest end of the scale, which is to say, that point where all universes become one universe. Where the triangle vanishes to a single point it vanishes completely, and where one studies but one corner of the triangle and ignores the other two corners of the triangle, and agrees only with one corner of the triangle such as the physical universe, one will tend toward that point where that corner of the triangle is coincident with the other two corners, and this is death.

The curse of this world is not actually its atom bomb, though that is bad enough. The curse of this world is the irresponsibility of those who, seeking to study but one universe, the physical universe, try to depress all beings down to the low order of mechanically motivated, undreaming, unaesthetic things. Science as a word has been disgraced, for the word science means truth and truth means light. A continual fixation and dependence upon only one universe while ignoring the other two universes leads to darkness, to despair, to nothingness. There is nothing wrong with the physical universe; one should not cease to observe the physical universe, but one certainly should not concentrate upon it so that he can agree with it and its laws only. He has laws of his own. It is better, far better, for the individual to concentrate upon his own universe than to concentrate upon the MEST universe, but this in itself is not the final answer. A balance is achieved in the three universes and certainty upon those universes.

Up scale is the high, bright breadth of being, breadth of understanding, breadth of awareness. To get there all one must do is to become aware of the existence of the three universes by direct observation.

☆☆Newest Advanced Organization Opens in Australia!!

MESSAGE TO ALL SCIENTOLOGISTS

by L. Ron Hubbard

On July 7th, 1983, at precisely 2:00 PM in Sydney, Australia, the newest Advanced Organization opened its doors.

Staffed by a hand picked, crack Sea Org Tech Command Team, this new A.O. signals a new age for Scientology, for the sun will never set on the upper levels of the Bridge. We have spanned the globe for the newest A.O. serves not only Australia and New Zealand but the South Pacific and the Far East.

At the same time, we slammed the door on those naysayers who have wished and said otherwise.

And this is just the beginning.

1983 will be an unprecedented year of expansion and wins and developments and you will be able to share it all.

One of the most basic technical discoveries was how to convert entheta to theta and we can do it not only on the First Dynamic but on the Third. In every instance we can gain momentum but only through the application of Standard Tech.

That application is your responsibility.

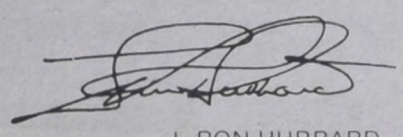

I now ask you to celebrate with a gift to yourself by moving up that Bridge and moving others up. Our goals are achievable and the newest A.O. brings them closer.

Let the merchants of fear live in their own self-created hell. Their fears speak for themselves for they are losing.

We are expanding and winning.

Here is to a booming, wonderful 1983, and to a higher level of existence for you.

Love,
RON

Inside ASHO Interneships ...

It's 8:30 in the morning. Most of the city of Los Angeles is just getting started on the new day, but inside the four story building on Berendo Street that houses the American Saint Hill Organization, things are already moving at a run. On the third floor the Hubbard Guidance Center is set for the day's auditing – schedules are being set, folders rounded up, auditors assigned. On the 4th floor, the internes, course graduates now learning the ropes of auditing as professionals, are busily checking out on new materials, studying folders for the day's auditing, and hurrying to cramming* if needed to get corrected on any errors in the previous day's auditing.

On the ASHO Interneships, these course graduates become top auditors by auditing under the careful guidance of highly trained and very experienced technical personnel.

Interneships mean lots of auditing – plenty of experience "In the chair" – to bring the interne's quality up to flubless professional standard.

As Ron says; "The apprenticeship of an auditor is done as an org interne.

"A COURSE GRADUATE BECOMES AN AUDITOR BY AUDITING.

"That means LOTS of auditing."

(Copyright © 1971, 1983 by L. Ron Hubbard. ALL RIGHTS RESERVED.)

Auditing begins with thorough folder study by the Case Supervisor and the interning auditor.

9 AM — the preclears begin to arrive and are ushered quickly into session with their auditors. Meanwhile the new internes are checking out on the key materials of their level, drilling and getting throroughly checked over on their theory and application by the interne supervisor, before being given their "OK to audit" for their level.

It takes many hours of dedicated work in drilling and auditing by an interne to make a high quality, flubless and able auditor. SHSBC supervisors are themselves dedicated to the high quality production of each auditor on the interneship.

The internes are given a full day's schedule by the Director of Processing.

Difficulties with basics of application, such as handling the E-Meter and cycles of communication, are swiftly located using video tapes of sessions. ASHO's highly trained Qualifications personnel take care to see that each interne gets close personal attention.*

They are concerned with each interne as an individual.

Since the interneship is hard work the confront of the interne comes up. He or she finds that they can handle more, not only in session, but also in life. Blowing through barriers and considerations is easy as they train higher and higher and they become more certain of their abilities.

At noon there's a wave of "F/N VGI"* reports at the examiner* as the morning auditing sessions end and auditors and preclears break for lunch.

The break is a fast paced one for the internes – there is more folder study to be done, cramming and new issues to go over. Then, it's quickly back in session for the afternoon.

6 PM — another wave of smiling faces at the examiner. But the day isn't over yet for the interens – the day's sessions must be written up and the next day's sessions prepared for. Sessions which were video taped during the day are studied for correctness in TRs* and metering, and a trip to cramming is made for any errors.

