Is There Hope for a Better World?

YOU CAN HAVE A CERTIFICATE

If you have read a book on Dianetics or Scientology and applied any of its materials successfully, and if you send the enclosed application, you will be sent your Hubbard Book Auditor's Certificate, without charge.

The Book Auditor is our oldest auditor. Book Auditors existed long before any other kind.

And every auditor begins as a Book Auditor.

Lately in all the rush and scurry to reach the top technically, we have neglected my favorite friend, the Book Auditor.

I have always appreciated and admired the Book Auditor for he has to have nerve and guts to begin and carry on with only a bit of faith and hope.

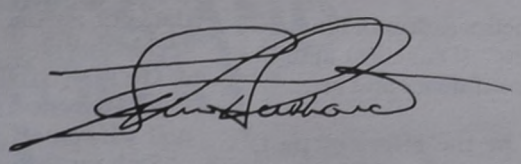

And as we grow, I surely don't want to forget this friend.

It is the first real stepping stone.

One reads a book and applies it. And suddenly one finds he can change someone or improve the environment and one is on his or her way.

The biggest news about this is not just the certificate, however.

We can't build a better world without the Book Auditor.

What is Dianetics™?

by L. Ron Hubbard

Dianetics means "through the soul" (from Greek *dia*, through, and *nous*, soul). It is the first fully precise science of the mind. The world before Dianetics had never known a precision mental science.

Dianetics was first publicly released in 1950 with the book *Dianetics: The Modern Science of Mental Health,* and has been increasingly successful since that time.

Physical illness, aches, pains, continual exhaustion, body malfunctions are created or held in an unchanging state by the mind. This is called psychosomatic (*psycho*—spirit, *somatic*–body) illness. It has been known about for a century but there has never been a positive remedy before Dianetics.

The actual source of psychosomatic illness has been located in Dianetics.

No drugs, no hypnotism, no mechanical treatment is used.

The end product of Dianetics is a well, happy, high IQ human being. It does not attempt and should not be confused with the end product of Scientology which is spiritual freedom.

Though they hold in common certain basic tools, Dianetics and Scientology are not identical subjects and their technologies are not the same.

Dianetics is the route from aberrated (or aberrated and ill) human to a well, happy, high IQ human being. Scientology is the route from there to total freedom and ability as a spiritual being.

In early Dianetic research the human mind and basic human character were found to have been most grossly maligned because Man had not been able to distinguish irrational conduct derived from another, far more vicious source.

The *reactive mind* was discovered. The reactive mind is a portion of a person's mind which works on a totally stimulus-response basis, which is not under his volitional control and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions.

The isolation and resolution of the reactive mind was a major breakthrough for Man.

The exact moment of the breakthrough is recorded with the book *Dianetics: The Modern Science of Mental Health.*

The basic building block of a society is the individual. From individuals, groups are built. And this is the society. No society is better than its basic building blocks.

Men are *not* animals.

Well men are sane men.

Dianetics, if applied to individuals in the society, brings hope and well and sane beings.

These well and sane beings, sent on to Scientology, then become brilliant and very able beings.

We are evolving Man to a higher state.

Improve Your Life with Di

A Description of Dianetics and Scientology

by L. Ron Hubbard

The human mind and basic human character was found to have been most grossly maligned because man had not been able to distinguish between irrational conduct derived from poor data, and irrational conduct derived from another, far more vicious source.

The *Reactive Mind* was discovered. It had managed to bury itself from view so thoroughly that only inductive philosophy, travelling from effect back to cause, served to uncover it. The Reactive Mind is a portion of a person's mind which works on a totally stimulus-response basis, which is not under his volitional control, and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions.

Stored in the Reactive Mind are *engrams,* and here we find the single source of aberrations and psychosomatic ills.

These engrams are *a complete recording, down to the last accurate detail, of every perception present in a moment of partial or full unconsciousness.*

In all laboratory tests on these engrams they were found to possess "inexhaustible" sources of power to command the body.

The isolation and resolution of the Reactive Mind was a major breakthrough for man. The exact moment of the breakthrough is recorded at the public level with the book, *DIANETICS: The Modern Science of Mental Health,* and if people have not read this book, they just will not have broken through, whatever else they have studied. And when people are asking you questions about Dianetics and Scientology, no matter how obtuse or abstruse the questions are, your best answer to these is still my earliest answer and that was *DIANETICS: The Modern Science of Mental Health.* This book burst on the western world in May 1950, shot to the top of the leading "best-seller" lists and stayed there, and stayed there. It still sells more copies around the world than the average best seller in any given year.

