THE MONTHLY JOURNAL OF SCIENTOLOGY

WHAT IT MEANS TO BE A SCIENTOLOGIST

By L. Ron Hubbard

The gateway into Scientology is the desire to achieve a gain by the use of Scientology. The desired gain would be the achievement of having a philosophy of life that can apply to life. Scientology is an applied philosophy.

Now you, a Scientologist, think of yourself undoubtedly as being something new under the sun but this is not true. If you carefully look over Greek philosophers, the basic customs and belief of Man over a long period of time—I am now talking in terms of tens of thousands of years, as far back as you can reach—you will find out that we are echoing, in Scientology, his hopes and his aspirations. We are echoing the things for which he has fought, the things which he has tried to attain in life. We are in the best tradition of Man's philosophy on the subject of Man. Just because the data has been summated and pulled into sharp importances which evaluate and which then *do* more for man than philosophy had done before, does not divorce us from this very long track at least 2,500 consecutive years from the earliest records we have on thinkingness. The early philosopher was trying to shake apart some of the basic data of the universe and understand it. He was trying to hang things together. We actually are working in direct succession, very direct succession, from somewhere in the neighbourhood of 2,500 to 3,000 years of what's considered formal philosophy. We don't vary anything off of this line at all. But there has been a variation within the last century.

An educated man, a few centuries ago was expected to know a great deal about human behaviour and livingness, but something happened between then and now. Take an educated man of today and you'll find him with no command of basic philosophy. No feeling of humanity or understanding of his human race. Quite informative.

In the last century there was a tremendous departure from formal philosophy. Psychology has always been the study of the mind or spirit. "Psyche" is Greek for spirit. But modern psychology has nothing to do with the mind or the spirit. Or with man's soul or anything. It's simply some kind of a dissertation on brain cells or brain function and demonstrates conclusively that all thought comes from mass and that Man is an animal and that's that. And these words of great wisdom have complete variance from anything that had been said in all the centuries preceding. They were uttered by a chap by the name of Wundt in Leipzig, Germany, in 1879. He's the only authority for modern psychology as taught in universities and he has no bearing whatsoever on anything else Man has ever thought on the subject of his own livingness and beingness.

Now you realize that, today, the bulk of the human race is walking around with the belief that there is something wrong somewhere, but they don't quite know what it is. The hideous thing is that people at large are not aware of a very interesting thing—that anything at all can be done about anybody.

They are not aware that anything can be done about anybody. The cop who gives you a ticket takes it in his normal stride that this is just the way it is. The hospital attendants who pick the remains out of the drunken driving wreck, the very best thought in various professions that *should* have to do with this, are all agreed that there is nothing you can do about it.

Now some place along the line, some group had to take over the responsibility of turning the tide of this course of thought. That's Scientology. Improvement is the common denominator of all our ideas. We have know-how. Scientology, for the first time in Man's history, can predictably raise intelligence, increase ability, bring about a return of the ability to play a game, and permits Man to escape from the dwindling spiral of his own disabilities. Life can be put back into the devitalized. One can take the so-called "normal" person and send his state of being up to levels of brilliance and success not possible before. And it can be done with Scientology.

One of the great truths of Scientology is that increased awareness is the only factor which offers any road out. That is an awfully simple truth, but you'll find out that people don't know that. They think that *less* awareness is the road out—and that is the road down into the basement.

There are those who believe in hypnotism, fixed loyalties of one kind or another, and the idea that nobody can do anything with his mind anyhow. They believe that Man is an animal, that he thinks with his brain. They believe and teach people, because they know these teachings are destructive, and all thought eminates from force only, and that Man has no soul and he has no mind.

There is a battle which is going on in the world at this time and that should be understood. There is no good in the world that is not fought by some. The holiest saint, the purest knight, the most orderly group alike have been subjected to attacks since Man's beginning. And Scientology is no exception. The turbulence of the society around us is fantastic. There is no just civil law left, really. It is that lawless and disorderly condition in the society about us which makes it hard for us to work.

