THE *VALUE* OF *TRAINING*

by L. Ron Hubbard

My struggle has not been to Clear people. My struggle has been to get other people to bring people to Clear and O.T. Now that we can do that, we've got this planet licked. The lid's off. There's no limit on the following road. We have arrived and it may take some people in Scientology a long time to fully realize it. To grasp exactly what this means for this planet takes quite a bit of looking at.

Three–quarters of Asia became civilized just because a few guys hoped that somebody might sooner or later be able to attain the state of Clear. Three–quarters of Asia. Now what are you sitting with and what do you suppose is going to happen from here? That's why it is a little hard to confront this thing. What we have in Scientology is a technology which is sufficiently powerful, sufficiently big and overwhelming that it actually defies description.

Let's face the reality of this thing. The world confronts several crises. Man's inhumanity to Man is gaining monuments daily. The time to bring a chaos under control is well before it has begun. We're slightly late as it is. Brutally, there is no other organization on Earth that can slow these crises down. Factually there is no other know–how on Earth that can plumb the problems of Man. So we had better get busy.

This is no alarmist statement, you know. We are the people who can confront it. Past Civilizations have vanished, you see. The Chaldean, Babylonian, Egyptian, Chinese, Hindu, Greek, Roman, European — they did vanish. And it was when those societies looked richest that they had already started down. Like this one.

They all failed because they had no know–how about Man. They all dived under from ignorance. Wisdom, real wisdom, could have salvaged any of them. Wisdom can salvage this one. Wisdom held by the many, not one wise man.

We are in a position now to handle our environment smoothly largely and well. We have moved into the future for which we have been striving. We have the Tech.

By Tech is meant technology, referring, of course, to the application of the precise scientific drills and processes of Scientology. Technology means the methods of application of an art or science as opposed to mere knowledge of the science or art itself. One could know all about the theory of motor cars and the science of building them and the art of designing them and still not be able to build, plan or drive one. The practices of building, planning or driving a motor car are quite different from the theory, science and art of motor cars.

Now Tech implies USE. There is a wide gap between mere knowledge and the application of that knowledge. A skilled auditor knows not only Scientology but how to apply the technology to self, preclears and life. An auditor is a Scientologist who can apply Scientology. Thus the technology of Scientology is its actual application to oneself, a preclear or the situations one encounters in life.

It is proven that a person who is technically trained in Scientology is much more able to handle work and personnel than an untrained individual. How can people handle life if they have no expert knowledge of how to handle life? A housewife who does not have professional level skill in Scientology could not expect to run a wholly successful family or keep order in her neighbourhood and keep her family well. A factory foreman could not possibly handle his crews with full effectiveness without training in Scientology skills. The personal assistant to a corporation executive could not do a fully effective job without being a trained Scientologist. A corporation president without a certificate will someday fail.

If you think that a trained Scientologist is someone who only audits then you have a very limited view of Scientology. The trained Scientologist is today's Cause point in an embattled world. The factories, the marts of trade, the homes, the neighborhoods, these are the places we want trained Scientologists applying Scientology technology. In that way alone we're on the busy, still healthy communication lines of the world. If we avoid the throbbing communication lines of the world we will not win soon enough as a group. We want companies functioning better to produce a better civilization. We want races becoming sane and stable assets to their communities. We want neighbourhoods smoothing out.

So get on the active lines of the world and make your presence felt. It takes training to do it. It takes the application of our technology.

I know what the society needs. I know what the society responds to. I've got the data. You and I can do the job which must be done. We have the technology and we can do it now. We have been to some degree searching, all of us. Now we can settle down, learn what is known and start applying.

Keeping Scientology Working

by L. Ron Hubbard

We have some time since passed the point of achieving uniformly workable technology.

The only thing now is getting the technology applied.

If you can't get the technology applied then you can't deliver what is promised. It's as simple as that. If you can get the technology applied, you can deliver what's promised.

The only thing you can be upbraided for by students or pcs is "no results". Trouble spots occur only where there are "no results". Attacks from governments or monopolies occur only where there are "no results" or "bad results".

Therefore the road before Scientology is clear and its ultimate success is assured if the technology is applied.

