THE VALUE OF SCIENTOLOGY

BY L. RON HUBBARD

Selling Scientology is like trying to market gold pieces.

People come around and look and wonder if the gold pieces *are* gold pieces.

Some others, of a more aboriginal type, have never even heard of metal, much less gold.

Some, who sell bad brass as gold, work very hard to convince one and all that the gold pieces of Scientology are as counterfeit as their brass, but that their brass is really gold.

Others, who don't want anyone to be rich shout and scream and have tantrums about anyone ever being offered any gold pieces.

And so it goes.

But the *truth* is that Scientology is far more precious than mere gold.

For this brief span of time we were able to develop, communicate and apply swift, accurate technology which brings a man from the slough of despond to the brilliant joy of spiritual existence.

In this brief time we have organizations functioning and auditors auditing which deliver the exact, correct, speed swift technology to every being.

During this period we have our chance to end going down, down, down to illness and perpetual death and swing upward toward the sun.

We are delivering the RESULT, the mere promise or dream of which sustained the populaces of the orient and occident for thousands of years.

Anything religious teachers said or Buddha promised, even the visions of Christianity, are all attained in Scientology as RESULT!

Well, the fact is just too big.

It's too factual.

We are working on a planet that will do for a nut house until a crazier one comes along.

The governments we deal with cannot prevent riot, assassination of their leaders or total infiltration by any of their enemies. War waits with a hair trigger for another mistake by incompetent leaders.

Mental "health" has been perverted into an excuse for a Belsen or an Auschwitz by the older practices in the field.

It's an operating climate of danger and chaos.

We are trying to do our jobs.

It's like trying to pull a wounded water buffalo out of a wallow. That you even try to help him is sure "proof" to him that you mean no good.

Trying to run an Org, keep tech pure and well applied in such an operating climate is pure hell.

We are doing pretty damned well. Staff members and trained Scientologists over the world are doing a job not even the saints could do.

The dedication is fantastic, yet they do not look upon themselves for what they are—heroes who make the heroes of ages past look like muddled kids.

There is one thing you can count on.

We will continue to do our jobs. We have done them so we can be expected to do them.

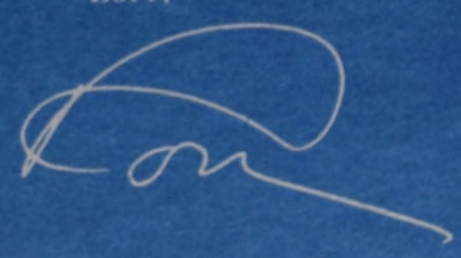

A happy '69 to you

As Scientology enters AD (After Dianetics) 19, we have big plans and purposes to make this a better world for everyone in Scientology.

Less Ethics, more tech, bigger orgs, new civic groups and all the truly good things in life.

But be that as it may, what I want to say is, I'm hoping for a really good year for YOU personally. I'm doing all I can to make it so.

Love,

Not all the screaming apes of press or the cold sadists who run the "learned societies" are likely to be able to stop Man's first chance for immortality and the sun.

The value of Scientology includes the integrity, devotion and dedication of Scientologists and Scientology Orgs.

Remember that when you meet a critic. Remember also that he's just in your road and isn't going anywhere but down.

NO one could ever do the job before at all.

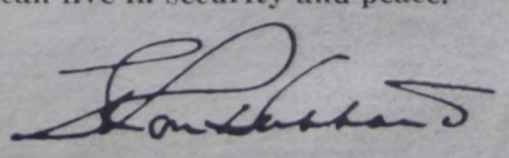

We're doing it.

We'll keep on doing it.

We're making sure if rugged headways.

Those of other opinions are fully entitled to their terrors and their weaknesses, their darkness and their death.

The rest of us not only can win but have won. And someday who knows, if we're lucky and do our jobs, this won't always be the maddest planet in the universe. It will be the brightest one where beings of good will can live in security and peace.

The Sea Org? What is it?

In early 1967 I organized the Sea Org in order to find and survey operating bases.

Before the year was out, the Sea Org had found a new role.

Today the Sea Org is the custodian and guarantor of pure technology. Standard Tech, Standard Admin, Standard Training — these are the things Sea Org Members are trained and dedicated to safeguard.

Since 1950, I have had to wear this hat pretty much by my lonely. Yet it was obvious that Scientology would only go so far as it worked and that it worked only as far as it was precisely applied. And it was best applied only with standard administration.

Now to guarantee a standard you have to have a highly disciplined, highly trained group and that's the Sea Org.

They are specialists.

They are very highly trained.

They are a highly disciplined, highly dedicated group.

They are on ships because they need to be mobile. They have to be able to pour out people to set up new bases or man or correct old ones. And that is most easily done from ships.

The ability to confront and handle Mest, is a requisite to people who do this type of work. So ships also provide that. And they are also fun. And also the Sea Org started looking for ideal bases and in the process found it was the most functional to be afloat.

Sea Org members, besides taking to the sea as sailors, have to be ready to do almost anything on very short notice.

The Sea Org now has five ships in various parts of the world.

In every port the Sea Org leaves, there are lots of tears and fond farewells. And new ports get to love us very soon.