Cramming is very important to the success of the auditor and the preclear. Since the standards of ASHO internes are required to be the best, ASHO crammming must be utterly standard. The veteran cramming officer makes sure no errors go uncorrected, and sees that internes really *know* their materials *cold*!

Ron says "An auditor is not unlike a race horse. He needs a lot of care and handling. And he needs his periodic drills and exercizes or he goes sloppy. Like a race horse, a good auditor is very, very valuable. And all good auditors are made by C/Ses!" (Copyright © 1971, 1983 by L. Ron Hubbard. ALL RIGHTS RESERVED.)

A C/S (case Supervisor*) supervises cases and gives instructions to the auditor, regarding the auditing of preclears. At ASHO internes find that the C/S takes responsiblity for them as well as the preclear. Internes get the care and handling they need under one of several outstanding C/Ses. The senior C/S is a Class VIII, and the HGC C/S, Class IX, and both are thoroughly trained at ASHO and at Flag* so internes are assured that ASHO delivers effectively and effeciently.

The graduating interne gets a gold seal affixed to his certificate as a sign that he has truly reached *professional standards* for the level he's interned. It's a lot of hard work, but the results to be had – certainty, greatly increased ability to observe, experience in handling a professional work load, and real confidence that one can help – are well worth the effort!

*For definitions of SCIENTOLOGY terms, consult the glossary with this issue.

An interne's day is a long one, but full of the rewarding experience of applying Ron's tech to bring others the priceless gifts of freedom, understanding, and increased ability.

The gold seal on a graduating interne's certificate makes it a permanent, professional certificate.

"One is rising to eternity...

"In this time and in this place – for possibly just a little while, we have this chance. To go free and to make it."

What Ron Says About Interneships

'The word INTERN or INTERNE means "An advanced graduate or a recent graduate in a professional field who is getting practical experience under the Supervision of an experienced worker."

'An Interneship then is serving a period as an Interne, or an activity offered by an org by which EXPERIENCE can be gained.

"Interneships have been arranged this long while for every auditing class."

(HCOB 19 July 1971 "INTERNES")

"When field auditors are brought into the org who have never done org interneships they go this same route, regardless of their class. If already classed, such as VIII, they are simply faster to make into staff auditors."
(HCOB 7 January 1972 "TRAINING AND INTERNING STAFF AUDITORS")

'An auditor is not just a Scientologist. He or she is one who *can apply* it. Thus the technology of Scientology is its actual application to oneself, a preclear or the situations one encounters in life.

'When we say tech is out, we might also say, "While that unit or person may *know* all about Scientology, that person does not actually apply it."

'A skilled auditor knows not only Scientology but how to *apply* the technology to self, pcs and life.

'You can train somebody in all the data and not have an auditor. A real auditor has to be able to *apply* the data to the pc.

'An auditor must have observed results of his standard auditing and have confidence in it.'

(HCOB 13 September 1965 "OUT TECH AND HOW TO GET IT IN")

"It is intended that the emphasis of all training shall be a flawless ability to *do* auditing, and a command of the theory and goals of Scientology. A student on leaving course should be able to *do* Scientology and achieve excellent auditing results."
(HCOPL 14 May 62 "TRAINING SECTIONS")

"The keynote of the skilled technician is that he is a product of practice. He has to know what he is trying to do and what elements he is handling. *Then* he can produce a result.

"Until you have an auditor familiar with his tools, cases and results you don't have an auditor. You have a collected confusion of hope and despair rampant amongst non-stable data. Study, drill and familiarity overcome these things. A skilled technician knows what gets results and gets them."

'There is no "magic" touch in auditing like the psychiatrist believes. There is only skilled touch, using known data and applying it.'

'One takes any graduate and Internes him on the lowest Interneship he has missed. He reviews his material, gets his drills checked, gets his misunderstood words cleared and gets an "ok to audit" for *that* level.

When he then has turned out pcs, pcs, pcs, pcs, 5, 6, 8, 10 hours a day for weeks and weeks and is a total success as a Dianetic Auditor, he can go on up.

'Then one day he is word cleared, checked out on his drills, and he qualifies for "ok to audit" for IV or VI.

'Now it begins all over again. Flubs-Cramming, midnight oil, audit audit cramming audit audit new word clear new drill work audit audit audit audit 5, 6, 8, 10 hours a day.

'Now he *is* a IV or VI auditor.'

NEWS FROM ARO

Rick Johnson, Class VI C/S, C/Sing for busy Valley Org.

ASHO Trained Case Supervisor C/Ses for Top Class IV Org

Like the calm eye of a storm, Rick Johnson, case supervisor at the SCIENTOLOGY® Church Valley Organization, exists as a stable point in a whirl of activity. Tech pages whiz folders in and out of his office, as Rick does his work keeping the Hubbard Guidance Center, Academy Co-Auditors, staff auditing, Internes, and the Purification Rundown of this busy Church all going at once.

Rick did the Saint Hill Special Briefing Course at ASHO, and completed his Class VI Interneship and Class VI C/S Course and Interneship here. "One thing," Rick says, "that really helped me on the C/S Interneship – it increased my speed. I got better at finding errors that auditors make or better able to assess the case faster. That was one of the things I wanted to get out of the Interneship. I did get that."

"It was good as a C/S." Rick continues, "to get the certainty that I can train an auditor and get an auditor to produce a result on a pc. I gained that certainty and that gets better as I go along as well but the basic on it, the basis of it, I obtained on the Interneship at ASHO., It started there."