Getting the correct technology applied consists of:

One: Having the correct technology;
Two: Knowing the technology.
Three: Knowing it is correct.
Four: Teaching correctly the correct technology.
Five: Applying the technology.
Six: Seeing that the technology is correctly applied.
Seven: Hammering out of existence incorrect technology.
Eight: Knocking out incorrect applications.
Nine: Closing the door on any possibility of incorrect technology.
Ten: Closing the door on incorrect application.

One above has been done.

Two has been achieved by many.

Three is achieved by the individual applying the correct technology in a proper manner and observing that it works that way.

Four is being done daily successfully in most parts of the world.

Five is consistently accomplished daily.

Six is achieved by instructors and supervisors consistently.

Seven is done by a few but is a weak point.

Eight is not worked on hard enough.

Nine is impeded by the "reasonable" attitude of the not quite bright.

Ten is seldom done with enough ferocity.

Seven, Eight, Nine and Ten are the only places Scientology can bog down in any area.

The reasons for this are not hard to find. (a) A weak certainty that it works in Three above can lead to weakness in Seven, Eight, Nine and Ten. (b) Further, the not-too-bright have a bad point on the button Self-Importance. (c) The lower the I.Q., the more the individual is shut off from the fruits of observation. (d) The service facs of people make them defend themselves against anything they confront, good or bad and seek to make it wrong. (e) The bank seeks to knock out the good and perpetuate the bad.

Thus, we as Scientologists and as an organization must be very alert to Seven, Eight, Nine and Ten.

In all the years I have been engaged in research I have kept my comm lines wide open for research data. I once had the idea that a group could evolve truth. A third of a Century has thoroughly disabused me of that idea. Willing as I was to accept suggestions and data, only a handful of suggestions (less than twenty) had long run value and **none** were major or basic; and when I did accept major or basic suggestions and used them, we went astray and I repented and eventually had to "eat crow".

On the other hand there have been thousands and thousands of suggestions and writings which, if accepted and acted upon, would have resulted in the complete destruction of all our work as well as the sanity of pcs. So I know what a group of people will do and how insane they will go on accepting unworkable "technology". By actual record the percentages are about twenty to 100,000 that a group of human beings will dream up bad technology to destroy good technology. As we could have gotten along without suggestions, then, we had better steel ourselves to continue to do so now that we have made it. This point will, of course, be attacked as "unpopular", "egotistical" and "undemocratic". It very well may be. But it is also a survival point. And I don't see that popular measures, self-abnegation and democracy have done anything for Man but push him further into the mud. Currently, popularity endorses degraded novels, self-abnegation has filled the South East Asian jungles with stone idols and corpses, and democracy has given us inflation and income tax.

Our technology has not been discovered by a group. True, if the group had not supported me in many ways I could not have discovered it either. But it remains that if in its formative stages it was not discovered by a group, then group efforts, one can safely assume, will not add to it or successfully alter it in the future. I can only say this now that it is done. There remains, of course, group tabulation or coordination of what has been done, which will be valuable – only so long as it does not seek to alter basic principles and successful applications.

The contributions that were worth while in this period of forming the technology were help in the form of friendship, of defense, of organization, of dissemination, of application, of advices on results and of finance. These were great contributions and were, and are, appreciated. Many thousands contributed in this way and made us what we are. Discovery contribution was not however part of the broad picture.

We will not speculate here on why this was so or how I came to rise above the bank. We are dealing only in facts and the above is a fact – the group left to its own devices would not have evolved Scientology but wild dramatization of the bank called "new ideas" would have wiped it out. Supporting this is the fact that Man has never before evolved workable mental technology and emphasizing it is the vicious technology he **did** evolve – psychiatry, psychology, surgery, shock treatment, whips, duress, punishment, etc., ad infinitum.

So realize that we have climbed out of the mud by whatever good luck and good sense, and **refuse** to sink back into it again. See that Seven, Eight, Nine and Ten above are ruthlessly followed and we will never be stopped. Relax them, get reasonable about it and we will perish.

So far, while keeping myself in complete communication with all suggestions, I have not failed on Seven, Eight, Nine and Ten in areas I could supervise closely. But it's not good enough for just myself and a few others to work at this.