We live in a civilization where some madman can sit in a government chair telling everybody how bad it all is over there and so forth, then all of a sudden get 30 million people killed, as one fellow named Hitler did. This is an interesting civilization and that is because people don't know who they are, or what they are, or where they are going or what they are doing.

What happens to Scientology and Scientologists in a world of this character? Well, our basic attitude toward the world at large will have to be more and more an auditor's attitude if we are going to accomplish survival. (Auditor: A listener, or one who listens carefully to what people have to say. An auditor is a person trained and qualified in applying Scientology processes to others for their betterment.) It might be said that we are starting from nearly nowhere and trying to go somewhere. However, we have the tools to do this.

We have the whole world to handle now. We happen to be living in a house full of people, a house called Earth, and it's all full of people. If they consistently drop out of communication, and if their labours cease to afford produce and assistance to their neighbours, is there any hope that anybody will be able to put them back into communication or back to work again? Is there any hope that this will take place?

What it means to be a Scientologist

(continued from page 1)

Yes, there is a hope. We are rich in knowing how to exactly handle such circumstances or conditions. Nobody knew before. That is factually true here on Earth. You will find yourself being more and more an auditor as time goes on.

I think of an auditor as a person with enough guts to *do something about it*. This quality is rare and this quality is courageous in the extreme. It is my opinion and knowledge that auditors are amongst the upper tenth of the upper twentieth of intelligent human beings. Their will to do, their motives, their ability to grasp and to use is superior to that of any other profession.

This is a pretty daffy planet in a rather strenuous universe. When you start to introduce order into anything, disorder shows up and blows off. Therefore, efforts to bring order in the society or any part of it will be productive of disorder for a while. The more able people we have, the better we can control the confusion of an area. A group is as capable as it contains capable individual members. The more people who are trained, the more successful we will be.

We're not now in this for play. Our personal futures depend on keeping going and making no major errors. It isn't a question of—"Is there something else?" There isn't. Nobody can be half in and half out of Scientology. Scientologists are Scientologists no matter what they do for a living. The prize is regaining self and going free. If we're going to make this, we have to work at it personally, and as a group and work well. Therefore every Scientologist should understand his own technology, codes and procedures. And use them.

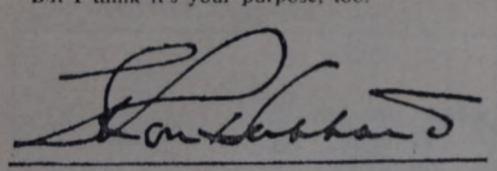

That's the main lesson. We are the only group on Earth that does have a workable solution. It's time we realized it and used it, every one of us. We must set a high example of teamwork and dedication if we are to bring it off.

Scientology can and does change human behaviour for the better. It puts the individual under the control of himself—where he belongs. It is a science of life and it works. It handles the basic rules of life and it brings order into chaos. So let's grow up to our own technology and take responsibility for it. And do our jobs as Scientologists to the world.

My purpose is to bring a barbarism out of the mud it thinks conceived it and to form, here on Earth, a civilization based on human understanding, not violence.

That's a big purpose. A broad field. A star-high goal.

But I think it's your purpose, too.

NEW WORLD TOUR: BILL DEITSCH AND ALISON PARKHOUSE TO LECTURE

Brilliant Scientology Public Lecturers, Bill Deitsch, Clear 229, Section Six O.T., Class IV, and ALISON PARKHOUSE, Clear 310, Section Six O.T., both members of the Sea Organization, are scheduled to lecture to the broad public and to fellow Scientologists in the field and in every one of the twenty-one Scientology Organizations in the world.

Bill has already scored phenomenal success in his tour of the United Kingdom. When he lectured at the London Organization on 6th March, 240 people poured into the lecture room and overflowed up the adjoining stairs and into the hallways to hear him. The response was unrestrained. One woman, for example, who had never heard of Scientology before, bought a 25 hour auditing intensive and all the training courses from Level O to Level VII! Alison has had eleven years of continuous outstanding success as a lecturer to the public. Bill and Alison *really communicate* to each member of the audience and are scheduled to create this intense demand for Scientology in every one of their lectures throughout the world.