Rick was a professional musician before beginnning SCIENTOLOGY® services, and supported himself with his drumming for several years. When he discovered SCIENTOLOGY applied philosophy, he quickly decided to get trained as an auditor. He became a professional auditor soon after completing the Saint Hill Special Briefing Course. "I've always been searching. When I found SCIENTOLOGY [applied religious philosophy] I knew that this was what I was looking for. I feel that most of my gains came from training. To understand the rudiments and the basics of life makes life a lot simpler, a lot easier to understand the mind.

As a C/S Rick is very interested in seeing others become auditors. So, he recommends that people who do get trained *do* interneships.

"The data that one gets being trained is what really got me interested. It's essential for existence. Just operating on staff – if I hadn't had the training I wouldn't have ever thought about doing what I'm doing. My ability to confront is a lot higher. It goes smoothly and it's effortless."

"I would definitely recommend that a person go right on to their interneship after they've finished some auditor training. That way you get your tech polished up, you get the certainty, you get the expertise, and you don't build up overts* and blow off* the line."

"We've had success on people coming off their course and going on their interneship. When they do that they continue to audit.

"I've noticed big changes in a person's case, and their life. I really recommend training – I've seen it change peoples' lives. I've seen people on interneships get case gain that takes many auditing sessions. I think you probably get more tone arm* on an interneship say in a matter of 10 days than you would in a hundred hours of auditing."

Rick feels that for himself, the most rewarding aspect of his job is that he is helping bring about a Cleared planet. "I would say just the idea of working on the 3rd and 4th dynamic* and contributing to that – the intention of LRH of bringing some sanity to this planet and the universe."

Briefing Course Student Awarded Honorary LRH Public Relations Officer Status

Actress and Briefing Course student Linda Griffin-Bland. Linda has recently been awarded Honorary LRH Public Relations Officer status for her dissemination of Ron's Tech.

Actress Linda Griffin-Bland, currently on the Saint Hill Special Briefing Course, was recently awarded the status of Honorary LRH Public Relations Officer for her very active work in getting Ron and his tech known and widely used.

The role of an Honorary LRH PRO is to provide others with the data that will increase their awareness, revitalize their dreams and desires, and further their understanding that L. Ron Hubbard had provided a technology that does work. It is to give people information in answer to their demands for a happier, more productive and peaceful life. For many years Scientologists who are specialists, artists, celebrities, and opinion leaders in their fields have, as Honorary LRH PROs, fulfilled the demands from their associates for more data about Ron.

Linda, currently performing the lead in a rave-reviewed musical "The Amen Corner", has performed on Broadway and in a number of films. She makes a point of talking about and using the Tech wherever she can. "I've had more nerve than tech most of my life," she says, "but now I've got more tech, so I'm using it. That's how I decided SCIENTOLOGY tech works. I used to test it out. I'd just test out the comm formula in handling people and I'd find 'Oh that works – I like that.' So I decided it was OK to be a Scientologist."

Linda has been noted in the press for her exciting performance and her use of Ron's Tech – 'the Tone Scale Method" (using the emotional tone scale to aid in character portrayals), and Study Tech. She does use these as well as many other aspects of SCIENTOLOGY and DIANETICS™ technologies to bring about better performances by herself, her fellow actors, and the theatre team as a whole.

On completion of the Saint Hill Special Briefing Course Linda plans to take the Class VI Interneship and continue to apply the technology to those around her.

DIANETICS Campaign News

More DIANETICS campaigns to Come!

As the DIANETICS campaign in the US continues to get DIANETICS books into the hands of more and more people, new campaigns across the planet are being started, using the same successful LRH policies that were the basis of the US campaign.

In Denmark a campaign is already underway and over 5,000 copies of *DIANETICS: The Modern Science of Mental Health* have been sold recently (the typical bestseller in that country sells 3,000 copies).

Extensive survey research in several countries is also underway – an important step in campaigns for those countries, including Germany, Austria, Denmark, Switzerland, Italy, Sweden, and France. A special Sea Organization unit is now being formed up to run the campaigns in Europe.

US Campaign News

In the US *DIANETICS: The Modern Science of Mental Health* continues to be a bestseller:

The two newly and attractively redesigned DIANETICS books – *The Problems of Work and How to Solve Them* and *The Dynamics of Life* (*DIANETICS: The Original Thesis*) – have been released to the public and advertising and publicity has begun. "FOR OUR PURPOSES, THERE IS NO REAL LIMIT TO EXPANSION." - L. Ron Hubbard

VOL. 1 ISSUE 1

WE ARE EXPANDING!

by L. Ron Hubbard

FOUNDER

While the world goes down OUR statistics are going UP! All International Stats are hitting so high that even when they momentarily slump they come down to yesteryear's highest evers!

WE are going UP while the world is coming down!

Of course there's a certain amount of plain hell managing things in the hail of falling currencies, commodities and institutions. But all that takes is a hard line professionalism that keeps on going brilliantly despite the failures around us.

We are in actual fact booming during a worldwide crash!

Well, sociologists have been predicting for years that when things went to pieces culturally, a new religion would pick up the pieces. That's us.

This is OUR planet.

Keep this in mind: We CAN and ARE rolling forward and UP while the world comes down.

We not only *can* do it, we *are* doing it.

This is OUR planet.

We have the tech, we have the know-how of admin. We can use it fully and effectively.