Man had no inkling whatever of Dianetics. None. This was the bolt from the blue. Man was hacking and sawing and shocking and injecting and teaching and moralizing and counselling and hanging and jailing men with enthusiasm without any idea at all of what caused Man to behave as he did or what made him sick or well.

The answer, and the place where one begins, was and still is Dianetics. It is Man's most advanced school of the *mind.* Though they hold in common certain basic tools, Dianetics and Scientology are not identical subjects and their technologies are not the same. But the early days of Dianetics were the early beginnings of Scientology. Dianetics is the route from aberrated (or aberrated and ill) human to a well, happy, high-I.Q. human being. This breakthrough had never before been achieved in Man's history. Scientology is the route from there to total freedom and ability as a spiritual being.

There are two distinct divisions in Scientology. The first is philosophic, the second is technical. Under the philosophic heading one discovers the ways and means of forming new ways of life and evaluating or creating standards of livingness and beingness. By this knowingness alone and without processing (individual technical applications), it should be understood clearly that a new way of life could be created, or an old way of life could be understood and better endured or altered.

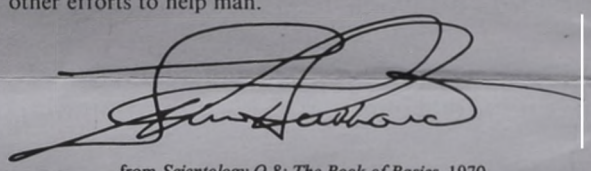

Under the technical division we have a long series of developed processes which, applied immediately and directly to life or an organism thereof, produce desirable changes in the conditions of life. This division comprises Applied Scientology or Scientology, Applied Philosophy and contains *standard technology.*

Scientology concludes and demonstrates certain truths. These truths might be considered to be the highest common denominators of existence itself. They have the aspect of precision observations rather than philosophic hazardings. When treated as precision observations, many results occur.

The average man is up against problems. He's asking himself, how can I make more money? How can I make my wife faithful to me? How can I help my children grow up? These questions absorb a tremendous quantity of his energy. But he can't do anything about it because he is so immersed in it. So in Scientology processing he resolves these questions, he understands what he's doing, and he turns from a man who is simply a puzzled static being into somebody who is more than that.

We see governments and societies desperately trying to help man. They're trying, however, to solve his problems *for* him and their efforts to do this have not resulted in any great advance for man.

Now the real work is to put an individual into a mental condition where he can confront his own problems and solve them – to put him in a position where he can confront life better, where his reaction-time is better, where he can identify the factors in his life more easily. And so he looks around, starts solving his own problems and betters his own life. That is an essential difference between Scientology and other efforts to help man.

FOCUS ON SUCCESS
Happy, Successful Lives through Dianetics Auditing

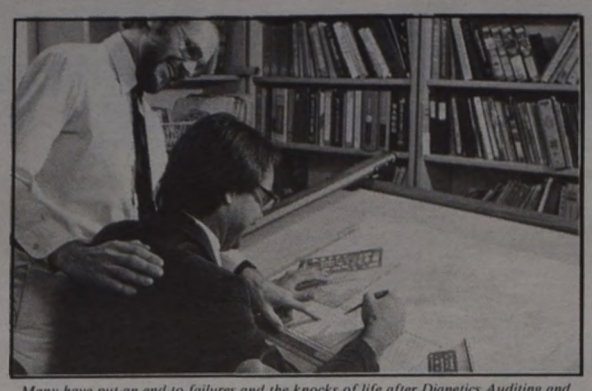

A man in New York who had been stricken by the loss of his wife, and hadn't moved out of his chair in a year, was given Dianetics auditing. He found that his underlying upset was a childhood loss, and he was able to walk again.

A woman in West Plains, Missouri, wrote after receiving Dianetics auditing, "After only a few hours of auditing, it left me at peace with my life, even after so many losses – death of my 14-month-old grandbaby, several grandparents and relatives, two divorces, disappointments, abuse (physical and mental). I only wish everyone I know could have the same chance again as my daughter and me have had with Dianetics auditing, so they also could be happy again."

Improved and happier relationships have been experienced by many after Dianetics Auditing.

An Australian football player was told he would never play again because of a severe neck injury. After three years of painkillers, X-rays and expensive treatments, he had lost his motivation and his zest for life. Then he got Dianetics auditing – and within three months he returned to his old team and became one of their top players.

Many have put an end to failures and the knocks of life after Dianetics Auditing and experienced a new confidence in themselves.

A man from Washington, D.C., reported, "I've not spoken to my mother for a number of years due to a divorce. But after a (Dianetics) counselling session my mother came more and more to my mind. Last week I went to see her with my current wife. A lot of hard feelings were ironed out and really a new beginning did happen. A family unit was re-established, and a lot of good feelings came out of it for everyone. The recollections of the past really helped to initiate the trip and were a great part of the reunion."