Whenever this control as per Seven, Eight, Nine and Ten has been relaxed the whole organizational area has failed. Witness Elizabeth, N. J., Wichita, the early organizations and groups. They crashed only because I no longer did Seven, Eight, Nine and Ten. Then, when they were all messed up, you saw the obvious "reasons" for failure. But ahead of that they ceased to deliver and **that** involved them in other reasons.

The common denominator of a group is the reactive bank. Thetan's without banks have different responses. They only have their banks in common. They agree then only on bank principles. Person to person the bank is identical. So constructive ideas are **individual** and seldom get broad agreement in a human group. An individual must rise **above** an avid craving for agreement from a humanoid group to get anything decent done. The bank-agreement has been what has made Earth a Hell – and if you were looking for Hell and found Earth, it would certainly serve. War, famine, agony and disease has been the lot of Man. Right now the great governments of Earth have developed the means of frying every Man, Woman and Child on the planet. That is Bank. That is the result of Collective Thought Agreement. The decent, pleasant things on this planet come from **individual** actions and ideas that have somehow gotten by the Group Idea. For that matter, look how we ourselves are attacked by "public opinion" media. Yet there is no more ethical group on this planet than ourselves.

Thus, each one of us can rise above the domination of the bank and then, as a group of freed beings, achieve freedom and reason. It is only the aberrated group, the mob, that is destructive.

When you don't do Seven, Eight, Nine and Ten actively, you are working for the Bank dominated mob. For it will surely, surely (a) introduce incorrect technology

The Modern Science of Mental Health

by L. RON HUBBARD

This book gives the discovery of the secrets of the human mind – the major breakthrough in Man's understanding of himself, discovered and developed by L. Ron Hubbard.

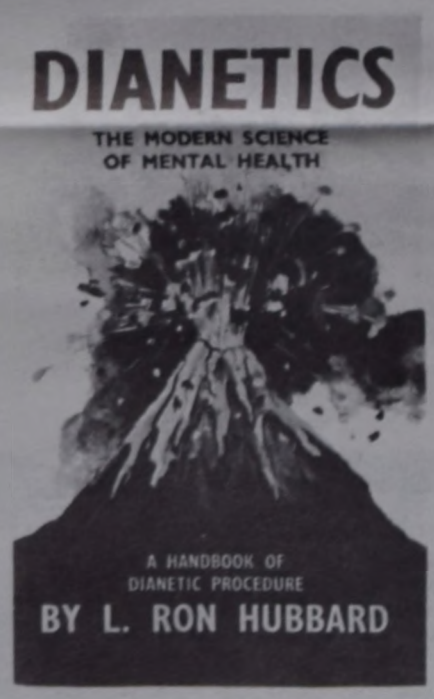

It gives simply and clearly the exact anatomy of the human mind and mental image pictures.

Here you will find a full description of the basis of human reaction – what makes people do strange and peculiar things, why they are intolerant, why they are at war with one another.

This book contains the answer to human aberration!

This is the book for your friends. Buy it in half dozen copy lots. Costs only $5.00 per book. That's $30.00 for six.

and swear by it, (b) apply technology as incorrectly as possible, (c) open the door to any destrictive idea, and (d) encourage incorrect application.

It's the Bank that says the group is all and the individual nothing. It's the Bank that says we must fail.

So just don't play that game. Do Seven, Eight, Nine and Ten and you will knock out of your road all the future thorns.

Here's an actual example in which a senior executive had to interfere because of a pc spin: A Case Supervisor told Instructor A to have Auditor B run Process X on Preclear C. Auditor B afterwards told Instructor A that "It didn't work." Instructor A was weak on Three above and didn't really believe in Seven, Eight, Nine and Ten. So Instructor A told the Case Supervisor "Process X didn't work on Preclear C." Now **this** strikes directly at each of One to Six above in Preclear C, Auditor B, Instructor A **and** the Case Supervisor. It opens the door to the introduction of "new technology" and to failure.