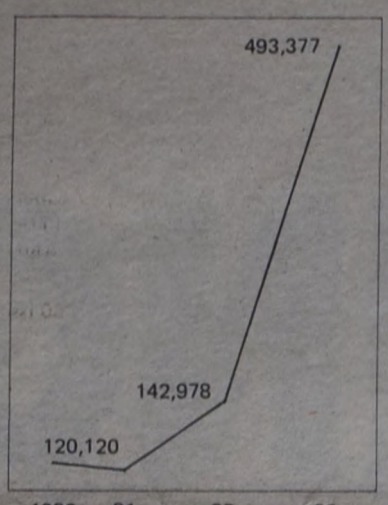

We might as well move in!

SCIENTOLOGY TECH T

DIANETICS™: THE MODERN SCIENCE OF MENTAL HEALTH BEST SELLER IN: 1950 1977 1983

Total sales of Dianetics: The Modern Science of Mental Health in US and Canada.

Total sales planet-wide of Dianetics: The Modern Science of Mental Health.

In the last six months over 200 distributors for the booktrade have started to carry and sell the books *Dianetics: The Modern Science of Mental Health* and *Self Analysis*.

A full marketing research, based on LRH policy, was done and, as a result, a National DMSMH campaign was launched in the US. Since last November, through this campaign, 130,000 copies of *Dianetics: The Modern Modern Science of Mental Health* have been sold to new public (non-Scientologists).

The *Self Analysis* book was redesigned and a new cover was made. With this new design and standard marketing, 45,000 copies of *Self Analysis* have been sold to non-Scientologists in the same time period.

DMSMH and *Self Analysis* are currently distributed by the major distributor for health food stores in the United States of America, which covers 8,500 stores.

DMSMH and *Self Analysis* have also been sold to distributors in Singapore and in the Far East. And right now, Dianetica (*Dianetics: The Modern Science of Mental Health* in Spanish) is the number 1 best seller of the Spanish self-help books and is distributed in over 400 Spanish-American bookshops!

Similar campaigns have started in the United Kingdom and in Denmark. Thousands of LRH books have been sold in these countries shortly after these campaigns started. In Denmark over thirty book advertisements have been placed in different magazines, and 126 movie theaters are currently playing the DMSMH film ads. Whereas the very best seller in Denmark sells an average of 3,000 copies, DMSMH is selling over 5,000! On December 6th, *Dianetics* was #1 on the West Coast Best seller list of the biggest West Coast distributor in the US – Ingram.

DMSMH is presently #4 on the National Best Seller list in the USA.

Thirty-three years after its release, DMSMH is still on the best seller list and continues to climb! On Sept 26, 1977, the Publisher's Weekly wrote about *Dianetics: The Modern Science of Mental Health*: "Perhaps the best selling non-Christian book of all times in the west is *Dianetics* by L. Ron Hubbard."

The above graphs show two of the sales statistics of *Dianetics: The Modern Science of Mental Health* alone over the last three years.

Note: All these *Dianetics: The Modern Science of Mental Health* books were sold to non-Scientologists.

"Therefore adequate promotion . . . will be responsible for all the successes we will experience in the future." – LRH

The future looks very bright indeed!

Miracles with Dianetics Technology

Every week, avalanches of success stories and recoveries with Dianetics Counselling are received from all over the world.

Lucille Surber, 71 years old, from Minneapolis is an example.

Until she had read the *Dianetics* book however, she was crippled with arthritis. Doctors had given up on her and all she could do was eat, sleep and take sixteen aspirins per day. Then her husband brought home a copy of *Dianetics: The Modern Science of Mental Health* and started reading her parts of it. She became convinced that if the book could do what it said it could to improve health, helping an individual overcome psychosomatic illnesses as arthritis, asthma etc., then she would try it.

After receiving some Dianetics Counselling, she achieved a complete recovery from her arthritis and felt much happier and able to live in general, all of which she attributed to Dianetics technology. She became extremely active, fulfilling a lifelong dream to get her pilot's license.

Lucille is reported to be the oldest person to receive a private pilot's license for the first time, after a rigorous training period in which this pilot must demonstrate a strong heart, sharp reflexes and muscle control, excellent eyesight, etc. Lucille is even a member of the Civil Air Patrol, which regularly rescues lost hunters and stranded mountain climbers. Lucille says . . . "*Dianetics* [technology] not only saved my life, it gave me a whole new one!"

A Planetary Dissemination Organization is Born

While the marketing campaigns for LRH books continue in the US, Canada, United Kingdom and Denmark, marketing of LRH books into the book trade is being prepared for Austria, Germany, Switzerland, France, Italy, Sweden, Australia and several other countries.

A planetary Dissemination Organization has been created to get Dianetics and Scientology books and services disseminated on a planetwide basis.

And in order to increase the dissemination of Scientology technology into the non-English speaking areas of the world, computers are being used to facilitate the translation of LRH basic books.

Seeing the success of the National DMSMH campaigns in the USA and Canada, several foreign publishers have requested the right to publish LRH books in their countries.

The planetary boom continues!

Scientology Network Gets Ron's Technology Used in the Society

SOCIAL COORDINATION

One of the networks of the Church of Scientology called Social Coordination (or SoCo) has the duty to bring standard technology into use by the society at large. SoCo's purpose is to revitalize and bring sanity to the society through standard application of Dianetics and Scientology technology.