A chiropractor who coached the Kenya Olympic team reports that he treated a runner with a severe inflammation of an Achilles tendon, a kind of injury that normally takes several months to heal. Using Dianetics along with his work, the runner was back in training in 10 days.

Achieve the goals you set yourself. Get Dianetics Auditing now!

A concert pianist, while touring the world, obtained a copy of *DIANETICS: The Modern Science of Mental Health* in 1950, in Paris. He writes, "When I read the book I re-read and re-read and re-read it. I almost knew by heart whole sections." He began by auditing his friends and then he himself became one of the first Clears. "I knew that things had changed all along. I made gains the whole time. I was more myself, more in command of my life. I made decisions where before I had had indecisions." Thirty-five years later, he still uses Dianetics techniques.

YOU can get Dianetics auditing too! Come to your nearest Hubbard Dianetics Research Foundation today to start! Or, for an appointment and to obtain more information, write to the Letter Registrar at your nearest Church of Scientology or call this toll-free number: 1-800-FOR TRUTH.

DEFINITIONS

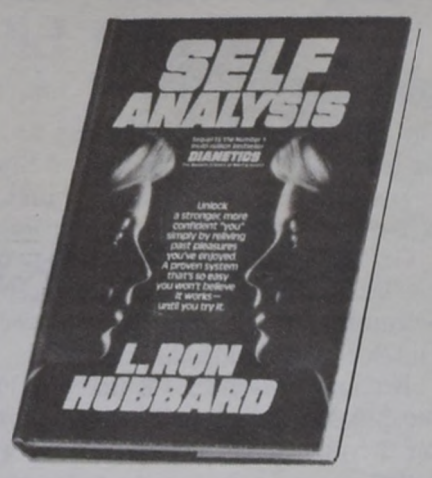

ARC: a word from the initial letters of Affinity, Reality, Communication which together equate to Understanding.
Auditing: Processing, the application of Dianetics or Scientology processes and procedures to someone by a trained auditor. The exact definition of auditing: the action asking a preclear a question (which he can understand and answer), getting an answer to that question and acknowledging him for that answer.
Auditor: a person trained and qualified in applying Dianetics and/or Scientology processes and procedures to individuals for their betterment. Called an auditor because auditor means "one who listens". An auditor is a minister of the Church of Scientology.
Book One technology: [(spiritual healing technology applied exactly as stated in *DIANETICS: The Modern Science of Mental Health* by L. Ron Hubbard.]
The Bridge: 1. the route to Clear, the Bridge, which we call the Classification, Gradation and Awareness Chart. 2. a term originating in early Dianetics days to symbolize travel from unknowingness to revelation.
Class: a technical certificate in Scientology goes by classes on the gradation chart.
Clear: a being who no longer has his own reactive mind.
DIANETICS spiritual healing technology. (Greek, *dianetikos* — through soul; through thought) introduced May 9, 1950 with publication of the book *DIANETICS: The Modern Science of Mental Health*, international best seller by L. Ron Hubbard which contains his early discoveries about the mind, including the first isolation of the single source of human aberration and psychosomatic ills and a technology for their invariable resolution.
Grade: the word used to describe the attainment of level achieved by a preclear. Grade is the personal points of progress on the bridge.
Hat: . . . a slang term meaning one's specialized duties.
Hubbard, L. Ron Hubbard: [Founder and Source of Dianetics and Scientology (applied religious philosophy and technology).]
New Era Dianetics (NED) refined spiritual healing technology: a summary and refinement of Dianetics technology based on 30 years of experience in application of the subject.
Objectives: Scientology processes which familiarize a person with his environment, the physical universe.
Preclear (pc): 1. a person who, through Scientology processing, is finding out more about himself and life. 2. a spiritual being who is now on the road to becoming Clear, hence preclear.
Process: a set of questions asked by an auditor to help a person find out things about himself or life.
Saint Hill: the name of LRH's home in East Grinstead, Sussex, England. LRH taught the original Saint Hill Special Briefing Course at Saint Hill from 1961 to 1965.
Saint Hill Special Briefing Course: has certain distinct purposes. The course was begun to do two things: (1) to study and resolve training and education; (2) to assist people who wanted to perfect their Scientology.
Scientology applied religious philosophy: (Latin, *scio*, knowing, plus Greek, *logos*, study: "knowing how to know" or "the study of wisdom") an applied religious philosophy discovered, developed and organized by L. Ron Hubbard. This philosophy is a body of knowledge which, when properly used, gives freedom and truth to the individual.