What happened here? Instructor A didn't jump down Auditor B's throat, that's all that happened. This is what he **should** have done: Grabbed the Auditor's report and looked it over. When a higher executive on this case did so she found what the Case Supervisor and the rest missed: that Process X **increased** Preclear C's TA to 25 TA divisions for the session but that near session end Auditor B Qed and Aed with a cognition and abandoned Process X while it still gave high TA and went off running one of Auditor B's own manufacture, which nearly spun Preclear C. Auditor B's I.Q. on examination turned out to be about 75. Instructor A was found to have huge ideas of how you must never invalidate anyone, even a lunatic. The Case Supervisor was found to be "too busy with admin to have any time for actual cases."

All right, there's an all to typical example. The **Instructor** should have done Seven, Eight, Nine and Ten. This would have begun this way. Auditor B: "That Process X didn't work." Instructor A: "**What exactly did you** do wrong?" Instant attack. "Where's your auditor's report for the session? Good. Look here, you were getting a lot of TA when you stopped Process X. What did you do?" Then the Pc wouldn't have come close to a spin and all four of these would have retained their certainty.

In a year, I had four instances in **one** small group where the correct process recommended was reported not to have worked. But on review found that each one had (a) increased the TA, (b) had been abandoned, and (c) had been falsely reported as unworkable. Also, despite this abuse, in each of these four cases the recommended, correct process cracked the case. Yet they were reported as **not** having worked!

Similar examples exist in instruction and these are all the more deadly as every time instruction in correct technology is flubbed, then the resulting error, uncorrected in the auditor, is perpetuated on every pc that auditor audits thereafter, So, Seven, Eight, Nine and Ten are even more important in a course than in supervision of cases.

I recall one student who was squirreling on an Academy course and running a lot of off-beat whole track on other students after course hours. The Academy students were in a state of electrification on all these new experiences and weren't quickly brought under control and the student himself never was given the works on Seven, Eight, Nine and Ten so they stuck. Subsequently, this student prevented another squirrel from being straightened out and his wife died of cancer resulting from physical abuse. A hard, tough instructor at that moment could have salvaged two squirrels and saved the life of a girl. But no, students had a right to do whatever they pleased.

Squirreling (going off into wierd practices or altering Scientology) only comes about from non-comprehension. Usually the non-comprehension is not of Scientology but some earlier contact with an off-beat humanoid practice which in its turn was not understood.

When people can't get results from **what they think** is standard practice, they can be counted upon to squirrel to some degree. The most trouble in the past two years came from orgs where an executive in each **could not** assimilate straight Scientology. Under instruction in Scientology they were unable to define terms or demonstrate examples of principles. And the orgs where they were got into plenty of trouble. And worse, it could not be straightened out easily because neither one of these people could or would duplicate instructions. Hence, a debacle resulted in two places, directly traced to failures of instruction earlier. So proper instruction is vital. The D of T and his Instructors and all Scientology Instructors must be merciless in getting Four, Seven, Eight, Nine and Ten into effective action. That one student, dumb and impossible though he may seem and of no use to anyone, may yet some day be the cause of untold upset because nobody was interested enough to make **sure** Scientology got home to him.

With what we know now, there is no student we enroll who cannot be properly trained. As an instructor, one should be very alert to slow progress and should turn the sluggards inside out personally. No **system** will do it, only you or me with our sleeves rolled up can crack the back of bad studenting and we can only do it on an individual student, never on a whole class only. He's slow – something is awful wrong. Take **fast** action to correct it. Don't wait until next week. By then he's got other messes stuck to him. If you can't graduate them with their good sense appealed to and wisdom shining, graduate them in such a state of shock they'll have nightmares if they contemplate squirreling. Then experience will gradually bring about Three in them and they'll **know** better than to chase butterflies when they should be auditing.

When somebody enrolls, consider he or she has joined up for the duration of the universe = never permit an "open-minded" approach. If they're going to quit let them quit fast. If they enrolled, they're aboard, and if they're aboard, they're here on the same terms as the rest of us – win or die in the attempt. Never let them be half-minded about being Scientologist . The finest organizations in history have been tough, dedicated organizations. Not one mamby-pamby **bunch of pantywaist dilettantes** have ever made anything. It's a tough universe. The social veneer makes it seem mild. But only the tigers survive – and even **they** have a hard time. We'll survive because we are tough and are dedicated. When **we do** instruct somebody properly he becomes more and more tiger. When we instruct half-mindedly and are afraid to offend, scared to enforce, we don't make students into good Scientologists and that let's everybody down. When Mrs. Pattycake comes to us to be taught, turn that wandering doubt in her eye into a fixed, dedicated glare and she'll win and we'll all win. Humour her and we all die a little. The proper instruction attitude is, "You're here so you're a Scientologists. Now we're going to make you into an expert auditor no matter what happens. We'd rather have you dead than incapable."