The Study Technology and the Drug and Crime Rehabilitation Technologies are examples of technologies of L. Ron Hubbard which are in great demand in the society.

In Los Angeles, where street gangs were a constant plague both for inhabitants and City authorities, a project of rehabilitation for these street gangs was initiated, using the book by L. Ron Hubbard: *The Way to Happiness.*

The resulting improvements in safety and sanity in the area did not go unnoticed by the Mayor of the City of Los Angeles who awarded L. Ron Hubbard the praiseworthy "Mayor's Certificate of Appreciation" for LRH's outstanding contribution to the City.

In June, a team of rehabilitated former street gang members, will play a special baseball game against a team made up of celebrities and Narconon* staff members, in Los Angeles.

The ball game will be played as a fund raiser for *The Way to Happiness'* broad distribution in the city.

Stay tuned for more news of this expanding network.

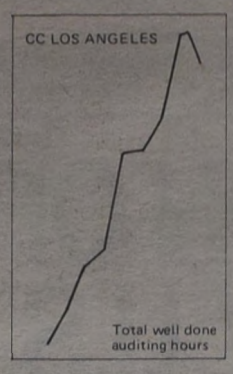

*NARCONON: Drug Rehabilitation organization directed by Social Coordination which uses the Drug Rehabilitation Technology of L. Ron Hubbard.

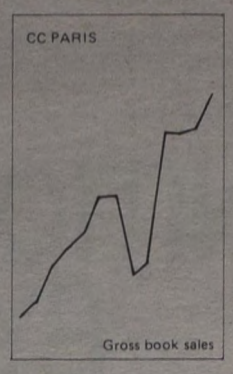

New Network Created for Celebrity Centers

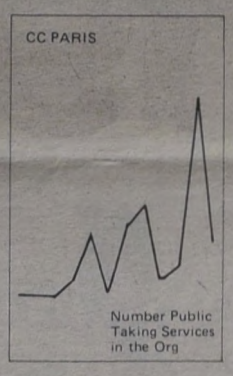

This year a Celebrity Center Network has been created.

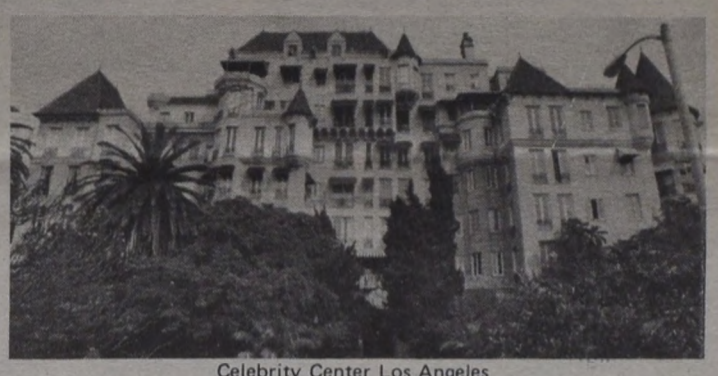

The Celebrity Centers' mission is tc actively disseminate and deliver Scientology services, professionally and standardly to celebrities as well as other public and thus to help their lives and careers.

The major purpose of Celebrity Centers is to MAKE CELEBRITIES EVEN BETTER KNOWN AND TO HELP THEIR CAREERS WITH SCIENTOLOGY.

Celebrity Center Los Angeles

"Celebrities are taking up Scientology.

"That's the sign.

"It's always the beginning of the big win when Celebrities – writers, actors, artists – begin to take something up.

"They are very smart to move in just now. We have the VIIIs* to make certain that processing quality is tops tops.

"Courses are being streamlined. The whole of Scientology is getting polished up.

"We're awfully glad to see big names amongst us.

"SO WELCOME BRIGHT STARS.

"WELCOME TO A NEW LIFE OF YOUR OWN." – L. Ron Hubbard

With the creation of the Celebrity Center Network, we have opened up new avenues which are getting us that much closer to a Cleared Planet.

The motto of Celebrity Centers is: "REAL CELEBRITIES DESERVE THE BEST IN STAFF AND SERVICE AND IMAGE." – LRH

With standard application of the Administration Technology of L. Ron Hubbard, a businessman of San Francisco has increased the income of his enterprise, in three years, by 4,487%!!

Here is an extract of the newspaper *SAN FRANCISCO EXAMINER* Oct. 31, 1982:

"Prolman is the largest supplier of game and game poultry in the world, and has changed the season on certain kinds of birds that can be raised domestically indoors. The first year, his firm's sales were $78,000. The second they were close to $700,000, this year gross sales are up to $35 million, with no signs of slowing down.

"He has bedecked his office with certificates showing completion of various Scientology programs, and his bookcase is lined with green-covered Scientology volumes. Involved with Scientology [applied religious philosophy] for the past two and one-half years, Prolman makes use of business principles he learned through one of the courses he attended.

"To avoid misunderstandings or resistance to his business philosophy, Prolman requires people he hires to take the *Dianetics Communication Course* (Dianetics, like Scientology, is the creation of L. Ron Hubbard). Invariably, he says, they're impressed and happily agree to his arrangements."

Continental Boards of Review for Staff and Public

With the current actions as guided and directed by International Management, Scientology International has stepped up its expansion higher and faster.

Some criminal elements who attempted to pervert and corrupt the tech and thus the Freedom and Eternity for others have now been put off the lines. The loyal and on-Source staff members, executives and Scientologists *are* getting the show on the road, bringing the goal of a Cleared planet that much closer.