They will commence their tour in London and then visit Paris, France; Munich, Germany; Copenhagen and Hellerup, Denmark; and Gothenburg, Sweden. Then they will follow the route used by John McMaster on his own current world tour, starting with

Relaxing in the sunlight, Bill Deitsch chats with Saint Hillers prior to his world tour.

Perth, Adelaide and Sydney, Australia, commencing in mid-April, 1968, and continuing on to Auckland, Hawaii, Los Angeles, San Francisco, Seattle, Twin Cities, Austin, Miami, Washington, Detroit, Toronto, New York, Johannesburg, Cape Town, Port Elizabeth, Durban then back to London and Saint Hill. Scientologists in each area will be advised, in advance, of the exact dates of Bill's lectures.

TREMENDOUS RESPONSE TO "RON'S JOURNAL '67"

Towards the end of 1967, L. Ron Hubbard released a remarkable tape-recorded message to be heard by every Scientologist in the world. It is called "Ron's Journal '67" and was made by Ron to inform all Scientologists of the breathtaking advances he has made in his researches beyond Clear and to reveal many exciting things which he wants each Scientologist to know about. The response to this message has been tremendous.

Every Scientology Organization in the world is playing Ron's special taped message very frequently to make sure that no Scientologist or friend of a Scientologist misses the wonderful chance to hear Ron describing his experiences in finding the path through what he calls the "Wall of Fire" on the levels above Clear. In his spell-binding message, Ron precisely indicates the source of suppression on Earth and he reveals how the new Sea Organization will play a vital role in rehabilitating the planet.

The effect upon Scientologists, old-timers and new Scientologists alike, is quite miraculous. The inevitable response to hearing "Ron's Journal '67" is a strong desire to get moving quickly on the Road to Total Freedom, to come to Saint Hill, to buy more Scientology books, to enrol for lower level training and processing or to join the staff of a Scientology Organization.

In Los Angeles, 350 enthusiastic people attended the first playing of the tape on 21st January 1968 and another 142 people heard the second playing on 18th February 1968. In Seattle, the tape has been played three times, so far, to 173 people. Twenty-three people enrolled for training or processing and two more staff members were added to the Organization. Carloads of people came to the Miami Organization from a nearby Franchise centre to hear Ron's message. Seventy people attended the 4th February 1968 tape play there. The Washington and Toronto Organizations are playing this sensational tape weekly, to answer the demand to hear it.

San Francisco Organization held the first playing of Ron's message in the St. Francis Hotel, in the centre of the city. Extra rows of chairs had to be brought in to accommodate the crowds. Some comments of newcomers to Scientology were:

"Ron Hubbard has a very big love in his voice—very open. It really comes through." "I'm very new to Scientology, but I'll be coming to the very next beginning lecture that I can!"

In every Organization, this eager response follows each playing of the inspiring message given by Ron in "Ron's Journal '67".

Make sure you hear Ron's tape. If you haven't yet, write to the Distribution Secretary of your nearest Organization (addresses are on the back page) and demand to hear it!

Strong interest now focuses upon the personal progress, on the Road to Total Freedom, of each pioneer Scientologist since the issue of *Auditor* 8 in June, 1965.

Superbly-conducted seminars will guarantee that every Congress delegate receives tremendous personal and highly practical gains from this beautifully organized three-day event.

Highly experienced Scientology staff members, coordinated by Saint Hill, are working together to plan every detail of the Congress, including the flawless sound system for the special tape lectures by L. SCIENTOLOGY MAKES A SAFE ENVIRONMENT

By L. Ron Hubbard

We're working to provide a safe environment for Scientology and Scientologists in Orgs everywhere.

The dangerous environment of the everyday world, of injustice, sudden dismissals, war, atomic bombs, will only persist and trouble us if we fail to spread our safe environment across the world.

It starts with our own Orgs. They must be safe environments.

Only good technology and Ethics can make the Org environment safe. Like an auditing room, we must be able to work undisturbed by the madness at our doors.

We can make every Org a safe island then, by expanding and joining those Orgs, bring peace and a safe environment to all the world.

It not only *can* be done. It is happening this moment. Push it along. Support policy, good technology and Ethics.