So the ogre which might eat us up is not the government or the High Priests. It's our possible failure to retain and practice our technology.

An Instructor or Supervisor or Executive **must** challenge with ferocity instances of "unworkability." They must uncover what **did** happen, what **was** run and what was done or not done.

If you have One and Two, you can only acquire Three for all by making sure of all the rest.

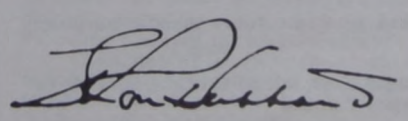

We're not playing some minor game in Scientology. It isn't cute or something to do for lack of something better.

The whole agonized future of this planet, every Man, Woman and Child of it, and your own destiny for the next endless trillions of years depends on what you do here and now with and in Scientology.

This is a deadly serious activity. And if we miss getting out of the trap now, we may never again have another chance.

Remember, this is our first chance to do so in all the endless trillions of years of the past. Don't muff it now because it seems unpleasant or unsocial to do Seven, Eight, Nine and Ten.

Do them and we'll win.

Scientology in Business

Roger Boswarva describing the workability of the Hubbard Scientology Organization Board to one of his many clients.

Former Australian surf swimming champion, who used Scientology in the successful coaching of other athletes in Australia, ROGER BOSWARVA has now applied Scientology to the field of Management Consultation with spectacular results.

Two of his clients were listed by the TIMES as two of the three insurance companies with "easily the best performance of the year" in terms of percent increase in new business.

Roger's clients have written glowing reports on the success of his Scientology business training courses. The reports contain such remarks as: "Almost unbelievably successful. Regional sales figures up 383.4% on the figure prior to his counsel". "I personally have gained greatly from his counsel." "The greatest month ever."

Following these outstanding successes, Roger joined one of England's well established management and industrial consultancy groups. Upon commencement, he discovered several areas of that company's practices and structure which could be immediately improved by the introduction of Scientology principles.

So spectacular were the improvements, in the view of the company's executives, that the Managing Director promoted him to the post of Company Coordinator for all internal and external services and made him one of the four highest paid executives in the company, with a percentage of all the company's income. This all occurred within four days of his joining the company.

"This," says Roger, "is how valuable this group of experts found Scientology to be."

On May 9th, 1970 The Los Angeles Organization, The American Saint Hill Organization and The Advanced Organization will sponsor:

1st GRAND NATIONAL CONVENTION OF DIANETICS & SCIENTOLOGY

Celebrating (the 20th Anniversary of DIANETICS).

WATCH FOR THIS SPECTACULAR EVENT.

FALSE GRADES

Notice is hereby served that any person seeking to enrol on a Saint Hill Solo Audit Course or at an Advanced Organization, must display his duly signed Dianetics and lower grade certificates. These are usually given in lower Orgs.

It has come to our attention that persons have enrolled on Solo and Clearing Courses without ever having had their Dianetics or Lower Grades run, and then go about saying that they had few gains.

It is very difficult to get auditing gains without auditing!

SOLUTION IN AUDITOR 50!

UND THE WORLD

PRO COURSE STUDENTS TRIUMPH

Two hundred reporters, covering the Academy Awards presentation in Los Angeles, waited while LARRY REAVES, Grade VI Release, interviewed the Oscar winners as they came off stage. Every award winner spoke first to Larry, who was there as a reporter for the international publication of the Church of Scientology, THE AUDITOR.

On the 14th of April, Larry and JOHN RAFANELLO, Class VI, OT III, students on the PRO (Public Relations Officer) Course, given by the Sea Org at the Advanced Organization, Los Angeles, heard that the 14th Edition Presentation of the Academy of Motion Pictures Arts and Sciences was taking place that night. Quickly they arranged for press cards, gathered photographic equipment and hurried to take their places for the presentation, John in the photographers' room and Larry with the reporters. The response at the Academy to their very late request for press cards was, "Oh wow! The Church of Scientology, oh me! Come right down and get your press cards."