Missions, groups, organizations and continents are booming with the full application of standard ethics, standard tech and standard policy.

In order to rectify possible injustices that may have been committed by now removed executives, a Board of Review has been established at Flag and in every Flag Operations Liaison Office in each continent. Competent persons, knowledgeable in the subject of Justice have been nominated and appointed to these Boards of Review.

"The function of a Board of Review is to look into injustices, technically incorrect findings and instances of flagrant injustice or out ethics actions which are destructive to stats." – L. Ron Hubbard (Extract from the Policy Letter BOARD OF REVIEW)

Our intention is to make it possible for everyone, staff *and* public, having suffered from known injustices to get these straightened out.

SCIENTOLOGY ORGANIZATIONS EXPAND ACROSS THE WORLD

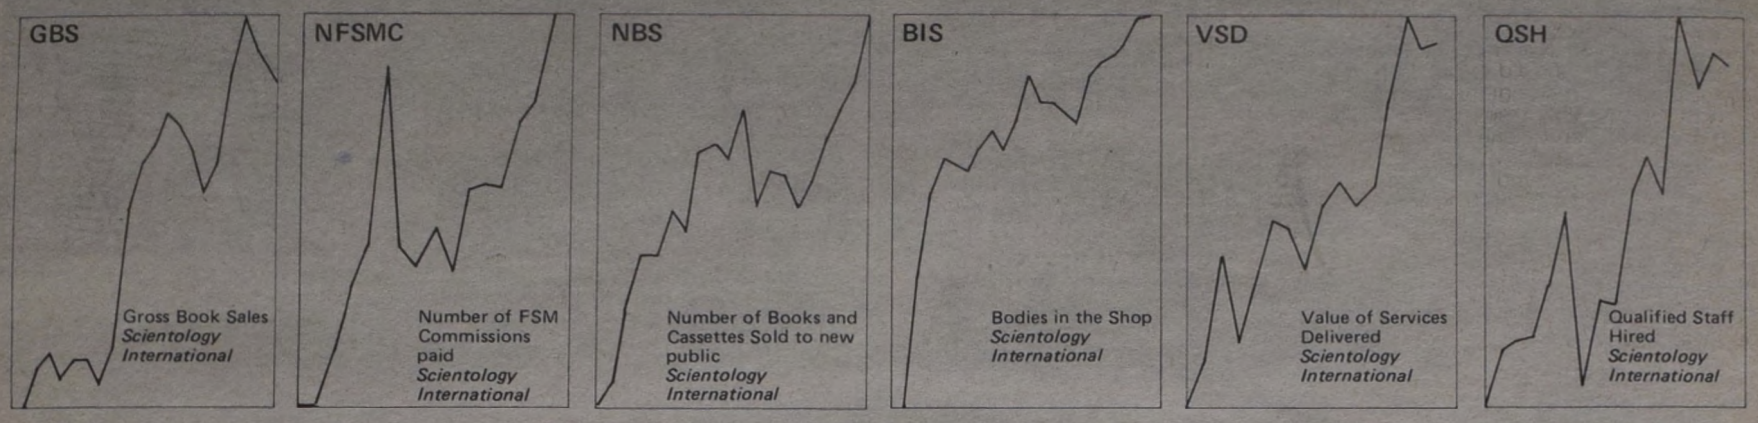

There are 138 Service Organizations across the world delivering the standard Bridge. There are 51 Organizations in the United States of America, 36 in Europe, 9 in the United Kingdom, 10 in Canada, 9 in Latin America, 11 in Africa and 12 in ANZO (Australia, New Zealand, Oceania).

About every country in Europe has a Class IV Org: Norway, Sweden, Denmark, Holland, West Germany, Belgium, Switzerland, Austria, France, Italy, Spain, Portugal and Israel.

The staff of these organizations are at your service, and these organizations throughout the world are expanding at a very fast rate.

For example: the organization of Milano in Northern Italy has 210 staff members. It delivers 1,450 Well Done Auditing Hours per week and over 450 new people start Dianetics and Scientology Services *every week*.

Similar expansion is occurring in the orgs around the world. Below are some international statistics (for Class IV Orgs):

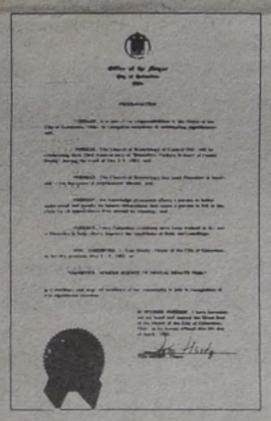

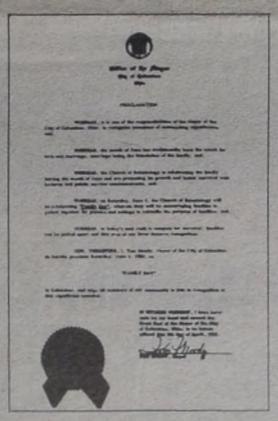

RECOGNITION OF L. RON HUBBARD BY U.S. MAYORS

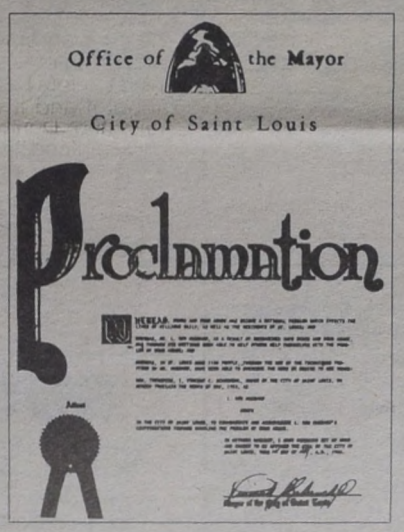

In the last few weeks several mayors of major US cities awarded L. Ron Hubbard proclamations for his outstanding contribution to the people of these cities.