A target of the Sea Org is every SO member an OT. This is only slowed by our requiring a Class VI before Solo. A large percentage of the SO are Clears or higher.

The guys and girls and cadets of the SO are a very fine bunch. Like all Org people and Scientologists all over the world.

Technology is safe in Sea Org hands. And in event of atomic war the basic tech materials are also safe as they are afloat.

That I am with the Sea Org doesn't mean I'm not around.

THESE ARE TODAY'S STARS

Start a Scientology Group in your area

Write your GROUP OFFICER in your nearest org. He can give you programmes. Get your friends together and elect a President, Secretary and Treasurer. Apply for a GROUP CERTIFICATE. Get in new members.

The purposes of a group are:

1—To discover the purposes and targets the citizens in your area consider most desirable to improve the area.

2—Publish and arouse interest in the targets.

3—Work with other civic groups to co-ordinate action on these targets by means of setting and accomplishing of short-range and long-range targets (the short-range being parts which, when done, add up to a long-range target).

4—Study and use Scientology to improve the reach of one's own group and the leaders of other groups.

The Group Programme works on the motto, "A Community that Pulls Together Can Make a Better Society For All." We will call these "GUNG-HO GROUPS." The word Gung-Ho means "Pull Together" in Mandarin.

Remember, we have the basic laws of organization as well as the basic laws of life.

So write the Group Officer in your nearest org and ask for full directions on how to start a group in your area. This could be a very important step for Scientology and your Community.

Become an FSM

Field Staff Members are urgently needed by your nearest Org. If you can't join their staff full time or evenings in the Foundations, you can become a Field Staff Member.

The Field Staff Member supports himself with commissions.

Today he has a NEW ROLE. He is Scientology Organization Contact Man.

We are now going into the exciting activity of bringing civic groups together, churches, clubs, important people to HELP THEM MAKE THIS A BETTER WORLD THEIR WAY.

These groups all have purposes and goals to improve society or the world. We cannot do without them, they can't do without us.

By putting all in such positions as group leaders right up top in leadership, IQ, communication ability, so they can handle their lives and problems, they can attain their group purposes and the better elements of society can win where they have been losing.

The FSM should get trained up and take over the helping of local groups. That's the programme coming up.

YOU CAN BE A KEY BEING RIGHT WHERE YOU ARE.

Saint Hill Release Tally

Releases made at Saint Hill (does not include Releases made by other orgs or field auditors).

Photo 1: Now a Grade IV Release, Amanda Ambrose expresses herself joyfully in a song.

Superb Singer

Richly talented American singer, pianist and recording artiste, AMANDA AMBROSE was decribed recently in one American magazine as "a superb person who also happens to sing and play the piano superbly." Amanda was audited to Grade IV (Ability) Release at the New York Org in summer, 1968. She writes, "Does Scientology work? Just watch me!"

Amanda has performed widely in America, in nightclubs, colleges and in music festivals. She has given concerts in Carnegie Hall and the De la Corte Theatre in New York and appeared in the "Harry Belafonte Presents" television production.

In 1963, Amanda heard about Scientology from bass player BOB MATHEWS, but did not act further. Then, in April, 1968, she was re-introduced to Scientology by leading bass player, CHRIS WHITE, and his wife Marta. Chris was at Saint Hill for Power Processing in 1967.

Soon Amanda was at work on the Hubbard Apprentice Scientologist Course at the New York Org. The day after completing the Course, she flew to Greensboro, North Carolina, to perform at the very exclusive girls' school, Bennett's College. It was her first visit to the South. During lunch, Amanda told the welcoming committee as much as she knew and had experienced about Scientology. As a result, when she walked on the stage that night she received a standing ovation and college authorities had to quieten the audience before Amanda could start her performance.

Now a Grade IV Release with a rapidly expanding career, Amanda has brought her five children, Stephanie, Herbie, Tony, Terry and Amanda into Scientology. All have completed one or more basic training courses and will soon be audited to Grade IV Release at the New York Org.

You can always write to Ron about your case or problems

Celebrities

Celebrities are taking up Scientology. That's the sign.

Remember 20 years ago when artists were taking up psychoanalysis? It's always the beginning of the big win when celebrities — song writers, actors, artists, writers, begin to take something up.

They are very smart to move in just now. We have the VIHs to make certain certain that processing quality is tops tops.

Courses are being streamlined. The whole of Scientology is getting polished up.

For 18 years we've realized it would go as far as it works. Well, it **sure** works.

We're awfully glad to see the big names amongst us. For the kids who worked and stuck with it all these years, that's a sort of acknowledgement we adore.

SO WELCOME, BRIGHT STARS. WELCOME TO A NEW LIFE OF YOUR OWN.

Photo 2: Don Barshay, Grade IV Release, from Philadelphia is another actor to expand his career as a result of Scientology training and processing. Don, who is a Hubbard Qualified Scientologist, signed with the famous Guthrie Theatre in Minneapolis after attaining his Grade IV Release. He intends to take the Solo Course and the Clearing Course in Los Angeles soon and plans to work in the theatre at a new level of freedom and expression.