In the Academy, 200 reporters were waiting to interview the stars but every single star who came off the floor of the Academy met Larry first. He so controlled the communication line that no other reporter could flow in until Larry had finished and then allowed them to use his communication line. Each star was validated for their win and then asked for their views on Human Rights.

Here is how Larry described the scene:

John Rafanello (standing with camera) and Larry Reaves (getting into car) on their way to the 14th Edition Presentation of the Academy of Motion Pictures. A Sea Org Officer looks on.

"It was a fastastic evening. Every star that came up met me first. The people that attended, the guard, and the staff of this place watched us everywhere we went. We had the full attention. When **you have Ron's data, you can take over, wherever you go.**

Really amazing."

JAZZ SINGER

Amanda Ambrose, Grade VA Release and currently enrolled on the Hubbard Standard Dianetics Course, is a celebrity of some notability.

As an entertainer, Amanda has made news in every phase of the entertainment scene. The versatile singer-pianist made her New York Concert debut in April, 1967 at Carnegie Hall, where the young crowds wouldn't let her off the stage.

Amanda heard of Scientology as early as 1963 but did not investigate it until 1968 when she promptly received her Grade IV auditing. Upon completion of her Grades, Amanda wrote!

"Does Scientology work? Just watch me!"

Just recently, Amanda joined the Sea Organization in order to better promote Scientology through *Celebrity Center in Los Angeles, California. Of this event she says: "I want the world CLEAR . . . and I always get what I want!"

Amanda has starred in several musicals, appeared on television, and toured the United States, (once with Harry Belafonte), and Canada appearing in Clubs and Colleges. She has had reviews like the following:

"The kind of electric and eclectic singer *cum* piano with which we are so rarely blessed anymore".

Since 1968 Amanda's five children have been processed to Grade IV Release and Amanda and her children plan to continue their training to Class VIII.

Amanda has appeared professionally at two of The American Saint Hill's Congresses and was a smashing success at both.

* Celebrity Center: a Sea Org Mission set up permanently in Los Angeles to promote Scientology via Celebrities.

LATE NEWS:

Amanda has been chosen as a contestant in the Playboy Jazz Poll!

Former HDAs, HPAs

swedish sculptress

Returning from a two week visit to Iceland, where she had been invited to conduct a course in clay and plaster sculpture, successful sculptress GUN LANCIAI, Grade VA Release of Göteborg, Sweden, was soon a student herself. She joined 40 other students on a special Crash Training Program at the Göteborg Org, taught by a Sea Org Class VIII Auditor from the Advanced Org Saint Hill Denmark. She graduated as a Class IV Auditor.

At one point in her career, Gun had abandoned sculpture. Then, in May of 1967, Gun was introduced to Scientology by a friend. After auditing to Grade IV Release at the Saint Hill Foundation in January, 1968, Gun found she could sculpt again. Eight months later she held her first exhibition in her own home. Two newspapers covered the event, and the resulting happy pictures and story brought 170 people to her home in five days. Gun sold almost all of her work and received the invitation to Iceland.

After her Power Processing at Saint Hill in January, 1969, Gun went to Iceland to teach her art course. She applied Scientology communication data in teaching the course, and both she and her 80 students enjoyed the course immensely.

Gun, now a Class IV Auditor, looks forward to further auditor training, and to using the understanding of people she is gaining in Scientology to further develop her sculpture.

writer's wins

Gordon Mustain, the highly successful writer, smiles over his typewriter.

For GORDON MUSTAIN, Scientology has meant one win after another. Since becoming a Scientologist, he has come into his own as an author, appeared in a film and has applied Scientology administration and technology in the newspaper world with great success.

Gordon heard about Scientology from friends in Portland, Oregon, where he read "Dianetics: The Modern Science of Mental Health" by L. Ron Hubbard in December 1967. Soon he was taking his lower level training and auditing at the Portland Franchise Center. After joining the staff of the Seattle Org, he obtained a $1,000 display booth for the org at the Seattle "Teen Fair" for only $350! In August 1968, he took part in the movie "Paint Your Wagon" and then moved to Los Angeles.