The mayor of Saint Louis declared the month of May, 1983, L. Ron Hubbard month.

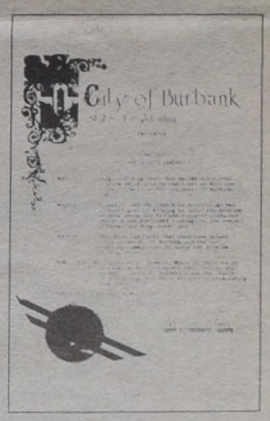

"By my own creed, a being is only as valuable as he can serve others." — L. Ron Hubbard

SUCCESSES

FLAG SERVICE ORGANIZATION

The Flag Service Organization (Flag) in Clearwater, Florida delivers all services — from the bottom to the top of the Bridge. Flag is known as "The Mecca for those who seek Technical Perfection". Several services are only available at Flag. Amongst these are the fabulous Flag L Rundowns and new OT VI and VII.

The Flag Service Organization regularly delivers 4,000 Well Done Auditing Hours every week.

From all over the world Scientologists are coming to Flag to do the highest OT Level released to this date, the New OT VII (also called Solo New Era Dianetics for OTs or SOLO NOTs).

After intensive training under standard supervision from highly trained personnel, SOLO NOTs auditors can solo audit this level at their home.

In the recent months, the number of SOLO NOTs auditors has more than doubled. There a are now 705 SOLO NOTs auditors in the world.

Here are some of the recent wins of public receiving services from the Flag Service Organization;

"This action not only found and handled several things that had caved me in, it handled things from childhood that I didn't know were there, and it handled things dating back to the beginning of the downward spiral . . . things that I would have thought would only be addressed on the upper OT levels.

"Hats off and thanks to the C/S for knowing how to zero in on a problem and untangle a snarled case. Thanks, also to my auditor and to Ron, the only one who ever figured out the structure of the mind." — K.C. 9 May 83

"Have just completed L-11, through which I've unburdened myself of charge in areas upon which my attention has been fixed for so long. This Rundown has finally unlocked the door of a new life for me. I feel great. My thanks go to Ron, my auditor and the C/S." — C.K. 9 May 83

"Absolutely knowing the technology protects you — it protects your group and ultimately the planet! Boy! I had so many cognitions and I felt so good doing this course. This course probably saved my life.

"Ron is such a genius — this was such a theta course. It hats a public with more guts! Unreasonableness is the answer!"
— L.M. (KSW Tech Course) 5 May 83

"This trip to Flag has been a real revelation! The C/Sing and the auditing has been spot on for me. I feel that this trip has allowed me to handle MANY things that needed handling, prompted many cognitions on how to have things go well for me on all dynamics, and freed me up to be who I am!

"GREAT thanks to Ron, my C/S and my auditor. Flag is the best!" — C.B. 10 May 83

"During this course I have to say that I recognized some amazing changes — such certainty on the data being studied that I've got to say 'thanks' for providing such a safe safe place to study this material in and a course room sup'd by beings who grant beingness to the student.

"I know that others MUST also get on this level as fast as possible — anything else is a total liability to themselves. Just as Ron said in his RJ 36 'When all is said it is you who will be with yourself at the end, and the state you find yourself in will be the answer.' "
— M.C. (Solo NOTs Course) 1 May 83

"It is an incredible joy to have standard auditing and C/Sing! For the first time in quite a while I am certain of where I am and what the right actions are for me.

"I feel stable again, and can enjoy life again. I like myself again! Thanks all, especially Ron for making the right path exist!"
— I.F. 10 May 83

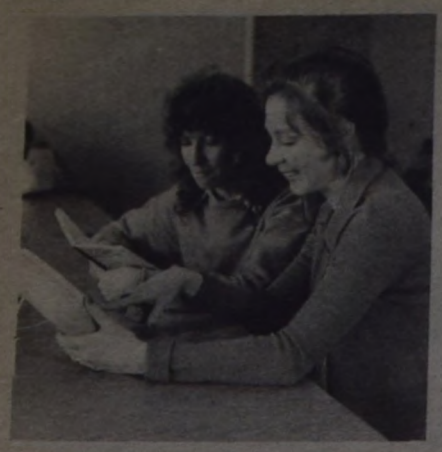

"The biggest win I got was coming down here to Flag to do the course. I have just loved the standard application of the tech and also love the particle flow. The course was short and relatively easy to do, but the gains are huge. I know now that I will definitely do my part to 'Keep Scientology Working', after all we are playing the most important game man has ever played.

"Thanks LRH for the tech, and thanks to the staff here for the good service and standard application of the tech."
— S.N. (KSW Non-Tech Course) 19 May 83

"I've come to really respect the Sea Org* and the standardness of training here at Flag. I'm particularly glad I did it here because now I know what the New Civilization is going to be like and that 'Keeping Scientology Working' is the guarantee of that New Civilization coming to be — in full. Thanks Ron for caring so much."