Since 1964 Gordon had been working on a trilogy of novels without being able to conclude it. Following his wins in Scientology, he was able to find the right agent and to complete the trilogy within one month! The first part "It's Raining, It's Pouring" is being considered by movie actor, James Coburn, for a movie script. Leading publishers are negotiating for the book.

During this time, Gordon joined the staff of the influential Los Angeles newspaper, THE L.A. FREE PRESS, where he applied Scientology administration techniques with such effect that he was made Production Manager. As a result, the newspaper began to come out on schedule, circulation rose and its income increased. Gordon wrote and had published in THE L.A. FREE PRESS a fine introductory article about Scientology which had excellent results in the Los Angeles area. Actor Jim McMullen, OT VI, was introduced to Scientology by this article and he, in turn, introduced actress Helene Ireland, OT VI, to Scientology.

Gordon and his wife GAYLE, have now applied to join the Sea Org to continue their contribution to Scientology expansion.

ORGANIZATION NEWS

NEW YORK

In a ceremony performed earlier this year before the town council, REV. ERIC BARNES presented a Citation of Integrity to Patrolman Chester Cebula of the Saddlebrook, New Jersey, police department. Cebula was seriously wounded five times while stopping a bank robbery in March. Patrolman Cebula's Citation read, "The Church of Scientology, with gratitude and pride, takes pleasure in awarding this Citation of Integrity to Chester Cebula for placing the safety of the citizens given into his safekeeping above his own life and, in the performance of his sworn duties, protecting the life of another human being. He is hereby validated for his devotion to duty and his desire to preserve and keep safe the lives and property of members of his community"

DETROIT

Detroit Org, planning to move to larger, better quarters, held a party to celebrate their expansion. Michigan Scientologists were delighted by the attendance of the world's first Clear, JOHN McMASTER, Class VIII, OT VI.

On April 12th and 13th, John had been one of the speakers at the outstandingly successful "New Horizons" Congress which featured international concert pianist and Class VIII Auditor, MARIO FENINGER, famous singer and pianist, AMANDA AMBROSE, guitarist DARIUS BRUBECK, now a Class II Auditor, as well as D. PAUL KLEIN, Class VIII, from the Minneapolis Org.

MIAMI

Due to the combined activity of all the enthusiastic staff at Miami Org most Miami citizens know of Scientology and are interested in knowing more about it. Earlier in the year ERIC BARNES visited the Org from New York and spoke at Dade Junior College and on the WKAT radiostation. A local radio broadcaster, interested in Scientology in the past, is eager to help disseminate Scientology on his local program.

LOS ANGELES

Staff members of the Los Angeles Org have been giving lectures in the surrounding Franchise centers with the result that the excellent quality of the Los Angeles Academy is more widely known than ever and many more students are starting their Academy training.

total freedom congress january 3 & 4, 1970

PREVIEW OF THE TOTAL FREEDOM CONGRESS.
There will be taped lectures by L. Ron Hubbard, giving you **new** data, straight from the Commodore himself. Seminars will be held throughout the Congress.

Lecturers such as John McMaster, Clear No. 1, and Alan Walter, successful Director of many Franchises throughout the United States, will be speaking. Look forward to hearing lots of good news, as these renowned lecturers are deeply involved in the very pulse of Scientology on the Western Hemisphere.

The evening of January 4th promises to be exciting and funfilled. You will be entertained by the "Disneyland Dateliners" at the Congress Party. Dance, Sing along or just sit and listen if you like. The theme is: "Enjoy yourself."

All this and more.

Come . . . . We're offering you Total Freedom.

FOCUS ON SUCCESS

TRIPLE GRADE AUDITING BRINGS NEW GAINS

Wonderfully expanded gains are now available from processing up to Grade IV Release with the advent of Triple Grade auditing. In January and February of this year, L. Ron Hubbard released the new Triple Grade or Triple Flow technology. By FLOW is meant an impulse or direction of energy particles or thought or masses between terminals. It is essentially a three terminal universe in actual fact. The discovery of this led to Triple Grades. At each Grade of Release, up to and including Grade IV, Triple Grades are now being run. This means handling three of available flows, the three major ones, self to another, another to self, another to others. The result is greatly increased stability for the gains at these Levels.