Focus on Success – ASHO Interneship Successes!

I'm very glad I did this Interneship. It was the most incredible experience I ever had because the service here was incredible. The Interneship rehabilitated my desire to audit NED. Auditing NED is some of the most rewarding auditing I've ever done. It's one of my favorite auditing actions, and I'd forgotten how wonderful it is to run engrams. LRH has laid it out so smoothly. I must say my best success was when I cleared one of my pcs! What more can I say!

— Cyndi Seidler,
NED Interneship

ASHO Training is *excellent*! What a totally incredible action!! The biggest wins I've had on the interneship have been applying standard tech standardly and seeing pcs flourish. The less vias and alterations on the line, the bigger the wins! This has never been more real to me.

The C/Sing is *excellent*. And the handling of auditors on the interneships is wonderful. The C/Sing, cramming and supervision were always directed toward my being a competent auditor and being and I really appreciate the care that accompanied these.

I *know* that I can produce sparkling auditing products now. *That's* incredible!!

It's impossible to have done the Briefing Course and not feel that Ron is your best friend. Then, getting to really apply that data on the interneship is challenging and it really makes you appreciate Ron and what he's done.

— Pat Mason,
Class VI Interneship

My Professional Word Clearers Interneship at ASHO was very standard. I handled things I didn't know were problems before I did the Interneship. I had to do so much word clearing that all kinds of different situations came up and by the time I signed off a particular action I was satisfied that I was flubless. That was *expected* – that I get flubless. I was allowed to do whatever was necessary to do that, and I appreciate that.

I had real wins on the interneship. I *really* helped others and had people really blown out with word clearing.

— Alexandra Andriola,
Professional Word
Clearers Interneship

My ASHO Interneship was absolutely phenomenal – basically the difference between ASHO and anywhere else that I've been is that at ASHO I know for sure that I'm fully a product. I audited in the HGC and I produced the results and I noticed that the entire HGC was getting results on *every single pc* that they audited and no failed cases in an area means standard tech is in. So I know that I audited with the best auditors and the best C/Ss on the planet. I was able to achieve a higher level of professionalism because of the terminals around me. I grew up as an auditor on the interneship. I now have the ability to audit the pc in front of me with the idea of doing something for the pc every time.

The interneship affected my certainty in that before I had the idea that I knew all about it and it would be nice to get it validated. During and after the interneship I noticed that it wasn't that I had it all– I had the theory of it, but not putting it into practice is so, so far from being a professional.

There's no substitute for an interneship by any means. It's the only way to become professional enough to always achieve standard results on your pcs.

The greatest gift that LRH has given me through the interneship is just the ability to help another being.

— Jim Jerling,
Class IV and Graduate
Class IV Interneships

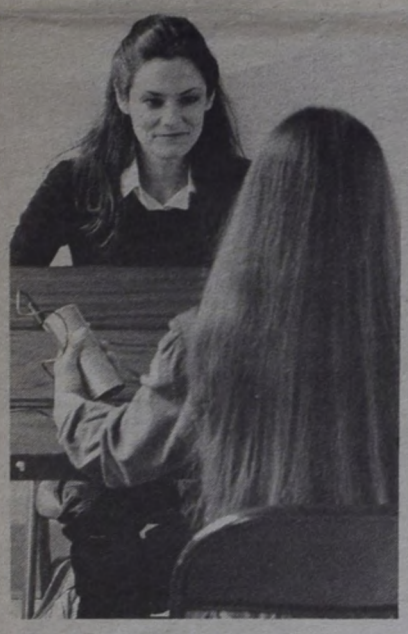

When I got into SCIENTOLOGY services I knew that I wanted to get the best service so I came here to ASHO. ASHO and Flag are probably the best places to train, so you've got the confidence behind you all the time that you're getting the best you can get.

The interneship turns you from a past-time of study just to get the data into actually applying it, and when you apply something it becomes yours a lot more. You're a lot closer to Ron because you'd be doing what he's doing.

When you go into session and apply it and you see the wins of everybody, you can't be uncertain –it's right there in front of your face.

— Rich Nisbett,
Class VI Interneship

Certainty and Exact Application

Certainty of the Tech, really knowing you've got the data straight, and the ability to audit flawless sessions, session after session, pc after pc. That's what doing an ASHO Interneship all about.

When you graduate your course, you need to do an interneship to earn the gold seal on your certificate that makes it permanent. On the ASHO Interneships you auditor under the top C/Ss who C/S for ASHO's case-cracking HGC. Your Interne Supervisor is a Class VIII, personally trained by LRH with years of experience guiding Internes through to completions. Excellent cramming and word clearing help speed you through your requirements. *Professional standards* are the rule, and when you complete you'll be ready to apply your course data broadly to life as well as getting excellent results on your pcs.

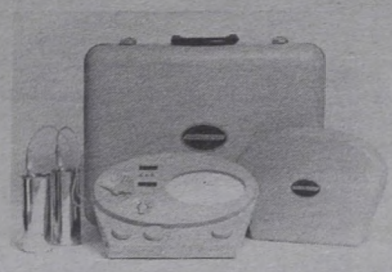

Achieve a high condition as a Scientologist by handling any uncertainties on the tech and learn to apply it with greater exactness – do your ASHO Interneships! Call the ASHO Day Registrar at (213) 665-9547 to start.