Triple Grades are now being taught at Level IV in the Academies of Scientology Orgs, while on the Saint Hill Special Briefing Course, auditors learn the full technology of the Triple Grades at Level V.

Student auditors, learning to audit the Triple Grades technology, gain great confidence in their ability to audit extremely well with outstanding results for their preclears.

Preclears audited on Triple Grades have been greatly enthusiastic about their gains, and continue to be so!

The following letters show the enthusiasm of preclears and auditors for Triple Grades!

"Level V of the Saint Hill Special Briefing Course was one of the simplest and most exciting of the levels. The triple flow materials are magnificent!

"Running them is a walk in the park and the results are marvellous for both the auditor and the preclear. Like a ballet with a cognition on each motion."

Rick Melrose

"For me Level V was the most wonderful level on the Saint Hill Special Briefing Course as all the levels are consolidated into it. I proved to myself that I could really audit a preclear with no doubts in my mind of results. My preclear just flew through his triple grades and has had fantastic gains from them.

"Thank you, Ron, for your wonderful Standard Tech. It is so beautiful and so right. It has shown me that only Standard Tech is the way up to Total Freedom. I can now show others the way as you have shown me."

Regina Ferguson

"I have had fantastic wins auditing on triple grades. It's the first time I feel I've really been auditing and the first time I've realized I am a good auditor.

"Both my preclears have had terrific gains from their triple grades and it's marvellous that I have been able to help them with this. Thank you, Ron."

Rebecca Weiss

"It is just the most wonderful auditor experience – auditing the triple grades and seeing the preclear before you brighten up and glow with gains.

"Thank you, Ron, for these beautiful processes you've worked out for even more gains for the preclear. The auditor also gains by auditing them!"

Helen Swart

"Level V is just marvellous. It is a great validation as an auditor to be able to sit down and audit so fast and easily. I didn't think it possible to achieve so much in such a short period of time, with fantastic gains for the preclear."

Dawn Mounsey

"Within a very few hours I gained myself an infinite number of viewpoints and a magnificent new outlook on life. Now this universe looks so shiny and bright and it's so great to be within it.

"My awareness has increased tremendously and I feel so calm and in harmony with the surrounding environment and all its contents. It's just great to BE! And I can say I haven't felt so good at any time in this lifetime."

Poet's Corner

TO THE COMMODORE

There is a man
Stands far above
Any man
Any group
This planet yet has seen.

He has come
From his games of milder
times and places
And he has chosen
To set straight this game
gone far awry

He stands taller
Than any challenge this
planet has bared
And has carved a swift
flowing river
Into the granite mass of black ignorance

He has gathered souls
Who've tried and failed
And has rekindled their past visions
Showed them the way
to their strength
And freely accepted their
loyalty and help.

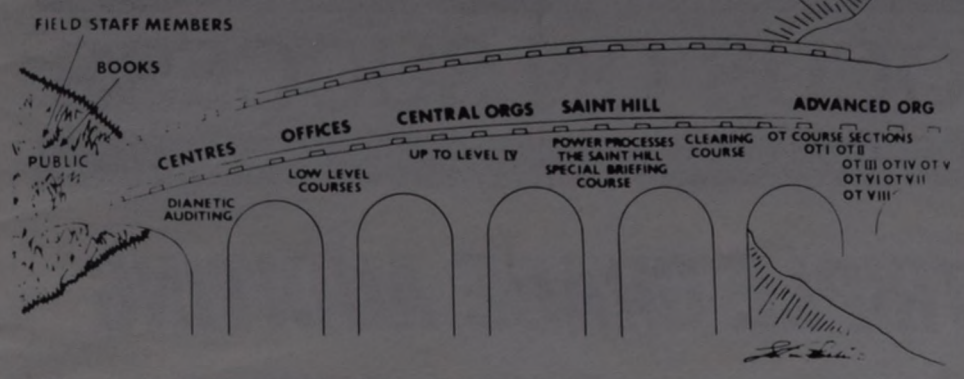

In this monumental task
Of righting a planet gone
off course,
And again on the brink
of destruction
He is winning.
For the first time any man has won

We will follow him.
We will lead others.
We will lend a hand for
our freedom
We will repay him
With Victory well earned.
